Sec. 9. [466A.03] [COMMUNITY RESOURCES PROGRAM.]

Subdivision 1. [COMMUNITY RESOURCES PROGRAM; REQUIREMENT.] A city must prepare an annual comprehensive community resources program that is consistent with the recommendations of targeted neighborhood residents and organizations serving or representing these residents. The program must describe the specific community resource services and means by which the community intends to pursue and implement the program objectives outlined in subdivision 2 for each targeted neighborhood served under the program.

Subd. 2. [COMMUNITY RESOURCES PROGRAM OBJECTIVES.] A community resources program must address the following objectives:

(a) Establish means for stabilizing families so family members can become more functional as a family unit and as members of the community. This objective addresses family stabilization by insuring that children attend and adequately participate in schools providing elementary and secondary education, strengthening the family unit through counseling and other services, and increasing the family unit's health through nutrition, parenting skills, health assessment, drug abuse programs, and other services.

(b) Provide opportunities for families and individuals that lead to greater self-sufficiency through improved housing, health, environment, education, job training, employment, and independent living.

(c) Establish the community as a safer environment by finding the means to reduce crime and the fear of crime in the community and other parts of the city.

(d) Establish means to stabilize the neighborhood or community by building the capacity of the community's neighborhood-based organizations and institutions to build cohesiveness through planning and organizing residents, to provide or ensure the provision of necessary services, and to meet the other program objectives.

Subd. 3. [COMMUNITY RESOURCES PROGRAM; CONTENTS.]

(a) The community resources program must include the following information:

(2) the specific activities, programs, or means by which the city intends to pursue and implement the objectives in subdivision 2;

(3) a statement of the intended outcomes to be achieved by implementing the community resources program;

(4) the method to measure the outcomes to be achieved by implementing the community resources program, how the outcomes will be measured both qualitatively and quantitatively, and the estimated time over which they will occur;

(5) identification of the targeted neighborhoods, assisted housing, and other parts of the city that will receive community resources services;

(6) a detailed statement of how the community resources services will be coordinated with similar services being offered by the city, county, school district, state, and other providers;

(7) a description of the process used and the staff services provided to ensure the required community or neighborhood participation in the preparation of the program; and

(8) a budget that identifies the financial resources necessary to implement the community resources program. The budget must include the following items: (i) the estimated total cost to implement the community resources program; (ii) the estimated cost to implement each activity in the community resources program identified in clause (2); and (iii) the estimated amount of financial resources that will be available from all sources other than from the appropriation available under section 13 to implement the community resources program, including the amount of private funding to be made available to assist in funding the community resources program.

(b) The information required to be in the program under this subdivision must be specific to a targeted neighborhood to the greatest extent possible. If information is not specific to a targeted neighborhood that is to receive assistance under the program, the program must include a statement explaining the reason.

Subd. 4. [COMMUNITY PARTICIPATION.] (a) Each city must adopt a process to involve the residents of targeted neighborhoods and assisted housing in planning, developing, and implementing the program. As part of this process, the city must ensure that this community-based process has sufficient resources to assist in the development of the program.

(b) Beginning with the program for 1991, each targeted neighborhood or group of targeted neighborhoods must have a strategic planning group whose members include residents of the targeted neighborhood, representatives of community resources service providers in the neighborhood, and representatives of institutions in the neighborhood. The group must, as part of its responsibilities, develop a strategic plan for the neighborhood. This strategic plan must include the elements that the planning group recommends as part of the community resources program. The strategic plan must also address how the targeted neighborhood portions of the comprehensive revitalization and financing program will be integrated with the elements that are recommended to be included as part of the community resources program.

(c) The city must ensure that the strategic planning group required under paragraph (b) is established. An existing group or organization that reflects the required membership under paragraph (b) may be designated as the strategic planning group. The city may provide financial and staff resources to ensure the establishment of the strategic planning groups. The city may use part of the money received for the community resources program from the state to assist in the establishment of the targeted neighborhood strategic planning groups.

(d) As part of the process for the development of the community resources plan, each targeted neighborhood strategic planning group must submit recommendations for the community resources program to the city and the advisory board established under subdivision 5. The recommendations must include the specific neighborhood services and other means to meet the objectives outlined in subdivision 2.

Subd. 5. [COMMUNITY RESOURCES PROGRAM ADVISORY BOARD.] Each city must establish a community resources program advisory board to assist the city in developing and implementing the community resources program. The advisory board must consist of at least two representatives of the city council appointed by the city council, one or more representatives of the county board appointed by the county board, one or more representatives of the school board appointed by the school board, and representatives of the targeted neighborhoods. The representatives of the targeted neighborhoods must represent a majority of the membership of the advisory board and reflect the geographic, cultural, racial, and ethnic diversity of the targeted neighborhoods. The city may determine the size of the advisory board and may designate an existing entity as the advisory board if the entity meets the membership requirements outlined in this subdivision.

Subd. 6. [DEVELOPMENT OF COMMUNITY RESOURCES PROGRAM.] (a) The advisory board must work closely with city staff in developing and drafting the community resources program.

The advisory board must be involved in assessing needs, prioritizing funds, and developing criteria for evaluating program proposals. In developing the program, the advisory board must give priority to the recommendations made by the targeted neighborhood strategic planning groups. In addition, the community resources program must give priority to proposals or recommendations which (i) will create jobs for targeted neighborhood residents at living wages, and (ii) document efforts to create and maintain jobs for targeted neighborhood residents.

(b) The advisory board must conduct a public hearing and secure input from residents of targeted neighborhoods, governmental units affected by the program, and other organizations and persons.

(c) The advisory board may make any changes to the program resulting from testimony given at the public hearing. The advisory board must formally recommend to the city council a proposed community resources program.

(d) The advisory board will meet quarterly after recommending the program to the city council to monitor and review the programs, initiatives, and other activities that have been funded with community resource money.

Subd. 7. [REVIEW BY AFFECTED GOVERNMENTAL UNITS.] The city must develop a process to consult with affected governmental units including the state, county, and school districts. These affected governmental units may provide technical and informational assistance to the city and advisory board to ensure that the community resources services that are included in the program are coordinated with services provided by other governmental units and do not unnecessarily duplicate any existing services. The process must also include a comment period for the county board, school board, and commissioner to review a draft program and to provide comments to the city. If the county board, school board, or commissioner have comments, they must respond to the city in writing within 30 days. The city must respond to comments received from the county board and school board in writing before the city adopts the program.

Subd. 8. [CITY APPROVAL.] The city council must hold a public hearing before submitting the program to the commissioner for approval. Notice of the hearing must be provided in a newspaper of general circulation in the city and in the targeted neighborhood not less than ten days nor more than 30 days before the date of the hearing. In addition, to the maximum extent possible, notice shall be published in the most widely circulated community newspaper in the targeted neighborhoods.

Subd. 9. [REVIEW AND APPROVAL BY COMMISSIONER.] (a)

Before the city adopts a community resources program, the commissioner must approve the program.

(b) The commissioner must establish an advisory panel to assist the commissioner in reviewing the programs. The panel must consist of the commissioner; the commissioners of human services, health, jobs and training, Minnesota housing finance agency, and public safety; one representative of each of the cities that have submitted a program appointed by the appropriate city council; and two members of the public appointed by the commissioner.

(c) The advisory panel must review each city's community resources program to determine if the process, including any information required to be in the program objectives, meets the requirements of subdivisions 4 to 8. The panel will also review the program to insure that there is not unnecessary duplication of services already provided in the targeted neighborhood.

(d) The commissioner must notify the city in writing within 30 days after receiving the program of a preliminary decision on the approval of the program and any recommendations of the commissioner for modification of the program. The commissioner must specify in writing the reasons for each recommendation for modification of the program. If the commissioner has no recommendations for the program's modification, the commissioner must approve the program. The commissioner may not disapprove any part of the program unless the commissioner determines that (1) the process, including any information required to be in the program, by which that part of the program was developed, does not meet the requirements of subdivisions 4 to 8, (2) the program is inconsistent with program objectives, or (3) the program results in unnecessary duplication of services already provided in the targeted neighborhood. If modifications to the program are recommended by the commissioner, the city must modify the program and resubmit it to the commissioner within 30 days for approval.

(e) If the city does not accept all of the commissioner's recommendations, the city must notify the commissioner in writing within 15 days after receiving the commissioner's recommendations. The city must specify in writing the reasons for not accepting the commissioner's recommendations.

(f) The commissioner must notify the city, within ten days after receiving the city's decision, of the commissioner's approval or disapproval of specific programs, projects, or elements of the program. State funding may only be released to the city for those programs, projects, or elements given final approval by the commissioner.

Subd. 10. [PROGRAM CERTIFICATION.] The city council may only adopt those programs, projects, or elements of the community

resources program that the commissioner has approved. A certification by the city that a community resources program has been approved by the city council must be provided to the commissioner together with a copy of the program. A copy of the program must also be provided to the county board and school board.

Subd. 11. [COMMUNITY RESOURCES PROGRAM MODIFICATION.] The community resources program may be modified at any time by the city council after review by the community resources advisory board and a public hearing. Notice of the public hearing must be published in a newspaper of general circulation in the city not less than ten days nor more than 30 days before the date of the hearing. In addition, to the maximum extent possible, notice shall be published in the most widely circulated community newspaper in the targeted neighborhoods. If the city council or advisory board determines that the proposed modification is a significant modification to the program originally certified under subdivision 10, it must implement the community resources program approval and certification process of subdivisions 5 to 10 for the proposed modification.

Sec. 10. [466A.04] [CITY POWERS.]

Subdivision 1. [GENERAL POWERS.] A city may exercise any of its corporate powers in implementing the community resources program.

Subd. 2. [GRANTS AND LOANS.] In addition to the authority granted by other law, a city, through a request for proposal process, may make grants, loans, and other forms of assistance to, and enter into service contracts with, individuals, for profit and nonprofit corporations, and other organizations to implement a community resources program. The contracts entered into by the city under this subdivision must contain terms concerning use of money, repayment, and other conditions the city deems proper to implement a community resources program.

Subd. 3. [COMMUNITY INITIATIVES PROGRAM.] A city may establish a community initiatives program as part of the community resources program. At least ten percent of the community resource money must be distributed to organizations under the community initiatives program. A community initiatives program, in addition to the authority granted by other law, authorizes a city to set aside funds and to develop a process to request proposals for the purpose of making grants, loans, and other forms of assistance to, or entering into service contracts with, nonprofit organizations, including neighborhood organizations, representing community residents. The organizations may also represent residents from a contiguous neighborhood. Financial assistance or service contracts awarded under this subdivision are limited to \$25,000 to any one organization in any one year. State money used for the community initiatives program must be used for implementing activities included in

the community resources program. The contracts entered into by the city with a nonprofit organization under this subdivision must contain terms concerning use of money and other conditions the city deems proper to implement a community initiatives program.

Subd. 4. [ELIGIBLE USES FOR COMMUNITY RESOURCE MONEY.] The city may spend community resource money for any purpose authorized by subdivisions 1 to 3 except that an amount equal to at least 90 percent of the state payment according to section 11 made available to the city must be spent in or for residents in targeted neighborhoods or assisted housing. Use of community resources money must be authorized in a community resources program. If a resident of a targeted neighborhood or assisted housing is a recipient of community resource services and moves to a residence in (i) another part of the city, (ii) another location in the same county, or (iii) a location in an adjacent county located in the state, eligibility continues for the community resources services.

Sec. 11. [466A.05] [PAYMENT; DRAWDOWN; USES OF STATE MONEY.]

Subdivision 1. [PAYMENT OF STATE MONEY.] Upon receiving from a city the certification that a community resources program has been adopted or modified, the commissioner shall, within 30 days after receiving the certification, pay to the city the amount of state money identified as necessary to implement the community resources program or program modification. State money may be paid to the city only to the extent that the appropriation limit for the city specified in subdivision 2 is not exceeded. Once the state money has been paid to the city, it becomes community resource money for use by the city according to an adopted community resources program and subject to the restrictions on its use in sections 7 to 12.

Subd. 2. [ALLOCATION.] A city may receive a part of the appropriations made available that is the proportion that the population of the city bears to the combined population of the cities. A city may agree to reduce its entitlement amount and to make it available to another city. The population of each city for the purposes of this subdivision is determined according to the most recent estimates available to the commissioner.

Sec. 12. [466A.06] [ANNUAL REPORT.]

A city that begins to implement a community resources program in a calendar year must, by March 1 of the succeeding calendar year, provide a detailed report to the commissioner and legislature on the community resources program or programs being implemented in the city. The report must describe the status of the program implementation and analyze whether the intended outcomes identified in section 9, subdivision 3, paragraph (a), clause (3), are being achieved.

Subd. 3. [SCHOLARSHIPS.] Up to \$250,000 of the appropriation for each fiscal year is for scholarships for part-time or full-time students enrolled in programs designed to prepare individuals to become registered nurses. Up to \$250,000 of the appropriation for each fiscal year is for scholarships for part-time or full-time students enrolled in baccalaureate, masters, or doctorate degree programs in nursing. (2) recommend to the board eligibility requirements for scholarship recipients, procedures for awarding scholarships, procedures for allowing the use of matching grants, and alternate methods of determining award amounts;

(3) recommend, as necessary, other policy matters concerning the nursing education program grants and nursing scholarships; and

(4) recommend the conditions under which a nursing scholarship would not be included in the calculation of awards under Minnesota Statutes, chapter 136A.

Subd. 5. [CARRYOVER.] Any unencumbered balance of the appropriation in this section for fiscal year 1990 does not cancel but is available for fiscal year 1991.

Subd. 2. [ABATEMENT ORDERS.] If the level of lead in paint, soil, or dust found during the assessment conducted under subdivision 1 exceeds the toxic level of lead standards established in rules adopted under section 8, the board of health must order the property owner to abate the lead sources.

Subd. 3. [WARNING NOTICE.] A warning notice must be posted on all entrances to properties for which an order to abate a lead source has been issued by a board of health.
