S. F. No. 2358: A bill for an act relating to transportation; establishing the Minnesota state transportation fund for the appropriation of money to subdivisions of the state for public lands, buildings, and capital improvements needed for public transportation; authorizing the issuance of state bonds for the purposes of the trunk highway fund and the transportation fund; and appropriating money in connection therewith.

Reports the same back with the recommendation that the bill be amended as follows:

Strike everything after the enacting clause and insert in lieu thereof:

"Section 1. [PURPOSE.] It is determined that there is a critical need to preserve and improve transportation facilities throughout the state which cannot be met by local effort without state financial assistance. The rate of completion of the interstate portion and upgrading of the remainder of the state's highway system has fallen behind the rate of traffic growth, resulting in serious traffic hazards and delays that affect the personal safety, quality of life, and economic welfare of citizens. The highway traffic problem is accentuated by the deficiency in the quality and quantity of public transportation available in urban areas, large and small. This deficiency is itself largely caused by the inability of public transportation to compete economically with private automobiles, without financial support comparable to that given highway construction. Its most serious effect is to limit severely the life and

liberty of many persons who because of age, physical or mental characteristics, or economic circumstances are unable to use automobiles. For many more it compels the use of automobiles, often more than one per family, for daily attendance at work and school and for transportation in emergencies, notwithstanding cost that may reduce remaining living resources below poverty levels, and notwithstanding unacceptable safety hazards often resulting from physical handicaps or inexperience. And for many high cost makes it impossible to acquire and maintain vehicles that can operate at acceptable safety and pollution control levels, thus aggravating the traffic and pollution hazards created by sheer numbers of vehicles. Capital and maintenance cost of the principal arterial highways of this state cannot be adequately met from existing sources of funds. Similar costs of adequate public transportation in urban areas cannot be met by user fees without subsidy, or even with subsidy to the extent this is possible from property taxes or other resources available to local units of government. It is determined that state financial assistance in meeting the capital cost of public transportation in urban areas and constructing and reconstructing the state's principal arterial highways is a proper function of state government and is necessary to protect the safety and the personal and economic welfare of the citizens of the state at large.

Sec. 2. [PRINCIPAL ARTERIAL HIGHWAY BOND AUTHORIZATION AND APPROPRIATION.] Subdivision 1. The state auditor is authorized and directed, upon request of the commissioner of transportation, to issue and sell Minnesota state transportation bonds in accordance with the provisions of section 4 of this act and Article IX, Section 6 of the Constitution, in an aggregate principal amount not to exceed \$120,000,000, which sum, or so much thereof as shall be required, is appropriated from the proceeds of such bonds to the commissioner of transportation for grants to counties and municipalities for use in constructing and reconstructing the principal arterial highways of this state. This appropriation shall not lapse or cancel until the purpose for which it is made has been accomplished or abandoned. The amount of each grant approved for disbursement shall be and remain appropriated for that purpose until the grant is fully disbursed or part or all thereof is revoked by the department of transportation.

Subd. 2. The department of transportation shall promulgate regulations, standards, and priorities for the administration of grants authorized in accordance with subdivision 1.

Subd. 3. Applications by counties and municipalities for grants for the funds provided for by subdivision 1 shall be made through regional planning agencies to the department of transportation on forms requiring information prescribed by the regulations of the department of transportation. The regional agency shall certify to the department of transportation those applications which appear to meet the standards and criteria set forth by the department of transportation and the regulations prom-

ulgated hereunder, and the department of transportation shall direct grants to be disbursed on the basis of the standards, criteria and priorities established in its regulations and in this section; provided that no disbursement shall be made until and unless the agency has by resolution determined the total estimated cost of the project, and ascertained that its financing is assured by the appropriation of the proceeds of bonds or other funds of the counties and municipalities sufficient to pay the estimated cost in excess of the grant, including funds to be granted to it by the federal government if the department ascertains that such funds are then appropriated and allocated by the federal government to projects within the state and that the projects have complied with all conditions under federal law and regulations for a grant of the nature and in the amount involved.

Sec. 3. [PRINCIPAL ARTERIAL BONDS.] Subdivision 1. For the purpose of providing money appropriated to the counties and municipalities of the state from the principal arterial highway funds authorized by section 2 for constructing and reconstructing the state's principal arterial highways, in accordance with section 2, when authorized by law and requested by the commissioner of transportation, the state auditor shall sell and issue bonds of the state of Minnesota for the prompt and full payment of which, with interest thereon, the full faith, credit, and taxing powers of the state are irrevocably pledged. Bonds shall be issued pursuant to this section only as authorized by a law specifying the purpose thereof and the maximum amount of the proceeds authorized to be expended for this purpose. Any act authorizing the issuance of bonds for this purpose, together with this section, constitutes complete authority for such issue, and such bonds shall not be subject to restrictions or limitations contained in any other law.

Subd. 2. Upon request and authorization as provided in subdivision 1 the state auditor shall sell and issue Minnesota state principal arterial bonds in the aggregate amount requested, upon sealed bids and upon such notice, at such price, in such form and denominations, bearing interest at such rate or rates, maturing in such amounts and on such dates, without option of prepayment or subject to prepayment upon such notice and at such times and prices, payable at such bank or banks within or outside the state, with such provisions for registration, conversion, and exchange and for the issuance of notes in anticipation of the sale or delivery of definitive bonds, and in accordance with such further regulations as the auditor shall determine, subject to the approval of the attorney general, but not subject to the provisions of sections 15.0411 to 15.0422. The bonds shall be executed by the state auditor and attested by the state treasurer under their official seals. The signatures of the officers on the bonds and any appurtenant interest coupons and their seals may be printed, lithographed, engraved, or stamped thereon, except that each bond shall be authenticated by the manual signature on its face of one of the officers or of an officer of a bank designated by them as authenticating agent.

The state auditor shall ascertain and certify to the purchasers of the bonds the performance and existence of all acts, conditions, and things necessary to make them valid and binding general obligations of the state of Minnesota, subject to the approval of the attorney general.

Subd. 3. All expenses incidental to the sale, printing, execution, and delivery of bonds pursuant to this section, including but not limited to actual and necessary travel and subsistence expenses of state officers and employees for such purposes, shall be paid from the state principal arterial funds, and the amounts necessary therefor are appropriated from that fund; provided that if any amount is specifically appropriated for this purpose in an act authorizing the issuance of bonds pursuant to this section, such expenses shall be limited to the amount so appropriated.

Subd. 4. The state auditor shall maintain in the state bond fund a separate bookkeeping account which shall be designated as the state principal arterial bond account, to record receipts and disbursements of money transferred to the fund to pay Minnesota state principal arterial bonds and income from the investment of such money, which income shall be credited to the account in each fiscal year in an amount equal to the approximate average return that year on all funds invested by the state treasurer, as determined by the treasurer, times the average balance in the account that year.

Subd. 5. The premium and accrued interest received on each issue of Minnesota state principal arterial bonds shall be credited to the bond account. In order to reduce the amount of taxes otherwise required to be levied, there shall also be credited to the bond account from the general fund in the state treasury, on November 1 in each year, a sum of money sufficient in amount, when added to the balance then on hand therein, to pay all Minnesota state principal arterial bonds and interest thereon due and to become due to and including July 1 in the second ensuing year. All money so credited and all income from the investment thereof is annually appropriated to the bond account for the payment of such bonds and interest thereon, and shall be available in the bond account prior to the levy of the tax in any year required by the Constitution, Article IX, Section 6, Subdivision 4. The state auditor and treasurer are directed to make the appropriate entries in the accounts of the respective funds.

Subd. 6. On or before December 1 in each year the state auditor shall levy on all taxable property within the state whatever tax may be necessary to produce an amount sufficient, with all money then and theretofore credited to the bond account, to pay the entire amount of principal and interest then and theretofore due and principal and interest to become due on or before July 1 in the second year thereafter on Minnesota state principal arterial bonds. This tax shall be levied upon all real property used for the purposes of a homestead, as well as other taxable property, notwithstanding the provisions of section 273.13, subdivisions 6 and 7, and shall be subject to no limitation of rate or amount until all

such bonds and interest thereon are fully paid. The proceeds of this tax are appropriated and shall be credited to the state bond fund, and the principal of and interest on the bonds are payable from such proceeds, and the whole thereof, or so much as may be necessary, is appropriated for such payments. If at any time there is insufficient money from the proceeds of such taxes to pay the principal and interest when due on Minnesota state principal arterial bonds, such principal and interest shall be paid out of the general fund in the state treasury, and the amount necessary therefor is hereby appropriated.

Sec. 4. [MINNESOTA STATE TRANSPORTATION FUND.]

Subdivision 1. A Minnesota state transportation fund is created as a separate bookkeeping account in the general books of account of the state, to record receipts of the proceeds of state bonds and any other money appropriated to the fund and disbursements from the fund to subdivisions of the state for the acquisition and betterment of public land and buildings and other public improvements of a capital nature needed to provide adequate public transportation in urban areas, in accordance with the long-range state policies and purposes defined in subdivision 2, and in accordance with standards established in regulations to be adopted by the department of transportation pursuant to law, and to be prepared in consultation with the regional development commissions and the metropolitan council established under the provisions of Minnesota Statutes, Sections 462.381 to 462.396 and Chapter 473B, referred to in this section as "regional planning agencies", and in consultation with the "subdivisions" defined and referred to in this section. "Subdivisions" referred to in this section include the metropolitan transit commission created by Minnesota Statutes, Chapter 473A, and any other public body now or hereafter given power by law or a city charter to operate public transportation facilities in any defined area, and any city, village, or borough outside the area of operation of such a public body.

Subd. 2. It is the policy of the state to assist its subdivisions in providing, so far as possible, public transportation facilities in all urban areas within the state by providing state funding for public transportation capital improvements. The department of transportation and regional planning agencies are directed to prepare and revise annually a program of capital grants to subdivisions for specific projects which will implement this plan and policy. Capital costs eligible to be paid from such grants shall include all expenses of the kinds enumerated in Minnesota Statutes, Section 475.65.

Subd. 3. The department of transportation shall promulgate regulations for the administration of grants authorized to be made from the fund.

Subd. 4. The regulations of the department shall provide that a high priority shall be given to applications from subdivisions which, because of limited tax base, excessive bonded indebtedness, or critical conditions of public transportation service, would face extreme financial hardship without assistance from the state transportation fund, and to applications for systems to serve more than one municipality.

Subd. 5. Applications by subdivisions for grants from the fund shall be made through regional planning agencies to the department of transportation on forms requiring information prescribed by the regulations of the department of transportation. The regional agency shall certify to the department of transportation those applications which appear to meet the standards and criteria set forth by the department of transportation and the regulations promulgated hereunder, and the department of transportation shall direct grants to be disbursed from the fund on the basis of the standards, criteria and priorities established in its regulations and in this section; provided that no disbursement shall be made until and unless the agency has by resolution determined the total estimated cost of the project, and ascertained that its financing is assured by the appropriation of the proceeds of bonds or other funds of the subdivision sufficient to pay the estimated cost in excess of the grant, including funds to be granted to it by the federal government if the department ascertains that such funds are then appropriated and allocated by the federal government to projects within the state and that the subdivision has complied with all conditions under federal law and regulations for a grant of the nature and in the amount involved.

Sec. 5. [MINNESOTA STATE TRANSPORTATION BONDS.] Subdivision 1. For the purpose of providing money appropriated to subdivisions of the state from the Minnesota state transportation fund for the acquisition and betterment of public land, buildings, and improvements of a capital nature needed to provide adequate public transportation in urban areas in accordance with the provisions of section 4, when authorized by law and requested by the commissioner of transportation, the state auditor shall sell and issue bonds of the state of Minnesota for the prompt and full payment of which, with interest thereon, the full faith, credit, and taxing powers of the state are irrevocably pledged. Bonds shall be issued pursuant to this section only as authorized by a law specifying the purpose thereof and the maximum amount of the proceeds authorized to be expended for this purpose. Any act authorizing the issuance of bonds for this purpose, together with this section, constitutes complete authority for such issue, and such bonds shall not be subject to restrictions or limitations contained in any other law.

Subd. 2. Upon request and authorization as provided in subdivision 1 the state auditor shall sell and issue Minnesota state transportation bonds in the aggregate amount requested, upon sealed bids and upon such notice, at such price, in such form and denominations, bearing interest at such rate or rates, maturing in such amounts and on such dates, without option of prepayment or subject to prepayment upon such notice and at such times and prices, payable at such bank or banks within or outside the state, with such provisions for registration, conversion, and exchange and for the issuance of notes in anticipation of the sale or delivery of definitive bonds, and in accordance with such further regulations, as the auditor shall determine, subject to the approval of the attorney general, but not subject to the provisions of sections 15.0411 to 15.0422. The bonds shall be executed by the state auditor and

attested by the state treasurer under their official seals. The signatures of the officers on the bonds and any appurtenant interest coupons and their seals may be printed, lithographed, engraved, or stamped thereon, except that each bond shall be authenticated by the manual signature on its face of one of the officers or of an officer of a bank designated by them as authenticating agent. The state auditor shall ascertain and certify to the purchasers of the bonds the performance and existence of all acts, conditions, and things necessary to make them valid and binding general obligations of the state of Minnesota, subject to the approval of the attorney general.

Subd. 3. All expenses incidental to the sale, printing, execution, and delivery of bonds pursuant to this section, including but not limited to actual and necessary travel and subsistence expenses of state officers and employees for such purposes, shall be paid from the state transportation fund, and the amounts necessary therefor are appropriated from that fund; provided that if any amount is specifically appropriated for this purpose in an act authorizing the issuance of bonds pursuant to this section, such expenses shall be limited to the amount so appropriated.

Subd. 4. The state auditor shall maintain in the state bond fund a separate bookkeeping account which shall be designated as the state transportation bond account, to record receipts and disbursements of money transferred to the fund to pay Minnesota state transportation bonds and income from the investment of such money, which income shall be credited to the account in each fiscal year in an amount equal to the approximate average return that year on all funds invested by the state treasurer, as determined by the treasurer, times the average balance in the account that year.

Subd. 5. The premium and accrued interest received on each issue of Minnesota state transportation bonds shall be credited to the bond account. In order to reduce the amount of taxes otherwise required to be levied, there shall also be credited to the bond account from the general fund in the state treasury, on November 1 in each year, a sum of money sufficient in amount, when added to the balance then on hand therein, to pay all Minnesota state transportation bonds and interest thereon due and to become due to and including July 1 in the second ensuing year. All money so credited and all income from the investment thereof is annually appropriated to the bond account for the payment of such bonds and interest thereon, and shall be available in the bond account prior to the levy of the tax in any year required by the Constitution, Article IX, Section 6, Subdivision 4. The state auditor and treasurer are directed to make the appropriate entries in the accounts of the respective funds.

Subd. 6. On or before December 1 in each year the state auditor shall levy on all taxable property within the state whatever tax may be necessary to produce an amount sufficient, with all money then theretofore credited to the bond account, to pay the entire amount of principal and interest then and theretofore due and principal and interest to become due on or before July 1 in the second year thereafter on Minnesota state transportation bonds.

This tax shall be levied upon all real property used for the purposes of a homestead, as well as other taxable property, notwithstanding the provisions of section 273.13, subdivisions 6 and 7, and shall be subject to no limitation of rate or amount until all such bonds and interest thereon are fully paid. The proceeds of this tax are appropriated and shall be credited to the state bond fund, and the principal of and interest on the bonds are payable from such proceeds, and the whole thereof, or so much as may be necessary, is appropriated for such payments. If at any time there is insufficient money from the proceeds of such taxes to pay the principal and interest when due on Minnesota state transportation bonds, such principal and interest shall be paid out of the general fund in the state treasury, and the amount necessary therefor is hereby appropriated.

Sec. 6. [TRANSPORTATION BOND AUTHORIZATION AND APPROPRIATION.] The state auditor is authorized and directed, upon request of the commissioner of transportation, to issue and sell Minnesota state transportation bonds in accordance with the provisions of section 4 of this act and of the Constitution, Article IX, Section 6, in an aggregate principal amount not to exceed \$80,000,000, which sum, or so much thereof as shall be required, is appropriated from the proceeds of the bonds to the Minnesota state transportation fund created in section 4, and shall be used, with any other money in that fund, solely for the purpose of providing money which is hereby appropriated from that fund to subdivisions of the state for the acquisition and betterment of public land and buildings and other public improvements of a capital nature needed to provide adequate public transportation in urban areas, in accordance with the provisions of section 4. This appropriation shall not lapse until the purpose for which it is made has been accomplished or abandoned. The amount of each grant approved for disbursement from the Minnesota state transportation fund shall be and remain appropriated for that purpose until the grant is fully disbursed or part or all thereof is revoked by the department of transportation.

Sec. 7. [TRANSFER OF POWERS.] Should this legislature fail by July 1, 1973, to enact a law authorizing the creation of a department of transportation, the powers and duties of sections 2 and 3 of this act shall be assumed by the department of highways, and the powers and duties of sections 4 through 6 of this act shall be assumed by the state planning agency.

Sec. 8. [SEVERABILITY.] The invalidity of any provision of this act shall not affect the validity of the remainder of the act.
