Subd. 6. [MEDICARE CERTIFICATION.] (a) All nursing homes certified as skilled nursing facilities under the medical assistance program shall fully participate in Medicare part A and part B unless, after submitting an application, Medicare certification is denied by the federal health care financing administration. "Fully participate" means that 95 percent of a nursing home's beds certified as skilled under the medical assistance program are Medicare certified. The commissioner may grant exceptions to this requirement for nursing homes that are designated as institutions for mental disease. Medicare review shall be conducted at the time of the annual medical assistance review. Charges for medicare-covered services provided to residents who are simultaneously eligible for medical assistance and Medicare must be billed to Medicare part A or part B before billing medical assistance. Medical assistance may be billed only for charges not reimbursed by Medicare.

Until September 30, 1987, the commissioner of health may grant exceptions from this requirement when a nursing home submits a written request for exception and it is determined that there is sufficient participation in the Medicare program to meet the needs of Medicare beneficiaries in that region of the state. For the purposes of this section, the relevant region is the county in which the nursing home is located together with contiguous Minnesota counties. There is sufficient participation in the Medicare program in a particular region when the proportion of skilled resident days paid by the Medicare program is at least equal to the national average based on the most recent figure that can be supplied by the federal health care financing administration. A nursing home that is granted an exception under this subdivision must give appropriate notice to all applicants for admission that Medicare coverage is not available in the nursing home and publish this fact in all literature and advertisement related to the nursing home.

(b) During the interim period before approval or denial of a home's application for Medicare certification by the health care financing

administration, a resident in a skilled care bed and eligible for medical assistance who becomes eligible for Medicare has the right to refuse an intrafacility skilled bed transfer if the resident's physician submits a written statement that the transfer would create or contribute to a health problem for the resident.

(c) A resident eligible for medical assistance who is occupying a skilled bed certified by the medical assistance and Medicare programs shall also have the right to refuse a transfer if the resident's bed is required by a Medicare eligible patient or a private pay patient.

(d) The requirements of paragraphs (b) and (c) may be implemented only if the federal Department of Health and Human Services agrees to approve the medical assistance state plan amendment submitted to implement those paragraphs.

(e) The commissioner of human services shall inform recipients of their rights under this section and section 144.651, subdivision 29.

Sec. 2. [EFFECTIVE DATES.]

That portion of section 1 requiring nursing homes certified as skilled nursing facilities to apply for full participation in Medicare part A and part B is effective three months following final enactment. That portion of section 1 allowing residents eligible for both medical assistance and Medicare the right of refusal is effective the day following final enactment."
