"Sec. 4. Minnesota Statutes 1976, Section 206.17, is amended to read:

206.17 [OFFICIALS TO PREPARE MACHINES FOR USE.] It shall be the duty of the proper authority having direct charge of elections in each municipal corporation where voting machines or electronic voting systems which do not use paper ballots are to be used to cause the proper ballot labels to be placed on the

voting machines or marking devices and to place the machines in proper order for voting. These ballot labels shall have printed on the face thereof the words "Official Ballot," and the date of the election, a facsimile of the signature of the officer under whose direction the ballot is printed. The authorities shall examine all voting machines before they are sent out to the different polling places, to see that all the registering counters are set at zero (000), to lock all voting machines so that the counting mechanism cannot be operated, and to seal each voting machine with a numbered seal and to make a written record thereof.

Before preparing the voting machines for any election written notices shall be mailed to the chairman of the county committee of each political party, who have theretofore presented the name of the chairman to the county auditor, stating the times when and the place or places where the voting machines will be prepared, at which times and places one representative of each such political party designated by the respective chairman of such county committee of such party shall be entitled to be present and see that the machines are properly prepared and placed in proper condition and order for use at the election. In non-partisan primaries and elections each candidate may designate one representative who shall have the same powers as the political party representatives.

When the machines have been prepared for the election it shall be the duty of the custodians and political party or candidate representatives to make a certificate in writing which shall be filed in the office of the proper authority having charge of the conduct of elections in such municipality, stating the serial number of each machine, whether or not all registering counters have been set at zero (000), the number registered on the protective counter and the number on the metal seal with which the machine is sealed.

Where electronic voting systems are used, within five days prior to the election day, the election officer in charge shall have the automatic tabulating equipment tested to ascertain that the equipment will correctly count the votes cast for all offices and on all measures. Public notice of the time and place of the test shall be given at least two days prior thereto by publication once in official newspapers. The test shall be observed by at least two judges, who shall not be of the same political party, and shall be open to representatives of the political parties, candidates, the press and the public. The test shall be conducted by processing a preaudited group of ballots so punched or marked as to record a predetermined number of valid votes for each candidate and on each measure, and shall include for each office one or more ballots which have votes in excess of the number allowed by law in order to test the ability of the automatic tabulating equipment to reject such votes. If any error is detected, the cause therefor shall be ascertained and corrected and an errorless count shall be made before the automatic tabulating equipment is approved. The test shall be repeated immediately before the start of the official count of the ballots, in the same manner as set forth above. After the completion of the count, the programs used and ballots shall be sealed, retained, and disposed of as provided for paper ballots.

Sec. 5. [EFFECTIVE DATE.] *This act is effective the day following final enactment, except it shall not apply to any election for which filings have closed by that date.*"

414.02 [MUNICIPAL INCORPORATION.] Subdivision 1. [INITIATING THE INCORPORATION PROCEEDINGS.] This section provides the exclusive method of incorporating a municipality in any county containing a city of the first or second class, in any county within any metropolitan areas as defined in section 473.02, subdivision 5, or in any other area of Minnesota if the proposed new municipality is within four miles of the boundary of an existing municipality. In any other area in Minnesota the petition or resolution for incorporation shall be filed with the board of county commissioners which shall apply the standards and procedures of this section in determining whether or not to order an incorporation. Hearings before the board of county commissioners shall be conducted by the secretary *Minnesota*. Proceedings for incorporation of a municipality may be initiated by petition of 100 or more property owners or by resolution of the town board having jurisdiction within an area containing a resident population of not less than 500 persons, and which is not included within the limits of any incorporated municipality and which area includes land that has been platted into lots and blocks in the manner provided by law. The petition or resolution shall be submitted to the secretary *executive director* and shall state the quantity of land embraced in it, platted and unplatted, the assessed valuation of the property, both platted and unplatted, the estimated number of actual residents, the proposed name of the municipality, a brief description of the existing facilities as to water, sewage disposal and fire and police protection, the names of all parties entitled to mailed notice under section 414.09, the reason for requesting incorporation, and shall include a *proposed corporate boundary map setting forth the boundaries of the territory*.

Subd. 2. [BOARD'S HEARING AND NOTICE.] Upon receipt of a petition or resolution made pursuant to subdivision 1, the secretary *executive director* of the board shall designate a time and place for a hearing in accordance with section 414.09.

Subd. 3. [BOARD'S ORDER.] Upon completion of the hearing *In arriving at its decision, the board shall consider the following factors:*

(a) *Present population, past population growth and projected population for the area;*

(b) *Quantity of land, both platted and unplatted, within the area proposed for incorporation; the natural terrain of the area including general topography, major watersheds, soil conditions and such natural features as rivers, lakes and major bluffs;*

(c) *Present pattern of physical development in the area including residential, industrial, commercial, agricultural and institutional land uses; the present transportation network and potential transportation issues, including proposed highway development;*

(d) *Land use controls and planning presently being utilized in the area, including comprehensive plans for development in the area. If there is an inconsistency between the proposed development and the land use planning ordinance in force, the reason for the inconsistency;*

(e) Present governmental services being provided to the area, including water and sewer service, fire rating and protection, police protection, street improvements and maintenance, administrative services, and recreational facilities;

(f) Existing or potential problems of environmental pollution and the need for additional services to resolve these problems;

(g) Fiscal data of the area, including the assessed valuation of both platted and unplatted lands and the division between homestead and nonhomestead property, and the present bonded indebtedness; and the mill rates of the county, school district, and township;

(h) Relationship and effect of the proposed incorporation on communities adjacent to the area and on school districts within and adjacent to the area;

(i) Adequacy of town government to deliver services to the area; and

(j) Analysis of whether necessary governmental services can best be provided through incorporation or annexation to an adjacent municipality.

Based upon these factors, the board may order the incorporation if it finds that (a) the property to be incorporated is now, or is about to become, urban or suburban in character, or (b) that the existing township form of government is not adequate to protect the public health, safety, and welfare, or (c) the proposed incorporation would be in the best interests of the area under consideration. The board may deny the incorporation if the area, or a part thereof would be better served by annexation to or consolidated with an adjacent municipality. As a guide in arriving at a determination, the board shall consider the following factors:

(a) Present population, past population growth and projected population for the area;

(b) Quantity of land within the area proposed for incorporation;

(c) Present pattern of physical development in the area including residential, industrial, commercial and institutional land uses;

(d) Comprehensive plans for development of the area including development as projected by the metropolitan council or the state planning agency;

(i) Fiscal data of the area including assessed valuation trends, mill rate trends (state, county school district and town) and present bonded indebtedness;

(j) Relationship and effect of the proposed incorporation on communities adjacent to the area and school districts within and adjacent to the area;

(k) Analysis of whether the needed governmental services can best be provided through incorporation or annexation to an adjacent municipality; and

(l) Adequacy of town government to deal with problems of the area.

The board may alter the boundaries of the proposed incorporation by increasing or decreasing the area to be incorporated so as to include only that property which is now, or is about to become, urban or suburban in character, or may exclude property that may be better served by another unit of government. *In all cases, the board shall set forth the factors which are the basis for the decision.*

Notwithstanding any other provision of law to the contrary relating to the number of wards which may be established, the board may provide for election of councilmen by wards, not less than three nor more than seven in number, whose limits are prescribed in the board order upon a finding that area representation is required to accord proper representation in the proposed incorporated area because of uneven population density in different parts thereof or the existence of agricultural lands therein which are in the path of suburban development, but after four years from the effective date of an incorporation the council of the municipality may by resolution adopted by a four-fifths vote abolish the ward system and provide for the election of all councilmen at large as in other municipalities.

The board's order for incorporation shall provide for the election of ~~municipality~~ *municipal* officers in accordance with section 414.09. The plan of government shall be "Optional Plan A", provided that an alternate plan may be adopted pursuant to Minnesota Statutes 1967, Section 412.551, at any time. *The ordinances of the township in which the new municipality is located shall continue in effect until repealed by the governing body of the new municipality.*

If the proceeding is initiated by a petition of property owners, the petition shall be accompanied by a resolution of the annexing municipality ~~approving supporting the annexation petition .~~

Subd. 3. [BOARD'S HEARING AND NOTICE.] Upon receipt of a petition or resolution initiating an annexation the ~~secretary~~ *executive director* shall designate a time and a place for a hearing in accordance with section 414.09.

(l) Analysis of whether necessary governmental services can best be provided through incorporation or annexation to an adjacent municipality; and

(m) If only a part of a township is annexed, the ability of the remainder of the township to continue or the feasibility of it being incorporated separately or being annexed to another municipality.

Based upon these factors, the board may order the annexation (a) if it finds that the property proposed for annexation is now, or is about to become, urban or suburban in character. The board may in any case order the annexation, or (b) if it finds that municipal government of the property in the area proposed for annexation is required to protect the public health, safety, and welfare in reference to plat control or land development and construction which may be reasonably expected to occur within a reasonable time thereafter and, or (c) if it finds that the annexation would be in the best interest of the annexing municipality and of the property proposed for annexation and, . If only a part of a township is to be annexed, that the board shall consider whether the remainder of the township can continue to carry on the functions of government without undue hardship. The petition shall be denied if the board shall deny the annexation if it finds that the increase in revenues for the annexing municipality bears no reasonable relation to the monetary value of benefits conferred upon the annexed area. The annexation may be denied board may deny the annexation (a) if it appears that annexation of all or a part of the property to an adjacent municipality would better serve the interests of the residents of the property or (b) if the remainder of the township would suffer undue hardship. In arriving at its decision the board shall consider the following factors:

(a) Present population, past population growth and projected population of the property proposed for annexation and the annexing municipality;

(b) Area of the property proposed for annexation and the annexing municipality;

(c) Present pattern of physical development of the property proposed for annexation and the annexing municipality including residential, industrial, commercial and institutional land uses;

remainder of the township to continue or the feasibility of it being incorporated separately or being annexed to another municipality.

The board may alter the boundaries of the area to be annexed by increasing or decreasing the area so as to include only that property which is now or is about to become urban or suburban in character or to add property of such character abutting the area proposed for annexation in order to preserve or improve the symmetry of the area, or to exclude property that may better be served by another unit of government. If the board determines that part of the area would be better served by another municipality or township, the board may initiate and approve annexation on its own motion by conducting further hearings and issuing orders pursuant to subdivisions 3, 4, and 5. In all cases, the board shall set forth the factors which are the basis for the decision.

Subd. 4a. [PROCEEDINGS INITIATED BY JOINT RESOLUTION.] If the proceeding has been initiated under subdivision 1, clause (d), any annexation order shall include a provision for the election of new municipal officers in accordance with section 414.09. The expanded municipality shall be governed by the home rule charter or statutory form which governs the annexing municipality, except that any ward system for the election of councilmen shall be inoperable. The ordinances of both the annexing municipality and the township shall continue in effect within the former boundaries until repealed by the governing body of the new municipality.

Notwithstanding any other provision of law to the contrary the board may provide for election of councilmen by wards, not less than three nor more than seven in number, whose limits are prescribed in the board order, upon a finding that area representation is required to accord proper representation in the municipality because of uneven population density in different parts thereof or the existence of agricultural lands therein which are in the path of suburban development; but after four years from the effective date of an annexation the council of the municipality may by resolution adopted by a four-fifths vote abolish the ward system and provide for the election of all councilmen at large.

Subd. 5. [ANNEXATION ELECTION.] Where the proceeding for annexation has not been initiated by petition of a majority of the property owners within the area to be annexed, or when the board has assumed jurisdiction under section 414.-031, subdivision 1, clause (d) and orders that the entire township named in the resolution be annexed to the city named in the resolution, no referendum is required. In all other instances the order of the board for annexation shall fix a day, not less than twenty days nor more than ninety days, after the entry of such an order, when an election shall be held at a place designated by the board within the area determined by the board to be primarily and substantially interested in or affected by the board order. The secretary executive director shall cause a copy of the order affirming the petition, including the notice of the election, to be posted not less than 20 days before the election in three public places in the area, and shall cause notice of the election to be published two successive weeks in a newspaper qualified as medium of official and legal publication, of general circulation, in the area. The board shall appoint the necessary election judges from voters resident in the area and shall supervise them in their duties. The board shall designate the polling place or places, using so far as possible the usual polling place or places. The polls shall be open at least 13 hours and until at least 8 p.m. The judges shall conduct the election so far as practicable in accordance with the laws regulating special elections. Only voters residing within the area primarily and substantially interested in or affected by the board's order shall be entitled to vote. The ballot shall bear the words "For Annexation" and "Against Annexation" with a square before each of the phrases in one of which the voter shall make a cross to express his choice. The ballots and election supplies shall be provided and the election judges shall be paid by the petitioners or annexing municipality. Immediately upon completion of the counting of the ballots, the judges of the election shall make a signed and verified certificate declaring the time and place of holding the election, that they have canvassed the ballots cast, and the number cast both for and against the proposition, and they shall then file the certificate with the secretary executive director of the board. If the certificate shows the majority of the votes cast were "For Annexation" the board's order shall be effective in accordance with subdivision 6. *If a majority of votes were cast against the annexation, the board shall not issue an order for annexation. If the annexation is denied, or if it is defeated in the referendum, no proceeding for the annexation of substantially the same area may be initiated within two years from the date of the board's order, unless the new proceeding is initiated by a majority of the area's property owners and the petition is supported by any abutting townships and municipalities. The secretary executive director shall attach*

the certificate to the original petition or resolution, the original order affirming the petition or resolution as submitted or as amended in the order, and the original proofs of the posting of the election notice, and the annexation order upon receipt of the certificate notify all parties of record of the election results.

Subd. 6. [EFFECTIVE DATE OF ANNEXATION.] Upon the execution of the annexation order, pursuant to subdivision 5, a certified copy shall be sent to the council of the annexing city, the town board of the township in which the annexation area is located, and to the individual petitioners if initiated in that manner. A certified copy of the annexation order shall be sent to the secretary of state and the county auditor of the county or counties in which the property annexed is located. The annexation shall be effective as of the date of such filing fixed in the annexation order or on such later date as is fixed in the annexation order.

Sec. 14. Minnesota Statutes 1976, Chapter 414, is amended by adding a section to read:

[414.0325] [ORDERLY ANNEXATIONS WITHIN A DESIGNATED AREA.] *Subdivision 1. [INITIATING THE PROCEEDING.] One or more townships and one or more municipalities, by joint resolution, may designate an unincorporated area as in need of orderly annexation and may confer jurisdiction on the board over annexations in the designated area and over the various provisions in said agreement by submission of said joint resolution to the executive director. The resolution shall include a description of the designated area. Thereafter, an annexation of any part of the designated area may be initiated by submitting to the executive director a resolution of any signatory to the joint resolution or by the board of its own motion. Whenever the pollution control agency or other state agency pursuant to sections 115.03, 115.47, 115.49, or any law giving a state agency similar powers, orders a municipality to extend a municipal service to a designated unincorporated area, such an order will confer jurisdiction on the Minnesota Municipal Board to consider designation of the area for orderly annexation.*

Subd. 2. [BOARD'S HEARING AND NOTICE.] Upon receipt of a resolution for annexation of a part of the designated area, the executive director shall set a time and place for a hearing in accordance with section 414.09.

Subd. 3. [BOARD'S ORDER.] In arriving at its decision, the board shall consider the following factors:

(a) Present population, past population growth and projected population of the property proposed for annexation and the annexing municipality;

(b) Quantity of land within the property proposed for annexation and the annexing municipality; and natural terrain including general topography, major watersheds, soil conditions and such natural features as rivers, lakes and major bluffs;

(c) Degree of contiguity of the boundaries between the annexing municipality and the property proposed for annexation;

(d) Present pattern of physical development of the property proposed for annexation and the annexing municipality including residential, industrial, commercial, agricultural and institutional land uses; the present transportation network and potential transportation issues, including proposed highway development;

(e) Land use controls and planning presently being utilized in the annexing municipality and the property proposed for annexation, including comprehensive plans for development in the area. If there is an inconsistency between the proposed development and the land use planning ordinance in force, the reason for the inconsistency;

(f) Present governmental services being provided in the annexing municipality and the property proposed for annexation, including water and sewer service, fire rating and protection, police protection street improvements and maintenance, administrative services, and recreational facilities;

(g) Existing or potential problems of environmental pollution and the need for additional services to resolve these problems;

(h) Plans and programs by the annexing municipality for providing needed governmental services to the property proposed for annexation;

(i) Fiscal data of the annexing municipality and the property proposed for annexation, including assessed valuation and the present bonded indebtedness, and the mill rates of the county, school district, and township;

(j) Relationship and effect of the proposed annexation on communities adjacent to the area and on school districts within and adjacent to the area;

(k) Adequacy of town government to deliver necessary services to the property proposed for annexation;

(l) Analysis of whether the needed governmental services can best be provided through incorporation or annexation to an adjacent municipality; and

(m) If only a part of a township is annexed, the ability of the remainder of the township to continue or the feasibility of it being incorporated separately or being annexed to another municipality.

Based upon these factors, the board may order the annexation if it finds that the area proposed for annexation (a) is now or is about to become urban or suburban in character and that the annexing municipality is capable of providing the services required by the area within a reasonable time; or (b) if it finds that the existing township form of government is not adequate to protect the public health, safety, and welfare; or (c) if it finds that annexation would be in the best interests of the area proposed for annexation. The board may deny the annexation if it conflicts with any provision of the joint agreement. The board may alter the boundaries of the proposed annexation by increasing or decreasing the area so as to include that property within the

designated area which is in need of municipal services or will be in need of municipal services.

If the annexation is denied, no proceeding for the annexation of substantially the same area may be initiated within two years from the date of the board's order unless the new proceeding is initiated by a majority of the area's property owners and the petition is supported by affected parties to the resolution. In all cases, the board shall set forth the factors which are the basis for the decision.

Subd. 4. [EFFECTIVE DATE OF ANNEXATION.] The board's order shall be effective upon the issuance of the order or at such later time as is provided by the board in its order.

Subd. 5. [PLANNING IN THE AREA DESIGNATED FOR ORDERLY ANNEXATION.] A joint resolution may provide for the establishment of a board to exercise planning and land use control authority within any area designated as an orderly annexation area pursuant to this section, in the manner prescribed by Minnesota Statutes 1976, Section 471.59, Subdivisions 2 through 8, inclusive.

(b) The joint resolution may provide that joint planning and land use controls shall apply to any or all parts of the area designated for orderly annexation as well as to any adjacent unincorporated or incorporated area, provided that the area to be included shall be described in the joint resolution.

(c) If the joint resolution does not provide for joint planning and land use control, the following procedures shall govern:

If the county and townships agree to exclude the area from their zoning and subdivision ordinances, the municipality may extend its zoning and subdivision regulations to include the entire orderly annexation area as provided in section 462.357, subdivision 1, and section 462.358, subdivision 1.

If the county and township do not agree to such extraterritorial zoning and subdivision regulation by the municipality, zoning and subdivision regulation within the orderly annexation area shall be controlled by a three-member committee with one member appointed from each of the municipal, town, and county governing bodies. This committee shall serve as the "governing body" and "board of appeals and adjustments", for purposes of sections 462.357 and 462.358, within the orderly annexation area. The committee shall have all of the powers contained in sections 462.351 to 462.364, and shall have the authority to adopt and enforce the uniform fire code promulgated pursuant to section 199F.011.

to become urban or suburban in character, it may by ordinance declare such land annexed to the municipality. If the petition is not signed by all the property owners of the land proposed to be annexed, the ordinance shall not be enacted until the municipal council has held a hearing on the proposed annexation after at least 30 days mailed notice to all property owners within the area to be annexed.

As a guide in arriving at a determination, the board shall consider the following factors : In all cases, the board shall set forth the factors which are the basis for the decision.

(a) Present population, past population growth and projected population of the included municipalities;

If the most populous of the included municipalities is a city, the new municipality shall be governed by its home rule charter or the statutory form under which it is governed except that any ward system for the election of councilmen shall be inoperable. The ordinances of all the included municipalities shall continue in effect within their former boundaries until repealed by the governing body of the new municipality.

Notwithstanding any other provision of law to the contrary, the board may in its order establish a ward system in the new municipality, in which event it shall establish not less than three nor more than seven wards, each of which shall elect one councilman. When more than two years have elapsed after consolidation, the governing body may, by a four-fifths vote, abolish the ward system.

The new municipality shall assume the name of the most populous municipality unless previous to the election another name is chosen by joint resolution of a majority of the included municipalities.

The number of license privileges existing in the included municipalities prior to consolidation and pursuant to state law shall not be diminished as a result of the consolidation.

If the consolidation is denied, no proceeding for the consolidation of the same municipalities may be initiated within two years from the date of the board's order unless authorized by the board.

Subd. 4. [ADOPTION BY COUNCILS OF MUNICIPALITIES.] Notwithstanding any other provision of law to the contrary, no consolidation order of the board involving existing municipalities shall become effective unless adopted by the council of each affected municipality by a majority vote and unless the consolidation order of the board is approved by the qualified voters of the affected municipalities at a general or special election set according to law. The form of the ballot shall be fixed by the board; and, if a majority of the votes cast on the question in each municipality are in favor of its adoption, the order of the board shall become effective as provided herein.

Subd. 4a. [DIFFERENTIAL TAXATION.] Where one municipality is receiving substantially fewer municipal services, the board may provide that the mill levy of such a municipality shall be increased in substantially equal proportions over a period of not more than five years to equality with the mill levy in the remainder of the new municipality, such period to be determined by the board on the basis of the period reasonably required effectively to provide substantially equal municipal services.

Subd. 5. [EFFECTIVE DATE.] The consolidation shall be effective upon the election and qualification of new municipal officers, or at such later date as set by the board in its order.

Sec. 24. Minnesota Statutes 1976, Section 414.06, is amended to read:

414.06 [DETACHMENT OF PROPERTY FROM A MUNICIPALITY.] Subdivision 1. [INITIATING THE PROCEEDING.] Property which is situated within a municipality and abutting the municipal boundary, ~~unplatted, and occupied and used primarily for agricultural purposes rural in character and not developed for urban residential, commercial, or industrial purposes~~ may be detached from the municipality according to the following procedure. The proceeding may be initiated by submitting to the board a resolution of the municipality to which the land is attached or by submitting to the board a petition of all of the property owners of the land to be detached if the area is less than 40 acres or of 75 percent of the property owners if over 40 acres. The petition or resolution shall set forth the boundaries and the area of the land to be detached, the number and character of the buildings, the resident population, and the municipal improvements, if any, in the area.

Subd. 2. [BOARD'S HEARING AND NOTICE.] If both a resolution of the municipality and a petition by *all* the property owners are submitted, no hearing is necessary. In any other case, upon receipt of a petition or resolution, the ~~secretary executive~~ director of the board shall designate a time and place for a hearing in accordance with section 414.09.

Subd. 3. [BOARD'S ORDER.] Upon completion of the hearing, the board may order the detachment if it finds that the requisite number of property owners have signed the petition if initiated by the property owners, that the property is ~~unplatted and used and occupied primarily for agricultural purposes rural in character and not developed for urban residential, commercial or industrial purposes~~, that the property is within the boundaries of the municipality and abuts a boundary, that the detachment would not unreasonably affect the symmetry of the detaching municipality, and that the land is not needed for reasonably anticipated future development. *The board may deny the detachment if it finds that the remainder of the municipality cannot continue to carry on the functions of government without undue hardship.* The board shall have authority to decrease the area of property to be detached and may include only a part of the proposed area ~~in its order to be detached~~. If the tract abuts more than one township, it shall become a part of each township, being divided by projecting through it the boundary line between the townships. The detached area may be relieved of the primary responsibility for existing indebtedness of the municipality and be required to assume the indebtedness of the township of which it becomes a part, in such proportion as the board shall deem just and equitable having in view the amount of taxes due and delinquent and the indebtedness of each township and the municipality affected, if any, and for what purpose the same was incurred, all in relation to the benefit inuring to the detached area as a result of the indebtedness and the last assessed value of the taxable property in each township and municipality.

Subd. 4. [EFFECTIVE DATE OF DETACHMENT.] The detachment shall be effective upon the issuance of the board's order, or at such later date, as provided by the board in its order.

Sec. 25. Minnesota Statutes 1976, Section 414.061, Subdivision 1, is amended to read:

414.061 [CONCURRENT DETACHMENT AND ANNEXATION OF INCORPORATED LAND.] Subdivision 1. [INITIATING THE PROCEEDING.] Property of one municipality which abuts another may be concurrently detached and annexed by the procedure set forth in this section. The proceeding shall be initiated by submitting to the ~~secretary~~ *executive director* resolutions of both municipalities describing the land and stating their desire to detach and annex the land.

Sec. 26. Minnesota Statutes 1976, Section 414.061, Subdivision 4, is amended to read:

Subd. 4. [BOARD INITIATION.] The board may initiate proceedings for the concurrent detachment and annexation of portions of one municipality completely surrounded by another municipality, or upon application of all of the property owners, provided, however, that in such cases the board shall conduct hearings and issue its order as in the case of annexations of unincorporated property under section 414.041, subdivisions 2, and 5.

Sec. 27. Minnesota Statutes 1976, Chapter 414, is amended by adding a section to read:

[414.063] [JOINT AGREEMENTS.] *After notice and hearing as provided in section 414.09, the board may include provisions of joint agreements between political subdivisions in its orders.*

Sec. 28. Minnesota Statutes 1976, Section 414.065, is amended to read:

414.065 [STATE LANDS, PROCEEDINGS.] In any case in which the state is the fee owner of land partly or wholly within any area proposed to be annexed, incorporated, or detached part of a boundary adjustment, the executive council of the state of Minnesota may petition for, or consent to, any action proceeding under this chapter, if the council deems such action to be in the best interests of the state.

Sec. 29. Minnesota Statutes 1976, Section 414.067, is amended to read:

414.067 [APPORTIONMENT OF ASSETS AND OBLIGATIONS.] Subdivision 1. [TOWNSHIP OR MUNICIPALITY DIVIDED.] ~~Upon incorporation, consolidation, annexation, or concurrent detachment and annexation under section 414.02, 414.021, 414.031, 414.032, 414.041 and 414.061, Whenever the board divides an existing governmental unit, the board shall may~~ apportion the property and obligations of any township or municipality divided by board order between the governmental unit adding territory and the governmental unit from which the territory was obtained. The apportionment shall be made in a just and equitable manner having in view the value of the existing

township or municipal property located in the area to be added, the assets, value, and location of all the taxable property in the existing township or municipality, the indebtedness, the taxes due and delinquent, other revenue accrued but not paid to the existing township or municipality and the ability of any remainder of the township or municipality to function as an effective governmental unit. The order shall not relieve any property from any tax liability for payment for any bonded obligation, but the taxable property in the new municipality may be made primarily liable thereon.

Subd. 2. [ENTIRE TOWNSHIP OR MUNICIPALITY.] When an entire township is annexed by an existing municipality, or an entire township is incorporated into a new municipality, or an entire township or a municipality is consolidated into a new municipality, all money, claims, or properties, including real estate owned, held, or possessed by the annexed, incorporated or consolidated township or municipality, and any proceeds or taxes levied by such town or municipality, collected or uncollected, shall become and be the property of the new or annexing municipality with full power and authority to use and dispose of the same for public purposes as the council or new annexing municipality may deem best, subject to the rights of creditors. Any bonded indebtedness of a town or former municipality annexed to an existing municipality or incorporated or consolidated into a new municipality shall be borne only by that property within the boundaries of the former town or municipality, provided, however, the units of government concerned may by resolution of their governing bodies agree that the new municipality shall assume the bonded indebtedness of the former units of government existing and outstanding at the time of annexation, incorporation or consolidation.

Subd. 3. [REVISION OF TAX RECORDS; REDISTRIBUTION OF LEVIES.] In an apportionment made under this section the board may order the county auditor to revise tax records and respread levies at any time prior to December 15 or order the county treasurer to redistribute taxes levied and receivable.

414.07 [APPEALS.] Subdivision 1. [ORDERS OF BOARD, TIME LIMITATION.] All orders of the board, whether in connection with annexation, consolidation, incorporation or detachment shall be issued within two years from the date of the first hearing thereon provided that the time may be extended for a fixed additional period upon consent of all parties of record. Failure to so order shall be deemed to be an order denying the matter before the board. An appeal may be taken from such failure to so order in the same manner as an appeal from an order as provided in subdivision 2.

Subd. 2. [GROUNDS FOR APPEAL.] Any person aggrieved by any incorporation, annexation, detachment, or annexation detachment order of the board may appeal to the district court upon the following grounds:

- (a) That the board had no jurisdiction to act;
- (b) That the board exceeded its jurisdiction;
- (c) That the order of the board is arbitrary, fraudulent, capricious or oppressive or in unreasonable disregard of the best interests of the territory affected;
- (d) That the order is based upon an erroneous theory of law.

The appeal shall be taken in the district court in the county in which the majority of the area affected is located. The appeal shall not stay the effect of the order. *All notices and other documents shall be served on both the executive director and the attorney general's assistant assigned to the board.*

If the court shall determine that the action of the board involved is unlawful or unreasonable or is not warranted by the evidence in case an issue of fact is involved, the court may vacate or suspend the action of the board involved, in whole or in part, as the case may require, and thereupon the matter shall be remanded to the board for further action in conformity with the decision of the court.

To render a review of a board order effectual, the aggrieved person shall file with the clerk of the district court of the county wherein the majority of the area is located, within 30 days of such order, an application for review together with the grounds upon which the review is sought.

An appeal lies from the district court to the supreme court in accordance with the provisions of the rules of civil appellate procedure.

In any proceeding before the board and upon the request of any party, the board shall meet physically rather than by means of electronic media. The place of the hearing shall be in the county where a majority of the affected territory is situated, and shall be established for the convenience of the parties. The secretary executive director shall mail notice of the hearing to the following parties: the township or municipality presently governing the affected territory; any township or municipality abutting the affected territory; the county where the affected territory is situated; and each planning agency which has jurisdiction over the affected area. The acting clerk shall publish a notice of election in a newspaper qualified as a medium of official publication and of general circulation within the new municipality for two successive weeks immediately prior to the date designated by the board for the election. The election notice shall state the purpose, date, and polling places for the election, and shall state the time the polls shall be open, which time shall be at least five hours.

Subd. 2a. The commissioner of natural resources shall issue Minnesota sportsman licenses by March 1, 1978. The licenses shall be issued to residents only. The fee for licenses shall be \$9 if the angling license is for one person and \$12 if the angling license is a combination husband and wife license. These fees do not include the surcharge authorized pursuant to section 97.482, *the state trout stamp required by section 2 of this act*, nor the state waterfowl stamp required by section 97.4841.

The license shall authorize the licensee to:

- (1) Take small game;
- (2) Take fish by angling.

The game and fish subcommittee of the house of representatives and the fish and wildlife subcommittee of the senate shall study the feasibility of other combinations for sportsman's licenses prior to January 1, 1978.

In addition to the basic license fee, he shall collect a fee for issuing each license in the amount of 75 cents for the license to take deer and for the sportsman license authorized in section 98.46, subdivision 2a, and 50 cents for all other licenses. The state migratory waterfowl stamp required by section 97.4841, and the state trout stamp required by section 2 of this act, shall be considered to be a "license" within the meaning of this subdivision except when such a state migratory waterfowl stamp and a small game license, or a state trout stamp and an individual angling license, or two state trout stamps and a combination husband and wife angling license are issued in the same transaction in which case the stamp shall be considered a part of the ~~small~~ game license and only one issuing fee shall be collected. [629.72] [BAIL IN CASES OF DOMESTIC ASSAULT.]
Subdivision 1. [DETENTION IN LIEU OF CITATION; RELEASE.] Notwithstanding any other law or rule to the contrary, an arresting officer may not issue a citation in lieu of arrest and detention to an individual charged with assaulting his spouse or other individual with whom he resides.

Notwithstanding any other law or rule to the contrary, an individual who is arrested on a charge of assaulting his spouse or other person with whom he resides shall be brought to the police station or county jail. The officer in charge of the police station or the county sheriff in charge of the jail shall issue a citation in lieu of continued detention unless it reasonably appears to the officer or sheriff that detention is necessary to prevent bodily harm to the arrested person or another, or there is a substantial likelihood the arrested person will fail to respond to a citation.

If the judge so determines, he may impose any conditions of release which will reasonably assure the appearance of the person for subsequent proceedings, or may fix the amount of money bail without other conditions upon which the arrested person may obtain his release.

Subd. 3. [RELEASE AFTER 24 HOURS.] If the arrested person is not issued a citation by the officer in charge of the police station or the county sheriff pursuant to subdivision 1, or is not brought before a judge within the time limits prescribed in subdivision 1, he shall be released by the arresting authorities, and a citation shall be issued in lieu of continued detention.

[APPROVAL BY GOVERNING BODY.]** *No county auditor shall certify the value of a tax increment district until the tax increment financing plan proposed for that district has been approved by the governing body of the municipality in which the project is proposed to be located. If an authority which proposes to establish a tax increment project and the governing body of the municipality are not the same, the authority shall apply to the governing body of the municipality in which the project would be located and shall obtain the approval of its tax increment financing plan by the governing body before the authority may use tax increment financing.*

The specific factual bases for these findings shall be set forth. The plan shall also contain the following information: a statement by the authority of the objectives of the project; the development program for the project; estimates of the following: cost of the project, including administrative expenses; amount of bonded indebtedness to be incurred; sources of revenue to finance project costs; the original assessed value of property in the project; and the projected captured assessed value of the project at the time of its completion. Subd. 3. [PUBLIC HEARING.] Before approving a tax increment financing plan the governing body shall hold a public hearing on the plan. Notice of the hearing shall be published in a newspaper of general circulation in the municipality at least twice no less than ten days nor more than 30 days prior to the date of the hearing. A copy of the agreement shall be submitted to and approved by the governing body. No plan shall be approved unless the governing body finds that the proposed project will not contribute to urban sprawl. Any proposal to use tax increment financing in relation to any previously unincorporated real property annexed

by the municipality pursuant to chapter 414 within three years prior to the date of the application shall be deemed to contribute to urban sprawl. If the authority and the governing body of the municipality are not the same, the governing body shall within 90 days after submission of the application or resubmission as provided herein, give written notice to the authority of its decision with respect to the tax increment financing plan. If approval is not given within 90 days the application shall be deemed to have been rejected. A plan which has not been approved by the governing body when submitted to it may be again submitted to it with such modifications as are necessary to meet its objections.

Subd. 6. [MODIFICATION OF PLAN.] Any tax increment financing plan, whether adopted before or after the effective date of this act, may be modified by an authority. Any enlargement of geographic area, increase in amount of bonded indebtedness to be incurred, increase in the portion of the captured assessed value to be retained by the authority or use of revenues derived from any district in the municipality, if not included in the original tax increment financing plan, shall be approved by the governing body of the municipality upon notice and after public hearing as are required pursuant to the provisions of subdivision 3.

The original assessed value of any taxable real property added to a tax increment project pursuant to this subdivision shall be the assessed value of that real property as most recently determined prior to the modification of the financing plan which added the property.

If property which is added to a project pursuant to this subdivision is exempt from taxation at the time of its addition to the project, and subsequently becomes taxable it shall be added to the base at its value as most recently assessed pursuant to section 273.18 or, if that assessment was made more than one year prior to the addition of the property to the project, the value which shall be assessed by the assessor at the time of the addition.

Subd. 7. [ELIMINATION OF TAX-EXEMPT PROPERTY.] If, at any time after certification of the original assessed value of a tax increment district pursuant to section 7, property located within the district becomes exempt from taxation, an authority may eliminate that property from the district. Upon application of the authority, the county auditor shall reduce the original assessed value of the district by the amount of the value of that parcel at the time of certification of the district.

Sec. 6. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.76] [LIMITATION ON INCREMENTS.] If, after three years from the date of certification of the value of the tax increment district pursuant to section 7, no demolition, rehabilitation or renovation of property or other site preparation, including improvement of a street adjacent to a parcel in the district but not installation of utility service property has been commenced on a parcel located within a project by the authority or by the

owner of the property in accordance with the tax increment financing plan, no additional tax increments may be taken from that parcel, and the original assessed value of that parcel shall be excluded from the certified value of the tax increment district. If the authority subsequently commences demolition, rehabilitation or renovation or other site preparation on that parcel in accordance with the tax increment financing plan, the authority shall certify to the county auditor that the activity has commenced, and the parcel may be added into the tax increment district. The county auditor shall certify the most recently assessed value of that parcel and add it to the original assessed value of the tax increment district.

Sec. 7. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.77] [COMPUTATION OF TAX INCREMENT.] *Subdivision 1. [ORIGINAL ASSESSED VALUE.] After a tax increment financing plan has been approved by the governing body the auditor of the county in which the district is situated shall, upon request of the authority, certify the original assessed value of the tax increment district as described in the tax increment financing plan. The county auditor shall have the power to specify the form and content of the request for certification of the authority and any modification thereof pursuant to section 5, subdivision 6. If the assessed value of property located within a tax increment district is reduced by a court-ordered abatement, the original assessed value of the district shall be reduced by that amount.*

Subd. 2. [RELATIONSHIP OF CERTAIN DISTRICTS TO CHAPTER 473F.] For purposes of the computations required by this section for any tax increment district, the original assessed value shall not include any portion thereof which is subject to the area wide tax imposed by section 473F.08, subdivision 6, in the levy and assessment of taxes in the year the project is certified or thereafter. For purposes of the computations required by this section for tax increment districts created for the purpose of financing economic development or redevelopment, the current assessed value shall not include the portion thereof which is subject to the area wide tax imposed by section 473F.08, subdivision 6, but shall not otherwise be reduced by the amount of the contribution of the municipality to the area wide tax base pursuant to section 473F.08, subdivision 2 (a). As provided in chapter 473F, that portion of the valuation of property in a tax increment district which is residential property shall be exempt from the requirements of chapter 473F.

Subd. 3. [CAPTURED ASSESSED VALUE.] The county auditor shall certify the amount of the captured assessed value to the authority each year. If the plan provides that all the captured assessed value is necessary to finance or otherwise make permissible expenditures under section 9, subdivision 3, the authority may retain the full captured assessed value. If the plan provides that only a portion of the captured assessed value is necessary to finance or otherwise make those expenditures, only

that portion should be set aside and the remainder shall be distributed among the affected taxing districts by the county auditor.

Subd. 4. [TAX INCREMENTS.] (a) *In each subsequent year, the county auditor shall compute assessed valuation, mill rates and tax increments according to the following method:*

(1) *If the authority retains the full captured assessed value, the county auditor shall include no more than the original assessed value in the tax increment district for purposes of determining assessed value for local mill rates. The county auditor shall compute the mill rates of all taxes levied by the state, the county, the municipality or town, the school district and every other taxing district in which the project is located in whole or in part on that assessed value. The county auditor shall extend all mill rates against the current assessed value, including the captured assessed value. In each year for which the current assessed value exceeds the original assessed value, the county treasurer shall remit to the authority that proportion of all taxes paid that year on real property in the district which the captured assessed value bears to the total current assessed value. The amount so remitted each year is referred to in this section as the tax increment for that year.*

(2) *If the authority retains only a portion of the captured assessed value for its use and returns the remaining portion to the tax rolls of all affected taxing districts, the county auditor shall include the original assessed value and that portion of the captured assessed value which is shared with all the affected taxing districts in determining the assessed value for computing mill rates. He shall compute the mill rates of all taxes levied by the state, county, municipality, school district, and every other taxing district in which the project is located in whole or in part on that assessed value. He shall extend all mill rates against the total current assessed value including that portion of the captured assessed value which the authority is retaining for its use only. In each year for which the current assessed value exceeds the original assessed value, the county treasurer shall remit to the authority that proportion of all taxes paid on real property in the district that the retained captured assessed value bears to the total current assessed value in the district. The amount so remitted each year is referred to as the tax increment.*

(b) *In any year in which the current assessed value of the tax increment district is less than the original assessed value, the county auditor shall compute and extend taxes against the current assessed value. Taxes shall be distributed from the affected property to each of the taxing jurisdictions as determined by the current levy and there shall be no tax increment.*

Sec. 8. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.78] [LIMITATION ON TAX INCREMENT DISTRICTS.] *Subdivision 1. [PERCENTAGE OF VALUE.] No tax increment district may be certified in a municipality by the county auditor if the total captured assessed value of a taxable real prop-*

erty in all tax increment projects or districts within the municipality, when added to the estimated captured assessed valuation of the proposed project at its termination as stated in the project plan, plus the unrealized estimated captured assessed valuation of all other previously certified tax increment projects or districts at their termination dates according to their financing plan, exceeds the percent of the total assessed value of taxable real property in the municipality, as most recently determined by the county auditor specified herein: if the total assessed value is more than \$199,999,999, six percent; if more than \$24,999,999 but less than \$200,000,000, eight percent; if more than \$7,499,999 but less than \$25,000,000, twelve percent; and if less than \$7,500,000, fourteen percent.

Subd. 2. [DURATION OF TAX INCREMENT DISTRICTS.] Any pledge of revenues, including tax increments, to the payment of bonds and interest thereon may be discharged and the tax increment district may be terminated if sufficient funds have been irrevocably deposited in the debt service fund or other escrow account held in trust for all outstanding bonds to provide for the payment of the bonds at maturity or date of redemption and interest thereon to such maturity or redemption date, provided that for bonds issued pursuant to sections 11 or 12 the full faith and credit and any taxing powers of the municipality or authority, as the case may be, shall continue to be pledged to the payment of the bonds until the principal of and interest on the bonds has been paid in full.

Sec. 9. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.78] **[TAX INCREMENT PROCEEDS.]** Subdivision 1. **[ACCOUNTS.]** The proceeds of the tax increments received with respect to any project shall be segregated by the authority receiving them in a special account or accounts on its official books and records or otherwise established by resolution of the authority to be held by a trustee for the benefit of holders of the bonds.

Subd. 2. [EXCESS INCREMENTS.] In any year in which the tax increments exceed the amount necessary to pay the costs authorized by the tax increment financing plan, including the amount necessary to cancel any tax levy as provided in section 475.61, subdivision 3, the authority shall use the excess amount to prepay any outstanding bonds or discharge the pledge of tax increments therefor.

Subd. 3. [LIMITATION ON USE OF TAX INCREMENTS.] Except in the case of a tax increment project or district for which certification was requested prior to the effective date of sections 1 to 16 pursuant to a law which did not at that date require adoption of a tax increment financing plan, revenues derived from tax increments subsequent to the effective date of sections 1 to 16 shall be used only to pay off bonds or to make any other expenditure authorized by the general or special law under which the authority was created or operates, and only as authorized in the tax increment financing plan.

Subd. 4. [LIMITATION ON ADMINISTRATIVE EXPENSES.] Tax increments shall not be used to pay any administrative expenses which exceed five percent of the total cost of a project which is subject to the provisions of sections 1 to 16.

Subd. 5. [LIMITATION ON DURATION OF INCREMENTS.] Tax increments may be taken from parcels comprising a redevelopment project for a period lasting no more than 20 years after receipt of first increments, from parcels comprising a housing project for a period lasting no more than 25 years after receipt of first increments, and from parcels comprising an economic development project for a period lasting no more than ten years after receipt of first increments.

Sec. 10. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.80] [RESTRICTION ON FUTURE BOND ISSUES.] *Notwithstanding the provisions of any other law to the contrary, after the effective date of this act, no bonds for payment of which tax increments are pledged shall be issued in connection with any tax increment project or district other than as authorized by sections 11 to 13. The proceeds of any bonds authorized hereby shall be used only in accordance with section 9, subdivision 3, as if the proceeds were tax increments.*

Sec. 11. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.81] [MUNICIPAL GENERAL OBLIGATION BONDS.] *Subdivision 1. [ISSUANCE.] A municipality may authorize general obligation bonds to finance any expenditure which the municipality or any other authority the jurisdiction of which is wholly or partially within a municipality is authorized to make pursuant to section 9, subdivision 3. The bonds shall be issued, sold and secured in the same manner and subject only to the same conditions as those provided in chapter 475, for bonds financing improvement costs reimbursable from special assessments.*

Subd. 2. [PLEDGE.] Any pledge of tax increments, assessments or other revenues for the payment of the principal of and interest on general obligation bonds issued under this section, except when the authority and the municipality are the same, shall be made by written agreement by and between the authority and the municipality and filed with the county auditor. When the authority and the municipality are the same, the municipality may by covenant pledge tax increments, assessments or other revenues for the payment of the principal of and interest on general obligation bonds issued under this section. The resolution containing the covenant shall be filed with the county auditor. When tax increments, assessments and other revenues are pledged, the estimated collections of the tax increments, assessments and other revenues so pledged may be deducted from the taxes otherwise required to be levied before the issuance of the bonds under section 475.61, subdivision 1, or may be certified annually to reduce or cancel the initial tax levies in accordance with section 475.61, subdivision 1

or 3. The pledge of any revenues, including tax increments, to the payment of bonds and interest may be discharged if sufficient funds have been irrevocably deposited in escrow to provide for payment when due of the bonds and interest. The full faith and credit and taxing powers of the municipality shall continue to be pledged to the payment of any general obligation bonds until the principal of and interest on the bonds have been paid in full.

Sec. 12. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.82] [AUTHORITY GENERAL OBLIGATION BONDS.] *When the authority and the municipality are not the same, an authority may, by resolution, authorize, issue and sell its general obligation bonds to finance any expenditure which that authority is authorized to make by section 9, subdivision 3. The full faith and credit and taxing power of the authority shall be and are hereby pledged to the payment of the bonds and interest thereon. Any revenues, including tax increments and assessments, derived from a tax increment district, may be pledged to the payment of the bonds and interest thereon. The bonds of the authority shall be authorized by its resolution, shall mature as determined by resolution of the authority in accordance with sections 1 to 16. The bonds may be issued in one or more series and shall bear the date or dates, bear interest at the rate or rates, be in the denomination or denominations, be in the form, either coupon or registered, carry the conversion or registration privileges, have the rank or priority, be executed in the manner, be payable in medium of payment at the place or places, and be subject to the terms of redemption, with or without premium, as the resolution, its trust indenture or mortgage may provide. The bonds may be sold at public or private sale at the price or prices as the authority by resolution shall determine. Notwithstanding any provision of law to the contrary, the bonds shall be fully negotiable. In any suit, action, or proceedings involving the validity or enforceability of any such bonds of the authority or the security therefor, any such bond reciting in substance that it has been issued by the authority to aid in financing a project shall be deemed to have been issued for that purpose, and the project shall be conclusively deemed to have been planned, located, and carried out in accordance with the purposes and provisions of sections 1 to 16.*

Subd. 2. [LIABILITY ON BONDS.] *Neither the governing body of the authority nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds of the authority, as the bonds shall state on their face, shall not be a debt of any municipality, the state or any political subdivision thereof, and neither the municipality nor the state or any political subdivision thereof shall be liable thereon, nor in any event shall the bonds be payable out of any funds or properties other than those of the authority and any tax increments and revenues of a tax increment district pledged therefor.*

Sec. 13. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.83] [REVENUE BONDS.] *Subdivision 1. [ISSUANCE.] An authority may, by resolution, authorize, issue and sell revenue bonds payable solely from all or a portion of revenues, including but not limited to tax increment revenues and assessments, derived from a tax increment district located wholly or partially within the municipality to finance any expenditure which that authority is authorized to make by section 9, subdivision 3, and may pledge the revenues to the payment of the bonds and the interest thereon. The bonds shall mature as determined by resolution of the authority in accordance with the provisions of sections 1 to 16 and may be issued in one or more series and shall bear the date or dates, bear interest at the rate or rates, be in the denomination or denominations, be in the form, either coupon or registered, carry the conversion or registration privileges, have the rank or priority, be executed in the manner, be payable in medium of payment at the place or places, and be subject to the terms of redemption, with or without premium, as the resolution, its trust indenture or mortgage may provide. The bonds may be sold at public or private sale at the price or prices as the authority by resolution shall determine. Notwithstanding any provision of law to the contrary, the bonds shall be fully negotiable. In any suit, action, or proceedings involving the validity or enforceability of any such bonds of the authority or the security therefor, any such bond reciting in substance that it has been issued by the authority to aid in financing a project shall be deemed to have been issued for that purpose, and the project shall be deemed to have been planned, located, and carried out in accordance with the purposes and provisions of sections 1 to 16.*

Subd. 2. [LIABILITY ON BONDS.] Neither the governing body of the authority nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds may be further secured by a pledge and mortgage of all or any portion of the project in aid of which the bonds are issued and the covenants the authority deems by the resolution to be necessary and proper to secure payment of the bonds. The bonds, as they shall state on their face, shall not be payable from nor charged upon any funds other than the revenues and property pledged or mortgaged to the payment thereof, nor shall the authority issuing the same be subject to any liability thereon or have the powers to obligate itself to pay or to pay the bonds from funds other than the revenues and properties pledged and mortgaged and no holder of the bonds shall ever have the right to compel any exercise of any taxing power of the issuing authority or any other public body, other than as is permitted or required under sections 1 to 16 and pledged therefor hereunder, to pay the principal of or interest on the bonds, nor to enforce payment thereof against any property of the authority or other public body other than that expressly pledged or mortgaged for the payment thereof.

Sec. 14. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.84] [ADDITIONAL LEVY ON PARCELS SUBJECT

TO WRITEDOWNS.] *If at any time within ten years after certification of the original assessed value of a tax increment project, the governing body of the municipality which approved the project finds that the tax increments being derived from the project are insufficient to meet current interest and principal amortization payments on the bonds issued to finance the project, it shall levy an additional tax on the property located within the project. Property shall be subject to the additional levy if it was purchased from the authority for a price which was lower than the sum of the price paid by the authority for the parcel plus the amount expended by the authority to prepare the parcel for sale. The levy shall not exceed five mills, and shall be in effect for no more than ten years. The total amount levied against a parcel shall be no more than the difference between the price paid to the authority by the purchaser for the parcel and the cost to the authority for purchase and preparation of the parcel. Taxes levied pursuant to this section shall be collected and remitted to the authority by the county treasurer in accordance with Minnesota Statutes, Chapter 276, and shall be used solely for the payment of bonds issued to finance the district and interest on the bonds when due. A tax levied pursuant to this section shall be in lieu of or reduce the amount of a tax which the authority would be authorized to levy on all taxable property in the municipality to pay the cost of principal and interest on the bonds pursuant to section 475.61.*

Sec. 15. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.80] [ANNUAL DISCLOSURE.] *For all tax increment districts, whether created prior or subsequent to the effective date of this act, on or before July 1 each year, the authority shall submit to the county board, the school board, the state planning agency and, if the authority is other than the governing body, the governing body of the municipality a report on the status of the district. The report shall include the following information: the amount and the source of revenue in the account, the amount and purpose of expenditures from the account, the amount of principal and interest on any outstanding bonded indebtedness, the original assessed value of the district, the captured assessed value retained by the authority, the captured assessed value shared with other taxing districts, the tax increments received and any additional information necessary to demonstrate compliance with any applicable tax increment financing plan. An annual statement showing the tax increments received and expended in that year, the original assessed value, captured assessed value, amount of outstanding bonded indebtedness, and any additional information the authority deems necessary shall be published in a newspaper of general circulation in the municipality.*

Sec. 16. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.86] [EXISTING PROJECTS.] *The provisions of sections 1 to 16 shall not affect any project in a tax increment district for which certification has been requested under chapters 462, 474, 472A or 458; Laws 1971, Chapters 548 and 677; and Laws 1973,*

Chapters 196, 761, or 764, prior to the effective date of sections 1 to 16 except as expressly provided herein and except that an authority may elect to proceed with an existing tax increment project under the provisions of sections 1 to 16.

Sec. 17. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.87] [DEFERRED PROPERTY TAXATION FOR PRIVATE REDEVELOPMENT.] *Subdivision 1. [APPLICATION.] A developer proposing to rehabilitate or to construct improvements on property located within a public improvement district established pursuant to section 3 may apply to the governing body of the municipality in which the property is located to obtain a deferral of property tax on the parcel proposed to be improved. The applicant shall submit his plan for the improvement of the property, stating the nature and location of the proposed improvement, its estimated cost, and a reasonable projected length of construction time.*

Subd. 2. [QUALIFIED PLAN.] If the governing body finds that the proposed development is a qualified plan as defined herein, and is consistent with the public improvement district plan, it may approve the application.

For the purposes of this section, "qualified plan" is a plan to improve the property for which the tax deferral is being sought if:

(i) the property is located in an area within which one of the following conditions, reasonably distributed throughout the area, is found to exist:

(a) More than 50 percent of the buildings, not including out-buildings, are structurally substandard to a degree requiring clearance. "Structurally substandard" shall mean containing defects in structural elements or a combination of deficiencies in essential utilities and facilities, light and ventilation, fire protection including adequate egress, layout and condition of interior partitions, or similar factors, which defects or deficiencies are of sufficient total significance to justify clearance; or

(b) 20 percent of the buildings are structurally substandard as defined in clause (a) and an additional 30 percent of the buildings are found to require clearance in order to remove such existing conditions as: inadequate street layout, incompatible uses or land use relationships, overcrowding of buildings on the land, excessive dwelling unit density, obsolete buildings not suitable for improvement or conversion, or other identified hazards to the health, safety and general well being of the community; or

(c) parcels of land not predominantly occupied by buildings, streets, utilities or other improvements, but only when 80 percent of the total acreage of the vacant parcels has a fair market value which, when added to the estimated cost of preparing the parcel for use, exceeds its anticipated fair market value after completion of the site preparation; or

(ii) the improvement of the property is to be for the purpose of

providing housing for persons or families of low and moderate income, as defined in chapter 462A and regulations promulgated thereunder, title II of the national housing act of 1934, the national housing act of 1959, the United States housing act of 1937, as amended, or the farmers home administration act.

No application for tax deferral may be approved for property which is located within a tax increment district which has been certified pursuant to section 7, and no tax increment district certified after the tax deferral has been granted may include property which is subject to the deferral. If the application is approved by June 30, the tax exemption shall be in effect for taxes paid the following year; if it is approved later than June 30, the exemption shall be in effect for taxes paid in the second subsequent taxable year.

Subd. 3. [TAX TREATMENT.] Property approved for the tax deferral provided in this section shall be exempt from taxation during the time while the improvements proposed in the plan are under construction. The exemption shall be in effect for the number of taxable years approved by the governing body at the time of approval of the application. The period of deferral shall not exceed the length of a reasonable construction period which shall be specified in the plan. For taxes payable in the first year following the levy year during which 50 percent of the area of the building becomes occupied, the tax due on the property shall be the amount of tax paid on the property in the year in which the developer applied for the deferral, multiplied by the number of years during which the property was exempt from taxation pursuant to this section. If the improvements which had been present on the property were demolished prior to the year of the application, the governing body may require that the deferred tax be computed based on the amount of tax due on the property for the last taxable year preceding the demolition of the improvements. For all subsequent taxable years, the property shall be assessed as provided in section 273.11.

Subd. 4. [TRANSFERABILITY.] When ownership of property which has been approved for the tax deferral provided in this section is transferred from the original applicant, the governing body may elect to continue to defer the tax on the property if the subsequent owner agrees to redevelop the property according to either the original redevelopment plan approved under subdivision 2 or a plan proposed by the subsequent owner and approved by the governing body. If the governing body does not approve continuation of the tax deferral, the property shall be assessed as provided in section 273.11 for the levy year following the transfer. The original applicant shall be liable for payment of all deferred taxes, which shall be payable in the year following the transfer of the property in accordance with the provisions of section 279.01.

Subd. 5. [TAX DELINQUENCY.] If, at the termination of the deferral period, the owner fails to pay the tax on the property when it becomes due, and the property is bid in for the state at a tax judgment land sale pursuant to section 280.001, the time for redemption of the property provided in section 281.17 shall be reduced by the number of taxable years during which the tax on the property was deferred pursuant to this section.

Sec. 18. Minnesota Statutes 1976, Section 458.192, Subdivision 11, is amended to read:

Subd. 11. Upon or after the creation of an industrial development district under section 458.191 *which is not subject to the provisions of sections 1 to 16*, the auditor of the county in which it is situated shall upon request of the port authority certify the then most recently determined assessed valuation of all or so much of the taxable real property within the district as is identified by legal description in the request, other than that portion of the valuation which is contributed to an area-wide tax base under chapter 473F. The auditor shall certify to the authority in each year thereafter the amounts and percentages of subsequent increases or decreases in such valuation other than that portion of such increases or decreases which is contributed to an area-wide tax base under chapter 473F. The auditor shall compute the mill rates of taxes against such original valuation but shall extend such rates also against any incremental value and remit the resulting tax increment to the port authority in the same manner as that provided for the computation and remittance of tax increments under section 462.585, subdivisions 2 and 3. The port authority shall segregate tax increments received with respect to any such property district in a special account on its official books and records. Such tax increments shall be remitted to the port authority until the cost of redevelopment of the marginal land within the district, including interest thereon, has been fully reimbursed from the tax increments. When such full reimbursement has been made, it shall be reported by the port authority to the county auditor, who shall thereafter include the entire assessed valuation of the property in the assessed valuations upon which tax mill rates are computed and extended and taxes are remitted to all taxing districts. Any part or all of such tax, if so directed by the city council, shall be pledged and appropriated for the payment of any general obligation bonds of the port authority. Increases in the value of such property, subsequent to certification of the base for computing the tax increment therefrom, shall not be included in the assessed valuation of any taxing district for the purpose of computing any debt or levy limitation or the amount of any state or federal aid to the taxing district, so long as the tax increment therefrom is segregated under the provisions of this section. *The provisions of this subdivision shall not apply with respect to any project, certification of which is requested subsequent to the effective date of the tax increment financing act.*

Sec. 19. Minnesota Statutes 1976, Section 462.585, Subdivision 1, is amended to read:

462.585 [AGREEMENTS RESPECTING TAX INCREMENTS AND EQUIVALENTS; PLEDGE FOR BONDS.] Subdivision 1. [GENERAL.] In connection with any project of an authority located wholly or partly within the corporate limits of any municipality or other state public body, such body may agree with the authority with respect to the payment by the authority of such sums in lieu of taxes for any year or period of years in

accordance with the provisions of section 462.575, but for no longer period than the period of tax exemption provided for under that section. In any case where property owned by the authority in a redevelopment project area is leased or otherwise made available by the authority to a private individual, firm, or corporation which previously owned the same or other property within the area, not for development in connection with the project but for temporary use pending relocation of such former owner's residence or business, the authority may agree to payment of sums in lieu of taxes for any year or period of such temporary use, not exceeding the amount of the annual rentals or other payments it receives for such use, but during such use the property and the authority shall be exempt from all taxes and special assessments as provided in section 462.575, and the provisions of section 272.01, subdivision 2 and of section 273.19 shall not apply to such property or to such use thereof. In connection with any redevelopment project, an authority may make further agreements respecting taxes as provided below *in the case of projects which are not subject to the provisions of sections 1 to 16 . The provisions of subdivisions 2 and 3 shall not apply with respect to any project, certification of which is requested subsequent to the effective date of the tax increment financing act.*

Sec. 20. Minnesota Statutes 1976, Section 462.585, Subdivision 4, is amended to read:

Subd. 4. [TAX INCREMENT FINANCING.] The authority may pledge and appropriate any part or all of the tax increments received for any redevelopment project, and any part or all of the revenues received from lands in the project area while owned by the authority, for the payment of the principal of and interest on bonds issued in aid of the project pursuant to sections 462.551, 462.581, or chapter 474, by the authority or by the governing body of the municipality or other state public body within whose corporate limits the project area is situated. Any such pledge for the payment of bonds issued by the governing body shall be made by written agreement executed on behalf of the authority and the governing body and filed with the county auditor. The estimated collections of the tax increments and any other revenues so pledged may be deducted from the taxes otherwise required to be levied before the issuance of the bonds under section 475.61, subdivision 1, or the collections thereof may be certified annually to reduce or cancel the initial tax levies in accordance with section 475.61, subdivision 3. When such an agreement is made and filed, the bonds may be issued by the governing body in the same manner and subject only to the same conditions as those provided in chapter 475 for bonds financing improvement costs reimbursable from special assessments. *Bonds shall not be issued nor tax increments or other revenues pledged pursuant to this subdivision subsequent to the effective date of the tax increment financing act.*

Sec. 21. Minnesota Statutes 1976, Section 472A.06, is amended to read:

472A.06 [ISSUANCE OF BONDS.] The governing body of the

municipality, may authorize, issue and sell general obligation bonds, which shall mature within 30 years from the date of issue, to finance the acquisition and betterment of real and personal property needed to carry out the development program within the development district together with all relocation costs incidental thereto in accordance with sections 475.51, 475.53, 475.54, 475.55, 475.56, 475.60, 475.61, 475.62, 475.63, 475.65, 475.66, 475.69, 475.70, 475.71. All tax increments received by the municipality pursuant to section 472A.08 shall be pledged for the payment of these bonds and used to reduce or cancel the taxes otherwise required to be extended for that purpose, and the bonds shall not be included when computing the municipality's net debt. *Bonds shall not be issued under this section subsequent to the effective date of the tax increment financing act.*

Sec. 22. Minnesota Statutes 1976, Section 472A.07, is amended by adding a subdivision to read:

Subd. 5. The provisions of this section shall not apply to a development district certification of which is requested subsequent to the effective date of the tax increment financing act.

[OPEN FIRE.] "Open fire" means a fire burning in matter, whether concentrated or dispersed, which is not contained within a fully enclosed firebox, structure or vehicle and from which the products of combustion are emitted directly to the open atmosphere without passing through an adequate stack, duct or chimney.

Sec. 2. Minnesota Statutes 1976, Section 88.10, is amended to read:

88.10 [FIGHTING FOREST FIRES, AUTHORITY OF STATE FOREST OFFICERS.] Subdivision 1. Under the direction of the commissioner, forest officers are charged with preventing and extinguishing forest fires in their respective districts and the performance of such other duties as may be required by him. They may arrest without warrant any person found violating any provisions of sections 88.03 to ~~88.21~~ 88.22, take him before a court of competent jurisdiction in the county charging the person so arrested, and the person so charged shall be arraigned and given a hearing on the complaint. The forest officers shall not be liable in civil action for trespass committed in the discharge of their duties. All authorized state forest officers, including rangers, guards, township fire wardens, smoke chasers, fire foremen or individuals legally employed as fire fighters, may in the performance of their duties of fire fighting go onto the property of any person, company, or corporation and in so doing may set backfires, dig or plow trenches, cut timber for clearing fire lines, dig water holes, remove fence wires to provide access to the fire or carry on all other customary activities necessary for the fighting of forest, prairie or brush fires without incurring a liability to anyone, except for damages arising out of wilful or gross negligence.

Subd. 2. Any forest officer may serve any warrant for the arrest of any person violating any provision of sections 88.03 to ~~88.21~~ 88.22 and for that purpose all forest officers are hereby vested with the same powers as constables or other similar officers of the courts issuing such warrants.

Sec. 3. Minnesota Statutes 1976, Section 88.16, is amended to read:

88.16 [STARTING FIRES; CAMPFIRE; INCINERATORS; BURNING BAN.] Subdivision 1. It shall be unlawful, when the ground is not snow covered, in any place where there are stand-

ing or growing native coniferous trees, or in areas of ground from which native coniferous trees have been cut, or where there are slashings of such trees, or native brush, timber, slashings thereof, or excavated stumps, or where there is peat or peat roots excavated or growing, to start or have any open fire, or any back fire, Except as authorized by subdivision 2, it shall be unlawful to start or have an open fire in a forest area without the written permission of the commissioner, or other authorized forest officer.

Subd. 2. No permit is required for the following open fires:

(a) A cooking or warming fire contained in a fireplace, firing, charcoal grill, portable gas or liquid fueled camp stove or other similar container or device designed for the purpose of cooking or heating, or if the area within a radius of five feet of the fire is reasonably clear of all combustible material.

(b) The burning of grass, leaves, rubbish, garbage, branches, and similar combustible material in an approved incinerator. An approved incinerator shall be constructed of fire resistant material, have a capacity of at least three bushels, be maintained with a minimum burning capacity of at least two bushels, and have a cover which is closed when in use and openings in the top or side of one inch maximum diameter. No combustible material shall be nearer than three feet to the burner or incinerator when in use.

(c) Any cooking or warming fire when the ground is covered with snow.

Subd. 2 3 . The occupant of any premises upon which any unauthorized fire is burning in the vicinity of forest lands, whether the fire was started by him or otherwise, shall promptly report the fire to the commissioner, or to the nearest forest officer or fire warden. Failure to make this report shall be deemed a violation of sections 88.03 to 88.21 88.22 and the occupant of the premises shall be deemed prima facie guilty of negligence if the unreported fire spreads from the premises to the damage, loss, or injury of the state or any person.

Sec. 4. Minnesota Statutes 1976, Section 88.17, is amended to read:

88.17 [PERMISSION TO START FIRES; PROSECUTION FOR UNLAWFULLY STARTING FIRES.] Subdivision 1. Permission to set fire to any grass, stubble, peat, brush, raking of leaves, rubbish, garbage, branches, slashings or woods for the purpose of cleanup, clearing and improving land or preventing other fire shall be given whenever the same may be safely burned, upon such reasonable conditions and restrictions as the commissioner may prescribe, to prevent same from spreading and getting beyond control. This permission shall be in the form of a written permit signed by a regular forest officer or some other suitable person to be designated by him, as town fire warden, these permits to be on forms furnished by the commissioner. The commissioner, or any of his authorized assistants, may at his discretion in cases of extreme danger refuse, revoke, or postpone the use of permits

to burn when such act is clearly necessary for the safety of life and property. Any person setting any fire or burning anything under such permit shall keep the permit on his person while so engaged and produce and exhibit the permit to any forest officer, when requested to do so. No permit is required for the burning of grass, leaves, rubbish, garbage, branches and similar combustible material under the following conditions: (1) The material shall be burned within an incinerator or burner constructed of fire resistant material having a capacity of not less than three bushels and maintained with a minimum burning capacity of not less than two bushels, a cover which is closed when in use, and maximum openings in the top or sides no greater than one inch in diameter; and (2) No combustible material shall be nearer than three feet to the burner or incinerator when it is in use.

Subd. 2. In any prosecution under sections 88.03 to 88.21 88.22 for unlawfully starting or setting or having or permitting the continuation or spread of any fire or back-fire, proof upon the part of the prosecution that such fire or back-fire originated upon, or was permitted to burn upon, or that it spread from, lands or premises occupied by the person charged with the offense, and that this person had knowledge of the fire and made no effort to put it out, shall be prima facie evidence that he is guilty. The burden of proof as to any matter in refutation of this prima facie guilt, or in extenuation or excuse, shall be and rest upon the person so appearing prima facie to be guilty.

Sec. 5. Minnesota Statutes 1976, Section 88.22, is amended to read:

88.22 [FOREST FIRE PREVENTION; CLOSING FOREST ROADS AND TRAILS; PROHIBITING OPEN FIRES AND SMOKING; REGULATING PRIVATE AND PUBLIC DUMPING AREAS; PENALTIES.] *Subdivision 1.* When the commissioner of natural resources shall determine that conditions conducive to forest fire hazards exist in the forest areas of the state and that the presence of persons in the forest areas tends to aggravate forest fire hazards, render forest trails impassable by driving thereon during wet seasons and hampers the effective enforcement of state timber trespass and game laws, he may by written order, close any road or trail leading into any land used for any conservation purposes, to all modes of travel except that considered essential such as residents traveling to and from their homes or in other cases to be determined by the authorized forest officers assigned to guard the area. The commissioner may also, upon such determination, by written order, prohibit the building of all campfires except by permit issued by an authorized officer suspend the issuance of permits for open fires, revoke or suspend the operation of a permit previously issued and, to the extent he deems necessary, prohibit the building of all or some kinds of open fires in all or any part of a forest area regardless of whether a permit is otherwise required; and the commissioner also may, by written order, prohibit smoking except at places of habitation or automobiles or other enclosed vehicles properly equipped with an efficient ash tray.

Subd. 2. The commissioner may close any public or private dumping area, by posting such area as closed to dumping, whenever he deems it necessary for the prevention of forest fires. Thereafter no person shall deposit refuse of any kind within or adjacent to such closed area, or along the road leading thereto.

The commissioner shall establish such minimum standards governing public and private dumping areas as he deems necessary for the prevention of forest fires.

Subd. 3. Any violations of this section shall constitute a misdemeanor.

Sec. 6. Minnesota Statutes 1976, Section 88.73, is amended to read:

88.73 [ADMINISTRATION; DELEGATED POWERS AND DUTIES.] The director is hereby empowered and directed to administer and enforce sections 88.03 to ~~88.21~~ 88.22 ; and, to that end, he may make and enforce all necessary or convenient rules and regulations not inconsistent with the provisions and purposes of these sections. In every case the powers delegated to, and the duties imposed upon, the director, and other state or municipal representatives by sections 88.03 to ~~88.21~~ 88.22 shall be exercised and performed in good faith, without undue oppression, and in a manner as reasonable as the exigencies of the situation will permit.

Nothing in sections 88.03 to ~~88.21~~ 88.22 shall be construed as abrogating the laws specifically governing state parks or other public parks, or state or municipal forests. The provisions of all such laws and of sections 88.03 to ~~88.21~~ 88.22 shall be harmonized and both given effect wherever possible.

Nothing in sections 88.03 to ~~88.21~~ 88.22 shall be construed as restricting the state, or any political subdivision thereof, in the exercise of any power, right, or privilege which may be conferred by separate enactment of the legislature under authority of the so-called forest fire prevention amendment to the State Constitution, approved by vote of the electors of this state at the general election held in November, 1924.

Sec. 7. Minnesota Statutes 1976, Section 88.75, Subdivision 1, is amended to read:

88.75 [VIOLATIONS; PENALTIES.] Subdivision 1. Any person who violates any of the provisions of sections 88.03 to ~~88.21~~ 88.22 for which no specific penalty is therein prescribed shall be guilty of a misdemeanor and be punished accordingly.

Failure by any person to comply with any provision or requirement of sections 88.03 to ~~88.21~~ 88.22 to which such person is subject shall be deemed a violation thereof.

Any person who violates any provisions of sections 88.03 to ~~88.21~~ 88.22 , in addition to any penalties therein prescribed, or hereinbefore in this section prescribed, for such violation, shall also be liable in full damages to any and every person suffering

loss or injury by reason of such violation, including liability to the state, and any of its political subdivisions, for all expenses incurred in fighting or preventing the spread of, or extinguishing, any fire caused by, or resulting from, any violation of these sections. When a fire set by any person spreads to and damages or destroys property belonging to another, the person setting the fire shall be prima facie guilty of negligence in setting and allowing the same to spread.

At any time the state, or any political subdivision thereof, either of its own motion, or at the suggestion or request of the director, may bring an action in any court of competent jurisdiction to restrain, enjoin, or otherwise prohibit any violation of sections 88.03 to ~~88.21~~ 88.22, whether therein described as a crime or not, and likewise to restrain, enjoin, or prohibit any person from proceeding further in, with, or at any timber cutting or other operations without complying with the provisions of those sections, or the requirements of the director pursuant thereto; and the court may grant such relief, or any other appropriate relief, whenever it shall appear that the same may prevent loss of life or property by fire, or may otherwise aid in accomplishing the purposes of sections 88.03 to ~~88.21~~ 88.22.

Sec. 8. Minnesota Statutes 1976, Section 88.76, is amended to read:

88.76 [REWARDS.] Upon conviction of any person for violating any of the provisions of sections 88.03 to ~~88.21~~ 88.22, the director, at his discretion, may pay, from any money placed at his disposal under those sections, a reward of not more than \$25 to the person or persons giving the information leading to such conviction.

88.77 [DISPOSAL OF FINES AND PENALTIES.] Except as otherwise expressly provided in sections 88.03 to ~~88.21~~ 88.22, all moneys received as penalties for violations of the provisions of those sections, less the cost of collection, shall be paid into the treasury of the county in which the penalties for these violations were imposed; provided, that fines collected for violations of those sections, where prosecutions are instituted upon the complaint of town or city officers duly appointed by the director as fire wardens, shall be paid into the treasury of the town or city where the offense was committed.

Sec. 10. Minnesota Statutes 1976, Section 88.78, is amended to read:

88.78 [APPEALS.] No appeal shall be allowed from a judgment in any court of a justice of the peace, or a municipal court, or other similar court, to the district court in any prosecution under sections 88.03 to ~~88.21~~ 88.22, unless the person appealing shall, within the time prescribed by law, enter into a recognizance, with sufficient sureties, or deposit cash bail in twice the amount of the fine and costs, to be approved by the justice, conditioned to appear

before the district court on the first day of the next general term thereof to be held in and for the same county, and abide the judgment of the court therein.

The justice or judge may examine the proposed sureties under oath and, in such case, shall make and keep a record of their answers in respect to the kinds and amount of their property not exempt from execution, and he shall furnish a copy of the same to the director.

When an arrest shall have been made for violation of any of the provisions of sections 88.03 to ~~88.21~~ 88.22, or when information of such violation shall have been lodged with him, the county attorney of the county in which the offense was committed shall prosecute the accused with diligence and energy.

In case the inspector of mines shall find that a place is dangerous from any cause, as aforesaid, it shall be his duty immediately to order the men engaged in the work at that place to quit work, and notify the superintendent, agent, or person in charge to secure the place from the existing danger, which notification or order shall be in writing, clearly define the limits of the dangerous place, and specify the work to be done or change to be made to render the same secure, ordinary mine risks excepted. It shall be the duty of the inspector of mines to order the person, persons, or corporation working any mine, or the agent, superintendent, foreman, or other person having immediate charge of the working of any mine, to furnish all shafts, open pits, caves, and chutes of such mine where danger exists with some secure safeguard at the top of the shaft, open pit, cave, or chute, so as to guard against accidents by persons falling therein or by material falling down the same, also a covering overhead on all the carriages on which persons ascend or descend up and down the shaft, if in his judgment it shall be practicable and necessary for the purpose of safety.

Subd. 2. Every person, firm or corporation that is or has been engaged in the business of mining or removing iron ore, taconite, semitaconite or other minerals, except sand and gravel, by the open pit method in any county which has appointed an inspector of mines pursuant to section 180.01 shall erect two inch by four inch mesh fencing along the outside perimeter of the excavation, open pit, or shaft of any mine in which mining operations have ceased for a period of six consecutive months or longer. This subdivision does not apply to any excavation, open pit, or shaft, or any portion thereof, exempted from its application by the commissioner of natural resources pursuant to laws relating to mineland reclamation.

Subd. 3. When any mine is idle or abandoned it shall be the duty of the inspector of mines to notify the person, persons firm, or corporation owning the land on which any such mine is situated, or the agent of such owner or owners, that is or has been engaged in the business of mining to erect and maintain around all the shafts, caves, and open pits of such mines a fence or railing suitable to prevent persons or domestic animals from accidentally falling into these shafts, caves or open pits. If the person, firm or corporation that has been engaged in the business of mining no longer exists, the fee owner shall erect the fencing required by this act. The notice shall be in writing and be served upon such person, firm, corporation or fee owner; owners, or agent, personally, or by leaving a copy at the residence of any such owner or agent if they or any of them reside in the county where such mine is situated, and if such owner, owners or agent are not residents of the county, such notice may be given by publishing the same in one or more newspapers printed and circulated in the county, if there be one, and if no newspaper be published in the county, then in a newspaper published in some adjoining county, for a period of three consecutive weeks certified mail.

(a) "Wheelchair securement device" or "seurement device" means an apparatus installed in a motor vehicle for the purpose of securing an occupied wheelchair into a location in the vehicle and preventing movement of that wheelchair while the vehicle is in motion.

(b) "Operator" means any person, firm, partnership, corporation, service club, public or private agency, city, town or county. The provisions of this act shall not apply to any school bus as defined in Minnesota Statutes, Section 169.01, Subdivision 6, which is subject to regular school bus inspections pursuant to Minnesota Statutes, Section 169.451.

(c) "Transportation service" means the transportation by motor vehicle of any sick, injured, invalid, incapacitated, or handicapped individual while seated in a wheelchair, which transportation is offered or provided by any operator to the public or to its employees or in connection with any other service offered by the operator including schooling or nursing home, convalescent or child care services.

Sec. 2. [WHEELCHAIR SECUREMENT DEVICES.] Subdivision 1. Any vehicle used by an operator to provide transportation service shall be equipped with wheelchair securement devices which are approved by the commissioner of public safety as meeting the specifications of this subdivision. A wheelchair securement device shall prevent any forward, backward or lateral movement of an occupied wheelchair when the device is engaged and the vehicle is in motion, accelerating or braking, and shall attach to the wheelchair without damaging it. Wheelchair securement devices installed in any vehicle shall be maintained in working order.

Subd. 2. A vehicle used to provide transportation service shall carry only as many persons seated in wheelchairs as the number of securement devices approved by the commissioner of public safety as meeting the specifications of subdivision 1 with which the vehicle is equipped, and each occupied wheelchair shall be secured by such a securement device before the vehicle is set in motion.

Sec. 3. [ADDITIONAL SAFETY REQUIREMENTS.] Subdivision 1. Any vehicle used to provide transportation service shall be equipped with seat belts to secure the wheelchair user. The seat belts may be used only to secure the person and shall not be used to secure the wheelchair. The seat belts shall meet all applicable federal and state requirements for safety.

Subd. 2. When transportation service is provided to an individual in an electrically powered wheelchair, the main power switch of the wheelchair shall be placed in the "off" position at all times while the vehicle is in motion.

Subd. 2. Inspection shall be made by personnel in the department of public safety assigned to the highway patrol. An operator of transportation services shall submit a vehicle for inspection after the installation of a wheelchair securement device in the vehicle and before using the vehicle for transportation service, but not later than one month after the date of installation. Evidence of the date of installation shall be provided by the operator at the inspection.

Subd. 3. The inspection shall be made to determine that the vehicle complies with the provisions of section 2, subdivision 1 and section 3, subdivision 1; that the securement device is in working order; and that the securement device is not in need of obvious repair. The inspection may include testing the use of a securement device while the vehicle is in motion.

The certificate shall be affixed to the lower left corner of the windshield. It shall note compliance with this section, record the number of wheelchairs which may be simultaneously carried in the vehicle, and note the month and year in which the next inspection is required.

Subd. 5. Subsequent inspections shall be made annually. If additional securement devices are installed in a vehicle already equipped with a securement device, inspection is required as specified in subdivision 2.

Sec. 5. No agency of the state, political subdivision or other public agency shall grant or approve any financial assistance to any operator for the purchase or operation of any vehicle used for transportation service or grant any permit or license otherwise required by law for operation of that service unless the operator of the transportation service complied with the provisions of sections 1 to 4.

Sec. 6. [EVIDENCE.] Proof of the installation or failure to install wheelchair securement devices, or proof of faulty installation of wheelchair securement devices, or proof of the maintenance or failure to properly maintain wheelchair securement devices, or proof of the use or failure to use wheelchair securement devices is admissible in evidence in any litigation involving personal injuries or property damage arising out of the use or operation of a vehicle providing transportation service.

Sec. 7. [PENALTY.] For each failure to comply with any requirement of sections 2, 3 or 4 an operator is guilty of a misdemeanor.

Sec. 8. [RULES; APPROVAL OF DEVICES.] The commissioner of public safety shall, no later than July 1, 1979, adopt rules containing standards for wheelchair securement devices that meet the requirements of sections 2 and 3 and shall approve or disapprove of securement devices that meet those standards.

This section shall not be construed to prohibit a city or county from providing a higher level of support for public libraries than the level of support specified in this section.*

Subd. 2. Notwithstanding the provisions of section 4 of this act and subdivision 1 of this section, after the third year of participation by a city or county, the dollar amount of the minimum level of support for that city or county shall not be required to increase by more than ten percent over the dollar amount of the minimum level of support required of it in the previous year. If a participating city or county which has been providing for public library service support in an amount at least equivalent to .67 mill times the assessed valuation of the taxable property of that city or county for the year preceding that calendar year would be required to increase the dollar amount of such support by more than ten percent to reach the equivalent of .6 mill times the adjusted assessed valuation of the taxable property of that participating city or county as determined by the equalization aid review committee for the second year preceding that calendar year, it shall only be required to increase the dollar amount of such support by ten percent per year until such time as it reaches an amount at least equivalent to .6 mill times the adjusted assessed valuation of that taxable property as determined by the

equalization aid review committee for the second year preceding that calendar year.

Subd. 3. Regional library basic system support grants shall be made only to those regional public library systems officially designated by the state board of education as the appropriate agency to strengthen, improve and promote public library services in the participating areas. The state board of education shall designate no more than one such regional public library system located entirely within any single development region existing under sections 462.381 to 462.396 or chapter 473.

Sec. 6. Minnesota Statutes 1976, Chapter 134, is amended by adding a section to read:

[134.35] [REGIONAL LIBRARY BASIC SYSTEM SUPPORT GRANTS; DISTRIBUTION FORMULA.] Subdivision 1. *Any regional public library system which qualifies according to the provisions of section 5 of this act may apply for an annual grant for regional library basic system support. The amount of each grant for fiscal year 1979 shall be calculated as provided in this section.*

Subd. 2. Sixty percent of the available grant funds shall be distributed to provide all qualifying systems an equal amount per capita. Each system's allocation pursuant to this subdivision shall be based on the population it serves.

Subd. 3. Fifteen percent of the available grant funds shall be distributed to provide all qualifying systems an equal amount per square mile. Each system's allocation pursuant to this subdivision shall be based on the area it serves.

Subd. 4. The sum of \$35,000 shall be paid to each system as a base grant for basic system services.

Subd. 5. After the allocations made pursuant to subdivisions 2, 3 and 4 of this section, any remaining available grant funds for basic system support shall be distributed to those regional public library systems which contain counties whose adjusted assessed valuations per capita were below the state average adjusted assessed valuation per capita for the second year preceding the fiscal year for which the grant is made. Each system's entitlement shall be calculated as follows:

(a) subtract the adjusted assessed valuation per capita for each eligible county or participating portion of a county from the statewide average adjusted assessed valuation per capita;

(b) multiply the difference obtained in clause (a) for each eligible county or participating portion of a county by the population of that eligible county or participating portion of a county;

(c) for each regional public library system, determine the sum of the results of the computation in clause (b) for all eligible counties or portions thereof in that system;

(d) determine the sum of the result of the computation in

clause (b) for all eligible counties or portions thereof in all regional public library systems in the state;

(e) for each system, divide the result of the computation in clause (c) by the result of the computation in clause (d) to obtain the allocation factor for that system;

(f) multiply the allocation factor for each system as determined in clause (e) times the amount of the remaining grant funds to determine each system's dollar allocation pursuant to this subdivision.

Subd. 6. Notwithstanding the provisions of subdivisions 1 to 5, no regional public library system shall receive an amount as an annual grant for fiscal year 1979 pursuant to this section which is less than the amount which that system received as its annual grant for fiscal year 1978. This subdivision shall expire on July 1, 1979.

Sec. 7. The state board of education shall promulgate rules as necessary for implementation of any provision of this act. Temporary rules may be adopted to implement this act in compliance with the provisions of section 15.0412, subdivision 5, except that these rules may be effective for up to 300 days.

Sec. 8. Minnesota Statutes 1976, Sections 121.22; 121.23; 121.24; and 134.035 are repealed.

Sec. 9. The contingent appropriation provided by Laws 1977, Chapter 449, Section 2, Subdivision 7, Clause (c), is hereby made available for the purposes of this act."

[356.451] [PROVISIONAL MEMBERSHIP FOR CERTAIN PERSONS IN VARIOUS RETIREMENT FUNDS OR PLANS.]
Subdivision 1. [RESERVE ACCOUNT FOR PROVISIONAL MEMBERS; AUTHORIZATION.] *Notwithstanding any provisions to the contrary of the laws governing the funds enumerated in subdivision 2, any person who is employed in subsidized on-the-job training, work experience or public service employment as an enrollee under the federal comprehensive employment and training act, who does not have as of the later of the effective date of this act or the date of employment sufficient service credit in the retirement fund to meet the minimum vesting requirements for a deferred annuity, who otherwise meets all of the applicable eligibility requirements of the fund and who is designated as such by the city council of the city of Minneapolis shall be considered a provisional member of the fund. There shall be established a subsidiary reserve account for provisional members which shall be managed by the board of trustees of the fund as a separate account and which shall not be considered as an asset or a liability of the fund. To this account shall be credited all employee and required employer contributions made by or on account of provisional members. A separate record for each provisional member shall be maintained showing the length of service completed, the accrued employee and required employer contributions made by or on account of each provisional member, and the actual rate of interest earned on the assets of the account. The assets of the separate account shall be invested in the same manner as and subject to the same limitations which are applicable to the general assets of the retirement fund. The board of trustees shall remit back to the prime sponsor of the federal comprehensive employment and training act program quarterly an amount equal to the total required employer contributions made on account of provisional members who terminate or who are terminated from subsidized on-the-job training, work experience or public service employment without obtaining unsubsidized employment with an employer who employs members who regularly have retirement coverage provided by that retirement fund or without obtaining*

sufficient service credit to become entitled to a deferred retirement annuity had they been regular members of that retirement fund during the period of their provisional membership, plus interest at the rate or rates actually earned and in addition any amounts which exceed the funds required to cover current provisional members as projected by the board of trustees. Any provisional member who terminates or is terminated from subsidized on-the-job training, work experience or public service employment without obtaining unsubsidized employment with an employer who employs members who regularly have retirement coverage provided by that retirement fund or without obtaining sufficient service to become entitled to a deferred retirement annuity had he been a regular member of the retirement fund during the period of his provisional membership shall be entitled upon making valid written application to a refund of all employee contributions credited to the member in the subsidiary reserve account for provisional members, plus interest at the average actual rate of interest earned on the assets of the account, but not to exceed the rate of three and one-half percent per annum compounded annually from the date of commencement of provisional membership, computed to the first day of the month in which the refund is processed, and based on fiscal year balances. If the provisional member obtains unsubsidized employment with an employer who employs members who regularly have retirement coverage provided by that retirement fund or obtains sufficient service to become entitled to a deferred retirement annuity had the period of provisional membership been as a regular member, the board of trustees shall transfer the total employee and required employer contributions and any interest attributable to those contributions to the regular retirement fund and shall credit the period of service as a provisional member as allowable or formula service. Unless the provisional member becomes a regular member of the same retirement fund prior to the quarterly reprogramming next following the person's termination of provisional status, no period of provisional membership shall be considered allowable service for purposes of the combined service annuity pursuant to section 356.30 or any service in more than one retirement fund provision. If any provisional member obtains service in an amount sufficient to entitle the provisional member to a disability benefit or the provisional member's survivor to a survivor's benefit had the provisional member been a regular member for that period of service, then the provisional member or the provisional member's survivor shall be entitled to a benefit when otherwise qualified notwithstanding the fact that the person was a provisional member. Upon the commencement of such benefit, an amount equal to the contributions and interest credited to the provisional member shall be transferred from the reserve account for provisional members to the regular fund. In any actuarial valuation made by the fund pursuant to chapter 356, the results of the subsidiary reserve account for provisional members shall be contained in a separate calculation or tabulation. The separate calculation or tabulation shall use the actuarial assumptions used by the fund which are appropriate to the experience of the subsidiary reserve account for provisional members, and shall

include the items contained in section 356.215, subdivision 4, clauses (1), (2), (6) (a), and (11).

"Section 1. Minnesota Statutes 1976, Chapter 299F, is amended by adding a section to read:

[299F.65] [PIPELINES; MINIMUM BURIAL DEPTH.]

Subd. 2. Unless otherwise provided by law, any action based on the strict liability of the defendant and arising from the manufacture, sale, use or consumption of a product shall be commenced within four years.

(7) For sales or use taxes imposed by the laws of any other state ;

(8) *Against the person who applies the pesticide for injury or damage to property resulting from the application, but not the manufacture or sale, of a pesticide.*

Sec. 3. Minnesota Statutes 1976, Chapter 544, is amended by adding a section to read:

[544.23] [AD DAMNUM: LIMITATION.] *In a pleading in a civil action which sets forth an unliquidated claim for relief, whether an original claim, cross-claim, or third-party claim, if a recovery of money is demanded in an amount less than \$50,000, the amount shall be stated. This section may be superseded by an amendment to the rules of civil procedure adopted after July 31, 1978.

Sec. 4. Minnesota Statutes 1976, Chapter 549, is amended by adding a section to read:

[549.20] [PUNITIVE DAMAGES.] *Subdivision 1. Punitive damages shall be allowed in civil actions only upon clear and convincing evidence that the acts of the defendant show a willful indifference to the rights or safety of others.*

Subd. 2. Punitive damages can properly be awarded against a master or principal because of an act done by an agent only if:

(a) *the principal authorized the doing and the manner of the act, or*

(b) *the agent was unfit and the principal was reckless in employing him, or*

(c) *the agent was employed in a managerial capacity and was acting in the scope of employment, or*

(d) *the principal or a managerial agent of the principal ratified or approved the act.*

Subd. 3. Punitive damages may be awarded and their amount fixed only by the court. Any award of punitive damages shall be measured by those factors which justly bear upon the purpose of punitive damages, including the seriousness of hazard to the public arising from the defendant's misconduct, the profitability of the misconduct to the defendant, the duration of the misconduct and any concealment of it, the degree of the defendant's awareness of the hazard and of its excessiveness, the attitude and conduct of the defendant upon discovery of the misconduct, the number and level of employees involved in causing or concealing the misconduct, the financial condition of the defendant, and the total effect of other punishment likely to be imposed upon the defendant as a result of the misconduct, including compensatory and punitive damage awards to the plaintiff and other similarly situated persons, and the severity of any criminal penalty to which the defendant may be subject.

Sec. 5. Minnesota Statutes 1976, Chapter 549, is amended by adding a section to read:

[549.21] [REIMBURSEMENT FOR CERTAIN COSTS IN CIVIL ACTIONS.] *Upon motion of a party prevailing as to an issue, the court in its discretion may award to that party costs, disbursements, reasonable attorney fees and witness fees relating to the issue if the party or attorney against whom costs, disbursements, reasonable attorney and witness fees are charged acted in bad faith as to that issue. To qualify for an award under this section, a party shall give timely notice of intent to claim an award, which notice shall in any event be given prior to the resolution of the issue.*

Sec. 6. Minnesota Statutes 1976, Section 604.01, Subdivision 1, is amended to read:

604.01 [COMPARATIVE FAULT; EFFECT.] Subdivision 1. [SCOPE OF APPLICATION.] *Contributory negligence fault shall not bar recovery in an action by any person or his legal representative to recover damages for negligence fault resulting in death or in injury to person or property, if such negligence the contributory fault was not as great as the negligence of the person total fault attributable to the persons against whom recovery is sought, but any damages allowed shall be diminished in the proportion to the amount of negligence fault attributable to the person recovering. The court may, and when requested by either any party shall, direct the jury to find separate special verdicts determining the amount of damages and the percentage of negligence fault attributable to each party; and the court shall then reduce the amount of such damages in proportion to the amount of negligence fault attributable to the person recovering. When there are two or more persons who are jointly liable, contributions to awards shall be in proportion to the percentage of negligence attributable to each, provided, however, that each shall remain jointly and severally liable for the whole award.*

Sec. 7. Minnesota Statutes 1976, Section 604.01, is amended by adding a subdivision to read:

Subd. 1a. "Fault" includes acts or omissions that are in any measure negligent or reckless toward the person or property of the actor or others, or that subject a person to strict tort liability. The term also includes breach of warranty, unreasonable assumption of risk not constituting an express consent, misuse of a product and unreasonable failure to avoid an injury or to mitigate damages. Legal requirements of causal relation apply both to fault as the basis for liability and to contributory fault.

Sec. 8. Minnesota Statutes 1976, Chapter 604, is amended by adding a section to read:

[604.02] [APPORTIONMENT OF DAMAGES.] *Subdivision 1. When two or more persons are jointly liable, contributions to awards shall be in proportion to the percentage of fault attributable to each, except that each is jointly and severally liable for the whole award.*

Subd. 2. Upon motion made not later than one year after judgment is entered, the court shall determine whether all or part of a party's equitable share of the obligation is uncollectible from that party and shall reallocate any uncollectible amount among the other parties, including a claimant at fault, according to their respective percentages of fault. A party whose liability is reallocated is nonetheless subject to contribution and to any continuing liability to the claimant on the judgment.

Subd. 3. In the case of a claim arising from the manufacture, sale, use or consumption of a product, an amount uncollectible from any person in the chain of manufacture and distribution shall be reallocated among all other persons in the chain of manufacture and distribution but not among the claimant or others at fault who are not in the chain of manufacture or distribution of the product.

Sec. 9. Minnesota Statutes 1976, Chapter 604, is amended by adding a section to read:

[604.03] [USEFUL LIFE OF PRODUCT.] *Subdivision 1. In any action for the recovery of damages for personal injury, death or property damage arising out of the manufacture, sale, use or consumption of a product, it is a defense to a claim against a designer, manufacturer, distributor or seller of the product or a part thereof, that the injury was sustained following the expiration of the ordinary useful life of the product.*

Subd. 2. The useful life of a product is not necessarily the life inherent in the product, but is the period during which with reasonable safety the product should be useful to the user. This period shall be determined by reference to the experience of users of similar products, taking into account present conditions and past developments, including but not limited to (1) wear and tear or deterioration from natural causes, (2) the progress of the art, economic changes, inventions and developments within the industry, (3) the climatic and other local conditions peculiar to the user, (4) the user's policy as to repairs, renewals and replacements, and (5) the useful life as stated by the designer, manufacturer, distributor, or seller of the product in brochures or pamphlets furnished with the product or in a notice attached to the product.

Sec. 10. Minnesota Statutes 1976, Chapter 604, is amended by adding a section to read:

[604.04] [NOTICE OF POSSIBLE CLAIM REQUIRED.] *Subdivision 1. The attorney for a person who intends to claim damage for or on account of personal injury, death or property damage arising out of the manufacture, sale, use or consumption of a product shall cause to be presented a notice of possible claim stating the time, place and circumstances of events giving rise to the claim and an estimate of compensation or other relief to be sought. This notice shall be given within six months of the date of entering into an attorney-client relation with the claimant in regard to the claim. Notice shall be given to all persons against whom the claim is likely to be made, except that notice by the claimant's*

attorney to one person in the chain of manufacture and distribution satisfies the requirement of notice to all others in the chain if the notice is accompanied by a demand that the recipient of the notice forward notice to all others in the chain of manufacture and distribution known to him and against whom he believes a claim may be made. The person notified by the claimant's attorney shall comply with the demand to give notice and shall promptly forward to the claimant's attorney the names and addresses of all others in the chain of manufacture and distribution whom he has notified of the possible claim.

A person in the chain of manufacture and distribution who is required by this section to give notice to other persons in the chain of manufacture and distribution shall include in the notice a list of those receiving the same notice, and a demand that the recipient forward a similar notice to all others in the chain of manufacture and distribution who are not on the list and are known to him and against whom he believes a claim may be made. Any recipient of a notice of possible claim accompanied by a demand to give notice to others shall comply with the demand and promptly forward to claimant's attorney the names and addresses of the persons notified.

Actual notice of sufficient facts to reasonably put a person against whom the claim is to be made or his insurer on notice of a possible claim satisfies the notice requirements of this section. Failure to state an estimate of the amount of compensation or other relief demanded does not invalidate the notice, but the claimant shall furnish full information regarding the nature and extent of the injuries and damages within 15 days after demand by a person to whom the notice was given or his insurer.

Subd. 2. A claimant who delays entering into an attorney-client relation with the purpose of delaying unreasonably the notice required by subdivision 1 is subject to liability as provided in subdivision 3.

Subd. 3. Any person injured by the failure of a claimant or his attorney or of a person in the chain of manufacture and distribution to comply with the requirements of this section may recover damages, costs and reasonable attorney fees from a person who violated this section, but failure to give notice does not affect the validity of a claim against a party who did not receive notice.

Sec. 11. [EFFECTIVE DATE.] Sections 1, 2, 4, 5, 6, 7, 8, 9 and 10 are effective the day following final enactment, and apply to all causes of action arising on or after that date.

Section 3 is effective August 1, 1978."

(b) Teachers who have acquired continuing contract rights shall be placed on unrequested leave of absence in fields in which they are certified in the inverse order in which they were employed by the school district. In the case of merger of classes caused by consolidation of districts or in the case of equal seniority, the order in which teachers who have acquired continuing contract rights shall be placed on unrequested leave of absence in fields in which they are certified shall be negotiable;

(c) Notwithstanding clauses (a) and (b), if either the placing of a probationary teacher on unrequested leave before a teacher who has acquired continuing rights or the placing of a teacher who has acquired continuing contract rights on unrequested leave before another teacher who has acquired continuing contract rights but who has greater seniority would place the district in violation of its affirmative action program, the district may retain the probationary teacher or the teacher with less seniority;

(d) Teachers placed on unrequested leave of absence shall be reinstated to the positions from which they have been given leaves of absence or, if not available, to other available positions in the school district in fields in which they are certified. Reinstatement shall be in the inverse order of placement on leave of absence. The order of reinstatement of teachers who have equal seniority and who are placed on unrequested leave in the same school year shall be negotiable;

(e) Teachers, other than probationary teachers, terminated under Minnesota Statutes 1971, Section 125.12, Subdivision 6, Clause (e), in the 1973-74 school year shall be reinstated to the positions from which they have been terminated or, if not available, to other available positions in the school district in fields in which they are certified. Reinstatement shall be in the order of seniority. The order of reinstatement of continuing contract teachers who have equal seniority and who are terminated under Minnesota Statutes 1971, Section 125.12, Subdivision 6, Clause (e) in the 1973-74 school year shall be negotiable. These teachers shall also be subject to clauses (f), (g), (h), (i), and (k) of this subdivision.

(f) No appointment of a new teacher shall be made while there is available, on unrequested leave, a teacher who is properly certified to fill such vacancy, unless the teacher fails to advise the school board within 30 days of the date of notification that a position is available to him, that he may return to employment and that he will assume the duties of the position to which appointed on a future date determined by the board;

(g) A teacher placed on unrequested leave of absence may engage in teaching or any other occupation during the period of this leave;

(h) The unrequested leave of absence shall not impair the continuing contract rights of a teacher or result in a loss of credit for previous years of service;

(i) The unrequested leave of absence of a teacher *who is placed on unrequested leave of absence prior to January 1, 1978 and who is not reinstated shall continue for a period of two years after which the right to reinstatement shall terminate; the unrequested leave of absence of a teacher who is placed on unrequested leave of absence on or after January 1, 1978 and who is not reinstated shall continue for a period of five years, provided the teacher files with the board by April 1 each year a written statement requesting reinstatement, after which the right to reinstatement shall terminate;*

(j) The same provisions applicable to terminations of probationary or continuing contracts in subdivisions 3 and 4 shall apply to placement on unrequested leave of absence;

However, a school district may deny a request for an extended leave of absence if the board determines that the leave would not produce a cost savings to the district or would produce a hardship for the district due to its inability to find an adequate replacement. If a teacher's request is denied, this denial shall be subject to the grievance procedure established pursuant to section 179.70 or pursuant to the grievance procedure specified in the collective bargaining agreement in force in that district. 134.03 [TAX LEVY.] In cities of less than 2,000 inhabitants not levying a tax for public library purposes, the school board may maintain a public library for the use of all residents of the district and provide ample and suitable rooms for its use in the school buildings and in any independent school district embracing any such city, where a library building has been erected with funds donated for library purposes, the school district may levy an annual tax of not more than one mill, the proceeds of which tax shall be used for the support and maintenance of this library and known as the "library fund." or the district.

Upon a library being so established in any such school district, whose library building has been erected with funds acquired by gift or donation, the school board is empowered to appoint a library board of nine members, of which each member of the school board shall be a member ex officio.

The remaining members of such library board shall be appointed by the school board, one of which remaining members shall hold office for one year, one for two years, and one for three years *if the school board has only six members*, from the first Saturday of September following their appointment, the term of office of each being specified in such appointment; annually thereafter, such school board shall appoint a member of the library board for the term of three years and until his successor shall qualify. Such school board may remove any member so appointed for misconduct or neglect. Vacancies in such board shall be filled by appointment for the unexpired term. Members of such board shall receive no compensation for their services as such.

Immediately after appointment, such board shall organize by electing one of its members as president and one as secretary and from time to time it may appoint such other officers and em-

ployees as it deems necessary. The secretary, before entering upon his duties, shall give bond to the school district in an amount fixed by the library board, conditioned for the faithful discharge of his official duties. The library board shall adopt such bylaws and regulations for the government of the library and reading-room and for the conduct of its business as may be expedient and conformable to law. It shall have exclusive control of the expenditures of all money collected for, or placed to the credit of, the library funds, and of the rooms and buildings provided for library purposes. All moneys received for such library fund shall be kept in the treasury of the school district, credited to the library fund, and be paid out only upon itemized vouchers approved by the library board. The library board may fix the compensation of employees and remove any of them at pleasure.

All books or other property given, granted, conveyed, donated, devised, or bequeathed to, or purchased by, such library shall vest in, and be held in the name of, such school district. Every library and reading-room established hereunder shall be free to the use of the inhabitants of the school district, subject to such reasonable regulations as the directors may adopt.

When so established, no such library shall be abandoned without a two-thirds majority vote of the electors cast at any annual or special school meeting called for the purpose.

When so established, in cases where the building has been erected with funds so donated, no such library shall be abandoned without a two-thirds majority vote of the electors cast at any annual or special school meeting called for the purpose.

Sec. 61. Minnesota Statutes, 1977 Supplement, Section 275.07 is amended to read:

275.07 [CITY, TOWN AND SCHOOL DISTRICT TAXES.] *Subdivision 1. The taxes voted by cities, towns, and school districts shall be certified by the proper authorities to the county auditor on or before October tenth in each year. If a city, town, county, school district or special district fails to certify its levy by that date, its levy shall be the amount levied by it for the preceding year. If the local unit notifies the commissioner of revenue before October tenth of its inability to certify its levy by that date, and the commissioner is satisfied that the delay is unavoidable and is not due to the negligence of the local unit's officials or staff, the commissioner shall extend the time within which the local unit shall certify its levy.*

Subd. 2. In school districts lying in more than one county, the clerk shall certify the tax levied to the auditor of the county in which the administrative offices of the school district are located.

Sec. 62. Minnesota Statutes, 1977 Supplement, Section 275.124 is amended to read:

275.124 [REPORT OF CERTIFIED LEVY.] *Prior to March February 1 of each year, each county auditor shall report to the commissioner of education on forms furnished by the commissioner, the amount of the certified levy made by each school district within the county which has taxable property and any other information concerning these levies that is deemed necessary by the commissioner.*

Sec. 63. Minnesota Statutes, 1977 Supplement, Section 275.125. Subdivision 2a, is amended to read:

Subd. 2a. (1) *In 1977, a school district may levy for all general and special school purposes, an amount equal to the amount raised by 28 mills times the 1976 adjusted assessed valuation of the district.*

(2) *In 1978, a school district may levy for all general and special school purposes, an amount equal to the amount raised by 27 mills times the 1977 adjusted assessed valuation of the district.*

(3) For any district levying less than 95 percent of the maximum levy allowable in clauses (1) and (2), beginning with the levy certified in 1976 1978 , payable in 1977 1979 , the foundation aid to the district for the 1977-1978 1979-1980 school year, and for subsequent levies, foundation aid for subsequent school years, calculated pursuant to section 124.212, shall be reduced by 50 percent of the *to an amount of equal to the difference ratio* between the actual levy and the maximum levy allowable under clauses (1) and (2) *times the foundation aid to which the district is otherwise entitled for that year* . In the application of this clause, the maximum levy allowable under clauses (1) and (2) shall be reduced by any reduction of this levy which is required by section 275.125, subdivision 9 or any other law.

(4) (a) The levy authorized by clauses (1) or (2) may be increased in any amount which is approved by the voters of the district at a referendum called for the purpose. Such a referendum may be called by the school board or shall be called by the school board upon written petition of qualified voters of the district. The referendum shall be held on a date set by the school board. Only one such election may be held to approve a levy increase which will commence in a specific school year. The question on the ballot shall state the maximum amount of the increased levy in mills, the amount that will be raised by that millage in the first year it is to be levied, and that the millage shall be used to finance school operations. The question may designate a specific number of years for which the referendum authorization shall apply. If approved, the amount provided by the approved millage applied to each year's taxable valuation shall be authorized for certification for the number of years approved, if applicable, or until revoked by the voters of the district at a subsequent referendum.

(b) A referendum on the question of revoking the increased levy amount authorized pursuant to clause (a) of this clause may be called by the school board and shall be called by the school board upon the written petition of qualified voters of the district. The amount approved by the voters of the district pursuant to clause (a) of this clause must be levied at least once before it is subject to a referendum on its revocation for subsequent years. Only one such revocation election may be held to revoke a levy for any specific year and for years thereafter.

(c) A petition authorized by clauses (a) or (b) of this clause shall be effective if signed by a number of qualified voters in excess of 15 percent, or 10 percent if the school board election is held in conjunction with a general election, of the average number of voters at the two most recent district wide school elections. A referendum invoked by petition shall be held within three months of submission of the petition to the school board.

(d) Notwithstanding any law to the contrary, the approval of 50 percent plus one of those voting on the question is required to pass a referendum.

(e) Within 30 days after the district holds a referendum pur-

suant to this clause, the district shall notify the commissioner of education of the results of the referendum.

Sec. 64. Minnesota Statutes 1976, Section 275.125, is amended by adding a subdivision to read:

Subd. 2b. (1) Beginning in 1978, in any year when the amount of the maximum levy allowed for any district by section 275.125, subdivision 2a, clause (1) or (2), exceeds the product of the district's foundation aid formula allowance under section 124.212 for the corresponding school year times the number of pupil units computed for that district under section 124.17 for that school year, the levy permitted that district by section 275.125, subdivision 2a, clause (1) or (2) shall be limited to 107 percent of the sum of the following, but not to exceed the number of mills permitted under section 275.125, subdivision 2a, clause (1) or (2):

(a) the product of the district's foundation aid formula allowance under section 124.212 for the school year in which the levy is certified times the number of pupil units computed for that district under sections 124.17 for the school year in which the levy is certified; plus the district's estimated aid entitlement pursuant to section 124.20 for the summer school which begins in the school year in which the levy is certified; plus

(b) that district's entitlement, for the year in which the levy is certified, for transportation aid pursuant to section 124.222, special education aid pursuant to section 124.32, secondary vocational aid pursuant to section 124.573 and secondary vocational aid for handicapped children pursuant to section 124.574.

(2) If a district levies the full 107 percent of its entitlement under clause (1) for a school year and that amount is less than the aid to which the district would actually have been entitled under sections 124.212, 124.20, 124.222, 124.32, 124.573 or 124.574, the district may adjust its levies in the succeeding years to make up this difference. The amount by which the district is allowed to adjust its levies in the succeeding years pursuant to this clause shall be recorded as a receivable in the school year to which the aids are attributable.

(3) If a district levies pursuant to clause (1) for a school year and the amount levied is greater than the aid to which the district would actually have been entitled under sections 124.212, 124.20, 124.222, 124.32, 124.573 or 124.574, the district shall reduce its levies in the succeeding years by the amount of this difference.

(4) However, if the amount of the difference in clause (2), when calculated as an addition to the original levy for that year, would have exceeded the millage limitation in section 275.125, subdivision 2a, clause (1) or (2) in that year, the state shall pay the amount of aid to which the district is entitled for that school year which exceeds the amount attributable to that aid for which it could have levied for that year pursuant to this subdivision.

(5) If the district is unable to levy the full 107 percent of its entitlement for a school year because of the millage limitation in

section 275.125, subdivision 2a, clause (1) or (2), the state shall pay the amount of aid under sections 124.212, 124.20, 124.222, 124.32, 124.573 or 124.574 to which the district is entitled for that school year which exceeds the amount attributable to that aid for which it was allowed to levy pursuant to this subdivision.

(6) Prior to the certification of levies, the commissioner of education shall notify an applicable district that it is subject to the levy limitation of this subdivision and of its estimated entitlements pursuant to sections 124.212, 124.20, 124.222, 124.32, 124.573 and 124.574. The commissioner shall decide that a district is subject to this levy limitation if it appears reasonably certain that the maximum levy allowed that district pursuant to section 275.125, subdivision 2a, clause (1) or (2) will exceed the district's foundation aid formula allowance times the number of pupil units computed for that district under section 124.17 for that corresponding year. If, upon the order of the commissioner, the district levies pursuant to this subdivision but the maximum levy allowed that district pursuant to section 275.125, subdivision 2a, clause (1) or (2) would not actually have exceeded the district's foundation aid formula allowance times the number of pupil units computed for that district under section 124.17 for that corresponding year, the district shall reduce its levy for the next year by the amount by which the levy certified pursuant to this subdivision exceeded the amount the district could have levied under subdivision 2a, clause (1) or (2). Also in that case, the district shall receive all aids from the state pursuant to sections 124.212, 124.20, 124.222, 124.32, 124.573 and 124.574 to which it would otherwise have been entitled were it not for the levy certified pursuant to this subdivision.

(7) Nothing within the provisions of this subdivision shall be construed to affect any other levy under section 275.125, including levies made pursuant to section 275.125, subdivision 2a, clause (4), to which a district is otherwise entitled.

(8) A levy made by a district pursuant to the provisions of this subdivision shall be construed to be the levy made by that district pursuant to subdivision 2a, clause (1) and (2), of this section for purposes of statutory cross-reference.

Sec. 65. Minnesota Statutes 1976, Section 275.125, Subdivision 6, is amended to read:

Subd. 6. (1) In 1975 Any district in which the 1970-1971 adjusted maintenance cost per pupil unit in average daily membership was greater than \$663 per pupil unit may levy the greater of (a) an amount per pupil unit which is equal to or less than the difference between the 1970-1971 adjusted maintenance cost per pupil unit in average daily membership and \$663 per pupil unit or (b) if the district counts pupil units pursuant to section 124.17, subdivision 1, clause (6) and has at least two percent fewer pupil units in the year in which the levy is made than in the preceding school year, an amount which is equal to or less than the amount raised by the number of mills levied in 1977 pursuant to this subdivision times the adjusted assessed valuation of the taxable property in the district for the preceding year; provided, however, that

the amount which the district may levy pursuant to clause (b) shall not increase in any year to more than the product of the amount raised in the previous year pursuant to this subdivision times the ratio of the foundation aid formula allowance per pupil unit for that district in the year in which the levy is certified divided by the foundation aid formula allowance per pupil unit for that district in the previous year. Provided, however, that a district with boundaries coterminous with the boundaries of a city of the first class which was affected by the limitation of an extra levy not to exceed 1.9 mills times the adjusted assessed valuation of the district shall be allowed to may levy the greater of (a) an amount per pupil unit which is equal to 2.0 mills times the 1974 adjusted assessed valuation of the district, divided by the number of pupil units in the district in 1975-1976 or (b) if the district counts pupil units pursuant to section 124.17, subdivision 1, clause (6) and has at least two percent fewer pupil units in the year in which the levy is made than in the preceding school year, an amount which is equal to or less than the amount raised by the number of mills levied in 1977 pursuant to this subdivision times the adjusted assessed valuation of the taxable property in the district for the preceding year; provided, however, that the amount which the district may levy pursuant to clause (b) shall not increase in any year to more than the product of the amount raised in the previous year pursuant to this subdivision times the ratio of the foundation aid formula allowance per pupil unit for that district in the year in which the levy is certified divided by the foundation aid formula allowance per pupil unit for that district in the previous year.

As used in this subdivision, the term "foundation aid formula allowance per pupil unit" shall have the same meaning as provided in section 124.32, subdivision 1(a).

~~(2)~~ *In 1976 and each year thereafter, any district which qualified in 1975 for an extra levy under clause (1) shall be allowed to levy the same amount per pupil unit allowed by that clause.*

~~(2)~~ (2) *For purposes of computing allowable levies under this subdivision, pupil units shall include only those units identified in section 124.17, subdivision 1, clauses (1), (2), (6) and (7). The provisions of this clause shall not affect or modify any district's 1970-1971 adjusted maintenance cost per pupil unit in average daily membership.*

Sec. 66. Minnesota Statutes, 1977 Supplement, Section 275.125, Subdivision 9, is amended to read:

Subd. 9. (1) *Districts which receive payments which result in deductions from foundation aid pursuant to section 124.212, subdivision 8a, clause (1), shall reduce the permissible levies authorized by subdivisions 3 to 14 by that portion of the previous year's payment not deducted from foundation aid on account of the payment. The levy reductions shall be made in the proportions that each permissible levy bears to the sum of the permissible levies. Reductions in levies pursuant to this clause, subdivision 10 of this*

section, and section 273.138, shall be made prior to the reductions in clause (2).

(2) Notwithstanding any other law to the contrary, districts which received payments pursuant to sections 294.21 to 294.28; 298.23 to 298.28; 298.32; 298.34 to 298.39; 298.391 to 298.396; 298.405; 298.51 to 298.67; and any law imposing a tax upon severed mineral values, or under any other law distributing proceeds in lieu of ad valorem tax assessments on copper or nickel properties; shall not include a portion of these aids in their permissible levies pursuant to those sections, but instead shall reduce the permissible levies authorized by this section to be certified in the calendar year in which the deduction from foundation aid is made pursuant to section 124.212, subdivision 8a, by the portion of the previous fiscal year's payment which was not deducted from foundation aid in that calendar year pursuant to section 124.212, subdivision 8a by the greater of the following:

(a) an amount equal to 50 percent of the total dollar amount of the payments received pursuant to those sections in the previous fiscal year; or

(b) an amount equal to the total dollar amount of the payments received pursuant to those sections in the previous fiscal year less the product of the same dollar amount of payments times the ratio of the maximum levy allowed the district under section 275.125, subdivision 2a, to the total levy allowed the district under section 275.125 in the year in which the levy is certified.

(3) No reduction pursuant to this subdivision shall reduce the levy made by the district pursuant to subdivision 2a, clause 1 or 2, to an amount less than the amount raised by a levy of 10 mills times the adjusted assessed valuation of that district for the preceding year as determined by the equalization aid review committee. The amount of any increased levy authorized by referendum pursuant to subdivision 2a, clause (4) shall not be reduced pursuant to this subdivision. The amount of any levy authorized by subdivision 4, to make payments for bonds issued and for interest thereon, shall not be reduced pursuant to this subdivision.

(4) Before computing the reduction pursuant to this subdivision of the capital expenditure levy authorized by section 275.125, subdivision 11a, the commissioner shall ascertain from each affected school district the amount it proposes to levy for capital expenditures pursuant to that subdivision. The reduction of the capital expenditure levy shall be computed on the basis of the amount so ascertained.

(5) Notwithstanding any law to the contrary, any amounts received by districts in any fiscal year after fiscal year 1975 pursuant to sections 294.21 to 294.28; 298.23 to 298.28; 298.34 to 298.39; 298.391 to 298.396; 298.405; 298.51 to 298.67; or any law imposing a tax on severed mineral values, or under any other law distributing proceeds in lieu of ad valorem tax assessments on copper or nickel properties; and not deducted from foundation aid pursuant to section 124.212, subdivision 8a, clause (2), and

not applied to reduce levies pursuant to this subdivision shall be paid by the district to the commissioner of finance in the following amounts pursuant to this clause on the designated dates: on or before March 15, 1977, 20 percent of the amounts received in fiscal 1976 and not deducted from foundation aid in August 1976 and not applied to reduce 1976 payable 1977 levies; on or before March 15, 1978, 60 percent of the amounts received in fiscal 1977 and not deducted from foundation aid and not applied to reduce 1977 payable 1978 levies; on or before March 15, 1979 and March 15 of each year thereafter, 100 percent of the amounts received in the preceding fiscal year and not deducted from foundation aid and not applied to reduce levies certified in the preceding October. Any amounts received by districts in any fiscal year after fiscal year 1977 pursuant to the sections specified in this clause shall be paid by the district to the commissioner of finance in the following amounts on the designated dates: on or before March 15, 1979 and March 15 of each year thereafter, 100 percent of the amount required to be subtracted from the previous fiscal year's foundation aid pursuant to section 124.212, subdivision 8a, which is in excess of the foundation aid earned for that fiscal year. The commissioner of finance shall deposit any amounts received pursuant to this clause in the taconite property tax relief fund in the state treasury, established pursuant to section 16A.70 for purposes of paying the taconite homestead credit as provided in section 273.135.

Sec. 67. Minnesota Statutes, 1977 Supplement, Section 275.125, Subdivision 13, is amended to read:

Subd. 13. Districts maintaining a post-secondary vocational-technical school shall may levy for post-secondary vocational-technical purposes as follows:

(1) For districts in cities of the first class, one-half mill, exclusive of debt service, times the adjusted assessed valuation of the taxable property of the district for the preceding year as determined by the equalization aid review committee.

(2) For districts formed pursuant to Laws 1967, Chapter 822, as amended, and Laws 1969, Chapters 775 and 1060 as amended, one-half mill, exclusive of debt service, times the adjusted assessed valuation of the taxable property of the district for the preceding year as determined by the equalization aid review committee.

(3) For other districts maintaining post-secondary vocational schools, one mill, exclusive of debt service, times the adjusted assessed valuation of the taxable property of the district for the preceding year as determined by the equalization aid review committee.

Sec. 68. Minnesota Statutes 1976, Section 275.125, Subdivision 15, is amended to read:

Subd. 15. Any district which in any year levies an amount which is greater than the amount allowed by subdivisions 2a to 14, shall lose an amount of state foundation aid equal to one half of the excess in the levy. However, if any school district levy is

found to be excessive as a result of a decision of the tax court of appeals or a redetermination by the equalization aid review committee under section 124.212, subdivisions 11 to 18 or for any other reason, the amount of the excess shall be deducted from the levy certified in the next year for the same purpose; provided that if no levy is certified in the next year for the same purpose or if the amount certified is less than the amount of the excess, the excess shall be deducted from that levy and the levy certified pursuant to subdivision 2a. The amount of aid lost shall be deducted from the aid which would otherwise have been received for the school year which commences in the calendar year during which the excessive levy is being collected. Any foundation aid so withheld shall be withheld in accordance with the procedures specified in section 124.15. If any aid entitlement pursuant to sections 124.212, 124.222 and 124.245 would have been increased in a prior year as a result of a decision of the tax court of appeals or a redetermination by the equalization aid review committee, the amount of the increase shall be added to the current aid entitlement for the same purposes.

Sec. 69. Minnesota Statutes 1976, Section 275.125, Subdivision 16, is amended to read:

Subd. 16. For the purposes of this section, the number of resident pupil units in average daily membership shall be computed in accordance with section 124.17, provided that the district may use an estimated average daily membership for the current school year. Any district which increased its pupil units, exclusive of consolidation, or merger of districts, or change of definition of pupil units by more than five percent from one year to another for two consecutive years may use an estimated pupil unit count for the next succeeding school year for determining a levy certified in the current year. If as a result of such estimate the levy is different from the amount that could actually have been levied under this section had such levy been based upon the pupil units computed under section 124.17 for that school year, then in that event the authorized levy for the following year shall be adjusted for the difference.

Sec. 70. Minnesota Statutes 1976, Section 275.125, Subdivision 18, is amended to read:

Subd. 18. By November 1 of each year each district shall submit to notify the commissioner of education a certificate of the levies certified in compliance with the levy limitations of this section. The commissioner of education shall prescribe the form of this certificate notification.

Sec. 71. Minnesota Statutes 1976, Section 275.48, is amended to read:

275.48. [ADDITIONAL TAX LEVIES IN CERTAIN MUNICIPALITIES.] Whenever by virtue of chapter 278, sections 270.07, 375.192, or otherwise, the assessed valuation of any city, township or school district for any taxable year is reduced after the taxes for such year have been spread by the county auditor

and whenever the mill rate as determined by the county auditor based upon the original assessed valuation is applied upon such reduced valuations and does not produce the full amount of taxes as actually levied and certified for such taxable year upon the original assessed valuations, such city, township or school district may include in its tax levy made following final determination and notice of such reduction in assessed valuation, an amount equal to the difference between (1) the total amount of taxes actually levied and certified for such taxable year upon the original assessed valuation, not exceeding the maximum amount which could be raised upon such assessed valuation as reduced, within existing mill limitations, if any, and (2) the amount of taxes collected for such taxable year upon such reduced valuations. *However, if a school district receives aid payment adjustments pursuant to section 124.214, subdivision 2, it may only include in its tax levy an amount equal to the difference between (1) the total amount of taxes actually levied and certified for such taxable year upon the original assessed valuation, not exceeding the maximum amount which could be raised upon such assessed valuation as reduced, within existing mill limitations, if any, and (2) an amount equal to the amount of taxes collected for such taxable year upon such reduced valuations, plus the amount of any increased aid received by the district as a result of those aid adjustments.*

The amount of taxes so included shall be levied separately and shall be levied in addition to all limitations imposed by law; and further shall not result in any penalty in the nature of a reduction in state aid of any kind.

Sec. 72. Minnesota Statutes, 1977 Supplement, Section 298.28. Subdivision 1, is amended to read:

298.28 [DIVISION AND DISTRIBUTION OF PROCEEDS.] Subdivision 1. The proceeds of the taxes collected under section 298.24, except the tax collected under section 298.24, subdivision 2, shall, upon certificate of the commissioner of revenue to the general fund of the state, be paid by the commissioner of revenue as follows:

(1) 2.5 cents per gross ton of merchantable iron ore concentrate, hereinafter referred to as "taxable ton", to the city or town in which the lands from which taconite was mined or quarried were located or within which the concentrate was produced. If the mining, quarrying, and concentration, or different steps in either thereof are carried on in more than one taxing district, the commissioner shall apportion equitably the proceeds of the part of the tax going to cities and towns among such subdivisions upon the basis of attributing 40 percent of the proceeds of the tax to the operation of mining or quarrying the taconite, and the remainder to the concentrating plant and to the processes of concentration, and with respect to each thereof giving due consideration to the relative extent of such operations performed in each such taxing district. His order making such apportionment shall be subject to review by the tax court of appeals at the instance

of any of the interested taxing districts, in the same manner as other orders of the commissioner.

(2) 12.5 cents per taxable ton to the taconite municipal aid account in the apportionment fund of the state treasury, to be distributed as provided in section 298.282.

(3) 29 cents per taxable ton to school districts to be distributed as follows:

(a) 6 cents per taxable ton to the school districts in which the lands from which taconite was mined or quarried were located or within which the concentrate was produced. The commissioner shall follow the apportionment formula prescribed in clause (1).

(b) 23 cents per taxable ton, less any amount distributed under part (c), shall be distributed to a group of school districts comprised of those school districts wherein the taconite was mined or quarried or the concentrate produced or in which there is a qualifying municipality as defined by section 273.134 or in which is located property which is entitled to the reduction of tax pursuant to section 273.135, subdivision 2, clause (c). The 23 cents, less any amount distributed under part (c), shall be distributed in direct proportion to school district tax levies as follows: each district shall receive that portion of the total distribution which its permitted levy for the prior year, computed pursuant to section 275.125, comprises of the sum of permitted levies for the prior year for all qualifying districts, computed pursuant to section 275.125. ~~The portion of~~ The amount so distributed to a school district which is not deducted from state aids in section 124.212, subdivision 8a computed as a reduction of the school district levies pursuant to section 275.125, subdivision 9, shall be included in computing the permissible levies under section 275.125. For purposes of distributions pursuant to this part, permitted levies for the prior year computed pursuant to section 275.125 shall not include the amount of any increased levy authorized by referendum pursuant to section 275.125, subdivision 2a, clause (4).

(c) There shall be distributed to any school district the amount which the school district was entitled to receive under section 298.32 in 1975.

(4) 19.5 cents per taxable ton to counties to be distributed as follows:

(a) 15.5 cents per taxable ton shall be distributed to the county in which the taconite is mined or quarried or in which the concentrate is produced, less any amount which is to be distributed pursuant to part (b). The commissioner shall follow the apportionment formula prescribed in clause (1).

(b) If an electric power plant owned by and providing the primary source of power for a taxpayer mining and concentrating taconite is located in a county other than the county in which the mining and the concentrating processes are conducted, one cent for taxable ton of the tax distributed to the counties pursuant to part (a) and imposed on and collected from such taxpayer

shall be distributed by the commissioner of revenue to the county in which the power plant is located.

(c) 4 cents per taxable ton shall be paid to the county from which the taconite was mined, quarried or concentrated to be deposited in the county road and bridge fund. If the mining, quarrying and concentrating, or separate steps in any of those processes are carried on in more than one county, the commissioner shall follow the apportionment formula prescribed in clause (1).

(5) (a) 25.75 cents per taxable ton, less any amount required to be distributed under part (b), to the taconite property tax relief account in the apportionment fund in the state treasury, to be distributed as provided in sections 273.134 to 273.136.

(b) If an electric power plant owned by and providing the primary source of power for a taxpayer mining and concentrating taconite is located in a county other than the county in which the mining and the concentrating processes are conducted, .75 cent per taxable ton of the tax imposed and collected from such taxpayer shall be distributed by the commissioner of revenue to the county and school district in which the power plant is located as follows: 25 percent to the county and 75 percent to the school district.

(6) 1 cent per taxable ton to the state.

(7) 3 cents per taxable ton shall be deposited in the state treasury to the credit of the iron range resources and rehabilitation board account in the special revenue fund for the purposes of section 298.22. Of this amount, one cent per taxable ton is to be used to provide environmental development grants to local governments located within any county in region 3 as defined in governor's executive order number 60 issued on June 12, 1970, which does not contain a municipality qualifying pursuant to section 273.134.

(8) the amounts determined under clauses (4) (a), (4) (c), and (5) shall be increased in 1979 and subsequent years in the same proportion as the increase in the steel mill products index as provided in section 298.24, subdivision 1.

(9) the proceeds of the tax imposed by section 298.24 which remain after the distributions in clauses (1) to (8) and parts (a), (b), (c), and (d) of this clause have been made shall be divided between the taconite environmental protection fund created in section 298.223 and the northeast Minnesota economic protection fund created in section 298.292 as follows: In 1978, 1979, 1980, 1981, and 1982, two-thirds to the taconite environmental protection fund and one-third to the northeast Minnesota economic protection fund; in 1983 and thereafter, one-half to each fund. The proceeds shall be placed in the respective special accounts in the general fund.

(a) In 1978 and each year thereafter, there shall be distributed to each city, town, school district, and county the amount that they received under section 294.26 in calendar year 1977.

(b) In 1978 and each year thereafter, there shall be distributed to the iron range resources and rehabilitation board the amounts it received in 1977 under section 298.22.

(c) In 1978 and each year thereafter, \$50,000 shall be distributed to the department of revenue for auditing and enforcing the production tax imposed by Laws 1977, Chapter 423, Article 10.

(d) In 1978 and 1979, \$150,000 shall be distributed to the department of revenue for the purpose of administering section 298.48. In 1980 and each year thereafter, \$100,000 shall be distributed to the department of revenue. On or before October 10 of each calendar year each producer of taconite or iron sulphidés subject to taxation under section 298.24 (hereinafter called "taxpayer") shall file with the commissioner of revenue and with the county auditor of each county in which such taxpayer operates, and with the chief clerical officer of each school district, city or town which is entitled to participate in the distribution of the tax, an estimate of the amount of tax which would be payable by such taxpayer under said law for such calendar year; provided such estimate shall be in an amount not less than the amount due on the mining and production of concentrates up to September 30 of said year plus the amount becoming due because of probable production between September 30 and December 31 of said year, less any credit allowable as hereinafter provided. Such estimate shall list the taxing districts entitled to participate in the distribution of such tax, and the amount of the estimated tax which would be distributable to each such district in the next ensuing calendar year on the basis of the last percentage distribution certified by the commissioner of revenue. If there be no such prior certification, the taxpayer shall set forth its estimate of the proper distribution of such tax under the law, which estimate may be corrected by the commissioner if he deems it improper, notice of such correction being given by him to the taxpayer and the public officers receiving such estimate. The officers with whom such report is so filed shall use the amount so indicated as being distributable to each taxing district in computing the permissible tax levy of such county, city or school district in the year in which such estimate is made, and payable in the next ensuing calendar year, except that in 1978 and 1979 two cents per taxable ton, and in 1980 and thereafter, one cent per taxable ton of the amount distributed under clause (4)(c) shall not be deducted in calculating the permissible levy. Such taxpayer shall then pay, at the times payments are required to be made pursuant to section 298.27, as the amount of tax payable under section 298.24, the greater of (a) the amount shown by such estimate, or (b) the amount due under said section as finally determined by the commissioner of revenue pursuant to law. If, as a result of the payment of the amount of such estimate, the taxpayer has paid in any calendar year an amount of tax in excess of the amount due in such year under section 298.24, after application of credits for any excess payments made in previous years, all as determined by the commissioner of revenue, the taxpayer shall be given credit for such excess amount against

any taxes which, under said section, may become due from the taxpayer in subsequent years. In any calendar year in which a general property tax levy subject to sections 275.125 or 275.50 to 275.59 has been made, if the taxes distributable to any such county, city or school district are greater than the amount estimated to be paid to any such county, city or school district in such year, the excess of such distribution shall be held in a special fund by the county, city or school district and shall not be expended until the succeeding calendar year, and shall be included in computing the permissible levies under sections 275.125 or 275.50 to 275.59, of such county, city or school district payable in such year. If the amounts distributable to any such county, city or school district, after final determination by the commissioner of revenue under this section are less than the amounts indicated by such estimates, such county, city or school district may issue certificates of indebtedness in the amount of the shortage, and may include in its next tax levy, in excess of the limitations of section 275.125 or 275.50 to 275.59 an amount sufficient to pay such certificates of indebtedness and interest thereon, or, if no certificates were issued, an amount equal to such shortage.

There is hereby annually appropriated to such taxing districts as are stated herein, to the taconite property tax relief account and to the taconite municipal aid account in the apportionment fund in the state treasury, to the department of revenue, to the iron range resources and rehabilitation board, to the taconite environmental protection fund, and to the northeast Minnesota economic protection fund, from any fund or account in the state treasury to which the money was credited, an amount sufficient to make the payment or transfer. The payment of the amount appropriated to such taxing districts shall be made by the commissioner of revenue on or before May 15 annually.

Sec. 73. Minnesota Statutes 1976, Section 298.39, is amended to read:

298.39 [DISTRIBUTION OF PROCEEDS.] The proceeds of the tax collected under section 298.35 shall be distributed by the state treasurer, upon certificate of the commissioner of revenue to the general fund of the state and to the various taxing districts in which the lands from which the semi-taconite was mined or quarried were located in the following proportions: 22 percent thereof to the city or town; 50 percent thereof to the school district; 22 percent thereof to the county; six percent thereof to the state. If the mining and concentration, or different steps in either thereof are carried on in more than one taxing district, the commissioner shall apportion equitably the proceeds of the part of the tax going to cities or towns among such subdivisions, and the part going to school districts among such districts, and the part going to counties among such counties, upon the basis of attributing 40 percent of the proceeds of the tax to the operation of mining or quarrying the semi-taconite, and the remainder to the concentrating plant and to the processes of concentration, and with respect to each thereof giving due consideration to the relative extent of such

operations performed in each such taxing district. His order making such apportionment shall be subject to review by the tax court of appeals at the instance of any of the interested taxing districts, in the same manner as other orders of the commissioner. The amount so distributed shall be divided among the various funds of the state, or of the taxing districts in the same proportion as the general ad valorem tax thereof. If in any year the state shall not spread any general ad valorem tax levy against real property, the state's proportion of the tax shall be paid into the general fund. The amount distributed to any city and ~~one third in 1971 and that portion not deducted from state aids in section 124.212, subdivision 8, thereafter,~~ of the amount distributed to any school district ~~under the provisions hereof which is computed as a reduction of the school district levies pursuant to section 275.125, subdivision 9,~~ shall be included in computing the permissible levies of such city or school district under sections 275.11 or 275.125, but shall not be included in computing mill rate limitations, including cost of living adjustments thereof, so long as the levies do not exceed the limitations provided by said sections 275.11 or 275.125. On or before October 10 of each calendar year each producer of semitaconite subject to taxation under section 298.35, hereinafter called "taxpayer," shall file with the commissioner of revenue and with the county auditor of each county in which such taxpayer operates, and with the chief clerical officer of each school district or city which is entitled to participate in the distribution of the tax, an estimate of the amount of tax which would be payable by such taxpayer under said law for such calendar year; provided such estimate shall be in an amount not less than the amount due on the mining and production of concentrates up to September 30 of said year plus the amount becoming due because of probable production between September 30 and December 31 of said year, less any credit allowable as hereinafter provided. Such estimate shall list the taxing districts entitled to participate in the distribution of such tax, and the amount of the estimated tax which would be distributable to each such district in such next ensuing calendar year on the basis of the last percentage distribution certified by the commissioner of revenue. If there be no such prior certification, the taxpayer shall set forth its estimate of the proper distribution of such tax under the law, which estimate may be corrected by the commissioner if he deems it improper, notice of such correction being given by him to the taxpayer and the public officers receiving such estimate. The officers with whom such report is so filed shall use the amount so indicated as being distributable to each taxing district except in the case of school districts ~~one third in 1971 and that portion not deducted from state aids in section 124.212, subdivision 8, thereafter~~ of the indicated amount ~~which is computed as a reduction of school district levies pursuant to section 275.125, subdivision 9,~~ is to be used in computing, pursuant to sections 275.11 or 275.125, the permissible tax levy of such city or school district in the year in which such estimate is made, and payable in the next ensuing calendar year. Such taxpayer shall then pay, at the times payments are required to be made pursuant to section 298.36, as the amount of tax payable under section 298.35, the greater of (a) the amount shown by such estimate, or (b) the

amount due under said section as finally determined by the commissioner of revenue pursuant to law. If, as a result of the payment of the amount of such estimate, the taxpayer has paid in any calendar year an amount of tax in excess of the amount due in such year under section 298.35, after application of credits for any excess payments made in previous years, all as determined by the commissioner of revenue, the taxpayer shall be given credit for such excess amount against any taxes which, under said section, may become due from the taxpayer in subsequent years. In any calendar year in which a general property tax levy subject to sections 275.11 or 275.125 has been made, if the taxes distributable to any such city or school district are greater than the amount estimated to be paid to any such city or school district in such year, the excess of such distribution shall be held in a special fund by the city or school district and shall not be expended until the succeeding calendar year, and shall be included in computing the permissible levies under sections 275.11 or 275.125 of such city or school district payable in such year. If the amounts distributable to any such city or school district, after final determination by the commissioner of revenue under this section are less than the amounts indicated by such estimates, such city or school district may issue certificates of indebtedness in the amount of the shortage, and may include in its next tax levy, in excess of the limitations of sections 275.11 or 275.125 an amount sufficient to pay such certificates of indebtedness and interest thereon, or, if no certificates were issued, an amount equal to such shortage.

There is hereby appropriated to such taxing districts as are stated herein, from any fund or account in the state treasury to which the money was credited, an amount sufficient to make the payment or transfer.

Sec. 74. Minnesota Statutes 1976, Section 298.396, is amended to read:

298.396 [DISTRIBUTION OF PROCEEDS.] The proceeds of the tax collected under section 298.393 shall be distributed by the state treasurer, upon certificate of the commissioner to the general fund of the state and to the various taxing districts in which the agglomerating facility is located in the following proportions: 22 percent thereof to the city or town; 50 percent thereof to the school district; 22 percent thereof to the county; 6 percent thereof to the state. If the agglomerating facility is located in more than one tax district, the commissioner shall apportion equitably the proceeds of the part of the tax going to cities or towns among such subdivisions, and the part going to school districts among such districts, and the part going to counties among such counties, giving due consideration to the relative extent of the facilities located in each such taxing district. His order making such apportionment shall be subject to review by the tax court of appeals at the instance of any of the interested taxing districts, in the same manner as other orders of the commissioner. The amount to be distributed among the several taxing districts of the state shall be divided by such districts among the funds of such districts in the same proportion as the general ad valorem

tax thereof. The amount distributed to any city and one-third in 1971 and that portion not deducted from state aids in section 124.212, subdivision 8, thereafter of the amount distributed to any school district under the provisions hereof which is computed as a reduction of the school district levies pursuant to section 275.125, subdivision 9, shall be included in computing the permissible amount of the levies of such city or school district under sections 275.11 or 275.125, but shall not be included in computing mill rate limitations, including cost of living adjustments thereof, so long as the levies do not exceed the limitations provided by said sections 275.11 or 275.125.

Sec. 75. Minnesota Statutes 1976, Section 471.16, Subdivision 1, is amended to read:

Sec. 77. Minnesota Statutes 1976, Section 471.61, Subdivision 1, is amended to read:
