Sec. 8. [LOCAL ORGANIZATIONS.] Subdivision 1. Each political subdivision of this state shall establish a local organization for emergency services in accordance with the state emergency plan and program, but no town shall establish a local organization for emergency services without approval of the state director. Each local organization for emergency services shall have a director who shall be appointed forthwith in a city, by the mayor thereof, in a town by the town board, and for a public corporation created and operating under Minnesota Statutes, Sections 360.101 to 360.133 by its governing body who shall have direct responsibility for the organization, administration, and operation of such local organization for emergency services, subject to the direction and control of such governing body.

Subd. 2. Each county emergency services organization shall have a director and one or more deputy directors. They shall be appointed by the county board. A county organization for emergency services shall have jurisdiction throughout the county outside of any city, or of a town which has a local emergency services organization. In addition to the other powers granted by this subdivision, such county organizations shall coordinate the activities of and may assist in the training of emergency services organizations of political subdivisions within the county, plan for the continuity of county government in cooperation with the county attorney who is authorized and directed to give legal advice to the county organization, acquire equipment necessary in connection therewith, and expend funds provided by the county board out of general revenue funds for such purposes.

Subd. 3. Each local and county organization for emergency services shall perform emergency functions within the territorial limits of the political subdivision within which it is organized, and, in addition, shall conduct such functions outside of

such territorial limits as may be required pursuant to the provisions of this act or any other applicable provisions of law.

Subd. 4. The county emergency services director shall promote a community first aid and blood bank committee for each hospital within the county other than any owned and operated by the state or federal governments. This committee, in cooperation with the committee on emergency services and disaster blood program, the medical and administrative staff of the hospital and other local and state agencies, shall develop blood banks and donor lists in accordance with the provisions of this act.

Subd. 5. With approval of the governor, two or more political subdivisions may enter into agreements determining the boundaries of the geographic areas of their respective emergency responsibilities or providing for a common emergency services organization which, for the purposes of this act shall be a local emergency services organization.

Subd. 6. Each local and interjurisdictional agency shall prepare and keep current a local or interjurisdictional emergency plan for its area.

Subd. 7. The local or interjurisdictional emergency agency, as the case may be, shall prepare and distribute to all appropriate officials in written form a clear and complete statement of the emergency responsibilities of all local agencies and officials and of the disaster chain of command.

Subd. 8. To provide moneys for emergency services purposes authorized by this chapter, a political subdivision is empowered to levy annually upon all taxable property in the political subdivision, except as provided in subdivision 11, a tax in excess of and over and above all taxing limitations, except a limitation established pursuant to sections 275.50 to 275.56, in such amount as may be necessary to pay such expenditures. The total amount of a tax levied under authority of this section except when levied by a county shall not exceed 40 cents per capita based on the last federal regular or special census, except in a political subdivision in which such tax will not produce a total amount of \$1,000 in which event a tax sufficient to produce \$1,000 or so much thereof as may be necessary may be levied, if not in excess of a limitation established pursuant to sections 275.50 to 275.56.

Subd. 9. (a) To provide moneys for the purchase of organizational equipment which is to be paid for in part by the federal government, a political subdivision is empowered to levy a tax upon all taxable property in the political subdivision, except as provided in subdivision 10, in excess of and over and above all taxing limitations, including those provided in subdivision 8, but subject to a limitation established pursuant to sections 275.50 to 275.56, in such amount as may be necessary to pay its share of the cost of such organizational equipment, provided that the governor has approved the purchase thereof.

(b) Each political subdivision which has initiated the purchase of organizational equipment shall have the power:

(1) To pay into the state treasury, in trust, its share of the cost of organizational equipment required by the federal government to be paid in advance.

(2) To pay into the state treasury, in trust, its share of the reimbursement of the federal government by the state as part of its share of the cost of organizational equipment purchased for the political subdivision and initially wholly paid for from the federal treasury.

(3) To pay the entire cost of organizational equipment from funds derived from tax levies herein authorized but within the limitations of subdivision 8. Organizational equipment purchased entirely from funds of a political subdivision need not be in excess of equipment provided for normal operation of a political subdivision and may be of a type and kind usable for both local and disaster emergency services purposes.

Subd. 10. When levied by a county, the taxes authorized in subdivisions 8 and 9, respectively, shall be spread wholly and exclusively upon property within the portion of the county over which the county local organization for civil defense has justification as provided in section 12.25, subdivision 1; provided, however, that a county may levy annually a tax upon all taxable property within any city or town within the county which has a local civil defense organization.

Subd. 11. Notwithstanding the limitation contained in section 8, subdivision 9, the limitation applicable to the city of Minneapolis shall continue at 20 cents per capita, and no levy may be made by Hennepin county on property within the city of Minneapolis pursuant to section 8, subdivision 11.

Sec. 9. Subdivision 1. If the governor finds that two or more adjoining counties would be better served by an interjurisdictional arrangement than by maintaining separate disaster agencies and services, he may delineate by executive order or regulation an interjurisdictional area adequate to plan for, prevent, or respond to disaster in that area and direct steps to be taken as necessary, including the creation of an interjurisdictional relationship, a joint emergency plan, mutual aid, or an area organization for emergency planning and services. A finding of the governor pursuant to this subdivision shall be based on one or more factors related to the difficulty of maintaining an efficient and effective disaster prevention, preparedness, response, and recovery system on an unijurisdictional basis, with concurrence of the counties involved, such as:

(a) Small or sparse population;

(b) Limitations on public financial resources severe enough to make maintenance of a separate emergency agency and services unreasonably burdensome;

(c) Unusual vulnerability to disaster as evidenced by a past history of disaster, topographical features, drainage characteristics, disaster potential, and presence of disaster-prone facilities or operations;

(d) The interrelated character of the counties in a multi-county area;

(e) Other relevant conditions or circumstances.

Subd. 2. If the governor finds that a vulnerable area lies only partly within this state and includes territory in another state or states or territory in a foreign jurisdiction and that it would be desirable to establish an interstate or international relationship, mutual aid, or an area organization for disaster, he shall take steps to that end as desirable. If this action is taken with jurisdictions that have enacted the interstate civil defense and disaster compact, any resulting agreement or agreements may be considered supplemental agreements pursuant to Article VI of that compact.

Subd. 3. If the governor finds that a vulnerable area lies only partly within this state and includes territory in another state or states or territory in a foreign jurisdiction and that it would be desirable to establish an interstate or international relationship, mutual aid, or an area organization for disaster, he shall take steps to that end as appropriate pursuant to Article VI of the civil defense and disaster compact. If the other jurisdiction or jurisdictions with which the governor proposes to cooperate have not enacted that compact, he may negotiate special agreements with the jurisdiction or jurisdictions. Any agreement, if sufficient authority for the making thereof does not otherwise exist, becomes effective only after its text has been communicated to the legislature and provided that neither house of the legislature has disapproved it by adjournment of the next ensuing session competent to consider it or within 30 days of its submission, whichever is longer.

Sec. 10. [INTERGOVERNMENTAL ARRANGEMENTS.]
Subdivision 1. This state enacts into law and enters into the interstate civil defense and disaster compact with all states, defined therein, which states have enacted or shall hereafter enact the compact in the form substantially as follows:

Interstate civil defense and disaster compact

The contracting states solemnly agree:

ARTICLE I

The purpose of this compact is to provide mutual aid among the states in meeting any emergency or disaster from enemy attack or other cause, natural or otherwise, including sabotage and subversive acts and direct attacks by bombs, shellfire, and atomic, radiological, chemical, bacteriological means, and other weapons. The prompt, full, and effective utilization of the resources of the respective states, including such resources as may be available from the United States government or any other source, are essential to the safety, care, and welfare of the people thereof in the event of enemy action or other emergency, and any other resources, including personnel, equipment, or supplies, shall be incorporated into a plan or plans of mutual aid to be developed among the civil defense agencies or similar bodies of the states that are parties hereto. The directors of civil defense of all party states shall constitute a committee to formulate plans to take all necessary steps for the implementation of this contract.

ARTICLE II

It shall be the duty of each party state to formulate civil defense plans and programs for application within such state. There shall be frequent consultation between the representatives of the states and with the United States government and the free exchange of information and plans, including inventories of any materials and equipment available for civil defense. In carrying out such civil defense plans and programs the party states shall so far as possible provide and follow uniform standards, practices and rules and regulations including:

(a) Insignia, arm bands and any other distinctive articles to designate and distinguish the different civil defense services;

(b) Blackouts and practice blackouts, air-raid drills, mobilization of civil defense forces and other tests and exercises;

(c) Warnings and signals for drills or attacks and the mechanical devices to be used in connection therewith;

(d) The effective screening or extinguishing of all lights and lighting devices and appliances;

(e) Shutting off water mains, gas mains, electric power connections and the suspension of all other utility services;

(f) All materials or equipment used or to be used for civil defense purposes in order to assure that such materials and equipment will be easily and freely interchangeable when used in or by any other party state;

(g) The conduct of civilians and the movement and cessation of movement of pedestrians and vehicular traffic, prior, during and subsequent to drills or attacks;

(h) The safety of public meetings or gatherings; and

(i) Mobile support units.

ARTICLE III

Any party state requested to render mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for such state. Each party state shall extend to the civil defense forces of any other party state, while operating within its state limits under the terms and conditions of this compact, the same powers, except that of arrest unless specifically authorized by the receiving state, duties, rights, privileges and immunities as if they were performing their duties in the state in which normally employed or rendering services. Civil defense forces will continue under the command and control of their regular leaders but the organizational units will come under the operational control of the civil defense authorities of the state receiving assistance.

ARTICLE IV

Whenever any person holds a license, certificate, or other permit issued by any state evidencing the meeting of qualifications for professional, mechanical or other skills, such person may render aid involving such skill in any party state to meet an emergency or disaster and such state shall give due recognition to such license, certificate or other permit as if issued in the state in which aid is rendered.

ARTICLE V

No party state or its officers or employees rendering aid in another state pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith.

ARTICLE VI

Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that appropriate among other states party hereto, this instrument contains elements of a broad base common to all states, and nothing herein contained shall preclude any state from enter-

ing into supplementary agreements with another state or states. Such supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons, and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications, personnel, equipment and supplies.

ARTICLE VII

Each party state shall provide for the payment of compensation and death benefits to injured members of the civil defense forces of that state and the representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such state.

ARTICLE VIII

Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost incurred in connection with such requests; provided, that any aiding party state may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the receiving party state without charge or cost; and provided further that any two or more party states may enter into supplementary agreements establishing a different allocation of costs as among those states. The United States government may relieve the party state receiving aid from any liability and reimburse the party state supplying civil defense forces for the compensation paid to and the transportation, subsistence, and maintenance expenses of such forces during the time of the rendition of such aid or assistance outside the state and may also pay fair and reasonable compensation for the use or utilization of the supplies, materials, equipment, or facilities so utilized or consumed.

ARTICLE IX

Plans for the orderly evacuation and reception of the civilian population as the result of an emergency or disaster shall be worked out from time to time between representatives of the party states and the various local civil defense areas thereof. Such plans shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors. Such plans shall provide that the party state receiving evacuees shall be reimbursed generally for the out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for

transportation, food, clothing, medicines and medical care, and like items. Such expenditures shall be reimbursed by the party state of which the evacuees are residents, or by the United States government under plans approved by it. After the termination of the emergency or disaster the party state of which the evacuees are resident shall assume the responsibility for the ultimate support or repatriation of such evacuees.

ARTICLE X

This compact shall be available to any state, territory or possession of the United States, and the District of Columbia. The term "state" may also include any neighboring foreign country or province or state thereof.

ARTICLE XI

The committee established pursuant to Article I of this compact may request the Civil Defense Agency of the United States government to act as an informational and coordinating body under this compact, and representatives of such agency of the United States government may attend meetings of such committee.

ARTICLE XII

This compact shall become operative immediately upon its ratification by any state as between it and any other state or states so ratifying and shall be subject to approval by Congress unless prior congressional approval has been given. Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party states and the Civil Defense Agency and other appropriate agencies of the United States government.

ARTICLE XIII

This compact shall continue in force and remain binding on each party state until the legislature or the governor of such party state takes action to withdraw therefrom. Such action shall not be effective until 30 days after notice thereof has been sent by the governor of the party state desiring to withdraw to the governors of all other party states.

ARTICLE XIV

This compact shall be construed to effectuate the purposes stated in Article I hereof. If any provision of this compact is declared unconstitutional, or the applicability thereof to any person or circumstance is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to other persons and circumstances shall not be affected thereby.

Subd. 2. If any person holds a license, certificate, or other permit issued by any state or political subdivision thereof evidencing the meeting of qualifications for professional, mechanical, or other skills, the person may render aid involving that skill in this state to meet an emergency or disaster, and this state shall give due recognition to the license, certificate or other permit.

Sec. 11. [LOCAL EMERGENCIES.] Subdivision 1. A local emergency may be declared only by the mayor of municipalities or chairman of the county board of commissioners or his legal successor of a political subdivision. It shall not be continued or renewed for a period in excess of seven days except by or with the consent of the governing board of the political subdivision. Any order or proclamation declaring, continuing, or terminating a local emergency shall be given prompt and general publicity and shall be filed promptly with the chief local records-keeping agency.

Subd. 2. The effect of a declaration of a local emergency is to activate the response and recovery aspects of any and all applicable local or interjurisdictional disaster emergency plans and to authorize the furnishing of aid and assistance thereunder.

Subd. 3. No interjurisdictional agency or official thereof may declare a local emergency, unless expressly authorized by the agreement pursuant to which the agency functions. However, an interjurisdictional disaster agency shall provide aid and services in accordance with the agreement pursuant to which it functions.

Sec. 12. [DISASTER PREVENTION.] Subdivision 1. In addition to disaster prevention measures as included in the state, local, and interjurisdictional emergency plans, the governor shall consider on a continuing basis steps that could be taken to prevent or reduce the harmful consequences of disasters. At his direction, and pursuant to any other authority and competence they have, state agencies, including but not limited to those charged with responsibilities in connection with flood plain management, stream encroachment and flow regulation, weather modification, fire prevention and control, air quality, public works, land use and land-use planning, and construction standards, shall make studies of disaster prevention-related matters. The governor, from time to time, shall make recommendations to the legislature, local governments, and other appropriate public and private entities as may facilitate measures for prevention or reduction of the harmful consequences of disasters.

Subd. 2. The department of natural resources, in conjunction with the division of emergency services, shall keep land uses and construction of structures and other facilities under continuing study and identify areas which are particularly susceptible to serve land shifting, subsidence, flood, or other catastrophic occurrence. The studies under this subdivision shall concentrate on

means of reducing or avoiding the dangers caused by such occurrences or the consequences thereof.

Subd. 3. If the division of emergency services determines on the basis of the studies or other competent evidence that an area is susceptible to a disaster of catastrophic proportions without adequate warning, that existing building standards and land-use controls in that area are inadequate and could add substantially to the magnitude of the disaster, and that changes in zoning regulations, other land-use regulations, or building requirements are essential in order to further the purposes of this subdivision, it shall specify the essential changes to the governor. If the governor upon review of the recommendation finds after public hearing that the changes are essential, he shall so recommend to the agencies or local governments with jurisdiction over the area and subject matter. If no action or insufficient action pursuant to his recommendations is taken within the time specified by the governor, he shall so inform the legislature and request legislative action appropriate to mitigate the impact of disaster.

Subd. 4. The governor, at the same time that he makes his recommendations pursuant to subdivision 3, may suspend the standard or control which he finds to be inadequate to protect the public safety and by regulation place a new standard or control in effect. The new standard or control shall remain in effect until rejected by concurrent resolution of both houses of the legislature or amended by the governor. During the time it is in effect, the standard or control contained in the governor's regulation shall be administered and given full effect by all relevant regulatory agencies of the state and local governments to which it applies. The governor's action is subject to judicial review in accordance with the state administrative procedure act but shall not be subject to temporary stay pending litigation.

Sec. 13. [COMPENSATION.] Subdivision 1. Each person within this state shall conduct himself and keep and manage his affairs and property in ways that will reasonably assist and will not unreasonably detract from the ability of the state and the public successfully to meet emergencies. This obligation includes appropriate personal service and use or restriction on the use of property in time of emergency. This act neither increases nor decreases these obligations but recognizes their existence under the constitution and statutes of this state and the common law. Compensation for services or for the taking or use of property shall be only to the extent that obligations recognized herein are exceeded in a particular case and then only to the extent that the claimant may not be deemed to have volunteered his services or property without compensation.

Subd. 2. No personal service may be compensated by the state or any subdivision or agency thereof, except pursuant to statute or local law or ordinance.

Subd. 3. Compensation for property shall be only if the property was commandeered or otherwise used in coping with an emergency and its use or destruction was ordered by the governor or a member of the emergency forces of this state.

Subd. 4. Any person claiming compensation for the use, damage, loss, or destruction of property under this act shall file a claim therefor with the legislative claims commission in the form and manner the legislative claims commission provides.

Subd. 5. Unless the amount of compensation on account of property damaged, lost, or destroyed is agreed between the claimant and the legislative claims commission, the amount of compensation shall be calculated in the same manner as compensation due for a taking of property pursuant to the condemnation laws of this state.

Subd. 6. Nothing in this subdivision applies to or authorizes compensation for the destruction of damaging of standing timber or other property in order to provide a fire break or to the release of waters or the breach of impoundments in order to reduce pressure or other danger from actual or threatened flood.

Sec. 14. [COMMUNICATIONS.] The division of emergency services shall ascertain what means exist for rapid and efficient communications in times of emergencies. The agency shall consider the desirability of supplementing these communications resources or of integrating them into a comprehensive state or state-federal telecommunications or other communications system or network. In studying the character and feasibility of any system or its several parts, the agency shall evaluate the possibility of multipurpose use thereof for general state and local governmental purposes. The agency shall make recommendations to the governor as appropriate.

Sec. 15. [MUTUAL AID.] Subdivision 1. Political subdivisions not participating in interjurisdictional arrangements pursuant to this act nevertheless shall be encouraged and assisted by the division of emergency services to conclude suitable arrangements for furnishing mutual aid in coping with disasters. The arrangement shall include provision of aid by persons and units in public employ.

Subd. 2. In passing upon local emergency plans, the governor shall consider whether they contain adequate provisions for the rendering and receipt of mutual aid.

Subd. 3. It is a sufficient reason for the governor to require an interjurisdictional agreement or arrangement pursuant to section 9 of this act that the area involved and political subdivisions therein have available equipment, supplies, and forces necessary to provide mutual aid on a regional basis and that the political subdivisions have not already made adequate provision

for mutual aid; but in requiring the making of an interjurisdictional arrangement to accomplish the purpose of this section, the governor need not require establishment and maintenance of an interjurisdictional agency or arrangement for any other disaster purposes.

Sec. 16. [ASSISTANCE BETWEEN POLITICAL SUBDIVISIONS.] Subdivision 1. Whenever the public interest requires it on account of an imminent emergency, the governor may, in his discretion, authorize and direct the police, fire-fighting, health, or other force of any political subdivision, herein called the sending political subdivision, to go to the assistance of another political subdivision, herein called the receiving political subdivision, and to take and use for such purpose such personnel, equipment, and supplies of the sending political subdivision as the governor may direct.

Subd. 2. While so engaged, the officers and members of such forces shall have the same powers, duties, rights, privileges and immunities as if they were performing like service in the sending political subdivision and shall be considered to be acting within the scope of and in the course of their regular employment, as employees of such sending political subdivision.

Subd. 3. The receiving political subdivision shall reimburse the sending political subdivision for all supplies used and the compensation paid to all officers and members of the forces so furnished during such time as the rendition of such aid prevents them from performing their duties in the sending political subdivision, for the actual traveling and maintenance expenses of such officers and members while rendering such aid, and the cost of all insurance covering such officers and members while so engaged. Any claim for such loss, damage or expense in use of equipment or supplies or for additional expenses incurred in the operation or maintenance thereof shall not be allowed unless within 90 days after the same is sustained or incurred an itemized notice of such claim, verified by an officer or employee of the municipality having knowledge of the facts, is filed with the clerk of the receiving political subdivision.

Subd. 4. It shall be the policy of the state to reimburse the sending political subdivision for any loss or damage to equipment used outside of the corporate limits of the sending political subdivision and to reimburse the sending political subdivision for any additional expenses incurred in the operation and maintenance thereof outside such corporate limits. Any claim for such loss, damage or expense in use of equipment or for additional expenses incurred in the operation or maintenance thereof shall not be allowed unless within 90 days after the same is sustained or incurred an itemized notice of such claim, verified by an officer or employee of the sending political subdivision having knowledge of the facts, is filed with the state director.

Sec. 17. [PERSONS REQUIRED TO ASSIST.] Subdivision 1. During an emergency, the governor, the state director or a member of a class of members of a state or local civil defense organization designated by the governor, may, when necessary to save life or property, (1) require any person, except members of the federal or state military forces and officers of the state or a political subdivision, to perform services for emergency services purposes as directed by any of the persons first above described, and (2) commandeer, during a disaster emergency, any motor vehicle, tools, appliances or any other personal property.

Subd. 2. The owner of any property so commandeered shall be promptly paid just compensation for the use thereof and all damages done to the property while so used for emergency services purposes. The governor or the governing body of the political subdivision concerned, respectively, according to the use thereof, shall make a formal order determining the amount of such compensation. The owner may appeal to the district court of the county in which such property was commandeered if, within 30 days from the date of such order, he serves upon the governor or the political subdivision concerned and files with the clerk of such court a written notice of appeal setting forth the order appealed from and, in detail, the amount claimed as compensation. Upon such appeal, the issue shall be the amount of damages to which the appellant is entitled. It may be noticed for trial as in the case of a civil action and the court may require other parties to be joined and to plead therein when necessary to a proper determination of the questions involved. The cause shall be tried without a jury de novo and the court shall determine the damages and the person or persons entitled thereto. Except as herein otherwise provided, the trial shall be conducted and the cause disposed of according to the rules applicable to civil actions in the district court. The court in its discretion may award to the prevailing party the costs and disbursements of the appeal.

Subd. 3. Any able-bodied person required to perform services for emergency services who refuses, neglects, or otherwise fails to perform the services required under subdivision 1 shall be guilty of a misdemeanor and punished by imprisonment in the county jail for not less than ten days or more than 90 days.

Sec. 18. [MOBILE SUPPORT UNITS CALLED TO DUTY.] Subdivision 1. Mobile support units shall be called to duty upon orders of the governor and shall perform their functions in any part of the state, or, upon the conditions specified in this section, in other states.

Subd. 2. Personnel of mobile support units while on active duty, whether within or without the state, shall: (1) if they are employees of the state, have the powers, duties, rights, privileges and immunities and receive the compensation incidental to their employment; (2) if they are employees of a political sub-

division, and whether serving within or without such political subdivision, have the powers, duties, rights, privileges and immunities and receive the compensation incidental to their employment; and (3) if they are not employees of the state or a political subdivision thereof, receive compensation by the state of \$5 per day and have the same rights and immunities as are provided by law for the employees of this state. All personnel of mobile support units shall, while on duty, be subject to the operational control of the authority in charge of emergency services activities in the area in which they are serving, and shall be reimbursed for all actual and necessary travel and subsistence expenses.

Subd. 3. The state shall reimburse a political subdivision for the compensation paid and actual and necessary travel, subsistence and maintenance expenses of employees of such political subdivision while serving as members of a mobile support unit and for all payments for death, disability or injury of such employees incurred in the course of such duty, and for all losses of or damage to supplies and equipment of such political subdivision resulting from the operation of such mobile support unit.

Subd. 4. Whenever a mobile support unit of another state shall render aid in this state pursuant to the orders of the governor of its home state, and upon the request of the governor of this state, this state shall reimburse such other state for the compensation paid and actual and necessary travel, subsistence and maintenance expenses of the personnel of such mobile support unit while rendering such aid, and for all payments for death, disability or injury of such personnel incurred in the course of rendering such aid, and for all losses of or damage to supplies and equipment of such other state or a governmental subdivision thereof resulting from the rendering of such aid; provided, that the laws of such other state contain provisions substantially similar to this section.

Subd. 5. No personnel of a mobile support unit of this state shall be ordered by the governor to operate in any other state unless the laws of such other state contain provisions substantially similar to this section.

Sec. 19. [GOVERNOR MAY CONTRACT.] The governor, during an emergency, is, notwithstanding any other provision of law, empowered to enter into contracts and incur obligations necessary to combat such disaster by protecting the health and safety of persons and the safety of property, and providing emergency assistance to the victims of such disaster; to exercise the powers vested by this subdivision in the light of the exigencies of the disaster without compliance with time-consuming procedures and formalities prescribed by law pertaining to the performance of public work, entering into contract, incurring of obligations, employment of temporary workers, rental of equipment, purchase of supplies and materials, for example, but not limited to, publica-

tion of calls for bids, provisions of the civil service act and rules, provisions relating to low bids and requirements for the budgeting and allotment of funds. All contracts shall be in writing, executed on behalf of the state by the governor or a person by him delegated in writing so to do, and shall be promptly filed with the state auditor, who shall forthwith encumber funds appropriated for the purposes of the contract for the full contract liability and certify thereon that such encumbrance has been made.

Sec. 20. [POLITICAL SUBDIVISIONS, AUTHORITY TO ENTER INTO CONTRACTS.] During a disaster emergency, each political subdivision is, notwithstanding any statutory or charter provision to the contrary, empowered, through its governing body acting within or without the corporate limits of the political subdivision, to enter into contracts and incur obligations necessary to combat such disaster by protecting the health and safety of persons and property, and providing emergency assistance to the victims of such disaster. Each political subdivision is authorized to exercise the powers vested by this subdivision in the light of the exigencies of the disaster without compliance with time-consuming procedures and formalities prescribed by law pertaining to the performance of public work, entering into contracts, incurring of obligations, employment of temporary workers; rental of equipment, purchase of supplies and materials, limitations upon tax levies, and the appropriation and expenditure of public funds, for example, but not limited to, publication of ordinances and resolutions, publication of calls for bids, provisions of civil service laws and rules, provisions relating to low bids, and requirements for budgets.

Sec. 21. [EMPLOYEES; LOYALTY OATHS.] No person shall be employed or associated in any capacity in any emergency service organization established under this act who advocates or has advocated a change by force or violence in the constitutional form of the government of the United States or in this state or the overthrow of any government in the United States by force or violence, or who has been convicted of or is under indictment or information charging any subversive act against the United States. Each person who is appointed to serve in an organization for emergency services shall, before entering upon his duties, take an oath, in writing, before a person authorized to administer oaths in this state, which oath shall be substantially as follows:

"I,, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States and the Constitution of the State of against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties upon which I am about to enter. And I do further swear (or affirm) that I do not advocate, nor am I a member of any political party or organization that advocates the overthrow of the government of the United

States or of this state by force or violence; and that during such time as I am a member of the (name of emergency services organization), I will not advocate nor become a member of any political party or organization that advocates the overthrow of the government of the United States, or of this state, by force or violence."

This oath may be administered by any officer of the division of emergency services, local emergency services director/coordinator or any public official authorized to administer oaths.

Sec. 22. [POLITICAL ACTIVITIES.] No organization for emergency services established under the authority of this chapter shall participate in any form of political activity, nor shall it be employed directly or indirectly for political purposes, nor shall it be employed in a legitimate labor dispute.

Sec. 23. [VIOLATIONS, PENALTIES.] Unless a different penalty or punishment is specifically prescribed, any person who wilfully violates any provision of this act or any rule, order or regulation having the force and effect of law issued under authority of this act is guilty of a misdemeanor and upon conviction shall be punished as provided by law.

Sec. 24. [LIMITATION OF POWERS.] Nothing in this act shall be construed to authorize the governor or the director:

(1) By subpoena or otherwise to require any person to appear before him or any other person or to produce any records for inspection by him or any other person, or to examine any person under oath; and

(2) To remove summarily from office any person, other than a person appointed under this chapter, except as now provided by law or as herein specifically authorized.

Sec. 25.
