

Court settles will dispute in favor of Mrs. McKnight

Mpls Trib.
11-2-73
A probate struggle between heirs of the \$3.5-million to \$4-million Henry T. McKnight estate has been settled in Carver County Court in favor of McKnight's widow and her two children.

According to the agreement, an amendment to McKnight's will that disinherited them will be ignored. Mrs. McKnight will get half of the estate. The other half will go to her children and to McKnight's three children, all of whom are adults.

McKnight, a land develo-

per and former state senator, amended his will a month before he died last December. The amendment said he disinherited his wife, Grace, because they were separated and were considering divorce.

The estate includes a \$1.2-million investment in Cedar-Riverside Associates, Inc., a large cattle farm in Carver County, a large interest in Jonathan Development Corp., a house in Vail, Colo., and other investments.
