REP. TEMAN THOMPSON

First district—Fillmore county

Rep. Teman Thompson is a respected, able five-term veteran with a deep interest in his fellow man.

It accounts for his long record on the house welfare committee, an assignment he always requests, and his chairmanship of former Gov. Anderson's advisory commission on the aging. It also helps account for a long stewardship in the community life of Lanesboro—town clerk, Village clerk, councilman and mayor.

Thompson

His legislative service to Fillmore county contributed substantially to his lack of opposition for re-election.

Thompson, 68, retired some time ago from the furniture and undertaking business he conducted for 40 years. But he retains other business interests. He is a director and stockholder in the State Bank of Lanesboro, president of the Lanesboro Telephone Co., and is president of the Fillmore county fair board.

Thompson's interests in affairs of the southeast section of the state where he has spent his life are reflected in his house committee assignments—drainage and soil conservation, game and fish, general legislation, taxes and welfare. He's on the legislative research committee.

Thompson and his wife have one daughter.
