Page 4, line 29, after "may" insert "by order".

Page 4, after line 30, add a section to read:

"Sec. 7. *This bill is effective the day following final enactment.*"

H. F. No. 1810 upon which it recommended progress with the following amendments offered by Cummiskey:

The printed bill, as follows:

Strike everything after the enacting clause and insert in lieu thereof the following:

"Section 1. Minnesota Statutes 1971, Chapter 273, is amended by adding a section to read:

[273.71] [STATEMENT OF PURPOSE.] *The laws governing the use of tax increment financing in Minnesota have evolved over a long period of time and are found in several different special and general laws. These laws are sometimes inconsistent with one another. At the present time these laws provide legal basis for the use of tax increment financing in several types of situations under different procedures.*

This method of financing has considerable impact on the tax base of communities involved. It is the intent of the legislature, by enacting the tax increment financing act, to establish a clear set of standards and procedures to be followed when using this method of financing. It is the intent of the legislature to supersede all tax increment financing provisions of existing law, whether in general or special laws.

Sec. 2. Minnesota Statutes 1971, Chapter 273, is amended by adding a section to read:

[273.72] *Subdivision 1. [DEFINITIONS.] For the purposes of this act the terms defined in this section shall have the meanings given them.*

Subd. 2. [TAX INCREMENT DISTRICT.] Tax increment district is a geographic area delineated exclusively for the purpose of financing redevelopment or renewal in municipalities. Such tax increment district is an area consisting of contiguous properties as specified in a city approved tax increment financing plan including projects pursuant to the authority of Chapter 474. In such districts the original assessed value is frozen and any increase in value is captured for financing the cost of redevelopment or renewal of such properties.

Subd. 3. [ORIGINAL ASSESSED VALUE.] The assessed value of all taxable real property within a tax increment district as most recently determined by the county auditor at the time of approval by the city council of the tax increment financing plan.

Subd. 4. [REDEVELOPMENT PROJECT.] Redevelopment project is a project as defined in Minnesota Statutes, Section 462.421, Subdivision 13, or any other development district project under any general or special law which is financed by tax increment financing.

Subd. 5. [AUTHORITY.] Authority means a housing and redevelopment authority created or authorized to be created by Minnesota Statutes, Chapter 462; port authorities created pursuant to Chapter 458; or the governing body of a municipality in which a development district has been authorized to be created by general or special law.

Subd. 6. [MUNICIPALITY.] Municipality means any city, however organized.

Subd. 7. [GOVERNING BODY.] Governing body means the duly elected council of a city, notwithstanding any contrary definition thereof contained in Chapter 475.

Subd. 8. [BONDS.] Bonds means any bonds, including refunding bonds, notes, interim certificates, debentures, or other obligations issued by an authority pursuant to this act.

Subd. 9. [BLIGHTED AREA.] Blighted area means any area, including slum areas, with buildings or improvements which by reason of dilapidation, obsolescence, overcrowding, faulty arrangement or design, lack of ventilation, light, and sanitary facilities, excessive land coverage or deleterious land use or obsolete layout, or any combination of these or other factors, are detrimental to the safety, health, morals or welfare of the community.

Sec. 3. Minnesota Statutes 1971, Chapter 273, is amended by adding a section to read:

[273.73] *Subdivision 1. [TAX INCREMENT FINANCING PLAN.] A tax increment financing plan shall contain a statement of objectives of an authority for improvement of a tax increment district. Such plan shall contain a complete statement as to the public facilities to be constructed within the district, the open space to be created, the environmental controls to be applied, and the proposed reuse of property. It shall contain estimates of the following: cost of the redevelopment project; sources of revenue to finance these costs including estimates of tax increments; amount of bonded indebtedness to be incurred; and the duration of the district's existence. The plan shall also contain a statement of the estimated impact of tax increment financing on the assessed values of all taxing jurisdictions in which the district is located.*

Subd. 2. [APPLICATION, NOTICE, HEARING.] (a) Whenever an authority determines that a tax increment district should be formed, it shall apply to the governing body of the municipality in which the district is located for approval thereof. The application shall be accompanied by a tax increment financing plan. Before approving any tax increment financing plan, the governing body shall hold a public hearing thereon after published notice in a newspaper of general circulation in the municipality at least once not less than ten days nor more than 30 days prior to the date of hearing.

(b) Whenever tax increment financing is used for a redevelopment project which is approved under Minnesota Statutes, Section 462.521, the tax increment financing plan may accompany the renewal plan and such portions of section 2, subdivision 1 which are contained in the renewal plan need not be repeated in the tax increment financing plan.

Subd. 3. [FINDINGS, NOTICE, DETERMINATION; GOVERNING BODY.] The authority shall not proceed with a redevelopment project financed through tax increments unless the governing body finds by resolution that (a) tax increment financing is necessary to successfully complete the project; (b) the redevelopment plans for the tax increment district in the municipality will afford maximum opportunity, consistent with the sound needs of the municipality as a whole, for the redevelopment of such areas by private enterprise; and (c) the tax increment financing plan conforms to a general plan for the development of the municipality as a whole. The governing body shall within 90 days after submission of the application, or resubmission as hereinafter provided, give written notice to the authority of its decision with respect to the tax increment financing plan. If such notice is not given within 90 days the application shall be deemed to have been approved. A plan which has not been

approved by the governing body when submitted to it may be again submitted to it with such modifications as are necessary to meet its objections.

Subd. 4. [LIMITATIONS ON TAX INCREMENT DISTRICTS.] When tax increment financing is undertaken by authorities for development districts created by laws other than the municipal housing and redevelopment act, the governing body shall by formal adoption adopt one of the three following alternative restrictive options. Once the choice is made, the municipality must use the same option for all succeeding development districts.

(1) The total acreage included in any one development district shall not exceed one percent of the total acreage of the municipality. At no time shall the total current acreage within development districts for which unrecovered cost of bonds remain exceed three percent of the total acreage of the municipality.

(2) The governing body may adopt one development district which shall not exceed six acres in area. At no time shall another development district be adopted by the governing body of the municipality until all cost of bonds for the previously adopted district has been paid.

(3) In any one industrial development district created pursuant to Chapter 458 or any project undertaken pursuant to Chapter 474 the total acreage of land zoned industrial included in any one development district shall not exceed 3 percent of the total acreage of the municipality which is zoned industrial, nor at any time shall the total current acreage of the land zoned industrial within development districts for which unrecovered cost of bonds remain exceed 10 percent of the total acreage of the municipality zoned industrial.

Subd. 5. [CONSULTATIONS WITH OTHER JURISDICTIONS.] Before formation of a tax increment district the authority shall meet with the members of the county board of commissioners of any county in which any portion of the tax increment district is located and with the members of the school board of any school district in which any portion of the tax increment district is located. The members of the county boards of commissioners and of the school boards shall be fully informed of the fiscal and economic implications of the proposed tax increment district. The members of the county boards of commissioners and of the school boards may present their recommendations at the public hearing on the tax increment financing plan. An authority may enter into agreements with the county boards of commissioners, the school boards and the governing body of the municipality in which the district is located to share a portion of the captured assessed value of the district.

Subd. 6. [MODIFICATION OF PLAN.] A tax increment financing plan may be modified provided such modification shall be approved by the governing body upon such notice and after such public hearings and agreements as are required for approval of the original plan.

Sec. 4. Minnesota Statutes 1971, Chapter 273, is amended by adding a section to read:

[273.74] [COMPUTATION OF TAX INCREMENT.] Subdivision 1. [ORIGINAL ASSESSED VALUE.] Upon or after formation of a tax increment district, the auditor of the county in which it is situated shall upon request of the authority certify the original assessed value of the real property within the boundaries of the tax increment district as described in the tax increment financing plan. Property taxable at the time of the request shall be included in the original assessed value at its most recently determined valuation. Property exempt from taxation at the time of the request shall be included at zero unless it was taxable when the tax increment financing plan was approved in which case its most recently determined assessed valuation before it became exempt shall be included. Assessed valuation which is contributed to an area-wide tax base under Minnesota Statutes, Section 473F.08 shall not be included in the original assessed value. Each year thereafter, the auditor shall certify the amount by which the assessed value has increased or decreased from the original assessed value. The auditor shall also certify the proportion which any such increase or decrease bears to the total assessed value of the real property in that district for that year.

Subd. 2. [CAPTURED ASSESSED VALUE.] Any amount by which the current assessed value of a tax increment district exceeds the original assessed value, other than the portion thereof to be contributed to an area-wide tax base under Minnesota Statutes, Section 473F.08, is referred to as the captured assessed value. The county auditor shall certify the amount of the captured assessed value to the authority each year thereafter.

(a) An authority may choose to retain any part or all of the captured assessed value for purposes of tax increment financing according to one of the three following options:

(1) If the plan provides that all the captured assessed value is necessary to finance the redevelopment costs the authority may retain the full captured assessed value.

(2) If the plan provides that only a portion of the captured assessed value is necessary to finance the redevelopment costs of the project only that portion should be set aside and the remainder shall be distributed among the affected taxing districts by the county auditor.

(3) If a redevelopment project will result in increased cost to the municipality, school district or county, a portion of the captured assessed value may be shared with the affected jurisdiction pursuant to agreements entered into under section 3, subdivision 5.

(b) The portion of captured assessed value that an authority intends to use for purposes of tax increment financing must be clearly stated in the tax increment financing plan.

Subd. 3. [TAX INCREMENTS.] (a) In each subsequent year the county auditor shall compute assessed valuation, mill rates and tax increments according to the following method:

(1) If the authority retains the full captured assessed value the county auditor shall include no more than the original assessed value of the real property in the tax increment district for purposes of determining assessed value for local mill rates. He shall compute the mill rates of all taxes levied by the state, the county, the municipality or town, the school district and every other taxing district in which the project is located on the aforementioned assessed value. He shall extend all mill rates against the current assessed value, including the captured assessed value. In each year for which the current assessed value exceeds the original assessed value the county treasurer shall remit to the authority that proportion of all taxes paid that year on real property in the district which the captured assessed value bears to the total current assessed value. The amount so remitted each year is referred to in this section as the tax increment for that year.

(2) If the authority retains only a portion of the captured assessed value for its use and returns the remaining portion to the tax rolls of all affected taxing districts the county auditor shall include the original assessed value and that portion of the captured assessed value which is shared with all the affected taxing districts in determining the assessed value for computing mill rates. He shall compute the mill rates of all taxes levied by the state, county, municipality, school district, and every other taxing district in which the project is located on this aforementioned assessed value. He shall extend all mill rates against the total current assessed value including that portion of the captured assessed value which the authority is retaining for its use only. In each year for which the current assessed value exceeds the original assessed value the county treasurer shall remit to the authority that proportion of all taxes paid on real property in the district that the retained captured assessed value bears to the total current assessed value in the district. The amount so remitted each year is referred to as the tax increment.

(3) If the authority negotiates with the municipality, school district, or county to share the captured assessed value the county auditor shall use the original assessed value for computing mill rates in taxing districts which are not sharing the captured

assessed value. In addition to the original assessed value, he shall add that portion of the captured assessed value which is shared with the municipality, school district, or county to the original assessed value of the sharing tax district when determining the assessed value for computing mill rates in said municipality, school district or county. In each year for which this current assessed value exceeds the original assessed value, the county treasurer shall remit taxes to all taxing authorities on the basis of original assessed value. He shall remit additional tax revenues to any jurisdiction sharing the captured assessed value on the basis of that jurisdiction's mill rate times the shared captured assessed value. He shall remit to the authority the remaining tax revenues collected from the district. The amount so remitted each year is referred to as the tax increment.

(b) In any year in which the tax increment district declines or remains constant in assessed value the county auditor shall compute and extend taxes against the current value. Taxes shall be distributed from the affected property to each of the taxing authorities as determined by the current levy and there is no tax increment.

Subd. 4. [TAX INCREMENT ACCOUNT.] Tax increments received with respect to any redevelopment project shall be segregated by the authority receiving them in a special account on its official books and records. This account shall be kept until the tax increments received equal the amount pledged in accordance with subdivision 5, or until 30 years from the date of approval of the tax increment financing plan, whichever is sooner.

Subd. 5. [TAX INCREMENT FINANCING.] The authority shall expend the tax increments received for any redevelopment project only in accordance with the tax increment financing plan. Tax increments may be pledged and appropriated for the payment of the principal of and interest on bonds issued in aid of the project pursuant to Minnesota Statutes, Chapters 462 and 474; Laws 1971, Chapters 546 and 677; Laws 1973, Chapters 196, 761 and 764; and Sections 9 through 20 of this act, by the authority or by the governing body of the municipality within whose corporate limits the tax increment district is situated. Any such pledge for the payment of bonds issued by the governing body shall be made by written agreement executed on behalf of the authority and the governing body and filed with the county auditor. The estimated collections of the tax increments and any other revenues so pledged may be deducted from the taxes otherwise required to be levied before the issuance of the bonds under Minnesota Statutes, Section 475.61, Subdivision 1, or the collections thereof may be certified annually to reduce or cancel the initial tax levies in accordance with Minnesota Statutes, Section 475.61, Subdivision 3. When such an agreement is made and filed, the bonds may be issued by the governing body in the same manner and subject only to the same conditions as those provided in Minnesota Statutes, Chapter 475, for bonds financing improvement costs reimbursable from special assessments.

Subd. 6. [LIMITATION ON USE OF TAX INCREMENTS.] *Revenues derived from tax increments shall be used only to pay off capital costs and administrative expenses authorized by the existing general or special law under which the authority was created. These revenues shall not be used to circumvent existing levy limit laws.*

Subd. 7. [ANNUAL DISCLOSURE.] *On or before July 1, of each year, the authority shall submit to the governing body of the municipality, the county board and the school board a report on the status of the account. The report shall include the following information: the amount and source of revenue in the account, the amount and purpose of expenditures from the account, the amount of principal and interest on any outstanding bonded indebtedness, the original assessed value of the district, the captured assessed value retained by the authority, the captured assessed value shared with other taxing districts, the tax increments received and any additional information necessary to demonstrate compliance with the tax increment financing plan. An annual statement showing the tax increments received and expended in that year, the original assessed value, captured assessed value, amount of outstanding bonded indebtedness, and any additional information the authority deems necessary shall be published in a newspaper of general circulation in the municipality.*

Sec. 5. Minnesota Statutes 1971, Chapter 273, is amended by adding a section to read:

[273.75] [EXISTING PROJECTS.] *This law does not affect any project using tax increment financing which was approved by a city council under Minnesota Statutes, Sections 462.545, 462.585, and 474.10; Laws 1971, Chapters 548 and 677; and Laws 1973, Chapters 196, 761, or 764 prior to its enactment. Provided, however, the tax increment financing provisions of any general or special laws are hereby specifically superseded, except as to those projects which have been approved as of the effective date of this act.*

Sec. 6. Minnesota Statutes, Chapter 273, is amended by adding a section to read:

[273.76] [CITATION.] *Sections 1 to 6 may be cited as the tax increment financing act.*

Sec. 7. Minnesota Statutes 1971, Section 462.585, Subdivision 1, is amended to read:

462.585 [AGREEMENTS RESPECTING TAX INCREMENTS AND EQUIVALENTS; PLEDGE FOR BONDS.]
Subdivision 1. [GENERAL.] *In connection with any project of an authority located wholly or partly within the corporate*

limits of any municipality or other state public body, such body may agree with the authority with respect to the payment by the authority of such sums in lieu of taxes for any year or period of years in accordance with the provisions of section 462.575, but for no longer period than the period of tax exemption provided for under that section. In any case where property owned by the authority in a redevelopment project area is leased or otherwise made available by the authority to a private individual, firm, or corporation which previously owned the same or other property within the area, not for development in connection with the project but for temporary use pending relocation of such former owner's residence or business, the authority may agree to payment of sums in lieu of taxes for any year or period of such temporary use, not exceeding the amount of the annual rentals or other payments it receives for such use, but during such use the property and the authority shall be exempt from all taxes and special assessments as provided in section 462.575, and the provisions of section 272.01, subdivision 2 and of section 273.19 shall not apply to such property or to such use thereof. In connection with any redevelopment project, an authority may make further agreements respecting taxes as provided (BELOW) in sections 1 to 6 and 462.585, subd. 4.

Sec. 9. [DEVELOPMENT PROGRAM; PURPOSE.] *In a mature municipality, it is found that there is a need for new development in areas of the municipality which are already built up. This new development is crucial in providing employment opportunities in municipalities, in improving the tax base and in improving the general economy for the state. Under this act, municipalities would be authorized to develop a program for improving a district of the municipality in such ways as providing impetus for commercial development, providing increased employment, protecting pedestrians from vehicle traffic and inclement weather, providing the necessary linkage between peripheral parking facilities and places of employment and shopping; providing off-street parking to serve the shoppers and employees of the district; providing open space relief within the district; and providing such other facilities as are outlined in the development program adopted by the governing body. It is hereby declared by the legislature of the state of Minnesota that the actions required to assist the implementation of such development programs are a public purpose and that the execution and financing of such programs are a public purpose.*

Sec. 10. [DEFINITIONS.] *Subdivision 1. For the purposes of sections 9 through 18, the terms defined in this section shall have the meanings given them unless otherwise provided or indicated by the context.*

Subd. 2. "Municipality" means any city, however organized.

Subd. 3. A "development district" is a specific area within the corporate limits of any municipality which has been designated by the governing body as a development district. Each dis-

trict so designated shall be given a separate development district number. No less than 60 percent of the area of any such district shall consist of land which has been platted and developed. The area of such district shall not be enlarged after three years following the date of designation of such district.

Subd. 4. A "development program" is a statement of objectives of the municipality for improvement of a development district. Such development program shall contain a complete statement as to the public facilities to be constructed within the district, the open space to be created, the environmental controls to be applied, the proposed reuse of private property, and the proposed operations of the district after the capital improvements within the district have been completed.

Subd. 5. "Pedestrian skyway system" means any system of providing for pedestrian traffic circulation, mechanical or otherwise, elevated aboveground, within and without the public right of way, and through or above private property and buildings, and includes overpasses, bridges, passageways, walkways, concourses, hallways, corridors, arcades, courts, plazas, malls, elevators, escalators, heated canopies and accesses and all fixture, furniture, signs, equipment, facilities, services, and appurtenances which in the judgment of the municipal council of the municipality will enhance the movement, safety, security, convenience and enjoyment of pedestrians and benefit the municipality and adjoining properties. The use of a public street or public right of way for pedestrian travel only constitutes a public use and shall not require a vacation of the street or right of way.

Subd. 6. "Special lighting systems" means lights or light displays of any type located within or without the public right of way.

Subd. 7. "Parking structure" shall mean any building the principal use of which is designed for and intended for parking of motor vehicles. Open air parking on parking lots shall also be construed as parking structures for the purpose of this act.

Subd. 8. "Maintenance and operation" shall include all activities necessary to maintain facilities after they have been developed and all activities necessary to operate the facilities including but not limited to informational and educational programs, and safety and surveillance activities.

Sec. 11. [AUTHORITY GRANTED.] A municipality may after recommendation from its planning agency or planning department and after public hearings, notice of which shall have been published in the official newspaper of the municipality, or if the municipality has no official newspaper, in a newspaper of general distribution, adopt development districts within the boundaries of the municipality. Within said districts the municipality may adopt a development program consistent with which

the municipality may acquire, construct, reconstruct, improve, alter, extend, operate, maintain, and promote developments aimed at improving the physical facilities, quality of life and quality of transportation. The municipality may acquire land or easements through negotiation or through powers of eminent domain. In all acquisitions the acquiring authority shall provide as a cost of acquisition the relocation assistance, services, payments and benefits required by the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 84 Statutes 1834, (1971) 42 United States Code, Section 4601, et seq. The municipal council may adopt ordinances regulating traffic in pedestrian skyway systems, public parking structures, and other facilities constructed within the development district. The municipal council may pass ordinances regulating access to pedestrian skyway systems and the conditions under which such access is allowed.

Traffic regulations may include but shall not be limited to direction and speed of traffic, policing of pedestrianways, hours that pedestrianways are open to the public, kinds of service activities that will be allowed in arcades, parks and plazas, fares to be charged on the people movers, and rates to be charged in the parking structures. The municipality shall have the power to require private developers to construct buildings so as to accommodate and support such pedestrian systems which are part of the program for the development district. When the municipality requires the developer to construct columns, beams or girders with greater strength than required for normal building purposes, the municipality shall reimburse the developer for the added expense. The municipality shall have the authority to install special lighting systems, special street signs and street furniture, special landscaping of streets and public property. The municipality shall have the authority to install special snow removal systems. The municipality shall have the power to acquire property for the district. The municipality shall have the power to lease air rights over public buildings and to spend public funds for constructing the foundations and columns in the public buildings strong enough to support the buildings to be constructed on air rights. The municipality shall have the authority to lease all or portions of basement, ground and second floors of the public buildings constructed in the district. The municipality shall have the authority to negotiate the sale or lease of property for private development if such development is consistent with the development program for the district.

Sec. 12. [TAX STATUS.] *The pedestrian skyway system, underground pedestrian concourse, the people mover system, and public parking structures are all declared to be public property to be used for essential public and governmental purposes and such property shall be exempt from all taxes and special assessments of city, village, borough, county, state, or any political subdivision thereof. Taxes do not include charges for utilities and special services such as heat, water, electricity, gas, sewage disposal, or garbage removal.*

Sec. 13. [GRANTS.] *A municipality may accept grants or other financial assistance from the government of the United States or any other entity to do studies, construct and operate the pedestrian skyway system, underground pedestrian concourses, people mover systems, and other public improvements authorized under this act.*

Sec. 14. [ISSUANCE OF BONDS.] *The governing body of the municipality, as defined in Section 2 of this act, may authorize, issue and sell bonds, which shall mature within 30 years, to finance the acquisition and betterment of real and personal property needed to carry out the development program within the development district together with all relocation costs incidental thereto in accordance with Minnesota Statutes, Sections 475.51, 475.53, 475.54, 475.55, 475.56, 475.60, 475.61, 475.62, 475.63, 475.65, 475.66, 475.69, 475.70, 475.71. All tax increments received by the municipality pursuant to section 15 shall be pledged for the payment of such bonds and used to reduce or cancel the taxes otherwise required to be extended for that purpose, and the bonds shall not be included when computing the municipality's net debt.*

Sec. 15. [TAX INCREMENTS TO PAY CAPITAL IMPROVEMENT COSTS.] *The capital improvement costs of development districts shall be paid through tax increment financing in the manner provided by sections 1 through 8 of this act.*

Sec. 16. [MAINTENANCE AND OPERATION.] *Maintenance and operation of the pedestrian systems, special lighting systems, parking structures, and other public improvements constructed under provisions of this act shall be under the supervision of the administrator as designated in section 17 of this act. The cost of maintenance and operation of the nonrevenue facilities together with the excess costs of operation and maintenance of revenue producing facilities, if any, shall be charged against the development district in which it is located. The amount of assessment against each property within the district shall be in proportion to the benefit to the several properties within the district. By July 1 of each year the administrator of the development district shall submit to the governing body of the municipality the maintenance and operating budget for the following year, and the prorata share of the budget to be charged to each property in the district. The governing body of the municipality shall certify such assessments to the county auditor for collection.*

Sec. 17. [ADMINISTRATION.] *The governing body of a municipality shall create a department or designate an existing department or office to administer all districts authorized under the act. The head of this department may, subject to such rules and limitations as may be adopted by the municipality council be granted the following powers:*

- (a) *To acquire property or easements through negotiation;*

(b) *To enter into operating contracts on behalf of the municipality for operation of any of the facilities authorized to be constructed under the terms of this act;*

(c) *To lease space to private individuals or corporations within the buildings constructed under the terms of this act;*

(d) *To lease or sell land and to lease or sell air rights over structures constructed under the authority of this act;*

(e) *To enter into contracts for construction of the several facilities or portion thereof authorized under this act;*

(f) *Contract with the housing and redevelopment authority of the municipality for relocation services;*

(g) *Certify to the governing body of the municipality for acquisition through eminent domain property that cannot be acquired by negotiation, but is required for implementation of the development program;*

(h) *Certify to the governing body of the municipality the amount of funds, if any, which must be raised through sale of bonds to finance the program for development districts;*

(i) *Apply for grants from the United States of America;*

(j) *Apply for grants from other sources.*

Sec. 18. [ADVISORY BOARD.] *The governing body of the municipality shall create in each development district an appointed or an elected advisory board consisting of not less than five nor more than nine persons. At least a majority of the members shall be owners or occupants of property located in the development district which they serve. Such an advisory board shall advise the governing body of the municipality and the administrator on the construction and implementation of the development program and maintenance and operation of the district after the development program has been completed.*

Sec. 19. Minnesota Statutes 1971, Section 458.192, Subdivision 1, is amended to read:

458.192 [ADDITIONAL POWERS.] Subdivision 1. *In addition to all powers conferred on such port authority under Minnesota Statutes, Sections 458.09 to 458.19, such port authority, or any city authorized by any general or special law to exercise the powers of a port authority, to accomplish the purposes set forth in subdivision 1 of section 458.191, shall have such additional powers as hereinafter described in subdivisions 2 through (10) 11 of this section.*

Sec. 20. Minnesota Statutes 1971, Section 458.192, is amended by adding a subdivision to read:

Subd. 11. Upon or after the creation of an industrial development district under section 458.191, the auditor of the county in which it is situated shall upon request of the port authority certify the then most recently determined assessed valuation of all or so much of the taxable real property within the district as is identified by legal description in the request, and shall certify to the authority in each year thereafter the amounts and percentages of subsequent increases or decreases in such valuation, the auditor shall compute the mill rates of taxes against such original valuation but shall extend such rates also against any incremental value and remit the resulting tax increment to the port authority in the same manner as that provided for the computation and remittance of tax increments under section 462.585, subdivisions 2 and 3. The port authority shall segregate tax increments received with respect to any such property district in a special account on its official books and records. Such tax increments shall be remitted to the port authority until the cost of re-development of the marginal land within the district, including interest thereon, has been fully reimbursed from the tax increments. When such full reimbursement has been made, it shall be reported by the port authority to the county auditor, who shall thereafter include the entire assessed valuation of the property in the assessed valuations upon which tax mill rates are computed and extended and taxes are remitted to all taxing districts. Any part or all of such tax increments, if so directed by the city council, shall be pledged and appropriated for the payment of any general obligation bonds of the port authority.

Sec. 21. [REPEAL.] Minnesota Statutes 1971, Sections 462.545, Subdivision 5; 462.585, Subdivisions 2 and 3; and 474.10, Subdivisions 2 and 3, are repealed.”.

Further, strike the title and insert in lieu thereof:

“A bill for an act providing standards and procedures for tax increment financing; authorizing municipalities to create development districts; authorizing the issuance of bonds to carry out development programs in development districts; authorizing tax increment financing for the payment of principal and interest on such bonds; authorizing municipalities to assess the cost of operation against development districts; authorizing port authorities to segregate tax increments in industrial development districts; providing limitation on extent of districts to which tax increment financing applies; amending Minnesota Statutes 1971, Chapter 273, by adding sections; Sections 462.585, Subdivision 1; and 458.192, Subdivision 1 and adding new subdivisions to the section; and repealing Minnesota Statutes 1971, Sections 462.545, Subdivision 5; 462.585, Subdivisions 2, 3 and 4; and 474.10, Subdivisions 2 and 3.”.

"Sec. 8. Minnesota Statutes 1971, Section 473F.02, Subdivision 3, is amended to read:

Subd. 3. "Commercial-industrial property" means the following categories of property, as defined in section 273.13, excluding that portion of such property (a) (WHICH MAY, BY LAW, CONSTITUTE THE TAX BASE FOR A TAX INCREMENT PLEDGED PURSUANT TO SECTIONS 462.585 OR 474.10, TO THE EXTENT AND WHILE SUCH TAX INCREMENT IS SO PLEDGED; (B)) which may, by law, constitute the tax base for tax revenues set aside and paid over for credit to a sinking fund pursuant to direction of the city council in accordance with Laws 1963, Chapter 881, as amended, to the extent that such revenues are so treated in any year; or ((C)) (b) which is exempt from taxation pursuant to section 272.02:

(a) That portion of class 3 property consisting of stocks of merchandise and furniture and fixtures used therewith; manufacturers' materials and manufactured articles; and tools, implements and machinery, whether fixtures or otherwise.

(b) Class 3h property.

(c) Class 3j property.

(d) That portion of class 4 property which is either used or zoned for use for any commercial or industrial purpose, except for such property which is, or, in the case of property under construction, will when completed be used exclusively for residential occupancy and the provision of services to residential occupants thereof. Property shall be considered as used exclusively for residential occupancy only if each of not less than 80 percent of its occupied residential units is, or, in the case of property under construction, will when completed be occupied under an oral or written agreement for occupancy over a continuous period of not less than 30 days.

If the classification of property prescribed by section 273.13 is modified by legislative amendment, the references in this subdivision shall be to such successor class or classes of property, or portions thereof, as embrace the kinds of property designated in this subdivision.

(e) That property valued and assessed under section 273.13, subdivision 14."
