Reports the same back with the recommendation that the bill be amended as follows:

Delete everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 1984, section 145.882, is amended to read:

145.882 [MATERNAL AND CHILD HEALTH BLOCK GRANT DISTRIBUTION.]

Subdivision 1. [CONTINUATION OF 1983 PROJECTS.] Recipients of maternal and child health grants for special projects in state fiscal year 1983 shall continue to be funded at the same level as in state fiscal year 1983 until September 30, 1985 December 31, 1986 if they comply with the provisions of sections 145.881, and 145.882 to 145.888. Beginning January 1, 1987, recipients of maternal and child health special project grants awarded in state fiscal year 1983 must receive:

(1) for calendar year 1987, no less than 90 percent of the amount awarded in state fiscal year 1983;

(2) for calendar year 1988, no less than 80 percent of the amount awarded in state fiscal year 1983; and

(3) for calendar year 1989, no less than 70 percent of the amount awarded in state fiscal year 1983.

The amount of grants awarded under this subdivision must be deducted from the allocation due to the community health services area within which the grantee is located. If the community health services area includes more than one local board of health, the amount of the grant must be deducted only from the allocation due to the area served by the local board of health within which the grantee is located. The remaining areas served by local boards of health within that community health services area which do not include a grantee under this subdivision must be treated as a separate community health services area for purposes of the formula in subdivision 3. In order to receive money under this subdivision, grantees must continue to comply with the provisions of sections 145.881, and 145.882 to 145.888. These recipients are also eligible to apply for state grants under sections 145.883 to 145.888. Any decrease in the amount of federal funding to the state for the maternal and child health block grant shall be apportioned to reflect a proportional decrease for each recipient until September 30, 1985. Any increase in the amount of federal funding to the state shall be distributed for services to children with handicaps and to special projects as provided in sections 145.883 to 145.888, except that an amount not to exceed ten percent may be retained by the commissioner of health to address cost of living increases and increases in supplies and services according to the formula in subdivision 3 of this section.

After September 30, 1985, The advisory task force shall review and recommend the proportion of maternal and child health block grant funds to be expended for indirect costs, direct services and special projects. The proportion of funds expended in direct services through special projects shall be maintained at not less than the level expended in state fiscal year 1984.

Subd. 2. [ALLOCATION TO THE DEPARTMENT OF HEALTH.] Beginning January 1, 1986, up to one-third of the total maternal and child health block grant money may be retained by the commissioner of health for administrative and technical assistance services, projects of regional or statewide significance, direct services to children with handicaps, and other activities of the department.

Subd. 3. [DISTRIBUTION FORMULA.] The maternal and child health block grant money remaining after distributions made under subdivisions 1

and 2 shall be allocated to community health services area for distribution by local boards of health to qualified programs that provide essential services within the community health services area. For purposes of this section, "community health services area" means a city, county, or multi-county area which is organized as a local board of health under section 145.913 and for which a state subsidy is received pursuant to sections 145.911 to 145.922. The amount of funds available for each community health services area shall be determined according to the following formula:

(a) Each community health services area shall be allocated an amount based on the following three variables:

(1) proportion of resident mothers within the city, county or counties who are under 20 years of age or over 35 years of age, as determined by averaging the data available for the three most current years;

(2) proportion of resident infants within the city, county or counties whose weight at birth is less than 2,500 grams, as determined by averaging the data available for the three most current years; and

(3) proportion of resident children within the city, county or counties under the age of 19 who are on general assistance or medicaid and the proportion of resident women within the city, county or counties aged 19 to 49 who are on general assistance or medicaid, as determined by using the data available for the most current year.

(b) Each variable must be expressed as a city or county score consisting of the city or county frequency of each variable divided by the statewide frequency of the variable.

(c) A total score for each city or county jurisdiction shall be computed by totalling the scores of the foregoing three factors and dividing the score obtained by three.

(d) Each community health services area must be allocated an amount equal to the score obtained above for the city, county, or counties in its area multiplied by the amount of funds determined to be available for special projects of local significance.

If no approvable applications are received for a community health services area, the commissioner may reallocate the funds available for that area to other community health service areas for which approvable applications have been received.

This formula also applies to any city or county that is not participating in the community health services subsidy in order to determine the amount of funds available for purposes of this subdivision. The commissioner shall convene a meeting of public and private nonprofit agencies in cities or counties who have expressed an intent to submit an application for funding. The meeting shall be used for purposes of attempting to develop a single coordinated grant application for each city or county. All applications, whether consolidated into a single application or as individual applications, shall be submitted according to section 145.885. If no approvable applications are received, the commissioner may reallocate the funds to community health service areas for which applications have been received.

Subd. 4. [USE OF BLOCK GRANT MONEY.] Maternal and child health

block grant money received by a local board of health or community health services area under this section must be used for qualified programs for high risk and low income individuals. Block grant money must be used for programs that:

(1) specifically address the highest risk populations, particularly low income and minority groups with a high rate of infant mortality and low birth weight children, by providing services calculated to produce measurable decreases in infant mortality rates and instances of low birth weight children and medical complications associated with pregnancy and childbirth;

(2) specifically target pregnant women whose age, medical condition, or maternal history substantially increases the likelihood of complications associated with pregnancy and childbirth, or the birth of a child with an illness, disability, or special medical needs;

(3) specifically address the health needs of young children who have, or are likely to have, a chronic disease or disability or special medical needs; or

(4) provide family planning and preventive medical care for specifically identified target populations, such as minority and low income teenagers, in a manner calculated to decrease the occurrence of inappropriate pregnancy and minimize the risk of complications associated with pregnancy and childbirth.

Maternal and child health block grant money may be used for purposes other than the purposes listed in this subdivision only if the local board of health or community health services area can demonstrate that existing programs fully address the needs of the highest risk target populations described in this subdivision.

Subd. 5. [REPORT.] The commissioner shall prepare, with the advice of the advisory task force, an annual report to the legislature which details the distribution of maternal and child health block grant funds, including the amounts to be expended for indirect costs, direct services, and ~~special projects~~ local grants. The report shall also identify the statewide needs of low income and high risk populations and the department of health's plans and local board plans for meeting their needs. The legislature must receive the report no later than January of each year.

Sec. 2. Minnesota Statutes 1984, section 145.883, subdivision 8, is amended to read:

Subd. 8. [MATERNAL AND CHILD HEALTH BLOCK GRANT MONEY.] "Maternal and child health block grant money" means the money received by the state from the federal maternal and child health block grant. 145.885 [APPLICATION FOR A GRANT.]

An application for a grant shall be submitted to the commissioner at a time and in a form and manner as the commissioner prescribes. Department of health technical staff shall be available to provide technical assistance in development of grant applications. The application must contain:

(a) A complete description of the program and the manner in which the applicant intends to conduct the program;

(b) *A description of the manner in which the program responds to needs and priorities for services identified by the maternal and child health task force pursuant to section 145.881, subdivision 2, and rules adopted by the commissioner. The rationale for any differences must be explained in detail;*

(c) A budget and justification for the amount of grant funds requested;

~~(e)~~ (d) A description of the target population served by the qualified program and estimates of the number of low income or high risk patients the program is expected to serve;

~~(d)~~ (e) The name or names of the person or persons who shall have primary responsibility for the administration and delivery of services of the qualified program; and

~~(e)~~ (f) The reporting and accounting procedures to be followed by the qualified agency to enable the commissioner to evaluate the activities of the qualified program.

The local board shall include, with grant application materials, a written statement of the criteria to be applied to public and private agency requests for funding.

Sec. 5. Minnesota Statutes 1984, section 145.886, is amended to read:

145.886 [GRANT REVIEW PROCESS.]

Primary review of all grant applications shall be conducted by the depart-

ment of health technical staff. All technically completed applications will be forwarded for secondary review to a ~~grants review panel established by the commissioner.~~ A majority of the grants review panel must be professionals with expertise in maternal and child health care. ~~No member of the panel may be an employee of a public or private nonprofit agency receiving or applying for maternal and child health block grant money.~~ The advisory task force shall review the recommendations of the grants review panel for comment to ~~the commissioner the advisory task force.~~ The commissioner shall award grants under section 145.885 and this section only after receiving the comments and recommendation of the ~~grants review panel~~ and the advisory task force on completed grant applications.

Sec. 6. [APPROPRIATION.]

"Section 1. [PURPOSE.]

The legislature finds that profound changes in the state economy and in the availability and nature of federal support have created new needs among the

people of this state for assistance in their quest for jobs, for training to fill those jobs, for income maintenance programs, and for a wide array of other human services. At the same time, those changes have altered the role of state government in the planning, development, and delivery of all human services; creating a need for coordinating all the agencies that share responsibilities for those services. Accordingly, the legislature finds that in order to maximize productivity of human resources and economic opportunity within the state of Minnesota, it is necessary to streamline and coordinate the state's employment, training, and public assistance programs and to set new priorities so that state government might better meet its duty to help its citizens realize the dignity of a paycheck and achieve economic independence. Further, the legislature finds it necessary to act swiftly and decisively to achieve the dual goal of lowering the unemployment rate among the people of this state and decreasing the welfare caseload that is at once a reflection of the difficulties challenging some and a burden that must be borne by all."

"Sec. 23. Minnesota Statutes 1984, section 268.08, is amended by adding a subdivision to read:

Subd. 10. [APPROVED TRAINING.] (a) [CREATION.] There is created a training program for structurally unemployed workers in Minnesota under which individuals may be enrolled in an on-the-job training program, and an additional 1,000 individuals may be enrolled in classroom training in accordance with the provisions of this subdivision. Nothing in this subdivision shall be considered to limit or adversely affect the approved training provisions applicable to an individual under section 268.08, subdivision 1, clause (3). An individual approved under this subdivision shall be eligible for tuition aid under the provisions of chapter 136A. The commissioner shall report to the legislature annually regarding the status of the training program under this subdivision.

(b) [APPROVAL OF TRAINING.] An individual's enrollment in a training course shall be approved for the purposes of this subdivision if the commissioner finds that:

(1) the individual is not unemployed due to the seasonal nature of the work or a temporary work shortage;

(2) the individual's separation from most recent employment was caused by job obsolescence, plant shutdown, regional decline in the individual's customary occupation, or industry slowdown;

(3) the individual has received a notice of layoff and is unlikely to return to work for that employer or in that occupation within the 12-month period immediately following the separation;

(4) reasonable and suitable work opportunities for which the individual is fitted by training, experience, and physical capabilities do not exist within the local labor market;

(5) the training course is designed to provide preparation for available employment within the local labor market or in an area to which the individual is willing to relocate;

(6) the training is conducted by an agency, education institution, or employing unit which has been approved by the department of education or state board for vocational technical education or higher education coordinating board to conduct training programs; except that any agency, education institution, or employing unit which is not subject to regulation and approval by

one of the above agencies may be approved by the commissioner if it is determined that the curriculum, facilities, staff, and other essentials are adequate to achieve the training objective;

(7) the training consists of a full course load, as defined by the institution, necessary to achieve the approved training objective, and the individual is making satisfactory progress in the course. The department may require the training institution to periodically certify to the individual's attendance and progress.

(c) [ON-THE-JOB TRAINING.] An individual who meets the criteria set forth under paragraph (b) shall be eligible for participation in a full-time on-the-job training program provided that:

(1) the on-the-job training position is in an occupation for which the commissioner has determined a demand exists or will exist. In making this determination, the commissioner shall consider labor market information as contained in state and national occupational outlook publications, as well as other generally accepted authoritative sources with verifiable validity;

(2) the employer pays an hourly wage during training of at least the state minimum wage;

(3) the employer guarantees to provide at least 12 months of employment to the trainee after the completion of training at the prevailing area labor market wage for a trained individual in that occupation;

(4) the employer will not terminate the trainee during the period of training or guaranteed employment except for misconduct or demonstrated substandard performance;

(5) the employer has not in any way created an on-the-job training position through a reduction in work force within the preceding six months.

(d) [TRAINING ALLOWANCE.] During participation in an approved on-the-job training program, the trainee shall maintain both satisfactory progress and attendance. During the period of training specified in the agreement between the commissioner and the employer, individuals participating in an approved on-the-job training program shall be paid with respect to each week claimed during the benefit year and prior to exhaustion a benefit in an amount equal to the weekly benefit amount, less that part of the earnings, including holiday pay, which is in excess of \$100. The benefit shall be computed by rounding down to the nearest dollar amount. Notwithstanding any other provision, an individual participating in on-the-job training on a full-time basis shall not be considered employed for purposes of benefit eligibility.

(e) [EMPLOYER PENALTY.] An employer who enters into an on-the-job training agreement with the department and terminates the trainee in a manner other than provided in this subdivision shall repay 70 percent of the amount of unemployment insurance benefits paid to the individual while in the training program with that employer if terminated during the training period. If terminated during the 12-month period of guaranteed employment, the employer shall receive a proportional reduction in the amount it must repay.

(f) [FUNDING.] In arranging for training, existing federal and state fi-

nanced job training service deliverers and Wagner-Peyser mechanisms and funds shall be utilized in the most efficient and effective manner."

For the purposes of this paragraph, the governor may designate that these funds come from the budget reserve account established in section 16A.15, subdivision 6.*

These funds shall be pooled and distributed to service providers in service delivery areas in a proportion equal to the number of unemployed people in each service delivery area divided by the total number of unemployed people

in the state.

"Sec. 46. [268A.040] [CHILD CARE SLIDING FEE PROGRAM.]

Subdivision 1. [DEFINITIONS.] For the purposes of this section the following terms have the meanings given.

(a) "*Child care services*" means family day care homes, group day care homes, nursery schools, day nurseries, child day care centers, play groups, head start, parent cooperatives, and in-home child care as defined in the Minnesota plan for social services to families and children.

(b) "*Child*" means any person 14 years of age or younger.

(c) "*Commissioner*" means the commissioner of employment and training.

Subd. 2. [DUTIES OF COMMISSIONER.] The commissioner shall develop standards for county welfare agencies and human services boards regarding the provision of child care services to enable eligible families to participate in employment or training programs. The commissioner shall establish a program to allocate available appropriations to counties for the purpose of reducing the costs of child care for eligible families. The commissioner shall adopt rules to govern the program in accordance with this section. The rules must establish a sliding schedule of fees for parents receiving child care services. The commissioner shall require counties to collect and report data that the commissioner deems necessary to demonstrate the effectiveness of the program in preventing and reducing participants' dependence on public assistance and in providing other benefits, including improvement in the care provided to children. The commissioner shall report

to the full productivity and opportunity coordinator no later than January 15 of each odd-numbered year on the effectiveness of the program.

Subd. 3. [ALLOCATION.] No later than April 1 of each odd-numbered year, the commissioner shall notify all county boards of the allocation procedures for the sliding fee program. No later than June 1 of each odd-numbered year, each county shall inform the commissioner of the number of persons estimated to need child care services and to use the program, and the expected cost for the following two state fiscal years. No later than July 1 of that year the commissioner shall allocate to each county its proportionate share of the appropriation for that year and the next fiscal year. In making the allocation the commissioner shall take into account the county's determination of need and the needs of counties relative to one another based on comparable data. If the appropriation is insufficient to meet the needs in all counties, the amount must be prorated among the counties. If a county does not expend its allocation during a fiscal year, any unused money must be returned to the commissioner for reallocation among counties whose needs have not been met.

Subd. 4. [FINANCIAL ELIGIBILITY.] (a) The county board shall make child care services available to families who need child care to find or keep employment or to obtain the training or education necessary to find employment and who:

(1) receive aid to families with dependent children under sections 256.72 to 256.87; or

(2) have household income below the eligibility levels for aid to dependent families; or

(3) have household income within a range established by the county board.

(b) Child care services for the families receiving aid to families with dependent children must be made available as in-kind services, to cover any difference between the actual cost and the amount disregarded under the aid to families with dependent children program.

(c) Child care services to families with incomes in the board's established range must be made available on a sliding fee basis. The lower limit of the board's range must be the eligibility limit for aid to families with dependent children. The upper limit of the range must not be less than 70 percent, and must not be more than 90 percent, of the state median income for a family of four, adjusted for family size.

Subd. 5. [FUNDING PRIORITIES.] The county may establish priorities of service among the categories of families designated in subdivision 4, paragraph (a). At least 20 percent of the money allocated to the county under this section must be used for each category unless a county can demonstrate that the need in a category can be met with less than 20 percent of the money.

Subd. 6. [EMPLOYMENT OR TRAINING ELIGIBILITY.] Persons who are seeking employment and who are eligible for assistance under this section shall receive the equivalent of one month of child care. To be eligible for child care assistance, employed persons must work at least 20 hours a week and receive at least the minimum wage for all hours worked.

Persons eligible under this section for child care assistance for education

or training shall receive assistance for the length of the program or 24 months, whichever is shorter. Any education or training program approved by the department of education and accredited by the appropriate agency is an eligible program, including but not limited to high school or an equivalent program, an English competency program, technical or vocational training, or a four-year or associate degree program. The commissioner shall develop a training and employment program for each applicant to ensure that the applicant will enter the labor force.

Subd. 7. [COUNTY CONTRIBUTION.] In addition to payments from parents, the program must be funded by county contributions. Counties shall contribute five percent of the cost of the program in the first year and 15 percent in the second and subsequent years that the county provides services under this section.

Subd. 8. [SLIDING FEE SCALE.] In setting the sliding fee schedule, the commissioner shall exclude from the amount of income used to determine eligibility under the board's established range, an amount for federal and state income and social security taxes attributable to that income level according to federal and state standardized tax tables. The fee schedule must be designed to use any available tax credits and to progress smoothly from appropriated assistance to tax-related assistance.

Subd. 9. [LIMITS ON USE OF STATE FUNDS.] When the county charges parents a fee that is less than the sliding fee set by the commissioner for the same service, the state's payment is limited to the difference between the fee set by the commissioner and the provider's charge for care. When the provider of child care services charges more than 125 percent of the median charge for similar care arrangements in the geographic area defined by the commissioner for the purpose of ascertaining the median charge, the state's payment is limited to the difference between 125 percent of the median charge for similar care arrangements in the geographic area and the parents' fee.

Subd. 10. [EXTENSION OF WORK INCENTIVE OPPORTUNITIES.] The county board shall ensure that child care services available to county residents are well advertised and that everyone who receives or applies for aid to families with dependent children is informed of training and employment opportunities and programs, including child care services. The county board may accept gifts, grants, bequests, devises, or offers of inclusion of services or employee fringe benefits for use in providing child care services under this section. The county board is encouraged to develop public-private partnerships for child care services.

Subd. 11. [ADMINISTRATIVE EXPENSES.] A county must not use more than ten percent of the first \$200,000 and seven percent of the balance of any allocation for its administrative expenses under this section."
