CONSIDERATION UNDER RULE 1.10

Pursuant to rule 1.10, Norton requested immediate consideration of H. F. No. 550 and S. F. No. 32.

H. F. No. 550 was reported to the House.

Rose moved to amend H. F. No. 550, as follows:

Add an article to read:

"ARTICLE VIII

EARLY CHILDHOOD AND FAMILY EDUCATION PROGRAMS.

Section 1. [POLICY.] *The legislature declares it to be policy of the state to provide the opportunity for all children to develop their maximum potential and, recognizing that a child's first five years lay the foundation for his future intellectual development, finds it necessary that families with pre-school-aged children be assisted by services and educational programs that stimulate the mental, physical and social growth of these children at home and later at school. Therefore, a comprehensive program of early childhood and family education with emphasis on the children between the ages of three to five years is needed to supplement public education in Minnesota.*

Sec. 2. [OBJECTIVES.] *The council on quality education in cooperation with the state department of education shall develop a comprehensive plan by which parents can help their children under age five to develop to the maximum level the physical, mental and social potential which they possess. The objectives of the plan shall be (1) to strengthen the role of the family as the first and most fundamental influence on learning and child development; (2) to maximize the importance of a child's education within the natural environment of his home and community; and (3) to provide opportunities for young children and their parents to be involved together in the learning process.*

Sec. 3. [COUNCIL DUTIES.] *The council on quality education in cooperation with the state department of education shall establish the comprehensive plan in fiscal year 1978 and design it so that the number of participating schools will gradually increase until by fiscal year 1981 there are early childhood and family education programs throughout the state.*

The comprehensive plan shall require participating school districts to: (1) apply for early childhood and family education programming in accordance with rules and regulations of the council; (2) develop a local master plan on a school by school basis within the district or, if the council approves, develop a joint plan with another district; (3) submit the plan to the council for review and approval.

The council in cooperation with the state department shall promulgate rules to be used in evaluation of the plans submitted by the districts. The rules shall include, but not be limited to, provisions as to:

(a) *Assessment of the need of parents and children in the district;*

(b) *Defined and measurable program objectives;*

(c) *A local program designed so that all school attendance areas can be included in not more than five years;*

(d) *Coordination of available resources and existing services with the local plan;*

(e) *Identification of potential barriers to learning for children age three to five;*

(f) *Parent education in child-development for parents with children age three to five; and*

(g) *Direct parental, teacher and community involvement in all phases of the development, administration and evaluation of the program.*

The comprehensive plan may also include: libraries of educational materials, family services, education for parenthood in secondary schools, in-center activity, home-based programs, referral services, bilingual language programs, and primary child care services.

The council and the state department shall also provide professional and technical assistance to districts.

The council shall appoint an advisory committee on early childhood and family education programs to aid in the design, development, implementation and review of the comprehensive and master plans.

Sec. 4. [MASTER PLAN APPROVAL.] *Beginning with fiscal year 1979, school districts may submit master plans developed in accordance with the rules as provided in section 3, or with approval of the council, may submit master plans developed jointly with another district or districts. The council shall evaluate programs and notify districts of its approval or disapproval within three months from submission of the plan. The council shall not approve a master plan which duplicates services provided by other public or private nonprofit agencies. In approving programs, the council shall give preference to districts which developed their programs in cooperation with a regional educational cooperative service unit organized pursuant to Minnesota Statutes, Section 123.58. Approval of programs shall be distributed as equally as possible among districts in these three groups: cities of Minneapolis and St. Paul; suburbs in the metropolitan area as defined in Minnesota Statutes, Section 473.121, Subdivision 2; and those outside of the metropolitan area. In each group, priority shall be given to districts which: (1) have the greatest number of families determined to have need for early childhood and family education programs; and (2) have the lowest measure of assessed valuation per pupil.*

No master plan shall be approved unless the council determines that parents, teachers and the community actively cooperated in all stages of its development.

Sec. 5. [FINANCING.] *In addition to funds appropriated for the programs by this act, a school district may use funds from private sources and other government agencies when available and may charge reasonable fees if a child or his parent or guardian has the ability to pay. All funds related to these programs shall be kept in a separate account and shall be maintained in accordance with Minnesota Statutes, Sections 121.90 to 121.92. The state board shall assist the districts in applying for funds for any phase of the programs.*

Sec. 6. [REVIEW.] *The council in cooperation with the state department shall annually review all approved master plans of districts or joint districts. If they determine that the district has been unsuccessful in meeting the objectives of its approved plan, they shall terminate the program, withhold funding from extension of the program to another school or schools or, if requested by the district or program center, waive any requirement if they find sufficient need and justification for the waiver. The council shall include the findings of its review in its annual report to the legislature until June 30, 1981, after which time the department may report all review findings biennially.*

Sec. 7. *The local school board in each district shall provide for an advisory committee to be selected from residents of the attendance area of the school in which an early childhood and family education program is funded. A majority of the members shall be parents participating in the program. The advisory committee shall aid in the design, development, coordination, supervision and review of early childhood and family education programs and set priorities for child learning and development services in the area. The committee shall report to the school board, the council on quality education, and a district community school advisory council where such council exists.*

Sec. 8. *Each local program may employ personnel deemed necessary for the program and also may contract with private nonprofit or public agencies for provision of services. Qualifications for professional and paraprofessional employees shall be determined by the state board of education.*

Sec. 9. *Notwithstanding any provision of this act, participation by all parents and children in these early childhood and family education programs shall be voluntary and shall not preclude participation in any other state or local program. All programs shall provide services to all qualified parents and children regardless of race, religion, or ethnic background, and no such programs shall be used in whole or part for religious worship or instruction.*

Sec. 10. *All pilot programs established pursuant to Minnesota Statutes, Sections 3.9271 to 3.9275 shall be continued for fiscal year 1978. After June 30, 1978, the pilot programs shall be incorporated into the comprehensive plan. In fiscal year 1978,*

the council in cooperation with the state department shall: (1) collect and disseminate information regarding the operation of the pilot programs, with assistance from the educational co-operative service units if they deem it necessary; and (2) develop the comprehensive plan provided for in section 3.

Sec. 11. *There is appropriated from the general fund to the council on quality education for the purposes of this act:*

\$620,000 1978,

\$3,428,000 1979.

For fiscal years 1980 and 1981, the legislature shall review the progress made in implementing this act and appropriate funds as it finds necessary. After June 30, 1981, the responsibility for continued operation of the programs shall be delegated to the state department of education to be financed from any funds at its disposal but in no event shall the foundation aid formula be used or altered for funding of these programs.

Any unexpended balance remaining from the appropriations in this section shall not cancel but shall be carried over for the next fiscal year."
