Senate Concurrent Resolution No. 11: A senate concurrent resolution relating to joint rules; clarifying use of underscoring in omnibus appropriation bills; amending Joint Rule 17.

BE IT RESOLVED, by the Senate of the state of Minnesota, the House of Representatives concurring therein:

Joint Rule 17 of the Senate and House is amended to read:

[FORM OF BILLS]

Rule 17. The title of each bill shall clearly state its subject and briefly state its purpose. When a bill amends or repeals an existing act, the title shall refer to the chapter, section or subdivision.

Reference shall be made to Minnesota Statutes for the provisions appearing therein, unless reference to previous session laws is required for some special reason.

Bills shall refer to Minnesota Statutes as follows:

"Minnesota Statutes_____, Section_____."

Bills shall refer to the session laws as follows:

"Laws_____, Chapter_____, Section_____."

A bill for the amendment of a statute shall contain the full text of the chapter, section, or subdivision to be amended as it appears in the latest edition of Minnesota Statutes, unless it has been amended at a later session, in which event it shall contain the full text as amended. The words and characters constituting the amending matter shall be inserted in the proper place in the text and underscored. The words and characters to be eliminated by the amendment shall be stricken by drawing a line through them. The text of a new section or subdivision shall also be underscored when a bill amends an existing chapter or section by adding a new section or subdivision. *In the omnibus appropriation bills required by Joint Rule 15, sections making an appropriation or transfer and not amending a statute or session law need not have new material underscored.* Before a committee favorably reports upon such a bill, the chairman of the committee shall see that the bill conforms to this rule. When a bill is printed, the new matter shall be in italics, or underscored, and the matter to be eliminated shall be capitalized and in parentheses, or stricken by drawing a line through it. A bill drafted by the Revisor of Statutes for the purpose of correcting errors in Minnesota Statutes need not comply with the provisions of this paragraph if the bill is labeled, immediately below the title "REVISOR'S BILL" and if there is attached thereto a memorandum of information explaining the reasons for the bill.

If the bill is for an original law and not for an amendment of an existing law, the sections and subdivisions shall be arranged subdivided, and numbered in like manner as Minnesota Statutes. If such a bill assigns to the sections thereof headnotes or identification by the decimal system of numbering used in Minnesota Statutes, such headnotes and decimal identification may be submitted by standing

committee chairmen to the Revisor of Statutes for his examination. Any such headnotes shall be in capital letters enclosed in brackets, and shall be subject to the provisions of Minnesota Statutes, Section 648.36.

All numbers in titles shall be expressed in figures. All numbers of section or chapter of laws shall be in figures. In the body of a bill numbers in excess of ten shall be in figures, except for a special reason they may be written, but when written they shall not be followed by numbers in parentheses.

Mr. Coleman moved the adoption of the foregoing resolution. The motion prevailed. So the resolution was adopted.

Mr. Gearty from the Committee on Governmental Operations, to which was referred

S. F. No. 1686: A bill for an act relating to energy; establishing a state program of low interest loans to provide installation of

solar furnaces in single family dwellings; appropriating money; amending Minnesota Statutes 1974, Section 462A.05, by adding a subdivision.

Reports the same back with the recommendation that the bill be amended as follows:

Strike everything after the enacting clause and insert:

"Section 1. [FINDINGS.] The legislature hereby finds and declares that conservation of energy supplies and utilization of alternative energy sources are necessary to prevent serious shortages of oil and natural gas, which shortages if allowed to further develop or continue will result in severe economic and social disorder in this nation thereby adversely affecting the health, safety and economic well-being of the people of this state. Public policies designed to encourage utilization of alternative sources must be developed to encourage and assist the private sector to make necessary adjustments and changes in energy use practices. In furtherance of necessary energy conservation activities the legislature hereby determines that public funds may validly and properly be expended to establish a public program of loans to residents of this state to enable the acquisition and installation of solar energy systems for new and existing residential housing.

Sec. 2. Minnesota Statutes 1974, Section 462A.05, is amended by adding a subdivision to read:

Subd. 17. (a) The agency shall make loans available to owners or builders of residential housing only to the extent of available appropriations for the purpose of installing solar energy systems for the housing. A loan shall be made upon such terms and conditions as the agency determines to be necessary to accomplish the purposes of this act and to provide reasonable security for repayment of the loan.

(b) For purposes of this subdivision the term "solar energy system" means a set of devices having as its primary purpose to collect solar energy and convert and store it for useful purposes including heating and cooling buildings or other energy-using processes, or to produce generated power by means of any combination of collecting, transferring, or converting solar-generated energy.

(c) The principal repayments of a loan under this subdivision shall be retained by the agency in a revolving loan fund and are hereby appropriated to the agency for further use in the program established by this subdivision.

(d) No loan shall be authorized until the agency determines that the solar energy system meets quality performance standards promulgated by the commissioner of administration. The building code division of the department of administration in consultation with the energy agency shall promulgate by December 31, 1976, pursuant to Minnesota Statutes, Chapter 15, equality and performance standards to insure that within the existing state of development, solar energy systems as defined in section 2, subd. 17(b) which are sold or installed within the state are

effective and represent a high standard of quality of material, workmanship, design, and performance. The department of administration in consultation with the energy agency shall modify existing standards and promulgate new standards subsequent to December 31, 1976 as new technology and materials become available.

Manufacturers or retailers of solar energy systems shall disclose to each bona fide potential purchaser of a system the extent to which the system meets or exceeds each quality standard.

(e) No loan shall be authorized unless the loan applicant agrees to conform the housing structure to energy conservation standards relating to the exterior envelope of the structure as promulgated by the commissioner of administration pursuant to section 116H.12.

(f) No loan shall be authorized until the applicant has submitted an economic analysis form to the local building inspector, as defined in section 16.861, and the inspector has (1) inspected the structure and the plans and specifications for the system, (2) approved the economic analysis form, and (3) delivered the form to the agency with a copy to the applicant. The form shall be prepared by the director of the agency after consultation with the commissioner of administration and the director of the energy agency. The form shall reflect the standards provided for in clauses (d) and (e). The inspector shall approve the form if he determines the data thereon to be accurate, and if he determines, pursuant to standards promulgated by rule by the director of the agency after consultation with the commissioner of administration and the director of the energy agency, that the installation of the system and any necessary energy conservation measures are economically feasible and will result in energy and cost savings over the anticipated life of the system and structure.

(g) No loan shall be authorized in excess of \$6,000 for the acquisition and installation of the system, and \$2,000 for necessary conservation measures to meet the standards of clause (e) in the structure for which the system is to be installed.

(h) The agency with the cooperation of the commissioner of economic development shall publicize the program established by this subdivision and may cooperate with other agencies or departments of state, federal or local government to further its purposes.

Sec. 3. There is appropriated from the general fund in the state treasury to the Minnesota housing finance agency the sum of \$ for the purposes of making loans and paying administrative costs pursuant to the program established by this act."

Amend the title by striking it in its entirety and inserting:

"A bill for an act relating to housing; enabling the housing finance agency to make loans available for the acquisition and installation of solar energy systems and for improving energy conservation in the structure; appropriating money; amending Minnesota Statutes 1974, Section 462A.05, by adding a subdivision."

And when so amended the bill do pass and be re-referred to the Committee on Finance. Amendments adopted. Report adopted.
