"Section 1. [BLOOMINGTON; DISTRICT HEATING SYSTEMS.]

Subdivision 1. [AUTHORIZATION.] The city of Bloomington may build, construct, reconstruct, repair, enlarge, improve, or in any other manner obtain a district heating system as defined in Minnesota Statutes, section 465.74, subdivision 6, and maintain and operate it inside or outside its corporate limits, and acquire by gift, purchase, lease, condemnation, or otherwise the land and other interests in real estate required for the purpose. The authority granted by this section is in addition to other powers relating to district heating systems granted by law or charter.

Subd. 2. [FINANCING.] To pay the cost of building, constructing, reconstructing, repairing, enlarging, or in other manner obtaining a system or part of a system, the city may issue and sell general or special obligations, which may be made payable primarily from taxes or from special assessments to be levied to pay the cost of the system or from net revenues derived from service charges or from any other nontax revenues pledged for their payment under charter or other statutory authority, or from two or more of those sources. Real estate tax revenues may be used to pay general or special obligations when other revenues are insufficient to meet the obligations. Except as provided in sections 1 to 7, obligations shall be issued and sold in accordance with Minnesota Statutes, chapter 475. When special assessments are pledged for the payment of obligations, they shall be authorized

and issued in accordance with Minnesota Statutes, chapter 429, or the city charter if the governing body determines to proceed under the charter. When net revenues are pledged to the payment of the obligations, together with or apart from taxes and special assessments, the pledge shall be made in accordance with subdivision 3.

Subd. 3. [CHARGES; NET REVENUES.] To pay for the construction, reconstruction, repair, enlargement, improvement, or other obtainment and the maintenance, operation, and use of the system, the governing body of the city may impose just and equitable charges for the use and for the availability of the system and for connections with it and make contracts for charges. The charges may be imposed for a system made available by an agreement with another municipality, county, private corporation, or individual, as well as for a system owned and operated by the city.

A charge made for service directly rendered shall be proportionate to the cost of furnishing it, or on another equitable basis or combination of bases. Minimum charges for availability may be imposed for premises abutting on a street or other place where a service line is located, whether or not the premises are connected. Charges for connections may, in the discretion of the governing body, be fixed by reference to the portion of the cost of the facilities which has been paid by assessment of the premises to be connected, in comparison with other premises, as well as the cost of making or supervising the connections. The governing body may make connection charges a charge against the owner, lessee, occupant, or all of them and may provide for and covenant to certify unpaid charges to the county auditor with taxes against the property to be collected as other taxes are collected.

The governing body may levy taxes to pay reasonable charges to the municipality itself for the use and availability of the system for public buildings and other public places.

In determining the reasonableness of the charges to be imposed, the governing body may consider all costs of the establishment, operation, maintenance, depreciation, and necessary replacements of the system, and of improvements, enlargements, and extensions necessary for adequate service, including the principal and interest to become due on obligations issued or to be issued for the system.

When net revenues have been appropriated to the payment of the cost of the establishment, or of any specified replacement, improvement, enlargement, or extension of the system, or to pay the principal and interest due on obligations to be issued for that purpose, no charges imposed to produce net revenues adequate for that purpose shall be deemed unreasonable because the project to be financed has not been commenced or completed, if proceedings for it are taken with reasonable dispatch and the project, when completed, may be expected to make service available to the premises charged which will have a value reasonably commensurate with the charges.

Charges, when collected, and all money received from the sale of any facilities, equipment, or by-products of the system shall be placed in a separate fund, and used first to pay the normal, reasonable, and current costs of operating and maintaining the facilities. The net revenues received in excess of the costs may be pledged in whole or part by resolutions of the governing body, or may be used in whole or part though not pledged, to pay principal

and interest on obligations issued as provided in subdivision 2. Net revenues derived from any district heating system, whether or not financed by the issuance of obligations, may be pledged or used to pay obligations issued for another facility of that type.

In resolutions authorizing the issuance of either general or special obligations and pledging net revenues, the governing body may make covenants for the protection of holders of the obligations and taxpayers of the municipality as it deems necessary, including, but without limitation, a covenant that the municipality will impose and collect charges of the nature authorized in this subdivision when and in the amounts required to produce, together with any taxes or special assessments designated as a primary source of payment of the obligations, net revenues adequate to pay all principal and interest when due on the obligations and to create and maintain reserves securing the payments as may be provided in the resolutions. When the covenant is made, it shall be enforceable by appropriate action by any holder of the obligations or any taxpayer of the municipality in a court. An election shall not be required to authorize the issuance of the obligations.

Subd. 4. [LEVY ASSESSMENTS.] The city may also levy assessments against property within the city limits benefited by the system under the procedure authorized by law or charter with reference to other assessments for benefits of local improvements, may transfer and use for the purposes of the heating system surplus funds of the city not specifically dedicated to any other purpose, and may levy taxes on property within the city limits for the system. Taxes for the system shall be disregarded in the calculation of levies or limits on levies provided by Minnesota Statutes, sections 275.11 and 275.50 to 275.56, or other law or charter.

A city may contract with any person, company, or corporation for the purposes and under the restrictions set forth in subdivision 5. The contract shall be binding upon the parties for the full term agreed upon but not longer than 30 years, and shall not be changed by either party without the consent of the other.

Subd. 5. [CONNECTION WITH FACILITIES; CHARGES.] The city may permit any person, company, or corporation to connect with the system and use it on terms and payment of fees and charges as prescribed or contracted for by the city. The city may contract with any person, company, or corporation for payment of a part of the cost of construction, maintenance, or use of the system in cash or installments and devote the money to the construction, maintenance, or use of the system. The cost to be paid by the person, company, or corporation may be made payable in installments at not greater than annual intervals for not longer than 30 years. The person, company, or corporation shall then have the right to use the system upon the payment of reasonable charges for the use or the charges contracted for. The city may contract with another city to jointly or cooperatively obtain or use the system for periods not to exceed 30 years.

Sec. 2. [FEES AND CHARGES FOR TAX FORFEITED LANDS RETURNED TO PRIVATE OWNERSHIP.]

When tax forfeited land is returned to private ownership and the land is benefited by a district heating system for which special assessments were canceled because of the forfeiture, the city that made the improvement may

impose fees or charges for the use or availability of the improvement or for connection with it in an amount not to exceed the amount remaining unpaid on the canceled assessment. The city may make the fees or charges a charge against the owner, lessee, occupant, or all of them and may certify unpaid fees or charges to the county auditor with taxes against the property to be collected as other taxes are collected.

Sec. 3. [ESTABLISHMENT OF DISTRICT.]

The governing body of the city may by ordinance adopted by a two-thirds vote of all of its members, establish within its territory a district heating improvement tax district. The ordinance shall describe with particularity the territory or area to be included within the district. The ordinance may be adopted only after a public hearing has been held on the matter. A notice of the time, place, and purpose of the hearing shall be published for two successive weeks in the official newspaper of the city and the last notice shall be at least seven days prior to the day of the hearing. The ordinance when adopted shall be filed with the county auditor and recorder.

Sec. 4. [AUTHORITY OF COUNCIL; RECOVERY OF COST; IMPROVEMENT PROCEDURES.]

Following the adoption of an ordinance pursuant to this act, the governing body may acquire, construct, reconstruct, extend, maintain, and otherwise improve district heating systems and related facilities within the district.

The procedures of Minnesota Statutes, sections 429.031 to 429.081 apply when the council of a municipality determines to make an improvement pursuant to this section.

Sec. 5. [BONDS.]

After a contract for the construction of all or part of an improvement has been entered into or the work has been ordered done by day labor, the city may issue obligations in the amount it deems necessary to defray in whole or part the expense incurred and estimated to be incurred in making the improvement, including every item of cost from inception to completion and all fees and expenses incurred in connection with the improvement or its financing. The obligations shall be payable primarily out of the proceeds of the tax levied pursuant to section 6. The city may by resolution adopted prior to the sale of obligations pledge its full faith, credit, and taxing power to assure payment of the principal and interest if the proceeds of the tax levy in the district are insufficient. Obligations shall be issued in accordance with Minnesota Statutes, chapter 475, except that an election is not required.

Sec. 6. [TAXES.]

The governing body may levy on all taxable property within the district the taxes necessary to finance the cost of the improvement, including maintenance, and to pay the principal and interest on obligations issued pursuant to section 5. The taxes shall be collected and paid as other taxes, but shall be spread only upon the property described in the ordinance. The proceeds of the taxes shall be disbursed only for the benefit of the district.

Sec. 7. [DISSOLUTION OF DISTRICT.]

Upon the retirement of all obligations within the district, the district may be

dissolved by following the procedures for establishment of a district set forth in section 3.
