H. F. No. 2444, A bill for an act relating to transportation; establishing the Minnesota state transportation fund for the appropriation of money to subdivisions of the state for public lands, buildings, and capital improvements needed for public transportation; authorizing the issuance of state bonds for the purposes of the trunk highway fund and the transportation fund; and appropriating money in connection therewith.

Reported the same back with the following amendments:

Strike everything after the enacting clause and insert:

"Section 1. [PURPOSE.] It is determined that there is a critical need to preserve and improve transportation facilities throughout the state which cannot be met by local effort without state financial assistance. The rate of completion of the interstate portion and upgrading of the remainder of the state's highway system has fallen behind the rate of traffic growth, resulting in serious traffic hazards and delays that affect the personal safety, quality of life, and economic welfare of citizens. The highway traffic problem is accentuated by the deficiency in the quality and quantity of public transportation available in urban areas, large and small. This deficiency is itself largely caused by the inability of public transportation to compete economically with private automobiles, without financial support comparable to that given highway construction. Its most serious effect is to limit severely the life and liberty of many persons who because of age, physical or mental characteristics, or economic circumstances are unable to use automobiles. For many more it compels the use of automobiles, often more than one per family, for daily attendance at work and school and for transportation in emergencies, notwithstanding cost that reduce remaining living resources below poverty levels, and notwithstanding unacceptable safety hazards often resulting from physical handicaps or inexperience. And for many high cost makes it impossible to acquire and maintain vehicles that can operate at acceptable safety and pollution control levels, thus aggravating the traffic and pollution hazards created by sheer numbers of vehicles. Capital and maintenance cost of the principal arterial highways of this state cannot be adequately met from existing sources of funds. Similar costs of adequate public transportation in urban areas cannot be met by user fees without subsidy, or even with subsidy to the extent this is possible from property taxes or other resources available to local units of government. It is determined that state financial assistance in meeting the capital cost of public transportation in urban areas and constructing and reconstructing the state's principal arterial highways is a proper function of state government and is necessary to protect the safety and the personal and economic welfare of the citizens of the state at large.

Sec. 2. [PRINCIPAL ARTERIAL HIGHWAY BOND AUTHORIZATION AND APPROPRIATION.] Subdivision 1.

The state auditor is authorized and directed, upon request of the commissioner of transportation, to issue and sell Minnesota state principal arterial bonds in accordance with the provisions of section 3 and Article IX, Section 6 of the Constitution, in an aggregate principal amount not to exceed \$120,000,000, which sum, or so much thereof as shall be required, is appropriated from the proceeds of such bonds to the commissioner of transportation for grants to counties and municipalities for use in constructing and reconstructing the principal arterial highways of this state. This appropriation shall not lapse or cancel until the purpose for which it is made has been accomplished or abandoned. The amount of each grant approved for disbursement shall be and remain appropriated for that purpose until the grant is fully disbursed or part of all thereof is revoked by the department of transportation.

Subd. 2. The department of transportation shall promulgate regulations, standards, and priorities for the administration of grants authorized in accordance with subdivision 1.

Subd. 3. Applications by counties and municipalities for grants for the funds provided for by subdivision 1 shall be made through regional planning agencies to the department of transportation on forms requiring information prescribed by the regulations of the department of transportation. The regional agency shall certify to the department of transportation those applications which appear to meet the standards and criteria set forth by the department of transportation and the regulations promulgated hereunder, and the department of transportation shall direct grants to be disbursed on the basis of the standards, criteria and priorities established in its regulations and in this section; provided that no disbursement shall be made until and unless the agency has by resolution determined the total estimated cost of the project, and ascertained that its financing is assured by the appropriation of the proceeds of bonds or other funds of the counties and municipalities sufficient to pay the estimated cost in excess of the grant, including funds to be granted to it by the federal government if the department ascertains that such funds are then appropriated and allocated by the federal government to projects within the state and that the projects have complied with all conditions under federal law and regulations for a grant of the nature and in the amount involved.

Sec. 3. [PRINCIPAL ARTERIAL BONDS.] Subdivision 1. For the purpose of providing money appropriated to the counties and municipalities of the state from the principal arterial highway funds authorized by section 2 for constructing and reconstructing the state's principal arterial highways, in accordance with section 2, when authorized by law and requested by the commissioner of transportation, the state auditor shall sell and issue bonds of the state of Minnesota for the prompt and full payment of which, with interest thereon, the full faith, credit, and taxing powers of the state are irrevocably pledged. Bonds shall be issued pursuant to this section only as authorized by a

law specifying the purpose thereof and the maximum amount of the proceeds authorized to be expended for this purpose. Any act authorizing the issuance of bonds for this purpose, together with this section, constitutes complete authority for such issue, and such bonds shall not be subject to restrictions or limitations contained in any other law.

Subd. 2. Upon request and authorization as provided in subdivision 1 the state auditor shall sell and issue Minnesota state principal arterial bonds in the aggregate amount requested, upon sealed bids and upon such notice, at such price, in such form and denominations, bearing interest at such rate or rates, maturing in such amounts and on such dates, without option of prepayment or subject to prepayment upon such notice and at such times and prices, payable at such bank or banks within or outside the state, with such provisions for registration, conversion, and exchange and for the issuance of notes in anticipation of the sale or delivery of definitive bonds, and in accordance with such further regulations as the auditor shall determine, subject to the approval of the attorney general, but not subject to the provisions of sections 15.0411 to 15.0422. The bonds shall be executed by the state auditor and attested by the state treasurer under their official seals. The signatures of the officers on the bonds and any appurtenant interest coupons and their seals may be printed, lithographed, engraved, or stamped thereon, except that each bond shall be authenticated by the manual signature on its face of one of the officers or of an officer of a bank designated by them as authenticating agent. The state auditor shall ascertain and certify to the purchasers of the bonds the performance and existence of all acts, conditions and things necessary to make them valid and binding general obligations of the state of Minnesota, subject to the approval of the attorney general.

Subd. 3. All expenses incidental to the sale, printing, execution, and delivery of bonds pursuant to this section, including but not limited to actual and necessary travel and subsistence expenses of state officers and employees for such purposes, shall be paid from the state principal arterial funds, and the amounts necessary therefor are appropriated from that fund; provided that if any amount is specifically appropriated for this purpose in an act authorizing the issuance of bonds pursuant to this section, such expenses shall be limited to the amount so appropriated.

Subd. 4. The state auditor shall maintain in the state bond fund a separate bookkeeping account which shall be designated as the state principal arterial bond account, to record receipts and disbursements of money transferred to the fund to pay Minnesota state principal arterial bonds and income from the investment of such money, which income shall be credited to the account in each fiscal year in an amount equal to the approximate average return that year on all funds invested by the state treasurer, as determined by the treasurer, times the average balance in the account that year.

Subd. 5. The premium and accrued interest received on each issue of Minnesota state principal arterial bonds shall be credited

to the bond account. In order to reduce the amount of taxes otherwise required to be levied, there shall also be credited to the bond account from the general fund in the state treasury, on November 1 in each year, a sum of money sufficient in amount, when added to the balance then on hand therein, to pay all Minnesota state principal arterial bonds and interest thereon due and to become due to and including July 1 in the second ensuing year. All money so credited and all income from the investment thereof is annually appropriated to the bond account for the payment of such bonds and interest thereon, and shall be available in the bond account prior to the levy of the tax in any year required by the Constitution, Article IX, Section 6, Subdivision 4. The state auditor and treasurer are directed to make the appropriate entries in the accounts of the respective funds.

Subd. 6. On or before December 1 in each year the state auditor shall levy on all taxable property within the state whatever tax may be necessary to produce an amount sufficient, with all money then and theretofore credited to the bond account, to pay the entire amount of principal and interest then and theretofore due and principal and interest to become due on or before July 1 in the second year thereafter on Minnesota state principal arterial bonds. This tax shall be levied upon all real property used for the purposes of a homestead, as well as other taxable property, notwithstanding the provisions of section 273.13, subdivisions 6 and 7, and shall be subject to no limitation of rate or amount until all such bonds and interest thereon are fully paid. The proceeds of this tax are appropriated and shall be credited to the state bond fund, and the principal of and interest on the bonds are payable from such proceeds, and the whole thereof, or so much as may be necessary, is appropriated for such payments. If at any time there is insufficient money from the proceeds of such taxes to pay the principal and interest when due on Minnesota state principal arterial bonds, such principal and interest shall be paid out of the general fund in the state treasury, and the amount necessary therefor is hereby appropriated.

Sec. 4. [TRANSPORTATION BOND AUTHORIZATION AND APPROPRIATION.] The state auditor is authorized and directed, upon request of the commissioner of transportation, to issue and sell Minnesota state transportation bonds in accordance with the provisions of section 6 and of the Constitution, Article IX, Section 6, in an aggregate principal amount not to exceed \$80,000,000, which sum, or so much thereof as shall be required, is appropriated from the proceeds of the bonds to the Minnesota state transportation fund created in section 4, and shall be used, with any other money in that fund, solely for the purpose of providing money which is hereby appropriated from that fund to subdivisions of the state for the acquisition and betterment of public land and buildings and other public improvements of a capital nature needed to provide adequate public transportation in urban areas, in accordance with the provisions of section 5. This appropriation shall not lapse until the purpose for which it is made has been accomplished or abandoned. The amount of each grant approved for disbursement

from the Minnesota state transportation fund shall be and remain appropriated for that purpose until the grant is fully disbursed or part or all thereof is revoked by the department of transportation.

Sec. 5. [MINNESOTA STATE TRANSPORTATION FUND.] Subdivision 1. A Minnesota state transportation fund is created as a separate bookkeeping account in the general books of account of the state, to record receipts of the proceeds of state bonds and any other money appropriated to the fund and disbursements from the fund to subdivisions of the state for the acquisition and betterment of public land and buildings and other public improvements of a capital nature needed to provide adequate public transportation in urban areas, in accordance with the long-range state policies and purposes defined in subdivision 2, and in accordance with standards established in regulations to be adopted by the department of transportation pursuant to law, and to be prepared in consultation with the regional development commissions and the metropolitan council established under the provisions of Minnesota Statutes, Sections 462.381 to 462.396 and Chapter 473B, referred to in this section as "regional planning agencies", and in consultation with the "subdivisions" defined and referred to in this section. "Subdivisions" referred to in this section include the metropolitan transit commission created by Minnesota Statutes, Chapter 473A, and any other public body now or hereafter given power by law or a city charter to operate public transportation facilities in any defined area, and any city, village, or borough outside the area of operation of such a public body.

Subd. 2. It is the policy of the state to assist its subdivisions in providing, so far as possible, public transportation facilities in all urban areas within the state by providing state funding for public transportation capital improvements. The department of transportation and regional planning agencies are directed to prepare and revise annually a program of capital grants to subdivisions for specific projects which will implement this plan and policy. Capital costs eligible to be paid from such grants shall include all expenses of the kinds enumerated in Minnesota Statutes, Section 475.65.

Subd. 3. The department of transportation shall promulgate regulations for the administration of grants authorized to be made from the fund.

Subd. 4. The regulations of the department shall provide that a high priority shall be given to applications from subdivisions which, because of limited tax base, excessive bonded indebtedness, or critical conditions of public transportation service, would face extreme financial hardship without assistance from the state transportation fund, and to applications for systems to serve more than one municipality.

Subd. 5. Applications by subdivisions for grants from the fund shall be made through regional planning agencies to the

department of transportation on forms requiring information prescribed by the regulations of the department of transportation. The regional agency shall certify to the department of transportation those applications which appear to meet the standards and criteria set forth by the department of transportation and the regulations promulgated hereunder, and the department of transportation shall direct grants to be disbursed from the fund on the basis of the standards, criteria and priorities established in its regulations and in this section; provided that no disbursement shall be made until and unless the agency has by resolution determined the total estimated cost of the project, and ascertained that its financing is assured by the appropriation of the proceeds of bonds or other funds of the subdivision to pay the estimated cost in excess of the grant, including funds to be granted to it by the federal government if the department ascertains that such funds are then appropriated and allocated by the federal government to projects within the state and that the subdivision has complied with all conditions under federal law and regulations for a grant of the nature and in the amount involved.

Sec. 6. [MINNESOTA STATE TRANSPORTATION BONDS.] Subdivision 1. For the purpose of providing money appropriated to subdivisions of the state from the Minnesota state transportation fund for the acquisition and betterment of public land, buildings, and improvements of a capital nature needed to provide adequate public transportation in urban areas in accordance with the provisions of section 5, when authorized by law and requested by the commissioner of transportation, the state auditor shall sell and issue bonds of the state of Minnesota for the prompt and full payment of which, with interest thereon, the full faith, credit, and taxing powers of the state are irrevocably pledged. Bonds shall be issued pursuant to this section only as authorized by a law specifying the purpose thereof and the maximum amount of the proceeds authorized to be expended for this purpose. Any act authorizing the issuance of bonds for this purpose, together with this section, constitutes complete authority for such issue, and such bonds shall not be subject to restrictions or limitations contained in any other law.

Subd. 2. Upon request and authorization as provided in subdivision 1 the state auditor shall sell and issue Minnesota state transportation bonds in the aggregate amount requested, upon sealed bids and upon such notice, at such price, in such form and denominations, bearing interest at such rate or rates, maturing in such amounts and on such dates, without option of prepayment or subject to prepayment upon such notice and at such times and prices, payable at such bank or banks within or outside the state, with such provisions for registration, conversion, and exchange and for the issuance of notes in anticipation of the sale or delivery of definitive bonds, and in accordance with such further regulations, as the auditor shall determine, subject to the approval of the attorney general, but not subject to the provisions of sections 15.0411 to 15.0422. The bonds shall be executed

by the state auditor and attested by the state treasurer under their official seals. The signatures of the officers on the bonds and any appurtenant interest coupons and their seals may be printed, lithographed, engraved, or stamped thereon, except that each bond shall be authenticated by the manual signature on its face of one of the officers or of an officer of a bank designated by them as authenticating agent. The state auditor shall ascertain and certify to the purchasers of the bonds the performance and existence of all acts, conditions, and things necessary to make them valid and binding general obligations of the state of Minnesota, subject to the approval of the attorney general.

Subd. 3. All expenses incidental to the sale, printing, execution, and delivery of bonds pursuant to this section, including but not limited to actual and necessary travel and subsistence expenses of state officers and employees for such purposes, shall be paid from the state transportation fund, and the amounts necessary therefor are appropriated from that fund; provided that if any amount is specifically appropriated for this purpose in an act authorizing the issuance of bonds pursuant to this section, such expenses shall be limited to the amount so appropriated.

Subd. 4. The state auditor shall maintain in the state bond fund a separate bookkeeping account which shall be designated as the state transportation bond account, to record receipts and disbursements of money transferred to the fund to pay Minnesota state transportation bonds and income from the investment of such money, which income shall be credited to the account in each fiscal year in an amount equal to the approximate average return that year on all funds invested by the state treasurer, as determined by the treasurer, times the average balance in the account that year.

Subd. 5. The premium and accrued interest received on each issue of Minnesota state transportation bonds shall be credited to the bond account. In order to reduce the amount of taxes otherwise required to be levied, there shall also be credited to the bond account from the general fund in the state treasury, on November 1 in each year, a sum of money sufficient in amount, when added to the balance then on hand therein, to pay all Minnesota state transportation bonds and interest thereon due and to become due to and including July 1 in the second ensuing year. All money so credited and all income from the investment thereof is annually appropriated to the bond account for the payment of such bonds and interest thereon, and shall be available in the bond account prior to the levy of the tax in any year required by the Constitution, Article IX, Section 6, Subdivision 4. The state auditor and treasurer are directed to make the appropriate entries in the accounts of the respective funds.

Subd. 6. On or before December 1 in each year the state auditor shall levy on all taxable property within the state whatever tax may be necessary to produce an amount sufficient, with all money then theretofore credited to the bond account, to pay the

entire amount of principal and interest then and theretofore due and principal and interest to become due on or before July 1 in the second year thereafter on Minnesota state transportation bonds. This tax shall be levied upon all real property used for the purposes of a homestead, as well as other taxable property, notwithstanding the provisions of section 273.13, subdivisions 6 and 7, and shall be subject to no limitation of rate or amount until all such bonds and interest thereon are fully paid. The proceeds of this tax are appropriated and shall be credited to the state bond fund, and the principal of and interest on the bonds are payable from such proceeds, and the whole thereof, or so much as may be necessary, is appropriated for such payments. If at any time there is insufficient money from the proceeds of such taxes to pay the principal and interest when due on Minnesota state transportation bonds, such principal and interest shall be paid out of the general fund in the state treasury, and the amount necessary therefor is hereby appropriated.

Sec. 7. [TRANSFER OF POWERS.] Should this legislature fail by July 1, 1973, to enact a law authorizing the creation of a department of transportation, the powers and duties of sections 2 and 3 of this act shall be assumed by the department of highways, and the powers and duties of sections 4 through 6 of this act shall be assumed by the state planning agency.

Sec. 8. [SEVERABILITY.] The invalidity of any provision of this act shall not affect the validity of the remainder of the act.

Sec. 9. [EFFECTIVE DATE.] This act is effective on the day following final enactment."

Sec. 23. Minnesota Statutes 1971, Section 444.075, is amended to read:

444.075 [WATERWORKS SYSTEMS, MAIN SEWERS, SEWAGE DISPOSAL PLANTS.] Subdivision 1. [AUTHORIZATION.] Any city, except cities of the first class operating under a home rule charter, or any village is hereby authorized and empowered to build, construct, reconstruct, repair, enlarge, improve, or in any other manner obtain waterworks systems, including mains, valves, hydrants, service connections, wells, pumps, reservoirs, tanks, treatment plants, and other appurtenances of a waterworks system, and sewer systems, sewage treatment works, disposal systems, and other facilities for disposing of sewage, industrial waste, or other wastes, all hereinafter called facilities, and to maintain and operate the same inside or outside its corporate limits, and to acquire by gift, purchase, lease, condemnation or otherwise any and all land and easements required for that purpose. The authority hereby granted shall be in addition to all other powers with reference to such facilities otherwise granted by the laws of this state or by the charter of any such city. *Counties, except counties in the seven-county metropolitan area, shall have the same authority granted to cities by this subdivision except for areas of the county organized into cities or villages and areas of the county incorporated within a sanitary district established by special act of the legislature.*

Subd. 2. [FINANCING.] For the purpose of paying the cost of building, constructing, reconstruction, repairing, enlarging, improving, or in other manner obtaining such facilities or any portion thereof, any such city (OR), village or county may issue and sell its general obligations, which may be made payable primarily from taxes or from special assessments to be levied to pay the cost of the facilities or from net revenues derived from water or sewer service charges or from any other nontax revenues pledged for their payment under charter or other statutory authority, or from any two or more of such sources; or it may issue special obligations, payable solely from such taxes or special assessments or from such revenues, or from any two or more of such sources. *Real estate tax revenues should be used only, one then on a temporary basis, to pay general or special obligations when the other revenues are insufficient to meet the obligations.* All such obligations shall be issued and sold in accordance with chapter 475. When special assessments are pledged for the payment of such obligations, they shall be authorized and issued in accordance with the further provisions of chapter 429, or of the municipality's charter if it authorizes such obligations and the governing body determines to proceed thereunder. When net revenues are pledged to the payment of the obligations, together with or apart from taxes and special assessments, such pledge shall be made in accordance with the further provisions of subdivision 3.

Subd. 3. [CHARGES; NET REVENUES.] For the purpose of paying for the construction, reconstruction, repair, enlargement, improvement, or other obtainment and the maintenance, operation and use of such facilities, the governing body of any such city (OR), village or county shall have authority to impose just and equitable charges for the use and for the availability of such facilities and for connections therewith and to make contracts for such charges as hereinafter provided. Such charges may be imposed with respect to facilities made available by agreement with other municipalities (OR), counties or private corporations or individuals, as well as those owned and operated by the city (OR), village or county itself. Charges made for service directly rendered shall be as nearly as possible proportionate to the cost of furnishing the same, and sewer charges may be fixed on the basis of water consumed, or by reference to a reasonable classification of the types of premises to which service is furnished, or by reference to the quantity, pollution qualities and difficulty of disposal of sewage produced, or on any other equitable basis including, but without limitation, any combination of those referred to above. Minimum charges for the availability of water or sewer service may be imposed for all premises abutting on streets or other places where municipal or county water mains or sewers are located, whether or not connected thereto. Charges for connections to the facilities may in the discretion of the governing body be fixed by reference to the portion of the cost thereof which has been paid by assessment of the premises to be connected, in comparison with other premises, as well as the cost of making or supervising the connection.

The governing body may make any such charges a charge against the owner, lessee, occupant or all of them and may provide and covenant for certifying unpaid charges to the county auditor with taxes against the property served for collection as other taxes are collected. The governing body may fix and levy taxes for the payment of reasonable charges to the municipality or county itself for the use and availability of the facilities for fire protection and for maintaining sanitary conditions in public buildings, parks, streets, and other public places. In determining the reasonableness of the charges to be imposed, the governing body may give consideration to all costs of the establishment, operation, maintenance, depreciation and necessary replacements of the system, and of improvements, enlargements and extensions necessary to serve adequately the territory of the city (OR), village (,) or county including the principal and interest to become due on obligations issued or to be issued therefor. When net revenues have been appropriated to the payment of the cost of the establishment, or of any specified replacement, improvement, enlargement or extension thereof, or to pay the principal and interest due on obligations to be issued for such purpose, no charges imposed to produce net revenues adequate for such purpose shall be deemed unreasonable by virtue of the fact that the project to be financed has not been commenced or completed, if proceedings therefor are taken with reasonable dispatch and the project, when completed, may be expected to make service available to the premises charged which will have a value reasonably commensurate with such charges. All such charges, when collected, and all moneys received from the sale of any facilities or equipment or any by-products thereof, shall be placed in a separate fund, and shall be used first to pay the normal, reasonable and current costs of operating and maintaining the facilities. The net revenues from time to time received in excess of such costs may be pledged by resolutions of the governing body, or may be used though not so pledged, for the payment of principal and interest on obligations issued as provided in subdivision 2, or to pay such portion of said principal and interest as may be directed in such resolutions, and net revenues derived from any facilities of the types listed in subdivision 1, whether or not financed by the issuance of such obligations, may be pledged or used to pay obligations issued for other facilities of any such types. In resolutions authorizing the issuance of either general or special obligations and pledging net revenues thereto, the governing body may make such covenants for the protection of holders of the obligations and taxpayers of the municipality or county as it deems necessary, including, but without limitation, a covenant that the municipality or county will impose and collect charges of the nature herein authorized at the times and in the amounts required to produce, together with any taxes or special assessments designated as a primary source of payment of the obligations, net revenues adequate to pay all principal and interest when due on the obligations and to create and maintain such reserves securing said payments as may be provided in said resolutions. When such a covenant is

made it shall be enforceable by appropriate action on the part of any holder of the obligations or any taxpayer of the municipality or county in a court of competent jurisdiction, and the obligations shall be deemed to be payable wholly from the income of the system whose revenues are so pledged, within the meaning of Minnesota Statutes, Sections 475.51 and 475.58.

Subd. 4. [LEVY ASSESSMENTS.] The governing body of any such city (OR), village or county may also levy assessments against property within the city (OR), village or county limits benefited by such facilities under the procedure authorized by law or charter with reference to other assessments for benefits of local improvements, may transfer and use for the purposes hereof surplus funds of the city (OR), village or county not specifically dedicated to any other purpose, and may levy taxes on property within the city (OR), village or county limits for such purposes within the limitations of section 275.11; except that of the taxes so levied, including taxes initially levied under section 475.61 for the payment of the bonds issued therefor and interest thereon, an amount equal to 35 percent of the total cost of the construction, reconstruction, repair, enlargement, improvement, or other obtainment of any such facilities, plus an amount sufficient to pay the interest on the bonds issued in an amount equal to 35 percent of the total cost of the construction, reconstruction, repair, enlargement, improvement, or other obtainment of any such facilities, shall not be included in computing the levies subject to the limitations of such section 275.11. Any such city (OR), village or county may contract with any person, company or corporation for the purposes and under the restrictions set forth in subdivision 5. Any such contract shall be binding upon the parties thereto for the full term agreed upon but in no event more than 30 years, and shall not be changed by either party without the consent of the other party.

Subd. 5. [CONNECTION WITH FACILITIES; CHARGES.] Any such city (OR), village or county is hereby authorized to permit any person, company or corporation located and doing business inside or outside of the city (OR), village or county limits to connect with such facilities and make use of the same upon such terms and upon the payment of such fees and charges therefor as may be prescribed or contracted for by the city (OR), village or county, and to contract with any such person, company or corporation for the payment by such person, company or corporation of a part of the cost of construction, maintenance or use of such facilities and to receive from such person, company or corporation doing business inside or outside of the city (OR), village or county limits payment in cash or installments of such portion of the cost of the construction, maintenance or use thereof as may be agreed upon or contracted for with the city (OR), village or county and devote the money so received to the purpose of such construction, maintenance or use. The proportionate cost of construction, maintenance or use of such facilities to be paid by such person, company, or corporation

may be made payable in installments due at not greater than annual intervals for a period not to exceed 30 years. Any such person, company or corporation which may pay any part of the cost of construction, maintenance or use of such facilities in the manner aforesaid, shall thereafter have the right to use such facilities for the disposal or treatment of his, their or its sewage, industrial waste, or other wastes, by the city (OR), village or county upon the payment of reasonable charges for the use of such facilities or the charges contracted for in case there is a contract as herein provided. Any such city (OR), village or county may contract with any other city (OR), village or county for the joint or cooperative obtainment or use of such facilities without limitation of time.

References in sections 4 to 21 to the county board shall mean also the appropriate governing body of a city, village, or borough.*

Subd. 1a. Any county board that has established a water or sewer system or combined water and sewer system under the provisions of this chapter may acquire the right to operate the system under and exercise all the rights and authority of section 23 of this act, instead of this chapter, upon the filing by the county board, in the office of the clerk of district court of the county, a petition to the court asking that the county board be granted such authority. The clerk of district court, as directed by the judge, shall thereupon fix a time and place for hearing upon the petition. Notice of the hearing shall be given by publication for two successive weeks in a newspaper published in the county. The cost to the public of that portion of the retirement allowances or other benefits accrued while any employee was in the service of the city, shall remain an obligation of the city and a tax shall be levied and collected by it to discharge its obligation as provided by Minnesota Statutes, Chapter 422.

Subd. 3.
