The Honorable Edward J. Gearty
President of the Senate

Dear Sir:

I am returning to you Senate File 498 unsigned for the purpose of vetoing that measure.

I do so reluctantly since Section 1 of the bill, which constitutes the original bill introduced by Senator Setzepfandt and Representative Patton, is clearly a worthwhile and noncontroversial provision. However, Section 2 of the bill which was amended on to it in the Transportation Committee of the House of Representatives is a special interest provision which runs contrary to the clearly enunciated regulatory practices for motor vehicle carriers as established by the Public Service Commission.

Section 2 of the bill would allow a large carrier which presently possesses local cartage, contract and certificated authorities to acquire irregular route authority without giving up its other authorities as would be required under the present regulatory scheme.

Irregular route authority would give the concern which seeks to acquire that authority a substantial competitive advantage over other motor carriers in the State without giving them an op-

portunity to appear and present their objections to the Public Service Commission in a customary regulatory proceeding.

For the foregoing reasons, I cannot allow this bill to become law.

Sincerely,

Albert H. Quie, Governor

May 29, 1979

The Honorable Edward J. Gearty
President of the Senate

Dear Sir:

I am vetoing S.F. 607 which establishes in Sections 2 and 3 a research program on the therapeutic use of marijuana. S.F. 607 does not provide any funds for research and in my judgment does not establish sufficient research guidelines or clarify investigational procedures to merit status as a research program.

The Federal Government has established procedures for the scientific experimental use of drugs, with protective research criteria clearly defined for experimentation. These current Federal programs investigating the use of marijuana permit physician participation without the need of enabling state legislation.

In addition it is my view that the "qualifications review board" which this bill establishes to certify patients, practitioners, and pharmacies for participation in the program will be administratively cumbersome and expensive and of questionable usefulness for either the individual patient or for research purposes.

Finally, not only are there no appropriations for research but no appropriation is included to address the costs of promulgating rules, administering the program, funding per diem and travel for the qualifications review board and writing contracts with the National Institute on Drug Abuse. If the State were to participate in such a research effort, an appropriation would be needed.

The negative effects of therapeutic research program contained in Sections 2 and 3 warrant a veto. I anticipate that Section 1 which prescribes increased penalties for the possession of controlled substances on school premises will be able to stand on its own merit next year.

Sincerely,

Albert H. Quie, Governor

Dear Sir:

Returned to you herewith and unsigned please find Senate File 1476, which relates to detached banking facilities. As the bill appears in its final form, I feel compelled to veto it in spite of some of the constructive changes the bill would make for remote banking facilities.

The detached banking facility laws of the State were designed to allow each bank to provide limited customer banking services at two separate locations up to 25 miles from the main banking office. It is essential that the structure of this system not be disturbed so as to provide a competitive advantage for any bank in the State, whether independently owned or controlled by multi-bank holding company.

Senate File 1476 would, in my view, provide such a competitive advantage for two banks. It would allow two additional detached facilities for Northwestern National Bank of Minneapolis through its Lake Street office and would allow First National Bank of Minneapolis two additional detached facilities through its West Broadway office. Allowing these banks two additional detached facilities each through those banking offices would give them an unfair competitive advantage over the remaining banking industry

in the State. For this reason, I must reject these special franchises and veto this legislation.

Sincerely,

Albert H. Quie, Governor
