Subdivision 1. [STUDY CRITERIA; SCOPE.] The University of Minnesota or another institution or organization selected by the commissioner of agriculture in consultation with the advisory board established under subdivision 3 shall perform the study required under this section. The study must provide interdisciplinary analysis of issues frequently believed to be electrical in nature that affect dairy and livestock productivity levels or are manifested in poor animal health. The study may include analysis of possible non-electrical causes for low productivity levels or poor animal health at the study sites in order to help isolate the specific cause or causes of the problem at the sites. The study must be conducted on farmstead sites within the state as determined appropriate by the study team. The interdisciplinary team studying the selected sites must consist of researchers from the University of Minnesota or elsewhere who have expertise in the following fields: (1) animal sciences; (2) veterinary medicine; (3) electrical power distribution; (4) farmstead electrification; and (5) any other discipline or field deemed appropriate by members of the interdisciplinary team.

Subd. 2. [STUDY SITE SELECTION.] The farmstead sites to be studied must be selected by the advisory board established under subdivision 3. Study sites must be selected from among farmsteads whose operators request participation in the study. For three or more of the sites, preference must be given to farmsteads in dairy production areas which have experienced persistent problems with low milk production levels and poor dairy herd health and where a traditional study of stray voltage has failed to identify or solve the problem.

Subd. 3. [ADVISORY BOARD: COMPOSITION, APPOINTMENT, DUTIES.] Not later than 30 days after the effective date of this act the governor, in consultation with the commissioner of agriculture, shall appoint an advisory board of nine members who shall determine farmstead sites to be included in the study. The

advisory board shall meet at least quarterly to review progress reports on the study. Members of the advisory board shall include farmers experiencing conditions similar to those to be studied (membership on the advisory board does not preclude study of a farmstead operated by a member); farmers whose problems with low productivity levels or poor livestock health have been resolved; other farmers; a member of the Minnesota pollution control agency board; a representative of a cooperative electric association; a representative of an investor-owned electric utility which serves rural areas of Minnesota; a practicing veterinarian; and a representative of the University of Minnesota. Members of the advisory board shall serve without compensation but must be reimbursed by the commissioner of agriculture for mileage and actual expenses for meals related to service on the advisory board. The advisory board expires upon submission of the report required under subdivision 4.

Subd. 4. [REPORT.] The interdisciplinary study team shall prepare and deliver to the commissioner of agriculture a report on the results of the study. If feasible, the study team shall also submit the results of the study in a form appropriate for publication in one or more recognized scientific journals. The commissioner shall report results of the study to the house and senate committees on agriculture not later than February 1, 1989.
