Subd. 7. [COUNTIES; PROCESSING OF APPLICATIONS FOR ANIMAL LOT PERMITS.] Any Minnesota county board may, by resolution, with approval of the pollution control agency, assume responsibility for processing applications for permits required by the pollution control agency under this section for livestock feedlots, poultry lots or other animal lots. The responsibility for permit application processing, if assumed by a county, may be delegated by the county board to any appropriate county officer or employee.

(a) For the purposes of this subdivision, the term "processing" includes:

(1) the distribution to applicants of forms provided by the pollution control agency;

(2) the receipt and examination of completed application forms, and the certification, in writing, to the pollution control agency either that the animal lot facility for which a permit is sought by an applicant will comply with applicable rules and standards, or, if the facility will not comply, the respects in which a variance would be required for the issuance of a permit; and

(3) rendering to applicants, upon request, assistance necessary for the proper completion of an application.

(b) For the purposes of this subdivision, the term "processing" may include, at the option of the county board, issuing, denying, modifying, imposing conditions upon, or revoking permits pursuant to the provisions of this section or rules promulgated pursuant to it, subject to review, suspension, and reversal by the pollution control agency. The pollution control agency shall, after written notification, have 15 days to review, suspend, modify, or reverse the issuance of the permit. After this period, the action of the county board is final, subject to appeal as provided in chapter 14.

(c) For the purpose of administration of rules adopted under this subdivision, the commissioner and the agency may provide exceptions for cases where the owner of a feedlot has specific written plans to close the feedlot within five years. These exceptions include waiving requirements for major capital improvements.

(d) For purposes of this subdivision, a discharge caused by an extraordinary natural event such as a precipitation event of greater magnitude than the 25-year, 24-hour event, tornado, or flood in excess of the 100-year flood is not a "direct discharge of pollutants."

(e) In adopting and enforcing rules under this subdivision, the commissioner shall cooperate closely with other governmental agencies.

(f) The pollution control agency shall work with the Minnesota extension service, the department of agriculture, the board of water and soil resources, producer groups, local units of government, as well as with appropriate federal agencies such as the Soil Conservation Service and the Agricultural Stabilization and Conservation Service, to notify and educate producers of rules under this subdivision at the time the rules are being developed and adopted and at least every two years thereafter.

(g) The pollution control agency shall adopt rules governing the issuance and denial of permits for livestock feedlots, poultry lots or other animal lots pursuant to this section. ~~A feedlot permit is not required for livestock feedlots with more than ten but less than 50 animal units; provided they are not in shoreland areas.~~ A feedlot permit is not required for an animal feedlot with less than 50 animal units unless an inspection by agency staff or a county feedlot pollution control officer determines that the animal feedlot creates or maintains a potential pollution hazard. These rules apply both to permits issued by counties and to permits issued by the pollution control agency directly.

(h) The pollution control agency shall exercise supervising authority with respect to the processing of animal lot permit applications and adoption of ordinances affecting their operation by a county. Before adoption of a feedlot ordinance under this subdivision, the county must notify the pollution control agency and the commissioner of agriculture that it is considering such an ordinance. The pollution control agency in conjunction with the commissioner of agriculture must provide information and technical assistance to enable the county to develop the ordinance. After the ordinance is completed, and before adoption, the county must submit a copy of the ordinance to the pollution control agency and to the commissioner of agriculture for review and comment on the environmental and agricultural effect of specific provisions in the ordinance. Within 60 days after receiving a copy of the proposed ordinance for review and comment, the pollution control agency in conjunction with the commissioner of agriculture must provide an advisory report to the county board and publish a notification of the advisory report in a newspaper of general circulation in the county. The ordinance may not become effective before 60 days after the advisory report is provided.

(i) A local ordinance that contains a setback for new feedlots from residences must provide for a new residence setback from existing feedlots located in areas zoned agricultural at the same distances and conditions specified in the setback for new feedlots, unless the new residence is built to replace an existing residence or is on land under the same ownership as that of the feedlot. A county may grant a variance from this requirement, under section 394.27, subdivision 7."

Page 3, line 28, delete "\$....." and insert "\$100,000"

Renumber the sections in sequence

Amend the title as follows:

Page 1, line 3, after the first semicolon, insert "allowing certain feedlots to operate without a permit; providing that certain local ordinances be submitted to the pollution control agency and the commissioner of agriculture for approval; providing for setbacks between feedlots and residences;" and before "proposing" insert "amending Minnesota Statutes 1995 Supplement, section 116.07, subdivision 7;"

And when so amended the bill do pass and be re-referred to the Committee on Governmental Operations and Veterans. Amendments adopted. Report adopted.
