

Policy Purview

The specific policy purview of the Education Committee is not set by rule but rather is governed by the decisions of House leadership. There is overlap between the Education Policy and Education Finance Committees, and many bills are heard by both committees. This document describes some of the main areas of policy in statute that have traditionally been considered under the purview of the Education Policy Committee.

Education Code

Chapter 120A: Education code; attendance; school calendar

- Mission statement for public education
- Definitions
- Compulsory instruction and attendance
