Sec. 2. HIGHER EDUCATION
COORDINATING BOARD

Subdivision 1. Total Appropriation \$82,894,500 \$92,923,500

The amounts that may be spent from this appropriation for each purpose are specified in the following subdivisions.

1988

1989

\$

\$

As part of its next budget request, the board shall report on its method of implementing the base adjustments required in this section.

Subd. 2. Agency Administration

\$3,081,500

\$3,021,500

\$95,000 in 1990 is for the optometry and osteopathy contract program to continue seats for students who were in the program in the 1986-1987 academic year. No new students may be admitted to the program and the program must be discontinued on June 30, 1990.

The HECB shall examine its policies and procedures relating to the SELF program. It shall consider whether the program creates too great a financial burden for students, and ways to alleviate any burden. It shall consider the short- and long-term effects of subsidization and ways to control subsidy costs. It shall evaluate the relative costs and benefits of subsidization and related cost-control mechanisms compared to leaving the current program intact.

Notwithstanding Laws 1987, chapter 401, section 33, the task force on post-secondary quality assessment may continue for the 1989-1991 biennium. The task force membership may be expanded to include public members appointed by the higher education advisory council from nominees submitted by the HECB.

Subd. 3. State Scholarships and Grants

\$68,584,000

\$79,084,000

During the biennium, the higher education coordinating board may ask the commissioner of finance to loan gen-

eral fund money to the scholarship and grant account to ease cash flow difficulties. The higher education coordinating board must first certify to the commissioner that there will be adequate refunds to the account to repay the loan. The commissioner shall use the refunds to make repayment to the general fund of the full amount loaned. Money necessary to meet cash flow difficulties in the state scholarship and grant program is appropriated to the commissioner of finance for loans to the higher education coordinating board.

This appropriation contains money for increasing living allowances for state scholarships and grants to \$3,148 for the first year and \$3,309 for the second year.

Of this appropriation, \$2,040,000 in each year is for child care grants. For the biennium, the board may determine a reasonable percentage of the appropriation to be used for the administrative costs of the agency and the campuses.

The HECB shall report to the education divisions of the house appropriations and senate finance committees on the academic progress and persistence of state grant recipients by February 1, 1990.

The HECB shall study the fiscal and policy effects of mechanisms to encourage students to carry full course credit loads, to enroll in summer sessions, or to otherwise complete their coursework in a timely manner. The board shall include an examination of: the effects of changing the credit load in the state grant program to define a full-time student as one averaging 15 credits per term each year, and prorating awards on that credit basis; the availability of summer financial aid; and other incen-

tives that it identifies. The board shall report its findings by March 1, 1990 to the education divisions of the house appropriations and senate finance committees.

The HECB shall examine the need for and supply of nurses as well as the adequacy of student access to nursing programs. It shall determine the need for and costs of a targeted financial aid program and report its recommendations to the education divisions of the house appropriations and senate finance committees by March 1, 1990.

The HECB shall examine and make recommendations on the use of post-secondary scholarships and other mechanisms to provide incentives to students to pursue International Baccalaureate degrees. In making its recommendations, the HECB shall include an analysis of the cost of a scholarship program and whether these scholarships would be an appropriate use of state funds.

Subd. 4. Statewide Study of Higher Education Needs

\$360,000

\$360,000 is to undertake the second phase of the study of post-secondary needs in the state, as provided in Laws 1988, chapter 703, article 1, section 2, subdivision 3. This phase must concentrate on those parts of the state outside the St. Cloud to Rochester population corridor. The HECB may contract for portions of the study, as necessary, but is not subject to Minnesota Statutes, chapter 16B. The study must focus on (1) an assessment of the current and future conditions and needs; (2) strategies to meet these needs; (3) costs associated with the strategies; and (4) effects of the strategies on existing in-

	1988	1989
	\$	\$
stitutions, state policies, quality of education, and system and institutional missions.		

The study should include consideration of at least the following concerns: the current and projected demographic and participation trends; current program offerings, degrees, facilities, and support services available; needs of traditional, nontraditional, rural poor and minority students; the geographical accessibility, including commuting time, of services needed by different types of students; uses of alternative delivery systems, instructional technology, cooperative efforts, and reciprocity agreements; relationships between post-secondary institutions and business; and the physical capacity of existing institutions. The study shall analyze attendance patterns to determine gaps by program and instructional level, and shall include a market survey. The HECB shall seek matching money for the study. The HECB shall report the findings of the study to the education and finance committees of the senate and the education and appropriations committees of the house by November 1, 1990. By December 1, the HECB shall review and comment on each of the strategies proposed in the study. In submitting the findings of phase 2, the board shall relate them to the results of phase 1 and their implications for statewide policy.

Subd. 9. Income Contingent Loans

The board may continue to operate an income contingent loan repayment program to assist graduates of Minnesota schools in medical, dental, pharmacy, chiropractic medicine, public health, and veterinary medicine and Minnesota graduates of optometry and osteopathy programs in repaying their student debt by providing a repayment plan based on their annual income. During the biennium, applicant data collected by the higher education coordinating board for this program may be disclosed to a consumer credit reporting agency under the same conditions as apply to the supplemental loan program according to Minnesota Statutes, section 136A.162. The HECB shall study the possible inclusion of students in other academic programs and report its recommendations to the house appropriations and senate finance committees by December 1, 1990.

Before the transfer, the higher education coordinating board shall consult with the chairs of the house appropriations and senate finance committees.

32,000 in 1990 and 33,500 in 1991. If actual enrollments are lower than these estimates, the commissioner of finance shall calculate the effect for the general fund and include an adjustment in the budget for the following fiscal year.

\$2,150,000 in each year is for equipment purchases. This appropriation must be spent for this purpose only and is nonrecurring. Sec. 5. STATE UNIVERSITY BOARD

Subdivision 1. Total Appropriation	167,045,000	178,455,000
------------------------------------	-------------	-------------

The amounts that may be spent from this appropriation for each purpose are specified in the following subdivisions.

The legislature estimates that instructional expenditures will be \$237,054,000 the first year and \$252,619,000 the second year.

\$

Amounts not to exceed \$4,959,000 in 1990 and \$1,938,000 in 1991 are for increased enrollment. This is a nonrecurring appropriation and will not be included when calculating the base for the 1991-1993 biennial budget. This appropriation is based on state money only and on estimated enrollments of 51,735 in 1990 and 51,998 in 1991. If actual enrollments are lower than these estimates, the commissioner of finance shall calculate the effect for the general fund and include an adjustment in the budget for the following fiscal year.

The board shall report on its actions and its use of these funds to the education divisions of the house appropriations and senate finance committees by February 1 of each year of the biennium.

quest. The report must include an analysis of the adequacy of the amounts for repair and replacement in meeting the system's repair and replacement needs.

During the biennium, each outstanding and any future assessment by a local unit of government that is less than five percent of the appropriation for repair and replacement may be paid when due by the board.

Notwithstanding Minnesota Statutes, section 136.09, subdivision 3, or other law to the contrary, during the biennium neither the state university board nor the state university campuses shall plan or develop doctoral level programs or degrees until after they have received the recommendation of the house and senate committees on education, finance, and appropriations.

\$149,000 in 1990 is for the state university board to enter into an agreement to lease space on the campus of the College of St. Teresa for the instructional needs of Winona State University. The board shall work with the department of administration, real estate management division, to negotiate and develop lease terms and conditions. The appropriation is available until June 30, 1991.

Subd. 3. Noninstructional Expenditures

The legislature estimates that noninstructional expenditures will be \$10,520,000 the first year and \$10,715,000 the second year.

A \$250,000 fund is created under the state university board to provide grants for Minnesota resident students participating in the Akita program. The state university may draw from this fund as necessary and may request

1988

1989

\$

\$

additional money in 1991 to maintain the fund at the \$250,000 level. The state university board, in consultation with the HECB, shall develop a grant program. Grants must be awarded on the basis of financial need using the standardized needs analysis and other eligibility criteria employed by the HECB in the state grant program, except that the cost of attendance shall be adjusted to incorporate the state university tuition level and the Akita fee level. An individual grant must not exceed the state grant cap for a student at a four year private college. Students receiving grants under this subdivision are not eligible for the state grant program during the period for which this award applies. The state university board shall report on its use of this fund to the education divisions of the house appropriations and senate finance committees by January 1, 1991.

\$25,000 is appropriated in fiscal year 1990 from the general fund to the state university board to defray costs of post-secondary faculty participants in the education faculty exchange under section 72. This appropriation is available until June 30, 1991. This appropriation, and those provided to the boards in the omnibus education finance act, are intended to compensate for expenses that are unavoidable and beyond the normal living expenses faculty members would incur if they were not involved in this exchange. The state university board, the board of regents of the University of Minnesota, and their respective campuses, in conjunction with the participating school districts, must control costs for all participants as much as possible, through means such as arranging housing exchanges, providing campus housing, and providing state or school district cars for transportation. Additionally the boards and campuses may seek

1988

1989

\$

\$

other sources of funding to supplement these appropriations if necessary.

During the biennium, notwithstanding any law to the contrary, the state university board may keep money received from successful litigation by or against the board. Awards made to the state or the board resulting from litigation against or by the board shall be kept by the board to the credit of the account from which the litigation was originally funded.

Subd. 4. Wood-Fired Boilers

Effective the day after final enactment of this subdivision, no more money shall be paid out of the treasury of this state in connection with an agreement under Minnesota Statutes, section 16B.16, to provide a wood-fired boiler heating system at the campus of either Bemidji state university or St. Cloud state university.

Minnesota Statutes, section 16B.16, authorizes the commissioner of administration to enter into installment purchase agreements to acquire equipment that will improve the energy efficiency of a state building or facility if, among other things, the entire cost of the contract is a percentage of the resultant savings in energy costs and the state may unilaterally cancel the agreement if the legislature fails to appropriate funds to continue the contract. Section 16B.16 does not authorize the commissioner to commit the state to pay for equipment that does not work nor to pay more for energy as a result of the installment purchase agreement than would be needed without the agreement. If there are no savings in energy costs through use of the equipment, there should be no compensation due under the agreement.

The commissioner of administration acted under Minnesota Statutes, sec-

	1988	1989
\$		\$

tion 16B.16 when entering into installment purchase agreements to install wood-fired boiler heating systems at the campuses of Bemidji State University and St. Cloud State University. The wood-fired boiler heating system installed at the Bemidji campus did not work as promised and the promised energy savings were not achieved. The state refused to make further payments under the agreement for Bemidji and canceled the agreement for St. Cloud. The state later resumed making payments under the agreement for Bemidji, even though it believed there had been a complete failure of consideration.

The purpose of this subdivision is to make clear to all potential investors in state and local bonds and to financial institutions that the state is not and never has been responsible for financing the wood-fired boiler heating systems at Bemidji and St. Cloud state universities, other than through payment to the vendor of a percentage of the resultant savings in energy costs. Since the equipment and technology chosen by the vendor did not produce savings in energy costs, the entire loss should be borne by the vendor and by the vendor's financial backers, not by the state.

Sec. 6. BOARD OF REGENTS OF THE UNIVERSITY OF MINNESOTA

Subdivision 1. Total Appropriation	437,294,000	464,295,000
------------------------------------	-------------	-------------

The amounts that may be spent from this appropriation for each purpose are specified in the following subdivisions.

Subd. 2. Operations and Maintenance	354,942,000	377,507,000
-------------------------------------	-------------	-------------

On December 1 each year the president of the University of Minnesota shall

	1988	1989
	\$	\$

report to the senate finance and house appropriations committees and the commissioner of finance any receipts for the previous fiscal year in excess of the estimates on which these appropriations are based, the sources of these receipts, the purposes for which any excess receipts were spent, and the accounts to which the receipts were transferred. The total estimated receipts are \$138,769,000 for the first year and \$147,261,000 for the second year.

The board of regents are requested to consider adopting a policy of paying per diem to board members for attending a meeting of the board or a committee of the board.

(a) Instructional Expenditures

The legislature estimates that instructional expenditures in subdivision 2 will be \$387,726,000 the first year and \$412,625,000 the second year.

\$3,307,000 in 1990 and \$5,601,000 in 1991 are for the improvement of instructional programs including, but not limited to: additional sections of required undergraduate courses; expanded undergraduate advising; and enhanced academic computing capabilities. The board shall report on its actions and its use of these funds to the education divisions of the house appropriations and senate finance committees by February 1 of each year of the biennium.

\$2,000,000 in each year is for equipment purchases. This appropriation must be spent for this purpose only and is nonrecurring. The board shall report to the education divisions of the house appropriations and senate finance committees on its use of the money by February 15 of each year in the biennium.

1988

1989

\$

\$

\$8,992,000 in 1990 and \$9,345,000 in 1991 are for repair and replacement. Revenue for this purpose must be recorded in a separate account in the board's internal accounting system. Money may be transferred into and out of the account. A transfer, together with the amount and nature of the transfer, must be reported with the system's 1991-1993 biennial budget request. The report must include an analysis of the adequacy of the above appropriation in meeting the system's repair and replacement needs.

During the biennium, each outstanding and any future assessment by a local unit of government that is less than five percent of the appropriation for repairs and replacements may be paid when due by the board.

The regular session enrollment projected for this appropriation is 35,679 full-year equivalent undergraduate students for the first year and 35,752 for the second year. For developing the next biennial budget request, the regular session undergraduate enrollment used for the average cost funding formula must not exceed these numbers. For the biennium ending June 30, 1991, tuition income resulting from students in excess of the projections reduces the general fund appropriation by a like dollar amount. The legislature further anticipates that the regular session full-year equivalent undergraduate students must not exceed 33,862 by fiscal year 1993. The university shall submit progress reports on the attainment of the anticipated enrollments. If the university attains these enrollment goals, the calculation for the average cost funding formula must not reduce the budget base.

During the biennium, the regents are requested to provide fair and equitable

1988

1989

\$

\$

funding to each coordinate campus for the additional number of students enrolled above the 1988-1989 academic year enrollment.

(b) Noninstructional Expenditures

The legislature estimates that noninstructional expenditures will be \$105,665,000 the first year and \$111,814,000 the second year.

\$129,000 in 1990 and \$167,000 in 1991 in noninstructional funds is to establish a training program for teaching assistants to improve their communications and teaching skills. The legislature anticipates that the university will allocate matching money internally to support teaching assistant programs. The university shall report on its actions and its use of this appropriation by January 15, 1991.

\$25,000 is appropriated in fiscal year 1990 from the general fund to the regents of the University of Minnesota to defray costs of post-secondary faculty participants in the education faculty exchange under section 72. This appropriation is available until June 30, 1991. This appropriation, and those provided to the boards in the omnibus education finance act, are intended to compensate for expenses that are unavoidable and beyond the normal living expenses faculty members would incur if they were not involved in this exchange. The state university board, the board of regents of the University of Minnesota, and their respective campuses, in conjunction with the participating school districts, must control costs for all participants as much as possible, through means such as arranging housing exchanges, providing campus housing, and providing state or school district cars for transportation. Additionally the boards and campuses

“Sec. 31. Minnesota Statutes 1988, section 253B.02, subdivision 2, is amended to read:

Subd. 2. [CHEMICALLY DEPENDENT PERSON.] “Chemically dependent person” means any person (a) determined as being incapable of self-management or management of personal affairs by reason of the habitual and excessive use of alcohol or drugs; and (b) whose recent conduct as a result of habitual and excessive use of alcohol or drugs poses a substantial likelihood of physical harm to self or others as demonstrated by (i) a recent attempt or threat to physically harm self or others, (ii) evidence of recent serious physical problems, or (iii) a failure to obtain necessary food, clothing, shelter, or medical care. “Chemically dependent person” also means, in the case of a pregnant woman, one who during the time between 24 weeks of gestation and delivery, has used cocaine or has engaged in habitual and excessive use of any other controlled substance for a nonmedical purpose.

For purposes of this subdivision:

Subd. 10. [INTERESTED PERSON.] “Interested person” means an adult, including but not limited to, a public official, including a

local social service agency acting pursuant to section 42, and the legal guardian, spouse, parent, legal counsel, adult child, next of kin, or other person designated by a proposed patient."

Sec. 41. Minnesota Statutes 1988, section 626.556, subdivision 3, is amended to read:

Subd. 3. [PERSONS MANDATED TO REPORT.] (a) A person who knows or has reason to believe a child is being neglected or physically or sexually abused, or has been neglected or physically or sexually abused within the preceding three years; or who knows or has reason to believe that a pregnant woman has used a controlled substance for a nonmedical purpose, shall immediately report the information to the local welfare agency, police department, or the county sheriff if the person is:

(1) a professional or professional's delegate who is engaged in the practice of the healing arts, social services, hospital administration, psychological or psychiatric treatment, child care, education, or law enforcement; or

(2) employed as a member of the clergy and received the information while engaged in ministerial duties, provided that a member of the clergy is not required by this subdivision to report information that is otherwise privileged under section 595.02, subdivision 1, paragraph (c).

The police department or the county sheriff, upon receiving a report, shall immediately notify the local welfare agency orally and in writing. The local welfare agency, upon receiving a report, shall immediately notify the local police department or the county sheriff orally and in writing. The county sheriff and the head of every local welfare agency and police department shall each designate a person within their agency, department, or office who is responsible for ensuring that the notification duties of this paragraph and paragraph (b) are carried out. Nothing in this subdivision shall be construed to require more than one report from any institution, facility, school, or agency.

(b) Any person may voluntarily report to the local welfare agency, police department, or the county sheriff if the person knows, has reason to believe, or suspects a child is being or has been neglected or subjected to physical or sexual abuse. The police department or the county sheriff, upon receiving a report, shall immediately notify the local welfare agency orally and in writing. The local welfare

agency, upon receiving a report, shall immediately notify the local police department or the county sheriff orally and in writing.

(c) A person mandated to report physical or sexual child abuse or neglect occurring within a licensed facility shall report the information to the agency responsible for licensing the facility. A health or corrections agency receiving a report may request the local welfare agency to provide assistance pursuant to subdivisions 10, 10a, and 10b.

(d) Any person mandated to report shall, upon request to the local welfare agency, receive a summary of the disposition of any report made by that reporter, unless release would be detrimental to the best interests of the child. Any person who is not mandated to report shall, upon request to the local welfare agency, receive a concise summary of the disposition of any report made by that reporter, unless release would be detrimental to the best interests of the child.

(e) For purposes of this subdivision, "immediately" means as soon as possible but in no event longer than 24 hours.

Sec. 42. Minnesota Statutes 1988, section 626.556, subdivision 10, is amended to read:

Subd. 10. [DUTIES OF LOCAL WELFARE SOCIAL SERVICE AGENCY AND LOCAL LAW ENFORCEMENT AGENCY UPON RECEIPT OF A ON RECEIVING AN ABUSE REPORT; DUTIES OF LOCAL SOCIAL SERVICE AGENCY ON RECEIVING A PRENATAL CONTROLLED SUBSTANCE REPORT.] (a) If the report alleges a pregnant woman's use of a controlled substance for a nonmedical purpose, the local welfare agency shall immediately conduct an appropriate assessment and offer services indicated under the circumstances, including but not limited to, a referral for chemical dependency assessment, chemical dependency treatment if recommended, prenatal care, and any action under chapter 253B that is appropriate under the circumstances. An action under section 253B.05 shall be brought if a pregnant woman after 24 weeks of gestation refuses recommended voluntary services or fails recommended treatment. If the report alleges neglect, physical abuse, or sexual abuse by a parent, guardian, or individual functioning within the family unit as a person responsible for the child's care, the local welfare agency shall immediately conduct an assessment and offer protective social services for purposes of preventing further abuses, safeguarding and enhancing the welfare of the abused or neglected minor, and preserving family life whenever possible. If the report alleges a violation of a criminal statute involving sexual abuse or physical abuse, the local law enforcement agency and local welfare agency shall coordinate the planning and execution of their respective investigation and assessment efforts to avoid a duplication of fact-finding efforts and multiple interviews. Each agency shall prepare a separate report of the results of its

investigation. When necessary the local welfare agency shall seek authority to remove the child from the custody of a parent, guardian, or adult with whom the child is living. In performing any of these duties, the local welfare agency shall maintain appropriate records.

(b) When a local agency receives a report or otherwise has information indicating that a child who is a client, as defined in section 245.91, has been the subject of physical abuse or neglect at an agency, facility, or program as defined in section 245.91, it shall, in addition to its other duties under this section, immediately inform the ombudsman established under sections 245.91 to 245.97.

(c) Authority of the local welfare agency responsible for assessing the child abuse report and of the local law enforcement agency for investigating the alleged abuse includes, but is not limited to, authority to interview, without parental consent, the alleged victim and any other minors who currently reside with or who have resided with the alleged perpetrator. The interview may take place at school or at any facility or other place where the alleged victim or other minors might be found and may take place outside the presence of the perpetrator or parent, legal custodian, guardian, or school official. Except as provided in this paragraph, the parent, legal custodian, or guardian shall be notified by the responsible local welfare or law enforcement agency no later than the conclusion of the investigation or assessment that this interview has occurred. Notwithstanding rule 49.02 of the Minnesota rules of procedure for juvenile courts, the juvenile court may, after hearing on an ex parte motion by the local welfare agency, order that, where reasonable cause exists, the agency withhold notification of this interview from the parent, legal custodian, or guardian. If the interview took place or is to take place on school property, the order shall specify that school officials may not disclose to the parent, legal custodian, or guardian the contents of the notification of intent to interview the child on school property, as provided under this paragraph, and any other related information regarding the interview that may be a part of the child's school record. A copy of the order shall be sent by the local welfare or law enforcement agency to the appropriate school official.

(d) When the local welfare or local law enforcement agency determines that an interview should take place on school property, written notification of intent to interview the child on school property must be received by school officials prior to the interview. The notification shall include the name of the child to be interviewed, the purpose of the interview, and a reference to the statutory authority to conduct an interview on school property. For interviews conducted by the local welfare agency, the notification shall be signed by the chair of the county welfare board or the chair's designee. The notification shall be private data on individuals subject to the provisions of this paragraph. School officials may not disclose to the parent, legal custodian, or guardian the contents of

the notification or any other related information regarding the interview until notified in writing by the local welfare or law enforcement agency that the investigation or assessment has been concluded. Until that time, the local welfare or law enforcement agency shall be solely responsible for any disclosures regarding the nature of the assessment or investigation.

Except where the alleged perpetrator is believed to be a school official or employee, the time and place, and manner of the interview on school premises shall be within the discretion of school officials, but the local welfare or law enforcement agency shall have the exclusive authority to determine who may attend the interview. The conditions as to time, place, and manner of the interview set by the school officials shall be reasonable and the interview shall be conducted not more than 24 hours after the receipt of the notification unless another time is considered necessary by agreement between the school officials and the local welfare or law enforcement agency. Where the school fails to comply with the provisions of this paragraph, the juvenile court may order the school to comply. Every effort must be made to reduce the disruption of the educational program of the child, other students, or school staff when an interview is conducted on school premises.

(e) Where the perpetrator or a person responsible for the care of the alleged victim or other minor prevents access to the victim or other minor by the local welfare agency, the juvenile court may order the parents, legal custodian, or guardian to produce the alleged victim or other minor for questioning by the local welfare agency or the local law enforcement agency outside the presence of the perpetrator or any person responsible for the child's care at reasonable places and times as specified by court order.

(f) Before making an order under paragraph (d), the court shall issue an order to show cause, either upon its own motion or upon a verified petition, specifying the basis for the requested interviews and fixing the time and place of the hearing. The order to show cause shall be served personally and shall be heard in the same manner as provided in other cases in the juvenile court. The court shall consider the need for appointment of a guardian ad litem to protect the best interests of the child. If appointed, the guardian ad litem shall be present at the hearing on the order to show cause.

(g) The commissioner, the ombudsman for mental health and mental retardation, the local welfare agencies responsible for investigating reports, and the local law enforcement agencies have the right to enter facilities as defined in subdivision 2 and to inspect and copy the facility's records, including medical records, as part of the investigation. Notwithstanding the provisions of chapter 13, they also have the right to inform the facility under investigation that they are conducting an investigation, to disclose to the facility the names of the individuals under investigation for abusing or neglect-

ing a child, and to provide the facility with a copy of the report and the investigative findings."

[PRENATAL VISITS; NOTICE; TEST; REPORT.] A physician shall obtain from each patient who seeks prenatal obstetrical care a signed statement indicating whether or not the patient consents to toxicology tests for the purpose of determining whether the patient has ingested a controlled substance for a nonmedical purpose. If the patient consents to such toxicology tests, and the results of a test are positive, the physician shall report the results under section 626.556, subdivision 3, clause (a). A negative test result does not eliminate the obligation to report, if other evidence gives the physician reason to believe that the patient has used a controlled substance for a nonmedical purpose.

Subd. 3. [TEST; REPORT.] Even if a patient has not consented to toxicology tests for use of a controlled substance pursuant to subdivision 2, during the time between 24 weeks of gestation and delivery, a physician shall administer a toxicology test to her to determine whether there is evidence that she has ingested a controlled substance for a nonmedical purpose if she has obstetrical complications that are a medical indication of possible use of a controlled substance for a nonmedical purpose. If the results are positive, the physician shall report the results under section 626.556, subdivision 3, clause (a). A negative test result does not eliminate the obligation to report if other evidence gives the physician reason to believe that the patient has used a controlled substance for a nonmedical purpose.

"Sec. 22. [609.152] [INCREASED SENTENCES FOR CERTAIN DANGEROUS AND CAREER OFFENDERS.]

Subdivision 1. [DEFINITIONS.] (a) As used in this section, the following terms have the meanings given.

(b) "Prior conviction" means any of the following accepted and recorded by the court: a plea of guilty, a verdict of guilty by a jury, or a finding of guilty by the court, that occurred before the offense for which the person is being sentenced under this section. The term includes a conviction by any court in Minnesota or another jurisdiction.

(c) "Violent crime" means a violation of or an attempt or conspiracy to violate any of the following laws of this state or any similar laws of the United States or any other state: sections 609.185; 609.19; 609.195; 609.20; 609.205; 609.21; 609.221; 609.222; 609.223; 609.228; 609.235; 609.24; 609.245; 609.25; 609.255; 609.2661; 609.2662; 609.2663; 609.2664; 609.2665; 609.267; 609.2671; 609.268; 609.342; 609.343; 609.344; 609.345; 609.498, subdivision 1; 609.561; 609.562; 609.582, subdivision 1; 609.687; and any provision of chapter 152 that is punishable by a maximum term of imprisonment greater than ten years.

Subd. 2. [INCREASED SENTENCES; DANGEROUS OFFENDERS.] Whenever a person is convicted of a violent crime, the judge may impose an aggravated durational departure from the presump-

tive sentence up to the statutory maximum sentence if the offender was at least 18 years old at the time the felony was committed, and the judge finds that the circumstances in clauses (1) and (2) exist:

(1) the offender has either (i) two or more prior convictions for violent crimes, or (ii) one prior conviction for a violent crime and three or more prior convictions for felonies that are not violent crimes; and

(2) the court finds that the offender is a danger to public safety and specifies on the record the basis for the finding, which may include:

(i) the offender's past criminal behavior, such as the offender's high frequency rate of criminal activity or juvenile adjudications, long involvement in criminal activity including juvenile adjudications, or commission of an offense resulting in a prior conviction that involved an aggravating factor that would justify a departure under the sentencing guidelines; or

(ii) the fact that the present offense of conviction involved an aggravating factor that would justify a departure under the sentencing guidelines.

Subd. 3. [INCREASED SENTENCES; CAREER OFFENDERS.] Whenever a person is convicted of a felony, the judge may impose an aggravated durational departure from the presumptive sentence up to the statutory maximum sentence if the judge finds and specifies on the record that the circumstances in either clause (1) or (2) exist:

(1) the offender was convicted of a felony that was committed as part of a pattern of criminal conduct from which a substantial portion of the offender's income was derived, and the offender has three or more prior felony convictions; or

(2) the offender has more than six prior felony convictions."

The commissioner may not rent non-state-owned land and buildings or substantial portions of land or buildings within the capitol area as defined in section 15.50 unless the commissioner first consults with the capitol area architectural and planning board. If the commissioner enters into a lease-purchase agreement for buildings or substantial portions of buildings within the capitol area, the commissioner shall require that any new construction of non-state-owned buildings conform to design guidelines of the capitol area

architectural and planning board. Lands needed by the department of transportation for storage of vehicles or road materials may be rented for five years or less, such leases for terms over two years being subject to cancellation upon 30 days written notice by the state for any reason except rental of other land or premises for the same use.

(c) [PREFERENCE FOR CERTAIN BUILDINGS.] For needs beyond those which can be accommodated in state-owned buildings, the commissioner shall acquire and utilize space in suitable buildings of historical, architectural, or cultural significance for the purposes of this subdivision unless use of that space is not feasible, prudent and cost effective compared with available alternatives. Buildings are of historical, architectural, or cultural significance if they are listed on the national register of historic places, designated by a state or county historical society, or designated by a municipal preservation commission.

(d) [RECYCLING SPACE.] Leases for space of 30 days or more for 5,000 square feet or more must require that space be provided for recyclable materials.

Sec. 61. [16B.465] [STATEWIDE TELECOMMUNICATIONS ACCESS ROUTING SYSTEM.]

Subdivision 1. [CREATION.] The statewide telecommunications access routing system provides voice, data, video, and other telecommunications transmission services to state agencies, educational institutions, public corporations, and state political subdivisions. It is not a telephone company for purposes of chapter 237. It shall not resell or sublease any services or facilities to nonpublic entities. The commissioner has the responsibility for planning, development, and operations of a statewide telecommunications access routing system in order to provide cost-effective telecommunications transmission services to system users.

Subd. 2. [ADVISORY COUNCIL.] The statewide telecommunications access routing system is managed by the commissioner. Subject to section 15.059, subdivisions 1 to 4, the commissioner shall appoint an advisory council to provide assistance in implementing a statewide telecommunications access routing system. (1) one member appointed by the higher education advisory council established by section 136A.02, subdivision 6;

(2) the system heads, or their designees, of the University of Minnesota, the state university system, the community colleges system, and the board of vocational technical education; and

(3) five members appointed by the governor or the governor's designee or designees, four of whom must be agency heads or their designees or representatives of political subdivisions.

No member of the advisory council may be a vendor of telecommunications equipment or services or an employee or representative of a vendor.

Subd. 3. [DUTIES.] The commissioner, after consultation with the council, shall:

(1) provide voice, data, video, and other telecommunications transmission services to the state and to political subdivisions through the statewide telecommunications access routing system revolving fund;

(2) appoint a chief executive officer of the system to serve in the unclassified service;

(3) manage vendor relationships, network function, and capacity planning in order to be responsive to the needs of the system users;

(4) set rates and fees for services;

The rules must require participation of state agencies and higher education institutions in the network to provide interconnective technologies. The commissioner shall establish reimbursement rates in cooperation with the commissioner of the department of finance to be billed to participating agencies and educational institutions sufficient to cover the operating, maintenance, and administrative costs of the system.

Subd. 5. [REVOLVING ACCOUNT.] The statewide telecommunications access routing system revolving account is a separate account for the department of administration in the state treasury for the receipt of and payment of funds for the statewide telecommunications access routing system established in subdivision 1. Money appropriated to the account and fees for communications services provided by the statewide telecommunications access rout-

ing system must be deposited in the account. Money in the account is appropriated annually to the commissioner to operate the state-wide telecommunications access routing system.

Subd. 6. [EXEMPTION.] The system is exempt from the five-year limitation on contracts set by section 16B.07, subdivision 2.

Sec. 62. Minnesota Statutes 1988, section 16B.61, subdivision 5, is amended to read:

Subd. 5. [ACCESSIBILITY.] (a) [PUBLIC BUILDINGS.] The code must provide for making public buildings constructed or remodeled after July 1, 1963, accessible to and usable by physically handicapped persons, although this does not require the remodeling of public buildings solely to provide accessibility and usability to the physically handicapped when remodeling would not otherwise be undertaken.

(b) [LEASED SPACE.] No agency of the state may lease space for agency operations in a non-state-owned building unless the building satisfies the requirements of the state building code for accessibility by the physically handicapped, or is eligible to display the state symbol of accessibility. This limitation applies to leases of 30 days or more for space of at least 1,000 square feet.

(c) [MEETINGS OR CONFERENCES.] Meetings or conferences for the public or for state employees which are sponsored in whole or in part by a state agency must be held in buildings that meet the state building code requirements relating to accessibility for physically handicapped persons. This subdivision does not apply to any classes, seminars, or training programs offered by a state university, the University of Minnesota, or a state community college. Meetings or conferences intended for specific individuals none of whom need the accessibility features for handicapped persons specified in the state building code need not comply with this subdivision unless a handicapped person gives reasonable advance notice of an intent to attend the meeting or conference. When sign language interpreters will be provided, meetings or conference sites must be chosen which allow hearing impaired participants to see their signing clearly.

(d) [EXEMPTIONS.] The commissioner may grant an exemption from the requirements of paragraphs (b) and (c) in advance if an agency has demonstrated that reasonable efforts were made to secure facilities which complied with those requirements and if the selected facilities are the best available for access for handicapped persons. Exemptions shall be granted using criteria developed by the commissioner in consultation with the council on disability.

(e) [SYMBOL INDICATING ACCESS.] The wheelchair symbol adopted by Rehabilitation International's Eleventh World Congress is the state symbol indicating buildings, facilities, and grounds

which are accessible to and usable by handicapped persons. In the interests of uniformity, this symbol in its white on blue format is the sole symbol for display in or on all public or private buildings, facilities, and grounds which qualify for its use. The secretary of state shall obtain the symbol and keep it on file. No building, facility, or grounds may display the symbol unless it is in compliance with the rules adopted by the commissioner under subdivision 1. Before any rules are proposed for adoption under this paragraph, the commissioner shall consult with the council on disability. Rules adopted under this paragraph must be enforced in the same way as other accessibility rules of the state building code.

(f) [MUNICIPAL ENFORCEMENT.] Municipalities which have not adopted the state building code may enforce the building code requirements for handicapped persons by either entering into a joint powers agreement for enforcement with another municipality which has adopted the state building code; or contracting for enforcement with an individual certified under section 16B.65, subdivision 3, to enforce the state building code.

(g) [EQUIPMENT ALLOWED.] The code must allow the use of inclined wheelchair lifts, inclined stairway wheelchair lifts, and inclined stairway chair lifts in public buildings. An inclined stairway wheelchair lift and an inclined stairway chair lift must be equipped with light and sound signaling devices for use during operation of the lift. The stairway or ramp must be marked in a bright color that clearly indicates the outside edge of the lift when in operation. The code must not require a guardrail between the lift and the stairway or ramp. Compliance with this provision by itself does not mean other handicap accessibility requirements have been met.

Sec. 63. Minnesota Statutes 1988, section 43A.17, subdivision 1, is amended to read:

Subdivision 1. [SALARY LIMITS.] As used in subdivisions 1 to 8, "salary" means hourly, monthly, or annual rate of pay including any lump-sum payments and cost-of-living adjustment increases but excluding payments due to overtime worked, shift or equipment differentials, work out of class as required by collective bargaining agreements or plans established under section 43A.18, and back pay on reallocation or other payments related to the hours or conditions under which work is performed rather than to the salary range or rate to which a class is assigned.

The salary, as established in section 15A.081, of the head of a state agency in the executive branch is the upper limit of compensation in the agency, except for the department of trade and economic development and the department of veterans affairs where the salaries for the deputy commissioner for community development and the deputy commissioner for veteran services are the upper

limit of compensation. The salary of the commissioner of labor and industry is the upper limit of compensation of employees in the bureau of mediation services. However, if an agency head is assigned a salary that is lower than the current salary of another agency employee, the employee retains the salary, but may not receive an increase in salary as long as the salary is above that of the agency head. The commissioner may grant exemptions from these upper limits as provided in subdivisions 3 and 4.

Sec. 64. Minnesota Statutes 1988, section 84.0272, is amended to read:

84.0272 [PROCEDURE IN ACQUIRING LANDS.]

When the commissioner of natural resources is authorized to acquire lands or interests in lands the procedure set forth in this section shall apply. The commissioner of natural resources shall first prepare a fact sheet showing the lands to be acquired, the legal authority for their acquisition, and the qualities of the land that make it a desirable acquisition. The commissioner of natural resources shall cause the lands to be appraised. An appraiser shall before entering upon the duties of office take and subscribe an oath to faithfully and impartially discharge the duties as appraiser according to the best of the appraiser's ability and that the appraiser is not interested directly or indirectly in any of the lands to be appraised or the timber or improvements thereon or in the sale thereof and has entered into no agreement or combination to purchase the same or any part thereof, which oath shall be attached to the report of the appraisal. The commissioner of natural resources may pay less than the appraised value, but shall not agree to pay more than the appraised value, except that if the commissioner pays less than the appraised value for a parcel of land, the difference between the purchase price and the appraised value may be used to apply to purchases at more than the appraised value. The sum of accumulated differences between appraised amounts and purchases for more than the appraised amount may not exceed the sum of accumulated differences between appraised amounts and purchases for less than the appraised amount. New appraisals may be made at the discretion of the commissioner of natural resources.

Sec. 65. Minnesota Statutes 1988, section 84.0274, is amended by adding a subdivision to read:

(a) To administer and enforce all laws relating to the pollution of any of the waters of the state;

(b) To investigate the extent, character, and effect of the pollution of the waters of this state and to gather data and information necessary or desirable in the administration or enforcement of pollution laws, and to make such classification of the waters of the state as it may deem advisable;

(c) To establish and alter such reasonable pollution standards for any waters of the state in relation to the public use to which they are or may be put as it shall deem necessary for the purposes of this

chapter and, with respect to the pollution of waters of the state, chapter 116;

(d) To encourage waste treatment, including advanced waste treatment, instead of stream low-flow augmentation for dilution purposes to control and prevent pollution;

(e) To adopt, issue, reissue, modify, deny, or revoke, enter into or enforce reasonable orders, permits, variances, standards, rules, schedules of compliance, and stipulation agreements, under such conditions as it may prescribe, in order to prevent, control or abate water pollution, or for the installation or operation of disposal systems or parts thereof, or for other equipment and facilities;

(1) Requiring the discontinuance of the discharge of sewage, industrial waste or other wastes into any waters of the state resulting in pollution in excess of the applicable pollution standard established under this chapter;

(2) Prohibiting or directing the abatement of any discharge of sewage, industrial waste, or other wastes, into any waters of the state or the deposit thereof or the discharge into any municipal disposal system where the same is likely to get into any waters of the state in violation of this chapter and, with respect to the pollution of waters of the state, chapter 116, or standards or rules promulgated or permits issued pursuant thereto, and specifying the schedule of compliance within which such prohibition or abatement must be accomplished;

(3) Prohibiting the storage of any liquid or solid substance or other pollutant in a manner which does not reasonably assure proper retention against entry into any waters of the state that would be likely to pollute any waters of the state;

(4) Requiring the construction, installation, maintenance, and operation by any person of any disposal system or any part thereof, or other equipment and facilities, or the reconstruction, alteration, or enlargement of its existing disposal system or any part thereof, or the adoption of other remedial measures to prevent, control or abate any discharge or deposit of sewage, industrial waste or other wastes by any person;

(5) Establishing, and from time to time revising, standards of performance for new sources taking into consideration, among other things, classes, types, sizes, and categories of sources, processes, pollution control technology, cost of achieving such effluent reduction, and any nonwater quality environmental impact and energy requirements. Said standards of performance for new sources shall encompass those standards for the control of the discharge of pollutants which reflect the greatest degree of effluent reduction which the agency determines to be achievable through application of

the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants. New sources shall encompass buildings, structures, facilities, or installations from which there is or may be the discharge of pollutants, the construction of which is commenced after the publication by the agency of proposed rules prescribing a standard of performance which will be applicable to such source. Notwithstanding any other provision of the law of this state, any point source the construction of which is commenced after May 20, 1973 and which is so constructed as to meet all applicable standards of performance for new sources shall, consistent with and subject to the provisions of section 306(d) of the Amendments of 1972 to the Federal Water Pollution Control Act, not be subject to any more stringent standard of performance for new sources during a ten-year period beginning on the date of completion of such construction or during the period of depreciation or amortization of such facility for the purposes of section 167 or 169, or both, of the Federal Internal Revenue Code of 1954, whichever period ends first. Construction shall encompass any placement, assembly, or installation of facilities or equipment, including contractual obligations to purchase such facilities or equipment, at the premises where such equipment will be used, including preparation work at such premises;

(6) Establishing and revising pretreatment standards to prevent or abate the discharge of any pollutant into any publicly owned disposal system, which pollutant interferes with, passes through, or otherwise is incompatible with such disposal system;

(7) Requiring the owner or operator of any disposal system or any point source to establish and maintain such records, make such reports, install, use, and maintain such monitoring equipment or methods, including where appropriate biological monitoring methods, sample such effluents in accordance with such methods, at such locations, at such intervals, and in such a manner as the agency shall prescribe, and providing such other information as the agency may reasonably require;

(8) Notwithstanding any other provision of this chapter, and with respect to the pollution of waters of the state, chapter 116, requiring the achievement of more stringent limitations than otherwise imposed by effluent limitations in order to meet any applicable water quality standard by establishing new effluent limitations, based upon section 115.01, subdivision 5, clause (b), including alternative effluent control strategies for any point source or group of point sources to insure the integrity of water quality classifications, whenever the agency determines that discharges of pollutants from such point source or sources, with the application of effluent limitations required to comply with any standard of best available technology, would interfere with the attainment or maintenance of the water quality classification in a specific portion of the waters of the

state. Prior to establishment of any such effluent limitation, the agency shall hold a public hearing to determine the relationship of the economic and social costs of achieving such limitation or limitations, including any economic or social dislocation in the affected community or communities, to the social and economic benefits to be obtained and to determine whether or not such effluent limitation can be implemented with available technology or other alternative control strategies. If a person affected by such limitation demonstrates at such hearing that, whether or not such technology or other alternative control strategies are available, there is no reasonable relationship between the economic and social costs and the benefits to be obtained, such limitation shall not become effective and shall be adjusted as it applies to such person;

(9) Modifying, in its discretion, any requirement or limitation based upon best available technology with respect to any point source for which a permit application is filed after July 1, 1977 upon a showing by the owner or operator of such point source satisfactory to the agency that such modified requirements will represent the maximum use of technology within the economic capability of the owner or operator and will result in reasonable further progress toward the elimination of the discharge of pollutants;

(f) To require to be submitted and to approve plans and specifications for disposal systems or point sources, or any part thereof and to inspect the construction thereof for compliance with the approved plans and specifications thereof;

(g) To prescribe and alter rules, not inconsistent with law, for the conduct of the agency and other matters within the scope of the powers granted to and imposed upon it by this chapter and, with respect to pollution of waters of the state, in chapter 116, provided that every rule affecting any other department or agency of the state or any person other than a member or employee of the agency shall be filed with the secretary of state;

(h) To conduct such investigations, issue such notices, public and otherwise, and hold such hearings as are necessary or which it may deem advisable for the discharge of its duties under this chapter and, with respect to the pollution of waters of the state, under chapter 116, including, but not limited to, the issuance of permits, and to authorize any member, employee, or agent appointed by it to conduct such investigations or, issue such notices and hold such hearings;

(i) For the purpose of water pollution control planning by the state and pursuant to the Federal Water Pollution Control Act, as amended, to establish and revise planning areas, adopt plans and programs and continuing planning processes, including, but not limited to, basin plans and areawide waste treatment management plans, and to provide for the implementation of any such plans by means of, including, but not limited to, standards, plan elements,

procedures for revision, intergovernmental cooperation, residual treatment process waste controls, and needs inventory and ranking for construction of disposal systems;

(j) To train water pollution control personnel, and charge such fees therefor as are necessary to cover the agency's costs. All such fees received shall be paid into the state treasury and credited to the water pollution control training fund of the agency, from which the agency shall have the power to make disbursements to pay expenses relating to such training;

(k) To impose as additional conditions in permits to publicly owned disposal systems appropriate measures to insure compliance by industrial and other users with any pretreatment standard, including, but not limited to, those related to toxic pollutants, and any system of user charges ratably as is hereby required under state law or said Federal Water Pollution Control Act, as amended, or any regulations or guidelines promulgated thereunder;

(n) To train individual sewage treatment system personnel, including persons who design, construct, install, inspect, service, and operate individual sewage treatment systems, and charge fees as necessary to pay the agency's costs. All fees received must be paid into the state treasury and credited to the agency's training account. Money in the account is continually appropriated to the agency to pay expenses related to training.

Sec. 126. [115A.99] [MONITORS REQUIRED FOR INCINERATORS]

Notwithstanding any other law to the contrary, an incinerator permit issued to a facility that allows burning of PCB's or that contains emission limits for cadmium, chromium, lead, or mercury must, as a condition of the permit, require the installation of a continuous emission monitoring system approved by the commissioner. The monitoring system must provide continuous emission measurements to ensure optimum combustion efficiency of dioxin precursors. The system shall also be capable of providing a permanent record of monitored emissions that will be available upon request to the commissioner and the general public. The commissioner shall provide periodic inspection of the monitoring system to determine its continued accuracy. Should, at any time, the permit-

ted facility's emissions exceed permit requirements, the facility shall immediately commence shutdown of the incinerator until the appropriate modifications to the facility have been made to ensure its ability to meet permitted requirements.

Sec. 190. Minnesota Statutes 1988, section 349.213, subdivision 1, is amended to read:

Subdivision 1. [LOCAL REGULATION.] A statutory or home rule city or county has the authority to adopt more stringent regulation of any form of lawful gambling within its jurisdiction, including the prohibition of any form of lawful gambling, and may require a permit for the conduct of gambling exempt from licensing under section 349.214. The fee for a permit issued under this subdivision may not exceed \$100. The authority granted by this subdivision does not include the authority to require a license or permit to conduct gambling by organizations or sales by distributors licensed by the board. The authority granted by this subdivision does not include the authority to require an organization to make specific expenditures of more than ten percent from its net profits derived from lawful gambling. For the purposes of this subdivision, net profits are profits less amounts expended for allowable expenses. A statutory or home rule charter city or a county may not require an organization conducting lawful gambling within its jurisdiction to make an expenditure to the city or county as a condition to operate within that city or county, except as authorized under section 349.16, subdivision 4, or section 349.212; provided, however, that an ordinance requirement that such organizations must contribute ten percent of their net profits derived from lawful gambling to a fund administered and regulated by the responsible local unit of government without cost to such fund, for disbursement by the responsible local unit of government of the receipts for lawful purposes, is not considered an expenditure to the city or county nor a tax under section 349.212, and is valid and lawful.

Sec. 191. Minnesota Statutes 1988, section 356.215, subdivision 1, is amended to read:

(2) "Approved actuary" means a person who is regularly engaged in the business of providing actuarial services and who has at least 15 years of service to major public employee pension or retirement funds or who is a fellow in the society of actuaries.

(4) "Experience study" means a report which provides experience data and an actuarial analysis which substantiate the actuarial assumptions on which valuations are based.

(5) "Expected future statutory supplemental contributions" means the sum of future employee and employer contributions at the rates specified in statute when the valuation is completed, reduced by the present value of future normal costs.

(6) "Current assets" means, for funds governed by section 69.77 in cities of the first class with over 300,000 population, the value of all assets at cost, which includes realized capital gains or losses, plus two-thirds of any unrealized capital gains or losses. For all other funds, current assets means the value of all assets at cost, which includes realized capital gains or losses, plus one-third of any unrealized capital gains or losses.

(7) "Unfunded actuarial accrued liability" means total current and expected future benefit obligations less the sum of current assets and the present value of future normal costs.

Sec. 192. Minnesota Statutes 1988, section 356.215, subdivision 4d, is amended to read:

Subd. 4d. [INTEREST AND SALARY ASSUMPTIONS.] For funds governed by chapters 3A, 352, 352B, 352C, 353, 354 other than the variable annuity fund governed by section 354.62, and 490, the actuarial valuation shall use a preretirement interest assumption of eight percent, a postretirement interest assumption of five percent, and an assumption that in each future year the salary on

which a retirement or other benefit is based is 1.065 multiplied by the salary for the preceding year. For funds governed by chapter 354A, the actuarial valuation shall use preretirement and postretirement assumptions of eight percent and an assumption that in each future year the salary on which a retirement or other benefit is based is 1.065 multiplied by the salary for the preceding year, but the actuarial valuation shall reflect the payment of postretirement adjustments to retirees shall be based on the methods specified in the bylaws of the fund as approved by the legislature. For funds governed by section 69.77, in cities of the first class with over 300,000 population, the actuarial valuation shall use an annual preretirement interest assumption of six percent, an annual postretirement interest assumption of six percent, and an annual salary increase assumption of four percent. Sec. 193. Minnesota Statutes 1988, section 361.03, is amended by adding a subdivision to read:

Subd. 3a. [WATERCRAFT SURCHARGE.] A surcharge of \$2 is placed on each watercraft licensed under subdivision 3, that is 17 feet in length or longer, for management of purple loosestrife and Eurasian water milfoil according to law.

Subdivision 1. [REQUIREMENT.] Except as provided in subdivision 2, a watercraft used on the waters of the state must have a certificate of title if:

(1) the watercraft is owned by a resident of this state and is kept in the state for more than 90 consecutive days; or

(2) the watercraft is kept in the state for more than 60 consecutive days and has not been issued a certificate of title or similar document from another jurisdiction.

Subd. 3. [VOLUNTARY TITLING.] The owner of a device used or designed for navigation on water and used on the waters of this state may obtain a certificate of title for the device, even though it is not a watercraft as defined in section 194, subdivision 14, in the same manner and with the same effect as the owner of a watercraft required to be titled under this act. Once titled, the device is a titled watercraft as defined in section 194, subdivision 13, and is and remains subject to this act to the same extent as a watercraft required to be titled.

Subd. 4. [TITLE REQUIRED FOR TRANSFER.] A person may not sell or otherwise transfer a titled watercraft without delivering to the person acquiring the watercraft a certificate of title with an assignment on it to show title in the person acquiring the watercraft. A person may not acquire a watercraft required to have a certificate of title without obtaining a certificate of title for the watercraft in the person's name.

Subd. 5. [NO LEGAL TITLE WITHOUT CERTIFICATE.] A person acquiring a watercraft through a sale or gift does not acquire a right, title, claim, or interest in the watercraft until the person has been issued a certificate of title to the watercraft or has received a manufacturer's or importer's certificate. A waiver or estoppel does not operate in favor of that person against another person who has obtained possession of the certificate of title or manufacturer's or importer's certificate for the watercraft for valuable consideration.

Subd. 6. [WATERCRAFT LICENSE MAY NOT BE ISSUED WITHOUT TITLE.] The commissioner may not issue or renew a watercraft license to an owner of a titled watercraft unless the

owner has been issued or has applied for a certificate of title for the watercraft.

Sec. 196. [361A.03] [APPLICATION AND ISSUANCE OF CERTIFICATE OF TITLE.]

Subdivision 1. [APPLICATION.] The owner of a titled watercraft must apply for the first certificate of title of a watercraft in this state to the commissioner or a deputy registrar on a form prescribed by the commissioner. The appropriate fee under section 204 must accompany the application. The application must be signed by the owner and contain:

(1) the full names, dates of birth, and addresses of owners who are natural persons and the full names and addresses of other owners;

(2) a description of the watercraft including its make, model, year, length, the principal material used in construction, the builder's hull identification number, and the manufacturer's inboard engine serial number;

(3) the date of purchase by the applicant, the name and address of the person from whom the watercraft was acquired;

(4) the name and address of the person who is to possess the title and any conditions of possession; and

(5) other information required by the commissioner to determine whether the owner is entitled to a certificate of title and whether security interests exist in the watercraft.

Subd. 2. [ISSUANCE.] (a) The commissioner shall issue a certificate of title for a watercraft upon verification that:

(1) the application is genuine;

(2) the applicant is the owner of the watercraft; and

(3) payment of the required fee.

(b) The original certificate of title must be mailed to the first secured party disclosed in the application or, if none, to the owner named in the application.

Subd. 3. [CONTENTS.] (a) A certificate of title issued by the commissioner must contain:

(1) the date issued;

(2) the full names, dates of birth, and addresses of owners who are natural persons and the full names and addresses of other owners;

(3) the names and addresses of secured parties;

(4) the title number assigned to the watercraft;

(5) a description of the watercraft including its make, model, year of manufacture, length, principal material used in construction, registration number, and manufacturer's hull identification number or, if none, the builder's hull identification number assigned to the watercraft by the commissioner;

(7) spaces on the certificate for application of title by a new owner subject to the security interests of secured parties named and for the assignment or release of the security interest of a secured party; and

(8) other information the commissioner may require.

(b) A certificate of title issued by the commissioner is prima facie evidence of the facts appearing on it.

Subd. 4. [ISSUANCE WITHOUT ABSOLUTE PROOF OF OWNERSHIP] (a) If application is made for a certificate of title for a watercraft and the commissioner is not satisfied of the ownership of the watercraft or the existence of security interests in the watercraft, the watercraft may be assigned a title number but the commissioner must:

(1) withhold issuance of a certificate of title until the applicant presents documents that satisfy the commissioner of the applicant's ownership of the watercraft and of security interest in the watercraft; or

(2) require the applicant to file a bond in the form prescribed by the commissioner and executed by the applicant as a condition to issuing a certificate of title.

(b) A bond filed under this subdivision must be accompanied by the deposit of cash or executed by a surety company authorized to do business in this state. The bond must be in an amount equal to one and one-half times the value of the watercraft as determined by the commissioner. The bond must be conditioned to indemnify prior owners, secured parties, and later purchasers of the watercraft or persons acquiring a security interest in the watercraft, or successors

in interest of the persons, against expenses, losses, or damages, including reasonable attorney fees, by reason of the issuance of the certificate of title to the watercraft or on account of a defect in or undisclosed security interest upon the right, title, and interest of the applicant in the watercraft.

(c) An interested person has a right of action to recover on the bond for a breach of its conditions, but the aggregate liability of the surety to all persons may not exceed the amount of the bond.

(d) The commissioner shall return the bond and any deposit accompanying the bond if:

(1) the commissioner has not been notified of the pendency of an action to recover on the bond;

(2) questions of ownership and outstanding security interests have been resolved to the satisfaction of the commissioner;

(3) the bond has been posted for three years or the watercraft is not registered for license purposes in this state under section 361.03; and

(4) the currently valid certificate of title is surrendered.

Subd. 5. [RECORDS.] (a) The commissioner shall maintain records of certificates of title issued under this section according to one of the following systems:

(1) under a distinctive title number assigned to a watercraft;

(2) under the registration number awarded to a watercraft in accordance with the registration and numbering law of the state where it is registered;

(3) alphabetically, under the name of the owner; or

(4) under another system determined by the commissioner.

(b) Records relating to watercraft titling maintained by the commissioner are public records and are open to public inspection during regular office hours.

Subd. 6. [GROUNDS FOR REFUSAL TO ISSUE CERTIFICATE OF TITLE.] The commissioner may not issue a certificate of title if a required fee is not paid or the commissioner has reasonable grounds to believe that:

(1) the applicant is not the owner of the watercraft;

- (2) the application contains a false statement; or
- (3) the applicant failed to furnish required information or documents or additional information the commissioner reasonably requires.

Sec. 197. [361A.04] [DEALER ACQUISITION AND TRANSFER.]

Subdivision 1. [CERTIFICATE OF ORIGIN REQUIRED.] (a) A dealer may not purchase or acquire a new titled watercraft without obtaining a manufacturer's or importer's certificate of origin from the seller.

(b) A manufacturer, importer, dealer, or other person may not sell or otherwise dispose of a new titled watercraft to a dealer for purposes of display and resale without delivering to the dealer a manufacturer's or importer's certificate of origin.

Subd. 2. [CONTENTS OF CERTIFICATE.] The manufacturer's or importer's certificate of origin must be of a form prescribed by the commissioner and contain:

(1) a description of the watercraft, including its trade name, if any, year, series or model, hull material, length, and hull identification number;

(2) certification of the date of transfer of the watercraft and the name and address of the person to whom the watercraft was transferred;

(3) certification that the transfer of the watercraft was in ordinary trade and commerce;

(4) the signature and address of a representative of the person transferring the watercraft;

(5) an assignment form, including the name and address of the person the watercraft is to be transferred to, a certification that the watercraft is new, and a warranty that the title at the time of delivery is subject only to the security interests stated on the title; and

(6) other information required by the commissioner.

Subd. 3. [SALE OF NEW WATERCRAFT.] A dealer selling or exchanging a new titled watercraft, before delivering the watercraft to a purchaser, shall apply to the commissioner for a new title in the name of the purchaser. The application must contain the name and address of any secured party holding a security interest created or reserved at the time of sale and the date of the security agreement

and must be accompanied by a manufacturer's or importer's certificate of origin. The application must be signed by the dealer and the owner, and the dealer shall promptly mail or deliver the application to the commissioner or a deputy registrar.

Subd. 4. [USED WATERCRAFT ACQUIRED FOR RESALE.] (a) If a dealer buys or acquires a used titled watercraft for resale, the dealer must apply to the commissioner or deputy registrar and obtain a title number before selling or exchanging the watercraft in the same manner as a new watercraft on forms the commissioner provides or apply for and obtain a certificate of title.

(b) If a dealer acquires a used titled watercraft for resale and the watercraft is covered by a certificate of title that is surrendered to the dealer by the owner at the time of delivery of the watercraft, the dealer need not send the certificate of title to the commissioner. Upon transferring the watercraft to another person, the dealer must promptly execute the assignment, showing the name and address of the person to whom the watercraft is transferred and forward the certificate to the commissioner or deputy registrar with the application for a new certificate of title.

Subd. 5. [WATERCRAFT WITH FOREIGN REGISTRATION.] (a) Except as provided in paragraph (b), an application for a certificate of title for a watercraft last registered in another state or foreign country must contain or be accompanied by:

(1) a certificate of title or registration issued by the other state or foreign country; and

(2) other information or documents the commissioner requires to establish the ownership of the watercraft and the existence or nonexistence of security interests.

(b) If the state or foreign country where the watercraft was last registered does not issue certificates of title, the application must contain or be accompanied by:

(1) a proper bill of sale or sworn statement of ownership, certificate of registration, or evidence of ownership as required by the law of the state or foreign country; and

(2) any other information or documents the commissioner requires to establish the ownership of the watercraft and the existence or nonexistence of security interests.

Sec. 198. [361A.05] [TRANSFER BY OWNER.]

Subdivision 1. [VOLUNTARY TRANSFER.] (a) An owner who transfers a titled watercraft must execute the assignment and

warranty of title to the person to whom the watercraft is transferred in the space provided on the certificate of title where the watercraft is delivered.

(b) The person acquiring the watercraft must obtain a new certificate of title by applying to the commissioner or a deputy registrar on a form prescribed by the commissioner, and submitting the required fee. The application for certificate of title must be filed within 15 days after delivery of the watercraft to the person acquiring the watercraft.

(c) Upon request of the owner or the person who acquired the watercraft, a secured party in possession of the certificate of title must deliver the certificate to the person acquiring the watercraft, the commissioner, or a deputy registrar, unless the transfer is a breach of the security agreement. The delivery of the certificate does not affect the rights of the secured party under the security agreement.

(d) If a security interest or encumbrance is first created at the time of transfer of ownership, the certificate must be retained by or delivered to the secured party.

Subd. 2. [TRANSFER BY LAW.] (a) Except as otherwise provided in this chapter, if the ownership of a titled watercraft is transferred by operation of law, including inheritance or bequest, order in bankruptcy, insolvency, replevin, execution, sale, or satisfaction of mechanic's lien, or repossession upon default in performance of the terms of a security agreement, the person acquiring the watercraft by operation of law must promptly submit the last certificate of title, if available, or the manufacturer's or importer's certificate or other satisfactory proof of the transfer of ownership to the commissioner or deputy registrar with the application for a new certificate of title and the required fee.

(b) If a secured party acquires a titled watercraft under the terms of a security agreement or by operation of law, the secured party must promptly submit to the commissioner, a deputy registrar, or the person acquiring the watercraft from the secured party the last certificate of title, if available, an application for a new certificate of title with the required fee, and an affidavit by the secured party or an authorized representative stating the facts entitling the secured party to possession and ownership of the watercraft, including a copy of the journal entry, court order, or instrument upon which the claim of possession and ownership is founded. If the secured party cannot produce the required proof of ownership, the secured party may submit other evidence with the application and the commissioner may issue a new certificate of title if the evidence provides satisfactory proof of ownership.

Sec. 199. [361A.06] [TEMPORARY WATERCRAFT USE PERMITS.]

Subdivision 1. [ISSUANCE TO TITLE APPLICANT.] (a) The commissioner may issue a temporary watercraft use permit to a person applying for a certificate of title for a new or used watercraft to allow that person to operate the watercraft on the waters of this state pending completion of the titling and watercraft licensing process.

(b) The watercraft use permit must be carried aboard the watercraft to allow immediate inspection. The watercraft use permit must contain a description of the watercraft, including its trade name, if any, year, series or model, hull material, length, hull identification number, and other information prescribed by the commissioner. A permit is valid only for the watercraft for which it is issued.

Subd. 2. [DISTRIBUTION TO DEALERS.] The commissioner may distribute permits in booklet form to licensed dealers. If the dealer issues a permit, the dealer must submit a watercraft use permit information form to the commissioner. The commissioner must provide information forms that require the name of the person to whom the watercraft use permit was issued, the watercraft description, dates of issue and expiration, and other information prescribed by the commissioner.

Sec. 200. [361A.07] [DUPLICATE CERTIFICATE.]

Subdivision 1. [FORM AND ISSUANCE.] (a) The commissioner may issue a duplicate certificate of title under this section. The duplicate certificate of title must be a certified copy plainly marked "duplicate" across its face and must contain the legend: "This duplicate certificate of title may be subject to the rights of a person under the original certificate." It must be mailed to the first secured party named in it or, if none, to the owner. The commissioner shall indicate in the department records that a duplicate has been issued.

(b) As a condition to issuing a duplicate certificate of title, the commissioner may require a bond from the applicant in the manner and form prescribed in section 196, subdivision 4, paragraph (b).

Subd. 2. [WAITING PERIOD TO ISSUE NEW CERTIFICATE OF TITLE.] The commissioner may not issue a new certificate of title to a person acquiring a watercraft under an application made on a duplicate certificate of title until at least 15 days after receiving the application.

Subd. 3. [DISAPPEARANCE OF ORIGINAL CERTIFICATE.] If a certificate of title is lost, stolen, or destroyed, the owner or legal representative of the owner named in the certificate may obtain a

duplicate by applying to the commissioner, furnishing information the commissioner requires concerning the original certificate, and the circumstances of its loss or destruction.

Subd. 4. [MUTILATED OR ILLEGIBLE CERTIFICATE.] If an original certificate of title is mutilated or rendered illegible, the person in possession of the title must return it to the commissioner with the application for a duplicate.

Subd. 5. [RECOVERY OF LOST OR STOLEN CERTIFICATE.] If a lost or stolen certificate of title for which a duplicate has been issued is recovered, the lost or stolen certificate of title must be surrendered promptly to the commissioner for cancellation.

Sec. 201. [361A.08] [SUSPENSION OR REVOCATION OF CERTIFICATE.]

Subdivision 1. [SUSPENSION OR REVOCATION.] The commissioner shall suspend or revoke a certificate of title upon notice and reasonable opportunity to be heard if authorized by law or if the commissioner finds that:

(1) the certificate of title was fraudulently procured or erroneously issued; or

(2) the watercraft has been scrapped, dismantled, or destroyed.

Subd. 2. [DUTIES OF OWNER.] If the commissioner suspends or revokes a certificate of title, the owner or person in possession of the certificate of title, immediately upon receiving notice of the suspension or revocation, shall mail or deliver the certificate to the commissioner.

Subd. 3. [SEIZURE OR IMPOUNDMENT.] The commissioner may seize and impound a certificate of title that has been suspended or revoked.

Subd. 4. [SUBSEQUENT GOOD FAITH PURCHASER.] Suspension or revocation of a certificate of title does not affect the validity of a subsequent transfer to a purchaser relying in good faith on the assignment of a suspended or revoked title if the certificate of title was not surrendered to or seized by the commissioner under subdivisions 2 and 3, and the commissioner shall issue a new certificate of title to an applicant who is a good faith purchaser for value in those circumstances.

Sec. 202. [361A.09] [RESPONSIBILITIES OF COMMISSIONER.]

The commissioner shall prescribe and provide suitable forms of applications, certificates of title, notices of security interests, and

other notices and forms necessary to implement this chapter. In addition, the commissioner may:

(1) make necessary investigations to procure information required to implement this chapter;

(2) assign a new hull identification number to a watercraft if the watercraft does not have a number or the number is destroyed or obliterated; or

(3) adopt and enforce rules necessary to implement this chapter.

Sec. 203. [361A.10] [PENALTIES.]

Subdivision 1. [FELONY.] A person is guilty of a felony and punishable by imprisonment for a term of not more than four years, or payment of a fine of not more than \$5,000, or both, if the person with fraudulent intent:

(1) uses a false or fictitious name or address, makes a material false statement, fails to disclose a security interest, or conceals any other material fact in an application for a certificate of title; or

(2) submits a false, forged, or fictitious document in support of an application for a certificate of title.

Subd. 2. [MISDEMEANOR.] A person is guilty of a misdemeanor if that person:

(2) willfully fails to mail or deliver a certificate of title to the commissioner or a deputy registrar within ten days after the time required;

(3) willfully fails to deliver to a person acquiring a watercraft a certificate of title within ten days after the time required;

(4) commits a fraud in an application for a certificate of title; or

(5) fails to notify the commissioner of a fact as required by law.

Sec. 204. [361A.11] [TITLE FEES.]

Subdivision 1. [FEES.] (a) The fee to be paid to the commissioner:

(1) for issuing an original certificate of title, including the concurrent notation of an assignment of the security interest and its subsequent release or satisfaction, is \$15;

(2) for each security interest when first noted upon a certificate of title, including the concurrent notation of an assignment of the security interest and its subsequent release or satisfaction, is \$10;

(3) for transferring the interest of an owner and issuing a new certificate of title, is \$10;

(4) for each assignment of a security interest when first noted on a certificate of title, unless noted concurrently with the security interest, is \$1; and

(5) for issuing a duplicate certificate of title, is \$4.

(b) In addition to other statutory fees and taxes, a filing fee of \$3.25 is imposed on every application. The filing fee must be shown as a separate item on title renewal notices sent by the commissioner.

Subd. 2. [CONCURRENT APPLICATIONS.] If a person applies for an original or a new certificate of title for a watercraft concurrently with an application for transfer of license of the watercraft to the applicant, the fee prescribed in subdivision 1 is in lieu of the fee prescribed by section 361.03 for a transfer of ownership or license of the watercraft to the applicant.

Subd. 3. [FEES PAID BEFORE TITLE ISSUED.] Subject to subdivision 2, the commissioner may not issue a certificate of title for a watercraft until the fees prescribed by subdivision 1 and section 361.03 for a prior transfer of ownership or license of the watercraft have been paid.

The chief judge of the judicial district may delegate approval authority to an active district judge.

(c) If the court denies authorizing counsel to obtain services on behalf of the defendant, the court shall make written findings of fact and conclusions of law that specifically state the basis for determining that counsel may not obtain services on behalf of the defendant. (4) a statement of the intended outcomes to be achieved by implementation of the revitalization program, how the outcomes will be measured both qualitatively and quantitatively, and the estimated time over which they will occur;

As part of the process, the city shall ensure that this community-based process has sufficient resources to assist in the development of the revitalization program. The process to involve residents of the targeted neighborhood must include at least one public hearing. The city of Minneapolis shall establish the community-based process as outlined in subdivision 3. The city of St. Paul shall use the same community-based process the city used in planning, developing, drafting, and implementing the revitalization program required under Laws 1987, chapter 386, article 6, section 6. The city of Duluth shall use the same citizen participation process the city used in planning, developing, and implementing the federal funded community development program.

Subd. 3. [COMMUNITY PARTICIPATION; MINNEAPOLIS.] (a) For the purposes of this subdivision, "city" means the city of Minneapolis.

(b) The city shall adopt a process to involve the residents in targeted neighborhoods and assisted housing in planning, developing, and implementing the program. (c) Beginning with the program for 1991, each targeted neighborhood or group of targeted neighborhoods in the city must have a strategic planning group whose members include residents of the targeted neighborhood and representatives of institutions in the neighborhood. The group shall, as part of its responsibilities, develop a strategic plan for the neighborhood. This strategic plan must include the elements that the planning group recommends as part of the program. The strategic plan must also address how the targeted neighborhood portions of the community resources program will be integrated with the elements that are recommended to be included as part of the community resources program. The groups must be the same strategic planning groups established for the community resources program.

(d) The city shall ensure that the strategic planning group required under paragraph (c) is established. An existing group or organization that reflects the required membership under paragraph (c) may be designated as the strategic planning group. (f) The city shall establish an urban revitalization action program advisory board to assist the city in developing and implementing the preliminary revitalization program. The advisory board shall consist of at least two representatives of the city council appointed by the city council, one or more for-profit or nonprofit housing developers, one or more representatives of the business community appointed by the city's chamber of commerce, and representatives of the targeted neighborhoods. The representatives of the targeted neighborhoods shall represent a majority of the membership of the advisory board and reflect the geographic, cultural, racial, and ethnic diversity of the targeted neighborhoods. The city may deter-

mine the size of the advisory board and may designate an existing entity as the advisory board if the entity meets the membership requirements outlined in this subdivision.

(g) The advisory board shall work closely with city staff in developing and drafting the preliminary revitalization program. The advisory board shall be involved in assessing needs, prioritizing funds, and developing criteria for evaluating program proposals. In developing the preliminary program, the advisory board shall give priority to the recommendations made by the targeted neighborhood strategic planning groups.

(h) The advisory board shall conduct a public hearing and secure input from residents of targeted neighborhoods, business persons, governmental units affected by the program, and other organizations and persons.

(i) The advisory board and city staff may make any changes to the preliminary program resulting from testimony given at the public hearing. The advisory board must formally recommend to the city council a preliminary revitalization program.

Subd. 4. [CITY APPROVAL OF PROGRAM.] (a) Before adoption of a revitalization program under paragraph (b), the city must submit a draft program to the commissioner and the Minnesota housing finance agency for their comments. The city may not adopt the revitalization program until comments have been received from the state agencies or 30 days have elapsed without response after the program was sent to them. Comments received by the city from the state agencies within the 30-day period must be responded to in writing by the city before adoption of the program by the city.

(b) The city may adopt a revitalization program only after holding a public hearing after the program has been prepared. Notice of the hearing must be provided in a newspaper of general circulation in the city and in the targeted neighborhood not less than ten days nor more than 30 days before the date of the hearing.

(c) A certification by the city that a revitalization program has been approved by the city council for the targeted neighborhood must be provided to the commissioner together with a copy of the program. A copy of the program must also be provided to the Minnesota housing finance agency.

(d) A revitalization program for the city may be modified at any time by the city council after a public hearing, notice of which is published in a newspaper of general circulation in the city and in the targeted neighborhood at least ten days nor more than 30 days before the date of the hearing. Any modification to the program that may result in the transfer of targeted neighborhood money from one project to another must be reviewed by the commissioner. If the city

council determines that the proposed modification is a significant modification to the program originally certified under paragraph (c), the city council shall implement the revitalization program approval and certification process of this subdivision for the proposed modification.

Sec. 4. [469.204] [PAYMENT; CITY MATCHING MONEY; DRAW-DOWN; USES OF STATE MONEY.]

Subdivision 1. [PAYMENT OF STATE MONEY.] Upon receipt from a city of a certification that the revitalization program has been adopted or modified, the commissioner shall, within 30 days, initiate payments to the city equal to the amount of state money identified as necessary to implement the revitalization program certified by the city. State money may be paid to the city only to the extent that the appropriation limit for the city specified in subdivision 2 is not exceeded. Payments to the city must be made quarterly in equal installments. The commissioner, at the written request of the city, may accelerate the payment to the city if the commissioner determines that the state money is required immediately to implement all or a portion of the revitalization program. Once the state money has been paid to the city, it becomes targeted neighborhood money for use by the city in accordance with an adopted revitalization program and subject only to the restrictions on its use in sections 1 to 7.

Subd. 2. [ALLOCATION.] Each city of the first class, as defined in section 410.01, may receive a part of the appropriations made available that is the proportion that the population of such city bears to the combined population of such cities of the first class. One city may agree to reduce its entitlement amount and to make it available to another city. For the purposes of this subdivision the population of each city is determined according to the most recent estimates available to the commissioner.

Subd. 3. [MATCHING MONEY; DRAWDOWN AND RESTRICTION ON USE OF STATE MONEY.] A city may spend state money only if the revitalization program identifies matching money to be used to implement the program in an amount equal to one dollar of matching money for every three dollars of state money. A city shall keep the state money in a segregated fund for accounting purposes.

Sec. 5. [469.205] [CITY POWERS AND ELIGIBLE USES OF TARGETED NEIGHBORHOOD MONEY.]

Subdivision 1. [CONSOLIDATION OF EXISTING POWERS IN TARGETED NEIGHBORHOODS.] A city may exercise any of its corporate powers within a targeted neighborhood. Those powers shall include, but not be limited to, all of the powers enumerated and granted to any city by chapters 462C, this chapter, and 474A. For the purposes of sections 469.048 to 469.068, a targeted neigh-

borhood is considered an industrial development district. A city may exercise the powers of sections 469.048 to 469.068 in conjunction with, and in addition to, exercising the powers granted by sections 469.001 to 469.047 and chapter 462C, in order to promote and assist housing construction and rehabilitation within a targeted neighborhood. For the purposes of section 462C.02, subdivision 9, a targeted neighborhood is considered a "targeted area."

Subd. 2. [GRANTS AND LOANS.] In addition to the authority granted by other law, a city may make grants, loans, and other forms of public assistance to individuals, for-profit and nonprofit corporations, and other organizations to implement a revitalization program. The public assistance must contain the terms the city considers proper to implement a revitalization program.

Subd. 3. [ELIGIBLE USES OF TARGETED NEIGHBORHOOD MONEY.] The city may spend targeted neighborhood money for any purpose authorized by subdivision 1 or 2 except that an amount equal to at least 50 percent of the state payment under section 4 made to the city shall be used for housing activities. Use of target neighborhood money must be authorized in a revitalization program.

Sec. 6. [469.207] [ANNUAL AUDIT AND REPORT.]

Subdivision 1. [ANNUAL FINANCIAL AUDIT.] In 1989 and subsequent years, at the end of each calendar year, the legislative auditor shall conduct a financial audit to review the spending of state money under sections 1 to 6. Before spending state money to implement a revitalization program, the city must consult with the legislative auditor to determine appropriate accounting methods and principles that will assist the legislative auditor in conducting its financial audit. The results of the financial audit must be submitted to the legislative audit commission, the commissioner, and the Minnesota housing finance agency.

Subd. 2. [ANNUAL REPORT.] A city that begins to implement a revitalization program in a calendar year must, by March 1 of the succeeding calendar year, provide a detailed report on the revitalization program or programs being implemented in the city. The report must describe the status of the program implementation and analyze whether the intended outcomes identified in section 3, subdivision 1, clause (4), are being achieved. The report must include at least the following:

(1) the number of housing units, including lost units, removed, created, lost, replaced, relocated, and assisted as a result of the program. The level of rent of the units and the income of the households affected must be included in the report;

(2) the number and type of commercial establishments removed,

created, and assisted as a result of a revitalization program. The report must include information regarding the number of new jobs created by category, whether the jobs are full-time or part-time, and the salary or wage levels of both new and expanded jobs in the affected commercial establishments;

(3) a description of a statement of the cost of the public improvement projects that are part of the program and the number of jobs created per each \$20,000 of funds expended on commercial projects and applicable public improvement projects;

(4) the increase in the tax capacity for the city as a result of the assistance to commercial and housing assistance; and

(5) the amount of private investment that is a result of the use of public money in a targeted neighborhood.

The report must be submitted to the commissioner, the Minnesota housing finance agency, and the legislative audit commission, and must be available to the public.

Sec. 7. [REPEALER.]

Laws 1987, chapter 386, article 6, sections 4 to 11, and Laws 1987, chapter 384, article 3, section 22, are repealed provided that actions taken under those provisions prior to the effective date of this chapter with respect to any program or a targeted neighborhood are ratified and affirmed and shall be treated as if validly taken under the provisions of this act.

Sec. 8. [EFFECTIVE DATE.]

Sections 1 to 7 are effective the day after final enactment, provided that the provisions of sections 1 to 4 and 5, subdivision 3, shall not apply to any program funded by the state in fiscal year 1988.

The counties are responsible on a per capita prorated basis for the costs that the state is not assuming. These include but are not limited to capital costs, rent, and other associated costs. ARTICLE 5

FUND CONSOLIDATION

Section 1. [STATEMENT OF PURPOSE.]

During recent years the state of Minnesota has experienced a significant increase in the number of special revenue accounts and funds that has created a large base of nongeneral fund budget activities. The resulting structure is complicated and at best difficult for the legislature to exercise adequate legislative oversight of.

Executive branch agencies are also being faced with increased administrative costs and programmatic restrictions because of the growing number of special revenue funds and accounts. This article is an attempt to simplify the existing accounting structure and develop an accounting organizational structure that is reflective of agency functional organizations.

The consolidations in this article are not intended to restructure programs within agencies by reducing the number of special revenue accounts and funds. Fund consolidation in this article is not intended to achieve simplification at the expense of those user groups who pay fees to the current special revenue accounts and funds. It is the intent that the fees currently being paid will continue to be used for the purposes for which the fees were created.

Sec. 2. Minnesota Statutes 1988, section 6.48, is amended to read:

6.48 [EXAMINATION OF COUNTIES; COST, FEES.]

All the powers and duties conferred and imposed upon the state auditor shall be exercised and performed by the state auditor in respect to the offices, institutions, public property, and improvements of several counties of the state. At least once in each year, if funds and personnel permit, the state auditor shall visit, without previous notice, each county and make a thorough examination of all accounts and records relating to the receipt and disbursement of the public funds and the custody of the public funds, including the game and fish funds, and other property. The state auditor shall prescribe and install systems of accounts and financial reports that shall be uniform, so far as practicable, for the same class of offices. A copy of the report of such examination shall be filed and be subject to public inspection in the office of the state auditor and another copy in the office of the auditor of the county thus examined. The state auditor may accept the records and audit, or any part thereof, of the department of human services in lieu of examination of the county social welfare funds, if such audit has been made within any period covered by the state auditor's audit of the other records of the county. If any such examination shall disclose malfeasance, misfeasance, or nonfeasance in any office of such county, such report shall be filed with the county attorney of the county, and the county attorney shall institute such civil and criminal proceedings as the law and the protection of the public interests shall require.

The county receiving such examination, and the division of game and fish of the department of natural resources of the state of Minnesota, in the case of the examination of the game and fish funds, shall pay to the state auditor's revolving general fund, notwithstanding the provisions of section 16A.125, the total cost and expenses of such examinations, including the salaries paid to the examiners while actually engaged in making such examination. The state auditor on deeming it advisable may bill counties, having a

population of 200,000 or over, monthly for services rendered and the officials responsible for approving and paying claims shall cause said bill to be promptly paid. The revolving general fund of the state auditor shall be credited with all collections made for any such examinations.

Sec. 3. Minnesota Statutes 1988, section 6.56, is amended to read:

6.56 [COST OF EXAMINATION, PAYMENT.]

Upon the examination of the books, records, accounts, and affairs of any county, city, town, or school district, as provided by law, such county, city, town, or school district shall be liable to the state for the total cost and expenses of such examination, including the salaries paid to the examiners while actually engaged in making such examination. The state auditor may bill such county, city, town, or school district monthly for service rendered and the officials responsible for approving and paying claims are authorized to pay said bill promptly. Said payments shall be without prejudice to any defense against said claims that may exist or be asserted. The revolving general fund of the state auditor shall be credited with all collections made for any such examinations.

Sec. 4. Minnesota Statutes 1988, section 6.58, is amended to read:

6.58 [REVOLVING GENERAL FUND.]

When full-time personnel are not available, the state auditor may contract with private persons, firms, or corporations for accounting and other technical services. Notwithstanding any law to the contrary, the acquisition of equipment may include duplicating equipment to be used in producing the reports issued by the department. All receipts from such reimbursable examinations shall be deposited in the general fund and are hereby reappropriated to that purpose. The state auditor is directed to adjust the schedule of charges for such examinations to provide that such charges shall be sufficient to cover all costs of such examinations and that the aggregate charges collected shall be sufficient to pay all salaries and other expenses including charges for the use of the equipment used in connection with such reimbursable examinations and including the cost of contracting for accounting and other technical services. The schedule of charges shall be based upon an estimate of the cost of performing reimbursable examinations including, but not limited to, salaries, office overhead, equipment, authorized contracts, and other expenses. The state auditor may allocate a proportionate part of the total costs to an hourly or daily charge for each person or class of persons engaged in the performance of an examination. The

schedule of charges shall reflect an equitable charge for the expenses incurred in the performance of any given examination. The state auditor shall review and adjust the schedule of charges for such examinations at least annually and have all schedules of charges approved by the commissioner of finance before they are adopted so as to insure that the amount collected shall be sufficient to pay all the costs connected with such examinations during the fiscal year and that the unobligated balance, including accounts receivable, in the revolving fund at the end of each fiscal year shall not be less than \$315,000. The unobligated balance in the revolving fund in excess of \$350,000, as of June 30 of each fiscal year, shall be canceled into the general fund.

(e) To adopt, issue, reissue, modify, deny, or revoke, enter into or enforce reasonable orders, permits, variances, standards, rules, schedules of compliance, and stipulation agreements, under such conditions as it may prescribe, in order to prevent, control or abate water pollution, or for the installation or operation of disposal systems or parts thereof, or for other equipment and facilities;

(1) Requiring the discontinuance of the discharge of sewage, industrial waste or other wastes into any waters of the state resulting in pollution in excess of the applicable pollution standard established under this chapter;

(2) Prohibiting or directing the abatement of any discharge of

sewage, industrial waste, or other wastes, into any waters of the state or the deposit thereof or the discharge into any municipal disposal system where the same is likely to get into any waters of the state in violation of this chapter and, with respect to the pollution of waters of the state, chapter 116, or standards or rules promulgated or permits issued pursuant thereto, and specifying the schedule of compliance within which such prohibition or abatement must be accomplished;

(3) Prohibiting the storage of any liquid or solid substance or other pollutant in a manner which does not reasonably assure proper retention against entry into any waters of the state that would be likely to pollute any waters of the state;

(4) Requiring the construction, installation, maintenance, and operation by any person of any disposal system or any part thereof, or other equipment and facilities, or the reconstruction, alteration, or enlargement of its existing disposal system or any part thereof, or the adoption of other remedial measures to prevent, control or abate any discharge or deposit of sewage, industrial waste or other wastes by any person;

(5) Establishing, and from time to time revising, standards of performance for new sources taking into consideration, among other things, classes, types, sizes, and categories of sources, processes, pollution control technology, cost of achieving such effluent reduction, and any nonwater quality environmental impact and energy requirements. Said standards of performance for new sources shall encompass those standards for the control of the discharge of pollutants which reflect the greatest degree of effluent reduction which the agency determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants. New sources shall encompass buildings, structures, facilities, or installations from which there is or may be the discharge of pollutants, the construction of which is commenced after the publication by the agency of proposed rules prescribing a standard of performance which will be applicable to such source. Notwithstanding any other provision of the law of this state, any point source the construction of which is commenced after May 20, 1973 and which is so constructed as to meet all applicable standards of performance for new sources shall, consistent with and subject to the provisions of section 306(d) of the Amendments of 1972 to the Federal Water Pollution Control Act, not be subject to any more stringent standard of performance for new sources during a ten-year period beginning on the date of completion of such construction or during the period of depreciation or amortization of such facility for the purposes of section 167 or 169, or both, of the Federal Internal Revenue Code of 1954, whichever period ends first. (7) Requiring the owner or operator of any disposal system or any point source to establish and maintain such records, make such reports, install, use, and maintain such monitoring equipment or methods, including where appropriate biological monitoring methods, sample such effluents in accordance with such methods, at such locations, at such intervals, and in such a manner as the agency shall prescribe, and providing such other information as the agency may reasonably require;

(8) Notwithstanding any other provision of this chapter, and with respect to the pollution of waters of the state, chapter 116, requiring the achievement of more stringent limitations than otherwise imposed by effluent limitations in order to meet any applicable water quality standard by establishing new effluent limitations, based upon section 115.01, subdivision 5, clause (b), including alternative effluent control strategies for any point source or group of point sources to insure the integrity of water quality classifications, whenever the agency determines that discharges of pollutants from such point source or sources, with the application of effluent limitations required to comply with any standard of best available technology, would interfere with the attainment or maintenance of the water quality classification in a specific portion of the waters of the state. Prior to establishment of any such effluent limitation, the agency shall hold a public hearing to determine the relationship of the economic and social costs of achieving such limitation or limitations, including any economic or social dislocation in the affected community or communities, to the social and economic benefits to be obtained and to determine whether or not such effluent limitation can be implemented with available technology or other alternative control strategies. If a person affected by such limitation demonstrates at such hearing that, whether or not such technology or other alternative control strategies are available, there is no reasonable relationship between the economic and social costs and the benefits to be obtained, such limitation shall not become effective and shall be adjusted as it applies to such person;

(9) Modifying, in its discretion, any requirement or limitation based upon best available technology with respect to any point source for which a permit application is filed after July 1, 1977 upon a showing by the owner or operator of such point source satisfactory to the agency that such modified requirements will represent the maximum use of technology within the economic capability of the

owner or operator and will result in reasonable further progress toward the elimination of the discharge of pollutants;

(f) To require to be submitted and to approve plans and specifications for disposal systems or point sources, or any part thereof and to inspect the construction thereof for compliance with the approved plans and specifications thereof;

(g) To prescribe and alter rules, not inconsistent with law, for the conduct of the agency and other matters within the scope of the powers granted to and imposed upon it by this chapter and, with respect to pollution of waters of the state, in chapter 116, provided that every rule affecting any other department or agency of the state or any person other than a member or employee of the agency shall be filed with the secretary of state;

(h) To conduct such investigations, issue such notices, public and otherwise, and hold such hearings as are necessary or which it may deem advisable for the discharge of its duties under this chapter and, with respect to the pollution of waters of the state, under chapter 116, including, but not limited to, the issuance of permits, and to authorize any member, employee, or agent appointed by it to conduct such investigations or, issue such notices and hold such hearings;

(i) For the purpose of water pollution control planning by the state and pursuant to the Federal Water Pollution Control Act, as amended, to establish and revise planning areas, adopt plans and programs and continuing planning processes, including, but not limited to, basin plans and areawide waste treatment management plans, and to provide for the implementation of any such plans by means of, including, but not limited to, standards, plan elements, procedures for revision, intergovernmental cooperation, residual treatment process waste controls, and needs inventory and ranking for construction of disposal systems;

This section applies whether or not the person is sentenced to imprisonment and when the sentence is suspended. The court may not waive payment or authorize payment of the assessment or surcharge in installments unless it makes written findings on the record that the convicted person is indigent or that the assessment or surcharge would create undue hardship for the convicted person or that person's immediate family. If the court fails to waive or impose an assessment required by this section, the court administrator shall correct the record to show imposition of an assessment of \$25 if the sentence does not include payment of a fine, or if the sentence includes a fine, to show an imposition of a surcharge of ten percent of the fine.

If no victim assistance program serves that county, the court shall forward 100 percent of the fine proceeds to the commissioner of finance to be credited to the ~~crime victim and witness account~~ general fund. Fine proceeds received by a local victim assistance program must be used to provide direct services to crime victims. ~~Fine proceeds credited to the crime victim and witness account may be appropriated to the crime victim and witness advisory council, and the council may use all or part of the proceeds for the purpose of providing grants to establish new victim assistance programs.~~

Section 1. Minnesota Statutes 1988, section 115A.15, subdivision 5, is amended to read:

Subd. 5. [REPORTS.] By January 1 of each odd-numbered year, the commissioner of administration shall submit a report to the governor and to the legislative commission summarizing past activities and proposed goals of the program for the following biennium. The report shall include at least:

(1) a summary list of product and commodity purchases that contain recycled materials;

(2) the results of any performance tests conducted on recycled products and agencies' experience with recycled products used;

(3) a list of all organizations participating in and using the cooperative purchasing program; and

(4) a list of products and commodities purchased for their recyclability and of recycled products reviewed for purchase.

By July 1 of each even-numbered year the commissioner of the pollution control agency and the commissioner of public service shall submit recommendations to the commissioner regarding the operation of the program.

Sec. 2. Minnesota Statutes 1988, section 115A.15, is amended by adding a subdivision to read:

Subd. 7. [WASTE REDUCTION; PROCUREMENT MODEL.] For the purposes of reducing the amount of solid waste generated by the state and providing a model for other public and private procurement systems, the commissioner, in cooperation with the commissioner of the pollution control agency, shall develop, based on the recommendations in the study in section 7, waste reduction procurement programs, including an expanded life cycle costing system for procurement of durable and repairable items. The commissioner shall implement the program by January 1, 1992. On implementation of the model procurement system, the commissioner, in cooperation with the commissioner of the pollution control agency, shall develop and distribute informational materials for the purpose of promoting the procurement model to other public and private entities under section 6, subdivision 2.

Sec. 3. Minnesota Statutes 1988, section 115A.15, is amended by adding a subdivision to read:

Subd. 8. [RECYCLING BARRIERS.] The commissioner, together with the commissioner of public safety, shall review the barriers that limit recycling systems in buildings and address those barriers to recycling that may exist due to building, safety, and fire codes. By November 1, 1991, the commissioners shall jointly report their findings to the legislative commission on waste management, along

with recommendations for legislative or administrative action to enable a comprehensive recycling system consistent with necessary safety and fire prevention concerns.

Sec. 4. Minnesota Statutes 1988, section 115A.15, is amended by adding a subdivision to read:

Subd. 9. [RECYCLED MATERIALS; PURCHASING.] The commissioner shall develop and implement a cooperative purchasing program under section 471.59 to include state agencies, local governmental units, and, where feasible, other state governments and the federal government, for the purpose of purchasing recycled materials. By January 1, 1991, the commissioner shall develop a program to promote the cooperative purchasing program to those units of government and other persons.

Sec. 5. Minnesota Statutes 1988, section 115A.15, is amended by adding a subdivision to read:

Subd. 10. [RECYCLING GOAL.] By January 1, 1992, the commissioner shall recycle or compost at least 25 percent by weight of the solid waste generated by state offices and other operations located in the metropolitan area. The commissioner must keep records of the recycling and composting operation and share them annually with the metropolitan council and counties to assist the council and the counties in their data collection efforts.

Sec. 6. [115A.55] [SOLID WASTE REDUCTION.]

Subdivision 1. [AGENCY COORDINATION.] The agency shall develop and coordinate solid waste reduction programs to include at least public education, promotion of waste reduction, and technical and financial assistance to solid waste generators.

Subd. 2. [EDUCATION; PROMOTION; PROCUREMENT.] The agency shall include waste reduction as an element of its program of public education on waste management required under section 115A.072. The waste reduction education program must include dissemination of information and may include an award program for model waste reduction efforts. Waste reduction educational efforts must also include provision of information about and promotion of the model procurement program developed by the commissioner of administration under section 1, or any other model procurement program that results in significant waste reduction.

Subd. 3. [TECHNICAL ASSISTANCE.] The agency shall provide technical assistance to solid waste generators to enable the waste generators to implement programs or methods to reduce the amount of solid waste generated. The agency may use any means specified in section 115A.52 to provide technical assistance.

Subd. 4. [FINANCIAL ASSISTANCE.] The agency shall make loans and grants to any person for the purpose of developing and implementing projects or practices to prevent or reduce the generation of solid waste including those that involve reuse of items in their original form or procuring, using, or producing products with long useful lives. Grants may be used to fund studies needed to determine the technical and financial feasibility of a waste reduction project or practice or for the cost of implementation of a waste reduction project or practice that the agency has determined is technically and financially feasible.

In making grants or loans, the agency shall give priority to waste reduction or problem materials projects or practices that have broad application in the state and that have the potential for significant reduction of the amount of waste generated; or that are directed toward removing problem materials from the waste stream.

All information developed as a result of a grant or loan shall be made available to other solid waste generators through the public information program established in subdivision 2.

The agency shall adopt rules for the administration of this program. Agency rules must prescribe the level or levels of matching funds required for grants or loans under this subdivision.

Sec. 7. [STUDY; PURCHASE AND USE OF RECYCLED MATERIALS.]

The commissioner of administration shall contract with an outside consultant for a study and evaluation of practices, procedures, and methods to ensure that state contracts and purchasing may be structured to encourage the procurement and use of recycled materials and to meet the requirements of section 1.

By January 1, 1991, the commissioner shall develop a plan and implementation strategy based on the study and shall present it, along with any proposals for legislative action, to the legislative commission on waste management.

ARTICLE 2 RECYCLING

Section 1. [115A.151] [STATE AND LOCAL FACILITIES.]

By July 1, 1990, a state agency or local unit of government, other than a school district, shall:

(1) ensure that facilities under its control, from which mixed municipal solid waste is collected, have containers for at least three recyclable materials; and.

(2) transfer all recyclable materials collected at those facilities to a recycler.

Sec. 2. Minnesota Statutes 1988, section 115A.46, subdivision 2, is amended to read:

Subd. 2. [CONTENTS.] The plans shall describe existing collection, processing, and disposal systems, including schedules of rates and charges, financing methods, environmental acceptability, and opportunities for improvements in the systems. The plans shall include an estimate of the land disposal capacity in acre-feet which will be needed through the year 2000, on the basis of current and projected waste generation practices. The plans shall require the most feasible and prudent reduction of the need for and practice of land disposal of mixed municipal solid waste. The plans shall address at least waste reduction, separation, and resource recovery, ~~and~~ shall include objectives, immediately and over specified time periods, for reducing the land disposal of mixed municipal solid waste; and shall describe proposed mechanisms for complying with the recycling requirements of section 4 and the household hazardous waste management requirements of article 4, section 8. The plans shall describe specific functions to be performed and activities to be undertaken to achieve the abatement objectives and shall describe the estimated cost, proposed manner of financing, and timing of the functions and activities. The plans shall include a comparison of the costs of the activities to be undertaken, including capital and operating costs, and the effects of the activities on the cost to generators and on persons currently providing solid waste collection, processing, and disposal services. The plans shall include alternatives which could be used to achieve the abatement objectives if the proposed functions and activities are not established. The plans shall designate how public education shall be accomplished. The plans shall, to the extent practicable and consistent with the achievement of other public policies and purposes, encourage ownership and operation of solid waste facilities by private industry. For solid waste facilities owned or operated by public agencies or supported primarily by public funds or obligations issued by a public agency, the plans shall include criteria and standards to protect comparable private and public facilities already existing in the area from displacement unless the displacement is required in order to achieve the waste management objectives identified in the plan. The plans shall establish a siting procedure and development program to assure the orderly location, development, and financing of new or expanded solid waste facilities and services sufficient for a prospective ten-year period, including estimated costs and implementation schedules, proposed procedures for operation and maintenance, estimated annual costs and gross revenues, and proposals for the use

of facilities after they are no longer needed or usable. The plans shall describe existing and proposed county and municipal ordinances and license and permit requirements relating to solid waste management and shall describe existing and proposed regulation and enforcement procedures.

Sec. 3. Minnesota Statutes 1988, section 115A.46, is amended by adding a subdivision to read:

Subd. 4. [DELEGATION; SOLID WASTE RESPONSIBILITIES.] A county or a solid waste management district established under sections 115A.62 to 115A.72 may not delegate to another governmental unit or other person any portion of its responsibility for solid waste management unless it establishes a funding mechanism to assure the ability of the entity to which it delegates responsibility to adequately carry out the responsibility delegated.

Sec. 4. [115A.551] [RECYCLING.]

Subdivision 1. [DEFINITION.] The definitions in this section apply to this section.

(a) "Recycling" means, in addition to the meaning given in section 115A.03, subdivision 25b, yard waste composting and recycling that occurs through mechanical or hand separation of materials that are then delivered for reuse in their original form or for use in manufacturing processes that do not cause the destruction of recyclable materials in a manner that precludes further use.

(b) "Total solid waste generation" means the total by weight of:

(1) materials separated for recycling;

(2) materials separated for yard waste composting; and

(3) mixed municipal solid waste plus yard waste, used oil, tires, lead acid batteries, and white goods.

Subd. 2. [COUNTY RECYCLING GOALS.] It is the goal of each county to recycle a minimum of 25 percent by weight of its annual total solid waste generation by July 1, 1993. Each county shall either develop and implement or require political subdivisions within the county to develop and implement programs, practices, or methods designed to meet its recycling goal. Nothing in this section or any other law may be construed to prohibit a county from establishing a higher recycling goal. The Western Lake Superior Sanitary District established by Laws 1971, chapter 478, as amended, shall have all of the duties, authority, and rights of a county under this section with respect to recycling and total solid waste generation within the district.

Subd. 3. [INTERIM GOALS; NONMETROPOLITAN COUNTIES.] The agency shall establish interim recycling goals for the nonmetropolitan counties to assist them in meeting the 1993 goal.

Subd. 4. [INTERIM MONITORING.] The agency, for the nonmetropolitan counties, and the metropolitan council, for the metropolitan counties, shall monitor the progress of the counties toward meeting the recycling goal in subdivision 2 and shall report to the legislative commission on waste management on the progress of the counties by November 1 of each year. If the agency or the council finds that a county is not progressing toward the goal in subdivision 2, it shall negotiate with the county to develop and implement solid waste management techniques designed to assist the county in meeting the goal, such as organized collection, curbside collection of source-separated materials, and volume-based pricing.

Subd. 5. [FAILURE TO MEET GOAL.] If, based on the recycling monitoring described in subdivision 4, the agency or the metropolitan council finds that a county will be unable to meet the recycling goal established in subdivision 2, the agency or council shall, after consideration of the reasons for the county's inability to meet the goal, recommend legislation for consideration by the legislative commission on waste management to establish mandatory recycling standards and to authorize the agency or council to mandate appropriate solid waste management techniques designed to meet the standards in those counties that are unable to meet the goal.

Subd. 6. [COUNTY AND DISTRICT SOLID WASTE PLANS.] Each county and the Western Lake Superior Sanitary District shall include in its solid waste management plan described in section 115A.46, or its solid waste master plan described in section 473.803, a plan for implementing the recycling goal established in subdivision 2 along with mechanisms for providing financial incentives to solid waste generators to reduce the amount of waste generated and to separate recyclable materials from the waste stream. The recycling plan must include detailed recycling implementation information to form the basis for the strategy required in subdivision 7.

Each county required to submit its plan to the agency under section 115A.46 shall amend its plan to comply with this subdivision within one year after the effective date of this section.

Subd. 7. [RECYCLING IMPLEMENTATION STRATEGY.] Within one year of agency approval of the portion of the plan required in subdivision 6, each nonmetropolitan county shall submit for agency approval a local recycling implementation strategy. The local recycling implementation strategy must:

(1) be consistent with the approved county solid waste management plan;

(2) identify the materials that are being and will be recycled in the county to meet the goals under this section and the parties responsible and methods for recycling the material; and

The master plan shall, to the extent practicable and consistent with the achievement of other public policies and purposes, encourage ownership and operation of solid waste facilities by private industry. For solid waste facilities owned or operated by public agencies or supported primarily by public funds or obligations issued by a public agency, the master plan shall contain criteria and standards to protect comparable private and public facilities already existing in the area from displacement unless the displacement is required in order to achieve the waste management objectives identified in the plan.

Sec. 14. [SAFETY GUIDE.]

The agency, in cooperation with the council, shall prepare and distribute to all interested persons a guide for operation of a recycling or yard waste composting facility to protect the environment and public health.

Subd. 5. Notwithstanding any other law to the contrary for taxes levied in 1988 1989 payable in 1989 1990 and subsequent years, "special levies" means those portions of ad valorem taxes levied by governmental subdivisions to:

(a) pay the costs not reimbursed by the state or federal government, of payments made to or on behalf of recipients of aid under any public assistance program authorized by law, and the costs of purchase or delivery of social services. Except for the costs of general assistance as defined in section 256D.02, subdivision 4, general assistance medical care under section 256D.03 and the costs of hospital care pursuant to section 261.21, the aggregate amounts levied pursuant to this clause are subject to a maximum increase of 18 percent over the amount levied for these purposes in the previous year. Effective with taxes levied in 1989, the portion of this special levy for income maintenance programs identified in section 273.1398, subdivision 1, paragraph (i), is eliminated;

(b) pay the costs of principal and interest on bonded indebtedness except on bonded indebtedness issued under section 471.981, subdivisions 4 to 4c or to reimburse for the amount of liquor store revenues used to pay the principal and interest due in the year preceding the year for which the levy limit is calculated on municipal liquor store bonds;

(c) pay the costs of principal and interest on certificates of indebtedness, except tax anticipation or aid anticipation certificates of indebtedness, issued for any corporate purpose except current expenses or funding an insufficiency in receipts from taxes or other sources or funding extraordinary expenditures resulting from a public emergency; and to pay the cost for certificates of indebtedness issued pursuant to sections 298.28 and 298.282;

(d) fund the payments made to the Minnesota state armory building commission pursuant to section 193.145, subdivision 2, to retire the principal and interest on armory construction bonds;

(e) provide for the bonded indebtedness portion of payments made to another political subdivision of the state of Minnesota;

(f) pay the amounts required, in accordance with section 275.075, to correct for a county auditor's error of omission but only to the extent that when added to the preceding year's levy it is not in excess of an applicable statutory, special law or charter limitation, or the limitation imposed on the governmental subdivision by sections 275.50 to 275.56 in the preceding levy year;

(g) pay amounts required to correct for an error of omission in the levy certified to the appropriate county auditor or auditors by the governing body of a city or town with statutory city powers in a levy year, but only to the extent that when added to the preceding year's

(h) pay amounts required by law to be paid to pay the interest on and to reduce the unfunded accrued liability of public pension funds in accordance with the actuarial standards and guidelines specified in sections 356.215 and 356.216 reduced by 106 percent of the amount levied for that purpose in 1976, payable in 1977. For the purpose of this special levy, the estimated receipts expected from the state of Minnesota pursuant to sections 69.011 to 69.031 or any other state aid expressly intended for the support of public pension funds shall be considered as a deduction in determining the required levy for the normal costs of the public pension funds. No amount of these aids shall be considered as a deduction in determining the governmental subdivision's required levy for the reduction of the unfunded accrued liability of public pension funds;

(i) to compensate the state for the cost of a reassessment ordered by the commissioner of revenue pursuant to section 270.16; and

(j) pay the debt service on tax increment financing revenue bonds to the extent that revenue to pay the bonds or to maintain reserves for the bonds is insufficient as a result of the provisions of Laws 1988, chapter 719, article 5; and

(k) pay an amount of up to 25 percent of the money sought for distribution and approved under article 2, section 6, subdivision 3, clause (3).

Subd. 2. [REFERENDUM EQUALIZATION LEVY.] A district's referendum equalization levy is equal to the product of the district's referendum equalization revenue times the lesser of one, or the ratio of the district's adjusted gross tax capacity per pupil unit to 60 percent of the equalizing factor.

Subd. 3. [REFERENDUM EQUALIZATION AID.] A district's referendum equalization aid is equal to its referendum equalization revenue minus its referendum equalization levy.

Referendum equalization aid must be reduced by the amount of other referendum equalization aid that is received by the district.

Subd. 4. [REFERENDUM EQUALIZATION AID REDUCTION.] A district must reduce its referendum levy certification amount by

50 percent of the amount of referendum equalization aid it receives for that fiscal year.

Sec. 7. Minnesota Statutes 1988, section 124A.035, subdivision 2, is amended to read:

Subd. 2. [PERMANENT SCHOOL FUND.] The amount of money received by a school district as income from the permanent school fund for any year, shall be deducted from the general education aid earned by the district for the same year or from aid earned from other state sources.

Subd. 4. [COUNTY APPORTIONMENT DEDUCTION.] Each year the amount of money apportioned to a school district for that year pursuant to section 124.10, subdivision 2, shall be deducted from the general education aid earned by that district for the same year.

Sec. 9. [124A.215] [AID FOR REDUCED CLASS SIZE.]

Subdivision 1. [PURPOSE.] The purpose of sections 9 to 11 is to improve the education of public school pupils by (1) reducing class sizes in kindergarten through grade three to help each pupil develop socially and emotionally and in knowledge, skills, and attitudes related to school performance; and (2) improving program offerings throughout a local school district.

Subd. 2. [DEFINITION.] "Teacher" in this section means a public employee licensed by the board of teaching whose duties are full-time classroom instructional or the equivalent, excluding a teacher for which categorical aids are received pursuant to sections 124.273 and 124.32. In this section, teacher does not include supervisory and support personnel, as defined in section 125.03, subdivision 4, librarians, school psychologists, school social workers, audio-visual directors and coordinators, recreation personnel, media generalists, media supervisors, or speech therapists. A teacher whose duties are less than full-time classroom instructional must be included as an equivalent only for the number of hours of classroom instruction.

Subd. 3. [STATE AID CRITERIA.] The state shall pay aid as provided in section 10 to districts that work to achieve or maintain a class size of no more than 15 elementary pupils per classroom session in kindergarten and grade one for each teacher in each school within the school district and no more than 17 elementary pupils in grades two and three for each teacher in each school within the school district. A district must reduce the class sizes in kinder-

garten and grade one before it reduces the class sizes in grades two and three unless the district has a compelling reason to reduce the class sizes in kindergarten through grade 3 concurrently. A district must not increase the class sizes in grades two and three in any school in the district as a result of reducing class sizes in kindergarten and grade one. A district must not increase the district wide class size per teacher in grades four through eight as a result of reducing class sizes in kindergarten through grade three.

A district must develop a districtwide plan to work to achieve or maintain the specified class sizes based upon the recommendations of the district's elementary school councils described in section 10. The plan must be approved by the commissioner of education. If a local district has achieved and is maintaining the specified class sizes, it must use the aid it receives under section 10 to work to improve program offerings throughout the district, or the education district of which the district is a member, based upon a plan developed by the local district's curriculum advisory committee. The amount of aid must be allocated to each school in proportion to the ratio of the school's kindergarten through grade 3 population to the district's kindergarten through grade 3 population.

Sec. 10. [124A.216] [AID AMOUNT.]

Of a district's basic revenue under section 124A.22, subdivision 2, an amount equal to 2.2 percent times the number of actual pupil units must be reserved and may be used only to achieve or maintain class sizes or improve program offerings according to section 9, subdivision 3.

Sec. 11. [124A.217] [SCHOOL DISTRICT PARTICIPATION.]

Subdivision 1. [ESTABLISHMENT OF COUNCIL; PURPOSE.] An elementary school council in each elementary school is created with the following members: (a) the elementary school principal; (b) representatives of teachers of kindergarten through grade three selected by those teachers at the school; (c) other school personnel serving pupils in kindergarten through grade three selected by those personnel at the school; and (d) parents of pupils in kindergarten through grade three attending the school, selected by the parents. A majority of the members of the council must be parents.

The purpose of the council is to (1) develop a written plan enabling the school to work to achieve or maintain the class sizes specified in section 9, subdivision 3, and to make recommendations for implementing the plan to the school board; and (2) participate in implementing the plan, including overseeing school budget items relating to reductions in class size.

The council shall specify the terms and method of replacement of

the council members and council chair. The council is not permitted to receive expenses or per diem payments.

If an existing committee or council meets the criteria of this subdivision, or if an existing committee or council may be modified to meet the criteria of this subdivision, then that committee or council may be used to accomplish the purpose of this section.

Subd. 2. [COUNCIL AND SCHOOL DISTRICT PLANS.] To be eligible to receive aid under section 10, districts must submit to the commissioner of education a districtwide plan to reduce class sizes based upon the recommendations of the district's elementary school councils. Plans must be submitted by a date specified by the commissioner, in the form and manner prescribed by the commissioner, and must include any other information requested by the commissioner. The commissioner must review and approve or disapprove each district's plan within 45 days of receiving the plan. Any action by the commissioner must conform with widely published criteria for evaluating districts' plans; the criteria must include a definition of "work to achieve or maintain." Only approved plans are eligible for aid under section 10. At the request of a school board and the district's elementary school councils, the commissioner shall provide technical assistance to a district implementing an approved plan.

If a local school district has already achieved and is maintaining the class sizes specified in section 9, subdivision 3, the district must develop a plan in cooperation with the local district's curriculum advisory committee to improve program offerings throughout the district, or throughout the education district of which the district is a member. The commissioner must use the same review procedure to approve or disapprove a district's plan to improve program offerings.

Sec. 12. [124A.218] [REPORT]

The commissioner of education shall monitor and evaluate the effectiveness of districts' reduced class sizes and efforts to improve program offerings and shall report to the education committees in the legislature before March 1 of each school year.

Sec. 13. Minnesota Statutes 1988, section 124A.22, subdivision 2, is amended to read:

Subd. 2. [BASIC REVENUE.] The basic revenue for each district equals the formula allowance times the actual pupil units for the school year. The formula allowance is \$2,755 for the 1988-1989 school year. The formula allowance is ~~\$2,800~~ \$2,838 for fiscal year 1990. The formula allowance is \$2,945 for the 1990-1991 school year.

Sec. 14. Minnesota Statutes 1988, section 124A.22, subdivision 4, is amended to read:

Subd. 4. [TRAINING AND EXPERIENCE REVENUE.] The training and experience revenue for each district equals the greater of zero or the result of the following computation:

(a) Subtract 1.6 from the training and experience index.

(b) Multiply the result in clause (a) by the product of \$700 times the actual pupil units for the school year.

The training and experience index for each qualifying education district equals the weighted average of the ratios assigned to the full-time equivalent teachers in each qualifying education district.

Sec. 15. Minnesota Statutes 1988, section 124A.22, subdivision 9, is amended to read:

Subd. 9. [DEFINITIONS FOR SUPPLEMENTAL REVENUE.] (a) The definitions in this subdivision apply only to subdivision 8.

Subd. 3. [FORMULA.] For each school year, the state shall pay to each school district for all pupil transportation and related services for which the district is authorized by law to receive state aid an amount determined according to this section. The department of education shall conduct multiple regression analysis using the terms specified in subdivision 4b for each school year the 1986-1987 and 1987-1988 base years to predict the base cost for each district. ~~Each year~~ The department shall use a formula shall be derived based upon the regression analysis, and shall be used to determine a predicted base cost for each district. The amount determined for each district shall be adjusted according to the provisions of subdivisions 7a and 7b.

Subd. 3a. [PREDICTED BASE COST.] A district's predicted base

cost for the 1988-1989 base year and later years equals the result of the following computation:

(a) Multiply the transportation formula allowance by the district's sparsity index raised to the one-fourth power. The transportation formula allowance is \$406 for the 1988-1989 base year.

(b) Multiply the result in clause (a) by the district's density index raised to the 35/100 power.

(c) Multiply the result in clause (b) by the district's contract transportation index raised to the 1/20 power.

Subd. 4b. [FORMULA TERMS.] (a) To predict the logarithm of the base cost for each district pursuant to subdivision 3 for the 1985-1986 base year, the multiple regression formula shall use the following terms for each district:

(1) the logarithm of the lesser of (a) the number of authorized FTE's per square mile transported by the district in the regular transportation category, or (b) 200;

(2) whether the district is nonrural, based upon criteria established by the department of education; and

(3) the logarithm of the percentage of all FTE's transported in the regular category using buses that are not owned by the district.

(b) To predict the logarithm of the base cost for each district according to subdivision 3 for the 1986-1987 and 1987-1988 base year and thereafter, years the multiple regression formula shall use the following terms for each district:

(1) the logarithm of the lesser of:

(A) 200; or

(B) the quotient obtained by dividing the sum of:

(i) the number of FTE pupils transported in the regular category in the base year, plus

(ii) the number of secondary FTE pupils transported to and from school in the base year who live more than one mile but less than two miles from the public school that they could attend or from the nonpublic school actually attended, plus

(iii) the number of FTE pupils residing less than one mile from school who were transported to and from school in the base year because of extraordinary traffic hazards,

(C) by the area of the district in square miles;

(2) whether the district is nonrural, based upon criteria established by the department of education; and

(3) the logarithm of the percentage of all FTE's transported in the regular category using buses that are not owned by the district.

Subd. 7a. [BASE YEAR SOFTENING FORMULA.] Each district's predicted base cost determined for each school year the 1986-1987 and 1987-1988 base years according to subdivision 3 shall be adjusted as provided in this clause to determine the district's adjusted authorized predicted cost per FTE for that year.

(a) If the base cost of the district is within five percent of the predicted base cost, the district's adjusted authorized predicted cost per FTE shall be equal to the base cost.

(b) If the base cost of the district is more than five percent greater than the predicted base cost, the district's adjusted authorized predicted cost per FTE shall be equal to 105 percent of the predicted base cost, plus 40 percent of the difference between (i) the base cost, and (ii) 105 percent of the predicted base cost. However, in no case shall a district's adjusted authorized predicted cost per FTE be less than 80 percent of base cost.

(c) If the base cost of the district is more than five percent less than the predicted base cost, the district's adjusted authorized predicted cost per FTE shall be equal to 95 percent of the predicted base cost, minus 40 percent of the difference between (i) 95 percent of predicted base cost, and (ii) the base cost. However, in no case shall a district's adjusted authorized predicted cost per FTE be more than 120 percent of base cost.

(d) For the 1988-1989 base year and later years, each district's predicted base cost determined according to subdivision 3a must be adjusted as provided in this subdivision to determine the district's adjusted predicted base cost for that year. The adjusted predicted base cost equals 50 percent of the district's base cost plus 50 percent of the district's predicted base cost, but the adjusted predicted base cost cannot be less than 80 percent, nor more than 110 percent, of the base cost.

Subd. 7b. [INFLATION FACTORS.] The adjusted authorized predicted cost per FTE determined for a district under subdivision 7a for the base year shall be increased by ~~6.0 percent to determine the district's aid entitlement per FTE for the 1986-1987 school year, by 4.9 percent to determine the district's aid entitlement per FTE for the 1987-1988 school year, and by 4.1 percent to determine the district's aid entitlement per FTE for the 1988-1989 school year.~~ and

by 6.4 percent to determine the district's aid entitlement per FTE for the 1989-1990 school year. The adjusted predicted base cost determined for a district under subdivision 7a for the base year must be increased by 6.3 percent to determine the district's regular transportation allowance for the 1990-1991 school year, but the regular transportation allowance for a district cannot be less than the district's minimum regular transportation allowance according to subdivision 1, clause (r).

Subd. 7c. [TRANSPORTATION REVENUE.] Beginning in the 1990-1991 school year, the transportation revenue for each district equals the sum of the district's regular transportation revenue and the district's nonregular transportation revenue.

(a) The regular transportation revenue for each district equals the district's regular transportation allowance according to subdivision 7b times the sum of the number of FTE's transported by the district in the regular and desegregation categories in the current school year.

(b) The nonregular transportation revenue for each district equals the district's actual cost in the current school year for nonregular transportation services, minus the amount of regular transportation revenue attributable to FTE's transported in the desegregation category in the current school year.

Subd. 8a. [TRANSPORTATION AID.] (a) For the 1988-1989 school year and thereafter 1989-1990 school years, a district's transportation aid is equal to the sum of its basic transportation aid under subdivision 8b, its nonregular transportation aid under subdivision 8i, and its nonregular transportation levy equalization aid under subdivision 8j, minus its contracted services aid reduction under subdivision 8k and minus its basic transportation levy limitation for the levy attributable to that school year under section 275.125, subdivision 5.

(b) For 1990-1991 and later school years, a district's transportation aid equals the product of:

(1) the difference between the transportation revenue and the sum of:

(i) the maximum basic transportation levy for that school year under section 275.125, subdivision 5, plus

(ii) the maximum nonregular transportation levy for that school year under section 275.125, subdivision 5c, plus

(iii) the contracted services aid reduction under subdivision 8k,

(2) times the ratio of the sum of the actual amounts levied under section 275.125, subdivisions 5 and 5c, to the sum of the maximum levies under section 275.125, subdivisions 5 and 5c.

(c) If the total appropriation for transportation aid for any fiscal year is insufficient to pay all districts the full amount of aid earned, the department of education shall reduce each district's aid in proportion to the number of resident pupils in average daily membership in the district to the state total average daily membership, and shall reduce the transportation levy of off-formula districts in the same proportion.

Subd. 8b. [BASIC AID COMPUTATION.] A district's basic transportation aid pursuant to this section for each school year the 1988-1989 and 1989-1990 school years shall equal the district's aid entitlement per FTE determined according to subdivision 7b, times the total number of authorized FTE's transported in the regular category in the district in the ~~current~~ school year.

Subd. 8i. [NONREGULAR TRANSPORTATION AID.] (a) A district's nonregular transportation aid shall be determined according to this subdivision.

(b) For the ~~1986-1987 and 1987-1988 school years~~, nonregular transportation aid shall equal (1) 20 percent of the first \$10 of actual cost in the current year for nonregular transportation services per total pupil unit, plus 40 percent of the next \$10 of actual cost in the current year for nonregular transportation services per total pupil unit, plus 60 percent of the actual cost in the current year for nonregular transportation services per total pupil unit which exceeds \$20, times (2) the number of total pupil units in the district in the current year.

(c) For the ~~1988-1989 and 1989-1990 school year and thereafter years~~, nonregular transportation aid equals (1) 60 percent of the actual cost in the current year for nonregular transportation services per total pupil unit which exceeds \$30, times (2) the number of total pupil units in the district in the current year.

Subd. 8j. [NONREGULAR TRANSPORTATION LEVY EQUALIZATION AID.] For the ~~1984-1985 school year and each year thereafter~~ 1988-1989 and 1989-1990 school years, a district's nonregular transportation levy equalization aid shall be determined pursuant to this subdivision.

(c) Nonregular transportation levy equalization aid for a district shall equal the product of (1) its unreimbursed nonregular transportation revenue, minus the nonregular transportation levy limitation for that year, times (2) the ratio of the district's actual nonregular transportation levy to its nonregular transportation levy limitation.

Subd. 8k. [CONTRACTED SERVICES AID REDUCTION.] (a) For the 1984-1985 school year and each year thereafter, each district's transportation aid shall be reduced according to the provisions of this subdivision, if the district contracted for some or all of the transportation services provided in the regular category.

(b) For the 1988-1989 and 1989-1990 school years, the department of education shall compute this subtraction by conducting the multiple regression analysis specified in subdivision 3 and computing the district's aid under two circumstances, once including the coefficient of the factor specified in subdivision 4b, clause (3), and once excluding the coefficient of that factor. The aid subtraction shall equal the difference between the district's aid computed under these two circumstances.

(c) For 1990-1991 and later school years, the department of education shall determine the subtraction by computing the district's regular transportation revenue under two circumstances, once including the factor specified in subdivision 3a, clause (c), and once excluding the factor. The aid subtraction equals the difference between the district's revenue computed under the two circumstances.

(1) the district's total transportation aid without the reduction pursuant to subdivision 8a, plus

(2) the district's basic transportation levy limitation under section 275.125, subdivision 5, plus

(3) the district's contract services aid reduction under subdivision 8k, plus

(4) the district's nonregular transportation levy limitation under section 275.125, subdivision 5e district's transportation revenue.

Sec. 4. Minnesota Statutes 1988, section 275.125, subdivision 5, is amended to read:

The basic transportation tax capacity rate shall be a rate, rounded up to the nearest hundredth of a mill percent, that, when applied to the adjusted gross tax capacity of taxable property for all districts, raises the amount specified in this subdivision. The basic transportation tax capacity rate for transportation for the 1990 fiscal year shall be the rate that raises \$72,681,200. The basic transportation tax capacity rate for the 1991 fiscal year is the rate that raises \$82,063,200. The basic transportation tax capacity rate certified by the commissioner of revenue must not be changed due to changes or corrections made to a district's adjusted gross tax capacity after the tax capacity rate has been certified.

In the year following each next fiscal year, the district's transportation levy shall be reduced by an amount equal to the difference between (1) the amount of the basic transportation levy under subdivision 5, and (2) the sum of the district's transportation aid computation pursuant to section 124.225, subdivisions 8b, 8i, 8j, and 8k, and the amount of any subtraction made from special state aids pursuant to section 124.2138, subdivision 2, less the amount of any aid reduction due to an insufficient appropriation as provided in section 124.225, subdivision 8a.

(b) For 1991 and later fiscal years, in a district if the basic transportation levy under subdivision 5 attributable to that fiscal year is more than the difference between (1) the district's transportation revenue under section 124.225, subdivision 7c, and (2) the sum of the district's maximum nonregular levy under subdivision 5c and the district's contracted services aid reduction under section 124.225, subdivision 8k, the district's transportation levy in the next fiscal year must be reduced by the amount of the excess.

Sec. 6. Minnesota Statutes 1988, section 275.125, subdivision 5c, is amended to read:

Subd. 5c. [NONREGULAR TRANSPORTATION LEVY.] A school district may also make a levy for unreimbursed nonregular transportation costs pursuant to this subdivision. The amount of the levy shall not exceed the product of:

(1) the amount of the district's nonregular transportation revenue under section 124.225, subdivision 7c that is more than the product of \$30 times the district's actual pupil units, by

(2) 60 percent;

(b) subtract the result in clause (a) from the district's total nonregular transportation revenue;

(c) multiply the result in clause (b) by the lesser of one or the ratio of (i) the quotient derived by dividing the adjusted gross tax capacity of the district for the year before the year the levy is certified by the actual pupil units in the district for the school year to which the levy is attributable, to (ii) \$9,722.

Sec. 7. Minnesota Statutes 1988, section 275.125, subdivision 5e, is amended to read:

Subd. 5e. [EXCESS TRANSPORTATION LEVY.] A school district may make a levy for excess transportation costs according to this subdivision. The amount of the levy shall be the result of the following computation:

(a) Multiply the lesser of (1) the regular transportation allowance for the fiscal year to which the levy is attributable, or (2) base cost computed using data for the current school fiscal year according to section 124.225, subdivision 1, paragraph (i) to which the levy is attributable, by the sum of the number of secondary FTE pupils transported to and from school in the current year who live more than one mile but less than two miles from the public school which they could attend or the nonpublic school actually attended, plus the number of FTE pupils residing less than one mile from school who were transported to and from school in the current year due to extraordinary traffic hazards number of weighted FTE pupils transported in the excess category in the district in the current school year.

(b) Add to the result in paragraph (a) the actual cost in the current fiscal year to which the levy is attributable of other related services that are necessary because of extraordinary traffic hazards.

Subd. 3. [RULES OF THE STATE BOARD.] The state board shall promulgate rules relative to qualifications of essential personnel, courses of study, methods of instruction, pupil eligibility, size of classes, rooms, equipment, supervision, parent consultation, and any other rules it deems necessary for instruction of handicapped children. These rules shall provide standards and procedures appropriate for the implementation of and within the limitations of subdivisions 3a and 3b. These rules shall also provide standards for the discipline, control, management and protection of handicapped children. The state board shall not adopt rules for pupils served in level 1, 2, or 3, as defined in Minnesota Rules, part 3525.2340, establishing either case loads or the maximum number of pupils that may be assigned to special education teachers. The state board, in consultation with the departments of health and human services, shall adopt permanent rules for instruction and services for children under age five and their families. ~~Until June 30, 1988, a developmental achievement center under contract to a school district to provide special instruction and services is eligible for variance from rules relating to personnel licensure. Until June 30, 1988, the licensure variance for a developmental achievement center shall be granted according to the same procedures and criteria used for granting a variance to a school district. The state board shall adopt rules to determine eligibility for special education services. The rules shall include procedures and standards by which to grant variances for experimental eligibility criteria.~~ The state board shall, according to section 14.05, subdivision 4, notify a district applying for a variance from the rules within 45 calendar days of receiving the request whether the request for the variance has been granted or denied. If a request is denied, the board shall specify the program standards used to evaluate the request and the reasons for denying the request.

Sec. 2. Minnesota Statutes 1988, section 120.17, subdivision 3b, is amended to read:

Subd. 3b. [PROCEDURES FOR DECISIONS.] Every district shall utilize at least the following procedures for decisions involving identification, assessment, and educational placement of handicapped children:

- (a) Parents and guardians shall receive prior written notice of:

(1) any proposed formal educational assessment or proposed denial of a formal educational assessment of their child;

(2) a proposed placement of their child in, transfer from or to, or denial of placement in a special education program; or

(3) the proposed provision, addition, denial or removal of special education services for their child;

(b) The district shall not proceed with the initial formal assessment of a child, the initial placement of a child in a special education program, or the initial provision of special education services for a child without the prior written consent of the child's parent or guardian. The refusal of a parent or guardian to consent may be overridden by the decision in a hearing held pursuant to clause (d) at the district's initiative;

(c) Parents and guardians shall have an opportunity to meet with appropriate district staff in at least one conciliation conference if they object to any proposal of which they are notified pursuant to clause (a). The conciliation process shall not be used to deny or delay a parent or guardian's right to a due process hearing. If the parent or guardian refuses efforts by the district to conciliate the dispute with the school district, the requirement of an opportunity for conciliation shall be deemed to be satisfied;

(d) Parents, guardians, and the district shall have an opportunity to obtain an impartial due process hearing initiated and conducted in the school district where the child resides responsible for assuring that an appropriate program is provided in accordance with state board rules, if the parent or guardian continues to object to:

(1) a proposed formal educational assessment or proposed denial of a formal educational assessment of their child;

(2) the proposed placement of their child in, or transfer of their child to a special education program;

(3) the proposed denial of placement of their child in a special education program or the transfer of their child from a special education program;

(4) the proposed provision or addition of special education services for their child; or

(5) the proposed denial or removal of special education services for their child.

shall provide the other party with a brief written statement of the objection and the reasons for the objection.

The hearing shall take place before an impartial hearing officer mutually agreed to by the school board and the parent or guardian. If the school board and the parent or guardian are unable to agree on a hearing officer, the school board shall request the commissioner to appoint a hearing officer. The hearing officer shall not be a school board member or employee of the school district where the child resides or of the child's school district of residence, an employee of any other public agency involved in the education or care of the child, or any person with a personal or professional interest which would conflict with the person's objectivity at the hearing. A person who otherwise qualifies as a hearing officer is not an employee of the district solely because the person is paid by the district to serve as a hearing officer. If the hearing officer requests an independent educational assessment of a child, the cost of the assessment shall be at district expense. The proceedings shall be recorded and preserved, at the expense of the school district, pending ultimate disposition of the action.

(e) The decision of the hearing officer pursuant to clause (d) shall be rendered not more than 45 calendar days from the date of the receipt of the request for the hearing. A hearing officer may grant specific extensions of time beyond the 45-day period at the request of either party. The decision of the hearing officer shall be binding on all parties unless appealed to the hearing review officer by the parent, guardian, or the school board of the district where the child resides pursuant to clause (f).

The local decision shall:

- (1) be in writing;
 - (2) state the controlling facts upon which the decision is made in sufficient detail to apprise the parties and the hearing review officer of the basis and reason for the decision;
 - (3) state whether the special education program or special education services appropriate to the child's needs can be reasonably provided within the resources available to the responsible district or districts;
 - (4) state the amount and source of any additional district expenditure necessary to implement the decision; and
 - (5) be based on the standards set forth in subdivision 3a and the rules of the state board.
- (f) Any local decision issued pursuant to clauses (d) and (e) may be

appealed to the hearing review officer within 30 calendar days of receipt of that written decision, by the parent, guardian, or the school board of the district where the child resides responsible for assuring that an appropriate program is provided in accordance with state board rules.

If the decision is appealed, a written transcript of the hearing shall be made by the school district and shall be accessible to the parties involved within five calendar days of the filing of the appeal. The hearing review officer shall issue a final decision based on an impartial review of the local decision and the entire record within 30 calendar days after the filing of the appeal. The hearing review officer shall seek additional evidence if necessary and may afford the parties an opportunity for written or oral argument; provided any hearing held to seek additional evidence shall be an impartial due process hearing but shall be deemed not to be a contested case hearing for purposes of chapter 14. The hearing review officer may grant specific extensions of time beyond the 30-day period at the request of any party.

The final decision shall:

- (1) be in writing;
- (2) include findings and conclusions; and
- (3) be based upon the standards set forth in subdivision 3a and in the rules of the state board.

(g) The decision of the hearing review officer shall be final unless appealed by the parent or guardian or school board to the court of appeals. The judicial review shall be in accordance with chapter 14.

(h) The commissioner of education, having delegated general supervision of special education to the appropriate staff, shall be the hearing review officer except for appeals in which:

- (1) the commissioner has a personal interest in or specific involvement with the student who is a party to the hearing;
- (2) the commissioner has been employed as an administrator by the district that is a party to the hearing;
- (3) the commissioner has been involved in the selection of the administrators of the district that is a party to the hearing;

(4) the commissioner has a personal, economic, or professional interest in the outcome of the hearing other than the proper administration of the federal and state laws, rules, and policies;

(5) the appeal challenges a state or local policy which was developed with substantial involvement of the commissioner; or

(6) the appeal challenges the actions of a department employee or official.

For any appeal to which the above exceptions apply, the state board of education shall name an impartial and competent hearing review officer.

In all appeals, the parent or guardian of the handicapped student or the district that is a party to the hearing may challenge the impartiality or competence of the proposed hearing review officer by applying to the state board of education.

(i) Pending the completion of proceedings pursuant to this subdivision, unless the district and the parent or guardian of the child agree otherwise, the child shall remain in the child's current educational placement and shall not be denied initial admission to school.

(j) The child's school district of residence, ~~if different from the district where the child actually resides,~~ or providing district shall receive notice of and may be a party to any hearings or appeals pursuant to this subdivision.

If the state board recommends that the loan be approved in a reduced amount, the commissioner shall not recommend approval of a loan larger than that recommended by the state board.

These estimates shall assume no growth in gross tax capacity over the term of the loan, shall assume a levy equal to 16 mills a gross tax capacity rate of 13.08 percent times the adjusted gross tax capacity for taxes payable in 1990 or a net tax capacity rate of 16.27 percent for taxes payable in 1991 and thereafter, and shall be prepared using a methodology approved by the commissioner of finance. The commissioner of education shall use a discount factor provided by the commissioner of finance in determining the present value of the estimated amount of interest and principal which may be forgiven after the term of the loan.

(d) No loan shall be recommended for approval for any district exceeding the greater of 50 percent of the total cost of the project or an amount computed as follows:

(1) The amount requested by the district under subdivision 2;

ARTICLE 9
MISCELLANEOUS

Section 1. Minnesota Statutes 1988, section 120.062, subdivision 4, is amended to read:

Subd. 4. [PUPIL APPLICATION PROCEDURES.] In order that a pupil may attend a school or program in a nonresident district, the pupil's parent or guardian must submit an application to the nonresident district. Before submitting an application, the pupil and the pupil's parent or guardian must explore with a school guidance counselor, or other appropriate staff member employed by the district the pupil is currently attending, the pupil's academic or other reason for applying to enroll in a nonresident district. The pupil's application must identify the reason for enrolling in the nonresident district. The parent or guardian of a pupil residing in a district that does not have a desegregation plan approved by the state board of education must submit an application by January 1 for enrollment during the following school year. The parent or guardian of a pupil residing in a district that has a desegregation plan approved by the state board of education may apply to a district at any time. The application shall be on a form provided by the department of education. A particular school or program may be requested by the parent.

Sec. 2. Minnesota Statutes 1988, section 120.062, subdivision 6, is amended to read:

Subd. 6. [NONRESIDENT DISTRICT PROCEDURES.] Within 60 days of receiving an application, A district that does not exclude nonresident pupils, according to subdivision 3, shall notify the parent or guardian ~~and the resident district~~ in writing by February 1 whether the application has been accepted or rejected. If an application is rejected, the district must state in the notification the reason for rejection. The parent or guardian shall notify the nonresident district by February 15 that the pupil will enroll in the nonresident district. Notice of intent to enroll in the nonresident district obligates the pupil to attend the nonresident district during the following school year, unless the superintendents in the resident and the nonresident districts agree in writing to allow the pupil to transfer back to the resident district, or the pupil's parents or guardians change residence to another district. The nonresident district shall notify the resident district by March 1 of the pupil's intent to enroll in the nonresident district. The same procedures apply to a pupil who applies to transfer from one participating nonresident district to another participating nonresident district.

Sec. 3. Minnesota Statutes 1988, section 120.062, is amended by adding a subdivision to read:

Subd. 13. [ATHLETIC PARTICIPATION.] If a pupil enrolls in a nonresident district under this section, the pupil is ineligible to participate in the extracurricular varsity athletic activities of the nonresident district for one school year. During that year of ineligibility in the nonresident district, the pupil remains eligible to participate in the extracurricular varsity athletic activities of the pupil's resident district, or in the extracurricular varsity athletic activities of the nonpublic school the pupil attended before enrolling in a public school under this section. After the year of ineligibility expires, the pupil is eligible to participate in the extracurricular varsity athletic activities of the nonresident district and is no longer eligible to participate in the extracurricular varsity athletic activities of the resident district or nonpublic school. The same restrictions apply to a pupil who transfers from one participating nonresident district to another participating nonresident district.

The superintendents in the resident and nonresident districts may agree in writing to allow a nonresident pupil to participate in the extracurricular varsity athletic activities of the nonresident district during the year of ineligibility if the pupil demonstrates that the distance the pupil must travel between the resident and nonresident district prevents the pupil from participating in the extracurricular varsity athletic activities of the resident district. This subdivision does not apply to pupils who have been enrolled in the nonresident district during the 1988-1989 school year under an alternative enrollment options agreement.

Sec. 4. Minnesota Statutes 1988, section 123.3514, subdivision 2, is amended to read:

Sec. 5. Minnesota Statutes 1988, section 123.3514, subdivision 4, is amended to read:

Subd. 4. [AUTHORIZATION; NOTIFICATION.] Notwithstanding any other law to the contrary, an 11th or 12th grade public school pupil may apply to an eligible institution, as defined in subdivision 3, to enroll in nonsectarian and nonremedial courses offered at that post-secondary institution. If an institution accepts a secondary pupil for enrollment under this section, the institution shall send written notice to the pupil, the pupil's school district, and the commissioner of education within ten days of acceptance. The notice shall indicate the course and hours of enrollment of that pupil. If the pupil enrolls in a course for post-secondary credit, the institution shall notify the pupil about payment in the customary manner used

by the institution. Acceptance for enrollment is not a guarantee of registration into a particular course. The pupil must comply with the institution's standards, prerequisites, and procedures to register for a course.

During the time a pupil is enrolled at a post-secondary institution under this section, the post-secondary institution must periodically inform the pupil, the pupil's parents or guardian, and the pupil's secondary school of the pupil's progress in the courses or programs taken for secondary credit.

Sec. 6. Minnesota Statutes 1988, section 123.3514, subdivision 4c, is amended to read:

Subd. 4c. [LIMIT ON PARTICIPATION.] A pupil who first enrolls in grade 11 may not enroll in post-secondary courses under this section for secondary credit for more than the equivalent of two academic years. A pupil who first enrolls in grade 12 may not enroll in post-secondary courses under this section for secondary credit for more than the equivalent of one academic year. If a pupil in grade 11 or 12 first enrolls in a post-secondary course for secondary credit during the school year, the time of participation shall be reduced proportionately. A pupil who has graduated from high school cannot participate in a program under this section. A pupil who has completed course requirements for graduation but who has not received a diploma may participate in the program under this section.

Sec. 7. Minnesota Statutes 1988, section 123.3514, subdivision 5, is amended to read:

Subd. 5. [CREDITS.] A pupil may enroll in a course under this section for either secondary credit or post-secondary credit. At the time a pupil enrolls in a course, the pupil shall designate whether the course is for secondary or post-secondary credit. A pupil taking several courses may designate some for secondary credit and some for post-secondary credit. A pupil must not audit a course under this section.

A school district shall grant academic credit to a pupil enrolled in a course for secondary credit if the pupil successfully completes the course. Nine quarter or six semester college credits equal at least one full year of high school credit. Fewer college credits may be prorated. A school district shall also grant academic credit to a pupil enrolled in a course for post-secondary credit if secondary credit is requested by a pupil. If no comparable course is offered by the district, the district shall, as soon as possible, notify the state board of education which shall determine the number of credits that shall be granted to a pupil who successfully completes a course. If a comparable course is offered by the district, the school board shall grant a comparable number of credits to the pupil. If there is a

dispute between the district and the pupil regarding the number of credits granted for a particular course, the pupil may appeal the school board's decision to the state board of education. The state board's decision regarding the number of credits shall be final.

The secondary credits granted to a pupil shall be counted toward the graduation requirements and subject area requirements of the school district. Evidence of successful completion of each course and secondary credits granted shall be included in the pupil's secondary school record. A pupil must provide the school with a copy of the pupil's grade in each course taken under this section. Upon the request of a pupil, the pupil's secondary school record shall also include evidence of successful completion and credits granted for a course taken for post-secondary credit. In either case, the record shall indicate that the credits were earned at a post-secondary institution.

If a pupil enrolls in a post-secondary institution after leaving secondary school, the post-secondary institution shall award post-secondary credit for any course successfully completed for secondary credit at that institution. Other post-secondary institutions may award, after a pupil leaves secondary school, post-secondary credit for any courses successfully completed under this section. An institution may not charge a pupil for the award of credit.

Sec. 8. Minnesota Statutes 1988, section 123.3514, subdivision 7, is amended to read:

Subd. 7. [FEES; TEXTBOOKS; MATERIALS.] A post-secondary institution that receives reimbursement for a pupil under subdivision 6 may not charge that pupil for fees, textbooks, materials, or other necessary costs of the course or program in which the pupil is enrolled if the charge would be prohibited under section 120.74, except for equipment purchased by the pupil that becomes the property of the pupil. An institution may require the pupil to pay for fees, textbooks, and materials for a course taken for post-secondary credit.

Sec. 9. Minnesota Statutes 1988, section 123.3514, subdivision 10, is amended to read:

Subd. 10. [LIMIT; STATE OBLIGATION.] The provisions of subdivisions 6, 7, 8, and 9 shall not apply for any post-secondary courses in which a pupil is enrolled in addition to being enrolled full time in that pupil's district or for any post-secondary course in which a pupil is enrolled for post-secondary credit. The pupil is enrolled full time if the pupil attends credit-bearing classes in the high school or high school program for all of the available hours of instruction.

Sec. 10. [126.1995] [SAFETY REQUIREMENT GUIDELINES.]

Subdivision 1. [DEVELOPING AND IMPLEMENTING GUIDELINES.] The department of education, in cooperation with the Minnesota fire marshal's division, shall develop guidelines for school lab safety. The guidelines shall include a list of safety requirements and an explanation of the minimum state and national laws, codes, and standards affecting school lab safety the Minnesota fire marshal considers necessary for schools to implement.

The state department of education shall send the guidelines on school lab safety to district superintendents before September 1, 1989. The district superintendent must ensure that every school lab within the district complies with the school lab safety requirements. Each district superintendent must inform the department by January 1, 1990, of its efforts to comply with the safety requirements. Lack of funding is not an excuse for noncompliance.

Subd. 2. [REPORT TO LEGISLATURE.] The department of education and the state fire marshal shall report to the chairs of the education finance division in the house and senate by February 1, 1990, on district and state compliance with school lab safety requirements.

Sec. 11. Minnesota Statutes 1988, section 126.67, subdivision 8, is amended to read:

Sec. 19. [STAFF EXCHANGE PROGRAM.]

Subdivision 1. [ESTABLISHMENT.] A staff exchange program for the 1989-1990 and 1990-1991 school years is established to allow local school districts to arrange temporary and voluntary exchanges between members of their kindergarten through grade 12 instructional and administrative staffs. The purpose of the program is to provide participants with an understanding of the educational concerns of other local school districts, including concerns of class organization, curriculum development, instructional practices, and characteristics of the student population.

The educational needs and interests of the host school district and the training, experience, and interests of the participants shall determine the assignment of the participants in the host district. Participants may teach courses, provide counseling and tutorial services, work with teachers to better prepare students for future educational experiences, serve an underserved population in the district, or assist with administrative functions. The assignments participants perform for the host district must be comparable to the assignments the participants perform for the district employing the participants. Participation in the exchange program need not be limited to one school or one school district and may involve other education organizations including education districts and ECSUs.

Subd. 2. [PROGRAM REQUIREMENTS.] All staff exchanges made under this section are subject to the requirements in this subdivision.

(a) A school district employing a participating staff member must not adversely affect the staff member's salary, seniority, or other employment benefits, or otherwise penalize the staff member for participating in the program.

(b) Upon completion or termination of an exchange, a school district employing a participating staff member must permit the staff member to return to the same assignment the staff member performed in the district before the exchange.

(c) A school district employing a participating staff member must continue to provide the staff member's salary and other employment benefits during the period of the exchange.

(d) A participant must be licensed and tenured.

(e) Participation in the program must be voluntary.

(f) The length of participation in the program must be no less than one-half of a school year and no more than one school year, and any premature termination of participation must be upon the mutual agreement of the participant and the participating school districts.

(g) A participant is responsible for transportation to and from the host school district.

This subdivision does not abrogate or change rights of staff members participating in the staff exchange program or the terms of an agreement between the exclusive representative of the school district employees and the school district. Participating school districts may enter into supplementary agreements with the exclusive representative of the school district employees to accomplish the purpose of this section.

Subd. 3. [APPLICATION PROCEDURES.] The school board of a school district must decide by resolution to participate in the staff exchange program. A staff member wishing to participate in the exchange program must submit an application to the school district employing the staff member. The district must, in a timely and appropriate manner, provide to the exclusive bargaining representatives of teachers in the state the number and names of prospective participants within the district, the assignments available within the district, and the length of time for each exchange. The exclusive bargaining representatives are requested to cooperatively participate in the coordination of exchanges to facilitate exchanges across all geographical regions of the state. Prospective participants must contact teachers and districts with whom they are interested in making an exchange. The prospective participants must make all arrangements to accomplish their exchange and the superintendents of the participating districts must approve of the arrangements for the exchange in writing.

Subd. 4. [REPORT.] By January 1, 1991, the school districts participating in the staff exchange program shall report to the commissioner of education on the number and location of staff members participating in the exchange, the assignments of the participants, and other matters of interest, including the advisability of continuing the exchange. The commissioner shall compile the information provided by the districts and present the compiled information to the education committees of the legislature by February 1, 1991.

Sec. 20. [REPORT.]

The commissioner of education shall provide an interim report to the education committees of the legislature by February 1, 1990, describing the experiences of parents, pupils, and school districts with the enrollment options program. The commissioner shall provide a final report to the committees by February 1, 1991, evaluating experiences of parents, pupils, and school districts with the program.

Subdivision 1. An establishment grant as described in section 134.32, subdivision 2, shall be made to any regional public library system for the first two state fiscal years after a board of county commissioners has contracted to join that system and has agreed that the county will provide the levels of support for public library service specified in this section. In the first year of participation 1990, the county shall provide an amount of support equivalent to ~~3~~ mill times 0.25 percent of the adjusted gross tax capacity of the taxable property of the county as determined by the commissioner of revenue for the second year preceding that calendar year or two-thirds of the per capita amount established under the provisions of section 134.34, subdivision 1, whichever amount is less. In the second year of participation 1991 and in each year thereafter, the county shall provide an amount of support equivalent to ~~4~~ mill times 0.41 percent of the adjusted gross net tax capacity of the taxable property of the county as determined by the commissioner of revenue for the second year preceding that calendar year or the per capita amount established under the provisions of section 134.34, subdivision 1, whichever is less. The minimum level of support shall be certified annually to the county by the department of education. In no event shall the department of education require any county to provide a higher level of support than the level of support specified in this section in order for a system to qualify for an establishment grant. This section shall not be construed to prohibit any county from providing a higher level of support for public libraries than the level of support specified in this section.

Sec. 2. Minnesota Statutes 1988, section 134.34, subdivision 1, is amended to read:

Subdivision 1. [LOCAL SUPPORT LEVELS.] A regional library basic system support grant shall be made to any regional public library system where there are at least three participating counties and where each participating city and county, except in the first year of participation as provided in section 134.33, is providing for public library service support the lesser of (a) an amount equivalent to ~~.4 mill times~~ 0.33 percent of the adjusted gross tax capacity of the taxable property of that city or county, as determined by the commissioner of revenue for the second year preceding that calendar year in 1990 and an amount equivalent to .41 percent of the net tax capacity of the taxable property of that city or county, as determined by the commissioner of revenue for the second year preceding that calendar year in 1991 and later years or (b) a per capita amount calculated under the provisions of this subdivision. The per capita amount is established for calendar year ~~1980~~ 1990 as \$3 ~~3.62~~. In succeeding calendar years, the per capita amount shall be increased by a percentage equal to one-half of the percentage by which the total state adjusted gross net tax capacity of property as determined by the commissioner of revenue for the second year preceding that calendar year increases over that total adjusted gross net tax capacity for the third year preceding that calendar year. The minimum level of support shall be certified annually to the participating cities and counties by the department of education. A city which is a part of a regional public library system shall not be required to provide this level of support if the property of that city is already taxable by the county for the support of that regional public library system. In no event shall the department of education require any city or county to provide a higher level of support than the level of support specified in this section in order for a system to qualify for a regional library basic system support grant. This section shall not be construed to prohibit a city or county from providing a higher level of support for public libraries than the level of support specified in this section.

Sec. 3. Minnesota Statutes 1988, section 134.34, subdivision 2, is amended to read:

Subd. 2. [REQUIRED INCREASES; LIMIT.] Notwithstanding the provisions of section 134.33 and subdivision 1 of this section, after the second year of participation by a city or county, the dollar amount of the minimum level of support for that city or county shall not be required to increase by more than ten percent over the dollar amount of the minimum level of support required of it in the previous year. ~~If a participating city or county which has been providing for public library service support in an amount equivalent to .67 mill times the gross tax capacity of the taxable property of that city or county for the year preceding that calendar year would be required to increase the dollar amount of such support by more~~

than ten percent to reach the equivalent of .4 mill times the adjusted gross tax capacity of the taxable property of that participating city or county as determined by the commissioner of revenue for the second year preceding that calendar year or the per capita amount calculated under the provisions of subdivision 1, it shall only be required to increase the dollar amount of such support by ten percent per year until such time as it reaches an amount equivalent to .4 mill times the adjusted gross tax capacity of that taxable property as determined by the commissioner of revenue for the second year preceding that calendar year or the per capita amount calculated under the provisions of subdivision 1.

Sec. 4. Minnesota Statutes 1988, section 134.34, subdivision 3, is amended to read:

Subd. 4. [MAINTENANCE OF EFFORT.] A regional library basic system support grant shall not be made to a regional public library system for a participating city or county which decreases the dollar amount provided for support for operating purposes of public library service below the amount provided by it for the preceding year. This subdivision shall not apply to participating cities or counties where the adjusted gross or net tax capacity of that city or county has decreased, if the dollar amount of the reduction in support is not greater than the dollar amount by which support would be decreased if the reduction in support were made in direct proportion to the decrease in adjusted gross or net tax capacity.

Sec. 6. Minnesota Statutes 1988, section 134.35, subdivision 5, is amended to read:

Subd. 5. [SEVENTEEN AND ONE-HALF PERCENT.] Seventeen and one-half percent of the available grant funds shall be distributed to regional public library systems which contain counties whose adjusted gross or net tax capacity per capita were below the state average adjusted gross or net tax capacity per capita for the second year preceding the fiscal year for which the grant is made. Each system's entitlement shall be calculated as follows:

(a) subtract the adjusted gross or net tax capacity per capita for each eligible county or participating portion of a county from the statewide average adjusted gross or net tax capacity per capita;

(b) multiply the difference obtained in clause (a) for each eligible county or participating portion of a county by the population of that eligible county or participating portion of a county;

(c) for each regional public library system, determine the sum of the results of the computation in clause (b) for all eligible counties or portions thereof in that system;

(d) determine the sum of the result of the computation in clause (b) for all eligible counties or portions thereof in all regional public library systems in the state;

(e) for each system, divide the result of the computation in clause (c) by the result of the computation in clause (d) to obtain the allocation factor for that system;

(f) multiply the allocation factor for each system as determined in clause (e) times the amount of the remaining grant funds to determine each system's dollar allocation pursuant to this subdivision.

Sec. 3. Minnesota Statutes 1988, section 124.82, subdivision 3, is amended to read:

Subd. 3. [FACILITIES DOWN PAYMENT LEVY REFERENDUM.] A district may levy the tax capacity rate approved by a majority of the electors voting on the question to provide funds for a down payment for an approved project. The election must take place no more than five years before the estimated date of commencement of the project. The referendum must be held on a date set by the school board. A referendum for a project not receiving a positive review and comment by the commissioner under section 121.15 must be approved by at least 60 percent of the voters at the election. The referendum may be called by the school board and may be held:

(1) separately, before an election for the issuance of obligations for the project under chapter 475; or

(2) in conjunction with an election for the issuance of obligations for the project under chapter 475; or

(3) notwithstanding section 475.59, as a conjunctive question authorizing both the down payment levy and the issuance of obligations for the project under chapter 475. Any obligations authorized for a project may be issued within five years of the date of the election.

The ballot must provide a general description of the proposed project, state the estimated total cost of the project, state whether the project has received a positive or negative review and comment from the commissioner of education, state the maximum amount of the down payment levy in mills as a percentage of net tax capacity, state the amount that will be raised by that tax capacity rate in the first year it is to be levied, and state the maximum number of years that the levy authorization will apply.

The ballot must contain a textual portion with the information required in this section and a question stating substantially the following:

"Shall the down payment levy proposed by the board of School District No. be approved?"

If approved, the amount provided by the approved tax capacity rate applied to each year's gross the net tax capacity for the year preceding the year the levy is certified may be certified for the number of years approved.

In the event a conjunctive question proposes to authorize both the down payment levy and the issuance of obligations for the project, appropriate language authorizing the issuance of obligations must also be included in the question.

The district must notify the commissioner of education of the results of the referendum.

Sec. 4. Minnesota Statutes 1988, section 273.1102, subdivision 3, is amended to read:

Subd. 3. [1988 ADJUSTMENT.] ~~For~~ School districts district levy limitations or authorities expressed in terms of mills and adjusted assessed value, ~~their levy limitations in any special law that is not codified in Minnesota Statutes shall be converted by the department of education to "equalized gross tax capacity rates."~~ for taxes payable in 1989 and 1990 and equalized net tax capacity rates for taxes payable in 1991 and thereafter. For purposes of this calculation, the 1987 adjusted assessed values of the district shall be converted to "adjusted gross tax capacities" by multiplying the equalized market values by class of property by the gross tax capacity rates provided in section 273.13. Each county assessor and the city assessors of Minneapolis, Duluth, and St. Cloud shall furnish the commissioner of revenue the 1987 market value for taxes payable in 1988 for any new classes of property established in this article. The commissioner shall use those values, and estimate values where needed, in developing the 1987 tax capacity for each school district under this section. The requirements of section 124.2131, subdivisions 1, paragraph (c), and 2 and 3, shall remain in effect.

Sec. 5. Minnesota Statutes 1988, section 275.011, subdivision 1, is amended to read:

Subdivision 1. The property tax levied for any purpose under a special law that is not codified in Minnesota Statutes or a city charter provision and that is subject to a mill rate limitation imposed by statute or the special law, excluding levies subject to mill rate limitations that use adjusted assessed values determined by the commissioner of revenue under section 124.2131, must not exceed the following amount for the years specified:

(a) for taxes payable in 1988, the product of the applicable mill rate limitation imposed by statute or special law multiplied by the total assessed valuation of all taxable property subject to the tax as

adjusted by the provisions of Minnesota Statutes 1986, sections 272.64; 273.13, subdivision 7a; and 275.49;

(b) for taxes payable in 1989, the product of (1) the property tax levy limitation for the taxes payable year 1988 determined under clause (a) multiplied by (2) an index for market valuation changes equal to the assessment year 1988 total market valuation of all taxable property subject to the tax divided by the assessment year 1987 total market valuation of all taxable property subject to the tax; and

(c) for taxes payable in 1990 and subsequent years, the product of (1) the property tax levy limitation for the previous year determined pursuant to this subdivision multiplied by (2) an index for market valuation changes equal to the total market valuation of all taxable property subject to the tax for the current assessment year divided by the total market valuation of all taxable property subject to the tax for the previous assessment year.

For the purpose of determining the property tax levy limitation for the taxes payable year 1988 and subsequent years under this subdivision, "total market valuation" means the total market valuation of all taxable property subject to the tax without valuation adjustments for fiscal disparities (chapter 473F), tax increment financing (sections 469.174 to 469.179), and high voltage transmission lines (section 273.425).

Sec. 6. Minnesota Statutes 1988, section 275.125, subdivision 6e, is amended to read:

Subd. 6e. [DESEGREGATION LEVY.] Each year, school district No. 625, St. Paul, may levy an amount not to exceed one mill a gross tax capacity rate of .8 percent times the adjusted gross tax capacity of the district for taxes payable in 1990 or a net tax capacity rate of 1.02 percent times the adjusted net tax capacity of the district for taxes payable in 1991 and thereafter. Notwithstanding section 121.904, the entire amount of this levy shall be recognized as revenue for the fiscal year in which the levy is certified. This levy shall not be considered in computing the aid reduction under section 124.155.

Sec. 7. Minnesota Statutes 1988, section 275.125, subdivision 6h, is amended to read:

Subd. 6h. [MINNEAPOLIS HEALTH INSURANCE SUBSIDY LEVY.] Each year special school district No. 1, Minneapolis, may make an additional levy not to exceed the amount raised by 1 mill a gross tax capacity rate of .08 percent times the adjusted gross tax capacity for taxes payable in 1990 or a net tax capacity rate of .11 percent times the adjusted net tax capacity for taxes payable in 1991 and thereafter of the property in the district for the preceding year.

In addition, in 1987 the district may levy an amount not to exceed the amount raised by .1 mill times the adjusted gross tax capacity of the property in the district for the preceding year for health insurance subsidies for fiscal year 1988. The proceeds may be used only to subsidize health insurance costs for eligible teachers as provided in this section.

"Eligible teacher" means a retired teacher who was a basic member of the Minneapolis teachers retirement fund association, who retired before May 1, 1974, and who is not eligible to receive the hospital insurance benefits of the federal Medicare program of the Social Security Act without payment of a monthly premium. The district shall notify eligible teachers that a subsidy is available. An eligible teacher may submit to the school district a copy of receipts for health insurance premiums paid during the previous 12-month period. The school district shall disburse the health insurance premium subsidy to each eligible teacher in a timely and efficient manner. An eligible teacher may receive a subsidy up to an amount equal to the lesser of 90 percent of the cost of the eligible teacher's health insurance or up to 90 percent of the cost of the number two qualified plan of health coverage for individual policies made available by the Minnesota comprehensive health association under chapter 62E.

If funds remaining from the previous year's health insurance subsidy levy, minus the previous year's required subsidy amount, are sufficient to pay the estimated current year subsidy, the levy must be discontinued until the remaining funds are estimated by the school board to be insufficient to pay the subsidy.

Sec. 8. Minnesota Statutes, 1988, section 275.125, subdivision 6i, is amended to read:

Independent school district No. 625, St. Paul, may levy according to this subdivision and subdivision 6e. Notwithstanding section 121.904, the entire amount of this levy shall be recognized as revenue for the fiscal year in which the levy is certified. This levy shall not be considered in computing the aid reduction under section 124.155.

Sec. 9. Minnesota Statutes 1988, section 275.125, subdivision 9, is amended to read:

Subd. 9. [LEVY REDUCTIONS; TACONITE.] (1) Reductions in

levies pursuant to subdivision 10, and section 273.138, shall be made prior to the reductions in clause (2).

(2) Notwithstanding any other law to the contrary, districts which received payments pursuant to sections 298.018; 298.23 to 298.28, except an amount distributed under section 298.28, subdivision 4, paragraph (c), clause (ii); 298.34 to 298.39; 298.391 to 298.396; 298.405; and any law imposing a tax upon severed mineral values, or recognized revenue pursuant to section 477A.15; shall not include a portion of these aids in their permissible levies pursuant to those sections, but instead shall reduce the permissible levies authorized by this section and chapters 124 and 124A by the greater of the following:

(a) an amount equal to 50 percent of the total dollar amount of the payments received pursuant to those sections or revenue recognized pursuant to section 477A.15 in the previous fiscal year; or

(b) an amount equal to the total dollar amount of the payments received pursuant to those sections or revenue recognized pursuant to section 477A.15 in the previous fiscal year less the product of the same dollar amount of the payments or revenue times the ratio of the maximum levy allowed the district under Minnesota Statutes 1986, sections 124A.03, subdivision 2, 124A.06, subdivision 3a, 124A.08, subdivision 3a, 124A.10, subdivision 3a, 124A.12, subdivision 3a, and 124A.14, subdivision 5a, to the total levy allowed the district under this section and Minnesota Statutes 1986, sections 124A.03, 124A.06, subdivision 3a, 124A.08, subdivision 3a, 124A.10, subdivision 3a, 124A.12, subdivision 3a, 124A.14, subdivision 5a, and 124A.20, subdivision 2, for levies certified in 1986.

(3) No reduction pursuant to this subdivision shall reduce the levy made by the district pursuant to section 124A.23, to an amount less than the amount raised by a levy of 12.5 mills a gross tax capacity rate of 10.22 percent times the adjusted gross tax capacity for taxes payable in 1990 or a net tax capacity rate of 12.71 percent times the adjusted net tax capacity for taxes payable in 1991 and thereafter of that district for the preceding year as determined by the commissioner. The amount of any increased levy authorized by referendum pursuant to section 124A.03, subdivision 2, shall not be reduced pursuant to this subdivision. The amount of any levy authorized by subdivision 4, to make payments for bonds issued and for interest thereon, shall not be reduced pursuant to this subdivision.

(4) Before computing the reduction pursuant to this subdivision of the capital expenditure levy authorized by section 124.244, subdivision 2, and subdivisions 11c, 12, and 12a, and the community education levy authorized by subdivisions 8 and 8b, the commissioner shall ascertain from each affected school district the amount it proposes to levy for capital expenditures pursuant to section 124.244, subdivision 2, and subdivisions 11c, 12, and 12a, and for

community education pursuant to subdivisions 8 and 8b. The reduction of the capital expenditure levy and the community education levy shall be computed on the basis of the amount so ascertained.

(5) Notwithstanding any law to the contrary, any amounts received by districts in any fiscal year pursuant to sections 298.018; 298.23 to 298.28; 298.34 to 298.39; 298.391 to 298.396; 298.405; or any law imposing a tax on severed mineral values; and not deducted from general education aid pursuant to section 124A.035, subdivision 5, clause (2), and not applied to reduce levies pursuant to this subdivision shall be paid by the district to the St. Louis county auditor in the following amount by March 15 of each year, the amount required to be subtracted from the previous fiscal year's general education aid pursuant to section 124A.035, subdivision 5, which is in excess of the general education aid earned for that fiscal year. The county auditor shall deposit any amounts received pursuant to this clause in the St. Louis county treasury for purposes of paying the taconite homestead credit as provided in section 273.135.

Sec. 10. Minnesota Statutes 1988, section 275.125, subdivision 9a, is amended to read:

Subd. 9a. [STATUTORY OPERATING DEBT LEVY.] (1) In 1978 and each year thereafter in which so required by this subdivision, a district shall make an additional levy to eliminate its statutory operating debt, determined as of June 30, 1977 and certified and adjusted by the commissioner. This levy shall not be made in more than 20 successive years and each year before it is made, it must be approved by the commissioner and the approval shall specify its amount. This levy shall in each year be an amount which is equal to the amount raised by a levy of ~~1.5 mills~~ a gross tax capacity rate of 1.2 percent times the adjusted gross tax capacity of the district for the preceding year for taxes payable in 1990 or a net tax capacity rate of 1.53 percent times the adjusted net tax capacity of the district for the preceding year for taxes payable in 1991 and thereafter; provided that in the last year in which the district is required to make this levy, it shall levy an amount not to exceed the amount raised by a levy of ~~1.5 mills~~ a gross tax capacity rate of 1.2 percent times the adjusted gross tax capacity of the district for the preceding year for taxes payable in 1990 or a net tax capacity rate of 1.53 percent times the adjusted net tax capacity of the district for the preceding year for taxes payable in 1991 and thereafter. When the sum of the cumulative levies made pursuant to this subdivision and transfers made according to section 121.912, subdivision 4 equals an amount equal to the statutory operating debt of the district, the levy shall be discontinued.

(2) The district shall establish a special account in the general fund which shall be designated "appropriated fund balance reserve account for purposes of reducing statutory operating debt" on its

books and records. This account shall reflect the levy authorized pursuant to this subdivision. The proceeds of this levy shall be used only for cash flow requirements and shall not be used to supplement district revenues or income for the purposes of increasing the district's expenditures or budgets.

(3) Any district which is required to levy pursuant to this subdivision shall certify the maximum levy allowable under section 124A.23, subdivision 2 in that same year.

This levy may in each year be an amount not to exceed the amount raised by a levy of 1.5 mills a gross tax capacity rate of 1.2 percent times the adjusted gross tax capacity for taxes payable in 1990 or a net tax capacity rate of 1.53 percent times the adjusted net tax capacity for taxes payable in 1991 and thereafter of the district for the preceding year as determined by the commissioner. However, the total amount of this levy for all years it is made shall not exceed the lesser of (a) the amount of the deficit in the net unappropriated operating funds of the district as of June 30, 1983, or (b) the amount of the aid reduction, according to Laws 1981, Third Special Session chapter 2, article 2, section 2, but excluding clauses (l), (m), (n), (o), and (p), and Laws 1982, Third Special Session chapter 1, article 3, section 6, to the district in fiscal year 1983. When the cumulative levies made pursuant to this subdivision equal the total amount permitted by this subdivision, the levy shall be discontinued.

(2) The proceeds of this levy shall be used only for cash flow requirements and shall not be used to supplement district revenues or income for the purposes of increasing the district's expenditures or budgets.

(3) Any district that levies pursuant to this subdivision shall certify the maximum levy allowable under section 124A.23, subdivisions 2 and 2a, in that same year.

Sec. 12. Minnesota Statutes 1988, section 275.125, subdivision 9c, is amended to read:

When the cumulative levies made pursuant to this subdivision equal the total amount permitted by this subdivision, the levy shall be discontinued.

(2) A district, if eligible, may levy under this subdivision or subdivision 9b but not both.

(3) The proceeds of this levy shall be used only for cash flow requirements and shall not be used to supplement district revenues or income for the purposes of increasing the district's expenditures or budgets.

(d) The district may levy an amount equal to the local share of the cost of construction for post-secondary vocational purposes, minus the amount of any unappropriated net balance in the district's post-secondary vocational technical building construction fund. A

district may levy the total amount authorized by this subdivision in one year, or a proportionate amount of the total authorized amount each year for up to three successive years.

(e) By the July 1 before a district certifies the first levy pursuant to this subdivision for the local share of any construction project, at least three weeks published notice of the proposed levy shall be given in the legal newspaper with the largest circulation in the district. Upon petition within 20 days after the notice of the greater of (a) 50 voters, or (b) 15 percent of the number of voters who voted in the district at the most recent regular school board election, the board shall call a referendum on the proposed levy. The referendum shall be held on a date set by the school board, but no later than the August 20 before the levy is certified. The amount of such severance pay allowable or to become payable in respect of any such employment or to any such employee shall not exceed the amount permitted by Minnesota Statutes, Section 465.72.

This levy shall in each year be an amount which is equal to the amount raised by a levy of 1.5 mills a gross tax capacity rate of 1.23 percent times the adjusted assessed valuation gross tax capacity for taxes payable in 1990 or a net tax capacity rate of 1.53 percent times the adjusted net tax capacity for taxes payable in 1991 and thereafter of the district for the preceding year as determined by the equalization aid review committee, less any amount necessary for the payment of principal and interest on bonds sold pursuant to section 1. When the cumulative receipts from the levies made pursuant to this section and the earnings in the reserve account established under section 5 equal an amount equal to the statutory operating debt, the levy shall be discontinued.

Sec. 16. Laws 1988, chapter 719, article 5, section 84, is amended to read:

Sec. 84. [INSTRUCTION TO REVISOR.]

The revisor of statutes shall change the words "mill rate" wherever they appear in Minnesota Statutes to "tax capacity rate" in Minnesota Statutes 1988 and subsequent editions of the statutes except section 275.011.

Sec. 17. [CONVERSION OF EXISTING REFERENDUM LEVIES.]

The department of education shall convert the referendum levy

authority existing under Minnesota Statutes, section 124A.03, for 1988 taxes payable in 1989, for future years, as follows:

The tax capacity rate equals the rate determined by dividing the district's maximum levy under Minnesota Statutes, section 124A.03, for 1988 taxes payable in 1989 by the district's 1987 net tax capacity. A district's maximum levy for all subsequent years for which the levy is authorized equals the amount provided by the tax capacity rate applied to the net tax capacity for the year preceding the year the levy is certified.

However, if a district's levy is limited to a dollar amount, the maximum levy under Minnesota Statutes, section 124A.03, must not exceed the dollar amount.

Sec. 18. [ADDITIONAL CONVERSION PROCEDURES.]

For a referendum levy authorized after December 1, 1988, and before the effective date of article 1, section 5, and section 16 of this article, the department of education shall convert the approved levy amount to the appropriate net tax capacity rate. Levy amounts approved prior to the effective date of this act are validated.
