

STATE OF MINNESOTA

SEVENTY-SEVENTH SESSION—1992

SEVENTY-THIRD DAY

SAINT PAUL, MINNESOTA, THURSDAY, MARCH 5, 1992

The House of Representatives convened at 2:30 p.m. and was called to order by Dee Long, Speaker of the House.

Prayer was offered by Father Eugene W. Tiffany, Church of the Holy Trinity, South St. Paul, Minnesota.

The roll was called and the following members were present:

| Dorn | Johnson, V. | Nelson, S. | Schreiber | Winter |
| Erhardt | Kahn | Newinski | Seaberg | Spk. Long |

A quorum was present.

Janezich; Nelson, K.; Rodosovich and Solberg were excused.

The Chief Clerk proceeded to read the Journals of the preceding days. Lourey moved that further reading of the Journals be dispensed with and that the Journals be approved as corrected by the Chief Clerk. The motion prevailed.

REPORTS OF CHIEF CLERK

S. F. No. 1666 and H. F. No. 1825, which had been referred to the Chief Clerk for comparison, were examined and found to be identical with certain exceptions.

SUSPENSION OF RULES

Bodahl moved that the rules be so far suspended that S. F. No. 1666 be substituted for H. F. No. 1825 and that the House File be indefinitely postponed. The motion prevailed.

REPORTS OF STANDING COMMITTEES

Clark from the Committee on Housing to which was referred:

H. F. No. 123, A bill for an act relating to animals; requiring landlords to allow elderly tenants to keep certain pets; proposing coding for new law in Minnesota Statutes, chapter 504.

Reported the same back with the recommendation that the bill pass.

The report was adopted.

Munger from the Committee on Environment and Natural Resources to which was referred:

H. F. No. 779, A bill for an act relating to solid waste; regulating packaging and toxic materials in packaging and products; defining packaging; preempting local regulations relating to packaging; establishing a packaging advisory council; establishing a goal for reduction of packaging in the solid waste stream; establishing goals for reduction in the solid waste stream of specific classifications of packaging materials; imposing a future fee for failure to meet the reduction goal for a classification of packaging material; requiring counties to ensure recycling of commonly used packaging materials; requiring registration of and payment of a fee for use of priority toxic materials in products and packaging; requiring reduction of the use of toxic materials in packaging; requiring various reports and research; authorizing rulemaking; providing penalties; appropriating money; amending Minnesota Statutes 1990, sections 115A.02; 115A.03, by adding a subdivision; 115A.072, subdivision 2; 115A.12, subdivision 1, and by adding a subdivision; 115A.552, by adding a subdivision; 115A.557, by adding a subdivision; 115A.558; 115A.93, subdivision 3, and by adding a subdivision; 325E.042, subdivision 3,

and by adding a subdivision; and 400.08, subdivision 5; proposing coding for new law in Minnesota Statutes, chapter 115A; repealing Minnesota Statutes 1990, section 115A.953.

Reported the same back with the following amendments:

"ARTICLE 1

WASTE PACKAGING REDUCTION

Section 1. Minnesota Statutes 1991 Supplement, section 115A.02, is amended to read:

115A.02 [LEGISLATIVE DECLARATION OF POLICY; PURPOSES.]

(a) It is the goal of this chapter to improve waste management in the state to serve the following purposes:

- (1) Reduction in waste generated;
- (2) Separation and recovery of materials and energy from waste;
- (3) Reduction in indiscriminate dependence on disposal of waste;
- (4) Coordination of solid waste management among political subdivisions; and
- (5) Orderly and deliberate development and financial security of waste facilities including disposal facilities.

(b) The waste management goal of the state is to foster an integrated waste management system in a manner appropriate to the characteristics of the waste stream. The following waste management practices are in order of preference:

- (1) waste reduction and reuse;
- (2) waste recycling;
- (3) composting of yard waste and food waste;
- (4) resource recovery through mixed municipal solid waste composting or incineration; and
- (5) land disposal.

(c) It is the further goal of this chapter to ensure that, to the extent practicable, solid waste is separated into groups that contain materials that lend themselves to reuse, recycling, composting, incineration, other processing, or disposal and that each county or group of counties that cooperatively manages solid waste ensure that each separate group is appropriately reused, recycled, composted, incinerated, otherwise processed, or disposed to minimize adverse environmental impacts.

Sec. 2. Minnesota Statutes 1990, section 115A.03, is amended by adding a subdivision to read:

Subd. 22b. [PACKAGING.] "Packaging" means any container and appurtenant material that provides a means of transportation, marketing, protecting, or handling a product. "Packaging" includes pallets and packing such as blocking, bracing, cushioning, weather-proofing, strapping, coatings, closures, inks, and labels.

Sec. 3. Minnesota Statutes 1990, section 115A.072, subdivision 2, is amended to read:

Subd. 2. [OFFICE DUTIES.] In addition to its general duties established in subdivision 1, the office shall:

(1) develop a statewide waste management public education campaign with materials that may be easily adapted by political subdivisions to meet their program needs and that, in addition to general waste management concerns, addresses reduction, reuse, recycling, composting, resource recovery, and disposal of packaging materials by consumers and others, including informing consumers of their right to remove unwanted packaging at the point of sale and to leave it with the seller, keeping in mind preservation of the safety and sanitation of the seller's establishment; and

(2) develop and make available to schools educational curricula on waste education for grades kindergarten to 12 to address at least waste reduction, reuse, recycling, litter, and proper management and disposal of problem materials; and

(3) inform consumers, after consultation with the commissioner of the agency and the department of natural resources, of the environmental consequences of burning solid waste materials outside of incinerators designed and permitted to burn solid waste and of on-site burial of solid waste.

Sec. 4. [115A.0721] [GOVERNOR'S AWARD; PACKAGING.]

The governor may issue annual awards in the form of commendations for excellence in producing, selling, reusing, reducing, or recycling packaging in an environmentally sound manner.

Sec. 5. [115A.0723] [PREEMPTION; PACKAGING AND LABELING REGULATION.]

Political subdivisions may not adopt, and are preempted from adopting or enforcing, requirements relating to the use of packaging in commerce, or relating to labeling of packaging for its constituent materials, that are different than state law.

Sec. 6. Minnesota Statutes 1990, section 115A.12, subdivision 1, is amended to read:

Subdivision 1. [SOLID AND HAZARDOUS WASTE MANAGEMENT.] (a) The director shall establish a solid waste management advisory council, a hazardous waste management planning council, and a market development coordinating council, and a packaging advisory council, that are broadly representative of the geographic areas and interests of the state.

(b) The solid waste council shall have not less than nine nor more than 21 members. The membership of the solid waste council shall consist of one-third citizen representatives, one-third representatives from local government units, and one-third representatives from private solid waste management firms. The solid waste council shall contain at least three members experienced in the private recycling industry and at least one member experienced in each of the following areas: state and municipal finance; solid waste collection, processing, and disposal; and solid waste reduction and resource recovery.

(c) The hazardous waste council shall have not less than nine nor more than 18 members. The membership of the hazardous waste advisory council shall consist of one-third citizen representatives, one-third representatives from local government units, and one-third representatives of hazardous waste generators and private hazardous waste management firms.

(d) The market development coordinating council shall have not less than nine nor more than 18 members and shall consist of one representative from the department of trade and economic development, the department of administration, the pollution control agency, the Greater Minnesota Corporation, the metropolitan council, and the legislative commission on waste management. The other members shall represent local government units, private recycling markets, and private recycling collectors. The market development coordinating council expires June 30, 1994.

(e) The packaging advisory council shall have not less than ten or more than 18 members. The membership of the packaging advisory council must consist of one-half representatives of the public sector and one-half representatives from the private sector related to packaging concerns. Three members must have packaging expertise

and three members must have technical solid waste expertise. The packaging advisory council expires June 30, 1996.

(e) (f) The chairs of the advisory councils shall be appointed by the director. The director shall provide administrative and staff services for the advisory councils. The advisory councils shall have such duties as are assigned by law or the director. The solid waste advisory council shall make recommendations to the office on its solid waste management activities. The hazardous waste advisory council shall make recommendations to the office on its activities under sections 115A.08, 115A.09, 115A.10, 115A.11, 115A.20, 115A.21, and 115A.24. Members of the advisory councils shall serve without compensation but shall be reimbursed for their reasonable expenses as determined by the director. The solid waste management advisory council and the hazardous waste management planning council expire June 30, 1994.

Sec. 7. Minnesota Statutes 1990, section 115A.12, is amended by adding a subdivision to read:

Subd. 3. [PACKAGING ADVISORY COUNCIL; DUTIES.] The packaging advisory council shall advise the director on the implementation of sections 115A.5501, 115A.5502, and 115A.552, subdivision 5. The council shall also:

(1) assess progress toward meeting the goal established in section 115A.5501;

(2) advise the director on recovery methods and rates for types of packaging materials;

(3) advise the director on standard procedures for measuring the amount of packaging in the waste stream and the environmental consequences of processing and disposal of the various types of packaging materials;

(4) review progress made toward the production and use of environmentally sound packaging;

(5) report by July 1, 1993, to the director on the likelihood of implementation of a nationwide environmental labeling program for packaging and when such a labeling program will be implemented; and

(6) report to the director a comprehensive range of public policies and private activities that might encourage reduction in the amount of or environmental risks associated with production and use of packaging.

Sec. 8. [115A.5501] [REDUCTION OF PACKAGING IN WASTE.]

Subdivision 1. [STATEWIDE WASTE PACKAGING REDUCTION GOAL.] It is the goal of the state that there be a minimum 25 percent statewide per capita reduction in the amount of discarded packaging delivered to solid waste composting, incineration, refuse-derived fuel and disposal facilities by July 1, 1995, based on a reasonable estimate of the amount of packaging that was delivered to solid waste composting, incineration, and disposal facilities in fiscal year 1992.

Subd. 2. [MEASUREMENT; PROCEDURES.] To measure the overall percentage of packaging in the statewide solid waste stream, the commissioner and the chair of the metropolitan council, in consultation with the director shall each conduct an annual four-season solid waste composition study in the nonmetropolitan and metropolitan areas respectively or shall develop an alternative statistically reliable method to measure the percentage of packaging in the waste stream.

Beginning in 1992, the chair of the council shall submit the results from the metropolitan area to the commissioner by August 15 of each year. The commissioner shall average the nonmetropolitan and metropolitan results and submit the statewide percentage, along with a statistically reliable margin of error, to the director by August 31 of each year. The director shall report the information to the legislative commission on waste management by November 15 of each year.

Subd. 3. [FACILITY COOPERATION AND REPORTS.] The owner or operator of a solid waste composting, incineration, refuse-derived fuel or disposal facility shall allow access upon reasonable notice to authorized office, agency, or metropolitan council staff for the purpose of conducting waste composition studies or otherwise assessing the amount of total packaging in the waste delivered to the facility under this section.

Beginning in 1992, by August 1 of each year the owner or operator of a facility governed by this subdivision shall submit a report to the commissioner, on a form prescribed by the commissioner, information specifying the total amount of solid waste received by the facility between July 1 of the previous year and June 30 of the year the report is made. The commissioner shall calculate the total amount of solid waste delivered to solid waste facilities from the reports received from the facility owners or operators and shall report the aggregate amount to the director by August 31 of each year. The commissioner shall assess a nonforgivable administrative penalty under section 116.072 of \$500 plus any forgivable amount necessary to enforce this subdivision on any owner or operator who fails to submit a report required by this subdivision.

Subd. 4. [REPORT.] The director shall apply the statewide percentage determined under subdivision 2 to the aggregate amount of

solid waste determined under subdivision 3 to determine the amount of packaging in the waste stream. By November 15, 1995, the director shall submit to the legislative commission on waste management an analysis of the extent to which the waste packaging reduction goal in subdivision 1 has been met. In determining whether the goal has been met, the margin of error must be applied in favor of meeting the goal.

Sec. 9. [115A.5502] [ADVANCE DISPOSAL FEE.]

Subdivision 1. [FEE.] If the director reports under section 115A.5501, subdivision 4, that the waste packaging reduction goal has not been met, a manufacturer or importer, as defined in section 115A.951, subdivision 2, who ships to or bills to a person in this state packaging for use in conjunction with a product for retail sale in this state shall pay an advance disposal fee of one cent for each package or packaged product shipped to or billed to a person in this state based on the product's smallest unit division intended for sale at the retail level. If a number of packaged products that can be and are sold individually are bundled or aggregated and packaged again and sold in another context as one item, the one cent fee applies to each individual product that can be sold individually and to the package that bundles or aggregates the individual products.

Subd. 2. [PAYMENT.] The number of packages or packaged products shipped to or billed to persons in this state must be reported to the director and the commissioner of the department of revenue and fees must be paid to the commissioner of revenue on forms and in the manner prescribed by the commissioner. The commissioner of revenue and the director, after consultation with the packaging advisory council, may each adopt rules to implement this section.

Subd. 3. [EXEMPTIONS FROM FEE.] (a) The rules must exempt from payment of the advance disposal fee packaging:

(1) that has achieved significant reduction of material in its manufacture since 1985 measured against the most efficient use of packaging in delivering a given product in a comparable market;

(2) that is designed to be and actually is reused for the original purpose at least five times;

(3) that consists of at least 50 percent postconsumer recycled material;

(4) that is recyclable and is regularly collected for recycling through recycling collection programs available to at least 75 percent of the residents of the state;

(5) that is required under federal or state law for health and safety

purposes and for which there are no environmentally less harmful substitutes; or

(6) for which no commercially feasible substitute material would offer any environmental advantage.

(b) To qualify for an exemption under this subdivision, the manufacturer of the packaging or of the product to be sold in conjunction with the packaging shall submit the reports required in subdivision 2 together with evidence that the packaging meets one or more of the requirements of paragraph (a), clauses (1) to (6), and must receive written approval from the director for the exemption. The director shall allow an exemption for packaging that meets one of the requirements of paragraph (a), clauses (1) to (6).

(c) A package does not meet the material reduction requirements of paragraph (a), clause (1), if in reducing the amount of material used to make the package the reduction results in changing:

(1) from a material that allows the package to be reused to a material that does not allow the package to be reused at least as many times as the original material;

(2) from a material that consists of postconsumer recycled material to a material that contains less postconsumer recycled material; or

(3) from a recyclable material that is being recycled to a nonrecyclable material or to a recyclable material collected by fewer recycling collection programs than the original material.

Subd. 5. [EXCHANGE OF INFORMATION.] The director may provide the commissioner of revenue with the information necessary for the enforcement of this section. Information disclosed in a return filed under this section is public information. Information exchanged between the commissioner and the director is public unless the information is trade secret information classified under section 13.37. Information obtained in the course of an audit by the department of revenue is private or nonpublic data to the extent that it would not be directly divulged in a return.

Subd. 6. [ENFORCEMENT AND APPLICATION.] The fees in this section may be enforced under section 115A.9512, subdivision 10, and apply to packaging shipped to persons in this state beginning January 1, 1996.

Sec. 10. Minnesota Statutes 1990, section 115A.552, is amended by adding a subdivision to read:

Subd. 5. [PACKAGING MATERIALS.] Each county shall ensure

that recycling services are available for residents in the county, including residents of single and multifamily dwellings, to recycle the maximum number of different types of postconsumer packaging materials that is economically feasible given availability of state, local, and private funding for recycling programs. A county may contract with a person or entity, including but not limited to, a manufacturer, distributor, wholesaler, retailer, or a group of manufacturers, distributors, wholesalers, or retailers, to expand a recycling collection program to include any specific recyclable material if the person or entity agrees to pay the county an amount equal to the incremental cost to the program to collect, transport, store, process, and market the material.

Sec. 11. Minnesota Statutes 1990, section 115A.558, is amended to read:

115A.558 [SAFETY GUIDE; WORKER SAFETY.]

Subdivision 1. [SAFETY GUIDE.] The pollution control agency, in cooperation with the office of waste management and the metropolitan council, shall prepare and distribute to all interested persons a guide for operation of a recycling or yard waste composting facility to protect the environment and public health.

Subd. 2. [WORKER SAFETY.] The commissioner, in cooperation with the director and the commissioners of the departments of health and labor and industry, shall determine the health and safety risks of workers who sort and process recyclable materials in recycling and waste facilities and shall prepare and distribute, as part of the safety guide required in subdivision 1 or separately, a guide to minimization of health and safety risks for the workers. The commissioner of the department of labor and industry shall amend rules relating to the protection and safety of workers accordingly.

Sec. 12. [115A.56] [RECYCLED CONTENT IN CERTAIN PRODUCTS AND PACKAGING.]

Subdivision 1. [DEFINITIONS.] The definitions in this subdivision apply to this section.

(a) "Paper" means products made of paper to be used for printing, duplicating, or writing, and paper containing printed, duplicated, or written information, including magazines, catalogs and solicitations, and telephone directories.

(b) "Paper packaging" means packaging made, in whole or in part, of rigid or flexible paper that is sold or distributed empty or filled.

(c) "Plastic packaging" means rigid or flexible packaging, includ-

ing films, made, in whole or in part, of one or more plastic resins that is sold or distributed empty or filled.

(d) "Telephone directory" means a printed list of residential, governmental, and/or commercial telephone service subscribers or users that is distributed to the subscribers or users, except a directory distributed primarily within an organization that is not a telephone company for use by the members or employees of the organization.

Subd. 2. [RECYCLED CONTENT; REQUIREMENTS.] (a) By January 1, 1996, glass packaging, newsprint, paper, paper packaging, and plastic packaging that is distributed for sale or use must contain at least 25 percent postconsumer recycled material.

(b) By January 1, 2000, glass packaging, newsprint, paper, paper packaging, and plastic packaging that is distributed for sale or use must contain at least 50 percent postconsumer recycled material.

Subd. 3. [EXEMPTIONS; EXCLUSIONS.] (a) A product or package is exempt from the recycled content requirement of subdivision 2 if the product or package cannot comply because of other federal or state requirements.

(b) A manufacturer or distributor of a product or package may apply to the commissioner of the agency for exclusion from the requirements of subdivision 2 if the manufacturer is unable to obtain a sufficient supply of postconsumer material to meet those requirements. An application for an exclusion must include a plan detailing how and when the person intends to meet the requirements in the future. The commissioner may grant an exclusion if the commissioner determines that the manufacturer has no reasonable means of complying with the requirements. Economic considerations alone are insufficient for granting an exclusion.

Subd. 4. [LABELING.] A person may not label or otherwise indicate on a product or package that is distributed for sale or use that the product or package contains recycled material unless the product or package meets the requirements in subdivision 2.

Subd. 5. [PENALTY; ENFORCEMENT.] (a) A person who violates subdivision 2, paragraph (b), is subject to a minimum civil penalty of \$100 per item that is distributed in the state in violation of that paragraph.

(b) The commissioner of the agency may enforce subdivision 2, paragraph (a), under section 116.072 and may enforce subdivision 2, paragraph (b), under sections 115.071 and 116.072.

Sec. 13. Minnesota Statutes 1990, section 325E.042, subdivision 3, is amended to read:

Subd. 3. [PENALTY.] A person who violates ~~subdivision 1 or 2~~ this section is guilty of a misdemeanor.

Sec. 14. Minnesota Statutes 1990, section 400.08, subdivision 5, is amended to read:

Subd. 5. [FINANCIAL INCENTIVES TO RECYCLE.] A county may:

(1) ~~charge or may require any person who collects solid waste in the county to charge solid waste generators rates for collection or disposal that vary depending on the volume of waste generated;~~

(2) ~~require collectors~~ any person who collects solid waste in the county to provide significant financial incentives to solid waste generators who separate recyclable materials from their waste; or

(3) (2) require use of any other mechanism to provide encouragement or rewards to solid waste generators who reduce their waste generation or who separate recyclable materials from their waste.

Sec. 15. [REPEALER.]

Section 5 is repealed effective July 1, 1996.

ARTICLE 2

PRIORITY TOXICS REGISTRATION

Section 1. [115A.951] [SCOPE.]

Subdivision 1. [DEFINITIONS.] For purposes of sections 1 to 3, the terms in this section have the meanings given.

Subd. 2. [IMPORTATION.] "Importation" means the purchase of a product from a nonregistered seller, located outside of this state, for retail sale in Minnesota.

Subd. 3. [PRIORITY TOXIC.] "Priority toxic" means a material defined as a priority toxic under section 115A.9511, subdivision 1, 2, or 3.

Subd. 4. [PRODUCT.] "Product" means tangible personal property that is manufactured or imported for retail sale in this state. Product includes the packaging and other material that is sold with

the product at retail. Product does not include durable goods with an expected useful life of three years or more.

Subd. 5. [RETAIL SALE.] "Retail sale" has the meaning given in section 297A.01.

Sec. 2. [115A.9511] [PRIORITY TOXICS IN SOLID WASTE.]

Subdivision 1. [LIST OF PRIORITY TOXICS.] Priority toxics are:

(1) the following metals, whether used in elemental form or as a compound: arsenic, barium, cadmium, chromium, lead, manganese, mercury, nickel, silver; and

(2) the following chemical compounds, whether identified by this name or a synonym: acetone, benzene, bromomethane, chloromethane, chloroform, 1,4-dichlorobenzene, dichlorodifluoromethane, 1,2-dichloroethylene, 1,2-dichloropropane, ethyl benzene, ethyl ether, methyl ethyl ketone, methylene chloride, tetrahydrofuran, toluene, trichlorofluoromethane, m-xylene, o-xylene, and p-xylene.

Subd. 2. [REVISED LIST; PUBLICATION.] The commissioner shall add a hazardous substance to the list in subdivision 1 when, during the preceding reporting year, that substance appeared in:

(1) leachate collected from 50 percent or more of the mixed municipal solid waste disposal facilities in the state sampled as required under state rules; or

(2) the leachate samples collected from 50 percent or more of the mixed municipal solid waste incinerator ash disposal facilities in the state.

By October 1 of each year the commissioner shall publish in the State Register a notice of determination that lists the priority toxics in subdivision 1 and any toxics added to the list since the most recent publication. The notice of determination is not subject to chapter 14 but it must be filed with the secretary of state and included in Minnesota Rules. A copy of the notice of determination must be submitted to the chairs of the committees on environment and natural resources in the house of representatives and the senate and to the chair of the legislative commission on waste management.

Additions to the list of priority toxics under this subdivision are effective for sales made after the next January 1 for purpose of the fee under section 115A.9512.

A substance, listed on the priority toxics list in subdivision 1 or under this subdivision or subdivision 3, must be removed from the

list if the United States Environmental Protection Agency or federal law removes the substance from the federal list of hazardous substances for the purposes of the Federal Superfund Act, as defined in section 115B.02, subdivision 6.

Subd. 3. [OTHER PRIORITY TOXICS.] The commissioner, after consultation with representatives of the public and private sectors who have technical expertise on the impact of hazardous substances on human health and the environment, shall recommend to the legislative commission on waste management by November 1 of each year beginning in 1993 additional substances that do not meet the criteria under subdivision 2 but that should be added to the list in subdivision 1 because they:

(1) pose risks to human health or the environment similar to those risks posed by the substances that appear on the list or that are added under subdivision 2; and

(2) appear in products or packaging materials that are likely to be discarded as solid waste or are likely to require special management to keep them separate from solid waste.

Subd. 4. [PRIORITY TOXICS MANAGEMENT ACCOUNT.] The priority toxics management account is in the environmental fund in the state treasury. The account consists of revenue deposited in it under section 115A.9512, subdivision 6. The commissioner of finance shall administer the account.

Subd. 5. [APPROPRIATION; PURPOSES FOR WHICH MONEY MAY BE SPENT.] On June 30 of each year the commissioner of finance shall transfer \$15,000,000 from the priority toxics management account to the environmental response, compensation, and compliance account established in section 115B.20 to be used solely in connection with solid waste disposal facilities using procedures to be established by the legislature after receipt of recommendations from the commissioner of the agency.

Subject to appropriation by the legislature, the remainder of the money in the priority toxics management account may be appropriated for any of the following purposes:

(1) administrative and legal costs of the office of waste management, the department of revenue, the metropolitan council, and the pollution control agency related to implementation and enforcement of sections 115A.9511 and 115A.9512;

(2) household hazardous waste management programs that prevent the inclusion of household hazardous waste in mixed municipal solid waste;

(3) problem materials identification and labeling;

(4) reimbursement of an owner or operator of a resource recovery facility for the actual costs incurred for necessary testing and treatment of ash generated by the facility prior to disposal, unless the facility has not implemented its plan for separation from the waste stream of household hazardous waste;

(5) research and implementation of projects to develop and publicize alternatives to the use of priority toxics in products and packaging and to develop and implement methods of managing solid waste materials that contain priority toxics to minimize environmental degradation; and

(6) grants or loans to be administered by the director of the office to persons for development of facilities and technologies to recycle priority toxics in products and packaging.

Sec. 3. [115A.9512] [PRIORITY TOXICS; REGISTRATION.]

Subdivision 1. [REGISTRATION REQUIRED.] Each product into which has been deliberately introduced a priority toxic material, except a product that is exempt under subdivision 4, must be registered with the commissioner. The commissioner, in consultation with the commissioner of revenue, shall prescribe the registration forms and procedures. The manufacturer shall register the product. If the manufacturer does not register the product, an importer or other seller may register the product.

Subd. 2. [LABELING.] The manufacturer of a product or package sold or otherwise distributed in this state into which a priority toxic material has been deliberately introduced shall:

(1) label the product, or the shipping container for the product, or package with the type and amount by weight of each priority toxic material in the product or package; or

(2) clearly identify on the invoice or shipping documents for the product or package, or on a separate sheet to be included with the invoice or shipping documents, a statement of the type and amount by weight of each priority toxic material in the product or package.

If the manufacturer identifies priority toxic materials on invoices or shipping documents or on a separate sheet to be included with the invoice or shipping documents, the document that includes the priority toxic material information must be forwarded with the product or package and retained by the first importer of the product or package for at least five years.

For products and packages manufactured in the state, the manu-

facturer shall also keep records of the amount of priority toxic materials in the manufacturer's products or packages that are sold or otherwise distributed in the state for at least five years.

A person required to retain records under this subdivision shall allow access to the records by the commissioner of the department of revenue or the commissioner's designee.

Subd. 3. [FEE IMPOSED.] A registration fee is imposed on the registration of the product. The fee is \$150, for a manufacturer or importer other than a retailer that is a small business or any other small business, for any amount of each priority toxic contained in the product line sold in Minnesota for the calendar year; plus 50 cents per pound of each priority toxic contained in the product line up to 100 pounds and 75 cents per pound for 100 pounds or more. A retailer that is a small business or any other small business that registers a product line sold by that retailer or small business may choose to pay:

(1) \$10 for any amount of each priority toxic contained in a product line sold by the retailer or small business during the calendar year; plus 50 cents per pound of each priority toxic contained in the product line up to 100 pounds and 75 cents per pound for 100 pounds or more; or

(2) \$25 for any amount of a priority toxic contained in a product line sold by the retailer or small business during the calendar year. The fee shall be paid by the manufacturer or importer of the product registering the product and as provided in this section.

Subd. 4. [EXEMPTIONS.] Any product containing a priority toxic is subject to registration and the fee unless specifically exempted under this section. The following products containing priority toxics are exempt:

(1) articles used for (i) food or drink for humans or animals, (ii) chewing gum, or (iii) components of such an article;

(2) drugs, as defined in United States Code, title 21, section 321(g)(1);

(3) a product that is banned by state or federal law from the solid waste stream and for which there exists an effective separate collection and processing system that receives no ongoing financial assistance from the state or a political subdivision; and

(4) a product for which the manufacturers or importers establish an effective collection and processing system that is separate from the solid waste stream and that receives no ongoing financial assistance from the state or a political subdivision.

The commissioner of the pollution control agency, in consultation with the director of the office of waste management, shall develop and maintain a list of products that qualify for exemption under clauses (3) and (4) and annually submit an updated list to the commissioner of revenue.

Subd. 5. [PAYMENT DATES AND RETURNS.] (a) The manufacturer or importer must make estimated payments of the fee for the calendar year in quarterly installments to the commissioner of revenue by April 15, July 15, October 15, and January 15 of the following calendar year. The manufacturer or importer must file an annual return, reconciling the quarterly estimated payments with the total liability for the calendar year by March 1 of the following calendar year. The estimated payments and annual return must contain the information and be in the form prescribed by the commissioner of revenue.

(b) Estimated payments are not required, if the estimated fee for the calendar year is less than \$500.

(c) If the manufacturer or importer is engaged in business within and without Minnesota, it must determine the amount of its product sales that are made in Minnesota. If necessary, it must estimate the amount of its products sold in Minnesota using a reasonable and reliable method. The estimation method must be documented and provided to the commissioner of revenue upon request.

(d) The commissioner of revenue may pay refunds or allow credits to the manufacturer or importer for overpayments of the fee.

(e) Payment of estimated installments is not subject to the provisions of subdivision 10. Underpayments of estimated installments bear interest from the due date of the payment until paid or the due date of the annual return at the rate specified in section 270.75. Underpayments of estimated installments are, in addition, subject to a penalty equal to the greater of \$50 or ten percent of the underpayment. For purposes of this section, an underpayment of an estimated installment is the difference between the amount paid and the lesser of (1) 90 percent of one-quarter of the fee for the calendar year, or (2) the fee for actual sales made during the quarter. Interest and penalties under subdivision 10 apply to the fee, including any unpaid estimated installments, due with the annual return.

Subd. 6. [DEPOSIT OF RECEIPTS.] The commissioner of revenue shall deposit the fees paid under this section in the priority toxics management account in the environmental fund in the state treasury.

Subd. 7. [REGISTRATION LIST.] The commissioner shall make

available to the public a list of products that have been registered under this section.

Subd. 8. [REMOVAL FROM REGISTRATION.] When a registered product no longer contains any priority toxics, the manufacturer may apply to the commissioner to remove the product from the registration list. The application must include documentation showing that the product no longer contains any of the substances on the applicable priority toxics list. The commissioner shall remove a product from the registration list when the commissioner determines that it no longer contains any priority toxics.

Subd. 9. [EXCHANGE OF INFORMATION.] Notwithstanding the provisions of section 116.075, the agency may provide the commissioner of revenue with the information necessary for the enforcement of this section. Information disclosed in a return filed under this section is public information. Information exchanged between the commissioner and the agency is public unless the information is of the type determined to be for the confidential use of the agency under section 116.075 or is trade secret information classified under section 13.37. Information obtained in the course of an audit by the department of revenue is private or nonpublic data to the extent that it would not be directly divulged in a return.

Subd. 10. [SALES TAX ENFORCEMENT AND PENALTY PROVISION APPLY.] Except as otherwise specifically provided in this section, the enforcement, collection, interest, and penalty provisions, including criminal penalties, for the general sales tax under chapters 270, 289A, and 297A apply to liability for the fee imposed under this section as if it were a sales tax liability.

In an enforcement action brought by the attorney general, in the name of the state, under this subdivision in which the state prevails, the state may recover reasonable administrative expenses, court costs, and attorney fees incurred to take the enforcement action in an amount to be determined by the court.

Subd. 11. [SALE OF UNREGISTERED PRODUCTS PROHIBITED.] No product containing priority toxic material that is not registered as required by this section may be sold, at retail, in this state. The provisions of this section do not apply to materials, the first sale of which occurred in Minnesota before July 1, 1992, or to occasional sales, as defined in section 297A.25, subdivision 12. Violation of this subdivision is a gross misdemeanor punishable by imprisonment for up to one year, or a fine of up to \$1,000, or both, for each violation.

ARTICLE 3

REPORTS AND APPROPRIATIONS

Section 1. [RESEARCH.]

(a) For the purposes of adopting rules under this act and for recommending future legislative action, the director of the office, in consultation with the commissioner of the pollution control agency, shall:

(1) identify innovative collection and processing systems for the purpose of increasing the types and amount of packaging that is collected and recycled; and

(2) provide economic guidelines for counties, cities, and towns that indicate when a jurisdiction should add to its recycling program the collection and processing of a specific classification of packaging material.

(b) For the purposes of adopting rules under this act and for recommending future legislative action, the commissioner of the pollution control agency, in consultation with the director of the office of waste management, shall:

(1) establish methods to determine the true costs of processing, disposal, and recycling of packaging and methods for internalizing those costs in the manufacture, sale, and use of products;

(2) identify methods to compensate for existing subsidies that encourage the use of virgin materials for packaging; and

(3) identify the health and environmental consequences of burning and burying packaging materials outside of permitted waste facilities.

Sec. 2. [ENVIRONMENTAL BURDEN FEE; REPORT.]

By November 1, 1993, the director of the office of waste management, after consultation with the commissioners of revenue and the pollution control agency and other interested parties, shall recommend to the legislative commission on waste management a mechanism for imposition and collection of a fee on packaging that poses significant harmful environmental consequences when it is processed or disposed as solid waste. The fee must be set at a level that will cover the costs of the harmful environmental consequences or the costs of separate management of the waste packaging.

Sec. 3. [APPROPRIATIONS.]

Subdivision 1. [APPROPRIATIONS.] The following amounts are appropriated from the general fund to the agencies and for the purposes indicated, to be available for the fiscal year ending June 30 in the years indicated. If the appropriation for either year is insufficient, the appropriation for the other year is available for it.

A regular or special meeting of the board of directors of an electric cooperative that has more than 50,000 members must be open to all members of the cooperative. The board shall give reasonable prior notice of meetings. The board may close a meeting or a portion of a meeting, provided the board has made a written determination that a closed meeting is necessary for one of the following reasons:

(1) to discuss personnel matters, compensation issues, labor

negotiations, billing and credit information, or an issue that may tend to prejudice the reputation of an individual;

(2) to discuss threatened or pending litigation, issues subject to an attorney-client privilege, or other legal information, the knowledge of which may have an adverse effect on the cooperative's legal position; or

(3) to discuss or disclose information that, if discussed in an open meeting, would result in impairment of the cooperative's competitive or financial position, interfere with a business opportunity, or reveal proprietary information.

For the purposes of clause (3), a business opportunity means an opportunity for substantial financial improvement of the cooperative that, if generally known, would likely jeopardize the opportunity itself.
