Sec. 2. Minnesota Statutes 1986, section 216B.44, is amended to read:

216B.44 [MUNICIPAL SERVICE TERRITORY EXTENSIONS.]

Notwithstanding the provisions of sections 216B.38 to 216B.42, whenever a municipality which owns and operates an electric utility (a) extends its corporate boundaries through annexation or consolidation, or (b) determines to extend its service territory within its existing corporate boundaries, the municipality shall thereafter furnish electric service to these areas unless the area is already receiving electric service from an electric utility, in which event, the municipality may purchase the facilities of the electric

utility serving the area. *If the municipality elects not to purchase the facilities of the electric utility, the municipality may serve a customer who has a connected load in excess of 25,000 kilowatts upon completion of the customer's contract with the utility formerly serving the customer by payment of wheeling charges to that utility provided that the municipality has notified the commission by January 1, 1987, of its intention to serve that customer at the end of the customer's contract.* If the municipality ~~acquiring~~ elects to acquire the facilities, the municipality shall pay to the electric utility formerly serving the area the appropriate value of its properties within the area which payment may be by exchange of other electric utility property outside the municipality on an appropriate basis giving due consideration to revenue from and value of the respective properties. In the event the municipality and the electric utility involved are unable to agree as to the terms of the payment or exchange, the municipality or the electric utility may file an application with the commission requesting that the commission determine the appropriate terms for the exchange or sale. After notice and hearing, the commission shall determine appropriate terms for an exchange, or in the event no appropriate properties can be exchanged, the commission shall fix and determine the appropriate value of the property within the annexed area, and the transfer shall be made as directed by the commission. In making that determination the commission shall consider the original cost of the property, less depreciation, loss of revenue to the utility formerly serving the area, expenses resulting from integration of facilities, and other appropriate factors. Until the determination by the commission, the facilities shall remain in place and service to the public shall be maintained by the owner. However, the electric utility being displaced, serving the annexed area, shall not extend service to any additional points of delivery within the annexed area if the commission, after notice and hearing, with due consideration of any unnecessary duplication of facilities, shall determine that the extension is not in the public interest.

When property of an electric utility located within an area annexed to a municipality which owns and operates an electric utility is proposed to be acquired by the municipality, ratification by the electors is not required.

When property of an electric utility located within the existing corporate boundaries of a municipality that currently operates a municipal electric utility is proposed to be included within the service territory of the municipal electric utility, ratification by the electors is not required."

[ADDITIONAL ENTERPRISE ZONE ALLOCATIONS.] (a) In addition to tax reductions authorized in subdivision 7, the commissioner may allocate \$600,000 for tax reductions pursuant to section 172, subdivisions 1 to 8, to hardship area zones or border city zones. Of this amount, a minimum of \$200,000 must be allocated to an area added to an enterprise zone pursuant to Laws 1986, chapter 465, article 2, section 3. Allocations made pursuant to this subdivision may not be used to reduce a tax liability, or increase a tax refund, prior to July 1, 1987. Limits on the maximum allocation to a zone imposed by subdivision 7 do not apply to allocations made under this subdivision.

(b) A city encompassing an enterprise zone, or portion of an enterprise zone, qualifies for an additional allocation under this subdivision if the following requirements are met:

(1) the city encompassing an enterprise zone, or portion of an enterprise zone, has signed contracts with qualifying businesses that commit the city's total initial allocation received pursuant to subdivision 7; and

(2) the city encompassing an enterprise zone, or portion of an enterprise zone, submits an application to the commissioner requesting an additional allocation for tax reductions authorized by section 172, subdivisions 1 to 8. The application must identify a specific business expansion project which would not take place but for the availability of enterprise zone tax incentives.

(c) The commissioner shall use the following criteria when determining which qualifying cities shall receive an additional allocation under this subdivision and the amount of the additional allocation the city is to receive:

(1) additional allocations to qualifying cities under this subdivision shall be made within 60 days of receipt of an application;

(2) applications from cities with the highest level of economic distress, as determined using criteria listed in section 169, subdivision 4, paragraph (a), clauses (1) to (5), shall receive priority for an additional allocation under this subdivision;

(3) if the commissioner determines that two cities submitting applications within one week of each other have equal levels of economic distress, the application from the city with the business prospect which will have the greatest positive economic impact shall receive priority for an additional allocation. Criteria used by the commissioner to determine the potential economic impact a business would have shall include the number of jobs created and retained, the amount of private investment which will be made by the business, and the extent to which the business would help alleviate the economic distress in the immediate community; and

(4) the commissioner shall determine the amount of any additional al-

location a city may receive. The commissioner shall base the amount of additional allocations on the commissioner's determination of the amount of tax incentives which are necessary to ensure the business prospect will expand in the city. No single allocation under this subdivision may exceed \$100,000. No city may receive more than \$250,000 under this subdivision."
