Subdivision 1. [RESERVATION OF MARGINAL LAND AND WETLANDS.] Notwithstanding any other law, marginal land and wetlands are withdrawn from sale by the state unless use of the marginal land or wetland is restricted by a conservation easement as provided in this section. This section does not apply to transfers of land by the board of water and soil resources to correct errors in legal descriptions under section 73, subdivision 8, or to transfers by the commissioner of natural resources for:

(1) land that is currently in nonagricultural commercial use if a conservation easement would interfere with the commercial use;

(2) land in platted subdivisions;

(3) conveyances of land to correct errors in legal descriptions under section 84.0273;

(4) exchanges of nonagricultural land with the federal government, or exchanges of Class A, Class B, and Class C nonagricultural land with local units of government under sections 94.342, 94.343, 94.344, and 94.349;

(5) land transferred to political subdivisions for public purposes under sections 84.027, subdivision 10, and 94.10; and

(6) land not needed for trail purposes that is sold to adjacent property owners and lease holders under section 85.015, subdivision 1, paragraph (b).

Subd. 2. [DELINEATION OF WETLAND OR MARGINAL LAND.] (a) Before state land is sold, the land must be submitted to the board of water and soil resources to determine and delineate the marginal land and wetlands to be reserved or restricted by a conservation easement. The delineation of the reservation or conservation easement need not be by legal description and may be a description, in general terms that identifies the marginal land or wetlands.

(b) Marginal land and wetlands may not be sold unless restricted by a conservation easement with the restrictions provided in section 73, subdivision 4, paragraphs (a) and (c), and other restrictions determined necessary by the board of water and soil resources.

Subd. 3. [SCHOOL TRUST LAND.] If the sale of school trust land as defined in section 92.025 is restricted by a conservation easement and the restriction results in a reduction of the amount received from the sale, the commissioner of natural resources must determine the amount of the reduction. The amount of the reduction in sale price must be paid from appropriations to acquire conservation easements and shall be credited to the account to which the proceeds from the sale are credited.

Subd. 4. [RELEASE AND ALTERATION OF CONSERVATION EASEMENT.] The board may alter, release, or terminate a conservation easement created under this section after consultation with the commissioners of agriculture and natural resources. The board may alter, release, or terminate a conservation easement only if the board determines the public interests and general welfare are better served by the alteration, release, or termination.
