CONFERENCE COMMITTEE REPORT ON S. F. NO. 1615

A bill for an act relating to natural resources; prohibiting, except in national emergencies, certain activities in the boundary waters canoe area; prohibiting certain activities outside the boundary waters canoe area which cause degradation of a natural resource within the boundary waters canoe area.

April 3, 1976

The Honorable Alec G. Olson
President of the Senate

The Honorable Martin O. Sabo
Speaker of the House of Representatives

We, the undersigned conferees for S. F. No. 1615 report that we have agreed upon the items in dispute and recommend as follows:

That the House recede from its amendments and that S. F. No. 1615 be amended as follows:

Strike everything after the enacting clause and insert:

"Section 1. [84.523] [MANAGEMENT OF STATE MINERALS AND RELATED RESOURCES IN THE BOUNDARY WATERS CANOE AREA OF THE SUPERIOR NATIONAL FOREST.] Sub-division 1. [DEFINITION.] For the purposes of this section, the term "boundary waters canoe area" means that area of lands and waters in-

cluded within the boundaries designated in federal regulation REG U-3, 36 Code of Federal Regulations 293.16, as that regulation provided on January 1, 1975.

Subd. 2. [LEGISLATIVE FINDINGS AND PURPOSE.] The legislature finds that a combination of state legislative and administrative actions and court decisions have established a public policy of primarily wilderness management for state lands and waters within the boundary waters canoe area. This state policy, together with a similar federal policy and international actions consistent with these state and federal policies, has created an area of hundreds of thousands of acres of land and water containing myriad lakes and streams, wooded shores, virgin forests, and other natural attractions of surpassing scenic beauty and solitude, free from substantially all commercial activities and artificial development such as hydroelectric dams and power lines, resorts, roads, sawmills, and timber harvesting in no-cut zones.

Subd. 3. [MINING, AND USE OF STATE NATURAL RESOURCES FOR MINING, PROHIBITED IN B.W.C.A.] Except with the prior approval of the legislature in those cases of national emergency which have been declared by the Congress and which direct the need for exploration and mining of federal lands within the boundary waters canoe area, and after an investigation and determination by the commissioner of natural resources pursuant to subdivision 5 no state owned or administered land may be leased for exploration or mining of minerals, and no state permits, licenses or leases shall be issued to use any other state natural resources for any mineral exploration or mining operations in the boundary waters canoe area.

Subd. 4. [PEAT HARVESTING PROHIBITED IN BOUNDARY WATERS CANOE AREA.] Except with prior approval of the legislature in those cases of national emergency which have been declared by the Congress and which direct the need for exploitation of peat deposits on federal land within the boundary waters canoe area, and after an investigation and determination by the commissioner of natural resources pursuant to subdivision 5 no state owned or administered land may be leased for the purpose of harvesting peat, and no state permits, licenses or leases shall be issued to use any other state natural resources for the purpose of harvesting peat in the boundary waters canoe area.

Subd. 5. [INVESTIGATION AND DETERMINATION.] In the event of a national emergency declared by Congress which requires, for the protection of national interests, exploitation of natural resources of the type found in the boundary waters canoe area, the commissioner of natural resources shall investigate and determine if there are reasonable alternative methods for providing the needed resources. If the investigation shows there are reasonable alternatives to exploitation of natural resources in the area, no permit for development shall be issued. If the commissioner of natural resources determines there is a need to provide resources from within the boundary waters canoe area, and that there is no reasonable alternative available to meet the need, a permit may be issued upon approval by the state legislature.

Sec. 2. The sum of \$147,000 is appropriated from the general fund to the commissioner of natural resources for salaries, supplies, and expenses related to mineland reclamation, including but not limited to

the following: (1) the completion of development and promulgation of mineland reclamation rules, (2) development of administrative guidelines, procedures, and forms, and (3) development of supply-demand land use evaluations of mining districts for use in analyzing and granting mining permits. The money so appropriated is available for expenditure on the effective date of this act and shall remain available for expenditure until June 30, 1977, notwithstanding the provisions of Minnesota Statutes, Section 16A.28, or any other law relating to the lapse of appropriations to the contrary.

Sec. 3. This act is effective the day following final enactment."

Strike the title and insert:

"A bill for an act relating to natural resources; prohibiting, except in national emergencies, the leasing of state minerals and the use of state natural resources in connection with mining in the boundary waters canoe area; for mineland reclamation purposes; appropriating money."

We request adoption of this report and repassage of the bill.

Senate Conferees: (Signed) A. J. Perpich, John Milton, Gerald L. Willet

House Conferees: (Signed) Douglas J. Johnson, B. J. Philbrook, John S. Biersdorf

Mr. Perpich, A. J. moved that the foregoing recommendations and Conference Committee Report on S. F. No. 1615 be now adopted, and that the bill be repassed as amended by the Conference Committee. The motion prevailed. So the recommendations and Conference Committee Report were adopted.

S. F. No. 1615: A bill for an act relating to natural resources; prohibiting, except in national emergencies, certain activities in the boundary waters canoe area; prohibiting certain activities outside the boundary waters canoe area which cause degradation of a natural resource within the boundary waters canoe area.

Was read the third time, as amended by the Conference Committee, and placed on its repassage.

The question being taken on the repassage of the bill, as amended by the Conference Committee,

And the roll being called, there were yeas 56 and nays 0, as follows:

Those who voted in the affirmative were:

Sec. 27. Subdivision 1. All moneys appropriated for fiscal year 1977 in Laws 1975, Chapter 433, as shown in the worksheets of the conferees of the Senate and House of Representatives to the University of Minnesota, State University system, Community College System and Department of education for the purpose of providing funding for the use of and communications costs for the Minnesota educational computing consortium (MECC) managed Univac 1110 instructional time sharing system, and which are unencumbered after completion of the system acceptance test period commencing April 15, 1976, shall not be expended except under the conditions of subdivision 3, unless Univac meets the

acceptance test criteria as defined in the contract between MECC and Univac, including the requirements that:

(1) The criteria that the system be available to users for productive operational use an average of 90 percent or more of the principal period of maintenance (have an average effectiveness level of 90 percent) for a period of 30 consecutive days shall include unavailability from failure of hardware, software and Univac related communications capability and compatability and shall provide system security as set forth in the MECC bid specifications and Univac's response thereto. The average effectiveness level shall be the percentage figure determined by dividing the total productive operational use time by the total productive operational use time plus associated down time for all users except for intervals specifically provided for in the MECC/Univac contract.

(2) The MECC Acceptance Test Guide shall be used by MECC as the governing document for acceptance test procedures except that it shall not conflict with or lessen any of the performance requirements of the MECC/Univac contract itself.

(3) The systems acceptance criteria shall require throughput and response time for demand mode processing to be reasonably close to the throughput and response time required in the MECC/Univac contract for real time processing considering the functions being performed. The response time for real time processing as required in the benchmark performance demonstration criteria is four seconds or less.

(4) In the event that any of the terms or provisions in subparts 1, 2 and 3 of this subdivision conflict with the language of the contract, the language of the contract shall prevail.

Provided, however, that if any portion of the successful 30 continuous day performance period occurs after May 28, 1976, Univac shall be required to again successfully perform the acceptance test during the period beginning October 1, 1976 and continuing through December 22, 1976. If the acceptance test is not successfully performed within 90 days of April 15, 1976 or by December 22, 1976, if the second acceptance period is utilized, MECC shall terminate the agreement without further extension. Utilization of the second acceptance test period shall not relieve the contracting parties of any of the contract provisions relating to delivery of required features at the conclusion of the first acceptance period.

Subd. 2. The governor shall, using the procedures of Minnesota Statutes, Section 3.30, obtain the services of a consultant to monitor the contract and acceptance test and shall, again using the procedures of Minnesota Statutes, Section 3.30, determine whether the Univac 1110 has successfully passed the acceptance test. The governor's decision shall be binding on MECC. There is appropriated to the general contingent account the sum of \$100,000 which may be expended to accomplish the purposes of this subdivision.

Subd. 3. In the event that the Univac 1110 fails the acceptance test as defined in subdivision 1, or in the event that Univac removes the 1110 prior to the completion of the test the unencumbered funds may be expended and shall be used to provide back up

computer service to the MECC users. There is appropriated to the general contingent account the sum of \$500,000 which may be expended to provide additional back up service in the event the unencumbered funds are not sufficient.

Sec. 28. [INSERVICE TRAINING FOR RIGHT TO READ PROGRAM STAFF MEMBERS.] *The department of education shall implement an inservice training program for the staff members of the right to read program. The training shall be conducted jointly by the division of instruction and the division of special and compensatory education of the department of education. This section shall expire June 30, 1977.*

Sec. 29. *The higher education coordinating board shall not, prior to March 1, 1977, enforce any provisions of sections 136A.61 to 136A.71 or any rules or regulations promulgated thereunder.*

Sec. 30. Minnesota Statutes 1974, Section 3.732, Subdivision 1, is amended to read:

3.732 [SETTLEMENT OF CLAIMS.] Subdivision 1. As used in this section *and section 33 of this act* the terms defined in this section have the meanings given them.

(1) "State" means each of its departments, boards, commissions, officers in the executive branch financed in whole or in part with moneys appropriated by the legislature and includes but is not limited to the University of Minnesota, state colleges, community colleges, state hospitals, state penal institutions, and other state agencies. It does not include a city, town, county, school district, or other body corporate and politic.

(2) "Employee of the state" means all officers or employees of the state or of any of the aforesaid enumerated agencies thereof, members of the national guard, or persons acting on behalf of such enumerated agencies in an official capacity, temporarily or permanently, with or without compensation, *but does not include an independent contractor.*

(3) "Scope of his office or employment" means that the employee was acting on behalf of the state in the performance of duties or tasks lawfully assigned to him by competent authority.

Sec. 31. Minnesota Statutes 1974, Section 3.732, Subdivision 2, is amended to read:

Subd. 2. The head of each department or agency of the state, or his designee, acting on behalf of the state, shall attempt to determine, adjust and settle, at any time, any claim for money damages of ~~\$500~~ \$2,500 or less against the state for injury to or loss of property or personal injury or death caused by an act or omission of any employee of the state while acting within the scope of his office or employment, under circumstances where the state, if a private person, would be liable to the claimant. Any such settlement shall be final and conclusive on all officers of the state, except where procured by fraud. The acceptance by the claimant of any such settlement shall be final and conclusive on the claimant and shall constitute a complete release of any claim against the

state and against the employee of the state whose act or omission gave rise to the claim, by reason of the same subject matter.

Sec. 32. Minnesota Statutes 1974, Section 3.732, Subdivision 5, is amended to read:

Subd. 5. Nothing in this section is to be construed as to deny a claimant who is not paid pursuant to the provisions hereof from ~~presenting a claim to the state claims commission or the legislature bringing an action at law in the courts of this state.~~

Sec. 33. Minnesota Statutes 1974, Chapter 3, is amended by adding a section to read:

[3.736] [TORT CLAIMS.] *Subdivision 1. [GENERAL RULE.] The state will pay compensation for injury to or loss of property or personal injury or death caused by an act or omission of any employee of the state while acting within the scope of his office or employment, under circumstances where the state, if a private person, would be liable to the claimant.*

Subd. 2. [PROCEDURE.] Claims of various kinds shall be considered and paid only in accordance with the statutory procedures provided. Where there is no other applicable statute, a claim shall be brought pursuant to this section as a civil action in the courts of the state.

Subd. 3. [EXCLUSIONS.] Without intent to preclude the courts from finding additional cases where the state and its employees should not, in equity and good conscience, pay compensation for personal injuries or property losses, the legislature declares that the state and its employees are not liable for the following losses:

(a) Any loss caused by an act or omission of a state employee exercising due care in the execution of a valid or invalid statute or regulation;

(b) Any loss caused by the performance or failure to perform a discretionary duty, whether or not the discretion is abused;

(c) Any loss in connection with the assessment and collection of taxes;

(d) Any loss caused by snow or ice conditions on any highway or other public place, except when the condition is affirmatively caused by the negligent acts of a state employee;

(e) Any loss caused by wild animals in their natural state;

(f) Any loss other than injury to or loss of property or personal injury or death;

(g) Any loss caused by the condition of unimproved real property owned by the state, which means land that the state has not improved, and appurtenances, fixtures and attachments to land that the state has neither affixed nor improved;

(h) Any loss arising from the construction, operation, or maintenance of the outdoor recreation system, as defined in section

86A.04, or from the clearing of land, removal of refuse, and creation of trails or paths without artificial surfaces, except that the state is liable for conduct that would entitle a trespasser to damages against a private person.

(i) Any loss of benefits or compensation due under a program of public assistance or public welfare, except where state compensation for loss is expressly required by federal law in order for the state to receive federal grants-in-aid;

(j) Any loss based on the failure of any person to meet the standards needed for a license, permit, or other authorization issued by the state or its agents;

(k) Any loss based on the usual care and treatment, or lack of care and treatment, of any person at a state hospital or state corrections facility where reasonable use of available appropriations has been made to provide care;

(l) Any loss, damage, or destruction of property of a patient or inmate of a state institution.

The state will not pay punitive damages.

Subd. 4. [LIMITS.] The total liability of the state and its employees acting within the scope of their employment on any tort claim shall not exceed:

(a) \$100,000 when the claim is one for death by wrongful act or omission and \$100,000 to any claimant in any other case.

(b) \$500,000 for any number of claims arising out of a single occurrence. If the amount awarded to or settled upon multiple claimants exceeds \$500,000, any party may apply to any district court to apportion to each claimant his proper share of the \$500,000. The share apportioned each claimant shall be in the proportion that the ratio of the award or settlement made to him bears to the aggregate awards and settlements for all claims arising out of the occurrence.

The limitation imposed by this subdivision on individual claimants includes damages claimed for loss of services or loss of support arising out of the same tort.

Subd. 5. [NOTICE REQUIRED.] Except as provided in subdivision 6, every person, whether plaintiff, defendant or third party plaintiff or defendant, who claims compensation from the state or a state employee acting within the scope of his employment for or on account of any loss or injury shall present to the attorney general of the state or, in the case of a claim against the university of Minnesota, to the person designated by the regents of the university as the university attorney, and any state employee from whom the claimant will seek compensation, within 180 days after the alleged loss or injury is discovered, a notice stating the time, place and circumstances thereof, the names of any state employee known to be involved, and the amount of compensation or other relief demanded. Actual notice of sufficient facts to reasonably put the state or its insurer on notice of a possible claim complies

with the notice requirements of this section. Failure to state the amount of compensation or other relief demanded does not invalidate the notice, but the claimant shall furnish full information available regarding the nature and extent of the injuries and damages within 15 days after demand by the state. The time for giving the notice does not include the time during which the person injured is incapacitated by the injury from giving the notice.

Subd. 6. [CLAIMS FOR WRONGFUL DEATH; NOTICE.] *When the claim is one for death by wrongful act or omission, the notice may be presented by the personal representative, surviving spouse, or next of kin, or the consular officer of the foreign country of which the deceased was a citizen, within one year after the alleged injury or loss resulting in the death. If the person for whose death the claim is made has presented a notice that would have been sufficient had he lived, an action for wrongful death may be brought without any additional notice.*

Subd. 7. [PAYMENT.] *A state agency, including any entity defined as part of the state in section 3.732, subdivision 1, clause (1), incurring a tort claim judgment or settlement obligation or whose employees acting within the scope of their employment incur the obligation may seek payment from money appropriated for this purpose by submitting a written request to the commissioner of finance. The request shall contain a description of the tort claim precipitating the request, specify the amount of the obligation and be accompanied by copies of judgments, settlement agreements or other documentation relevant to the obligation for which the agency is seeking payment. Upon receipt of the request and review of the claim, the commissioner of finance shall transfer money necessary to pay the obligation to the agency. On January 1 and July 1 of each year, the commissioner of finance shall transmit to the legislature and to the chairmen of the house appropriations and senate finance committees copies of all requests in the preceding six months together with a report on the transfers made with respect to each request. Payment shall be made only upon receipt of a written release by the claimant in a form approved by the attorney general, or the person designated as the university attorney, as the case may be.*

No attachment or execution shall issue against the state.

Subd. 8. [LIABILITY INSURANCE.] *A state agency, including any entity defined as a part of the state in section 3.732, subdivision 1, clause (1), may procure insurance against liability of the agency and its employees for damages resulting from the torts of the agency and its employees. The procurement of this insurance constitutes a waiver of the defense of governmental immunity to the extent of the liability stated in the policy but has no effect on the liability of the agency and its employees beyond the coverage so provided.*

Subd. 9. [INDEMNIFICATION]. *The state shall defend, save harmless, and indemnify any state employee against any tort claim or demand, whether groundless or otherwise, arising out of an alleged act or omission if the employee provides complete disclosure and cooperation in the defense of the claim or demand and if, except for elected*

employees, the employee's appointing authority certifies that the employee was acting within the scope of his employment. This determination may be overruled by the attorney general. This subdivision does not apply in case of malfeasance in office or willful or wanton neglect of duty.

Subd. 10. [JUDGMENT AS BAR.] The judgment in an action under this section is a complete bar to any action by the claimant, by reason of the same subject matter, against the state employee whose act or omission gave rise to the claim.

Mr. Schmitz moved that H. F. No. 2546 be taken from the table. The motion prevailed.

H. F. No. 2546: A bill for an act relating to taxation; providing for certain limitations on real property valuation; amending Minnesota Statutes, 1975 Supplement, Sections 273.11, Subdivision 2 and 273.17, Subdivision 1; repealing Minnesota Statutes 1974, Section 273.11, Subdivision 4.

Mr. Coleman for Mr. Olson, A. G., moved to amend H. F. No. 2546 as follows:

Strike everything after the enacting clause and insert the following:

"Section 1. Minnesota Statutes, 1975 Supplement, Section 273.11, Subdivision 1, is amended to read:

273.11 [VALUATION OF PROPERTY.] Subdivision 1. ~~Except as provided in subdivision 2 or section 273.17, subdivision 1,~~ All property shall be valued at its market value. In estimating and determining such value, the assessor shall not adopt a lower or different standard of value because the same is to serve as a basis of taxation, nor shall he adopt as a criterion of value the price for which such property would sell at auction or at a forced sale, or in the aggregate with all the property in the town or district; but he shall value each article or description of property by itself, and at such sum or price as he believes the same to be fairly worth in money. In assessing any tract or lot of real property, the value of the land, exclusive of structures and improvements, shall be determined, and also the value of all structures and improvements

thereon, and the aggregate value of the property including all structures and improvements, excluding the value of crops growing upon cultivated land. In valuing real property upon which there is a mine or quarry, it shall be valued at such price as such property, including the mine or quarry, would sell for a fair, voluntary sale, for cash. In valuing real property which is vacant, the fact that such property is platted shall not be taken into account. An individual lot of such platted property shall not be assessed in excess of the assessment of the land as if it were unplatted until the lot is improved with a permanent improvement all or a portion of which is located upon the lot, or for a period of three years after final approval of said plat whichever is shorter. When a lot is sold or construction begun, the assessed value of that lot or any single contiguous lot fronting on the same street shall be eligible for reassessment. All property, or the use thereof, which is taxable under sections 272.01, subdivision 2, or 273.19, shall be valued at the market value of such property and not at the value of a leasehold estate in such property, or at some lesser value than its market value.

Sec. 2. Minnesota Statutes, 1975 Supplement, Section 273.17, Subdivision 1, is amended to read:

273.17 [ASSESSMENT OF REAL PROPERTY.] Subdivision 1. In every year, on January 2, the assessor shall also assess all real property that may have become subject to taxation since the last previous assessment, including all real property platted since the last real estate assessment, and all buildings or other structures of any kind, whether completed or in process of construction, of over \$1,000 in value, the value of which has not been previously added to or included in the valuation of the land on which they have been erected. ~~The newly assessed property shall be valued initially at the average level of assessment which exists at that time in its assessment district. The assessment shall be increased to market value in annual increments as provided in section 273.11, subdivision 2 until such time as the property is reassessed.~~ He shall make return thereof to the county auditor, with his return of personal property, showing the tract or lot on which each structure has been erected and the market value added thereto by such erection. The county auditor shall note such change in the assessed valuation upon the tax lists, caused by a change in classification, and shall calculate the taxes for such year on such changed valuation. In case of the destruction by fire, flood, or otherwise of any building or structure, over \$100 in value, which has been erected previous to the last valuation of the land on which it stood, or the value of which has been added to any former valuation, the assessor shall determine, as nearly as practicable, how much less such land would sell for at private sale in consequence of such destruction, and make return thereof to the auditor.

The commissioner may extend the time for filing these claims for a period not to exceed six months in the case of sickness, absence, or other disability, or when in his judgment other good cause exists.

A claim filed after the original or extended due date shall be allowed, but the amount of credit shall be reduced by five percent of the amount otherwise allowable, plus an additional five percent for each month of delinquency, not exceeding a total reduction of 25 percent. In any event no claim shall be allowed if the claim is filed two years after the original due date for filing the claim.

"Sec. 26. When the governor submits his budget to the legislature in January, 1977, he shall include a statement containing the most recent estimate of the amount of "opening balance" which is projected for the general fund on July 1, 1977. The estimate of the opening balance shall be certified by the commissioner of finance. In the event that the projected opening balance exceeds \$150,000,000; \$50,000,000 of that amount shall be used for purposes of section 27.

Sec. 27. Minnesota Statutes 1974, Section 290.06, is amended by adding a subdivision to read:

Subd. 3e. [CREDITS AGAINST TAX.] Notwithstanding the provisions of subdivision 3a for taxable years which begin after December 31, 1975, the taxes due under the computation in accordance with section 290.06 shall be credited with the following amounts:

(1) *In the case of an unmarried individual, and, except as provided in paragraph 6, in the case of the estate of a decedent, \$34, and in the case of a trust, \$5;*

(2) *In the case of a married individual, living with husband or wife, and in the case of a head of a household, \$68. If such husband and wife make separate returns the personal exemption may be taken by either or divided between them;*

(3) *In the case of an individual, \$34 for each person (other than husband or wife) dependent upon and receiving his chief support from the taxpayer. One taxpayer only shall be allowed this credit with respect to any given dependent. In the case of the head of a household, a credit for one dependent shall be disallowed. A payment to a divorced or separated wife, other than a payment of the kind referred to in section 290.072, subdivision 3, shall not be considered a payment by the husband for the support of any dependent.*

(4) (a) *In the case of an unmarried individual who has attained the age of 65 before the close of his taxable year, an additional \$21;*

(b) *In the case of an unmarried individual who is blind at the close of the taxable year, an additional \$21;*

(c) *In the case of a married individual, living with husband or wife, an additional \$21 for each spouse who has attained the age of 65 before the close of the individual's taxable year, and an additional \$25 for each spouse who is blind at the close of the individual's taxable year. If such husband and wife make separate returns, these credits may be taken by either or divided between them;*

(d) *For the purposes of sub-paragraphs (b) and (c) of paragraph (4), an individual is blind if his central visual acuity does not exceed 20/200 in the better eye with correcting lenses, or if his visual acuity is greater than 20/200 but is accompanied by a limitation in the fields of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees.*

(5) *In the case of an insurance company, it shall receive a credit on the tax computed as above equal in amount to any taxes based on premiums paid by it during the period for which the tax under Extra Session Laws 1967, Chapter 32, is imposed by virtue of any law of this state, other than the surcharge on premiums imposed by Extra Session Laws 1933, Chapter 53, as amended;*

(6) *If the status of a taxpayer, insofar as it affects the credits allowed under paragraphs 1, 2 and 3 shall change during the taxable year, or if the taxpayer shall either become or cease to be a resident of the state during such taxable year, such credit shall be apportioned, in accordance with the number of months before and after such change. For the purpose of such apportionment, a fractional part of a month shall be disregarded unless more than one-half of the month, in which case it shall be considered as a month. In case of death during a taxable year, a credit shall be allowed to the decedent, in proportion to the number of months*

before his death, and to his estate, in proportion to the number of months after his death, and in any event a minimum credit of \$5 shall be allowed to the decedent and his estate, respectively;

(7) In the case of a non-resident individual, credits under paragraphs 1, 2, 3 and 4 shall be apportioned in the proportion of the gross income from sources in Minnesota to the gross income from all sources, and in any event a minimum credit of \$5 shall be allowed."

Sir:

I am returning S.F. 1841, the open appointment bill, without my signature.

In my judgment, this bill would create serious administrative problems and insure long delays in the filling of vacancies on significant boards, councils, commissions, and other state authorities. It would also inhibit qualified persons who do not wish to join in the public competition required to be appointed.

Sincerely,
Wendell R. Anderson, Governor

April 20, 1976

The Honorable Alec G. Olson
President of the Senate

Sir:

I am returning S.F. 2241, the Duck Stamp Bill, without my signature. I concur with the intent of the bill to increase development of waterfowl facilities in Minnesota. However, I have supported and already signed two license increases this session. S.F. 1530 imposed an increased vendor's fee for issuing licenses, and H.F. 2657 enacted increases of varying amounts for all hunting and fishing licenses.

Minnesota sportsmen have willingly assumed the burden of these two increases. I do not believe it is fair to ask them to endure a third in one legislative session.

The new increases will bring nearly 3.75 million dollars each year to the Department of Natural Resources. These revenues should make it possible to include provision for waterfowl developments in the 1977 DNR budget.

Sincerely,
Wendell R. Anderson, Governor

April 20, 1976

The Honorable Alec G. Olson
President of the Senate

Sir:

I am reluctantly returning S.F. 1788, a bill relating to consumer banking facilities, without my signature.

This legislation which authorizes the use of electronic funds

transfer systems by financial institutions regulated by the state is similar to legislation I vetoed a year ago.

At that time, I objected to the premature creation of a new competitive situation among financial institutions without adequate assessment of the new technology and its consequences; to the establishment in practice of branch banking without limitation on location or numbers or appropriate safeguarding of competition among financial institutions; and to its piecemeal rather than comprehensive approach to the regulation of electronic funds transfer systems. I also indicated that we should wait for the results of national studies before acting on Minnesota legislation.

S.F. 1788 is an improvement over the previous proposal. It now attempts to deal with both the range of transfer mechanisms and the range of state financial institutions.

However, the bill still does not adequately protect the smaller financial institutions in Minnesota.

In Minnesota two major banking institutions already dominate banking. They control 70 percent of the deposits in the metropolitan area and 54 percent statewide. This is already a greater concentration in Minnesota than in any other state.

I am concerned about the effect this bill would have on competition and on concentration of lending power.

Although the bill provides for sharing of any facility, we believe that the more powerful banks are in a much stronger position to exploit this legislation and circumvent the traditional policy we have had in Minnesota against branch banking.

Participation in the various forms of electronic funds transfer is most helpful to the large, powerful institutions that can more easily expand to new geographical areas of the state, spread their customers among several locations, and undertake major promotion of new business. It remains a threat to smaller established institutions with fewer resources for expansion; in my judgment, these institutions would find themselves fighting to hold their own and survive if this bill became law.

Our Minnesota banking laws have traditionally provided protection to these smaller institutions through restrictions on branch banking. For all practical purposes, these restrictions are wiped out by S.F. 1788. I strongly supported the unsuccessful effort of the banking commissioner to provide at least some restrictions on the kind of establishment in which electronic funds transfer outlets could be located, in order to retain some control over what amount to branches. I deeply regret that some restrictions were not approved.

Furthermore, we still do not have the thorough national assessment of the implications of electronic funds transfer that I asked the Legislature to wait for. The National Commission on Electronic Funds Transfer Systems is now beginning its work. They intend to take testimony from industry, trade organizations, ad-

ministrators and regulators, consumer interest groups, and others on the advantages and disadvantages of this developing technology, and recommend appropriate legislation to Congress that will cover the full range of financial institutions.

Such analysis is even more important in light of a recent court decision which affirms the right of states to set standards for branch banking when federal law is less restrictive. Additional litigation is anticipated by the Commissioner of Banking, and it would be helpful to receive the results of this case and determine the appropriate role for state law to take in dealing with this national issue.

Our Legislature meets again in less than nine months. In my judgment, S.F. 1788 could use additional improvement, and the activity taking place at the national level should be a part of our deliberations, in the interest of assuring a healthy competitive climate among financial institutions in our state.

Sincerely,
Wendell R. Anderson, Governor
