

### DEATH OF REPRESENTATIVE RICHARDSON.

Hon. T. A. Richardson, of Winona, died at that place yesterday morning of quick consumption. He was only 26 years of age, and universally respected. At the time of his election he was in average good health, but contracted a severe cold, which settled into consumption and a rapid decline. The second week of the session he came up to the capital, took his seat, but was evidently so much in ill health that he returned to his home in Winona. He was a democrat in politics, a young man of much character and excellent abilities, and was widely and justly popular at home and among his acquaintances.
