Beginning January 1, 1980, no new room air conditioner shall be sold or installed in Minnesota unless it has an energy efficiency ratio of 8.0 or higher. For purposes of this subdivision, "energy efficiency ratio" means the ratio of the cooling capacity of the air conditioner in British thermal units per hour to the total electrical input in watts under designated operating conditions.

Sec. 13. Minnesota Statutes 1976, Section 116H.12, is amended by adding a subdivision to read:

Subd. 10a. Beginning January 1, 1979, no new residential space heating, cooking or clothes drying equipment designed to burn natural gas and equipped with a continuously burning pilot light shall be sold or installed in Minnesota.

Sec. 14. Minnesota Statutes 1976, Section 116H.121, is amended to read:

116H.121 [ENERGY CONSERVATION STANDARDS IN CERTAIN PUBLIC BUILDINGS.] *Subdivision 1. Before February 1, 1977, the commissioner of administration in consultation with the director, shall amend the rules concerning heat loss, illumination, and climate control standards promulgated pursuant to (MINNESOTA STATUTES, 1975 SUPPLEMENT,) section 116H.12, subdivision 4, to include standards for all existing buildings heated by oil, coal, gas, or electric units which are owned by the state, the university of Minnesota, any city, any county, or any school district. Compliance with standards adopted pursuant to this section shall not be mandatory for buildings owned by any city, county or school district, except as otherwise provided by this section.*

Subd. 2. Effective January 1, 1978, the illumination standards promulgated pursuant to subdivision 1, shall be mandatory for all public buildings where economically feasible. For the purposes of this subdivision, "public building" means any building which is open to the public during normal business hours and which exceeds 5,000 square feet in gross floor area. The director shall specify the formula for determining economic feasibility and shall take appropriate measures prior to January 1, 1978, to inform building owners and managers of the requirements of this subdivision and to assist them in complying with it.

Subd. 3. No enclosed structure or portion of an enclosed structure constructed after January 1, 1978, and intended to be used primarily as a parking facility for three or more motor vehicles shall be heated. However, incidental heating resulting from building exhaust air passing through such a facility shall not be prohibited, provided that substantially all useful heat has previously been removed from such air.

Sec. 15. Minnesota Statutes 1976, Section 116H.124, is amended to read:

116H.124 [LOCAL GOVERNMENTAL SURVEYS AND FUEL COST ESTIMATES.] Before January 1, 1980, the governing body of each city and county shall complete a survey of all existing city owned or county owned buildings within their respective jurisdictions which buildings are heated by oil, coal, electric, or gas units. Buildings heated by oil or interruptable

gas shall be surveyed first. The survey shall determine, based upon a formula specified by the director, the estimated remaining useful life of each building, together with the present degree and estimated cost of compliance with the energy conservation standards promulgated pursuant to section 116H.121. The governing body of a city or county may contract with any municipal building official appointed pursuant to section 16.861, or with the state building inspector to perform the energy conservation survey. Each governing body shall estimate, based upon a formula specified by the director, the annual potential savings in fuel procurement costs for existing heating and cooling systems, which savings would be realized for each building within its jurisdiction if that building were improved to comply with the energy conservation standards. Each governing body shall file the energy conservation survey and estimated fuel procurement data for *at least half* the buildings within its jurisdiction with the director before December 31, 1978, and *all remaining buildings by December 31, 1979*, for his review and comment.

Sec. 16. Minnesota Statutes 1976, Section 116H.126, is amended to read:

116H.126 [PUBLIC SCHOOL SURVEYS.] Before January 1, 1980, each school district shall complete a survey of all existing public school buildings which it owns or operates and which are heated by oil, gas, coal, or electric units in order to determine the estimated remaining useful life of each building, together with the present degree and estimated cost of compliance with the energy conservation standards promulgated pursuant to section 116H.121. Buildings heated by oil or interruptable gas shall be surveyed first. The results of the energy conservation survey shall be recorded on a form furnished by the director. A school district may contract with any municipal building official appointed pursuant to section 16.861 or with the state building inspector to perform the energy conservation survey. Each school district shall estimate, based upon a formula specified by the director, the annual savings in fuel procurement costs for existing heating and cooling systems, which savings would be realized for each public school building within the district if it were improved to comply with the energy conservation standards.

Each school district shall file the energy conservation survey and estimated fuel procurement data for (EACH) *at least half* the public school (BUILDING) *buildings* within the district with the director before December 31, 1978, and *all remaining buildings by December 31, 1979*, for his review and comment.

Sec. 17. Minnesota Statutes 1976, Chapter 116H, is amended by adding a section to read:

[116H.129] [ENERGY CONSERVATION IN RESIDENTIAL BUILDINGS.] *Subdivision 1. Before January 1, 1978, the commissioner of administration, in consultation with the director, shall promulgate minimum energy efficiency standards for existing residential buildings. The standards shall be economically feasible in that the resultant savings in energy procurement costs, based on current average residential energy costs in Minnesota as certified by the director, will exceed the cost of the energy conserving requirements amortized over a period of five years.*

Subd. 2. Commencing July 1, 1978, any person who lends money secured by mortgage agreement related to the transfer of ownership of a residential building shall, prior to making any such loan, cause an inspection to be made of the subject property to determine the degree of compliance with all applicable standards under subdivision 1. If the subject property does not meet such standards, the person shall not make such loan unless the proposed mortgagor agrees that an amount of money sufficient to improve the property to meet such standards shall be added to the loan, such amount to be placed in escrow pending the completion of the improvement.

Subd. 3. Before January 1, 1978, the commissioner of administration, in consultation with the director, shall by rule amend the standards concerning heat loss, illumination, and climate control promulgated pursuant to section 116H.12, subdivision 4, to require that electrical service to individual dwelling units in buildings containing two or more units be separately metered, with individual metering readily accessible to the individual occupants. The standards authorized by this subdivision shall only apply to buildings constructed after the effective date of the amended standards. Buildings intended for occupancy exclusively by persons who are 62 years of age or older or handicapped, or which contain a majority of units not equipped with complete kitchen facilities, shall be exempt from the provisions of this subdivision.

Sec. 18. Minnesota Statutes 1976, Section 116H.13, Subdivision 4, is amended to read:

Subd. 4. After promulgation of the criteria for assessment of need, any (UTILITY, COAL SUPPLIER OR PETROLEUM SUPPLIER) person proposing to construct a new large energy facility shall apply for a certificate of need (TO CONSTRUCT A NEW LARGE ENERGY) prior to application for siting the facility under sections 116C.51 to 116C.69. The application shall be on forms and in a manner established by the director. In reviewing each application the director shall hold at least one public hearing pursuant to chapter 15.

Sec. 19. Minnesota Statutes 1976, Section 126.111, is amended to read:

126.111 [ENVIRONMENTAL CONSERVATION EDUCATION.] *Subdivision 1.* The state department of education with the cooperation of the department of natural resources shall prepare an interdisciplinary program of instruction for elementary and secondary schools in the field of environmental conservation education. The program shall provide integrated approaches to environmental management consistent with socioecological principles, the production of appropriate curriculum materials and implementation in the public schools in the state.

Subd. 2. The state department of education with the cooperation of the energy agency and the environmental education board shall prepare an interdisciplinary program in the field of energy sources, uses, conservation, and management. The first phase shall be an assessment of available curriculum materials, the amount and type of energy curriculum already being taught, and what needs to be developed to provide an integrated approach to energy education consistent with socioeconomic and ecological principles. Subsequent phases shall include development of curriculum guidelines and materials and a plan for their implementation as funds become available.

Sec. 20. [APPROPRIATIONS.] *Subdivision 1.* The sum of \$50,000 is appropriated from the general fund to the commissioner of administration for the purposes of sections 1 to 4 and 16 during the biennium beginning July 1, 1977.
