157.03 [LICENSES REQUIRED; FEES.]

Each year every person, firm, or corporation engaged in the business of conducting an hotel, motel, restaurant, lodging house, boarding house, or resort, or place of refreshment, or who shall hereafter engage in conducting any such business, except vending machine operators and grocery and convenience stores licensed under the license provisions of sections 28A.01 to 28A.16, must procure a license for each hotel, motel, restaurant, lodging house, boarding house, or resort, or place of refreshment so conducted. For any hotel, motel, resort, campground, or manufactured home park as defined in section 327.15, in which food, fountain, or bar service is furnished, one license, in addition to the hotel, resort, manufactured home park, or campground license, shall be sufficient for all restaurants and places of refreshment conducted on the same premises and under the same management with the hotel, motel, resort, manufactured home park, or campground. Each license shall expire and be renewed as prescribed by the commissioner pursuant to section 144.122. Any proprietor who operates a place of business after the expiration date without first having made application for a license and without having made payment of the fee thereof shall be deemed to have violated the provisions of this chapter and be subject to prosecution, as provided in this chapter. In addition thereto, a penalty in an amount prescribed by the commissioner pursuant to section 144.122 shall be added to the amount of the license fee and paid by the proprietor, as provided herein, if the application has not reached the office of the state commissioner of health within 30 days following the expiration of license; or, in the case of a new business, 30 days after the opening date of the business. For hotels, motels, lodging houses, and resorts, the license fee may be graduated according to the number of sleeping rooms and the amount of the fees shall be prescribed by the state commissioner of health pursuant to section 144.122.

For restaurants, places of refreshment, and boarding houses, the license fee may be based on the average number of employees. If the license fee is so computed, the commissioner shall consider each full-time employee as one employee and each part-time employee as that fraction of one employee as the number of months the employee is employed is to the 12 months of the year. Employees shall include all persons, except children of the licensee under the age of 18, at work in any capacity, either voluntary or paid, and whether or not reported under the labor laws of this state.

Subd. 8. [ACCESS TO NONPUBLIC DATA.] The data made nonpublic by this section are accessible to *the physician who attended the decedent at the time of death*, the legal representative of the decedent's estate, and to the decedent's surviving spouse, parents, children, and siblings and their legal representatives.

Sec. 2. Minnesota Statutes 1990, section 383B.225, subdivision 6, is amended to read:

Subd. 6. [INVESTIGATION PROCEDURE.] (a) Upon notification of the death of any person, as provided in subdivision 5, the county medical examiner or a designee may proceed to the body, take charge of it, and order, when necessary, that there be no interference with the body or the scene of death. Any person violating the order of the examiner is guilty of a misdemeanor. The examiner or the examiner's designee shall make inquiry regarding the cause and manner of death and prepare written findings together with the report of death and its circumstances, which shall be filed in the office of the examiner. When it appears that death may have resulted from a criminal act and that further investigation is advisable, a copy of the report shall be transmitted to the county attorney. The examiner may take possession of all property of the deceased, mark it for identification, and make an inventory. The examiner shall take possession of all articles useful in establishing the cause of death, mark them for identification and retain them securely until they are no longer needed for evidence or investigation. The examiner shall release any property or articles needed for any criminal investigation to law enforcement officers conducting the investigation. When a reasonable basis exists for not releasing property or articles to law enforcement officers, the examiner shall consult with the county attorney. If the county attorney determines that a reasonable basis exists for not releasing the property or articles, the examiner may retain them. The property or articles shall be returned immediately upon completion of

the investigation. When the property or articles are no longer needed for the investigation or as evidence, the examiner shall release the property or articles to the person or persons entitled to them. Notwithstanding any other law to the contrary, when personal property of a decedent has come into the possession of the examiner, and is not used for a criminal investigation or as evidence, and has not been otherwise released as provided in this subdivision, the name of the decedent shall be filed with the probate court, together with a copy of the inventory of the decedent's property. At that time, an examination of the records of the probate court shall be made to determine whether a will has been admitted to probate or an administration has been commenced. Property of a nominal value, including wearing apparel, may be released to the spouse or any blood relative of the decedent or to the person accepting financial responsibility for burial of the decedent. If property has not been released by the examiner and no will has been admitted to probate or administration commenced within six months after death, the examiner shall sell the property at a public auction upon notice and in a manner as the probate court may direct. If the name of the decedent is not known, the examiner shall inventory the property of the decedent and after six months may sell the property at a public auction. The examiner shall be allowed reasonable expenses for the care and sale of the property and shall deposit the net proceeds of the sale with the county administrator, or the administrator's designee, in the name of the decedent, if known. If the decedent is not known, the examiner shall establish a means of identifying the property of the decedent with the unknown decedent and shall deposit the net proceeds of the sale with the county administrator, or a designee, so, that, if the unknown decedent's identity is established within six years, the proceeds can be properly distributed. In either case, duplicate receipts shall be provided to the examiner, one of which shall be filed with the court, the other of which shall be retained in the office of the examiner. If a representative shall qualify within six years from the time of deposit, the county administrator, or a designee, shall pay the amount of the deposit to the representative upon order of the court. If no order is made within six years, the proceeds of the sale shall become a part of the general revenue of the county.

(b) Notwithstanding any provision of chapter 13, other than section 13.38, or any other law to the contrary, and for the purposes of this section alone, health-related records or data on a decedent whose death is being investigated under this section, whether the records or data are recorded or unrecorded, including but not limited to those concerning medical, surgical, psychiatric, psychological, or any other consultation, diagnosis, or treatment, including medical imaging, shall be made promptly available to the medical examiner, upon the medical examiner's written request, by a person having custody of, possession of, access to, or knowledge of the records or data. The medical examiner shall pay the reasonable costs of copies of records or data provided to the medical examiner under this section. Notwithstanding section 13.83, subdivisions 4 and 8, data collected or created pursuant to this subdivision relating to any psychiatric, psychological, or mental health consultation with, diagnosis of, or treatment of the decedent whose death is being investigated shall remain confidential or protected nonpublic data, except that the medical examiner's report may contain a summary of such data.

Subd. 7. [REPORTS.] (a) Deaths of the types described in this section must be promptly reported for investigation to the coroner by the law enforcement officer, attending physician, mortician, person in charge of the public institutions referred to in subdivision 1, or other person with knowledge of the death.

Subdivision 1. [GRANTS MAY BE AWARDED TO COMMUNITY HEALTH BOARDS AND INDIAN RESERVATIONS.] *Within the limits of funding provided by the legislature, the federal government, or public or private grants, the commissioner shall award grants to community health boards and the federally recognized Indian reservations to plan, develop, and implement community alcohol and drug use and abuse prevention programs. To be considered for a grant, a health board or Indian reservation must submit an application to the commissioner of health that includes a description of the planning process used, a description of community needs and existing resources, a description of the program activities to be implemented with grant money, and a list of the agencies and organizations with whom the board or Indian reservation intends to contract.*

Subd. 2. [LOCAL PLANNING REQUIREMENTS.] *To be eligible for a prevention grant, a community health board or Indian reservation must conduct a communitywide planning process that allows full participation of all agencies, organizations, and individuals interested in alcohol and drug use and abuse issues. This process must include at least an assessment of community needs, an inventory of existing resources, identification of prevention program activities that will be implemented, and a description of how the program will work collaboratively with programs in existence. A health board may comply with the planning requirements of this subdivision by expanding the community needs assessment process used to develop its community health plan under section 145A.10, subdivision 5.*

Subd. 3. [USE OF GRANT MONEY.] *Grant money may be used to plan, develop, and implement communitywide primary prevention programs relating to alcohol and other drug use and abuse. Programs may include specific components to address related health risk behaviors involving use of tobacco, poor nutrition, limited exercise or physical activity, and behaviors that create a risk of serious injury. Grantees may contract with other agencies and organizations to implement the program activities identified in the grant application. Special consideration for contracts must be given to local agencies and organizations with previous experience conducting alcohol and other drug prevention programs. Grant money must not be used for alcohol and other drug testing, treatment, or law enforcement activities. Grant money must not be used to supplant or replace funding provided from other sources.*

Subd. 4. [LOCAL MATCH.] *Prevention grant money provided by the commissioner must not exceed 75 percent of the estimated cost of the eligible prevention program activities for the fiscal year for which the grant is*

awarded. Local funding of the remainder of the costs may be provided from the sources specified in section 145A.13, subdivision 2, paragraph (a).

Subd. 5. [FORMULA FOR DISTRIBUTING GRANTS.] The commissioner of health shall set aside that portion of the available prevention program grant money that is identified by the legislature for distribution to Indian reservations. The remaining grant money must be allocated to community health boards as follows:

(1) 25 percent must be allocated based on each community health service area's proportion of the total number of counties and individual cities that comprise community health boards in the state;

(2) 25 percent must be allocated based on each community health service area's proportion of the total state population;

(3) 25 percent must be allocated based on each community health service area's proportion of all persons on medical assistance, using the most recent year for which data is available; and

(4) 25 percent must be allocated based on each community health service area's proportion of the total years of potential life lost prior to age 75 from heart disease, cancer, stroke, cirrhosis, and injuries, as determined by averaging the data for the three most recent years for which data is available.

Subd. 6. [REALLOCATION OF GRANT MONEY.] If no approvable application is received from a community health board or Indian reservation, the commissioner shall reallocate the grant money to other community health boards and Indian reservations for which approvable applications have been received.

Subd. 7. [TRANSFER OF FUNDS.] Federal money provided to the commissioner of education for community prevention grants through the federal Drug Free Schools and Communities Act are transferred to the commissioner of health for prevention grants under this section.
