16B.75 [INTERSTATE COMPACT ON INDUSTRIALIZED/MODULAR BUILDINGS.]

The state of Minnesota ratifies and approves the following compact:

INTERSTATE COMPACT ON INDUSTRIALIZED/MODULAR BUILDINGS

ARTICLE I

FINDINGS AND DECLARATIONS OF POLICY

(1) The compacting states find that:

(a) Industrialized/modular buildings are constructed in factories in the various states and are a growing segment of the nation's affordable housing and commercial building stock.

(b) The regulation of industrialized/modular buildings varies from state to state and locality to locality, which creates confusion and burdens state and local building officials and the industrialized/modular building industry.

(c) Regulation by multiple jurisdictions imposes additional costs, which are ultimately borne by the owners and users of industrialized/modular buildings, restricts market access and discourages the development and incorporation of new technologies.

(2) It is the policy of each of the compacting states to:

(a) Provide the states which regulate the design and construction of industrialized/modular buildings with a program to coordinate and uniformly adopt and administer the states' rules and regulations for such buildings, all in a manner to assure interstate reciprocity.

(b) Provide to the United States Congress assurances that would preclude the need for a voluntary preemptive federal regulatory system for modular housing, as outlined in Section 572 of the Housing and Community Development Act of 1987, including development of model standards for modular housing construction, such that design and performance will insure quality, durability and safety; will be in accordance with life-cycle cost-effective energy conservation standards; all to promote the lowest total construction and operating costs over the life of such housing.

ARTICLE II

DEFINITIONS

As used in this compact, unless the context clearly requires otherwise:

(1) "Commission" means the interstate industrialized/modular buildings commission.

(2) "Industrialized/modular building" means any building which is of closed construction, i.e. constructed in such a manner that concealed parts or processes of manufacture cannot be inspected at the site, without disassembly, damage or destruction, and which is made or assembled in manufacturing facilities, off the building site, for installation, or assembly and installation, on the building site. "Industrialized/modular building" includes, but is not limited to, modular housing which is factory-built single-family and multifamily housing (including closed wall panelized housing) and other modular, nonresidential buildings. "Industrialized/modular building" does not include any structure subject to the requirements of the National Manufactured Home Construction and Safety Standards Act of 1974.

(3) "Interim reciprocal agreement" means a formal reciprocity agreement between a noncompacting state wherein the noncompacting state agrees that labels evidencing compliance with the model rules and regulations for industrialized/modular buildings, as authorized in Article VIII, section (9), shall be accepted by the state and its subdivisions to permit installation and use of industrialized/modular buildings. Further, the noncompacting state agrees that by legislation or regulation, and appropriate enforcement by uniform administrative procedures, the noncompacting state requires all industrialized/modular building manufacturers within that state to comply with the model rules and regulations for industrialized/modular buildings.

(4) "State" means a state of the United States, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(5) "Uniform administrative procedures" means the procedures adopted by the commission (after consideration of any recommendations from the rules development committee) which state and local officials, and other parties, in one state, will utilize to assure state and local officials, and other parties, in other states, of the substantial compliance of industrialized/modular building construction with the construction standard of requirements of such other states; to assess the adequacy of building systems; and to verify and assure the competency and performance of evaluation and inspection agencies.

(6) "Model rules and regulations for industrialized/modular buildings" means the construction standards adopted by the commission (after consideration of any recommendations from the rules development committee) which govern the design, manufacture, handling, storage, delivery and installation of industrialized/modular buildings and building components. The construction standards and any amendments thereof shall conform insofar as practicable to model building codes and referenced standards generally accepted and in use throughout the United States.

ARTICLE III

The compacting states hereby create the Interstate Industrialized/Modular Buildings Commission, hereinafter called commission. Said commission shall be a body corporate of each compacting state and an agency thereof. When For every six state commissioners who have been appointed in the manner described, the state commissioners shall select a second one additional commissioner who shall be a representative of consumers of industrialized/modular buildings. With each addition of three state commissioners, the state commissioners shall appoint one additional representative commissioner, alternating between a representative of manufacturers of industrialized/modular buildings and consumers of industrialized/modular buildings. The ratio between state commissioners and representative commissioners shall be three to one. In the event states withdraw from the compact or, for any other reason, the number of state commissioners is reduced, the state commissioners shall remove the last added representative commissioner as necessary to maintain a the ratio of state commissioners to representative commissioners of three to one described herein.~~
