These documents may be of a general nature, and

shall include performance standards for the construction and supervisory operation of the facilities which must be met for specified conditions and time periods, prior to final acceptance of the facilities by the municipality. The contract documents may require the bidder to furnish conceptual design plans and specifications and any other information deemed relevant for contract award. After award the documents may require the bidder to furnish detailed plans and specifications and provide for termination of the contract if such information is insufficient to permit the municipality to satisfy the requirements of any federal or state grant.

Subd. 3. [LIMITATIONS.] The provisions of subdivision 2 shall not in any way limit the application and effect of laws governing the practice of architecture, professional engineering, or land surveying in this state, including Minnesota Statutes, Sections 326.02 and 326.03.
