

JOURNAL
OF THE
SENATE
SIXTY-EIGHTH LEGISLATURE

STATE OF MINNESOTA

1974

The Webb Company
St. Paul

INTRODUCTION

The 1972 flexible session amendment to Article IV, Section 1 of the Constitution authorized the legislature to meet in regular session in both years of the biennium.

Article IV, Section 11 subjects bills to a pocket veto after the adjournment of a legislative session. However, the temporary adjournment between the session of the first year and the second year of the biennium is not a final adjournment, as the biennial session is considered as one continuous session.

"Pocket veto" occurs in two distinct situations: (1) When a bill is passed during the last 3 days of a biennial session and is not signed and filed by the Governor within 14 days after final adjournment, and (2) when a bill is passed prior to the last 3 days of a biennial session and is not signed or returned by the Governor by the end of the 3 day period after presentment, and the legislature has prevented such bill's return by *final* adjournment within 3 days of presentment.

Three test cases were brought in District Court, 4th Judicial District for declaratory judgments to determine whether Senate File No. 386 (L. 1973, C. 689); Senate File No. 1726 (L. 1973, C. 782); and House File No. 1772 (L. 1973, C. 783) were valid enactments of law by the legislature.

District Court Judge Harold Kalina ruled that S. F. No. 386 was not passed on a day prescribed for the adjournment of the two houses of the legislature within the meaning of Article IV, Section 22. Further, it was signed within the three day period allowed for the signature of bills. Hence it became law with the Governor's signature.

In the case of S. F. No. 1726, the Court ruled that this bill became law without the Governor's signature, since he failed to return the bill to the house of origin within three days, Sundays excepted, after its presentment to him.

H. F. No. 1772 was presented during interim adjournment and was signed within three days of presentment. So it became a valid law upon completion of the Governor's function, Judge Kalina ruled.

The three cases were appealed to the Supreme Court. In each case the Supreme Court affirmed the summary judgment of the trial court that each law was validly enacted. Each case involved a slightly different combination of circumstances, but all three hinged on the question of final adjournment.

So, as the District Court ruled and the Supreme Court affirmed, the 1973 Minnesota legislative session and the 1974 session are technically one session separated by a temporary adjournment.

Reports the same back with the recommendation that the bill be amended as follows:

Strike everything after the enacting clause and insert in lieu thereof the following:

“Section 1. [PUBLIC POLICY.] It is hereby declared to be the public policy of the state of Minnesota that:

(1) Public confidence in the integrity of government and the impartiality of its members is a prerequisite of representative democracy. To maintain responsible state government, the legislature must foster a moral climate in which public officials reach judgments based solely on consideration of the public good. To that end, the public interest is best served when full disclosure is made of the identity and expenditures of persons who engage in substantial efforts to persuade governmental officials to take specific actions;

(2) Public officials shall not use their official positions to obtain financial gain for themselves, their households, or any organizations with which they are associated in a manner which violates the public trust;

(3) Major political campaign contributions and expenditures should be fully disclosed to the public;

(4) Disclosure of major political campaign contributions and expenditures serves the public interest by (a) preventing corruption and undue influence and (b) revealing the sources of campaign financing to the public as well as thereby facilitating future informed decisions regarding alternative methods of public and private financing;

(5) Although small individual contributions to a candidate are unlikely to have a corrupting influence, a number of small contributions from an individual or small contributions from a number of associated individuals may when cumulated have a corrupting influence. Thus there is a compelling state interest in requiring the disclosure of all contributions of \$50 or more in the case of

legislative campaigns and \$100 in the case of campaigns for statewide office;

(6) Limitations upon campaign expenditures are necessary to control the spiraling amount of money required to campaign for public office and to ensure that no individual is denied the opportunity to run for public office for financial reasons;

(7) Candidates for public office and elected officials should not be under the influence of those persons who make large contributions to political campaigns.

Sec. 2. [DEFINITIONS.] Subdivision 1. For the purposes of sections 1 to 45, the terms defined in this section have the meanings given them unless the context clearly indicates otherwise.

Subd. 2. "Association" means business, corporation, firm, partnership, committee, labor organization, club, or any other group of two or more persons acting in concert.

Subd. 3. "Business with which he is associated" means any business, proprietorship, labor union, or association in connection with which the individual is compensated in excess of \$50 in any month as a director, officer, owner, member, partner, employer, employee, or is a holder of securities worth \$5,000 or more at fair market value.

Subd. 4. In any statewide election any contribution or contributions from a single person totaling \$3,000 or more or, in any legislative election, any contribution of \$300 or more, received after the period covered in the last report prior to an election, and prior to the election, shall be reported to the commission by telegram within 48 hours after its receipt and in the next required report.

Subd. 6. Every person, other than a political committee or association with a political fund, who makes expenditures, other than by contribution to a committee or political fund, in an aggregate amount in excess of \$100 within a year shall file with the commission a statement containing the information required of a committee, political fund, or candidate. Statements required by this section shall be filed on the dates on which reports by committees are filed.

Subd. 7. If no contribution is received or expenditure made by or on behalf of a candidate, political fund or political committee during a reporting period, the treasurer of the committee or political fund shall file with the commission, at the time required by this act for the period, a statement to that effect.

Subd. 8. The commission shall exempt any person, association, or any or all of its members or contributors from the provisions of this section if disclosure would expose any or all of its contributors to:

- (a) Economic reprisals;
- (b) Loss of employment; or
- (c) Threat of physical coercion.

An association may seek an exemption for all of its members only if it proves by clear and convincing evidence that a substantial number of its members or contributors would suffer a restrictive effect on their freedom of association if members were required to seek exemptions individually.

Subd. 9. A political committee or an association with a political fund or any or all of its members or contributors shall have standing to seek an exemption. All applications for exemption shall be treated as contested cases within the meaning of Minnesota Statutes, Chapter 15. The commission by rule shall establish a procedure so that any individual seeking an exemption may proceed anonymously if he would be exposed to the reprisals listed in subdivision 8 were he to reveal his identity for the purposes of the hearing.

Subd. 10. No person or association shall engage in economic reprisals or threaten loss of employment or physical coercion against any person or association because of that person's or association's political contributions or political activity. Any person or association which violates this subdivision is guilty of a gross misdemeanor.

Sec. 24. [REPORTS TO COUNTY AUDITOR.] Subdivision 1. All reports or statements that must be filed with the commission by the committees of legislative candidates shall also be filed

with the county auditor of each county in which the legislative district lies.

Subd. 2. The copies of reports filed with the county auditor need not be certified copies.

Subd. 3. Statements and reports filed with county auditor shall be available to the public in the manner prescribed by section 3, subdivision 8, clause (e) and retained until four years after the election to which they pertain.

Sec. 25. [REQUIREMENTS RESPECTING REPORTS AND STATEMENTS.] Subdivision 1. A report or statement required by sections 16 to 45 to be filed by a treasurer of a political committee or political fund, or by any other person, shall be signed and certified as true by the person required to file the report. Any person who signs and certifies to be true a report or statement which he knows contains inaccurate information is guilty of a felony.

Subd. 2. A copy of a report or statement required to be filed shall be preserved by the person filing it for two years after the election to which it pertains.

Subd. 3. Contributions and expenditures in the nature of debts and other contracts, agreements, and promises to make contributions or expenditures shall be reported in separate schedules. In determining aggregate amounts of contributions and expenditures, such debts and other contracts, agreements and promises shall not be considered as part of the totals of receipts or expenditures until actual payment is made, but shall be reported according to section 23, subdivision 3, clause (n).

Subd. 4. Each contribution in kind shall be declared at fair market value and reported on the appropriate schedule of receipts, identified as to its nature and listed as "contribution in kind". The total amount of goods and services contributed in kind shall be deemed to have been consumed in the reporting period in which received. Each contribution in kind shall be declared as an expenditure at the same fair market value and reported on the appropriate expenditure schedule, identified as "contribution in kind". A candidate may refuse to accept any contribution in kind.

Subd. 5. In determining the aggregate of a person's contributions, the treasurer shall list contributions from the same donor under the same name. In each instance when a contribution received from a person in a reporting period is added to previously reported unitemized contributions from the same contributor and the aggregate exceeds \$100 in the case of a statewide candidate or exceeds \$50 in the case of a legislative candidate within the year, the name, address, occupation, and principal place of business, if any, of that contributor shall then be listed on the prescribed reporting forms.

Subd. 6. A political committee or political fund making an expenditure other than a transfer of funds, for or on behalf of more than one candidate for state or legislative office shall allo-

cate the expenditure among the candidates on a reasonable cost basis and report this allocation for each candidate. The treasurer shall retain for audit any documents supporting the allocation.

Subd. 7. Each person required to file any report or statement shall maintain records on the matters required to be reported, including vouchers, cancelled checks, bills, invoices, worksheets, and receipts, which will provide in sufficient detail the necessary information from which the filed reports and statements may be verified, explained, clarified and checked for accuracy and completeness, and he shall keep the records available for audit, inspection, or examination by the commission, or its authorized representatives for six years from the date of filing of the reports or statements or of changes or corrections thereto. Any person violating any provisions of this subdivision is guilty of a misdemeanor.

Subd. 8. The treasurer of a political committee or political fund shall not accept a contribution of more than \$100 from a political committee or political fund not registered in this state unless the contribution is accompanied by a written statement, stating the name and address of each person who contributed (a) in excess of \$50, if the contribution or contributions are made directly to the principal campaign committee of a candidate for legislative office, or (b) in excess of \$100 if the contribution or contributions are made to any other political committee or political fund. These statements shall be certified as true and correct by an officer of the contributing committee or political fund. The provisions of this subdivision shall not apply when the national affiliate of any political party in this state transfers money to its state affiliate and that money is expended by the state political party on behalf of candidates of that party generally, without referring to any of them specifically, in any advertisement published or posted, on any broadcast, or in any telephone conversation, if that conversation mentions three or more candidates.

Subd. 9. The secretary of state shall cause one certified copy of each report or statement filed with him under Section 309 of the Federal Election Campaign Act of 1971 to be delivered to this commission within 24 hours of the time he receives such report or statement.

Sec. 26. [CHANGES AND CORRECTIONS.] Any changes in information previously submitted, and any corrections to a report shall be reported in writing to the commission within ten days following the date of the event prompting the change or the date upon which the person filing became aware of the inaccuracy. The change or correction shall identify the form and the paragraph containing the information to be changed or corrected.

Sec. 27. [DISSOLUTION OR TERMINATION.] No political committee or political fund shall dissolve until it has settled all of its debts and filed a termination report. The termination report shall include all information required in periodic reports and a statement as to the disposition of any residual funds.

Sec. 28. [LIMITS ON CAMPAIGN EXPENDITURES.] Sub-

division 1. For the purposes of sections 28 to 38 a candidate for governor and a candidate for lieutenant governor, running together, shall be deemed to be a single candidate and all expenditures made by or on behalf of the candidate for governor and all expenditures made by or on behalf of the candidate for lieutenant governor shall be considered to be expenditures by or on behalf of the candidate for governor.

Subd. 2. In a year in which a candidate stands for election no expenditures shall be made and no obligations to make expenditures shall be incurred, by a candidate or by a political committee, political fund or individual which makes expenditures with the authorization, express or implied, and under the control, direct or indirect, of the candidate or his agents which shall result in the aggregate expenditure on behalf of the candidate of an amount in excess of the following amounts:

(a) For governor and lieutenant governor, running jointly, 15 cents per capita or \$600,000, whichever is greater;

(b) For attorney general, 2½ cents per capita or \$100,000, whichever is greater;

(e) For state representative, 25 cents per capita or \$7,500, whichever is greater.

Subd. 3. Notwithstanding subdivision 2, clause (a), a candidate for the nomination to the office of lieutenant governor at the convention of a political party may spend \$30,000 or five percent of the amount in subdivision 2, clause (a), prior to the time of nomination. This money shall be in addition to the money which may be expended pursuant to subdivision 2, clause (a).

Subd. 4. Notwithstanding subdivision 2 with respect to the 1974 general election, expenses incurred prior to the effective date of this act shall be counted against the spending limitations imposed by subdivision 2.

Subd. 5. If the winning candidate in a primary election receives less than 70 percent of the vote cast in that election, he shall have added to the aggregate amount which may be expended by him or on his behalf an amount equal to one sixth of the applicable amount as set forth in subdivision 2 of this section, or the amount actually expended by him or on his behalf in the primary election, whichever is less.

Subd. 6. In a year in which a candidate does not stand for election, no expenditures shall be made and no obligations to make expenditures shall be incurred, by a candidate or by a political committee, political fund or individual which makes expenditures with the authorization, express or implied, and under the control, direct or indirect, of the candidate or his agents which shall result in the aggregate expenditure on behalf of the candidate in that

year of an amount in excess of 20 percent of the amount of the aggregate expenditure permitted by subdivision 2. Expenditures permitted by this subdivision shall be in addition to expenditures permitted by subdivision 2.

Subd. 7. On or before January 31 of each election year, the commission shall determine and cause to be published generally the per capita amounts specified in subdivision 2. In determining the per capita amounts, the commission shall use:

(a) In the case of the elections for governor and lieutenant governor, attorney general, secretary of state, state treasurer and state auditor, the total population of the state;

(b) In the case of the elections for state senator, 1/67 of the total population of the state;

(c) In the case of elections for state representative, 1/134 of the total population of the state.

Subd. 8. On or before January 15 of each election year, the secretary of state shall certify to the commission the estimated total population of the state as of January 1 of that year.

Subd. 9. An expenditure is made in the year in which the goods or services for which it was made are used or consumed.

Sec. 29. [TRANSFERS OF FUNDS EXCEPTED.] A transfer of funds from any political committee or political fund other than a political party, to the principal campaign committee of a candidate shall not be considered to be an expenditure of funds on behalf of the candidate by the political committee.

Sec. 30. [ADDITIONAL LIMITATIONS.] Subdivision 1. No political committee, political fund, or individual, except a political party or the principal campaign committee of a candidate shall make expenditures on behalf of a candidate, or transfer funds to the principal campaign committee of a candidate, in an amount in excess of ten percent of the amount that may be spent by or on behalf of that candidate as set forth in section 28.

Subd. 2. No political party shall make expenditures on behalf of a candidate or transfer funds to the principal campaign committee of a candidate, in an amount in excess of 40 percent of the amount that may be spent by or on behalf of that candidate as set forth in section 28.

Subd. 3. Expenditures by a political party on behalf of candidates of that party generally, without referring to any of them specifically, in any advertisement published or posted, on any broadcast, or in any telephone conversation, if that conversation mentions three or more candidates, shall not be subject to the limitations of section 28, subdivision 2.

Subd. 4. For the purposes of this section, a political party includes a political party's organization within congressional districts, counties, legislative districts, municipalities, wards, and precincts.

Sec. 31. [PRICE ADJUSTMENT.] At the beginning of each year, the commission shall obtain from the secretary of labor of the United States information as to the percent difference between the national price index for the 12 months preceding the beginning of the year and the price index for the base period which shall be 1973. Each amount determined under section 28 shall be increased by the percent difference. Each amount so increased shall be the amount in effect for the year. For the purpose of this section, the term "price index" means the average over a year of the consumer price index (all items, United States city average published monthly by the United States bureau of labor statistics). In the event that there is a decline in the price index it shall not result in a reduction in the amounts determined under section 28 and in any year after 1974 in which there is a decline in the price index, the amounts in effect shall be those in effect for the preceding general election.

Sec. 32. [STATE ELECTIONS CAMPAIGN FUND.] Subdivision 1. There is hereby established an account, within the general fund of the state, to be known as the "state elections campaign fund".

Subd. 2. Within the state elections campaign fund account, there shall be maintained separate accounts for the candidates of each political party and a general account.

Sec. 33. [DESIGNATION OF INCOME TAX PAYMENTS.] Subdivision 1. In the case of a joint return of husband and wife having an income tax liability of \$2 or more, each spouse may designate that \$1 shall be paid.

Subd. 2. The taxpayer may designate that the \$1 be paid into the account of a political party, or into the general account.

Subd. 3. The income tax form provided to taxpayers shall include:

The dollar is not an additional tax. It is an allocation of \$1 of your tax to the state elections campaign fund. The allocation is voluntary. If you are filing a joint return you may allocate \$1 each." The form shall state that each \$1 on a joint return may be allocated independently.

(b) The form shall then contain a line stating: "I hereby direct \$1 of my taxes to be distributed to state candidates," and shall then provide for boxes which may be marked designating one of the following: (i) each major political party listed in the sequence they are listed on the last general election ballot; (ii) the name of any minor party which has submitted a petition which contains the names of 2,000 persons registered to vote in Minnesota to the sec-

retary of state by June 1 of that taxable year; and (iii) distribution to all qualifying candidates proportionately.

Subd. 4. All moneys designated by individual taxpayers for the state elections campaign fund shall be credited to the appropriate account in the general fund of the state and shall be annually appropriated for distribution as set forth in subdivisions 5, 6, 7 and 8.

Subd. 5. In each fiscal year, ten percent of the moneys in each account, except the general account, shall be distributed directly to the party of the candidates to be funded from that account. The distribution shall occur on September 1 of each year. The remaining 90 percent of the money in each party account, and all of the moneys in the general fund shall be distributed in accordance with subdivisions 6, 7 and 8.

Subd. 6. (a) In each fiscal year, 40 percent of the moneys in each account shall be set aside for candidates for statewide office.

(b) Of the amount set aside in clause (a), 40 percent shall be distributed to the candidates for governor and lieutenant governor jointly; 24 percent shall be distributed to the candidate for attorney general; and 12 percent each shall be distributed to the candidates for secretary of state, state treasurer and state auditor. If there is no nominee of that party for one of the offices, the share set aside for that office shall be distributed to the other statewide candidates of that party in the same proportions as the original amount.

(c) Within two weeks of the certification by the state canvassing board of the results of the primary election, the state treasurer shall distribute available funds in each account, other than the general account, of the state elections fund to the appropriate candidates as prescribed in clauses (a) and (b).

(d) Within two weeks of the certification by the state canvassing board of the results of the general election, the state treasurer shall distribute the available funds in the general account in the same proportions as provided in clause (b), in an equal amount to each candidate who received at least five percent of the vote cast for the office for which he was a candidate.

(d) Within two weeks of the certification by the state canvassing board of the results of the general election, the state treasurer shall distribute the available funds in the general account in an equal amount to each candidate who received at least five percent of the votes cast for the office for which he was a candidate.

Sec. 34. [LIMITATIONS UPON THE STATE ELECTION CAMPAIGN FUND.] Subdivision 1. No candidate or political party shall be entitled to receive from the state elections campaign fund an amount greater than the total amount of expenditures which may be made by or on behalf of the candidate under sections 28 and 30.

Subd. 2. No candidate shall be entitled to receive from the state election campaign fund an amount greater than the total amount actually expended by or on behalf of the candidate.

Subd. 3. As a condition of receiving any funds from the state elections campaign fund, any candidate, prior to receipt of the funds, shall agree that his principal campaign committee shall not accept contributions exceeding 105 percent of the difference between the amount which may legally be expended by or on behalf of that candidate, and the amount which the candidate receives from the state elections campaign fund.

Subd. 4. If a political party for whose candidates funds have been accumulated in the state elections campaign fund does not have a candidate for statewide office, state representative or state senator, the moneys which would be used for distribution to that category or categories shall be transferred to the general account.

Sec. 35. [APPLICATION.] The provisions of sections 28 and 30 shall apply only in general elections and primary elections preceding general elections and shall not include special elections, special primary elections, conventions, and caucuses of a political party.

Sec. 36. [CIRCUMVENTION PROHIBITED.] Any attempt by a person to circumvent the provisions of sections 13 to 38 by redirecting funds through, or contributing funds on behalf of, another person is a gross misdemeanor.

Subd. 3. The commission, the attorney general or the county attorney may seek an injunction in the district court to enforce the provisions of sections 1 to 45.

Subd. 4. The district courts of this state shall have jurisdiction to issue injunctions to enforce the provisions of sections 1 to 45 upon application by any citizen of this state.

Subd. 5. Unless otherwise provided, a violation of sections 1 to 45 is not a crime.

Sec. 38. [PENALTY FOR EXCEEDING LIMITS.] Any person or association that makes expenditures in excess of the limitations imposed by sections 28 and 30 shall be subject to a fine equal to three times the amount by which its expenditure exceeded the limit. If the attorney general has reason to believe that a person or association has made such excess expenditures, he shall bring an action in the district court of Ramsey county to impose this penalty. All moneys recovered pursuant to this section shall be deposited in the general account of state elections campaign fund.

Reports the same back with the recommendation that the bill be amended as follows:

Strike everything after the enacting clause and insert in lieu thereof the following:

"Section 1. Minnesota Statutes 1971, Chapter 375, is amended by adding a section to read:

[375.025] [COMMISSIONER DISTRICTS.] *Subdivision 1. [STANDARDS.] The redistricting plan in use in a county shall be effective and continue to be used until a redistricting plan is adopted in accordance with the provisions of this act. Each county shall be divided into as many districts numbered consecutively as it has members of the county board. Unless necessary to meet the standards set forth in this section, commissioner districts shall be bounded by town, municipal, ward, or precinct lines. Each district shall be composed of contiguous territory as regular and compact in form as practicable, depending upon the geography of the county involved and shall be as nearly equal in population as possible, provided that no district shall vary in population more than 10 per cent from the average for all districts in the county, unless the result forces a voting precinct to be split. In addition, a majority of the least populous districts shall contain not less than a majority of the population of the county. A county may be redistricted by the county board after each state or federal census. When it appears after a federal census that the districts of the county are not in accord with the standards set forth in this subdivision, the county shall be redistricted by the county board within 180 days of the date on which certified copies of the latest federal census are filed with the secretary of state in accordance with Minnesota Statutes, Section 600.18. Before acting to redistrict a county, the county board or a redistricting commission, if one be appointed, shall cause at least 3 weeks published notice of its purpose to do so, stating the time and place of the meeting where the matter will be considered, to be published in the newspaper having the contract for publishing the commissioners' proceedings for the county for the current year.*

Subd. 2. [VOTERS RIGHTS.] Any qualified voter may apply to the district court of the county for a writ of mandamus (a) requiring the county to be redistricted if the county board has not redistricted the county within the time specified in subdivision 1, or (b) to revise any arbitrary action or abuse of discretion by the county board in redistricting the county; provided, any application for revision of a redistricting plan shall be filed with the district court within 30 days after the filing of the redistricting plan with

the county auditor. The district court may direct the county board to show cause why it has not redistricted the county or why the redistricting plan prepared by it should not be revised, and on a hearing thereon may allow the county board additional time in which to redistrict the county or to correct errors in the redistricting plan. If it shall appear to the district court that the county board has not been sufficiently diligent in performing its redistricting duties, the court may appoint a redistricting commission to redistrict the county in accordance with the standards set forth in subdivision 1 and any other conditions the court shall deem advisable and appropriate. If a redistricting commission is appointed, the county board shall be without authority to redistrict the county.

Subd. 3. [REDISTRICTING COMMISSION.] The redistricting commission shall be composed of not less than 5 nor more than 9 residents of the county. No officer or employee of county or local government except notaries public shall be eligible for membership on the commission. Members of the commission shall not be eligible for election to the county board until 2 years after the redistricting in which they participated becomes effective. Members of the commission shall serve without pay but may be reimbursed their necessary expenses in the conduct of the business of the commission. The county board shall provide for the necessary expenses of the commission.

Subd. 4. [REDISTRICTING PLAN; ELECTION FOLLOWING REDISTRICTING.] A redistricting plan whether prepared by the county board or the redistricting commission shall be filed in the office of the county auditor. Notice that the plan is on file shall be published in the newspaper having the contract for publishing the commissioners' proceedings for the current year. A redistricting plan shall be effective on the 31st day after publication of the notice unless a later effective date is specified; provided, no redistricting plan shall be effective as to the next election of county commissioners unless the plan shall have been filed with the county auditor not less than 30 days before the first date candidates may file for the office of county commissioner. One commissioner shall be elected in each district who, at the time of the election, shall be a resident thereof and the person so elected shall be entitled to hold the office only while he remains a resident of the commissioner district. The county board or the redistricting commission as appropriate shall determine the number of members of the county board who shall be elected for two year terms and for four year terms in order to provide for staggered terms on the county board. Thereafter, all commissioners shall be elected for four years. When a county is redistricted, there shall be a new election of commissioners in all the districts of the county at the next general election except that where no change is made in the boundaries of a district, the commissioner in office at the time of the redistricting shall serve for the full period for which he was elected.

Sec. 2. Minnesota Statutes 1971, Section 169.73, Subdivision 2, is amended to read:

Subd. 2. All motor vehicles shall be equipped with front and rear bumpers or with front bumpers and with rear reflectors, as herein provided, and all trailers and semi-trailers weighing more than 1,500 pounds shall be equipped with rear bumpers or with rear reflectors, as herein provided. Every new truck, trailer or semi-trailer manufactured and sold after July 1, 1974 and operated upon the highways of this state shall be equipped with rigid rear safeguards if the vertical distance from the ground to the rearmost portion of the bed, platform or other load-supporting part of the vehicle is 30 inches or more, provided that rigid safeguards are not required on vehicles having a horizontal distance of 30 inches or less between the rearmost axle and the rearmost point of the vehicle. When the installation of rear rigid safeguards at the rear of a vehicle would interfere with the operation of a ramp hoist or other necessary mechanism, such rear rigid safeguards may be mounted forward of the rearmost point of the vehicle a distance of not to exceed 30 inches or may be permanently affixed to such mechanism. Motor vehicles constructed and maintained so that the body, chassis, or other parts of the vehicle afford the rear end protection contemplated shall be deemed to be in compliance with this section.

Subd. 3. or becoming loose, or to trucks with a tail gate or tail-board hanging down or projecting from the vehicle while the vehicle is being loaded or unloaded when the load on the tail-board renders impossible the closing of the tail-board.

Sec. 5. Minnesota Statutes 1971, Section 169.85, is amended to read:

169.85 [WEIGHING.] Any police officer having reason to believe that the weight of a vehicle and load is unlawful is authorized to require the driver to stop and submit to a weighing of the same either by means of portable or stationary scales, and may require that such vehicle be driven to the nearest public scales in the event such scales are within five miles. *Official traffic control devices as authorized by section 169.06 may be used to direct the driver to the nearest scale. When any weigh station upon a trunk highway or interstate highway is open and signs giving notice of that fact are posted in accordance with section 169.06, the driver of every vehicle registered for or weighing in excess of 11,000 pounds shall comply with the direction of the signs and submit the vehicle to weighing and inspection at the weigh station, provided; such signs shall not be posted more than one mile from the weigh station.*

When an officer, upon weighing a vehicle and load, as above provided, determines that the weight on any axle exceeds the lawful gross weight as prescribed by section 169.83, by 2,000 pounds or more, or when the weight on any group of two or more consecutive axles in cases where the distance between the centers of the first and last axles of the group under consideration is ten feet or less exceeds the lawful gross weight as prescribed by section 169.83, by 4,000 pounds or more and in all cases when the weight is unlawful on any axle or group of consecutive axles on any road restricted in accordance with section 169.87, he may require the driver to stop the vehicle in a suitable place and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of such vehicle to such limit as permitted under this chapter. All material so unloaded shall be cared for by the owner or driver of such vehicle at the risk of such owner or driver.

Any driver of a vehicle who fails or refuses to stop and submit the vehicle and load to a weighing *as required herein*, or who fails or refuses, when directed by an officer upon a weighing of the vehicle, to stop the vehicle and otherwise comply with the provisions of this section, shall be guilty of a misdemeanor.

(a) the estimated operating revenues from all sources including funds on hand at the beginning of the year, and estimated expenditures for costs of operation, administration, maintenance, and debt service; and

(b) capital improvement funds estimated to be on hand at the beginning of the year and estimated to be received during the year from all sources and estimated cost of capital improvements to be paid out or expended during the year; all in such detail and form as the council may prescribe. Between August 1 and September 1 of each year, the commission shall hold a public hearing on the proposed budget. Not less than 14 days before the hearing, the commission shall publish notice thereof in a newspaper having general circulation in the metropolitan area, stating the date, time and place of hearing, and the place where the proposed budget may be examined by any interested person. Those parts of the budget relating to revenues and expenditures for capital improvements shall be submitted to the council on or before August 1 of each year and shall be subject to approval by the council. The council shall act to approve or disapprove by October 1 of each year. Before December 15 of each year the commission, after obtaining approval of the council for any changes in the capital improvements budget, shall by resolution adopt a final budget. Each commission shall file its final budget with the council on or before December 20 of each year. Except in an emergency, for which procedures shall be established by the commission, the commission and its officers, agents and employees shall not spend money for any purpose, other than debt service, without an appropriation by the commission or in excess of the amount appropriated therefor, and no obligation to make such an expenditure shall be enforceable except as the obligation of the person or persons incurring it. The creation of any debt obligation or the receipt of any federal or state grant is a sufficient appropriation of the proceeds for the purpose for which it is authorized, and of the tax or other revenues pledged to pay the obligation and interest on it whether or not specifically included in any annual budget. The commission may, after obtaining approval of the council, amend the capital improvements budget at any time by transferring any appropriation from one purpose to another, except appropriations of the proceeds of bonds issued for a specific purpose. The council shall file the budgets of all commissions with the secretary of the senate and the clerk of the house of representatives not later than January 15 of each year.

Within three years after the effective date of this article, the council and all commissions shall adopt budgets in program budget form.

Subd. 3. [REVIEW OF USER CHARGES.] Thirty days prior to the establishment of or change in any user charges or fees or schedule of user charges or fees the commission shall forthwith submit proposed charges or fees or schedule to the council. The council shall review and comment upon the charges, fees, or schedule with particular reference to (1) their consistency with the development guide and policy plan, and (2) their fiscal impact on the metropolitan area, especially their impact on future debt service requirements, the financing of future capital improvements, and on the various local governmental units and classes of users. On or before January 15 of each year, the council shall transmit the charges, user fees or schedules of all commissions and its comments thereon to the secretary of the senate and chief clerk of the house of representatives for consideration by the legislature.

The report shall also disclose each of the member's financial interests, including both assets and liabilities, of a value in excess of \$1,000. Assets shall exclude accounts in banks, credit unions and savings and loan associations, United States government savings bonds, the member's or employee's homestead, household goods and personal effects, personal automobile, and the cash value of life insurance. Liabilities shall exclude indebtedness on the member's or employee's homestead, household goods and personal effects, personal automobile, and amounts borrowed against the cash value of life insurance.*

Subd. 2. [INTEREST IN CONTRACTS PROHIBITED.] No commissioner or any person holding appointment under the commission shall be interested directly or indirectly in any contract entered into by the commission. The council may, at the board's request, amend the budget at any time by transferring from one purpose to another any appropriation except appropriations of bond proceeds and of money for debt service and adopt a budget at the time and in the manner provided in and otherwise comply with article I, section 10.

ARTICLE III
THE METROPOLITAN TRANSPORTATION COMMISSION

Section 1. Minnesota Statutes 1971, Section 473A.01, Subdivision 2, is amended to read:

Subd. 2. "~~Metropolitan transit transportation area~~" or "~~transit transportation area~~" or "~~area~~" or "~~MTA~~" means the ~~Twin Cities metropolitan public transit transportation area~~ hereinafter established.

Sec. 2. Minnesota Statutes 1971, Section 473A.01, Subdivision 3, is amended to read:

Subd. 3. "~~Metropolitan transit transportation commission~~" or "~~transit transportation commission~~" or "~~commission~~" means the ~~Twin Cities area metropolitan transit transportation commission~~ hereinafter created.

Sec. 3. Minnesota Statutes 1971, Section 473A.01, is amended by adding a subdivision to read:

Subd. 12. "Metropolitan council" or "council" means the metropolitan council created by Minnesota Statutes 1971, Section 473B.02.

Sec. 4. Minnesota Statutes 1971, Section 473A.02, is amended to read:

473A.02 [LEGISLATIVE DETERMINATION, POLICY AND PURPOSE.] The legislature finds and determines that nearly half the people of the state live in the metropolitan ~~transit transportation area~~ hereinafter established. The population of that area is growing faster than in any other area of the state, and it is continually visited by large numbers of people from other parts of the state, resulting in a heavy and steadily increasing concentration of resident and transient population and creating serious problems of public transit and public highway traffic in the area. The present public transit systems in the area consist largely of bus lines using the public highways and streets. These systems are inadequate to meet the needs for public transit in the area. A major part of the transportation of people in the area is provided by private motor vehicles. All of the foregoing adds heavily to the traffic load on the state highways which constitute the main routes of travel to, from, and through the area, aggravating the congestion and danger of accidents thereon, polluting the surrounding air, intensifying the wear and tear on those highways and streets, increasing the cost of maintenance thereof, and the number, size, and cost of new highways that must be constructed in the area. These effects will progressively grow worse as the population of the area increases, imposing serious handicaps on the business, industry, property development, recreation, and other beneficial activities of the residents of the area and visitors thereto, and causing severe and widespread harm to the public health, safety and welfare of the area and the entire state. It is beyond the capacity of the present operators of public transit systems and other existing public and private agencies unassisted to make adequate provision for public transit in the

area or for dealing effectively with the aforesaid problems and conditions therein. The legislature therefore declares as the public policy of the state that for the protection and advancement of the public health, safety, and welfare of the metropolitan ~~transit~~ *transportation* area and the entire state, and in order to provide for adequate public transit within the area, reduce the traffic congestion and hazards on the state and other highways and streets therein, and relieve the other harmful conditions aforesaid, there is urgent need for the establishment of that area as herein defined, for the creation of a metropolitan ~~transit~~ *transportation* commission therefor with the powers and duties herein prescribed, *for the implementation of a comprehensive transportation policy plan for the area* and for the other measures herein provided for.

Sec. 5. Minnesota Statutes 1971, Section 473A.03, is amended to read:

473A.03 [METROPOLITAN TRANSPORTATION AREA, ESTABLISHMENT.] There is hereby established a ~~Twin Cities~~ metropolitan ~~public transit~~ *transportation* area comprising the counties of Hennepin, Ramsey, Anoka, Washington, Dakota, Scott, and Carver.

Sec. 6. Minnesota Statutes 1971, Section 473A.04, Subdivision 1, is amended to read:

473A.04 [METROPOLITAN TRANSPORTATION COMMISSION.] Subdivision 1. [COMMISSION; CREATION AND COMPOSITION.] There is hereby created a ~~Twin Cities area~~ metropolitan ~~transit~~ *transportation* commission for the *metropolitan* area, composed of nine members, herein called commissioners; ~~selected and serving as hereinafter provided or members, which commission shall be organized, structured and administered as provided in this chapter and article 1 of this act.~~

Sec. 7. Minnesota Statutes 1971, Section 473A.05, Subdivision 10, is amended to read:

Subd. 10. [COMMISSION BUDGET; APPROVAL THEREOF.] During the month of June in each year, the commission shall at its regular meeting establish a budget consisting of an operating expense budget for the current fiscal year, a capital expense budget for the current fiscal year, and a capital improvement program for the five fiscal years past the current fiscal year. The capital expense budget and the capital improvement program shall be submitted to the metropolitan council for its approval or disapproval and comment which shall be given within 60 days after submission. The absence of such approval or comment as to the items contained therein shall constitute approval of such items. If circumstances require a significant change in the budget or program, the commission shall submit the matter to the council for its approval within 30 days upon the above terms.

The commission and the council shall cooperate in such manner and provide such information so as to make possible meaningful evaluation of these items and of the comments thereon in implementation of the purposes of Minnesota Statutes 1967, Section

~~173B.02~~ *The commission shall prepare, submit and adopt a budget in the manner provided in, and otherwise comply with, the provisions of article I, section 10 of this act .*

Sec. 8. Minnesota Statutes 1971, Chapter 473A, is amended by adding a section to read:

[473A.051] [TRANSPORTATION POLICY PLANS; FEDERAL PROGRAMS.] *Subdivision 1. [TRANSPORTATION POLICY PLAN.] The council shall adopt a transportation policy plan as a part of its comprehensive development guide as in article I, section 6 hereof, which shall include policies both capital and noncapital relating to all transportation forms. The plan shall be designed to promote the legislative determinations, policies and purposes set forth in section 4 of this article to the end of providing the area an integrated and efficient transportation system. In addition to the requirements of Article I, Section 6 of this act regarding the use of the expertise of the commission, the state highway department and affected counties and municipalities may provide such technical assistance as may be requested by the council.*

Subd. 2. The metropolitan council shall be the designated planning agency for any long-range comprehensive transportation planning required by Section 134 of the Federal Highway Act of 1962, Section 4 of Urban Mass Transportation Act of 1964 and Section 112 of Federal Aid Highway Act of 1973. The council shall assure administration and coordination of transportation planning with appropriate state, regional and other agencies, counties, and municipalities, and together with the commission shall establish such an advisory body consisting of citizen representatives, commission, municipality, county and appropriate state agency representatives in fulfillment of the planning responsibilities of the council and the commission.

Subd. 3. [FEDERAL AID.] For the purposes of this subdivision the term "governmental subdivision" includes municipalities, counties and other political subdivisions generally. If federal aid for transportation programs and projects is otherwise unavailable to an existing agency or governmental subdivision, the metropolitan council may cooperate with the government of the United States and any agency or department thereof and the affected agency or other governmental subdivision in establishing metropolitan area eligibility to receive federal aid, and may comply with the provisions of the laws of the United States and any rules and regulations made thereunder for the expenditure of federal moneys upon such projects as are proposed for federal assistance. If necessary to meet federal requirements, the council and the commission may be considered a single eligible unit to carry out their respective responsibilities. The metropolitan council may accept federal aid and other aid, either public or private, for and in behalf of the metropolitan area or any governmental subdivision of the state, for transportation programs and projects within the metropolitan area upon such terms and conditions as are or may be prescribed by the laws of the United States and any rules or regulations made thereunder, and is authorized to act as agent of any governmental sub-

division of the state with jurisdiction in the metropolitan area upon request of such subdivision in accepting the aid in its behalf for such programs or projects financed either in whole or in part by federal aid. The governing body of any such subdivision is authorized to designate the metropolitan council as its agent for such purposes and to enter into an agreement with the council prescribing the terms and conditions of the agency relationship in accordance with state and federal laws, rules and regulations. The metropolitan council is authorized to designate an appropriate state agency as its agent for such purposes and to enter into an agreement with such agency prescribing the terms and conditions of the agency relationship in accordance with state and federal laws, rules and regulations.

Nothing contained herein shall limit any separate authority of agencies or governmental subdivisions of the state to contract for and receive federal aid.

Sec. 9. Minnesota Statutes 1971, Section 473A.06, is amended by adding a subdivision to read:

Subd. 1a. [DEVELOPMENT PROGRAM.] The commission shall prepare and submit in the manner provided in and satisfying the requirements of article 1, section 9 of this act, a transportation development program, including both capital and noncapital elements, providing for the implementation of the policy plan adopted by the council. In preparing the program, the commission shall consult with counties and municipalities in the metropolitan area, the state highway department and the state planning agency, and for that purpose may create such advisory committees as may be necessary.

Such program shall provide for and include coordination of routes and operations of all publicly and privately owned transportation facilities within the area to the end that combined efficient and rapid transportation may be provided for the use of the public in the entire area. The commission may designate a segment of the system planned as a pilot or demonstration transportation project using, without limitation, new technology including airborne systems, or traditional systems of evolved or modern form. The transportation development program shall include the general alignment and profile, approximate points of access, facility classification, approximate cost, relation to other existing and planned transportation routes and facilities, and a statement of the expected general effect on present and future use of the property within the corridor. The program shall be accompanied with a statement of need for the proposed construction or improvement, a description of alternate routes which were considered, and an explanation of the advantages and disadvantages in the selection of any route considered. The transportation development program shall also contain a description of the type of right of way or routes required; the type of transit service to be provided in each portion of the system; designation of transit mode; and appropriate general operating criteria. The program may include such other information as the commission deems necessary.

Sec. 10. Minnesota Statutes 1971, Section 473A.06, is amended by adding a subdivision to read:

Subd. 1b. [APPROVAL OF HIGHWAY PROJECTS.] Before acquiring land for or constructing a highway or road of metropolitan significance in the area which is not included in an existing development program (hereinafter a project) the state highway department or local government unit proposing such acquisition or construction shall submit to the council a statement describing the proposed project. The statement shall be in the form and detail required by the council. Immediately upon receipt of the statement, the council shall transmit a copy to the commission which shall review and evaluate the project in relation to the development program and report its comments and recommendations to the council. The council shall also review the statement to ascertain its consistency with the development guide. No such project may be undertaken unless the council determines that it is consistent with the policy plan and development program. This approval shall be in addition to the requirements of any other statute, ordinance, or regulation.

Sec. 11. Minnesota Statutes 1971, Section 473A.16, is amended to read:

Subd. 6. [CERTIFICATION REVIEW.] The agency may at any time review the certification of any beverage container. If the agency determines that certification was improperly withheld and that the container is qualified for certification, the agency shall grant certification.

Sec. 6. Minnesota Statutes 1971, Chapter 116, is amended by adding a section to read:

[116.47] [STANDARDS AND REGULATIONS.] Pursuant to the provisions of chapter 15 and to the rules of procedure of the Minnesota pollution control agency, the agency may adopt, amend and rescind regulations and standards having the force of law to carry out the provisions of this act. The regulations or standards may be of general application throughout the state, or may be limited as to times, places, circumstances or conditions in order to make due allowances for variations therein.

Sec. 7. "Subdivision 1. Within nine months after the effective date of this act, the director shall prepare and issue an emergency conservation and allocation plan in the manner set forth in subdivision 2. Such plan shall provide a variety of strategies and staged conservation measures to reduce energy use in the event of sudden or serious shortage and shall establish guidelines and criteria for allocation of fuels to priority users in a shortage situation. The plan shall contain alternative conservation actions and allocation plans to reasonably meet various foreseeable shortage circumstances and allow a choice of appropriate responses. The plan shall be consistent with requirements of federal emergency energy conservation and allocation laws and regulations and shall:

(a) Give priority to persons who demonstrate they have engaged in energy-saving measures and shall include provisions to insure that:

(1) immediate allocations to persons be based on needs at energy conservation levels;

(2) successive allocations to persons be based on needs after implementation of required action to increase energy conservation;

(3) needs of individuals and institutions are adjusted to insure the health and welfare of the young, old and infirm;

(b) Insure maintenance of reasonable job safety conditions and avoid environmental sacrifices, provided that if no feasible and prudent alternative exists, minimum easing of short range environmental goals and standards, consistent with human health, in specific cases for minimum specific periods of time shall be permitted;

(c) Establish procedures for fair and equitable review of complaints and requests for special exemptions regarding emergency conservation measures or allocations.

Subd. 2. Within four months after the effective date of this act, the director shall circulate, in a manner designed to assure widespread public notice, a tentative plan of energy conservation measures and allocation priorities and criteria, and shall solicit, in a time, form and manner prescribed by him, public comments thereon. Further the director may require all utilities, coal suppliers and petroleum suppliers to comment thereon, as prescribed by him, and

to submit suggested emergency conservation measures and allocation criteria. The director may by written order, to the extent he deems appropriate, require joint preparation and submission of such comments and proposals by utilities, coal suppliers and petroleum suppliers. Industry participants in such cooperative planning, acting at the request of the director, shall be deemed thereby to have performed actions permitted by a regulatory body acting under authority of this state within the meaning of chapter 325.8017, subdivision 2. In the process of soliciting public comments on the tentative plan, the director shall hold at least five public meetings in various geographical areas of the state to insure easy public comment. The final plan shall be based on comments received from the public and utilities, coal suppliers and petroleum suppliers, the independent evaluation and analysis of the director and the guidelines set forth in subdivision 1.

Subd. 3. At least once every five years and whenever construction of a large new energy facility is completed which affects the supply of energy in Minnesota, the director shall review the emergency conservation and allocation plan.

Subd. 4. Upon a declaration of an energy supply emergency or serious fuel shortage by the executive council or concurrent resolution of the legislature, the director shall, in accordance with those provisions of the emergency conservation and allocation plan as specified in the resolution declaring the emergency, restrict the use of or limit the availability of any form of energy to avoid impending serious shortages of energy supplies and to protect the public health, safety, and welfare. The division of civil defense shall, at the direction of the director, implement and enforce the emergency conservation allocation plan and each person shall carry out the responsibilities specified in the plan. Violation of any provision of such required emergency conservation or allocation requirements shall be deemed a violation of this act and the rules or regulations thereunder for purposes of enforcement pursuant to section 13 hereof."

"Section 1. [CATEGORICAL AID PROGRAMS; PROVISION FOR CONTINUING PAYMENTS.] Subdivision 1. Commencing January 1, 1974, the commissioner of public welfare shall certify to each county the amount of aid each eligible county resident received per pay period prior to December 31, 1973 pursuant to a categorical aid program of old age assistance, aid to the blind, or aid to the disabled. From and after January 1, 1974, each county shall advance to the commissioner of public welfare one half of the amount by which aid paid to the county resident by the county, the state, and the United States prior to January 1, 1974 exceeds the amount of aid paid to the individual after December 31, 1973 by the United States pursuant to 42 U.S.C. Section 1381. The commissioner of public welfare shall forward all such sums received from the counties, together with an equal state share, to the appropriate department of the United States for disbursement.

Subd. 2. [OPTIONAL FISCAL PROCEDURE.] The commissioner of public welfare may, by rule and regulation, establish alternate fiscal procedures by which the amount of individual county liability established under this section may be deducted from the state liability to the county incurred under any other public assistance program authorized by law.

Subd. 3. [PROVISIONS FOR RE-CALCULATIONS OF SUPPLEMENTAL AID IN CASES OF CHANGED CIRCUMSTANCES.] An individual who is eligible for supplemental aid under this section may, if his or her circumstances change substantially after January 1, 1974, have the amount of his or her supplemental aid recalculated by the county welfare board in accordance with the standards for shelter, food, clothing, personal needs, household supplies, utilities, and recurring special needs in effect for the appropriate categorical aid program in December, 1973. No individual shall experience a decrease in the amount of his or her original supplemental aid as a result of a recalculation under this section. Any increase in the individual's supplemental aid which results from a recalculation shall be administered pursuant to the provisions of section 2.

Sec. 2. [NEW ENROLLEES; PROVISION FOR SUPPLEMENTS.] Subdivision 1. For all recipients of supplemental security income provided by the United States pursuant to 42 U.S.C. For any recipient who meets the eligibility criteria in effect December 31, 1973, the county welfare board shall certify to the commissioner of public welfare the amount which the individual would have received in accordance with the standards for shelter, food, clothing, personal needs,

household supplies, utilities, and recurring special needs in effect for the categorical aid program in December, 1973. From and after the first of the month in which a successful application was filed, the state shall advance to the county one half of the amount by which the amount certified by the county exceeds the amount of aid paid to the recipient after December 31, 1973 by the United States pursuant to 42 U.S.C. Section 1381. The county shall forward each sum received, together with an equal county share, to the appropriate recipient.

Subd. 2. The state shall pay one half of the administrative costs incurred by the county under this section and not otherwise reimbursed by federal or state funds.

Section 1381.

Sec. 4. The commissioner of public welfare shall promulgate all rules and regulations necessary to carry out the provisions of this act.

Sec. 5. [ADMINISTRATIVE AND JUDICIAL REVIEW.] Any applicant or recipient aggrieved by any order or determination by the county welfare board may appeal the order or determination in the manner provided by Minnesota Statutes, 1973 Supplement, Section 245A.12.

Sec. 6. [SPECIAL 1974 FISCAL PROCEDURES.] Notwithstanding any law to the contrary, any county board of commissioners may, by majority vote at any time following the effective date of this act, transfer surplus funds to the appropriate fund for purposes of this act; and it may immediately levy taxes and issue certificates of indebtedness in anticipation of collection of said taxes, for the purpose of providing money necessary to pay supplemental aid as required by this act during the calendar year 1974.

“Section 1. This act may be cited as “The Minnesota Fair Pupil Fee Law.”

Sec. 2. [GENERAL POLICY.] It is the policy of the state of Minnesota that public school education shall be free and a public school pupil shall not be denied an education because of economic inability to furnish books and educational supplies necessary to complete requirements for graduation. Any practice leading to suspension, exclusion, withholding of grades or diplomas, or coercive or discriminatory action based upon nonpayment of fees denies pupils their right to equal protection and entitled privileges. It is recognized that school boards do have the right to make certain charges and to establish fees in areas considered extra curricular, non-curricular, supplementary, or not required for the successful completion of a class. No public school board may require, except as authorized by section 3, the payment of fees relating to participation in any instructional program.

Sec. 3. [AUTHORIZED FEES.] Subdivision 1. A public school board is authorized to collect fees only for the following:

- a) In any program a resultant product which, at the pupil's option, becomes the personal property of the pupil;*
- b) Admission fees or charges for extra curricular activities, where attendance is optional;*

- c) A security deposit for the return of materials, supplies, or equipment;
- d) Personal physical education and athletic equipment and apparel, provided that any pupil may provide his own if it meets reasonable requirements and standards relating to health and safety established by the public school board;
- e) Items or products which a student may purchase at his own option such as newspapers, class rings, annuals, and graduation announcements;
- f) Fees specifically permitted by any other statute;
- g) Field trips considered supplementary to a district educational program;
- h) Any authorized voluntary student health and accident benefit plan;
- i) For the use of musical instruments owned or rented by the district, a reasonable rental fee not to exceed either the rental cost to the district or the annual depreciation plus the actual annual maintenance cost claimed by the district for each instrument.

Subd. 2. Students may be required to furnish consumable items such as pencils, paper, pens, erasers and notebooks.

Subd. 3. This act shall not preclude the operation of a school store wherein pupils may purchase school supplies and materials such as paper, pencils, and notebooks.

Subd. 4. A school board may waive any charge, deposit or fee if any pupil or his parent or guardian is unable to pay it.

Sec. 4. [PROHIBITED FEES.] Subdivision 1. A public school board is not authorized to charge fees in the following areas:

- a) Textbooks, workbooks, art supplies, laboratory supplies, towels;
- b) Supplies required for participation in the requirements of any instructional course except as authorized in section 3, subdivision 1;
- c) Field trips which are a part of a basic educational program or course;
- d) Graduation caps, gowns, any other specific form of dress necessary for any educational program, and diplomas;
- e) Instructional costs for necessary school personnel employed in any course or educational program;
- f) Library books necessary for any educational course or program;
- g) Admission fees, dues, or fees for any activity the pupil is required to attend;

- h) Any admission or examination costs for any educational course or program;
- i) Locker rentals.

Subd. 2. No pupil's rights or privileges, including the receipt of grades or diplomas may be denied or abridged for non-payment of fees; but this provision shall not prohibit a school district from maintaining any action provided by law for the collection of such fees authorized by section 3.

Sec. 5. Subdivision 1. The state board of education may promulgate rules and regulations for the purposes of this act.

Subd. 2. In any case where a public school board wishes to initiate a fee not specifically authorized by section 3, the board shall petition the state board of education. After a public hearing to be held within the petitioning district, the state board shall rule on the issue in accordance with the general policy set forth in this act.

Subd. 3. The decision of the state board of education made pursuant to subdivision 2 shall be subject to direct judicial review as provided by Minnesota Statutes, Sections 15.0424 to 15.0426.

Sec. 6. [EFFECTIVE DATE.] This act shall be effective July 1, 1975."

Further, amend the title as follows:

Page 1, line 2, after the ";" and before "prohibiting" insert "authorizing and"

The obligations representing any such investment may be sold or hypothecated by the governing body at any time, but the money so received remains a part of such fund until used for the purpose for which the fund was created. (3) For purposes of the 1973 levy, collectible in 1974, any district which qualified for an extra levy under Minnesota Statutes 1971, Section 275.125, Subdivision 3, Clause (4), shall be allowed to levy the same amount per pupil unit allowed by that clause. Sec. 8. [POWERS OF CITY OFFICIALS LIMITED.] Subdivision 1. When the governing board of the firemen's relief associa-

Such persons shall not be members of the firemen's relief association and pension fund of the city continued and maintained pursuant to this act nor be subject to any of the laws related thereto.

All money received from the state, the city of St. Cloud and from all payroll deductions shall be deposited in the special fund, and expended only for purposes hereinafter authorized. All money received from other sources shall be deposited in the general fund and may be expended for any purpose deemed proper by the association.

Sec 5. [FUNERAL AND DEATH BENEFITS.] Subdivision 1. Upon the death of any active member of this association in good standing, there shall be allowed and appropriated out of the special fund of the association a funeral benefit in the amount of \$200.

Subd. 2. Upon satisfactory proof of the death of an active member or permanent pensioner of the association, leaving a widow or a child or children who are entitled to a pension pursuant to the provisions of the articles of incorporation of the association, the board of trustees shall allow a pension to be paid out of the special fund of the association to any widow or to any child under 18 years of age of any member as follows:

(a) When a service pensioner, deferred pensioner, disability pensioner, or an active member of the relief association dies leaving a widow who was his legally married wife residing with him, and who was married while or prior to the time he was on the payroll of the fire department, and who, in case the deceased member was a service pensioner or a deferred pensioner, was legally married to the member at least one year before his retirement from the fire department, then to such widow a dependency pension of 18 units per month for her natural life, but, if she remarries, the pension shall cease as of the date of the remarriage.

(b) When a service pensioner, deferred pensioner, disability pensioner, or an active member of the relief association dies leaving a child or children who were living while the deceased was on the payroll of the fire department or born within ten months after the deceased was withdrawn from such payroll, then to each such child a dependency pension of six units per month until the child reaches 18 years.

(c) The total dependency pensions payable under paragraphs (a) and (b) above for the widow and children of a deceased member shall not exceed 36 units per month. The pension due to any minor child or children shall be paid to the legal guardian of such child or children.

Subd. 3. Upon the death of any active member, or permanent pensioner, leaving neither wife as beneficiary nor any child entitled to a pension as hereinafter provided, the board of trustees shall pay to the person or persons named as beneficiary in his certificate the sum of \$200 out of the special fund of the association as a funeral benefit. In the event the beneficiary named is not permitted under the articles or bylaws of the association to receive said sum, the board of trustees shall make payment to one of the following people in this order of preference: first, the widow, if any; second, the member's children, if any, in equal shares; third, the parents of the deceased member; and fourth, his brothers and sisters, in equal shares. If the member leaves a minor child or children surviving him, who are entitled to a pension, such child or children shall, upon arriving at the age of 18 years be paid the sum of \$200, mentioned in the benefit certificate, less amounts paid to such child or children as a pension in accordance with the provisions of this section; upon surrender of the certificate. If certificate is lost or illegible an affidavit shall be signed before benefits are granted. No benefit shall be paid out under the provisions of this section except to a child, parent, brother or sister. No payment shall be made pursuant to this section if the making of such payment would reduce the special fund balance below the sum of \$1,000.

Sec. 6. [BENEFITS.] Subdivision 1. Whenever any active member not eligible for a service pension from the association, in good standing, becomes incapacitated from performing his duties as an active fireman in the fire department, by reason of illness or bodily injuries, provided that the condition causing such disability did not result from an attempted suicide or otherwise due to intentional self-inflicted injuries, the member shall then be entitled to relief in the amount of 36 units paid monthly from the time the member is dropped from the payroll upon the expiration of his leave of absence with pay, provided that the member complies with the bylaws of the association governing such disability benefits.

Subd. 2. (a) Any member of the age of 50 years or more who performs the duties as a member of the fire department of the city for 20 years or more, upon his written application after retiring from such duties shall be paid monthly during his lifetime a pension equal to 35 units plus one additional unit for each year of service in excess of 20 years, not to exceed a maximum of 42 units.

(b) Any member who performs duty as a member of the fire department of the city for 20 years or more who retires from such duty before he attains the age of 50 years, upon his written application after reaching 50 years of age shall be paid monthly during his lifetime a pension equal to 35 units plus one additional unit for each year of such service in excess of 20 years, but not to exceed a maximum of 42 units. In the case of an applicant for a pension pursuant to clauses (a) and (b) above, who, following admission to membership in the association, has served in the military forces of the United States in any war or national emergency subsequent to January 1, 1940, and thereafter is

reduced by two and one-half percent. The per pupil amount of the reduction shall be rounded down to the dollar. Provided, however, that a district within a city of the first class which was affected by the limitation of an extra levy not to exceed 1.9 mills times the adjusted assessed valuation of the district shall be allowed to levy the 1.9 mills.

(6) For districts in cities of the first class, maintaining post secondary vocational schools, one half mill times the adjusted assessed valuation of the taxable property of the district for the preceding year; and for other districts maintaining post secondary vocational schools, three mills times the adjusted assessed valuation of the taxable property of the district for the preceding year, provided that districts formed pursuant to Laws 1967, Chapter 822, and Laws 1969, Chapters 775 and 1060, shall be subject to the levy limitations imposed by those laws, as amended.

(7) (A) In order that the transition from existing patterns of financing public schools to the system prescribed in Extra Session Laws 1971, Chapter 31, Article 20 may be made in an orderly fashion, a district may levy an additional levy under the terms of this section.

(B) If that part of the levy certified by the school district in 1970, received in 1971, plus so much of the levy, allowed under subdivisions 2 and 3, sections 1 to 5 of this act, to be certified in 1971, received in 1972, as will be received between July 1, 1971 and June 30, 1972, and when added to all other state aids, local funds available and net existing local debts, exclusive of bonded debt and existing capital loans will not be sufficient to allow a district to spend an amount per pupil unit sufficient to raise its 1970-1971 adjusted maintenance cost per pupil unit by \$42 it may petition the commissioner of education for authority to levy an additional levy. Before such a levy can be made, the commissioner must authorize such a levy. Such authorization shall specify the amount of the levy, provided that such levy may not exceed .5 mills in a city of the first class or 1.5 mills in any other district times the 1970 adjusted assessed valuation of the district as determined by the equalization aid review committee.

(C) If the additional levy allowed in (B) is insufficient to raise the adjusted maintenance cost of a district to \$42 above its costs in 1970-1971 it may petition the commissioner of education for authority to issue general obligation bonds of an amount sufficient to meet the deficiency. The commissioner must authorize such a bond issue. The authorization shall specify the amount of the bond issue provided that the levy authorization to pay the principal and interest on the bonds may not exceed .5 mills in a district within a city of the first class, or 1.5 mills in any other district, times the 1970 adjusted assessed valuation of the district as determined by the equalization aid review committee. The bonds authorized by this section shall be sold and issued pursuant to the provisions of chapter 475, except as otherwise provided herein. Such bonds shall not be included in computing any debt limitation for a district and no election shall be required for their sale and issuance.

A district may not be authorized an additional levy under both (B) and (C) of this section.

(8) In 1973, and each year thereafter, for a district which has established a community school advisory council pursuant to section 121.88, whether or not the district receives reimbursement from the state pursuant to section 121.89, an amount of money raised by the greater of (A) \$1 per capita, or (B) the number of mills not to exceed the number of mills necessary in 1973 to raise \$1 per capita in 1973 for community services including summer school, nonvocational adult programs, recreation programs, and programs contemplated by sections 121.85 to 121.89.

The population of the district for purposes of this clause is the population determined as provided in section 275.14 or as certified by the department of education from the most recent federal census.

(9) Districts which receive payments which result in deductions from foundation aid pursuant to section 124.212, subdivision 8a, shall reduce the permissible levies authorized by this subdivision by 25 percent in 1973, 50 percent in 1974, 75 percent in 1975, and 100 percent for each year thereafter of that portion of the previous year's payment not deducted from foundation aid on account of the payment, unless such a levy reduction is otherwise required by law. The levy reductions shall be made in the proportions that each permissible levy bears to the sum of the permissible levies.

(10) The commissioner shall certify to the county auditors any errors made in 1971 and 1972 in general and special purpose levy amounts. The county auditor is authorized to adjust the 1973 levy to correct for the errors.

(11) *Any district whose total tax receipts, including homestead credit and delinquent tax receipts for any prior year, collected by the county auditor during the preceding year are less than 95 percent of the amount of the district levy spread by the county auditor for that year as a result of delinquent real estate taxes occurring in that year may make an additional levy equal to the amount by which such net receipts are less than 95 percent of the spread levy which produced such delinquency. The county treasurer shall certify to each district authorized to make such additional levy the amount of the delinquent real estate taxes which resulted from the district levy collected during the preceding year and the same shall be submitted by any district making the additional levy to the commissioner of education and the commissioner of taxation as provided in Minnesota Statutes, Section 275.125, Subdivision 7.*

Any district which makes the additional levy authorized by this clause shall deduct one-third of the amount of such additional levy from the levy spread by the county auditor in each of the succeeding three years.

Any district which makes such an additional levy is authorized to make the levy permitted by this clause in any subsequent year provided that the 95 percent factor shall apply to the amount of

Reports the same back with the recommendation that the bill be amended as follows:

Strike everything after the enacting clause and insert in lieu thereof:

"Section 1. [LEGISLATIVE PURPOSE.] The pressure of urban growth in the metropolitan area at the same time increases the

need and decreases the amount of land available in the area for recreation, conservation, and amenity. Preservation of metropolitan open space is difficult to accomplish solely by action of individual local governmental units. It is therefore necessary to provide for the establishment of a metropolitan park and open space system, and a metropolitan parks and open space commission.

Sec. 2. [DEFINITIONS.] Subdivision 1. As used in sections 1 to 12, the terms defined in this section have the meanings given them.

Subd. 2. "Metropolitan area" means the area comprising the counties of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington.

Subd. 3. "Commission" means the metropolitan parks and open space commission established by section 3 of this act.

Subd. 4. "Council" means the metropolitan council created by Minnesota Statutes, Section 473B.02.

Subd. 5. "Park district" means a park district created under Minnesota Statutes, Chapter 398.

Subd. 6. "Regional recreation open space" means the land and water areas determined by the council to be of metropolitan significance in providing for a balanced system of public outdoor recreation for the metropolitan area, including but not limited to park reserves, major linear parks, and large recreation parks.

Subd. 7. "Policy plan" means a plan adopted by the council for open space pursuant to section 4 of this act.

Subd. 8. "Development program" means a plan adopted by the commission pursuant to section 6 relating to recreational open space and the nature of its development and use.

Subd. 9. "Master plan" means a plan describing the boundaries of a specific park or other regional recreation open space and the nature of its development and use.

Sec. 3. [METROPOLITAN PARKS AND OPEN SPACE COMMISSION.] Subdivision 1. [GENERAL.] A metropolitan parks and open space commission is established as an agency of the council and shall be organized and structured and administered as provided in this section.

Subd. 2. [MEMBERSHIP.] The commission shall consist of eight members, plus a chairman appointed as provided in subdivision 3. The eight members shall be appointed by the governor with the advice and consent of the senate. One member shall be appointed from each of the following commission precincts:

- (1) Precinct A, consisting of council districts 1 and 2;

- (7) Precinct G, consisting of council districts 10 and 16; and
- (8) Precinct H, consisting of council districts 11 and 12.

Subd. 3. [CHAIRMAN.] The chairman of the commission shall be appointed by the governor with the advice and consent of the senate and shall be the ninth member of the commission and shall meet all qualifications established for members, except the chairman need only reside within the metropolitan area. The commission chairman shall serve at the pleasure of the governor for a four year term. The chairman shall preside at all meetings of the commission, if present, and shall perform all other duties and functions assigned to him by the commission or by law. The commission may appoint from among its members a vice chairman to act for the chairman during his temporary absence or disability.

Subd. 4. [QUALIFICATIONS.] Each member shall be a resident of the precinct for which he is appointed and shall not during his term of office as a commission member hold the office of metropolitan council member, or be a member of the metropolitan transit commission, metropolitan sewer service board, or metropolitan airports commission; or any other metropolitan agency, board, or commission hereafter established by the legislature or hold any judicial office. Each member shall qualify by taking and subscribing the oath of office prescribed by the Minnesota Constitution, Article 5, Section 8. The oath, duly certified by the official administering the same, shall be filed with the executive director of the metropolitan council.

Subd. 5. [TERMS, REMOVAL.] Commencing the first Monday in January 1975 the terms of members of the commission shall be as follows: members representing precincts A, B, C, and D for terms ending the first Monday in January 1977, members representing precincts E, F, G, and H for terms ending the first Monday in January 1979. The chairman shall receive a salary

in an amount fixed by law and shall be reimbursed for reasonable expenses to the same extent as a member.

Subd. 8. [REGULAR AND SPECIAL MEETINGS.] The commission shall meet regularly at least once each month, at such time and place as the commission shall by resolution designate. Special meetings may be held at any time upon the call of the chairman or any two other members, upon written notice sent by certified mail to each member at least three days prior to the meeting, or upon such other notice as the commission may by resolution provide, or without notice if each member is present or files with the secretary a written consent to the meeting either before or after the meeting. Unless otherwise provided, any action within the authority of the commission may be taken by the affirmative vote of a majority of the members. A majority of all of the members of the commission shall constitute a quorum, but a lesser number may meet and adjourn from time to time and compel the attendance of absent members.

Subd. 9. [PUBLIC EMPLOYEES.] All persons employed by the chief administrator shall be public employees, and shall have all rights and duties conferred on public employees under sections 179.61 to 179.76. The compensation and other conditions of employment of such employees shall not be governed by any rule applicable to state employees in the classified service nor to any of the provisions of chapter 15A, unless the council so provides. (b) The commission and the council may enter into contracts with each other and with other commissions and governmental units for the joint exercise of powers in the manner provided by Minnesota Statutes, Section 471.59, provided that the commission shall not enter into any contract with the council which would assign any operations authority, responsibility or function, other than planning or making studies, from the commission to the council.

Sec. 4. [POLICY PLANS.] Subdivision 1. [GENERAL.] Within 12 months after the effective date of this section, the council shall adopt after appropriate study and such public hearings as may be necessary, as a part of its development guide, a long-range comprehensive policy plan for the commission and when adopted, the policy plan shall be followed by the council and the commission. The plan shall sub-

stantially conform to all policy statements, purposes, goals, standards, and maps in development guide sections and comprehensive plans as developed and adopted by the council pursuant to the chapters of the Minnesota Statutes directly relating to the council and the commission. The policy plan shall identify generally the areas which should be acquired by a public agency to provide a system of regional recreation open space comprising park district, county and municipal facilities which, together with state facilities, reasonably will meet the outdoor recreation needs of the people of the metropolitan area and shall establish priorities for acquisition and development. In preparing or amending the policy plan the council shall consult with and make maximum use of the expertise of the commission, and the commission shall cooperate with and make its employees, records, studies, plans and other information available to the council. The council shall also consult with park districts, counties and municipalities in the metropolitan area.

Subd. 2. [PROCEDURE.] Before adopting the policy plan, the council shall submit the proposed plan to the commission for its review, and the commission shall report its comments to the council within 90 days and may, within that period request the council to hold a special public hearing for the purpose of receiving the commission's report and comments. Within a reasonable time, not to exceed 60 days, after receiving a request for a hearing, the council shall hold a public hearing on the proposed policy plan at such time and place in the metropolitan area as it shall determine. Not less than 45 days before the hearing, the council shall publish notice thereof in a newspaper or newspapers having general circulation in the metropolitan area, stating the date, time and place of hearing, and the place where the proposed policy plan and commission comments may be examined by any interested person. At any hearing interested persons shall be permitted to present their views on the policy plan, and the hearing may be continued from time to time. After receipt of the commission's report and such hearing, if any, the council may revise the proposed plan giving appropriate consideration to all comments received, and thereafter shall adopt the plan by resolution. An amendment to the policy plan may be proposed by the council or by the commission. At least every four years the council shall engage in a comprehensive review of the policy plan. Development guide sections, comprehensive plans, capital improvement programs and other plans in substantial conformance with the requirements of subdivision 1 which have been adopted by the council pursuant to Minnesota Statutes, Chapters 473A, 473B and 473C, shall continue in force and effect until expressly superseded by the policy plan adopted pursuant to this subdivision. The council shall not amend the policy plan except in accordance with the procedures herein established.

Sec. 5. [COUNCIL REVIEW; APPLICATIONS FOR FEDERAL AND STATE AID.] Subdivision 1. [FEDERAL AID.] The council shall review all applications of the commission for funds, grants, loans, or loan guarantees from the United States of America or any agency thereof if review by a regional agency is required by federal law or the federal agency, and all applications of the

commission for grants, loans, or allocations from funds made available by the United States of America to the metropolitan area for regional facilities pursuant to a federal revenue sharing or similar program requiring that the funds be received and granted or allocated or that the grants and allocations be approved by a regional agency.

Subd. 2. [STATE AID.] The council shall review all applications or requests of the commission for state funds if review by a regional agency is required by state law or the granting state agency.

Sec. 6. [DEVELOPMENT PROGRAM.] Subdivision 1. [PREPARATION OF DEVELOPMENT PROGRAM.] The commission shall prepare a development program covering the detailed technical planning, engineering, financing, scheduling and other information necessary to the development of the program elements to be performed by the commission in implementing the policy plan adopted by the council pursuant to section 4 of this act. The program may include such other technical information as the commission deems necessary. The program shall prescribe and delineate the functions to be performed and activities to be undertaken by the commission and shall cover at least the five year period commencing with the first calendar year beginning after its approval or such longer period as the council may prescribe. The program shall describe all capital improvements to be undertaken in such period and with respect to each improvement shall include the following:

(a) A description of the improvement, its location, function and estimated cost;

(b) The proposed manner of financing the capital costs of the improvement, and the sources of revenue available for payment of such costs;

(c) A schedule showing on a yearly basis the timing of land acquisition, construction and capital expenditures for the improvements;

(d) A review and description of the public need for the improvement, alternatives to the improvement, (including alternatives not involving capital expenditures), the environmental and social effects of the improvement and all actions and steps theretofore taken by the commission with respect to the improvement;

(e) An estimate of the probable impact of the improvement on the responsibilities of the metropolitan transit commission, the metropolitan airports commission, the metropolitan sewer board, and other agencies, boards, and commissions which may be established by the legislature;

(f) An estimate of the annual operating costs of the improvement and the sources of revenue available for payment of such costs;

(g) An evaluation of the relative priority of the improvement vis-a-vis other capital improvements described in the program;

(h) Each program shall include such additional information as the council or commission may deem appropriate.

Subd. 2. [SUBMISSION TO AND APPROVAL BY COUNCIL.] The development program prepared by the commission shall be submitted to the council for review and approval or disapproval. The council shall complete its review within 90 days after receipt of the proposed development program. If the council determines that the program is consistent with the policy plan it shall approve the program as submitted. If it determines that the program is inconsistent with the policy plan, it shall disapprove it and return it to the commission with the comments and the commission shall make appropriate revisions in the program and resubmit it to the council for review and approval or disapproval. Before approving a program or returning it to the commission, the council shall hold a public hearing for the purpose of considering the program and the council's comments thereon, if requested to do so by the commission. Within two years of the approval of its first development program by the council and at least biennially thereafter the commission shall review the program, make such revisions as are necessary, including an updating of the five year capital improvement program, and submit the program to the council for its review and approval or disapproval as herein provided.

Subd. 3. [EFFECT OF DEVELOPMENT PROGRAM.] After approval by the council of a development program plan the commission shall implement the program. No capital improvements shall be undertaken by the commission unless authorized by the program or specifically approved by the council. The council shall not approve any improvement not in substantial conformance with the appropriate policy plan.

Sec. 7. [MASTER PLANS; LOCAL GOVERNMENTS.] Subdivision 1. [PLAN PREPARATION.] Each park district located wholly or partially within the metropolitan area, and each county in the metropolitan area not wholly within a park district, shall prepare and submit and from time to time revise and resubmit to the commission a master plan and annual budget for the acquisition and development of regional recreation open space located within the district or county consistent with the commission's development program and, to the extent applicable, the council's policy plan.

Subd. 2. [COMMISSION REVIEW.] The commission shall review each plan submitted to determine whether it is consistent with the council's policy plan and, to the extent applicable, the commission's development program. If it is not consistent, the commission shall return the plan with its comments to the park district or county for revision and resubmittal.

Sec. 8. [ACQUISITION, GRANTS, TAX EQUIVALENTS; FINANCING.] Subdivision 1. [COMMISSION ACQUISITION.] The commission shall have the same powers as a county under Minnesota Statutes, Section 398.32, Subdivision 1, to acquire any land or water area, or any interests, easements or other rights therein, which are included in the policy plan whenever such areas have not been acquired for recreation open space purposes within

the period of time hereinafter specified; provided that the commission shall not have the power of eminent domain. Before proceeding with the acquisition of any such area or other rights, the commission shall by resolution offer a grant covering the full cost of acquisition to the park district or county in which the area or other rights are situated. If the acquisition process has not been initiated within 60 days or if the area or other rights have not been acquired within 12 months after the adoption of the resolution, the commission may by resolution offer such a grant to another park district or county or to a municipality in the metropolitan area. If the acquisition process has not been initiated within 60 days or if the area or other rights have not been acquired within six months after the adoption of the resolution, the commission may proceed with acquisition. The commission may, in its discretion, contract with a municipality, park district or county for such services as may be needed to complete such acquisition. The commission shall manage such areas so as to preserve them for future recreation open space purposes and may contract with a municipality, park district or county for such management. The commission shall convey such areas or other rights to a municipality, park district or county for development and operation consistent with an approved recreation open space development program.

Subd. 2. [LOCAL ACQUISITION.] Any park district or municipality wholly or partially within the metropolitan area, and any county in the metropolitan area not wholly within a park district, may acquire, develop and manage any land or water area, or any interests, easements or other rights therein, comprising regional metropolitan area recreation open space in the same manner as it is authorized to do for other park and recreation purposes, and such area or other rights shall constitute a part of the park and recreation system of the acquiring agency.

Subd. 3. [GRANTS.] The commission may make grants, from any funds available to it for recreation open space purposes, to any municipality, park district or county located wholly or partially within the metropolitan area to cover the cost, or any portion of the cost, of acquiring or developing regional recreation open space in accordance with the policy plan; and all such agencies may enter into contracts for this purpose. The fact that a county, park district or municipality has developed regional scale parks shall not prejudice its application for funds.

Subd. 4. [TAX EQUIVALENTS.] In each of the four years after the commission or park district, county or municipality acquires fee simple title to any real property included in the regional recreation open space system, the commission shall pay to the municipality or township in which the property is situated an amount equal to the total amount of the taxes levied thereon for municipal or township purposes for collection in the year in which title passed, diminished by 20 percent for each subsequent year to and including the year of payment; provided that for any year in which taxes on the property, or on the privilege of using or possessing it, are paid this tax equivalent shall not be paid.

Subd. 5. [SALE OF BONDS.] The metropolitan council may sell and issue general obligation bonds to provide funds for the purposes set forth in subdivisions 1, 3, and 4 of this section. The maturities and interest rates of each series of such bonds shall be fixed so that the maximum amount of principal and interest to become due on all such bonds in any year does not exceed an amount equal to seven-tenths of one mill on each dollar of assessed valuation of taxable property in the metropolitan area as assessed in the year immediately preceding the year in which the bonds are issued.

The council shall sell and issue such bonds in the manner provided in Minnesota Statutes, Chapter 475, and shall have the same powers and duties as a municipality issuing bonds under that chapter, except that no election shall be required, and the debt limitations in chapter 475 or any other law shall not apply to such bonds. The bonds shall be secured in accordance with Minnesota Statutes, Section 475.61, and any taxes required to be levied for their payment shall be spread against all taxable property in the metropolitan area and except as otherwise provided in this subdivision shall not be subject to limitation as to rate or amount.

Subd. 6. [TAX LEVIES.] The commission may levy taxes upon all taxable property in the metropolitan area to provide funds for the purposes of sections 1 to 9. The tax levied for any year shall not exceed seven-tenths of one mill for all purposes on each dollar of assessed valuation of all such taxable property less the tax levied for such year to pay debt service on bonds issued pursuant to subdivision 3. The amount of taxes which may be levied in any year shall be further reduced by the amount of any funds received by the commission during the previous year from (1) federal grants and (2) appropriations to the commission from revenues received from taxes collected by the state. The tax shall be levied and collected in the manner provided by Minnesota Statutes, Section 473.08.

Sec. 9. [GENERAL POWERS.] Subdivision 1. In addition to the powers granted by sections 1 to 8 of this act, the commission shall have all other powers necessary or convenient to discharge the duties imposed by law, including, but not limited to those specified in this section.

Subd. 2. The commission may sue and be sued.

Subd. 3. The commission may employ such persons and contract for such services and materials, supplies and equipment as may be necessary to carry out its functions.

Subd. 4. The commission may accept gifts, may apply for and accept grants or loans of money or other property from the United States, the state, or any person for any of its purposes, may enter into any agreement required in connection therewith, and may hold, use, and dispose of such money or property in accordance with the terms of the gift, grant, loan or agreement relating thereto.

Subd. 5. The commission may act under the provisions of section

471.59, or any other appropriate law providing for joint or cooperative action between government units.

Subd. 6. The commission may conduct research studies and programs, collect and analyze data, prepare reports, maps, charts, and tables, and conduct all necessary hearings and investigations in connection with its metropolitan parks and open space functions; and may advise and assist the metropolitan council and other government units on system planning matters within the scope of its powers, duties and objectives.

Subd. 7. Contracts for the purchase of materials, supplies, and equipment shall be made in accordance with Minnesota Statutes, Section 471.345.

Sec. 10. [COMMISSION BUDGET PREPARATION; REVIEW AND APPROVAL.] Subdivision 1. The commission shall prepare a proposed budget for calendar year 1976 and each calendar year thereafter. The proposed budget shall be prepared on or before August 1, 1975, and each year thereafter. The budget shall show for each such year:

(a) the estimated operating revenues from all sources including funds on hand at the beginning of the year, and estimated expenditures for costs of operation, administration, maintenance, and debt service; and

(b) capital improvement funds estimated to be on hand at the beginning of the year and estimated to be received during the year from all sources and estimated cost of capital improvements to be paid out or expended during the year; all in such detail and form as the council may prescribe. Between August 1 and September 1 of each year, the commission shall hold a public hearing on the proposed budget. Not less than 14 days before the hearing, the commission shall publish notice thereof in a newspaper having general circulation in the metropolitan area, stating the date, time and place of hearing, and the place where the proposed budget may be examined by any interested person. Those parts of the budget relating to revenues and expenditures for capital improvements shall be submitted to the council on or before August 1 of each year and shall be subject to approval by the council. The council shall act to approve or disapprove by October 1 of each year. Before December 15 of each year the commission, after obtaining approval of the council for any changes in the capital improvements budget, shall by resolution adopt a final budget. The commission shall file its final budget with the council on or before December 20 of each year. Except in an emergency, for which procedures shall be established by the commission, the commission and its officers, agents and employees shall not spend money for any purpose, other than debt service, without an appropriation by the commission or in excess of the amount appropriated therefor, and no obligation to make such an expenditure shall be enforceable except as the obligation of the person or persons incurring it. The creation of any debt obligation or the receipt of any federal or state grant is a sufficient appropriation of the proceeds for the purpose for which it is authorized, and of the tax or

other revenues pledged to pay the obligation and interest on it whether or not specifically included in any annual budget. The commission may, after obtaining approval of the council, amend the capital improvements budget at any time by transferring any appropriation from one purpose to another, except appropriations of the proceeds of bonds issued for a specific purpose. The council shall file the budgets of the commission with the secretary of the senate and the clerk of the house of representatives not later than January 15 of each year.

Subd. 2. [PROGRAM BUDGETING.] The council may in consultation with the commission adopt regulations providing for program budgeting, as defined in section 16.141, subdivision 1, by the commission. Upon adoption of such regulations, the commission shall submit program budgets to the council in the form established by the regulations. Within three years after the effective date of this act the council and the commission shall adopt budgets in program budget form.

Subd. 3. [REVIEW OF USER CHARGES.] Thirty days prior to the establishment of or change in any user charges or fees or schedule of user charges or fees the commission shall forthwith submit proposed charges or fees or schedule to the council. The council shall review and comment upon the charges, fees, or schedule with particular reference to (1) their consistency with the development guide and policy plan, and (2) their fiscal impact on the metropolitan area, especially their impact on future debt service requirements, the financing of future capital improvements, and on the various local governmental units and classes of users. On or before January 15 of each year, the council shall transmit the charges, user fees or schedules of the commission and its comments thereon to the secretary of the senate and chief clerk of the house of representatives for consideration by the legislature.

Sec. 11. [FINANCIAL DISCLOSURE.] Subdivision 1. Each member of the commission shall file with the executive director of the council by April 1 of each year, on forms prescribed by the council, a report listing his occupation and membership on the board of directors or similar governing body of, membership in or employment by, any profit or nonprofit corporation, partnership, labor organization, professional or business association cooperative or other financial, educational health or business institution. The report shall also disclose each of the member's financial interests, including both assets and liabilities, of a value in excess of \$1,000. Assets shall exclude accounts in banks, credit unions and savings and loan associations, United States government savings bonds, the member's or employee's homestead, household goods and personal effects, personal automobile, and the cash value of life insurance. Liabilities shall exclude indebtedness on the member's or employee's homestead, household goods and personal effects, personal automobile, and amounts borrowed against the cash value of life insurance.

Subd. 2. [INTEREST IN CONTRACTS PROHIBITED.] No commissioner or any person holding appointment under the commission shall be interested directly or indirectly in any contract en-

tered into by the commission. No commissioner shall be subject to any personal liability on account of any liability of the commission.

Pursuant to Rule 49 the Committee recommends that H. F. No. 2675 be amended as follows:

Strike everything after the enacting clause and insert in lieu thereof the following:

"Section 1. [FINDINGS AND PURPOSE.] The legislature finds and declares that the present rapid growth in demand for energy is in part due to unnecessary energy use; that a continuation of this trend will result in serious depletion of finite quantities of fuels, land and water resources, and threats to the state's

environmental quality; that the state must insure consideration of urban expansion, transit systems, economic development, energy conservation and environmental protection in planning for large energy facilities; that there is a need to carry out energy conservation measures; and that energy planning, protection of environmental values, and conservation of energy require expanded authority and technical capability and a unified, coordinated response within state government.

The legislature seeks to encourage thrift in the use of energy, and to maximize use of energy-efficient systems, thereby reducing the rate of growth of energy consumption, prudently conserving energy resources, and assuring statewide environmental protection consistent with an adequate, reliable supply of energy.

Sec. 2. [DEFINITIONS.] Subdivision 1. For the purposes of this act, the following terms shall have the meanings here given them.

Subd. 2. "Agency" means the intergovernmental agency on energy as provided in this act.

Subd. 10. "Construction" means significant physical alteration of a site to install or enlarge a large energy facility, but not including activities incident to preliminary engineering or environmental studies.

Sec. 3. [CREATION OF AGENCY.] Subdivision 1. There is hereby created in the executive branch the intergovernmental agency on energy.

The director shall serve at the pleasure of the governor.

A vacancy in the office of director shall be filled by the governor and the new appointee shall immediately take office and carry out all duties until the next session of the legislature when his appointment shall be submitted to the senate for confirmation.

Sec. 5. [CONFLICT OF INTEREST.] No person during his term as director shall receive any substantial portion of his income directly or indirectly from any utility, coal or petroleum supplier, or the sale or manufacture of any major component of a large energy facility. No person shall be eligible to be appointed director unless and until he divests himself of any interest or abandons any employment which produces such a substantial portion of his income.

No person who is an employee of the agency shall participate in any manner in any decision or action of the agency or committee where he has a direct or indirect financial interest.

Sec. 6. [JURISDICTION.] The agency has sole authority and responsibility for the administration and enforcement of this act. Sec. 9. [EMERGENCY ALLOCATION PLAN.] Subdivision 1. Within nine months after the effective date of this act, the director shall prepare and issue an emergency conservation and allocation plan in the manner set forth in subdivision 2. Such plan shall provide a variety of strategies and staged conservation measures to reduce energy use in the event of sudden or serious shortage and shall establish guidelines and criteria for allocation of fuels to priority users in a shortage situation. The plan shall contain alternative conservation actions and allocation plans to reasonably meet various foreseeable shortage circumstances and allow a choice of appropriate responses. The plan shall be consistent with requirements of federal emergency energy conservation and allocation laws and regulations and shall:

(a) Give priority to persons who demonstrate they have engaged in energy-saving measures and shall include provisions to insure that:

(1) immediate allocations to persons be based on needs at energy conservation levels;

(2) successive allocations to persons be based on needs after implementation of required action to increase energy conservation;

(3) needs of individuals and institutions are adjusted to insure the health and welfare of the young, old and infirm;

(b) Insure maintenance of reasonable job safety conditions and avoid environmental sacrifices, provided that if no feasible and prudent alternative exists, minimum easing of short range environmental goals and standards, consistent with human health, in specific cases for minimum specific periods of time shall be permitted;

(c) Establish procedures for fair and equitable review of complaints and requests for special exemptions regarding emergency conservation measures or allocations.

Subd. 2. Within four months after the effective date of this act, the director shall circulate, in a manner designed to assure widespread public notice, a tentative plan of energy conservation measures and allocation priorities and criteria, and shall solicit, in a time, form and manner prescribed by him, public comments thereon. Further the director may require all utilities, coal suppliers and petroleum suppliers to comment thereon, as prescribed by him, and to submit suggested emergency conservation measures and allocation criteria. The director may by written order, to the extent he deems appropriate, require joint preparation and submission of such comments and proposals by utilities, coal suppliers and petroleum suppliers. Industry participants in such cooperative planning, acting at the request of the director, shall be deemed thereby to have performed actions permitted by a regulatory body acting under authority of this state within the meaning of section 325.8017, subdivision 2. In the process of soliciting public comments on the tentative plan, the director shall hold at least five public meetings in various geographical areas of the state to insure easy public comment. The final plan shall be based on comments received from the public and utilities, coal suppliers and petroleum suppliers, the independent evaluation and analysis of the director and the guidelines set forth in subdivision 1.

Subd. 3. At least once every five years and whenever construction of a large new energy facility is completed which affects the supply of energy in Minnesota, the director shall review the emergency conservation and allocation plan.

Subd. 4. Upon a declaration of an energy supply emergency or serious fuel shortage by the executive council or concurrent resolution of the legislature, the director shall, in accordance with those provisions of the emergency conservation and allocation plan as specified in the resolution declaring the emergency, restrict the use of or limit the availability of any form of energy to avoid impending serious shortages of energy supplies and to protect the public health, safety, and welfare. The division of civil defense shall, at the direction of the director, implement and enforce the emergency conservation allocation plan and each person shall carry out the responsibilities specified in the plan. Violation of any provision of such required emergency conservation or allocation requirements

shall be deemed a violation of this act and the rules or regulations thereunder for purposes of enforcement pursuant to section 13 hereof.

Sec. 10. [FORECASTS, STATISTICS AND INFORMATION.]
Subdivision 1. In order to further the purposes of this act, the director shall develop and maintain an effective program of collection, compilation, and analysis of energy statistics. The statistical program shall be developed to insure a central state repository of energy data and so that the state may coordinate and cooperate with other governmental data collection and record keeping programs.

Subd. 2. In addition to such short range forecasting information as the director may request, each utility, coal supplier and petroleum supplier in the state shall prepare and transmit to the commissioner by January 1, 1975, and every year thereafter, a report specifying in five, ten, and 20-year forecasts the projected demand for energy within their respective service areas and the facilities necessary to meet the demand.

The report shall be in a form specified by the director and contain all information deemed relevant by the director.

Subd. 3. The director shall, to the maximum extent feasible, provide that forecasts required under this section be consistent with material required by other state and federal agencies in order to prevent unnecessary duplication.

Subd. 4. Reports issued pursuant to this section shall be available for public inspection in the office of the agency during normal business hours.

Subd. 5. The director shall review and evaluate forecasts of energy demands and resources as they relate to the most current population growth and development estimates, statewide and regional land use, transportation, and economic development programs and forecasts.

Sec. 11. [STATE ENERGY POLICY AND CONSERVATION REPORT.] Subdivision 1. Beginning January 1, 1976, and at least every two years thereafter, the director shall transmit to the governor, commission and the legislature a comprehensive report designed to identify emerging trends related to energy supply, demand, conservation, public health and safety factors, and to specify the level of statewide and service area energy demand. The report shall include, but not be limited to, all of the following:

(a) A final report on the accuracy and acceptability of the energy forecasts received under section 10 and the alternatives to meeting that demand;

(b) An estimate of statewide and geographical area energy demand for the forthcoming five and ten year period which, in the judgment of the director, will reasonably balance requirements of state and service area growth and development, protection of public health and safety, preservation of environmental quality, and conservation of energy resources. Such forecasts established by the

director shall serve as the basis for certification of large energy facilities in section 13;

(c) The anticipated level of statewide and geographical area energy demand for 20 years, which shall serve as the basis for long range action;

(d) The identification of potential adverse social, economic, or environmental effects caused by a continuation of the present energy demand trends;

(e) An assessment of the state's energy resources, including examination of the availability of commercially developable and imported fuels;

(f) The estimated reduction in annual energy consumption resulting from various energy conservation measures;

(g) The status of the agency's ongoing studies;

(h) A description of the emergency allocation plan;

(i) Recommendations to the governor and the legislature for administrative and legislative actions to accomplish the purposes of this act.

Subd. 2. Prior to the preparation of a final report, the director shall issue a draft report to the commission, the environmental quality council and any person, upon request, and shall hold a public meeting. Notice of the public meeting shall be provided to each regional development commission.

Subd. 3. The director shall distribute the final report to any person upon request.

Sec. 12. [RULES AND REGULATIONS.] Subdivision 1. When legislation to insure the efficient use of energy and to minimize unnecessary energy consumption is enacted, the director shall have the authority to promulgate rules and regulations for the administration of such laws.

Subd. 2. The director shall recommend to the governor, the commission and the legislature additional energy policies and conservation measures as required to meet the objectives of this act.

Sec. 13. [CERTIFICATE OF NEED.] Subdivision 1. Within six months after the submission of the first biennial report the director shall, pursuant to chapter 15 and this act, promulgate assessment of need criteria, to be used in the determination of need for large energy facilities pursuant to this section.

Subd. 2. After promulgation of the assessment of need criteria, no large energy facility shall be sited or constructed in Minnesota without the issuance of a certificate of need by the director pursuant to this act and consistent with the criteria for assessment of need.

Subd. 3. No proposed large energy facility shall be certified for construction unless the applicant has justified its need. The criteria for assessing need shall include:

(1) The accuracy of the long range energy need forecasts on which the necessity for the facility is based;

(2) The effect of existing or pending energy conservation programs under this act or other federal or state legislation on long term energy need;

(3) The relationship of the proposed facility to overall state energy needs;

(4) Promotional activities which may have given rise to the demand for this facility;

(5) Socially beneficial uses of the output of this facility, including its uses to protect or enhance environmental quality;

(6) The effects of the facility in inducing future development;

(7) Possible alternatives for satisfying the energy demand;

(8) The policies, rules and regulations of other state and federal agencies and local governments.

Subd. 4. After promulgation of the criteria for assessment of need each utility, coal supplier, and petroleum supplier in the state shall apply for a certificate of need prior to the construction of a new large energy facility. The application shall be on forms and in a manner established by the director. In reviewing each application the director shall hold at least one public hearing after notice to all interested persons.

Subd. 5. No later than six months after the submission of an application, the director shall approve, deny, or approve subject to modification a certificate of need for the facility. Failure to act within six months after the submission of an application constitutes approval. Such approval or denial of the certificate shall be accompanied by a statement of the reasons for the decision.

Subd. 6. To assure the paramount and controlling effect of the provisions herein over other state agencies, regional, county and local governments and special purpose government districts, the determinations of the director and issuance of certificates of need shall be the sole and exclusive prerogative of the director, and said determinations and certificates shall be binding upon other state agencies, regional, county and local governments and special purpose government districts.

Subd. 7. Any person subject to federal legislation requiring, with respect to the construction of interstate pipeline facilities or interstate electrical transmission lines, a certificate comparable to that provided for herein shall be deemed to have complied with this section upon filing with the director a copy of the certificate issued by the responsible federal agency.

Subd. 8. Any application for a certificate of need shall be accompanied by a fee not to exceed \$50,000. The director shall establish by regulation a schedule of fees based on the cost of assessment of need. Funds collected in this manner shall be credited to the general fund of the state treasury.

Sec. 14. [SUBPOENA POWER.] The director shall have the power, for the purposes of this act, to issue subpoenas for production of books, records, correspondence and other information and to require attendance of witnesses. Such subpoenas may be served anywhere in the state by any person authorized to serve processes of courts of record. If a person does not comply with a subpoena, the director may apply to the district court of Ramsey county and the court shall compel obedience to the subpoena by a proper order. A person failing to obey the order is punishable by the court as for contempt.

Sec. 15. [ENFORCEMENT, PENALTIES.] Subdivision 1. Any person who violates this act or any rule or regulation promulgated hereunder or knowingly submits false information in any report required by this act shall be guilty of a misdemeanor for the first offense and a gross misdemeanor for each subsequent offense. Each day of violation shall constitute a separate offense.

Subd. 2. The provisions of this act or any rules or regulations promulgated hereunder may be enforced by injunction, action to compel performance or other appropriate action in the district court of the county wherein the violation takes place. The attorney general shall bring any action under this subdivision upon the request of the director, and the existence of an adequate remedy at law shall not be a defense to an action brought under this subdivision.

Subd. 3. When the court finds that any person has violated this act or any rule or regulation thereunder, knowingly submitted false information in any report required by this act, or has violated any court order issued under this act, the court may impose a civil penalty of not more than \$10,000 for each violation. These penalties shall be paid to the general fund in the state treasury.

Sec. 16. Minnesota Statutes, 1973 Supplement, Section 116C.03, Subdivision 2, is amended to read:

Subd. 2. The council shall include as permanent members the director of the state planning agency, the director of the pollution control agency, the commissioner of natural resources, the commissioner of agriculture, the executive officer of the department of health, the commissioner of highways, *the director of the intergovernmental agency on energy*, a representative of the governor's office designated by the governor, the chairman of the citizens advisory committee, and three other members of the citizens advisory committee as designated by the governor.

Sec. 17. [APPROPRIATIONS.] The sum of \$300,000 is appropriated from the general fund to the Minnesota intergovernmental agency on energy for the purposes of this act. The sum of \$30,000 is appropriated from the general fund to the legislative commission on energy for the purposes of this act. Notwithstanding Minnesota Statutes, Section 16.17 or other law, this appropriation shall cancel June 30, 1975.

Sec. 18. [EFFECTIVE DATE.] This act is effective the day following final enactment.

Sec. 19. [EXPIRATION DATE.] The provisions of this act shall expire June 30, 1979 unless renewed by the legislature."

Further, amend the title by striking it in its entirety and inserting in lieu thereof the following:

“A bill for an act relating to energy; establishing an intergovernmental agency on energy; providing for a central repository for state energy data; providing for the declaration of an energy emergency; requiring an emergency allocation plan; promulgation of specific energy conservation regulations; biennial energy reports; energy and energy conservation studies and research; certificate of need for construction of large energy facilities; prescribing penalties; and appropriating money; amending Minnesota Statutes, 1973 Supplement, Section 116C.03, Subdivision 2.”

Page 11, following line 5, insert:

"Sec. 10. Minnesota Statutes, 1973 Supplement, Section 69.77, Subdivision 2, is amended to read:

Subd. 2. Subdivision 1 does not apply to an association described in Subdivision 1 under the following circumstances:

(1) Each member of the association pays into the retirement funds of the association during his term of covered employment from and after January 1, 1970, a contribution for retirement and survivorship benefits of not less than six percent of the maximum rate of salary from which retirement and survivorship credits and amounts of benefits are determined, and that such contributions of a member are deducted from his salary by his governmental employer, transmitted to the association, and deposited to the credit of the proper fund thereof, provided that to avoid undue increase in the amount of employee contributions in any one year, any increase in the amount of contributions required by this section may be spread over several years, but the increase in rate of contribution in each year commencing in 1970 shall not be less than one percent until the appropriate levels of required employee contributions have been reached. This paragraph shall not apply to members who are volunteer firemen, provided that the local governing body shall have given their approval to the exemption following consideration of the most recent actuarial survey.

(2) The officers of the association determine on or before September 1 of each year commencing in 1970 the financial requirements and minimum obligation of the association for the following calendar year in accordance with the following requirements:

Until a later actuarial survey is prepared in accordance with sections 69.71 to 69.76, the association shall determine its financial requirements by basing the same on the actuarial survey prepared as of December 31, 1967, copies of which are on file with the legislative retirement study commission, the chief clerk of the house of representatives, and the secretary of the senate; thereafter the financial requirements are determined by the most recent actuarial survey prepared in accordance with sections 69.71 to 69.76.

The normal level cost expressed as a percent of covered payroll determined from the actuarial survey shall be applied to the estimated covered payroll of the membership for the following year to determine the dollar amount of normal cost for said following year.

To the dollar amount of normal cost thus determined shall be added the amount of one year's interest at five percent on the amount of the (deficit) unfunded liability found by the actuarial survey of the fund.

The total of these two amounts represents the financial requirements of the association for the following year.

Except as otherwise provided in this paragraph, the minimum obligation of the governmental subdivision shall be the financial requirements of the association less member contributions herein provided from covered salary and less one year's estimated receipts expected from the state of Minnesota through state collected insurance premium taxes or other state aids. The minimum obligation may, by vote of the governing body of the governmental subdivision, be reduced to the amount levied in the preceding year for purposes of the association, plus the following percentage of the difference between that levy and the amount of the minimum obligation determined without benefit of this sentence: for the levy made in 1971, 10 percent; in 1972, 20 percent; in 1973, 30 percent; in 1974, 40 percent; in 1975, 50 percent; in 1976, 60 percent; in 1977, 70 percent; in 1978, 80 percent; and in 1979, 90 percent. Commencing with the levy made in 1980, there shall be no reduction in the minimum obligation pursuant to this paragraph.

(3) The foregoing determination of the obligation of a governmental subdivision shall be submitted to its governing body not later than September 1 of each year so that it may ascertain if it has been prepared in accordance with law.

(4) The governmental subdivision shall provide and pay as promptly as funds are available to the association at least the amount of the minimum obligation each year. Any portion of this amount not paid to the association at the end of any calendar year shall be increased at the rate of six percent per annum until so paid. On September 1 of any year the unpaid amount subject to interest shall be added to the obligation of the governmental subdivision.

(5) The governmental subdivision shall provide in its annual

budget at least its minimum obligation and may levy taxes for the payment thereof without limitation as to rate or amount and irrespective of limitations imposed by other provisions of law upon the rate or amount of taxation when the balance of any fund of the association has attained a specified level; the levy of such taxes shall not cause the amount of other taxes levied or to be levied by the governmental subdivision, which are subject to any such limitation, to be reduced in any amount whatsoever. If the governmental subdivision does not include the full amount of the minimum obligation in its levy for any year, the association may certify that amount to the county auditor, who shall spread a levy in the amount of such obligation.

(6) Moneys paid by the governmental subdivision to the association in excess of the minimum amount so required shall be applied to the reduction in the unfunded liabilities of the association.

(7) The funds of the association shall be invested in securities which are proper investments for funds of the Minnesota state retirement system, except that up to \$10,000 may be invested in the stock of any one corporation in any account of such small size that the three percent stock limitation applicable to the Minnesota state retirement system would necessitate a lesser investment. Securities held by the association before July 1, 1971, which do not meet the requirements of this paragraph may be retained after that date if they were proper investments for the association on the date of enactment of this section. The governing board of the association may select and appoint investment agencies to act for and in its behalf or may certify funds for investment by the state board of investment under the provisions of section 11.21, provided that there be no limit to the amount which may be invested in the income share account described in section 11.18, subdivision 2, or in the fixed-return account described in section 4 of this act, and that up to 20 percent of that portion of the assets of the association invested in the Minnesota supplemental retirement fund may be invested in the growth share account described in section 11.18, subdivision 3.

(8) The association shall procure an actuarial survey showing the condition of its fund as of December 31, 1970, and not less frequently than each four years thereafter. Such survey shall be filed with the chief clerk of the house of representatives, the secretary of the senate, the governing body of the municipality in which the association is organized, and the secretary of any legislative committee or commission duly created and having within its jurisdiction the study of pension plans and pension funds, not later than June 1 of the following year in the manner described in sections 69.71 to 69.76.

Sec. 11. Minnesota Statutes, 1973 Supplement, Section 69.775, is amended to read:

69.775 [INVESTMENTS.] The special fund assets of the relief associations governed by sections 69.771 to 69.776 shall be invested in securities which are proper investments for funds of the Minnesota state retirement system, except that up to five percent

of the special fund assets, or a minimum of \$10,000, may be invested in the stock of any one corporation. Securities held by the associations before January 1, 1972, which do not meet the requirements of this section may be retained after that date if they were proper investments for the association on May 14, 1971. The governing board of the association may select and appoint investment agencies to act for and in its behalf or may certify funds for investment by the state board of investment under the provisions of section 11.21, provided that there be no limit to the amount which may be invested in the income share account described in section 11.18, subdivision 2, *or in the fixed-return account described in section 4 of this act*, and that up to 20 percent of that portion of the assets of the association invested in the Minnesota supplemental retirement fund may be invested in the growth share account described in section 11.18, subdivision 3.

Sec. 12. Minnesota Statutes, 1973 Supplement, Section 352D.03, is amended to read:

352D.03 [TRANSFER OF ASSETS.] A sum of money representing the assets credited to each employee exercising the option contained in section 352D.02, plus an equal employer contribution together with interest for the employment period at the actuarially assumed rates during this period, compounded annually, shall be used for the purchase of shares on behalf of each employee in the ~~two~~ accounts of the supplemental retirement fund established by section 11.18. Any employer's contribution to amortize the deficit in the state employee's retirement fund shall not, however, be used for the purchase of shares.

Sec. 13. Minnesota Statutes, 1973 Supplement, Section 352D.04, Subdivision 1, is amended to read:

352D.04 [INVESTMENT OPTIONS.] Subdivision 1. An employee exercising his option to participate in the retirement program provided by this chapter may elect to purchase shares in ~~either the income share account~~ *one or a combination of the income share account and*, the growth share account *or the fixed-return account* of the supplemental retirement fund in accordance with one of the following options:

- (1) 100 percent invested in the income share account;
- (2) 75 percent invested in the income share account and 25 percent invested in the growth share account; ~~or~~
- (3) 50 percent invested in the income share account and 50 percent invested in the growth share account ;
- (4) *100 percent invested in the fixed-return account; or*
- (5) *75 percent invested in the fixed-return account and 25 percent invested in the growth share account.*

Prior to July 1 of each year, each participant may indicate in writing on forms provided by the Minnesota state retirement system his choice of options for subsequent purchases of shares. For that year and thereafter until a different written indication is made by such participant the executive director shall purchase shares in the supplemental fund as selected by the participant. If

no initial option is chosen, 100 percent income shares shall be purchased for a participant."

S. F. No. 2809: A bill for an act relating to the creation of a state economic opportunity commission and community action agencies; appropriating money to the economic opportunity commission for the purposes of this act.

Reports the same back with the recommendation that the bill be amended as follows:

Strike everything after the enacting clause and insert in lieu thereof:

“Section 1. [POLICY; PURPOSE.] The legislature declares that it is in the public interest to better coordinate all available local, state, private and federal resources for programs and projects designed to aid low-income families and individuals throughout the state in obtaining basic education, health care, vocational training, employment opportunities and other services needed for the achievement of self sufficiency; to encourage the participation by the residents of a community served in the planning of community programs and projects; and to provide funding for the continuation of programs and projects that are now in danger of losing federal moneys. To that end, the legislature directs that community action agencies be developed and maintained and that a state economic opportunity agency be created to administer state funds appropriated for community action agencies.

Sec. 2. [DEFINITIONS.] Subdivision 1. For purposes of this act, the following terms shall have the meanings given them.

Subd. 2. “Community action agency” shall mean a public agency or a private nonprofit corporation organized pursuant to Minnesota Statutes, Chapter 317, which is designated by a city, a county, counties, or region and the economic opportunity agency to perform the functions set forth in this act.

Subd. 3. “Community action program” shall mean a community based and operated program which includes a sufficient number of components to provide a range of services and activities having a reasonable and potentially major impact on causes of poverty in the community. Components of a community action program may be projects funded by the state under this act, or by other public or private sources. Projects may be either uniquely local in character or part of a state or federal program providing assistance to a particular kind of activity or individual.

Subd. 4. “Community” shall mean a city, county, multicity, or multicounty unit, an Indian reservation, or a neighborhood or other area, irrespective of boundaries or political subdivisions, which provides a suitable organizational base and possesses the commonality of interest needed for a community action program.

Sec. 3. [COMMUNITY ACTION AGENCIES; ORGANIZATION.] Subdivision 1. Each community action agency shall be governed by a board of directors, not to exceed 51 members, one-third of the members of the board shall be public officials from the local community, including the chief elected official or officials, or their representatives. One-third to one-half of the members shall be persons chosen in accordance with democratic selection procedures adequate to assure that they are representative of the poor in the area served. The remainder of the members shall be representatives of business, industry, labor, religious, welfare, education, or other major groups and interests in the community. Each mem-

ber of the board selected to represent a specific geographic area within a community must reside in the area he represents. Except for public officials of the local community, no person selected as a member of a board shall serve on such board for more than five consecutive years, or more than a total of ten years.

Subd. 2. Members of a board of directors shall serve without compensation but may be reimbursed for their out-of-pocket expenses incurred as a result of their participation on the board.

Subd. 3. A board shall be governed by the procedural rules and standards promulgated by the state economic opportunity agency.

Sec. 4. [COMMUNITY ACTION AGENCIES; DUTIES AND FUNCTIONS.] A community action agency shall:

(1) Receive and administer funds from any lawful private or public source, including local, state, and federal sources; however, any funds received under this section may be transferred to other agencies when consistent with the community action agency program;

(2) Plan, review, approve and evaluate all community action programs within the area served by the agency;

(3) Encourage cooperation and coordination of existing non-agency programs in applying for funds and in providing non-duplicative services;

(4) Initiate and sponsor projects to meet the needs of the poor of the community which are not being met under existing programs;

(5) Establish procedures by which the members of the community may participate actively in planning and implementing community action programs;

(6) Encourage business, labor, and other private investment and participation in the community;

(7) Establish and adopt rules relating to staff, public access to information and records of the community action agency, and other necessary procedures;

(8) Define the lawful duties of employees as advocates for the poor;

(9) Submit to the economic opportunity agency three months before each fiscal year a budget outlining its proposed activities and expenditures; and a quarterly report within 45 days of the end of each quarter on the expenditures of the previous quarter.

Sec. 5. [ECONOMIC OPPORTUNITY AGENCY; CREATION; MEMBERSHIP; VACANCIES.] Subdivision 1. [CREATION.] The economic opportunity agency is hereby established in the executive branch of the state government. The agency shall be composed of ten members, appointed by the governor with the advice and consent of the senate. The members of the council shall include representatives of the following interests: poor; urban; rural; male; female; minority; ethnic; labor; business; religious; education; welfare; health; and public officials. No

more than five members may be members of the same political party.

Subd. 2. [TERM OF OFFICE; VACANCIES.] The members of the agency first appointed by the governor shall be appointed to serve the following terms: five members for one year and five members for two years. Thereafter, each appointment shall be for two years. Each term shall terminate on the first day of January, except that it shall continue until a successor is appointed and qualified. The members of the council first appointed by the governor shall be appointed by August 1, 1974 and shall be subject to confirmation by the senate at the next regular session of the legislature. Vacancies shall be filled by the governor, with the advice and consent of the senate, for the unexpired term.

Subd. 3. [COMPENSATION; EXPENSES.] Members shall serve without compensation but shall be reimbursed for out of pocket expenses incurred as a result of participation in the agency.

Subd. 4. [MEETINGS.] The agency shall meet on the second Tuesdays in January, April, July and October of each year at the capitol. At the first regular meeting of each year, a chairman shall be elected from among the members of the agency. Special meetings may be held at such times and places as any three members of the agency shall appoint upon three days notice to other members by mail. A majority shall be a quorum; and any meeting may be adjourned from time to time.

Sec. 6. [DIRECTOR OF ECONOMIC OPPORTUNITY.] Subdivision 1. [APPOINTMENT; REMOVAL.] The agency shall select, with the advice and consent of the senate, a director of economic opportunity who shall serve as executive secretary to the agency and as its chief administrator. The director shall be selected without regard to residence and shall be an individual experienced in the administration of programs for the poor and in advocacy for the poor. The director may be removed by the agency for good cause shown after the submission of written charges and an opportunity to be heard.

Subd. 2. [POWERS AND DUTIES.] The executive director shall perform such duties as the law and the rules of the agency may provide; and shall be held responsible for the efficient administration of agency operations. The director shall be required to make recommendations to the agency and shall be charged with the execution of powers and duties the agency may prescribe to promote and insure the effectiveness of community action programs in the state; to safeguard the finances pertaining thereto; and to enable the agency to carry out the provisions of this act.

Sec. 7. [AGENCY; POWERS AND DUTIES.] Subdivision 1. In addition to selecting the director of economic opportunity the agency shall:

(b) develop and implement by November 1, 1974 a plan for the realignment of community action agencies conforming to the state economic development regions;

(c) act as special advocate for the poor in state government by mobilizing state resources and coordinating efforts of all state agencies in an attempt to make the poverty programs more responsive to the needs and desires of the poor;

(d) provide technical assistance, training and related services to communities, community action agencies, grantees and potential grantees of federal and state anti-poverty funds, and monitor federal and state funded programs in accordance with state and federal regulations;

(e) provide information and assistance to the governor, the legislature and state agencies with the objective of developing programs and seeking legislation for the benefit of the poor;

(f) apply for and receive available grants from federal and state sources in order to fulfill its missions;

(g) develop rules and regulations pertaining to the operation and administration of community action agencies; and

(h) report to the governor and the legislature by November 15 of each year on expenditures and activities of the economic opportunity agency and the community action agencies.

Sec. 8. [RESTRICTIONS AND DISBURSEMENTS.] Subdivision 1. Funds appropriated by the state shall be disbursed by the agency to community action agencies only in the event that federal funding for community action programs is less than 90 percent of the dollar amount that the community action agency received during the fiscal year of 1973 in its administration and community development accounts. Nothing in this subdivision shall be construed to prohibit the disbursement of state funds to community action agencies which received no federal funds during fiscal year 1973.

Subd. 2. Each fiscal year a sum of no more than five percent of the appropriation for all community action agencies shall be appropriated for the expenses of the economic opportunity agency.

Subd. 3. No community action agency shall be assessed or have deducted any sum for planning or evaluation purposes.

Subd. 4. The agency shall not provide state funds after January 1, 1975 to any community action agency which has not conformed to regional economic development boundaries by November 1, 1974. If federal money is available, the director shall encourage and assist the community action agencies in the implementation of the regionalization plan.

Subd. 5. If the federal government continues the funding of community action agencies at a level of 90 percent or more of the money received in fiscal year 1973, the \$300,000 appropriated to the commissioner of public welfare pursuant to Laws 1973,

Chapter 765, Section 8, Subdivision 1, or so much thereof as is unexpended on the effective date of this act, shall be used by the economic opportunity agency for funding the development of community action agencies in those areas in the state that currently are not served by a community action agency, including the counties of Hennepin, Dakota, Washington, Olmsted, Mower, Freeborn, and Faribault.

Sec. 9. The economic opportunity agency is the state agency to perform the functions, duties and powers afforded the state under the Economic Opportunity Act of 1964, Public Law 88-452, as amended; and the agency shall comply with all state and federal laws and rules or regulations promulgated for any purposes related to the powers and duties of the economic opportunity agency.

Sec. 10. [APPROPRIATION.] The sum of \$4,225,000 is appropriated to the economic opportunity agency from the general fund for the purposes of this act."

(b) A crime occurs whether or not any person is prosecuted or convicted but the conviction of a person whose acts give rise to the claim is conclusive evidence that a crime was committed unless an application for rehearing, appeal, or petition for certiorari is pending or a new trial or rehearing has been ordered.

(c) "Crime does not include conduct arising out of the use of a motor vehicle, as defined in Minnesota Statutes, Section 169.01, Subdivision 2, an aircraft or watercraft unless

Sec. 4. [AMOUNT OF REPARATIONS.] Reparations shall equal economic loss except that:

(1) reparations shall be reduced to the extent that economic loss is recouped from a collateral source;

(d) publicize widely the availability of reparations and the method of making claims; and

(e) prepare and transmit annually to the governor and the legislature a report of its activities including the name of each claimant, a brief description of the facts in each case, the amount of reparation awarded, and a statistical summary of claims and awards made and denied.

claim, when accepted for filing, shall be assigned by the chairman to himself or to another member of the board.

Subd. 2. The board member to whom the claim is assigned shall examine the papers filed in support of the claim and cause an investigation to be conducted into the validity of the claim.

Subd. 3. The board member to whom a claim is assigned may decide the claim in favor of a claimant in the amount claimed on the basis of the papers filed in support of it and the report of the investigation of such claim. If the board member is unable to decide such claim upon the basis of the papers and report, he shall order a hearing.

Subd. 4. After examining the papers filed in support of the claim and the report of investigation, and after a hearing, if any, the board member to whom the claim was assigned shall make a decision either granting an award or deny the claim.

Reparations are exempt from execution or attachment except by persons who have supplied services, products or accommodations to the victim as a result of the injury or death which is the basis of the claim. The board, in its discretion, may order that all or part of the reparations awarded be paid directly to these suppliers.

Sec. 10. [SUBROGATION.] The state shall be subrogated, to the extent of reparations awarded, to all the claimant's rights to recover benefits or advantages for economic loss from a source which is, or if readily available to the victim or claimant would be, a collateral source.

Sec. 11. [MEDICAL PRIVILEGE.] There is no privilege as to communication or records relevant to an issue of the physical,

mental, or emotional condition of the claimant or victim in a proceeding under this act in which that condition is an issue. Nothing contained in this section shall be interpreted to abridge the attorney-client privilege.

Sec. 12. [ENFORCEMENT OF BOARD'S ORDERS.] If a person refuses to comply with an order of the board or asserts a privilege to withhold or suppress evidence relevant to a claim, the board may make any just order including denial of the claim, but may not find the person in contempt. If necessary to carry out any of its powers and duties, the board may petition the district court for an appropriate order, but the court may not find a person in contempt for refusal to submit to a mental or physical examination.

Sec. 13. [USE OF RECORD OF CLAIM; EVIDENCE.] Neither a record of the proceedings on a claim, a decision of the board, nor the fact that an award has been made or denied shall be admissible as evidence in any criminal or civil action against the alleged offender, including an action by the state on its subrogation claim.

Subdivision 1. Article IV, Section 1, will read as follows:

Section 1. The legislature shall consist of the Senate and the House of Representatives. The senate shall be composed of members elected for a term of four years and the house of representatives shall be composed of members elected for a term of two years by the qualified voters at the general election, *except that there shall be an entire new election of all the senators at the election of representatives next succeeding each new districting provided for in this article. At the new election of representatives next succeeding the new districting, senators from odd numbered districts shall be elected for a term of two years, and senators from even numbered districts shall be elected for a term of four years. Thereafter, the term for all senators shall be four years except when prevented by new districting.*

The legislature shall meet at the seat of government in regular session in each biennium at the time prescribed by law for not exceeding a total of 120 legislative days. The legislature shall not meet in regular session, nor in any adjournment thereof, after the first Monday following the third Saturday in May of any year. After meeting at a time prescribed by law, the legislature may adjourn to another time. “Legislative day” shall be defined by law.

A special session of the legislature may be called as otherwise provided by this constitution.

Subd. 2. Article IV, Section 23, will read as follows:

Sec. 23. ~~The legislature shall have the power to provide by law for an enumeration of the inhabitants of this State, and also have the power at their first session after each enumeration of the inhabitants of this state made by the authority of the United States, to prescribe the bounds of congressional, senatorial and representative districts, and to apportion anew the senators and representatives among the several districts according to the provisions of section second of this article. The state shall be divided into as many separate congressional, senatorial, and representa-~~

tive election districts as there are congressmen, senators and representatives. No representative district shall be divided in the formation of a senate district. The congressional, senatorial and representative districts, shall be separately numbered in a regular series.

Congressional, senatorial and representative districts shall be composed of compact and contiguous territory and shall be apportioned equally throughout the state on the basis of population.

Subd. 3. Article IV, Section 24, will read as follows:

Sec. 24. *The senators shall also be chosen by single districts of convenient contiguous territory; at the same time that members of the house of representatives are required to be chosen, and in the same manner; and no representative district shall be divided in the formation of a senate district. The senate districts shall be numbered in a regular series. The terms of office of senators and representatives shall be the same as now prescribed by law until the general election of the year one thousand eight hundred and seventy eight (1878), at which time there shall be an entire new election of all senators and representatives. Representatives chosen at such election, or at any election thereafter, shall hold their office for the term of two years, except it be to fill a vacancy; and the senators chosen at such election by districts designated as odd numbers shall go out of office at the expiration of the second year, and senators chosen by districts designated by even numbers shall go out of office at the expiration of the fourth year; and thereafter senators shall be chosen for four years, except there shall be an entire new election of all the senators at the election of representatives next succeeding each new apportionment provided for in this article. (a) In a year preceding the first year in which senators are to stand for election following each official reporting of the federal decennial census, or after a court order requiring a new districting, the districting commission created under this section shall prescribe anew the bounds of the congressional, senatorial and representative districts in the state. The commission shall also prescribe anew the bounds of senatorial or representative districts whenever the number of members who compose the senate or house has been altered by law. The commission shall be guided by the standards set forth in section 23 and shall assure all persons fair representation.*

The speaker and minority leader of the house of representatives shall be members. The majority and minority leaders of the senate shall be members. The speaker and the minority leader of the house and the majority leader and the minority leader of the

senate each may appoint a member of his legislative body to serve on the districting commission in his place. In addition, the speaker and the minority leader of the house and the majority leader and the minority leader of the senate shall each appoint one member of his body of the legislature to the districting commission. The governor and the state executive committee of each political party other than that to which the governor belongs whose candidate for governor received 20 percent of the votes at the most recent gubernatorial election shall each appoint four citizens of the state who are not members of the legislature or United States congress to the districting commission. The appointing authorities shall give due consideration to the representation of the various geographical areas of the state.

Members of the commission shall hold office until the new districting in which they participated becomes effective. (d) Not later than ten months after the commission has been constituted, the commission shall file its final districting plans and maps of the districts with the governor.

(e) Not later than 14 calendar days after the districting plan has been filed with the governor, the governor shall present the plan to the legislature. If the legislature is not in session, the governor shall call the legislature into special session for the sole purpose of considering the districting plan. The legislature shall, within 14 calendar days, approve or reject the districting commission's plan. The legislature may amend the plan and approve it. The legislature shall not enact any districting plan except during the 14 day period established by this clause. After 55 percent of the members of each house has approved the plan it shall become law without the governor's signature.

(f) If the commission fails to adopt a plan or the legislature fails to enact a plan into law, the speaker and the minority leader of the house and the majority and minority leader of the senate shall, within 14 calendar days, meet with the chief justice to select a court commission.

The chief justice shall certify to the speaker and minority leader of the house and the majority and minority leaders of the senate a list containing the names of all of the judges of district court in the state. The speaker of the house, the minority leader of the house, the majority leader of the senate and the minority leader of the senate shall in this order take turns striking names from the list of judges until the names of only three judges remain. These three judges shall be the members of the court commission.

The court commission shall, within 60 days of its appointments, prescribe anew the bounds of the congressional, senatorial and representative districts in the state, and this plan shall have the force and effect of law.

(g) *Within 30 days after any districting plan has been adopted pursuant to this article, any qualified voter may petition the state supreme court to review the plan. The state supreme court shall have original jurisdiction to review the plan, exclusive of all other courts of this state.*

If a petition for review is filed, the supreme court shall determine whether the plan complies with the requirements of this constitution and the United States Constitution. If the supreme court determines that the plan complies with constitutional requirements, it shall dismiss the petition within 45 days of the filing of the original petition. If the supreme court determines that the plan does not comply with constitutional requirements, the supreme court, within 45 days of the filing of the original petition shall modify the plan to comply with constitutional requirements.

No district shall increase its indebtedness during fiscal year 1976 unless authorized by the state board for vocational education. The state board for vocational education shall before October 1, 1974 promulgate rules and regulations which establish the approval criteria of budgets including but not limited to the following: responsiveness to current and projected manpower needs of population groups to be served in the various geographic areas and communities of the state, particularly disadvantaged and handicapped persons; adequacy of evaluation of programs; other criteria set forth in the state plan for vocational education. The commissioner, in cooperation with the department of finance, shall establish program budget standards by which the local school districts shall submit financial requests.

Subd. 4. [LOCAL DEFICITS.] The commissioner with the approval of the state board for vocational education shall establish a uniform auditing procedure for post-secondary vocational education. This procedure shall be used to determine the local deficit or surplus in each district as of July 1, 1974 and as of July 1 for each year thereafter. This deficit or surplus shall be certified to the commissioner before January 1, 1975 and January 1 of each year thereafter.

Sec. 2. [EARLY IDENTIFICATION AND EARLY CHILDHOOD PROGRAMS.] Subdivision 1. The board of any inde-

pendent or special district may provide early identification and early childhood programs in one or more elementary school areas within the district and may receive state aids for such programs. In the 1974-75 school year such aids shall be provided for no more than 11 pilot program centers. The aids for such pilot programs shall be distributed in accordance with Minnesota Statutes, Sections 124.17 and 124.212.

Subd. 2. Each district providing such programs shall establish and maintain an account separate from all other district accounts for the receipt and disbursement of all funds related to such early identification and early childhood programs.

Subd. 3. Each district providing early identification and early childhood programs shall coordinate their services with any early identification and early childhood services provided in the district by other governmental agencies. A district may develop cooperative programs with private agencies providing early identification and early childhood services. All governmental agencies shall cooperate with the school district in these coordination efforts. Any district which provides early identification and early childhood programs but does not coordinate its efforts with other governmental agencies shall submit an explanatory report to the commissioner within one year after the implementation of its early identification and early childhood programs and each year thereafter in which such coordination is not established.

Subd. 4. A school district providing early identification and early childhood programs shall be eligible to receive funds for early identification and early childhood services from other government agencies and from private sources where such funds are available.

Subd. 5. A district may charge reasonable fees for early identification and early childhood services; however, a district shall waive such charge or fee if any pupil, his parent or guardian is unable to pay it.

Sec. 3. [TRANSITIONAL YEAR.] Subdivision 1. Notwithstanding any law to the contrary, in districts which have established an approved early identification and early childhood program, any secondary school student who has completed all required courses may, with the approval of the student, his parent or guardian, and local school officials, graduate prior to the completion of the school year. All aid which such student, had he not graduated, would have earned for the district pursuant to Minnesota Statutes, Section 124.212, plus that portion of the allowable foundation aid amount raised by the local tax levy which results from such transitional year students plus that portion of any excess levy allowable under Minnesota Statutes, Section 275.125, Subdivision 3 (5) shall continue to be earned by the district. All such transitional year funds shall be permanently transferred from the general fund to the early identification and early childhood account to provide for early identification and early childhood programs. Monies so received shall be used only for purposes of the early identification and early childhood program.

Subd. 2. The commissioner shall promulgate rules and regulations setting forth the standards for application for and approval of this early graduation procedure.

Sec. 4. Minnesota Statutes 1971, Section 121.21, Subdivision 5 is amended to read:

Subd. 5. The commissioner with the approval of the state board for vocational education is authorized to apportion and distribute funds to the local school districts under the provisions of this section, such apportionment and reimbursement to be on a cost basis for those trainees living outside of the local school districts; *provided however that in fiscal years 1975 and 1976 no district shall receive reimbursement for any costs in excess of those approved by the state board for vocational education; provided however further that those school districts enrolling more than the state average of resident students shall receive nonresident aids based on the average percentage of nonresident attendance for the preceding school year for the state in area vocational-technical schools.*

Sec. 5. Minnesota Statutes 1971, Section 123.37, Subdivision 1, is amended to read:

123.37 [INDEPENDENT SCHOOL DISTRICTS, CONTRACTS.] Subdivision 1. No contract for work or labor, or for the purchase of furniture, fixtures, or other property, except books registered under the copyright laws, or for the construction or repair of school houses, the estimated cost or value of which shall exceed: (a) \$3,000 for school districts with an enrollment of students in grades 1 to 12 of less than 10,000, or (b) \$5,000 for all other school districts, shall be made by the school board without first advertising for bids or proposals by two weeks' published notice in the official newspaper. Such notice shall state the time and place of receiving bids and contain a brief description of the subject matter.

Such additional publication in the official newspaper or elsewhere may be made as the board shall deem necessary.

After taking into consideration conformity with the specifications, terms of delivery, and other conditions imposed in the call for bids, every such contract shall be awarded to the lowest responsible bidder, duly executed in writing, and the person to whom the same is awarded shall give a sufficient bond to the board for its faithful performance, and otherwise conditioned as required by law. A record shall be kept of all bids, with names of bidders and amount of bids, and with the successful bid indicated thereon. A bid containing an alteration or erasure of any price contained in the bid which is used in determining the lowest responsible bid shall be rejected unless the alteration or erasure is corrected as herein provided. An alteration or erasure may be crossed out and the correction thereof printed in ink or typewritten adjacent thereto and initialed in ink by the person signing the bid. In the case of identical low bids from two or more bidders, the board may, at its discretion, utilize negotiated procurement methods with the tied low bidders for that particular transaction, so long as the price paid does not exceed the low tied bid price. In the case where only

a single bid is received, the board may, at its discretion, negotiate a mutually agreeable contract with the bidder so long as the price paid does not exceed the original bid. If no satisfactory bid is received, the board may readvertise. Standard requirement price contracts established for supplies or services to be purchased by the district shall be established by competitive bids. Such standard requirement price contracts may contain escalation clauses and may provide for a negotiated price increase or decrease based upon a demonstrable industrywide or regional increase or decrease in the vendor's costs. Either party to the contract may request that the other party demonstrate such increase or decrease. The term of such contracts shall not exceed two years with an option on the part of the district to renew for an additional two years. Provided that in the case of purchase of perishable food items except milk for school lunches and vocational training programs a contract of any amount may be made by direct negotiation by obtaining two or more quotations for the purchase or sale, when possible, without advertising for bids or otherwise complying with the requirements of this section or section 471.345, subdivision 3. All quotations obtained shall be kept on file for a period of at least one year after receipt thereof.

Every contract made without compliance with the provisions of this section shall be void. Provided, that in case of the destruction of buildings or injury thereto, where the public interest would suffer by delay, contracts for repairs may be made without advertising for bids.

Firm bid contracts for the purchase of milk and ice cream negotiated or renegotiated between September 1, 1973 and July 1, 1974 which provide for a price increase or decrease based upon a demonstrable industrywide or regional increase in the vendor's costs are not void under this subdivision, provided that the adjustment shall not exceed the increase or decrease authorized in the federal marketing order for raw milk between the dates of September 1, 1973 and July 1, 1974 for sales made between February 1, 1974 and July 1, 1974.

Sec. 6. Minnesota Statutes 1971, Section 123.37, is amended by adding a subdivision to read:

Subd. 1a. [AUTHORITY TO PURCHASE.] The board may authorize its superintendent or business manager to lease, purchase, and contract for goods and services within the budget as approved by the board, provided that any transaction in an amount exceeding the minimum amount for which bids are required must first be specifically authorized by the board and must fulfill all other applicable requirements in section 123.37, subdivision 1.

Sec. 7. Minnesota Statutes 1971, Section 123.37, is amended by adding a subdivision to read:

Subd. 1b. Notwithstanding the provisions of subdivision 1, a contract for the transportation of school children may be made either upon sealed bids or by direct negotiation, by obtaining two or more quotations for the service when possible. At least 30 days before awarding a directly negotiated contract, the school district

shall, by published notice, request quotations for the service to be provided. All quotations obtained shall be kept on file for a period of at least one year after receipt thereof. If a contract is made upon sealed bids, the procedure for advertising and awarding bids shall conform to the provisions of subdivision 1.

Sec. 8. Minnesota Statutes 1971, Section 123.39, Subdivision 1, is amended to read:

123.39 [INDEPENDENT SCHOOL DISTRICTS, TRANSPORTATION.] Subdivision 1. The board may provide for the free transportation of pupils to and from school, and to schools, in other districts for grades and departments not maintained in the district, including high school, at the expense of the district, when funds are available therefor and if agreeable to the district to which it is proposed to transport the pupils, for the whole or a part of the school year as it may deem advisable, and subject to its rules. Every driver shall possess all the qualifications required by the rules of the state board of education. In any district which at the time of the adoption of this code was a consolidated district or enjoyed the privileges of a consolidated district, the board shall arrange for the attendance of all pupils living two miles or more from the school, through suitable provision for transportation or for the boarding and rooming of such pupils as may be more economically and conveniently provided for by such means. The district is authorized to provide for the transportation of pupils or expend a reasonable amount for room and board of pupils whose attendance at school can more economically and conveniently be provided for by such means or where pupils attend school in a building rented or leased by a district within the confines of an adjacent district.

Sec. 9. Minnesota Statutes, 1973 Supplement, Section 124.04 is amended to read:

124.04 [CAPITAL EXPENDITURE TAXING AUTHORITY.] In addition to the tax levy prescribed by law for general and special school purposes, the board of any district may levy annually an amount not to exceed \$65 per pupil unit and not to exceed 10 mills on each dollar of assessed valuation of the taxable property in the district as adjusted for the preceding year by the equalization aid review committee notwithstanding the provisions of sections 272.64 and 275.49, provided that said levy may not exceed by more than two mills (three mills if the district adds units pursuant to section 124.17, subdivision 1, clause (7)) the levy under this section in the previous year; and provided further that any district which did not levy pursuant to this section in 1972 may certify a maximum levy of 6 mills not to exceed \$65 per pupil unit in 1974. The tax so levied shall be collected in the manner provided by law for the collection of school taxes. The proceeds of the tax may be used only to acquire land, improve and repair school sites and to equip, re-equip, repair and improve buildings and permanent attached fixtures. Subject to the commissioner's approval, the tax proceeds may also be used to rent or lease buildings for school purposes and to acquire or construct buildings. The board shall establish a fund in which the proceeds of this tax shall be accumulated until expended.

The proceeds of the tax shall not be used for custodial or other maintenance services.

Sec. 10. Minnesota Statutes 1971, Section 124.13 is amended to read:

124.13 [LIMIT ON STATE AID.] The total amount of aid paid by the state to any district for *any purpose* in any year shall not exceed the total amount expended by the district for education of resident pupils for *such purpose* for such year.

Sec. 11. Minnesota Statutes, 1973 Supplement, Section 124.17, Subdivision 1, is amended to read:

124.17 [DEFINITION OF PUPIL UNITS.] Subdivision 1. Pupil units for each resident pupil in average daily membership shall be counted as follows:

(1) *In an early identification and early childhood program approved by the state board, one-tenth pupil unit for each child served by the program. Any child prior to entering kindergarten or below age 6 may qualify for early identification and early childhood programs and aids provided that either the child or his parent or guardian is served by the program.*

~~(1)~~ (2) In an elementary school, for kindergarten and for handicapped pre-kindergarten pupils as defined in section 120.03, and enrolled in one-half day sessions throughout the school year or the equivalent thereof, approved by the commissioner of education, one-half pupil unit and other elementary pupils, one pupil unit.

~~(2)~~ (3) In secondary schools, pupils in junior high school or a six-year school and all other pupils in secondary schools, one and four-tenths pupil units. Pupils enrolled in the seventh and eighth grades of a ~~middle school~~ *any public school, including middle schools and elementary schools, in districts maintaining high schools, or those which will maintain a high school by the 1974-1975 school year*, shall be counted as secondary pupils. *Such aids will be paid for the 1973-1974 school year to districts now qualifying which previously were not eligible to receive the increased pupil weighting.*

~~(3)~~ (4) In area vocational-technical schools one and one-half pupil units.

(4) (5) To meet the problems of educational overburden caused by broken homes, poverty and low income, each pupil in *clauses (2) and (3)* from families receiving aid to families with dependent children or its successor program shall be counted as an additional five-tenths pupil unit. The department of public welfare is directed to furnish to the department of education that information concerning children from families with dependent children which is necessary to calculate pupil units. Additional aids to a district for such pupils may be distributed on a delayed basis until the department of education publicly certifies that the information needed for paying such aids is available on such a timely basis that such aids may be paid concurrently with other foundation aids.

~~(5)~~ (6) In every district where the number of pupils from families receiving aid to families with dependent children or its successor program exceeds ~~ten~~ *nine* percent of the total actual pupil units in the district for the same year, as computed in clauses ~~(1)~~ (2) and ~~(2)~~ (3), each such pupil shall be counted as an additional 35/100 of a pupil unit; for those districts where the number of such pupils is more than eight percent but not more than ~~ten~~ *nine* percent of the total pupil units in the district for the same year, as computed in clauses ~~(1)~~ (2) and ~~(2)~~ (3), each such pupil shall be counted as an additional two-tenths of a pupil unit and for those districts where the number of such pupils is at least five percent but not more than eight percent of the total pupil units in the district for the same year, as computed in clauses ~~(1)~~ (2) and ~~(2)~~ (3), each such pupil shall be counted as an additional one-tenth of a pupil unit. Such weighing shall be in addition to the weighing provided in clauses (1), (2), (3), (4) and ~~(4)~~ (5) of this section. School districts are encouraged to allocate a major portion of the aids that they receive on account of clauses ~~(4)~~ (5) and ~~(5)~~ (6) to primary grade programs and services, particularly to programs and services that involve participation of parents.

~~(5)~~ (7) Where the total pupil units of a district are used as a multiplier in determining foundation aids and spending and levy limitations and where the actual number of pupil units has decreased from the prior year, the number of pupil units for such district shall equal the average of actual pupil units for the prior and current years *be increased by .7 times the difference between the units as computed in clauses (2) and (3) for the two years.*

~~(7)~~ (8) Where the actual number of pupil units has increased from the prior year by more than ~~four~~ *three* percent, a number of pupil units equal to one fourth of the difference between the units as computed in clauses ~~(1)~~ (2) and ~~(2)~~ (3) for the two years shall be added to the other units for the district.

~~(8)~~ (9) Only pupil units in clauses ~~(1)~~, (2) and (3) shall be used in computing adjusted maintenance cost per pupil unit.

Sec. 12. Minnesota Statutes 1971, Section 124.17, Subdivision 2 is amended to read:

Subd. 2. Membership for pupils in grades kindergarten through twelve, for pupils in area vocational-technical schools and for handicapped pre-kindergarten pupils shall mean the number of pupils on the current roll of the school, counted from the date of entry until withdrawal. The date of withdrawal shall mean the day the pupil permanently leaves the school or the date it is officially known that the pupil has left or has been legally excused; provided that any pupil who has been absent from school without a legally justifiable excuse for 15 consecutive school days shall be dropped from the roll and classified as withdrawn. Nothing in Extra Session Laws 1971, Chapter 31, shall be construed as waiving the compulsory attendance provisions cited in section 120.10. Average daily membership shall equal the sum for all pupils of the number of days of the school year each pupil is enrolled in the district's schools divided by the number of days

said schools are in session. For districts operating 12 months schools, days schools are in session shall mean the number of session days required by section 124.19, subdivision 1. The average daily membership of a pupil enrolled on a shared time basis shall equal the ratio of the total minutes for which such pupil is enrolled and the minimum minutes required during the year for a regularly enrolled public school pupil. Foundation aid for each pupil in such shared time classes shall be paid at a rate proportionate to aid paid for other resident pupils of the district providing instruction. A district shall not be entitled to transportation aid under section 124.22 for pupils enrolled on a shared time basis unless the statutes specifically provide for transportation aid to such student.

Sec. 13. Minnesota Statutes 1971, Section 124.17 is amended by adding a subdivision to read:

Subd. 2a. Notwithstanding subdivision 2, pupils granted transitional year status shall continue to be counted as members on the current roll of the school for the remainder of the school year. Pupils enrolled in an early childhood program shall be counted for membership on the current roll of the school from the time of enrollment until the end of the school year if either the pupil or his parent or guardian is served by the program. For purposes of computing average daily membership transitional year pupils and early childhood pupils shall be considered to be enrolled every day school is in session.

Sec. 14. Minnesota Statutes, 1973 Supplement, Section 124.20 is amended to read:

124.20 [AID COMPUTATION FOR SUMMER SCHOOL AND YEAR-ROUND CLASSES.] State aid for summer school classes which are not a part of the regular school term in hospitals, sanatoriums, home instruction programs, and intersession classes of year-round programs in elementary and secondary schools, and summer school instruction in area vocational schools or teachers college laboratory schools or in the university laboratory school shall be paid at a proportionate rate for aids paid during the regular school term; *provided that beginning June 1, 1974 no district shall receive aid for programs under this section in an amount greater than its actual expenditures for these programs.*

Sec. 15. Minnesota Statutes, 1973 Supplement, Section 124.212, Subdivision 10 is amended to read:

Subd. 10. The equalization aid review committee, consisting of the commissioner of education, the commissioner of administration, and the commissioner of ~~taxation~~ revenue, is hereby continued and permanently established. The duty of this committee shall be to review the assessed valuation of the districts of the state. When such reviews disclose reasonable evidence that the assessed valuation of any district furnished by any county auditor is not based upon the market value of taxable property in such district, then said committee shall call upon the department of ~~taxation~~ revenue to ascertain the market value of such property, and adjust such values as required by law to determine the ad-

justed assessed valuation. The department of ~~taxation~~ *revenue* shall take such steps as it may consider necessary in the performance of that duty and may incur such expense as is necessary therefor. The commissioner of ~~taxation~~ *revenue* is authorized to reimburse any county or governmental official for services performed at his request in ascertaining such adjusted valuation. On or before ~~May 1~~ *March 15*, annually, the department of ~~taxation~~ *revenue* shall submit its report on the assessed values established by the previous year's assessment to said committee for approval or rejection and, if approved, such report shall be filed not later than the following July 1 with the commissioner of education and each county auditor for those school districts for which he has the responsibility for determination of mill rates. A copy of the adjusted assessed value so filed shall be forthwith mailed to the clerk of each district involved and to the county assessor or supervisor of assessments of the county or counties in which such district is located.

Sec. 16. Minnesota Statutes, 1973 Supplement, Section 124.222, Subdivision 1 is amended to read:

124.222 [TRANSPORTATION AID ENTITLEMENT.] Subdivision 1. [COMPUTATION.] For the 1974-1975 school year the state shall pay to each school district for all school transportation and related services for which the district is authorized by law to receive state aid: (1) The lesser product of either

(a) The actual net operating cost per eligible pupil transported during the 1975 fiscal year times the number of eligible pupils transported during the 1975 fiscal year; or

(b) 110 118 percent of the actual net operating cost per eligible pupil transported during the year ending June 30, 1973, times the number of eligible pupils transported during the 1975 fiscal year;

(2) Minus the amount raised by a levy of one mill times the adjusted assessed valuation which is used to compute the transportation levy limitation for the levy collected in calendar year 1974;

(3) Plus, the amount of depreciation for one year on the school bus fleet computed by the department of education on a straight line basis at the rate of ten percent per year of the net cost of the fleet.

Sec. 17. Minnesota Statutes, 1973 Supplement, Section 124.223, is amended to read:

124.223 [TRANSPORTATION AID AUTHORIZATION.] For the 1974-1975 school year and thereafter, school transportation and related services for which state transportation aid is authorized are:

(1) Transportation or board of resident pupils who reside one mile or more from the public schools which they could attend, or transportation to, from, or between the schools they attend pursuant to a program approved by the commissioner of education, or who reside one mile or more from a private school actually

attended, but only to the extent permitted by sections 123.76 to 123.79 with respect to private school pupils; provided that state transportation aid is authorized in an amount not to exceed \$700,000 annually for the transportation of any elementary pupil, if the commissioner determines that the transportation is necessary because of extraordinary traffic hazards;

(2) Transportation to or board and lodging in another district, of resident pupils of a district without a secondary school; the pupils may attend a classified secondary school in another district and shall receive board and lodging in or transportation to a district having a classified secondary school at the expense of the district of the pupil's residence;

(3) Transportation for residents to a state board approved secondary vocational center;

(4) Transportation or board and lodging of a handicapped pupil when he cannot be transported on a regular school bus, and the conveying of handicapped pupils between home and school and within the school plant;

(5) Transportation of resident handicapped ~~children~~ *persons who fulfill the eligibility requirements of Minnesota Statutes, Section 252.23 (1) to licensed daytime activity centers attended by the these children persons;*

(6) When necessary, board and lodging for nonresident handicapped pupils in a district maintaining special classes;

(7) Services described in clauses (1) to (6) when provided in conjunction with a state board approved summer school program.

Sec. 18. Minnesota Statutes 1971, Section 124.28, Subdivision 1 is amended to read:

124.28 [GROSS EARNINGS REFUND.] Subdivision 1. When the properties of any district are made up, to the extent of at least 20 percent in value of property which is exempt from local taxation because taxes thereon are paid into the state treasury under the provisions of the gross earnings tax law, such district shall receive annually a refund from such gross earnings taxes in the amount that would be produced by a tax on such exempt property at *three times* the current tax rate for school purposes in the district including the rate for nonresident high school children levied by the county provided that any district which has 15 percent in value of such exempt property and presently receiving gross earnings refund shall continue to receive it until June 30, 1963. For the purpose of determining the amount of this refund, the value of such exempt property shall be set at 30 percent of its full and true value except that in no case shall the assessed value of said exempt property for this purpose exceed such an amount as when added to the assessed value of all other property in the district exceed \$3,000 per resident pupil unit. In the determination of the amounts to which districts shall be entitled in the distribution of any state aids that are based upon total valuation per pupil this valuation shall be included.

Sec. 19. Minnesota Statutes 1971, Section 270.11, Subdivision 2 is amended to read:

Subd. 2. [COUNTY AUDITOR'S REPORTS OF ASSESSMENT FILED WITH COMMISSIONER.] The commissioner of ~~taxation~~ revenue shall require the auditor of each county in the state to file with him, on or before August 1, each year, complete abstracts of all real and personal property in the county, as equalized by the county board of equalization, and itemized by assessment districts, accompanied by a printed or typewritten copy of the proceedings of the county board of equalization, and it shall be the duty of the county auditor to so report to the commissioner of ~~taxation~~ revenue.

The final abstract of assessments after adjustments by the state board of equalization and inclusion of any omitted property shall be submitted to the commissioner of revenue on or before January 1 of each calendar year.

Sec. 20. Minnesota Statutes, 1973 Supplement, Section 275.125, Subdivision 3 is amended to read:

Subd. 3. In addition to the levy authorized by section 275.125, subdivision 2a, a qualifying district may levy additional amounts as follows:

(1) The amounts necessary to make payments for bonds issued and for interest thereon, including the bonds and interest thereon, issued as authorized by clause (7) (C) of this subdivision, and for repayment of debt service loans and capital loans, the amount authorized for capital expenditures pursuant to section 124.04 and the amount authorized for liabilities of dissolved districts pursuant to section 122.45.

(2) For school transportation services, an amount not to exceed the amount raised by a levy of one mill times the adjusted assessed valuation of the taxable property of the district for the preceding year; provided that in 1973 and thereafter a district having boundaries coterminous with the boundaries of a city of the first class may levy an amount not to exceed 20 percent of its costs for transportation and related services for which state aid is authorized for the 1974-1975 school year and thereafter, and provided further that a district may levy under this clause for the annual cash payments to be made for the purchase of buses, but only for that portion of the payments not offset by state transportation aid received on account of depreciation; *and provided further that beginning with the levy certified in 1975, a district may levy for that portion of transportation costs approved by the commissioner as qualifying for aid because of extraordinary traffic hazards but for which no state aid was received for the previous fiscal year pursuant to Section 124.223, clause (1).*

(3) For purposes of the 1973 levy, collectible in 1974, any district which qualified for an extra levy under Minnesota Statutes 1971, Section 275.125, Subdivision 3, Clause (4), shall be allowed to levy the same amount per pupil unit allowed by that cause. Provided, however, that a district having boundaries coterminous with

the boundaries of a city of the first class which was affected by the limitation of an extra levy not to exceed 1.5 mills times the adjusted assessed valuation of the district shall be allowed to levy 1.9 mills. For purposes of the 1973 levy, collectible in 1974, any district which qualified for an extra levy in 1971, collectible in 1972, under Minnesota Statutes 1971, Section 275.125, Subdivision 3, Clause (3) but did not qualify for an extra levy under Minnesota Statutes 1971, Section 275.125, Subdivision 3, Clause (4) in 1972, collectible in 1973, shall be allowed to levy the amount per pupil unit it was qualified to levy under Minnesota Statutes 1971, Section 275.125, Subdivision 3, Clause (3).

(4) In 1973 only, for a district which was authorized to levy pursuant to Minnesota Statutes 1971, Section 275.125, Subdivision 3, Clause (3), but which was not authorized to levy pursuant to Minnesota Statutes 1971, Section 275.125, Subdivision 3, Clause (4), an amount not to exceed the aggregate amount authorized by Minnesota Statutes 1971, Section 275.125, Subdivision 3, Clause (3).

(5) A district which qualified for a levy under clause (3) above shall be allowed to levy ~~that same amount per pupil unit~~ in 1974 *the sum of the amount per pupil unit permitted under clause (3) above and the amount per pupil unit equal to the district's reimbursement aid per pupil unit in average daily membership for 1970-1971 school year programs for handicapped children*, reduced by two and one-half percent. The per pupil amount of the reduction shall be rounded down to the dollar. *No district in any year shall increase its levy as a result of the addition of the reimbursement aid for 1970-1971 programs for handicapped children by an amount greater than the amount raised by 2 mills times the adjusted assessed valuation of the taxable property of the district for the preceding year.* Provided, however, that a district within a city of the first class which was affected by the limitation of an extra levy not to exceed 1.9 mills times the adjusted assessed valuation of the district shall be allowed to levy the 1.9 mills.

(6) For districts in cities of the first class, maintaining post secondary vocational schools, one half mills times the adjusted assessed valuation of the taxable property of the district for the preceding year; and for other districts maintaining post secondary vocational schools, three mills times the adjusted assessed valuation of the taxable property of the district for the preceding year, provided that districts formed pursuant to Laws 1967, Chapter 822, and Laws 1969, Chapters 775 and 1060, shall be subject to the levy limitations imposed by those laws, as amended.

(7) (A) In order that the transition from existing patterns of financing public schools to the system prescribed in Extra Session Laws 1971, Chapter 31, Article 20 may be made in an orderly fashion, a district may levy an additional levy under the terms of this section.

(B) If that part of the levy certified by the school district in 1970, received in 1971, plus so much of the levy, allowed under subdivisions 2 and 3, sections 1 to 5 of this act, to be certified in 1971, received in 1972, as will be received between July 1, 1971

and June 30, 1972, and when added to all other state aids, local funds available and net existing local debts, exclusive of bonded debt and existing capital loans will not be sufficient to allow a district to spend an amount per pupil unit sufficient to raise its 1970-1971 adjusted maintenance cost per pupil unit by \$42 it may petition the commissioner of education for authority to levy an additional levy. Before such a levy can be made, the commissioner must authorize such a levy. Such authorization shall specify the amount of the levy, provided that such levy may not exceed .5 mills in a city of the first class or 1.5 mills in any other district times the 1970 adjusted assessed valuation of the district as determined by the equalization aid review committee.

(C) If the additional levy allowed in (B) is insufficient to raise the adjusted maintenance cost of a district to \$42 above its costs in 1970-1971 it may petition the commissioner of education for authority to issue general obligation bonds of an amount sufficient to meet the deficiency. The commissioner must authorize such a bond issue. The authorization shall specify the amount of the bond issue provided that the levy authorization to pay the principal and interest on the bonds may not exceed .5 mills in a district within a city of the first class, or 1.5 mills in any other district, times the 1970 adjusted assessed valuation of the district as determined by the equalization aid review committee. The bonds authorized by this section shall be sold and issued pursuant to the provisions of chapter 475, except as otherwise provided herein. Such bonds shall not be included in computing any debt limitation for a district and no election shall be required for their sale and issuance.

A district may not be authorized an additional levy under both (B) and (C) of this section.

(8) In 1973, and each year thereafter, for a district which has established a community school advisory council pursuant to section 121.88, whether or not the district receives reimbursement from the state pursuant to section 121.89, an amount of money raised by the greater of (A) \$1 per capita, or (B) the number of mills not to exceed the number of mills necessary in 1973 to raise \$1 per capita in 1973 for community services including summer school, nonvocational adult programs, recreation programs, and programs contemplated by sections 121.85 to 121.89.

The population of the district for purposes of this clause is the population determined as provided in section 275.14 or as certified by the department of education from the most recent federal census.

(9) Districts which receive payments which result in deductions from foundation aid pursuant to section 124.212, subdivision 8a, shall reduce the permissible levies authorized by this subdivision by 25 percent in 1973, 50 percent in 1974, 75 percent in 1975, and 100 percent for each year thereafter of that portion of the previous year's payment not deducted from foundation aid on account of the payment, unless such a levy reduction is otherwise required by law. The levy reductions shall be made in the proportions that each permissible levy bears to the sum of the permissible levies.

(10) The commissioner shall certify to the county auditors ~~any errors made in 1971 and 1972 in general and special purpose levy amounts~~ the levy limits for all school districts headquartered in the respective counties together with adjustments for errors in levies not penalized pursuant to subdivision 4 as well as adjustments to final pupil unit counts.

A school district shall have the right to require the commissioner to review his certification and to present evidence in support of modification of his certification.

The county auditor is authorized to adjust the 1973 levy to correct for the errors shall reduce levies for any excess of levies over levy limitations pursuant to section 275.16. Such reduction in excess levies may at the discretion of the school district be spread over not to exceed two calendar years.

(11) The commissioner of education shall certify to the county auditors any underlevies made in 1971 and 1972 in the transportation levy amounts. The 1971 underlevies shall be determined to be (1) the actual net costs of reimbursable transportation as reported to the department of education for the 1972-1973 school year plus the amount expended by the district to acquire school buses in 1972-1973 used for reimbursable transportation, less (2) the 1971 certified transportation levy as amended and state aids received in 1972-1973 for transportation including depreciation. Underlevies in the 1972 transportation levy shall be computed in like manner using 1973-1974 costs and state aids received in the 1973-1974 school year. The 1974 levy shall be adjusted to correct for such underlevies, provided that upon written request of the affected school board to the commissioner, the adjustment shall be pro-rated in the 1974 and 1975 transportation levies. No district may levy under this clause in any year an amount which exceeds the amount raised by a levy of two mills times the previous year's adjusted assessed valuation of the taxable property of the district.

H. F. No. 1866: A bill for an act relating to public welfare; providing for supplementary assistance payments to recipients; providing for the administration and agency and judicial review thereof.

Reports the same back with the recommendation that the printed bill be amended as follows:

Strike everything after the enacting clause and insert in lieu thereof the following:

"Section 1. [CATEGORICAL AID PROGRAMS; PROVISION FOR CONTINUING PAYMENTS.] Subdivision 1. Commencing January 1, 1974, the commissioner of public welfare shall certify to each county the amount of aid each eligible county resident received per pay period prior to December 31, 1973 pursuant to a categorical aid program of old age assistance, aid to the blind, or aid to the disabled. From and after January 1, 1974, each county shall advance to the commissioner of public welfare one half of the amount by which aid paid to the county resident by the county, the state, and the United States prior to January 1, 1974 exceeds the amount of aid paid to the individual after December 31, 1973 by the United States pursuant to 42 U.S.C. Section 1382. The commissioner of public welfare shall forward all such sums received from the counties, together with an equal state share, to the appropriate department of the United States for disbursement.

Subd. 2. [OPTIONAL FISCAL PROCEDURE.] The commissioner of public welfare may, by rule and regulation, establish alternate fiscal procedures by which the amount of individual county liability established under this section may be deducted from the state liability to the county incurred under any other public assistance program authorized by law.

Subd. 3. [PROVISIONS FOR RE-CALCULATIONS OF SUP-

PLEMENTAL AID IN CASES OF CHANGED CIRCUMSTANCES.] An individual who is eligible for supplemental aid under this section may, if his or her circumstances change substantially after January 1, 1974, have the amount of his or her supplemental aid recalculated by the county welfare board in accordance with the standards in effect for the appropriate categorical aid program in December, 1973. Any increase in the individual's supplemental aid which results from a recalculation shall be administered pursuant to the provisions of section 2.

Sec. 2. [NEW APPLICANTS AND ENROLLEES; PROVISION FOR SUPPLEMENTS.] Subdivision 1. For all applicants or recipients of supplemental security income provided by the United States pursuant to 42 U.S.C. Section 1382 and were not enrolled in any categorical aid program referred to in section 1 on December 31, 1973 and who make application to the appropriate county welfare board, each county welfare board shall determine whether the recipient meets the eligibility criteria in effect December 31, 1973 for the appropriate categorical aid program. For any applicants or recipient who meets the relevant eligibility criteria in effect December 31, 1973, the county welfare board shall certify to the commissioner of public welfare the amount which the individual would have received in accordance with the standards in effect for the appropriate categorical aid program in December, 1973. From and after the first of the month in which a successful application was filed, the state shall advance to the county one half of the amount by which the amount certified by the county exceeds the amount of aid paid to the recipient after December 31, 1973 by the United States pursuant to 42 U.S.C. Section 1382. The county shall forward each sum received, together with an equal county share, to the appropriate recipient.

Subd. 2. In computing the amount of supplemental assistance there shall be deducted from the gross amount of the recipient's needs as thus determined all income subject to criteria in effect on December 31, 1973 which the individual is receiving.

Sec. 3. No recipient of supplemental aid granted pursuant to this act shall experience a decrease in the amount of his or her supplement as a result of any increase authorized or effective on or after January 1, 1974, in the amount of aid paid to the recipient by the United States pursuant to 42 U.S.C. Section 1382.

Sec. 4. The commissioner of public welfare shall promulgate all rules and regulations necessary to carry out the provisions of this act.

Sec. 5. [ADMINISTRATIVE AND JUDICIAL REVIEW.] Any applicant or recipient aggrieved by any order or determination by the county welfare board may appeal the order or determination in the manner provided by Minnesota Statutes, 1973 Supplement, Section 245A.12.

Sec. 6. [SPECIAL 1974 FISCAL PROCEDURES.] Notwithstanding any law to the contrary, any county board of commissioners may, by majority vote at any time following the effec-

tive date of this act, transfer surplus funds to the appropriate fund for purposes of this act; and it may immediately levy taxes and issue certificates of indebtedness in anticipation of collection of said taxes, for the purpose of providing money necessary to pay supplemental aid as required by this act during the calendar year 1974.

S. F. No. 2222: A bill for an act relating to the metropolitan council; granting the metropolitan council the powers of a municipal housing and redevelopment authority in the metropolitan area, subject to municipal approval; providing for revenues; amending Minnesota Statutes 1971, Sections 287.05, Subdivision 1; and 287.12.

Reports the same back with the recommendation that the bill be amended as follows:

Strike everything after the enacting clause and insert in lieu thereof:

"Section 1. [FINDINGS AND DECLARATION OF POLICY.] It is hereby found and determined that: The conditions found to exist by the municipal housing and redevelopment act as amended continue to exist throughout the state and in the area in which the metropolitan council established by Minnesota Statutes, Chapter 473B, has jurisdiction; substandard, slum and blighted areas exist in the metropolitan area which cannot be redeveloped without government assistance; there is a shortage of decent, safe and sanitary dwelling accommodations available to persons of low and moderate income at rentals or prices they can afford; many municipalities in the metropolitan area are unable adequately to provide the financing and staff necessary to an effective municipal housing and redevelopment authority; for each such municipality to establish a separate authority would result in an inefficient use of manpower and services; and there is therefore a need to enable the metropolitan council to make available to the municipalities in the metropolitan area those services provided for in the municipal housing and redevelopment act.

Sec. 2. [DEFINITIONS.] Subdivision 1. Unless the context clearly indicates otherwise, the following terms, for the purposes of this act, shall have the meanings ascribed to them in this section.

Subd. 2. The terms defined in the municipal housing and redevelopment act shall, for the purposes of this act, have the meanings given them in that act.

Subd. 3. "Council" means the metropolitan council created by Minnesota Statutes, Section 473B.02.

Subd. 4. "Metropolitan area" means the area in which the council has jurisdiction under Minnesota Statutes, Section 473B.02.

Subd. 5. "Comprehensive development guide" means that document prepared by the council pursuant to Minnesota Statutes, Section 473B.06, Subdivision 5.

Sec. 3. [POWERS.] Subdivision 1. In addition to, and not in limitation of, all other powers invested in it by law, the council, and the members thereof, shall have, throughout the metropolitan area, the same functions, rights, powers, duties, privileges, immunities and limitations as are provided for housing and redevelopment authorities created for municipalities, and for the commissioners of such authorities. The provisions of Minnesota Statutes, Sections 462.411 to 462.711 and of all other laws relating to housing and redevelopment authorities shall be applicable to the council when functioning as an authority, except as herein provided or as clearly indicated otherwise from the context of such laws. Minnesota Statutes, Section 462.425 shall have no application to the council nor to any municipality or county and the governing bodies of any municipality of county, within and for which the council undertakes a project shall have all the powers, authority and obligations granted to municipalities and counties by the provisions of Minnesota Statutes, Sections

462.411 to 462.711 and all other laws relating to housing and redevelopment authorities. The council may plan and propose projects within the boundaries of any municipality, and may otherwise exercise the powers of an authority at any time; provided, however, that the council shall not implement any housing project, housing development project, redevelopment project or urban renewal project within the boundaries of any municipality or county without the prior approval of the governing body of the municipality or county in which any such project is to be located; and provided further that the council shall not propose any project to the governing body of a municipality or county having an active authority created pursuant to Minnesota Statutes, Section 462.425, or pursuant to special legislation, without first submitting the proposed project to the municipal or county authority for its review and recommendations; and provided further that as to any project proposed by the council and approved by the municipality or county, the council shall not undertake the project if within 60 days after it has been proposed, the municipality or county agrees to undertake the project. All plans and projects of the council shall be consistent with the comprehensive development guide.

Subd. 2. [TECHNICAL ASSISTANCE.] The council may provide technical assistance to existing municipal or county housing and redevelopment authorities at the request of such authorities.

Subd. 3. [COOPERATION WITH OTHER GOVERNMENT AGENCIES.] The council may cooperate with or act as agent for the federal government, the state government, or any agencies or instrumentalities thereof, in carrying out the provisions of any federal or state legislation relating to the general purposes of the municipal housing and redevelopment act.

Subd. 4. [CITIZEN PARTICIPATION.] The council shall, as part of any project proposal to a municipality, propose a means for citizens substantially affected by the proposed project to participate in the formulation and carrying out of projects undertaken by the council pursuant to the terms of this act.

Subd. 5. [PROJECTS; REPORTS.] The council shall prepare a detailed report on the progress of any project it undertakes. The report shall be filed with the legislature not later than January 15 of each year.

Sec. 4. [EFFECT UPON MUNICIPAL AND COUNTY HOUSING AND REDEVELOPMENT AUTHORITIES.] Nothing in this act shall be construed to impair the powers and obligations of municipal, county or multi-county housing and redevelopment authorities within the metropolitan area.

Sec. 5. [FINANCES.] Subdivision 1. The council shall allocate the net unreimbursed costs of any project which it undertakes to the municipality or group of municipalities or county for which the project is undertaken. The governing body of each such municipality or county shall impose taxes or other revenue measures to provide funds necessary to pay the allocated costs, and the govern-

ing body of each such municipality or county shall have all the powers, authority and obligation granted to authorities by Minnesota Statutes, Section 462.545 and all other provisions of law regarding the financing of such projects, provided that the council shall have the powers of an authority for purposes of applying for and receiving federal grants in connection with all projects which it undertakes.

Subd. 2. The council may expend for the purposes of this act any of the revenue derived pursuant to section 7 of this act, and any revenues derived pursuant to Minnesota Statutes, Section 473B.08.

Sec. 6. Minnesota Statutes 1971, Section 287.05, is amended by adding a subdivision to read:

Subd. 3. In addition to the tax imposed in subdivision 1, a tax of 5 cents is hereby imposed upon each \$100, or fraction thereof, of the principal debt or obligation which is or may be secured by any mortgage of real property situated within the counties of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott and Washington executed, delivered, and recorded or registered; provided, however, that said tax shall be imposed but once upon any mortgage and extension thereof. The proceeds of this tax paid to the treasurers of the seven counties under the provisions of sections 287.01 to 287.12 shall be apportioned to the council.

Sec. 7. This act is effective on the day following final enactment."

Further, amend the title by striking in its entirety and inserting in lieu thereof the following:

"A bill for an act relating to the metropolitan council; granting the metropolitan council the powers of a municipal housing and redevelopment authority in the metropolitan area; imposing a tax on mortgages in the seven-county metropolitan area; amending Minnesota Statutes 1971, Section 287.05, by adding a subdivision."

Strike everything after the enacting clause and insert in lieu thereof the following:

“Section 1. [DEVELOPMENT PROGRAM; PURPOSE.] It is found that there is a need for new development in areas of a municipality which are already built up to provide employment opportunities to improve the tax base and to improve the general economy of the state. Therefore, municipalities are authorized to develop a program for improving a district of the municipality to provide impetus for commercial development; to increase employment; to protect pedestrians from vehicle traffic and inclement weather; to provide the necessary linkage between peripheral parking facilities and places of employment and shopping; to provide off-street parking to serve the shoppers and employees of the district; to provide open space relief within the district; and to provide other facilities as are outlined in the development program adopted by the governing body. It is hereby declared by the legislature of the state of Minnesota that the actions required to assist the implementation of these development programs are a public purpose and that the execution and financing of the programs are a public purpose.

Sec. 2. [DEFINITIONS.] Subdivision 1. For the purposes of sections 1 to 10, the terms defined in this section shall have the meanings given them unless otherwise provided or indicated by the context.

Subd. 2. “Municipality” means any city, however organized.

Subd. 3. A “development district” is a specific area within the corporate limits of any municipality which has been so designated and separately numbered by the governing body. No less than 60 percent of the area of any district shall consist of land which has been platted and developed. The area of a district shall not be enlarged after three years following the date of designation

of the district. At the time of the designation of the first development district in any municipality, the governing body of that municipality shall by formal action adopt one of the three following alternative restrictive options. Once the choice is made, that municipality must use the same option for all succeeding development districts.

(a) The total acreage included in any one development district shall not exceed one percent of the total acreage of the municipality. At no time shall the total current acreage within development districts for which unrecovered cost of bonds remain exceed three percent of the total acreage of the municipality.

(b) The total market value of taxable real property of any one development district when adopted shall not exceed five percent of the total market value of taxable real property in the municipality as most recently certified by the county auditor. At no time shall the current total market value of taxable real property within development districts for which unrecovered cost of bonds remain exceed ten percent of the total market value of taxable real property in the municipality as most recently certified by the county auditor.

(c) No development district shall exceed six acres. At no time shall another development district be designated by the governing body of the municipality until all cost of bonds for the previously designated district has been paid.

Subd. 4. "Substantially residential development district" means any development district in which 40 percent or more of the area, exclusive of streets and open space, is used for residential purposes at the time the district is designated by the governing body.

Subd. 5. A "development program" is a statement of objectives of the municipality for improvement of a development district which shall contain a complete statement as to the public facilities to be constructed within the district, the open space to be created, the environmental controls to be applied, the proposed reuse of private property, and the proposed operations of the district after the capital improvements within the district have been completed.

Subd. 6. "Pedestrian skyway system" means any system of providing for pedestrian traffic circulation, mechanical or otherwise, elevated aboveground, within and without the public right of way, and through or above private property and buildings, and includes overpasses, bridges, passageways, walkways, concourses, hallways, corridors, arcades, courts, plazas, malls, elevators, escalators, heated canopies and accesses and all fixture, furniture, signs, equipment, facilities, services, and appurtenances which in the judgment of the governing body of the municipality will enhance the movement, safety, security, convenience and enjoyment of pedestrians and benefit the municipality and adjoining properties. The use of a public street or public right of way for pedestrian travel only constitutes a public use and shall not require a vacation of the street or right of way.

Subd. 7. "Special lighting system" means lights or light displays of any type located within or without the public right of way.

Subd. 8. "Parking structure" means any building the principal use of which is designed for and intended for parking of motor vehicles. Open air parking on parking lots shall also be construed as parking structures for the purpose of this act.

Subd. 9. "Maintenance and operation" means all activities necessary to maintain facilities after they have been developed and all activities necessary to operate the facilities including but not limited to informational and educational programs, and safety and surveillance activities.

Sec. 3. [AUTHORITY GRANTED.] A municipality may after consultation with its planning agency or planning department and after public hearings, notice of which shall have been published in the official newspaper of the municipality, or if the municipality has no official newspaper, in a newspaper of general distribution and after provision for relocation has been made pursuant to section 11, and after consultation with the advisory board created by section 10, designate development districts within the boundaries of the municipality. Within these districts the municipality may adopt a development program consistent with which the municipality may acquire, construct, reconstruct, improve, alter, extend, operate, maintain, or promote developments aimed at improving physical facilities, quality of life and quality of transportation. The municipality may acquire land or easements through negotiation or through powers of eminent domain. The municipal council may adopt ordinances regulating traffic in pedestrian skyway systems, public parking structures, and other facilities constructed within the development district. The municipal council may pass ordinances regulating access to pedestrian skyway systems and the conditions under which such access is allowed.

Traffic regulations may include but shall not be limited to direction and speed of traffic, policing of pedestrianways, hours that pedestrianways are open to the public, kinds of service activities that will be allowed in arcades, parks and plazas, fares to be charged on the people movers, and rates to be charged in the parking structures. The municipality shall have the power to require private developers to construct buildings so as to accommodate and support pedestrian systems which are part of the program for the development district. When the municipality requires the developer to construct columns, beams or girders with greater strength than required for normal building purposes, the municipality shall reimburse the developer for the added expense from development district funds. The municipality shall have the authority to install special lighting systems, special street signs and street furniture, special landscaping of streets and public property; to install special snow removal systems; to acquire property for the district; to lease air rights over public buildings and to spend development district funds for constructing the foundations and columns in the public build-

ings strong enough to support the buildings to be constructed on air rights; to lease all or portions of basement, ground and second floors of the public buildings constructed in the district; to negotiate the sale or lease of property for private development if the development is consistent with the development program for the district.

Sec. 4. [TAX STATUS.] The pedestrian skyway system, underground pedestrian concourse, the people mover system, and publicly owned parking structures are all declared to be public property to be used for essential public and governmental purposes which shall be exempt from all taxes and special assessments of any city, town, county, state, or any political subdivision thereof. Taxes do not include charges for utilities and special services such as heat, water, electricity, gas, sewage disposal, or garbage removal.

Sec. 5. [GRANTS.] A municipality may accept grants or other financial assistance from the government of the United States or any other entity to do studies, construct and operate the pedestrian skyway system, underground pedestrian concourses, people mover systems, and other public improvements authorized by sections 1 to 10.

Sec. 6. [ISSUANCE OF BONDS.] The governing body of the municipality may authorize, issue, and sell bonds which shall mature within 30 years from date of issue to finance the acquisition and betterment of real and personal property needed to carry out the development program within the development district together with all relocation costs incidental thereto in accordance with Minnesota Statutes, Sections 475.51, 475.53, 475.54, 475.55, 475.56, 475.60, 475.61, 475.62, 475.63, 475.65, 475.66, 475.69, 475.70, and 475.71. All tax increments received by the municipality pursuant to section 7 shall be pledged for the payment of these bonds and used to reduce or cancel the taxes otherwise required to be extended for that purpose, and the bonds shall not be included when computing the municipality's net debt.

Sec. 7. [TAX INCREMENTS TO PAY CAPITAL IMPROVEMENT COSTS.] A municipality, if it exercises the powers of sections 1 to 10, shall certify to the county auditor each development district created under the act, giving the following information: (a) legal description; (b) total cost of bonds issued to develop the district; (c) interest rate on bonds.

If the development program is carried out in stages, the municipality may amend the statement on bonds issued and interest rate being paid from time to time as required.

The county auditor shall distribute taxes from the affected property to each of the taxing authorities as follows:

(a) If the current taxable value is less than or the same as the original taxable value at the time the district was created, taxes as determined by the current levy;

(b) If the current taxable value exceeds the original taxable value at the time the district was created, taxes shall be distrib-

uted in the proportion that the original taxable value bears to the current taxable value;

(c) The residue of taxes as collected, referred to herein as the tax increment if any, shall be paid by the county auditor to the municipality. These payments shall be kept in a special account for the development district involved. Payments to the development district fund shall continue until the total costs as indicated above have been paid into the fund. When the total costs have been paid into the department district fund, taxes shall be distributed according to the then current levies.

Sec. 8. [MAINTENANCE AND OPERATION.] Maintenance and operation of the pedestrian systems, special lighting systems, parking structures, and other public improvements constructed under provisions of sections 1 to 10 shall be under the supervision of the administrator as designated in section 9. The cost of maintenance and operation of the nonrevenue facilities together with the excess costs of operation and maintenance of revenue producing facilities, if any, shall be charged against the development district in which it is located. The amount of assessment against each property within the district shall be in proportion to the benefit to the several properties within the district. By July 1 of each year the administrator of the development district shall submit to the governing body of the municipality the maintenance and operating budget for the following year, and the prorata share of the budget to be charged to each property in the district. The governing body of the municipality shall certify such assessments to the county auditor for collection.

Sec. 9. [ADMINISTRATION.] The governing body of a municipality shall create a department or designate an existing department or office to administer all districts authorized under the act. The head of this department shall pursuant to rules as may be adopted by the governing body of the municipality have the following powers:

- (a) To acquire property or easements through negotiation;

(i) Apply for grants from the United States of America;

(j) Apply for grants from other sources.

Sec. 10. [ADVISORY BOARD.] Subdivision 1. The governing body of the municipality shall create an advisory board. Except as provided in subdivision 2, a majority of the members shall be owners or occupants of real property located in the development district which they serve. The advisory board shall advise the governing body and the administrator on the planning, construction and implementation of the development program, and maintenance and operation of the district after the program has been completed.

Subd. 2. In a substantially residential development district the board shall be comprised of owners or occupants of real property located within or adjacent to the district's boundaries. The board may be appointed or elected (except in the cities of Minneapolis and St. Paul where the board shall be elected) according to guidelines established by the governing body.

Subd. 3. The governing body shall by resolution delineate the respective powers and duties of the advisory board and the planning staff or agency. The resolution shall establish reasonable time limits for approval by the advisory board of the phases of the development program, and provide a mechanism for appealing to the governing body for a final decision when conflicts arise between the advisory board and the planning staff or agency, regarding the development program in its initial and subsequent stages.

Sec. 11. [RELOCATION.] Unless they desire otherwise, provision must be made for relocation of all persons who would be displaced by a proposed development district prior to displacement. In addition to the requirements of Minnesota Statutes, 1973 Supplement, Sections 117.50 to 117.56, the governing body of a municipality shall, prior to undertaking any relocation of displaced persons, insure that housing and other facilities of comparable quality be made available to the persons to be displaced. All such housing and other facilities shall be in addition to any other governmentally supported programs providing such housing and facilities."

Strike everything after the enacting clause and insert in lieu thereof the following:

“Section 1. [LEGISLATIVE FINDING.] It is hereby declared to be in the public interest that public utilities be regulated as hereinafter provided in order to provide the retail consumers of natural gas and electric service in this state with adequate and reliable services at reasonable rates, consistent with the financial and economic requirements of public utilities and their need to construct facilities to provide such services or to otherwise obtain energy supplies, to avoid unnecessary duplication of facilities which increase the cost of service to the consumer and to minimize disputes between public utilities which may result in inconvenience or diminish efficiency in service to the consumers. Because municipal utilities are presently effectively regulated by the residents of the municipalities which own and operate them, it is deemed unnecessary to subject such utilities to regulation under this act except as specifically provided herein.

Sec. 2. [DEFINITIONS.] Subdivision 1. For the purposes of this act the terms defined in this section have the meanings given them.

Subd. 2. “Corporation” includes a private corporation, a public corporation, a municipality, an association, a cooperative whether incorporated or not, a joint stock association, a business trust, or any political subdivision or agency.

Subd. 3. “Person” includes a natural person, a partnership, or two or more persons having a joint or common interest, and a corporation as hereinbefore defined.

Subd. 4. “Public utility” includes persons, corporations or other legal entities, their lessees, trustees, and receivers, now or hereafter operating, maintaining, or controlling in this state equipment or facilities for furnishing at retail natural, manufactured or mixed gas or electric service to or for the public or its members, or engaged in the production and retail sale thereof but does not include a municipality producing or furnishing natural, manufactured or mixed gas or electric service. Except as otherwise provided, the provisions of this act shall not be applicable to any sale of natural gas or electricity by a public utility to another public utility for resale. No person shall be deemed to be a public utility if it presently furnishes its services only to tenants in buildings owned, leased or operated by such person. No person shall be deemed to be a public utility if it presently furnishes service to occupants of a mobile home or trailer park owned, leased, or operated by such

person. No person shall be deemed to be a public utility if it presently produces or furnishes service to less than 25 persons.

Subd. 5. "Rate" means and includes every compensation, charge, fare, toll, tariff, rental and classification, or any of them, demanded, observed, charged, or collected by any public utility for any service and any rules, regulations, practices, or contracts affecting any such compensation, charge, fare, toll, rental, tariff, or classification.

Subd. 6. "Service" means and includes natural, manufactured or mixed gas and electricity; the installation, removal, or repair of equipment or facilities for delivering or measuring such gas and electricity.

Subd. 7. "Commission" shall refer to and mean the public service commission of the department of public service.

Subd. 8. "Department" shall refer to and mean the department of public service of the state of Minnesota.

Subd. 9. "Municipality" means any city however organized, and any village or borough.

Sec. 3. [REASONABLE RATE.] Every rate made, demanded, or received by any public utility, or by any two or more public utilities jointly, shall be just and reasonable. Rates shall not be unreasonably preferential, unreasonably prejudicial or discriminatory, but shall be sufficient, equitable and consistent in application to a class of consumers. Any doubt as to reasonableness should be resolved in favor of the consumer. For rate making purposes a public utility may treat two or more municipalities served by it as a single class wherever the populations are comparable in size or the conditions of service are similar.

Sec. 4. [STANDARD OF SERVICE.] Every public utility shall furnish safe, adequate, efficient, and reasonable service; provided that service shall be deemed adequate if made so within 90 days after a person requests service. Upon application by a public utility, and for good cause shown, the commission may extend such period for not to exceed another 90 days.

Sec. 5. [PUBLISH SCHEDULES; REGULATIONS; FILES; JOINT RATES.] Subdivision 1. Every public utility shall file with the commission schedules showing all rates, tolls, tariffs and charges which it has established and which are in force at the time for any service performed by it within the state, or for any service in connection therewith or performed by any public utility controlled or operated by it.

Subd. 2. Every public utility shall file with and as a part of such schedule all rules and regulations that, in the judgment of the commission, in any manner affect the service or product, or the rates charged or to be charged for any service or product, as well as any contracts, agreements or arrangements relating to the service or product or the rates to be charged for any service or product to which the schedule is applicable as the commission may by general or special order direct.

Subd. 3. Every public utility shall keep copies of such schedules open to public inspection under such rules and regulations as the commission may prescribe.

Sec. 6. [RECEIVING DIFFERENT COMPENSATION.] No public utility shall directly or indirectly, by any device whatsoever, or in any manner, charge, demand, collect, or receive from any person a greater or less compensation for any service rendered or to be rendered by such utility than that prescribed in the schedules of rates of such public utility applicable thereto then filed in the manner provided in this act, nor shall any person knowingly receive or accept any service from a public utility for a compensation greater or less than that prescribed in such schedules, provided that all rates being charged and collected by a public utility upon the effective date of this act may be continued until schedules are filed. Nothing in this act shall prevent a cooperative association from returning to its patrons the whole, or any part of, the net earnings resulting from its operations in proportion to their purchases from or through the association.

Sec. 7. [RATE PREFERENCE PROHIBITED.] No public utility shall, as to rates or service, make or grant any unreasonable preference or advantage to any person or subject any person to any unreasonable prejudice or disadvantage.

Sec. 8. [DUTIES OF COMMISSION.] The commission is hereby vested with the powers, rights, functions, and jurisdiction to regulate in accordance with the provisions of this act every public utility as defined herein. The exercise of such powers, rights, functions, and jurisdiction is prescribed as a duty of the commission. The commission is authorized to make rules and regulations in furtherance of the purposes of this act.

Sec. 9. [STANDARDS; CLASSIFICATIONS; REGULATIONS; PRACTICES.] The commission, after hearing upon reasonable notice had upon its own motion or upon complaint, may ascertain and fix just and reasonable standards, classifications, regulations, or practices to be observed and followed by any or all public utilities with respect to the service to be furnished; ascertain and fix adequate and reasonable standards for the measurement of the quantity, quality, pressure, initial voltage, or other condition pertaining to the supply of such service; prescribe reasonable regulations for the examination and testing of such service and for the measurement thereof; establish or approve reasonable rules, regulations, specifications, and standards to secure the accuracy of all meters, instruments and equipment used for the measurement of any service of any public utility. Any standards, classifications, regulations, or practices now or hereafter observed or followed by any public utility may be filed by it with the commission, and the same shall continue in force until amended by the public utility or until changed by the commission as herein provided.

The commission may require the filing of all rates, including rates charged to and by public utilities. The commission is empowered to appear before the Federal Power Commission to offer

evidence and to seek appropriate relief in any case in which the rates charged consumers within the state of Minnesota may be affected.

Sec. 10. [ACCOUNTING SYSTEM.] Subdivision 1. The commission shall establish a system of accounts to be kept by public utilities subject to its jurisdiction. A public utility which maintains its accounts in accordance with the system of accounts prescribed by a federal agency or authority shall be deemed to be in compliance with the system of accounts prescribed by the commission. Where optional accounting is prescribed by a federal agency or authority, the commission may prescribe which option is to be followed.

Subd. 2. Every public utility engaged directly or indirectly in any other business than that of the production, transmission or furnishing of natural gas or electric service shall, if required by the commission, keep and render separately to the commission in like manner and form the accounts of all such other business, in which case all the provisions of this act shall apply to the books, accounts, papers and records of such other business.

Subd. 3. Every public utility is required to keep and render its books, accounts, papers and records accurately and faithfully in the manner and form prescribed by the commission, and to comply with all directions of the commission relating to such books, accounts, papers and records.

Subd. 4. The commission may require any public utility to file annual reports in such form and of such content, having regard for the provisions of this section, as the commission may require, and special reports concerning any matter about which the commission is authorized to inquire or to keep itself informed. The commission may require such reports to be verified. The basic financial statements in the annual report of a public utility may, at the direction of the public service commission, be examined by an independent certified public accountant and his opinion thereof included in such annual report filed with the commission.

Subd. 5. [AUDIT AND INSPECTION.] The commission may require the examination and audit of all accounts, and all items shall be allocated to the accounts in the manner prescribed by the commission.

Subd. 6. The term public utility as used in this section includes municipal utility.

Sec. 11. [DEPRECIATION RATES AND PRACTICES.] The commission shall fix proper and adequate rates and methods of depreciation, amortization, or depletion in respect of utility property, including utility property owned by a municipally owned gas or electric utility, and every public and every municipally owned gas and electric utility shall conform its depreciation, amortization or depletion accounts to the rates and methods fixed by the commission.

Sec. 12. [RIGHT OF ENTRANCE; INSPECTION.] Subdivision 1. The commissioners and the duly authorized officers and em-

ployees of the department, during business hours, may enter upon any premises occupied by any public utility for the purpose of making examinations and tests and to inspect the accounts, books, papers, and documents of any public utility for the purpose of exercising any power provided for in this act, and may set up and use on such premises any apparatus and appliance necessary therefor. Such public utility shall have the right to be represented at the making of such examinations, tests, and inspections. Such public utility, its officers and employees, shall facilitate such examinations, tests, and inspections by giving every reasonable aid to the commissioners and any person or persons designated by the department for the duties aforesaid.

Subd. 2. The term public utility as used in this section includes municipal utility.

Sec. 13. [PRODUCTION OF RECORDS.] Subdivision 1. The commission may require, by order served on any public utility in the manner provided herein for the service of orders, the production within this state at such reasonable time and place as the commission may designate, of any books, accounts, papers, or records of the public utility relating to its business or affairs within the state, pertinent to any lawful inquiry and kept by said public utility in any office or place within or without this state, or, at its option, verified or photostatic copies in lieu thereof, so that an examination thereof may be made by the commission or under its direction.

Subd. 2. The term public utility as used in this section includes municipal utility.

Sec. 14. [INVESTIGATION.] The commission upon complaint or upon its own initiative and whenever it may deem it necessary in the performance of its duties may investigate and examine the condition and operation of any public utility or any part thereof. In conducting such investigations the commission may proceed either with or without a hearing as it may deem best, but it shall make no order without affording the parties affected thereby a hearing.

Sec. 15. [HEARINGS; EXAMINER.] The commission may, in addition to the hearings specifically provided for by this act, conduct such other hearings as may reasonably be required in the administration of the powers and duties conferred upon it by this act. The commission may designate one of its members to act as an examiner for the purpose of holding any hearing which the commission has the power or authority to hold or in the event parties to the hearing so stipulate the commission may designate a qualified commission employee as such examiner. Reasonable notice of all such hearings shall be given the persons interested therein as determined by the commission.

Sec. 16. [RATE CHANGES; PROCEDURES; HEARING.] Subdivision 1. Unless the commission otherwise orders, no public utility shall change any rate which has been duly established under this act, except after 30 days notice to the commission, which notice shall include statements of facts, expert conclusions, sub-

stantiating documents, and exhibits, supporting the change requested, and further shall state the change proposed to be made in the rates then in force, and the time when the modified rates will go into effect. The commission shall give written notice of the proposed change to the governing body of each municipality and county in the area affected. All proposed changes shall be shown by filing new schedules or shall be plainly indicated upon schedules on file and in force at the time.

Subd. 2. Whenever there is filed with the commission any schedule modifying or resulting in a change in any rate or rates then in force, together with the filed statements of facts, expert conclusions, substantiating documents, and exhibits, supporting the changes requested, the commission shall upon complaint or may upon its own motion, upon reasonable notice to the governing bodies of municipalities affected, enter upon a hearing to determine whether such rates are unjust or unreasonable; and pending such hearing and the decision thereon, the commission, upon filing with such schedule of rate or rates and delivering to the utility affected thereby a statement in writing of its reasons therefor at any time before they become effective, may suspend the operation of such schedule of rate or rates.

Subd. 3. Notwithstanding any order of suspension of a proposed increase in rates, the public utility may put the suspended schedule into effect on the date when it would have become effective if not suspended, or any date subsequent thereto within such suspension period, by filing with the commission a bond in an amount approved by the commission with sureties approved by the commission, conditioned upon the refund, in a manner to be prescribed by order of the commission, of the excess in increased rates, including interest thereon which shall be at the current rate of interest as determined by the commission, collected during the period of the suspension if the schedule so put into effect is finally disallowed by the commission. There may be substituted for such bond other arrangements satisfactory to the commission for the protection of persons affected. If the public utility fails to make refunds within the period of time prescribed by the commission, the commission shall sue therefor and is authorized to recover in behalf of all persons entitled to a refund. In addition to the amount of the refund and interest due, the commission shall be entitled to recover reasonable attorney's fees, court costs and estimated cost of administering the distribution of the refund to persons entitled thereto. No suit under this subdivision shall be maintained unless instituted within two years after the end of the period of time prescribed by the commission for repayment of refunds. However, no public utility shall put a suspended rate schedule into effect as provided by this subdivision until at least 90 days after the commission has made a determination concerning any previously filed change of said rate schedule or the change has otherwise become effective under subdivision 2.

Subd. 4. The burden of proof to show that any such rate change is just and reasonable shall be upon the public utility seeking the change.

Subd. 5. If, after such hearing, the commission finds any such rate or rates to be unjust or unreasonable or discriminatory, the commission shall determine the level of rates to be charged or applied by the utility for the service in question and shall fix the same by order to be served upon the utility; and such rates are thereafter to be observed until changed, as provided by this act. In no event shall such rates exceed the level of rates requested by the public utility, except that individual rates may be adjusted upward or downward.

Subd. 6. The commission, in the exercise of its powers under this act to determine just and reasonable rates for public utilities, shall give due consideration to the public need for adequate, efficient, and reasonable service and to the need of the public utility for revenue sufficient to enable it to meet the cost of furnishing such service, including adequate provision for depreciation of its utility property used and useful in rendering service to the public, and to earn a fair and reasonable return upon the investment in such property. In determining the rate base upon which the utility is to be allowed to earn a fair rate of return, the commission shall give due consideration to evidence of the cost of the property when first devoted to public use, to prudent acquisition cost to the public utility less appropriate depreciation on each, to offsets in the nature of capital provided by sources other than the investors, and any other factors or evidence material and relevant thereto.

Subd. 7. Notwithstanding any other provision of this act, the commission may permit a public utility to file rate schedules containing provisions for the automatic adjustment of charges for public utility service in direct relation to changes in federally regulated wholesale rates for energy delivered through interstate facilities or fuel used in generation of electricity or the manufacture of gas.

Sec. 17. [COMPLAINTS.] Subdivision 1. On its own motion or upon a complaint made against any public utility by the governing body of any political subdivision, by another public utility, or by any 50 consumers of the particular utility that any of the rates, tolls, tariffs, charges, or schedules or any joint rate or any regulation, measurement, practice, act or omission affecting or relating to the production, transmission, delivery or furnishing of natural gas or electricity or any service in connection therewith is in any respect unreasonable, insufficient or unjustly discriminatory, or that any service is inadequate or cannot be obtained, the commission shall proceed, with notice, to make such investigation as it may deem necessary. The commission may dismiss any complaint without a hearing if in its opinion a hearing is not in the public interest.

Subd. 2. The commission shall, prior to any formal hearing, notify the public utility complained of that a complaint has been made, and ten days after such notice has been given the commission may proceed to set a time and place for a hearing and an investigation as hereinafter provided.

Subd. 3. The commission shall give the public utility and the complainant, ten days notice of the time and place when and where such hearing will be held and such matters to be considered and determined. Both the public utility and complainant shall be entitled to be heard and be represented by counsel.

Subd. 4. Notice shall also be given to the governing bodies of affected municipalities and counties, and to such other persons as the commission shall deem necessary.

Subd. 5. The notice provided for in subdivisions 2 and 3 may be combined but if combined the notice shall not be less than ten days.

Subd. 6. The commission shall have the power to hear, determine and adjust complaints made against any municipally owned gas or electric utility with respect to rates and services upon petition of ten percent of the non-resident consumers of such municipally owned utility or 25 such non-resident consumers whichever is less. The hearing of such complaints shall be governed by subdivisions 1 through 5 of this section.

Subd. 7. Minnesota Statutes, Section 15.0419, shall be applicable to all contested cases before the commission.

Sec. 18. [SERVICE OF NOTICE.] Service of notice of all hearings, investigations and proceedings pending before the commission and of complaints, reports, orders and other documents shall be made personally or by mail as the commission may direct.

Sec. 19. [JOINT HEARINGS AND INVESTIGATIONS.] In the discharge of its duties under this act, the commission may cooperate with similar commissions of states and any federal agency and may hold joint hearings and make joint investigations with such commissions.

Sec. 20. [SEPARATE RATE HEARINGS.] The commission may, in its discretion, when complaint is made of more than one rate or charge, order separate hearings thereon, and may consider and determine the several matters complained of separately and at such times as it may prescribe.

Sec. 21. [SUMMARY INVESTIGATIONS.] Subdivision 1. Whenever the commission shall believe that any rate or charge may be unreasonable or unjustly discriminatory or that any service is inadequate or cannot be obtained or that an investigation of any matter relating to any public utility should for any reason be made, it may on its own motion summarily investigate the same with or without notice.

Subd. 2. If, after making such summary investigation, the commission becomes satisfied that sufficient grounds exist to warrant a formal hearing being ordered as to the matters investigated, it shall set a time and place for a hearing.

Subd. 3. Notice of the time and place for such hearing shall be made as provided in section 18 of this act.

Sec. 22. [LAWFUL RATES; REASONABLE SERVICE.] Subdivision 1. Whenever upon an investigation made under the provisions of this act, the commission shall find rates, tolls, charges, schedules or joint rates to be unjust, unreasonable, insufficient or unjustly discriminatory or preferential or otherwise unreasonable or unlawful, the commission shall determine and by order fix reasonable rates, tolls, charges, schedules or joint rates to be imposed, observed and followed in the future in lieu of those found to be unreasonable or unlawful.

Subd. 2. Whenever the commission shall find any regulations, measurements, practices, acts or service to be unjust, unreasonable, insufficient, preferential, unjustly discriminatory or otherwise unreasonable or unlawful, or shall find that any service which can be reasonably demanded cannot be obtained, the commission shall determine and by order fix reasonable measurements, regulations, acts, practices or service to be furnished, imposed, observed and followed in the future in lieu of those found to be unreasonable, inadequate or otherwise unlawful, and shall make such other order respecting such measurement, regulation, act, practice or service as shall be just and reasonable.

Subd. 3. A copy of such order shall be served upon the person against whom it runs or his attorney, and notice thereof shall be given to the other parties to the proceedings or their attorneys.

Sec. 23. [CONSTRUCTION OF FACILITIES; COMMISSION APPROVAL.] Subdivision 1. The words "major utility facility" shall mean: (1) electric generating plant and associated facilities designed for, or capable of, operation at a capacity of 50 megawatts or more; (2) an electric transmission line and associated facilities of a design capacity of 125 kilovolts or more; and (3) a gas transmission line and associated facilities designed for, or capable of, transporting gas at pressures in excess of 125 pounds per square inch; provided, however, that the words "major utility facility" shall not include electric or gas distribution lines and gas gathering lines and associated facilities as defined by the commission.

Subd. 2. Under such rules and regulations as the commission may prescribe, every public utility shall file with the commission, within such time and in such form as the commission may designate, plans showing any contemplated construction of major utility facilities.

Subd. 3. The provisions of this section shall apply to the construction of major utility facilities by a municipally owned gas or electric utility.

Sec. 24. [CHANGE; AMENDMENT; RECISION OF ORDERS.] The commission may at any time, on its own motion or upon motion of an interested party, and upon notice to the public utility and after opportunity to be heard, rescind, alter or amend any order fixing rates, tolls, charges or schedules, or any other order made by the commission, and may reopen any case following the issuance of an order therein, for the taking of further evidence or for any other reason. Any order rescinding, altering,

amending or reopening a prior order shall have the same effect as an original order.

Sec. 25. [ORDERS; EFFECTIVE DATE.] Every decision made by the commission constituting an order or determination shall be in force and effective 20 days after the same has been filed and has been served by personal delivery or by mailing a copy thereof to all parties to the proceeding in which such decision was made or to their attorneys, unless the commission shall specify a different date upon which the same shall be effective.

Sec. 26. [REHEARINGS BEFORE COMMISSION; CONDITION PRECEDENT TO JUDICIAL REVIEW.] Subdivision 1. Within 20 days after the service by the commission of any decision constituting an order or determination, any party to the proceeding and any other person, aggrieved by such decision and directly affected thereby, may apply to the commission for a rehearing in respect to any matters determined in said decision. The commission may grant and hold such rehearing on said matters, or upon such of them as it may specify in the order granting such rehearing, if in its judgment sufficient reason therefor exists.

Subd. 2. The application for a rehearing shall set forth specifically the ground or grounds on which the applicant contends said decision to be unlawful or unreasonable. No cause of action arising out of any decision constituting an order or determination of the commission or any proceeding for the judicial review thereof shall accrue in any court to any person or corporation unless the plaintiff or petitioner in such action or proceeding within 20 days after the service of said decision, shall have made application to the commission for a rehearing in the proceeding in which such decision was made. No person or corporation shall in any court urge or rely on any ground not so set forth in said application for rehearing.

Subd. 3. Applications for rehearing shall be governed by such general rules as the commission may establish. In case a rehearing is granted the proceedings thereupon shall conform as nearly as may be to the proceedings in an original hearing, except as the commission may otherwise direct. If in the commission's judgment, after such rehearing, it shall appear that the original decision, order or determination is in any respect unlawful or unreasonable, the commission may reverse, change, modify or suspend the same accordingly. Any decision, order or determination made after such rehearing reversing, changing, modifying or suspending the original determination shall have the same force and effect as an original decision, order or determination. Only one rehearing shall be granted by the commission; but this shall not be construed to prevent any party from filing a new application or complaint. No order of the commission shall become effective while an application for a rehearing or a rehearing shall be pending and until ten days after such application for a rehearing is either denied, expressly or by implication, or the commission has announced its final determination on rehearing.

Subd. 4. Any application for a rehearing not granted within 20 days from the date of filing thereof, may be taken to be denied.

Subd. 5. It is hereby declared that the legislative powers of the state, insofar as they are involved in the issuance of orders and decisions by the commission, have not been completely exercised until the commission has acted upon an application for rehearing, as provided for by this section and by the rules of the commission, or until such application for rehearing has been denied by implication, as above provided for.

Sec. 27. [SUBPOENA; WITNESSES; FEES; AND MILEAGE.] The commission and each commissioner, or the secretary of the commission may issue subpoenas and all necessary processes in proceedings pending before it; and each process shall extend to all parts of the state and may be served by any person authorized to serve processes of courts of record. Each witness who shall appear before the commission, or at a hearing before one of the individuals designated by it as provided in section 15 of this act, or whose deposition is taken, shall receive for his attendance the fees and mileage now provided for witnesses in civil cases in courts of record.

Sec. 28. [OATHS; CONTEMPT; EXAMINER'S POWERS.] The commission and each of the commissioners or authorized examiner, for the purpose mentioned in this act, may administer oaths and examine witnesses. In case of failure on the part of any person to comply with any subpoena, or in the case of the refusal of any witness to testify concerning any matter on which he may be interrogated lawfully, any court of record of general jurisdiction or a judge thereof, on application of the commission, may compel obedience by proceedings for contempt as in the case of disobedience of the requirements of a subpoena issued from such court or a refusal to testify therein.

Sec. 29. [DEPOSITIONS.] The commission or any party to the proceedings may, in any investigation or hearing before the commission, cause the deposition of witnesses residing within or without the state to be taken in the manner prescribed by law for taking depositions in civil actions in the district court.

Sec. 30. [TESTIMONY AND PRODUCTION OF RECORDS; PERJURY.] No person shall be excused from testifying or from producing any book, document, paper, or account in any investigation, or inquiry by, or hearing before, the commission or any commissioner, or person designated by it to conduct hearings, when ordered to do so, upon the ground that the testimony or evidence, book, document, paper, or account required of him may tend to incriminate him or subject him to penalty or forfeiture; but no person shall be prosecuted, punished, or subjected to any forfeiture or penalty for or on account of any act, transaction, matter, or thing concerning which he shall have been compelled under oath to testify or produce documentary evidence; provided, that no person so testifying shall be exempt from prosecution or punishment for any perjury committed by him in his testimony.

Sec. 31. [COPIES OF DOCUMENTS AS EVIDENCE.] Copies of official documents and orders filed or deposited according to law in the office of the commission, certified by a commissioner or

by the secretary under the official seal of the commission to be true copies of the original shall be evidence in like manner as the originals, in all matters before the commission and in the courts of this state.

Sec. 32. [ORDERS AND FINDINGS IN WRITING.] Every order, finding, authorization, or certificate issued or approved by the commission under any provisions of this act shall be in writing and filed in the office of the secretary of the commission. A certificate under the seal of the commission that any such order, finding, authorization, or certificate has not been modified, stayed, suspended, or revoked, shall be received as evidence in any proceedings as to the facts therein stated.

Sec. 33. [PUBLIC RECORDS.] All decisions, transcripts, and orders of the commission shall be public records.

Sec. 34. [TRANSCRIBED RECORD TO BE KEPT.] A full and complete record shall be kept of all proceedings at any formal hearing had before the commission or any commissioner or hearing examiner and all testimony shall be taken down by a reporter appointed by the commission. A copy of such transcript shall be furnished on demand to any party to the proceedings upon payment of reasonable costs of reproduction.

Sec. 35. [FRANCHISES CONTINUED.] Any public utility furnishing the utility services enumerated in this act or occupying streets, highways, or other public property within a municipality may be required to obtain a license, permit, right or franchise in accordance with the terms, conditions, and limitations of regulatory acts of the municipality, including the placing of distribution lines and facilities underground, and under such license, permit, right, or franchise, the utility may be obligated by any municipality, home rule or statutory, to pay to the municipality fees to raise revenue or defray increased municipal costs accruing as a result of utility operations, or both, including but not limited to a sum of money based upon gross operating revenues or gross earnings from its operations in such municipality so long as such public utility shall continue to operate in such municipality, unless upon request of the public utility it is expressly released from such obligation at any time by such municipality. All existing licenses, permits, franchises and other rights acquired by any public utility or municipality prior to the passage of this act including the payment of existing franchise fees, shall not be impaired or affected in any respect by the passage of this act, except with respect to matters of rate and service regulation and service area assignments that have been vested to the jurisdiction of the commission by this act. However, in the event that a court of competent jurisdiction determines, or the parties by mutual agreement determine, that an existing license, permit, franchise or other right has been abrogated or impaired by this act, or its execution, the municipality affected shall impose and the public utility shall collect an excise tax on the utility charges which from year to year yields an amount which is reasonably equivalent to that amount of revenue which then would be due as a fee,

charges or other thing or service of value to the municipality under the franchise, license or permit. Such authorization shall be over and above taxing limitations including, but not limited to those of section 477A.01, subdivision 18. Franchises granted pursuant to this section shall be exempt from the provisions of Laws 1973, Chapter 612.

Sec. 36. [ASSIGNED SERVICE AREAS; ELECTRIC UTILITIES.] Subdivision 1. [LEGISLATIVE POLICY.] It is hereby declared to be in the public interest that, in order to encourage the development of coordinated statewide electric service at retail, to eliminate or avoid unnecessary duplication of electric utility facilities, and to promote economical, efficient, and adequate electric service to the public, the state of Minnesota shall be divided into geographic service areas within which a specified electric utility will provide electric service to customers on an exclusive basis.

Sec. 37. [DEFINITIONS.] For the purpose of sections 36 through 43 only, the following definitions shall apply:

Subdivision 1. "Person" means a natural person, a partnership, private corporation, a public corporation, a municipality, an association, a cooperative whether incorporated or not, a joint stock association, a business trust, any political subdivision or agency, or two or more persons having joint or common interest.

Subd. 2. "Customer" means a person contracting for or purchasing electric service at retail from an electric utility.

Subd. 3. "Electric service" means electric service furnished to a customer at retail for ultimate consumption, but does not include wholesale electric energy furnished by an electric utility to another electric utility for resale.

Subd. 4. "Electric line" means lines for conducting electric energy at a design voltage of 25,000 volts phase to phase or less used for distributing electric energy directly to customers at retail.

Subd. 5. "Electric utility" means persons, their lessees, trustees, and receivers, separately or jointly, now or hereafter operating, maintaining or controlling in Minnesota equipment or facilities for providing electric service at retail and which fall within the definition of "public utility" in section 2, subdivision 4, and includes such facilities owned by a municipality.

Subd. 6. "Assigned service area" means the geographical area in which the boundaries are established as provided in section 38 hereof.

Subd. 7. "Municipality" shall mean and include any city, however organized, and any village or borough.

Sec. 38. [ASSIGNED SERVICE AREAS.] Subdivision 1. On or before six months from the effective date of this act, or, when requested in writing by an electric utility and for good cause shown, such further time as the commission may fix by order, each electric utility shall file with the commission a map or maps

showing all its electric lines outside of incorporated municipalities as they existed on the effective date of this section. Each electric utility shall also submit in writing a list of all municipalities in which it provides electric service on the effective date of this act. Where two or more electric utilities serve a single municipality, the commission may require each such utility to file with the commission a map showing its electric lines within such municipality.

Subd. 2. On or before 12 months from the effective date of this section, the commission shall after notice and hearing establish the assigned service area or areas of each electric utility and shall prepare or cause to be prepared a map or maps to accurately and clearly show the boundaries of the assigned service area of each electric utility.

Subd. 3. To the extent that it is not inconsistent with the legislative policy stated in subdivision 1 of section 36, the boundaries of each assigned service area, outside of incorporated municipalities, shall be a line equidistant between the electric lines of adjacent electric utilities as they exist on the effective date of this section; provided that these boundaries may be modified by the commission to take account of natural and other physical barriers including, but not limited to, highways, waterways, railways, major bluffs, and ravines and shall be modified to take account of the contracts provided for in subdivision 4; and provided further that at any time after the effective date of the section, the commission may on its own or at the request of an electric utility make changes in the boundaries of the assigned service areas, but only after notice and hearing as provided for in section 17.

Subd. 4. Contracts between electric utilities, which are executed on or before 12 months from the effective date of this section, designating service areas and customers to be served by such electric utilities when approved by the commission shall be valid and enforceable and shall be incorporated into the appropriate assigned service areas. The commission shall approve such a contract if it finds that the contract will eliminate or avoid unnecessary duplication of facilities, will provide adequate electric service to all areas and customers affected and will promote the efficient and economical use and development of the electric systems of the contracting electric utilities.

Subd. 5. Where a single electric utility provides electric service within a municipality on the effective date of this section, that entire municipality shall constitute a part of the assigned service area of the electric utility in question, where two or more electric utilities provide electric service in a municipality on the effective date of this section, the boundaries of the assigned service areas shall conform to those contained in municipal franchises with such electric utilities on the effective date of this section. In the absence of such franchises, the boundaries of the assigned service areas within an incorporated municipality shall be a line equidistant between the electric lines of the electric utilities as they

exist on the effective date of this section; provided that these boundaries may be modified by the commission to take account of natural and other physical barriers including, but not limited to, major streets or highways, waterways, railways, major bluffs and ravines and shall be modified to take account of the contracts provided for in subdivision 4.

Subd. 6. In those areas where, on the effective date of this section, the existing electric lines of two or more electric utilities are so intertwined that subdivisions 2 through 5 cannot reasonably be applied, the commission shall determine the boundaries of the assigned service areas for the electric utilities involved as will promote the legislative policy in section 36, subdivision 1.

Sec. 39. [EXCLUSIVE SERVICE RIGHTS.] Each electric utility shall have the exclusive right to provide electric service at retail to each and every present and future customer in its assigned service area and no electric utility shall render or extend electric service at retail within the assigned service area of another electric utility unless said electric utility consents thereto in writing except as provided in section 41; provided that any electric utility may extend its facilities through the assigned service area of another electric utility if such an extension is necessary to facilitate such electric utility connecting its facilities or customers within its own assigned service area.

Sec. 40. [EFFECT OF INCORPORATION, ANNEXATION, OR CONSOLIDATION.] After the effective date of this section, the inclusion by incorporation, consolidation, or annexation of any part of the assigned service area of an electric utility within the boundaries of any municipality shall not in any respect impair or affect the rights of such electric utility to continue and extend electric service at retail throughout such parts of its assigned service area unless a municipality which owns and operates an electric utility elects to purchase the facilities and property of such electric utility as provided in section 43 of this act.

Sec. 41. [SERVICE EXTENSIONS IN CERTAIN SITUATIONS.] Subdivision 1. Notwithstanding the establishment of assigned service areas for electric utilities provided for in section 38, customers located outside municipalities and who require electric service with a connected load of 2,000 kilowatts or more shall not be obligated to take electric service from the electric utility having the assigned service area where such customer is located if, after notice and hearing, the commission so determines after consideration of following factors:

- (a) the electric service requirements of the load to be served;
- (b) the availability of an adequate power supply;
- (c) the development or improvement of the electric system of the utility seeking to provide the electric service, including the economic factors relating thereto;
- (d) the proximity of adequate facilities from which electric service of the type required may be delivered;

(e) the preference of the customer;

(f) any and all pertinent factors affecting the ability of the utility to furnish adequate electric service to fulfill customers' requirements.

Subd. 2. Notwithstanding the provisions in section 38, any electric utility may extend electric lines for electric service to its own utility property and facilities.

Sec. 42. [HEARINGS; COMPLAINTS.] Upon the filing of an application under section 41 or upon complaint by an affected utility that the provisions of sections 38 through 41 have been violated, the commission shall hold a hearing, upon notice, within 15 days after the filing of such application of complaint, and shall render its decision within 30 days after said hearing.

Sec. 43. [SERVICE EXTENSIONS IN ANNEXED AREAS; MUNICIPAL PURCHASE.] Notwithstanding the provisions of sections 40 through 42 sections 37 and 38 of this act, whenever a municipality which owns and operates an electric utility extends its corporate boundaries through annexation or consolidation, such municipality shall thereafter furnish electric service to the annexed area unless the area is already receiving electric service from an electric utility, in which event, the annexing municipality may purchase the facilities of the electric utility serving the annexed area. The municipality acquiring the facilities shall pay to the utility formerly serving the annexed area the appropriate value of its properties within such area which payment may be by exchange of other electric utility property outside the municipality on an appropriate basis giving due consideration to revenue from and value of the respective properties. In the event the municipality and the electric utility involved are unable to agree as to the terms of the payment or exchange, the municipality or the electric utility may file an application with the commission requesting that the commission determine the appropriate terms for the exchange or sale. After notice and hearing, the commission shall determine appropriate terms for an exchange, or in the event no appropriate properties can be exchanged, the commission shall fix and determine the appropriate value of the property within the annexed area, and the transfer shall be made as directed by the commission. In making that determination the commission shall consider the original cost of the property, less depreciation, loss of revenue to the utility formerly serving the area, expenses resulting from integration of facilities, and other appropriate factors. Until the determination by the commission, the facilities shall remain in place and service to the public shall be maintained by the owner. However, the electric utility being displaced, serving the annexed area, shall not extend service to any additional points of delivery within the annexed area if the commission, after notice and hearing, with due consideration of any unnecessary duplication of facilities, shall determine that the extension is not in the public interest.

When property of a public utility located within an area annexed to a municipality which owns and operates a public utility is

proposed to be acquired by such municipality, ratification by the electors is not required.

Sec. 44. [MUNICIPAL PURCHASE OF PUBLIC UTILITY.] Any public utility operating in a municipality under a license, permit, right or franchise shall be deemed to have consented to the purchase by the municipality, for just compensation, of its property operated in such municipality under such license, permit, right or franchise. The municipality, subject to the provisions of this act, may purchase such property upon notice to the public utility as herein provided. Whenever the commission is notified by the municipality or the public utility affected that the municipality has, pursuant to law, determined to purchase the property of the public utility, and that the parties to the purchase and sale have been unable to agree on the amount to be paid and received therefor, the commission shall set a time and place for a public hearing, after not less than 30 days notice to the parties, upon the matter of just compensation or the matter of the property to be purchased. Within a reasonable time the commission shall, by order, determine the just compensation for the property to be purchased by the municipality. In determining just compensation, the commission shall consider the original cost of the property less depreciation, loss of revenue to the utility, expenses resulting from integration of facilities and other appropriate factors. The order of the commission may be reviewed as hereinafter provided in this act. Commission expenses arising out of the exercise of its jurisdiction under this section shall be assessed to the municipality.

Sec. 45. [MUNICIPAL PROCEDURE; NOTICE; ELECTION.] Any municipality which desires to acquire the property of a public utility as authorized under the provisions of section 37 of this act may determine to do so by resolution of the governing body of such municipality taken after a public hearing of which at least 30 days published notice shall be given as determined by the governing body. Such determination shall become effective when ratified by a majority of the qualified electors voting on the question at a special election to be held for that purpose, not less than 60 nor more than 120 days after the resolution of the governing body of such municipality.

Sec. 46. [ACQUISITION BY EMINENT DOMAIN.] Nothing in this act shall be construed to preclude a municipality from acquiring the property of a public utility by eminent domain proceedings; provided that damages to be paid in eminent domain proceedings shall include the original cost of the property less depreciation, loss of revenue to the utility, expenses resulting from integration of facilities, and other appropriate factors.

Sec. 47. [RELATIONS WITH AFFILIATED INTERESTS.] Subdivision 1. "Affiliated interests" with a public utility means and includes the following:

(a) Every corporation and person owning or holding directly or indirectly five percent or more of the voting securities of such public utility.

(b) Every corporation and person in any chain of successive ownership of five percent or more of voting securities.

(c) Every corporation five percent or more of whose voting securities is owned by any person or corporation owning five percent or more of the voting securities of such public utility or by any person or corporation in any such chain of successive ownership of five percent or more of voting securities.

(d) Every person who is an officer or director of such public utility or of any corporation in any chain of successive ownership of five percent or more of voting securities.

(e) Every corporation operating a public utility or a servicing organization for furnishing supervisory, construction, engineering, accounting, legal and similar services to utilities, which has one or more officers or one or more directors in common with such public utility, and every other corporation which has directors in common with such public utility where the number of such directors is more than one-third of the total number of the utility's directors.

(f) Every corporation or person which the commission may determine as a matter of fact after investigation and hearing is actually exercising any substantial influence over the policies and actions of such public utility even though such influence is not based upon stockholding, stockholders, directors or officers to the extent specified in this section.

(g) Every person or corporation who or which the commission may determine as a matter of fact after investigation and hearing is actually exercising such substantial influence over the policies and actions of such public utility in conjunction with one or more other corporations or persons with which or whom they are related by ownership or blood relationship or by action in concert that together they are affiliated with such public utility within the meaning of this section even though no one of them alone is so affiliated.

Subd. 2. Provided, however, that in subdivision 1 of this section the term "person" shall not be construed to exclude trustees, lessees, holders of beneficial equitable interest, voluntary associations, receivers and partnerships.

Subd. 3. No contract or arrangement providing for the furnishing of management, supervisory, construction, engineering, accounting, legal, financial or similar services, and no contract or arrangement for the purchase, sale, lease or exchange of any property, right, or thing, or for the furnishing of any service, property, right, or thing, other than those above enumerated, made or entered into after the effective date of this act between a public utility and any affiliated interest as defined in this act, shall be valid or effective unless and until such contract or arrangement has received the written approval of the commission. It shall be the duty of every public utility to file with the commission a verified copy of any such contract or arrangement, or a verified summary of any such unwritten contract or arrangement, and also of all such contracts and arrangements, whether written or unwritten,

entered into prior to said date and in force and effect at that time. The commission shall approve such contract or arrangement made or entered into after said date only if it shall clearly appear and be established upon investigation that it is reasonable and consistent with the public interest. No such contract or arrangement shall receive the commission's approval unless satisfactory proof is submitted to the commission of the cost to the affiliated interest of rendering the services or of furnishing the property or service described herein to each public utility. No proof shall be satisfactory within the meaning of the foregoing sentence unless it includes the original (or verified copies) of the relevant cost records and other relevant accounts of the affiliated interest, or such abstract thereof or summary taken therefrom as the commission may deem adequate, properly identified and duly authenticated, provided, however, that the commission may, where reasonable, approve or disapprove such contracts or arrangements without the submission of such cost records or accounts. The burden of proof to establish the reasonableness of any such contract or arrangement shall be on the public utility.

Subd. 4. The provisions of this section requiring the written approval of the commission shall not apply to transactions with affiliated interests where the amount of consideration involved is not in excess of \$10,000 or five percent of the capital equity of the utility whichever is smaller; provided, however, that regularly recurring payments under a general or continuing arrangement which aggregate a greater annual amount shall not be broken down into a series of transactions to come within the aforesaid exemption. Such transactions shall be valid or effective without commission approval under this section. However, in any proceeding involving the rates or practices of the public utility, the commission may exclude from the accounts of such public utility any payment or compensation made pursuant to such transaction unless the public utility shall establish the reasonableness of such payment or compensation.

Subd. 5. In any proceeding, whether upon the commission's own motion or upon application or complaint, involving the rates or practices of any public utility, the commission may exclude from the accounts of such public utility any payment or compensation to an affiliated interest for any services rendered or property or service furnished, as above described, under existing contracts or arrangements with such affiliated interest unless such public utility shall establish the reasonableness of such payment or compensation.

Subd. 6. The commission shall have continuing supervisory control over the terms and conditions of such contracts and arrangements as are herein described so far as necessary to protect and promote the public interest. The commission shall have the same jurisdiction over the modifications or amendment of contracts or arrangements as are herein described as it has over such original contracts or arrangements. The fact that the commission shall have approved entry into such contracts or arrangements as described herein shall not preclude disallowance or disapproval of payments made pursuant thereto, if upon actual experience under such con-

tract or arrangement it appears that the payments provided for or made were or are unreasonable.

Subd. 7. The provisions of this section shall not apply to cooperative electric associations.

Franchises granted pursuant to this section shall be exempt from the provisions of Laws 1973, Chapter 612.

Sec. 48. [SECURITIES.] Subdivision 1. For the purpose of this section, "security" means any note; stock; treasury stock; bond; debenture; evidence of indebtedness; assumption of any obligation or liability as a guarantor, endorser, surety, or otherwise in the security of another person; certificate of interest or participation in any profit sharing agreement; collateral trust certificate; preorganization certificate or subscription; transferable shares; investment contract; voting trust certificate; certificate of deposit for a security; certificate of interest or participation in an oil, gas or mining right; title or lease or in payments out of production under such a right, title or lease; or, in general, any interest or instrument commonly known as a security, or any certificate for, receipt for guarantee of, or warrant or right to subscribe to or purchase, any of the foregoing.

Subd. 2. For the purpose of this section, "capital structure" is the total capitalization of the public utility including, but not limited to, all outstanding common stock, preferred stock, and the permanent financing of said public utility represented by long term debt, and shall further include retained earnings and paid in surplus in excess of par values.

Subd. 3. It shall be unlawful for any public utility organized under the laws of this state to offer or sell any security or, if organized under the laws of any other state or foreign country, to subject property in this state to an encumbrance for the purpose of securing the payment of any indebtedness unless the capital structure of said public utility shall first be approved by the commission. Approval by the commission shall be by formal written order.

Subd. 4. Upon the application of a public utility for approval of its capital structure prior to the issuance of any security or the encumbrance of any property for the purpose of securing the payment of any indebtedness, the commission may make such inquiry or investigation, hold such hearings, and examine such witnesses, books, papers, documents, or contracts, as in its discretion it may deem necessary. Prior to approval the commission shall ascertain that the amount of securities of each class which any public utility may issue shall bear a reasonable proportion to each other and to the value of the property, due consideration being given to the nature of the business of the public utility, its credit and prospects, the possibility that the value of the property may change from time to time, the effect which such issue shall have upon the management and operation of the public utility, and other considerations which the commission as a matter of fact shall find to be relevant. If the commission shall find that the proposed capital structure is reasonable and proper and in the

public interest and will not be detrimental to the interests of the consumers and patrons affected thereby, the commission shall by written order grant its permission for the proposed public financing.

Subd. 5. The requirements of this section are in addition to any other requirements of law and, specifically, the requirements of Chapter 451 of the Laws of Minnesota, 1973, and the rules and regulations promulgated pursuant thereto.

Subd. 6. The provisions of this section shall not apply to cooperative electric associations.

Sec. 49. [ACQUIRING PROPERTY; MERGER.] Subdivision 1. No public utility shall sell, acquire, lease, or rent any plant as an operating unit or system in this state for a total consideration in excess of \$100,000, or merge or consolidate with another public utility operating in this state, without first being authorized so to do by the commission. Upon the filing of an application for the approval and consent of the commission thereto the commission shall investigate the same, with or without public hearing, and in case of a public hearing upon such notice as the commission may require, and if it shall find that the proposed action is consistent with the public interest it shall give its consent and approval by order in writing. In reaching its determination the commission shall take into consideration the reasonable value of the property, plant, or securities to be acquired or disposed of, or merged and consolidated. The provisions of this section shall not be construed as applicable to the purchase of units of property for replacement or to the addition to the plant of the public utility by construction.

Subd. 2. The provisions of this section shall not apply to cooperative electric associations.

Subd. 3. Mergers and consolidations as enumerated in subdivision 1 hereof shall be exempt from the provisions of Laws 1973, Chapter 331.

Sec. 50. [STOCK PURCHASE.] Subdivision 1. No public utility shall purchase voting stock in another public utility doing business in Minnesota without first having made application to and received the consent of the commission in writing or by order.

Subd. 2. The provisions of this section shall not apply to cooperative electric associations.

Subd. 3. Mergers and consolidations as enumerated in subdivision 1 hereof shall be exempt from the provisions of Laws 1973, Chapter 331.

Sec. 51. [APPEALS.] Subdivision 1. Any party to a proceeding before the commission or any other person, aggrieved by such decision and order and directly affected thereby, shall be entitled to appeal from such decision and order of the commission. Such proceedings shall be instituted by serving a notice of appeal personally or by registered mail upon the commission or one of its members or upon its secretary, and by filing such notice in the

office of the clerk of the district court of the county of Ramsey or of the county in which the appellant resides or maintains his principal place of business, all within 30 days after the service of the order and decision of the commission or in cases where a rehearing is requested within 30 days after service of the order finally disposing of the application for such rehearing, or within 30 days after the final disposition by operation of law of any such application for rehearing. The notice shall state the nature of the appellant's interest, the facts showing that the appellant is aggrieved and directly affected by the decision, and the grounds upon which the appellant contends that the decision should be reversed or modified. Copies of the notice shall be served, personally or by registered mail, not later than 30 days after the institution of the appeal, upon all parties who appeared before the commission in the proceeding in which the order sought to be reviewed was made. The commission and all parties to the proceeding before it, shall have the right to participate in the appeal. The court, in its discretion, may permit other interested parties to intervene.

Subd. 2. Every person served with a notice of appeal as provided in this section and who desires to participate in the appeal thereby instituted shall serve upon the appellant, within 20 days after the service of the notice upon such person, a notice of appearance stating his position with reference to the affirmation, vacation, or modification of the order or decision under appeal. Such notice, other than by the named respondent, shall also be served on the named respondent and the attorney general, and shall be filed, together with proof of required service thereof, with the clerk of the reviewing court within ten days after such service. Service of all subsequent papers or notices in such appeal need be made only upon the appellant and such other persons as have served and filed the notice as herein provided or have been permitted to intervene in said proceeding, as parties thereto, by order of the court.

Subd. 3. Within 30 days after service of the notice of appeal upon the commission, or within such further time as the court may allow, the commission shall transmit to the court the original or a certified copy of the entire record of the proceedings in which the decision under appeal was made, including all pleadings, notices, testimony, exhibits, findings, decisions, orders, and exceptions, therein; but by stipulation of all parties to the appeal the record may be shortened by eliminating any portion thereof. The cost of preparing the transcript of the testimony, objections, rulings thereon, and exceptions, shall be paid by the appellant to the official reporter of the commission. Any party, other than the commission, refusing to stipulate to limit the record may be taxed by the court for the additional costs.

Subd. 4. The appeal shall be conducted by the court without a jury and shall be confined to the record, arguments and brief, except that in cases of alleged irregularities in procedure before the commission testimony thereon may be taken in the court. The court may affirm the decision of the commission or may reverse or modify it.

Subd. 5. Any party, including the commission, may secure a review of the final judgment of the district court by appeal to the

supreme court. Such appeal shall be taken in the manner provided by law for appeals from the district court in other civil cases, except that the time for appeal shall be limited to 30 days from the notice of entry of the judgment.

Sec. 52. [SUSPENSION OF COMMISSION ORDERS.] The pendency of proceedings on appeal shall not of itself stay or suspend the operation of the order of the commission, but during the pendency of such proceedings the court in its discretion may stay or suspend, in whole or in part, the operation of the commission's order on such terms as it deems just, and in accordance with the practice of courts exercising equity jurisdiction, but no such stay shall be granted without notice to the parties and opportunity to be heard by the court. Any party shall have the right to secure from the court in which an appeal of an order of the commission is sought an order suspending or staying the operation of an order of the commission, pending an appeal of such order, but no commission order relating to rates or rules and regulations shall be stayed or suspended absent a finding that great or irreparable damage would otherwise result to the party seeking the stay or suspension, and any order staying or suspending a commission order shall specify the nature of the damage.

In case the order of the commission is stayed or suspended, the court shall require a bond with good and sufficient surety, conditioned that the public utility petitioning for review shall answer for all damages caused by the delay in enforcing the order of the commission, and for all compensation for whatever sums for transmission or service any person shall be compelled to pay pending review proceedings in excess of the sum such person or corporation would have been compelled to pay had the commission's order not been stayed or suspended. The court may, in addition or in lieu of the bond, require such other further security for the payment of such excess damages or charges as it may deem proper.

Sec. 53. [ACTIONS BY COMMISSION; ATTORNEY GENERAL TO INSTITUTE.] Whenever the commission shall be of the opinion that any person or public utility is failing or omitting or is about to fail or omit to do anything required of it by this act or by any order of the commission, or is doing anything or about to do anything, or permitting anything or about to permit anything to be done, contrary to or in violation of this act or of any order of the commissioner, it may direct the attorney general to commence an action or proceeding in the district court of Ramsey County, in the name of the state of Minnesota, for the purpose of having such violations stopped and prevented by injunction. The attorney general shall thereupon begin such action or proceeding by petition to such court alleging the violation or threatened violation complained of, and praying for appropriate relief by way of injunction. It shall thereupon be the duty of the court to specify a time, not exceeding 20 days after the service of the copy of the petition, within which the public utility or person complained of must plead, and in the meantime said public utility or person may for good cause shown be restrained. In case of default, the court shall immediately inquire into the

facts and circumstances of the case. Such corporations or persons as the court may deem necessary or proper to be joined as parties, in order to make its judgment, order, or writ effective, may be joined as parties. The final judgment in any such action or proceeding shall either dismiss the action or proceeding or direct that an injunction issue or be made permanent as prayed for in the petition, or in such modified or other form as will afford appropriate relief. An appeal upon the record may be taken as in other civil actions.

Sec. 54. [PRIORITY OF ACTION.] All actions and proceedings under this act, and all actions or proceedings to which the commission or the state of Minnesota may be parties, and in which any question arises under this act, or under or concerning any order or decision of the commission, shall be preferred over all other civil causes, except election causes, irrespective of position on the calendar.

Sec. 55. [BURDEN OF PROOF.] In all proceedings before the commission in which the modification or vacation of any order of the commission is sought, the burden of proof shall be on the person seeking such modification or vacation.

Sec. 56. [PENALTIES.] Any person who knowingly and intentionally violates any provision of this act, or who knowingly and intentionally fails, omits, or neglects to obey, observe, or comply with any lawful order, or any part or provision thereof, of the commission is subject to a penalty of not less than \$100 nor more than \$1,000 for each violation.

Sec. 57. [ACTS; OMISSIONS; FAILURE; CONSTRUCTION THEREOF.] In construing and enforcing the provision of this act relating to penalties, the act, omission, or failure of any officer, agent or employee of any person acting within the scope of his official duties of employment shall in every case be deemed to be also the act, omission, or failure of such person.

Sec. 58. [CONTINUING VIOLATIONS.] Every violation of the provisions of this act or of any lawful order of the commission, or any part or portion thereof by any person, is a separate and distinct offense, and in case of a continuing violation after a first conviction thereof each day's continuance thereof shall be deemed to be a separate and distinct offense.

Sec. 59. [PENALTIES CUMULATIVE.] All penalties accruing under this act shall be cumulative, and a suit for the recovery of one penalty shall not be a bar to or affect the recovery of any other penalty or forfeiture or be a bar to any criminal prosecution against any public utility or any officer, director, agent, or employee thereof or any person.

Sec. 60. [ACTIONS TO RECOVER PENALTIES.] Actions to recover penalties under this act shall be brought in the name of the state of Minnesota in the district court of Ramsey County.

Sec. 61. [COST OF EXAMINATION; ASSESSMENT OF EXPENSES; LIMITATIONS; OBJECTIONS.] Subdivision 1. Immediately after the passage and adoption of this act, the commis-

sion shall assess to all public utilities subject to the provisions of this act in proportion to their respective gross operating revenues, as hereinafter defined, during the preceding calendar year, the sum of \$300,000. Such assessment shall be paid into the state treasury within 30 days after the bill has been mailed, by registered mail, to the several public utilities, which shall constitute notice of said assessment and demand of payment thereof.

Subd. 2. Whenever the commission, in a proceeding upon its own motion, on complaint, or upon an application to it, shall deem it necessary, in order to carry out the duties imposed by this act, to investigate the books, accounts, practices, and activities of, or make appraisals of the property of any public utility, or to render any engineering or accounting services to any public utility, such public utility shall pay the expenses reasonably attributable to such investigation, appraisal, or service. The commission shall ascertain such expenses, and the department shall render a bill therefor to the public utility, either at the conclusion of the investigation, appraisal, or services, or from time to time during its progress, which bill shall constitute notice of said assessment and demand of payment thereof. The amount of such bills so rendered by the department shall be paid by the public utility into the state treasury within 30 days from the date of rendition. The total amount, in any one calendar year, for which any public utility shall become liable, by reason of costs incurred by the commission within such calendar year, shall not exceed two-fifths of one percent of the gross operating revenue from retail sales of gas, or electric service by such public utility within the state in the last preceding calendar year. Where, pursuant to this subdivision, costs are incurred within any calendar year which are in excess of two-fifths of one percent of such gross operating revenues, the excess costs shall not be chargeable as part of the remainder under subdivision 3 of this section, but shall be paid out of the general appropriation to the department. In the case of public utilities offering more than one public utility service only the gross operating revenues from the public utility service in connection with which the investigation is being conducted shall be considered when determining the limitation set herein.

Subd. 3. The department shall annually, within 90 days after the close of each fiscal year, ascertain the total of its expenditures to the performance of its duties relating to public utilities under this act, and shall deduct therefrom all amounts chargeable to public utilities under subdivision 2 of this section. The remainder shall be assessed by the commission to the several public utilities in proportion to their respective gross operating revenues from retail sales of gas or electric service within the state during the last calendar year. Such assessment shall be paid into the state treasury within 30 days after the bill has been mailed to the several public utilities, which shall constitute notice of said assessment and demand of payment thereof. The total amount which may be assessed to the public utilities, under authority of this subdivision, shall not exceed one-eighth of one percent of the total gross operating revenues of such public utilities during such calendar year from retail sales of gas or electric service within the state.

Subd. 4. Within 30 days after the date of the mailing of any bill as provided by subdivisions 2 and 3, the public utility against which said bill has been rendered may file with the commission objections setting out the grounds upon which it is claimed the bill is excessive, erroneous, unlawful or invalid. The commission shall within 60 days hold a hearing and issue an order in accordance with its findings. Such order shall be appealable in the same manner as other final orders of the commission.

Subd. 5. A public utilities account is hereby created in the state treasury. All moneys deposited in the state treasury pursuant to the provisions of this act shall be credited to such account. All moneys in such account are hereby appropriated annually to carry out the provisions of this act. None of the moneys in such account shall cancel but at all times shall be available for purposes herein expressed.

Sec. 62. [INTEREST ON ASSESSMENTS.] The amounts assessed against any public utility not paid after 30 days after the mailing of a notice advising the public utility of the amount assessed against it, shall draw interest at the rate of six percent per annum, and upon failure to pay the same the attorney general shall proceed by action in the name of the state against such public utility to collect the amount due, together with interest and the cost of the suit.

Sec. 63. [ATTORNEY GENERAL TO REPRESENT COMMISSION.] The attorney general of the state shall, upon request of the commission, represent and appear for the commission in all actions and proceedings involving any question under this act, and shall aid in any investigation or hearing had under the provisions hereof. The attorney general shall perform such duties and services in connection with this act and the enforcement thereof as the commission may require. He shall also bring all actions to collect penalties herein provided. Nothing in this section shall prohibit the commission from employing counsel other than the attorney general to represent the public interest in any proceeding.

Sec. 64. Minnesota Statutes 1971, Section 216A.03, Subdivision 1, is amended to read:

216A.03 [COMMISSION.] Subdivision 1. [MEMBERS.] As of ~~May 26, 1967~~ *January 1, 1975* the public service commission shall consist of ~~the three members elected to the Minnesota railroad and warehouse commission; and each shall serve out the term for which he was elected as railroad and warehouse commissioner and shall, in accordance with applicable statutes, be eligible for re-election for one six year term.~~ *five members, three of whom shall be the members then serving, who shall continue to serve for the balance of their elective or appointive terms. There shall be two additional commissioners appointed by the governor with the advice and consent of the senate, one for a term expiring December 31, 1975, and one for a term expiring December 31, 1977. Thereafter the terms of all subsequent members of the commission shall be six five years and until their successors have been appointed and qualified. Each commissioner shall be appointed by the gov-*

ernor by and with the advice and consent of the senate. Not more than ~~two~~ *three* commissioners shall belong to the same political party. The governor in his selection of commissioners shall give consideration to persons learned in the law or persons who have engaged in the profession of engineering, public accounting or property and utility valuation as well as being representative of the general public.

Sec. 65. [DEPARTMENT TO EMPLOY NECESSARY STAFF.] The department may employ such experts, engineers, statisticians, accountants, inspectors, clerks, attorneys and employees as it deems necessary to carry out the provisions of this act.

Sec. 66. REPORTS OF COMMITTEES

Mr. Davies from the Committee on Judiciary, to which was re-referred

H. F. No. 951: A bill for an act relating to ethics in government; regulating lobbyists, conflicts of interest and election expenses and contributions; providing penalties; appropriating money; amending Minnesota Statutes 1971, Sections 211.01, Subdivision 3; 211.06; 211.20, Subdivision 3; 211.27, by adding a subdivision; and 290.06, by adding a subdivision; repealing Minnesota Statutes 1971, Sections 3.87; 3.88; 3.89; 3.90; 3.91; and 3.92.

Reports the same back with the recommendation that the printed bill be amended as follows:

Strike everything after the enacting clause and insert in lieu thereof the following:

“Section 1. [PUBLIC POLICY.] It is hereby declared to be the public policy of the state of Minnesota that:

(1) Public confidence in the integrity of government is a prerequisite of representative democracy. The public interest is best served when full disclosure is made of the identity and expenditures of persons who engage in substantial efforts to persuade governmental officials to take specific actions;

(2) Public officials should not use their official positions to obtain financial gain for themselves, their households or any organizations with which they are associated in a manner which violates the public trust;

(3) Major political campaign contributions and expenditures should be fully disclosed to the public;

(4) Disclosure of major political campaign contributions and expenditures serves the public interest by (a) preventing undue influence and (b) revealing the sources of campaign financing to the public as well as thereby facilitating future informed decisions regarding alternative methods of public and private financing;

(5) Although small individual contributions to a candidate are unlikely to have an undue influence, a number of small contributions from an individual or small contributions from a number of associated individuals may when cumulated have an undue influence. Thus there is a compelling state interest in requiring the disclosure of all contributions of more than \$50 in the case of legislative campaigns and more than \$100 in the case of campaigns for statewide office;

(6) Limitations upon campaign expenditures are necessary to control the spiraling amount of money required to campaign for public office and to ensure that no individual is denied the opportunity to run for public office for financial reasons;

(7) Candidates for public office and elected officials should not be under the influence of those persons who make large contributions to political campaigns.

The ultimate recipient of any funds so earmarked shall also disclose by report to the commission the original source of the funds, and the person, political committee, or political fund through which they were directed. Statements required by this subdivision shall be filed on the dates on which reports by committees are filed.

Subd. 6. If no contribution is received or expenditure made by or on behalf of a candidate, political fund or political committee during a reporting period, the treasurer of the committee or fund shall file with the commission at the times required by this section a statement to that effect.

Subd. 7. Any person who fails to file a report required by this section is guilty of a petty misdemeanor. The commission shall notify within seven days after a filing date by registered mail any person who fails to file a report or statement required by this section. A person who knowingly fails to file such a report or statement within seven days after receiving notice from the commission is guilty of a gross misdemeanor.

Subd. 8. The commission shall exempt any person, association, or any of its members or contributors from the provisions of this section if disclosure would expose that person or any or all of the members or contributors of or to an association to:

- (a) Economic reprisals;
- (b) Loss of employment; or
- (c) Threat of physical coercion.

An association may seek an exemption for all of its members or contributors only if it proves by clear and convincing evidence that a substantial number of its members or contributors would suffer a restrictive effect on their freedom of association if members were required to seek exemption individually.

Subd. 9. A political committee or a political fund or any of its members or contributors shall have standing to seek an exemption. All applications for exemption shall be treated as contested cases within the meaning of Minnesota Statutes, Chapter 15. The commission by rule shall establish a procedure so that any individual

seeking an exemption may proceed anonymously if he would be exposed to the reprisals listed in subdivision 8 were he to reveal his identity for the purposes of the hearing.

Subd. 10. No person or association shall engage in economic reprisals or threaten loss of employment or physical coercion against any person or association because of that person's or association's political contributions or political activity. This subdivision shall not apply to compensation for employment or loss of employment when the political affiliation or viewpoint of the employee is a bona fide occupational qualification of the employment. Any person or association which violates this subdivision is guilty of a gross misdemeanor.

Sec. 23. [REQUIREMENTS RESPECTING REPORTS AND STATEMENTS.] Subdivision 1. A report or statement required by sections 12 to 36 to be filed by a treasurer of a political committee or political fund, or by any other person, shall be signed and certified as true by the person required to file the report. Any person who signs and certifies to be true a report or statement which he knows contains false information or who knowingly omits required information is guilty of a felony.

Subd. 2. Each contribution in kind shall be valued at fair market value and reported on the appropriate schedule of receipts, identified as to its nature and listed as "contribution in kind". The total amount of goods and services contributed in kind shall be deemed to have been consumed in the reporting period in which received. Each contribution in kind shall be declared as an expenditure at the same fair market value and reported on the appropriate expenditure schedule, identified as "contribution in kind". A candidate may refuse to accept any contribution in kind. For purposes of this subdivision "contribution in kind" means any contribution except money.

Subd. 3. In determining the aggregate of a person's contributions, the treasurer shall list contributions from the same donor under the same name. In each instance when a contribution received from a person in a reporting period is added to previously reported unitemized contributions from the same contributor and the aggregate exceeds the disclosure threshold of section 21, the name and address of that contributor shall then be listed on the prescribed reporting forms. A candidate may refuse to accept any contribution.

Subd. 4. A political committee or political fund making an expenditure, other than a transfer of funds, for or on behalf of more than one candidate for state or legislative office shall allocate the expenditure among the candidates on a reasonable cost basis and report this allocation for each candidate. The treasurer shall retain for audit any documents supporting the allocation.

Subd. 5. Each person required to file any report or statement shall maintain records on the matters required to be reported, including vouchers, cancelled checks, bills, invoices, worksheets, and receipts, which will provide in sufficient detail the necessary information from which the filed reports and statements may be verified, explained, clarified and checked for accuracy and completeness, and he shall keep the records available for audit, inspection, or examination by the commission or its authorized representatives for four years from the date of filing of the reports or statements or of changes or corrections thereto. Any person violating any provisions of this subdivision is guilty of a misdemeanor.

Subd. 6. The treasurer of a political committee or political fund shall not accept a contribution of more than \$100 from a political committee or political fund not registered in this state unless the contribution is accompanied by a written statement which lists the sources of the contribution in a manner which meets the disclosure requirements imposed by section 21, subdivision 3, clauses (b), (c) and (d). These statements shall be certified as true and correct by an officer of the contributing committee or political fund. The provisions of this subdivision shall not apply when the national affiliate of any political party in this state transfers money to its state affiliate and that money is expended by the state political party on behalf of candidates of that party generally, without referring to any of them specifically, in any advertisement published or posted, on any broadcast, or in any telephone conversation if that conversation mentions three or more candidates.

Subd. 7. The secretary of state shall cause one certified copy of each report or statement filed with him under section 309 of the federal election campaign act of 1971 to be delivered to the commission within 24 hours of the time he receives such report or statement.

Sec. 24. [CHANGES AND CORRECTIONS.] Any material changes in information previously submitted and any corrections to a report shall be reported in writing to the commission in the next report following the date of the event prompting the change or the date upon which the person filing became aware of the inaccuracy. The change or correction shall identify the form and the paragraph containing the information to be changed or corrected. Any person who willfully fails to report a material change or correction is guilty of a gross misdemeanor.

Sec. 25. [DISSOLUTION OR TERMINATION.] No political committee or political fund shall dissolve until it has settled all of its debts and filed a termination report. The termination report

shall include all information required in periodic reports and a statement as to the disposition of any residual funds.

Sec. 26. [LIMITS ON CAMPAIGN EXPENDITURES.] Subdivision 1. For the purposes of sections 26 to 36 a candidate for governor and a candidate for lieutenant governor, running together, shall be deemed to be a single candidate, and all expenditures made by or on behalf of the candidate for governor and all expenditures made by or on behalf of the candidate for lieutenant governor shall be considered to be expenditures by or on behalf of the candidate for governor.

Subd. 2. In a year in which a candidate stands for election no expenditures shall be made and no obligations to make expenditures shall be incurred by a candidate, political committee, political fund or individual which makes expenditures with the authorization, express or implied, and under the control, direct or indirect, of the candidate or his agents which results in the aggregate expenditure on behalf of the candidate of an amount in excess of the following amounts:

- (a) For governor and lieutenant governor, running jointly, 15 cents per capita;
- (b) For attorney general, four cents per capita;
- (c) For secretary of state, state treasurer and state auditor, separately, $1\frac{1}{4}$ cents per capita;
- (d) For state senator, 25 cents per capita;
- (e) For state representative, 25 cents per capita.

Subd. 3. Notwithstanding subdivision 2, a candidate for party endorsement at the convention of a political party may spend five percent of the amount in subdivision 2, prior to the time of endorsement. The money actually spent for endorsement shall be in addition to the money which may be expended pursuant to subdivision 2.

Subd. 4. Notwithstanding subdivision 2 with respect to the 1974 general election, expenses incurred prior to the effective date of this act shall not be counted against the spending limitations imposed by subdivision 2.

Subd. 5. If the winning candidate in a contested race in a primary election receives less than 70 percent of the vote cast in that election, he shall have added to the aggregate amount which may be expended by him or on his behalf an amount equal to one fourth of the applicable amount as set forth in subdivision 2 of this section, or the amount actually expended by him or on his behalf in the primary election, whichever is less.

Subd. 6. On or before January 31 of each election year, the commission shall determine and cause to be published generally the per capita amounts specified in subdivision 2. In determining the per capita amounts, the commission shall use:

- (a) In the case of the elections for governor and lieutenant governor, attorney general, secretary of state, state treasurer and state auditor, the total population of the state;

(b) In the case of the elections for state senator, 1/67 of the total population of the state;

(c) In the case of elections for state representative, 1/134 of the total population of the state.

Subd. 7. On or before January 15 of each election year, the secretary of state shall certify to the commission the estimated total population of the state as of January 1 of that year.

Subd. 8. An expenditure is made in the year in which the goods or service for which it was made are used or consumed.

Sec. 27. [TRANSFERS OF FUNDS EXCEPTED.] A transfer of funds from any political committee or political fund other than a political party to the principal campaign committee of a candidate shall not be considered to be an expenditure of funds on behalf of the candidate by the political committee or political fund.

Sec. 28. [ADDITIONAL LIMITATIONS.] Subdivision 1. No political committee, political fund, or individual, except a political party or the principal campaign committee of a candidate shall make expenditures on behalf of a candidate, or transfer funds to the principal campaign committee of a candidate, in an amount in excess of ten percent of the amount that may be spent by or on behalf of that candidate as set forth in section 26.

Each amount determined under section 26 shall be increased by the percent difference. Each amount so increased after being rounded off to the nearest \$10 shall be the amount in effect for the year. For the purpose of this section, the term "price index" means the average over a year of the consumer price index (all items, United States city average published monthly by the United States bureau of labor statistics). In the event that there is a decline in the price index it shall not result in a reduction in the amounts

determined under section 26 and in any year after 1974 in which there is a decline in the price index, the amounts in effect shall be those in effect for the preceding general election.

Sec. 30. [PENALTY FOR EXCEEDING LIMITS.] Any person or association that makes expenditures in excess of the limitations imposed by sections 26 and 28 shall be subject to a fine equal to three times the amount by which its expenditure exceeded the limit. If the commission, a county attorney or the attorney general has reason to believe that a person or association has made such excess expenditures, it or he shall bring an action in the district court of Ramsey county or in the case of a legislative candidate a district court of a county within the legislative district, to impose this penalty. All moneys recovered pursuant to this section shall be deposited in the general account of the state elections campaign fund.

If you are filing a joint return you may allocate \$1 each." The form shall state that each \$1 on a joint return may be allocated independently.

It is the goal of these programs to reduce energy consumption and afford the benefits of an effective public transit system to those persons who would not have available an alternative source of transportation. It is the intent of this legislation that the funds be used on a statewide basis, and that the relative financial needs of all potential recipients be considered.

In determining such total operating deficits, the agency shall consider all increases in expenses and reductions in revenue in the public transit system after the effective date of this section and may disallow portions or all of any such increases or reductions. Where legislatively established public transit authorities or commissions do not exist, and if more than one county or municipality contributes assistance to the operation of a public transit system, the aid distributable under this

The commissioner shall, at the time and place fixed in the notice, proceed to hear and determine the matter on its merits. If

the commissioner shall find the existence of any of the causes for revocation as set forth in subdivision 4 and determine that the licensee's license should be revoked, he shall make a written order to that effect, and a copy of such order shall be served upon such licensee in the manner provided by law for the service of summons in a civil action. Upon such revocation, if it be a mobile home dealer, he shall immediately return to the commissioner all number plates, including any "in transit" plates, in his possession.
