"Sec. 2. Minnesota Statutes 1976, Chapter 116H, is amended by adding a section to read:

[116H.101] [CONFIDENTIALITY OF DATA.] *Subdivision 1. For purposes of this section, "protected information" means trade secrets consisting of any process, formula, pattern, decision or compilation of information which is used directly or indirectly in the business of the transmitting party, which gives such party an advantage or the opportunity to obtain an advantage over competitors who do not know or use it, and other information which is privileged such that disclosure of the information is likely to impair the agency's ability to obtain necessary information in the future or to cause substantial harm to the competitive position of the transmitter.*

Subd. 2. Information may be transmitted to the energy agency which is certified in affidavit form by the transmitter thereof to be protected information. If the director determines that the information so transmitted and certified is protected information, it is not public and shall be used by the agency solely to discharge its statutory obligation, unless otherwise specifically authorized by the transmitter of the information.

Subd. 3. Protected information which is data on individuals, as defined in section 15.162, subdivision 3, is private, and shall be handled by the agency pursuant to the provisions of sections 15.162 to 15.167.

Subd. 4. If information is transmitted to the energy agency that is certified in affidavit form by the transmitter thereof to be protected information which the director believes does not qualify as protected information, the director shall first notify the transmitter to allow the transmitter an opportunity to demonstrate in more

detail why such information is protected information. If the director continues to believe the information does not qualify as protected information, he may institute an action in an appropriate court for a declaratory judgement as to whether the information is subject to protection under this section.

Subd. 5. Protected information may be used by the agency in compiling or publishing analyses or summaries relating to the general condition of the state's energy resources, so long as the transmitter of the information or the individual subject of the data cannot be identified from such analyses or summaries and that all such analyses or summaries shall be available for public inspection in the office of the agency during normal business hours.

Subd. 6. The energy agency shall be liable to a person who suffers substantial damage as a result of the violation of any provision of this section which relates to protected information which is not data on individuals. The person may bring an action against the agency to recover the damages sustained plus costs and reasonable attorney's fees. In the case of a willful violation by a public employee which is shown in such an action to have caused substantial harm to a person, the employee shall, in addition, be liable for exemplary damages of not more than \$1,000 for each violation. A willful violation by a public employee shall constitute just cause for appropriate disciplinary action, including suspension without pay or dismissal.

Subd. 7. A violation of any provision of this section which relates to protected information which is data on individuals shall be subject to the provisions of sections 15.166 and 15.167.

Sec. 3. [RESIDENTIAL ENERGY DISCLOSURE REPORT.]
Subdivision 1. [DEFINITIONS.] For the purposes of this section, the following terms shall have the meaning given them.

Subd. 2. "Residence" means any dwelling for habitation either seasonally, meaning all or a portion of the months of December through March or permanently by one or more persons. A residence may be owned or rented and may be part of a multidwelling or multipurpose building, but shall not include buildings such as hotels, hospitals, motels, dormitories, sanitariums, nursing homes, schools and other buildings used for educational purposes, or correctional institutions. A mobile home as defined in section 168.011, subdivision 8, shall be a residence for purposes of this section.

Subd. 3. "Time of sale" means the time when a written purchase agreement is executed by the buyer, or, in the absence of a purchase agreement, prior to the execution of any document providing for the conveyance of a residence.

Subd. 4. "Energy disclosure report" means the written and signed evaluation by a person certified pursuant to subdivision 6 of this section made on an approved form, representing to the actual buyer of the residence evaluated that the evaluator has used reasonable care and diligence, and has found no instance of noncompliance with the items contained on the approved form as of the date thereon except as specifically designated.

Subd. 5. [RULES.] The commissioner of administration, in consultation with the director of the energy agency and the appropriate standing committees of the legislature shall promulgate rules providing for residential energy disclosure requirements and shall approve forms for the purposes of this section. Nothing in the forms shall indicate or be deemed to indicate that the residence meets all state building code specifications.

Subd. 6. By July 1, 1979, the commissioner of administration shall certify evaluators in each county of the state who are qualified to determine the compliance of a residence with applicable energy disclosure requirements. The commissioner of administration shall, by rule pursuant to chapter 15, establish standards for the certification and performance of evaluators and set a fee for the certification of evaluators which is sufficient to cover the ongoing costs of the program once it is established. The commissioner shall encourage the certification of existing groups of trained municipal personnel and individuals from public service organizations. Effective July 1, 1979 each certified evaluator shall, on request of the owner, inspect any residence and report the degree to which it complies with applicable energy disclosure requirements. The inspections shall be made within 30 days of the request.

Subd. 7. Effective October 1, 1979, no owner or agent shall sell by conveyance or contract for conveyance a residence without providing to the buyer, prior to the time of sale, either a copy of an energy disclosure report for the residence or an affidavit stating that the residence was constructed after January 1, 1976. If the residence has been evaluated subsequent to the effective date of this section no new evaluation shall be required for five years after the date of the evaluation, if a copy of the last evaluation has been delivered to the prospective buyer.

Subd. 8. The provisions of this section shall not apply to the sale or conveyance of any residence to a public body or by a sheriff, constable, marshal or other public or court officer in the performance of his official duties as such, or to trustees in bankruptcy or any other person or persons acting under the direction or authority of any court, state or federal, in selling a residence, except as to a public sale ordered by a probate court in which case this section shall apply."

"Sec. 12. [116H.21] [COMMUNITY ENERGY CONSERVATION COUNCILS.] *Subdivision 1. The governing body of each home rule charter or statutory city may establish a community energy conservation council to review the energy needs and energy use practices of individuals, businesses and governmental entities situated within the city, and to develop, promote and coordinate energy conservation plans and voluntary energy conservation measures designed to achieve significant reductions in energy consumption and more efficient uses of energy. Cities may jointly exercise the powers granted in this section pursuant to the provisions of section 471.59.*

Subd. 2. Each council shall be composed of not less than five nor more than 15 members appointed by the governing body of the city to serve at its pleasure and without compensation. The membership of a council shall be broadly representative of the community involved and shall include business people, government officials, homeowners and renters residing in the city.

Subd. 3. Each council shall consult and cooperate with the Minnesota energy agency to the maximum extent practicable. In an energy emergency, each council shall perform such functions and duties as may be assigned to it pursuant to rules promulgated by the energy agency.

Subd. 4. A community energy conservation council shall serve only in an advisory capacity to the governing body of the city, except insofar as it may be performing duties lawfully delegated to it by the energy agency, in which case it shall exercise the authority lawfully conferred on it.

Subd. 5. Each city establishing a community energy conservation council shall provide adequate office space, equipment and supplies, clerical support and other assistance as may be necessary for the council to perform its responsibilities.

Sec. 13. Minnesota Statutes 1976, Section 394.25, Subdivision 2, is amended to read:

Subd. 2. Zoning ordinances establishing districts within which the use of land or the use of water or the surface of water pursuant to section 378.32 for agriculture, forestry, recreation, residence, industry, trade, soil conservation, water supply conservation, surface water drainage and removal, conservation of shorelands, as defined in section 105.485, and additional uses of land and of the surface of water pursuant to section 378.32, may be by official controls encouraged, regulated, or prohibited and for such purpose the board may divide the county into districts of such number, shape, and area as may be deemed best suited to carry out the comprehensive plan. Official controls may also be applied to wetlands preservation, open space, parks, sewage disposal, protection of ground water, protection of flood plains as defined in section 104.02, protection of wild, scenic or recreational rivers as defined in section 104.33, protection of slope, soils, unconsolidated materials or bedrock from potentially damaging development, preservation of forests, woodlands and essential wildlife habitat, reclamation of non-metallic mining lands; protection and encouragement of access to direct sunlight for solar energy systems as defined in section 116H.02, subdivision 11; and the preservation of agricultural lands.

Sec. 14. Minnesota Statutes 1976, Section 394.27, Subdivision 7, is amended to read:

Subd. 7. The board of adjustment shall have the exclusive power to order the issuance of variances from the terms of any official control including restrictions placed on nonconformities. Variances shall only be permitted when they are in harmony with the general purposes and intent of the official control in cases when there are

practical difficulties or particular hardship in the way of carrying out the strict letter of any official control, and when the terms of the variance are consistent with the comprehensive plan. "Hardship" as used in connection with the granting of a variance means the property in question cannot be put to a reasonable use if used under the conditions allowed by the official controls; the plight of the landowner is due to circumstances unique to his property not created by the landowner; and the variance, if granted, will not alter the essential character of the locality. Economic considerations alone shall not constitute a hardship if a reasonable use for the property exists under the terms of the ordinance. No variance may be granted that would allow any use that is prohibited in the zoning district in which the subject property is located. The board of adjustment may impose conditions in the granting of variances to insure compliance and to protect adjacent properties and the public interest. *The board of adjustment may consider the inability to use solar energy systems a "hardship" in the granting of variances.*

Sec. 15. Minnesota Statutes 1976, Section 462.12, is amended to read:

462.12 [RESTRICTED RESIDENCE DISTRICTS.] Any city of the first class may, through its council, upon petition of 50 percent of the owners of the real estate in the district sought to be affected, by resolution, designate and establish by proceedings hereunder restricted residence districts and in and by such resolution and proceedings prohibit the erection, alteration, or repair of any building or structure for any one or more of the purposes hereinafter named, and thereafter no building or other structure shall be erected, altered or repaired for any of the purposes prohibited by such resolution and proceedings, which may prohibit the following: hotels, restaurants, eating houses, mercantile business, stores, factories, warehouses, printing establishments, tailor shops, coal yards, ice houses, blacksmith shops, repair shops, paint shops, bakeries, dyeing, cleaning and laundering establishments, billboards and other advertising devices, public garages, public stables, apartment houses, tenement houses, flat buildings, any other building or structure for purposes similar to the foregoing. Public garages and public stables shall include those, and only those, operated for gain.

Nothing herein contained shall be construed to exclude *the construction of a building which will utilize a solar energy system, nor the retrofitting of any existing building to utilize a solar energy system, so long as the building is not employed for a prohibited purpose, nor double residences or duplex houses, so-called schools, churches, or signs advertising for rent or sale the property only on which they are placed, and nothing herein contained shall be construed so as to prohibit the council of any such city of the first class from permitting the remodeling or reconstruction of the interior of any structure in any such restricted residence district which possesses a gross ground area delineated by its foundation walls of at least 1,000 square feet, so that the same shall contain separate accommodations for several, not in excess of four, fami-*

lies; provided that the substantial alteration of the exterior of any such structure shall not be authorized in any such case; and provided further, that such city council shall expressly find in each such case that such remodeling or alteration shall be consistent with the public health and safety.

No building or structure erected after the creation of such district shall be used for any purpose for which its erection shall be prohibited hereunder.

The term "council" in sections 462.12 to 462.17 means the chief governing body of the city by whatever name called.

Any district or any portion thereof created under the provisions of sections 462.12 to 462.17 may be vacated and the restrictions thereon removed by the council upon petition of 50 percent of the owners of the real estate in the original district. A portion of a restricted residence district may be vacated and relieved of the restrictions imposed thereon pursuant to sections 462.12 to 462.17 by the council upon petition of the owners of the portion of the district sought to be relieved if such portion or lot sought to be relieved does not in any part lie between other portions of such restricted district, or if the portion sought to be relieved abuts upon a public street or alley along one border of such district and extends along said public street or alley the entire distance between cross streets, or if the portion or lot sought to be relieved is contiguous to, along one or both sides, or across a public street along its entire front from a parcel of land which shall be duly zoned under a valid municipal zoning ordinance for commercial, multiple dwelling or industrial purposes. The vacation of such district or portion thereof and the removal of the restrictions therefrom shall be accomplished in the same manner herein provided for the creation of any such district, and in the vacation of any such district or any portion thereof and the removal of such restrictions each and all of the provisions of sections 462.12 to 462.17 as to allowance of damages and benefits to property affected and as to the appointment of commissioners to appraise such damages and benefits and the duties of such commissioners, of the city clerk, and of each and all of the other officers upon whom duties are herein imposed shall be complied with, and when such proceedings for the vacation of any such district or portion thereof shall have been completed, the property included within such district or portion thereof so vacated shall be deemed relieved of each and all of the restrictions imposed in the proceeding creating such district. In the allowance of damages and benefits to property affected by any proposed vacation, no evidence shall be received, or consideration given to the existence of any other restriction or any restrictive or zoning ordinance, law, or regulation.

Sec. 16. Minnesota Statutes 1976, Section 462.357, Subdivision 1, is amended to read:

462.357 [PROCEDURE FOR PLAN EFFECTUATION; ZONING.] Subdivision 1. **[AUTHORITY FOR ZONING.]** For the purpose of promoting the public health, safety, morals and general welfare, a municipality may by ordinance regulate the location, height,

bulk, number of stories, size of buildings and other structures, the percentage of lot which may be occupied, the size of yards and other open spaces, the density and distribution of population, the uses of buildings and structures for trade, industry, residence, recreation, public activities, or other purposes, and the uses of land for trade, industry, residence, recreation, agriculture, forestry, soil conservation, water supply conservation, conservation of shorelands, as defined in section 105.485, *access to direct sunlight for solar energy systems as defined in section 116H.02*, flood control or other purposes, and may establish standards and procedures regulating such uses. The regulations may divide the municipality into districts or zones of suitable numbers, shape and area. The regulations shall be uniform for each class or kind of buildings, structures or land and for each class or kind of use throughout such district, but the regulations in one district may differ from those in other districts. The ordinance embodying these regulations shall be known as the zoning ordinance and shall consist of text and maps. A city may by ordinance extend the application of its zoning regulations to unincorporated territory located within two miles of its limits in any direction, but not in a county or town which has adopted zoning regulations; provided that where two or more noncontiguous municipalities have boundaries less than four miles apart, each is authorized to control the zoning of land on its side of a line equidistant between the two noncontiguous municipalities unless a town or county in the affected area has adopted zoning regulations. Any city may thereafter enforce such regulations in the area to the same extent as if such property were situated within its corporate limits, until the county or town board adopts a comprehensive zoning regulation which includes the area.

Sec. 17. Minnesota Statutes 1976, Section 462.357, Subdivision 6, is amended to read:

Subd. 6. [APPEALS AND ADJUSTMENTS.] Appeals to the board of appeals and adjustments may be taken by any affected person upon compliance with any reasonable conditions imposed by the zoning ordinance. The board of appeals and adjustments has the following powers with respect to the zoning ordinance:

(1) To hear and decide appeals where it is alleged that there is an error in any order, requirement, decision, or determination made by an administrative officer in the enforcement of the zoning ordinance.

(2) To hear requests for variances from the literal provisions of the ordinance in instances where their strict enforcement would cause undue hardship because of circumstances unique to the individual property under consideration, and to grant such variances only when it is demonstrated that such actions will be in keeping with the spirit and intent of the ordinance. *Undue hardship includes, but is not limited to, inadequate access to direct sunlight for solar energy systems.* The board of appeals and adjustments or the governing body as the case may be, may not permit as a variance any use that is not permitted under the ordinance for property in the zone where the affected person's land is located. The board or governing body as the case may

be, may permit as a variance the temporary use of a one family dwelling as a two family dwelling. The board or governing body as the case may be may impose conditions in the granting of variances to insure compliance and to protect adjacent properties.

Sec. 18. Minnesota Statutes 1976, Section 462.358, Subdivision 2, is amended to read:

Subd. 2. [TERMS OF REGULATIONS.] Subdivision regulations shall require that a proposed subdivision plat shall be in conformity with the official map if such exist. In establishing requirements for the location and width of streets, the municipality shall take into consideration anticipated traffic needs and the prospective character of the development and make any reasonable requirements therefor. As a condition to the approval of any subdivision plat of lands to which the regulations apply, subdivision regulations may prescribe requirements concerning the extent and manner in which streets shall be graded and improved, and electric and gas distribution lines or piping, water, sewer, or other facilities shall be installed. The regulations may provide, or authorize the governing body or other platting authority to provide, that, in lieu of the completion of such work before the final approval of the plat, the governing body or platting authority may accept or require a contract secured by a cash deposit, certified check, or a bond in an amount and with surety and conditions satisfactory to it, to assure the municipality that such improvements and utilities will be actually constructed and installed according to the specifications approved by the governing body or platting authority as expressed in the contract; and the municipality may enforce such contracts by appropriate legal and equitable remedies. The subdivision regulations may require that in appropriate plots of subdivisions to be developed for residential, commercial, industrial or other uses, or as a planned development which includes residential, commercial and industrial uses, or any combination thereof, that a reasonable portion of each proposed subdivision be dedicated to the public for public use as parks, playgrounds, public open space, or storm water holding areas or ponds, or that the subdivider contribute an equivalent amount in cash based on the fair market value of the undeveloped land, as defined by the regulations, provided that cash payments received under such regulations shall be placed in a special fund by the municipality and used only for the acquisition of land for parks, playgrounds, public open space and storm water holding areas or ponds, development of existing park and playground sites, public open space and storm water holding areas or ponds, and debt retirement in connection with land previously acquired for such public purposes. The subdivision regulations, in setting forth the reasonable portion of each proposed subdivision to be dedicated to the public for public use as provided above, may take into consideration the open space, park, recreational or common areas and facilities which the subdivider has provided for the exclusive use of the residents of the subdivision.

A municipality may, through subdivision regulations, prohibit or restrict development for purposes of soil and water conser-

vation. Such soil and water conservation regulations may call for site development plans with provisions for the control of drainage, erosion, and siltation.

A municipality may, for purposes of protecting and assuring access to direct sunlight for solar energy systems, prohibit, restrict or control development through subdivision regulations. The regulations may call for subdivision development plans containing restrictive covenants, height restrictions, side yard and setback requirements, or other permissible forms of land use controls.

Sec. 19. Minnesota Statutes 1976, Section 462.358, Subdivision 6, is amended to read:

Subd. 6. [VARIANCES.] Subdivision regulations may provide for a procedure for varying the regulations as they apply to specific properties where an unusual hardship on the land exists, but variances may be granted only upon the specific grounds set forth in the regulations. *Unusual hardship includes, but is not limited to, inadequate access to direct sunlight for solar energy systems.*

Sec. 20. Minnesota Statutes 1976, Section 462.39, Subdivision 3, is amended to read:

Subd. 3. [PLANNING.] The commission shall prepare and adopt, after appropriate study and such public hearings as may be necessary, a comprehensive development plan for the region. The plan shall consist of a compilation of policy statements, goals, standards, programs, and maps prescribing guides for an orderly and economic development, public and private, of the region. The comprehensive development plan shall recognize and encompass physical, social, or economic needs of the region, and those future developments which will have an impact on the entire region including but not limited to such matters as land use, parks and open space land needs, *access to direct sunlight for solar energy systems*, the necessity for and location of airports, highways, transit facilities, public hospitals, libraries, schools, public and private, housing, and other public buildings. In preparing the development plan the commission shall use to the maximum extent feasible the resources studies and data available from other planning agencies within the region, including counties, municipalities, special districts, and subregional planning agencies, and it shall utilize the resources of the state planning agency to the same purpose. No development plan or portion thereof for the region shall be adopted by the commission until it has been submitted to the state planning agency for review and comment and a period of 60 days has elapsed after such submission. When a development plan has been adopted, the commission shall distribute it to all local government units within the region.

Sec. 21. Minnesota Statutes 1976, Section 473.05, Subdivision 1, is amended to read:

473.05 [PLANS.] Subdivision 1. The commission shall make plans for the physical, social, and economic development of its metropolitan area with the general purpose of guiding and ac-

completing a coordinated and harmonious development of the area and of public facilities, improvements, and utilities which do not begin and terminate within the boundaries of any single governmental unit or which do not relate exclusively to the development of any single governmental unit. Such plans may include, among other things, suggestions as to highways and other transportation facilities, parks and recreational facilities, *methods for protection and assuring access to direct sunlight for solar energy systems*, drainage and water supply facilities, public buildings, utilities and services, as well as suggested standards for the subdivision of land and for control over the construction, height, bulk, location and use of buildings and premises. The commission may adopt by resolution of a majority of its full membership any such plan or portion of any plan as its official recommendation for the development of the area.

Sec. 22. Minnesota Statutes 1976, Section 473.859, Subdivision 2, is amended to read:

Subd. 2. [LAND USE PLAN.] A land use plan shall designate the existing and proposed location, intensity and extent of use of land and water for agricultural, residential, commercial, industrial and other public and private purposes, or any combination of such purposes. A land use plan shall contain a protection element, as appropriate, for historic sites and the matters listed in section 473.204, *and an element for protection and development of access to direct sunlight for solar energy systems*. A land use plan shall also include a housing element containing standards, plans and programs for providing adequate housing opportunities to meet existing and projected local and regional housing needs, including but not limited to the use of official controls and land use planning to promote the availability of land for the development of low and moderate income housing.

Sec. 23. Minnesota Statutes 1976, Section 561.01, is amended to read:

561.01 [NUISANCE; ACTION.] *Subdivision 1.* Anything which is injurious to health, or indecent or offensive to the senses, or an obstruction to the free use of property, so as to interfere with the comfortable enjoyment of life or property, is a nuisance. An action may be brought by any person whose property is injuriously affected or whose personal enjoyment is lessened by the nuisance, and by the judgment the nuisance may be enjoined or abated, as well as damages recovered.

Subd. 2. An action may be brought by any person whose access to sunlight for purposes of solar energy use is substantially and injuriously affected by the construction or maintenance of a structure or the planting or growth of a tree or shrub. Notwithstanding any law to the contrary, the legislature declares that the use of solar energy systems is a reasonable use of land, and it shall be no defense to a cause of action arising under this subdivision that the use of sunlight for solar energy constitutes an abnormally sensitive use of land. In all other respects, the common law of nuisance as established in Minnesota shall control.

Sec. 24. *Subdivision 1. "Solar easement" means a right, whether or not stated in the form of a restriction, easement, covenant, or condition, in any deed, will, or other instrument executed by or on behalf of any owner of land or solar skyspace for the purpose of ensuring adequate exposure of a solar energy system as defined in section 116H.02, subdivision 11, to solar energy.*

Subd. 2. Any property owner may grant a solar easement in the same manner and with the same effect as a conveyance of an interest in real property. The easements shall be created in writing and shall be filed, duly recorded, and indexed in the office of the recorder of the county in which the easement is granted. No duly recorded solar easement shall be unenforceable on account of lack of privity of estate or privity of contract; such easements shall run with the land or lands benefited and burdened and shall constitute a perpetual easement, except that a solar easement may terminate upon the conditions stated therein or pursuant to the provisions of section 500.20.

Subd. 3. Any deed, will, or other instrument that creates a solar easement shall include, but the contents are not limited to:

(a) a description of the real property subject to the solar easement and a description of the real property benefiting from the solar easement;

(b) a description of the vertical and horizontal angles, expressed in degrees and measured from the site of the solar energy system, at which the solar easement extends over the real property subject to the solar easement, or any other description which defines the three dimensional space, or the place and times of day in which an obstruction to direct sunlight is prohibited or limited;

(c) any terms or conditions under which the solar easement is granted or may be terminated;

(d) any provisions for compensation of the owner of the real property benefiting from the solar easement in the event of interference with the enjoyment of the solar easement, or compensation of the owner of the real property subject to the solar easement for maintaining the solar easement;

(e) any other provisions necessary or desirable to execute the instrument.

Subd. 4. A solar easement may be enforced by injunction or proceedings in equity or other civil action.

Subd. 5. Any depreciation caused by any solar easement which is imposed upon designated property, but not any appreciation caused by any solar easement which benefits designated property, shall be included in the valuation of the property for property tax purposes.

Sec. 25. [GASOHOL RESEARCH.] *The legislative commission on Minnesota resources shall monitor federal activities related to research, development, and demonstration of the feasibility of producing alcohol fuel from agricultural products or wastes for blend-*

ing with gasoline and shall provide appropriate support for the development of a proposal in this area by a Minnesota agency or group.

Sec. 26. Notwithstanding the provisions of section 16.851, the date by which the state building code must be enforced within all municipalities in the state is July 1, 1979.

Sec. 27. Subdivision 1. The agricultural experiment station at the university of Minnesota in consultation with the Minnesota energy agency shall carry out research and allocate funds to develop a methodology for biomass utilization to optimize economic, energy and environmental impact in the use of grain and residues for food, fuel and fertilizer. The research shall address the impact of residue removal on soils, optimal use of residue materials, and the preservation of the quality of Minnesota's soils. The agricultural experiment station shall provide a report of the results to the legislature in January, 1980, including recommendations for implementation. The report shall include charts and data and shall be provided to serve as a decision-making tool for farmers and landowners for both cropping and residue removal. The energy agency shall seek additional federal funding in order to develop a state-wide field study of biomass removal and land management techniques and to determine the long-term effects of various biomass utilization options.

Subd. 2. The energy agency shall issue a request for proposal for the construction and operation of a small scale (approximately 20 to 50 gallons per day) pilot plant for the production of ethanol. The plant shall operate and produce ethanol from more than one resource, though not necessarily simultaneously. One of the resources must be agricultural, forest, or wetland residue such as but not limited to corn stalks, straw, cattails or timber slash. The pilot plant should be portable if possible. The plant shall operate for at least one and one-half years through at least one growing season and a report shall be provided to the Minnesota energy agency in October, 1979. A 25 percent match shall be required in the selected proposal. The department of biochemistry at the university of Minnesota shall provide instrumentation and monitor the processes. The department of mechanical engineering shall test the fuel in internal combustion engines and provide horsepower, fuel consumption and related data. Each organization shall provide a written report to the Minnesota energy agency which shall in turn assemble all information for the report to the legislature in January, 1980.

Sec. 28. [APPROPRIATIONS.] Subdivision 1. For the year ending June 30, 1979, the sum of \$18,000 is appropriated from the general fund to the department of administration for the purposes of section 4.

Subd. 2. The sum of \$80,000 of the funds appropriated pursuant to Laws 1976, Chapter 254, Section 16, Clause (e), shall be used for the purpose of studying and reporting to the legislature by January 15, 1979, on existing loan programs for the rehabilitation of low and moderate income rental housing for energy conservation

purposes. In particular, the study shall focus on the financial impact of rehabilitation and energy conservation programs on tenants. The director shall also include in the report to the legislature his recommendations for additional legislation for energy conservation programs for low and moderate income rental housing, and for methods of protecting tenants from unreasonable costs as a result of such programs.

Subd. 3. The sum of \$99,000 is appropriated from the general fund to the director of the energy agency for the purpose of assisting the community energy conservation councils authorized by section 12 to be available until June 30, 1979.

Subd. 4. For the purposes provided in section 26, the following sums are appropriated from the general fund:

\$10,000 to the director of the energy agency to administer and monitor the ethanol study and pilot project.

\$50,000 to the director of the energy agency for construction and operation of a pilot plant for the production of ethanol.

In addition, \$75,000 is appropriated from the general fund to the regents of the university of Minnesota to be expended in the following manner:

\$50,000 to the agricultural experiment station at the university of Minnesota, St. Paul, to administer and carry out research as provided in section 26.

\$18,000 to the department of biochemistry to instrument and monitor the pilot plant.

\$2,000 to the department of mechanical engineering for product testing for the pilot plant.

\$5,000 to the agricultural extension service at the university of Minnesota for publications for farmers and the general population on the research and pilot plant results.

The funds appropriated by this subdivision shall be available until expended.

Sec. 29. [EFFECTIVE DATE.] This act shall be effective the day after enactment, except that section 3, subdivision 7, shall be effective on October 1, 1979; section 5, subdivision 4, on July 1, 1983; section 8, subdivision 2, on December 1, 1979."

297B.01 [DEFINITIONS.] Subdivision 1. The following words, terms and phrases when used in ~~Laws 1971, Chapter 853, this chapter~~ shall have the meaning ascribed to them in this section except where the context clearly indicates a different meaning.

Sec. 14. Minnesota Statutes 1976, Section 297B.01, Subdivision 8, is amended to read:

Subd. 8. "Purchase price" means the total consideration valued in money for a sale, whether paid in money or otherwise, provided however, that when a motor vehicle is taken in trade as a credit or as part payment on a motor vehicle taxable under ~~Laws 1971, Chapter 853, this chapter~~ the credit or trade-in value allowed by the person selling the motor vehicle shall be deducted from the total selling price to establish the purchase price of the vehicle being sold and the trade-in allowance allowed by the seller shall constitute the purchase price of the motor vehicle accepted as a trade-in. The purchase price in those instances where the motor vehicle is acquired by gift or by any other transfer for a nominal or no monetary consideration shall also include the average value of similar motor vehicles, established by standards and guides as determined by the motor vehicle registrar. The purchase price in those instances where a motor vehicle is manufactured by a person who registers it under the laws of this state shall mean the manufactured cost of such motor vehicle and manufactured cost shall mean the amount expended for materials, labor and other properly allocable costs of manufacturers, except that in the absence of actual expenditures for the manufacture of a part or all of the motor vehicle, manufactured costs shall mean the reasonable value of the completed motor vehicle. The term "purchase price" shall not include the transfer of a motor vehicle by way of gift between a husband and wife or parent and child, nor shall it include the transfer of a motor vehicle by a guardian to his ward when there is no monetary consideration and the title to such vehicle was registered in the name of the guardian, as guardian, only because the ward was a minor.

Sec. 15. Minnesota Statutes 1976, Section 297B.06, is amended to read:

297B.06 [REGISTRATION NOT TO BE ISSUED UNLESS TAX PAID.] No registration plates or certificate shall be issued by the motor vehicle registrar for the ownership or operation of any motor vehicle to any applicant for registration other than for those vehicles which have been previously registered and the applicant for registration is the same person in whose name the regis-

tration had previously been issued or other than for those vehicles exempt from the tax under other sections of Laws 1971, Chapter 853, unless the tax taxes imposed by section 297B.02 and section 23 shall be paid by the applicant to the motor vehicle registrar.

Sec. 16. Minnesota Statutes 1976, Section 297B.07, is amended to read:

297B.07 [PRESUMPTION.] For the purpose of the proper administration of ~~Laws 1971, Chapter 853~~ *this chapter* and to prevent evasion of the tax, the following presumptions shall apply:

(1) Evidence that a motor vehicle was sold for delivery in this state shall be prima facie evidence that it was sold for use in this state.

(2) When an application for registration plates for a motor vehicle is received by the motor vehicle registrar within 30 days of the date it was purchased or acquired by the purchaser, it shall be presumed, until the contrary is shown by the purchaser, that it was purchased or acquired for use in this state. This presumption shall apply whether or not such vehicle was previously titled or registered in another state.

Sec. 17. Minnesota Statutes 1976, Section 297B.08, is amended to read:

297B.08 [CREDIT FOR EXCISE TAX PAID IN OTHER STATES; RECIPROCITY.] If any motor vehicle has been or is subject to a tax by any other state in respect to its sale or use, in an amount less than the tax imposed by ~~Laws 1971, Chapter 853 section 297B.02~~, the provisions of ~~Laws 1971, Chapter 853 sections 297B.01 to 297B.13~~, shall apply, but at a rate measured by the difference only between the rate fixed in ~~Laws 1971, Chapter 853 section 297B.02~~, and the rate by which the previous tax paid in the other state upon the sale or use was computed. If the rate of tax imposed in such other state is the same or more than the rate of tax imposed by ~~Laws 1971, Chapter 853 section 297B.02~~, then no tax shall be due on such motor vehicle. The provisions of this section shall apply only if such other state allows a credit with respect to the excise tax imposed by ~~Laws 1971, Chapter 853 section 297B.02~~, which is substantially similar in effect to the credit allowed by this section.

Sec. 18. Minnesota Statutes 1976, Section 297B.09, is amended to read:

297B.09 [ALLOCATION OF REVENUE.] All moneys collected and received under ~~Laws 1971, Chapter 853, this chapter~~ shall be allocated monthly by the motor vehicle registrar to the state commissioner of revenue and by him shall be paid to the state treasurer and shall be deposited as provided in section 297A.44.

Sec. 19. Minnesota Statutes 1976, Section 297B.10, is amended to read:

297B.10 [PENALTIES.] (1) Any person who shall complete or submit a false or fraudulent motor vehicle purchaser's certificate

with intent to defeat or evade the ~~tax~~ taxes imposed under Laws 1971, Chapter 853, *this chapter* shall be guilty of a misdemeanor and for each such offense shall be fined not to exceed \$500 or shall be imprisoned in the county jail not to exceed one year, or shall be subject to both such fine and imprisonment, in the discretion of the court.

(2) Any person who shall violate any of the provisions of Laws 1971, Chapter 853 *this chapter* shall, unless the violation be of the type referred to in clause (1), be guilty of a misdemeanor and shall be punished by a fine of not less than \$50 nor more than \$100 or by imprisonment in the county jail for not less than 30 days, or both such fine and imprisonment.

Sec. 20. Minnesota Statutes 1976, Section 297B.11, is amended to read:

297B.11 [MOTOR VEHICLE REGISTRAR TO ACT AS AGENT OF COMMISSIONER OF REVENUE IN ADMINISTRATION OF MOTOR VEHICLE EXCISE TAX.] The state commissioner of revenue is charged with the administration of Laws 1971, Chapter 853 *this chapter*. The commissioner may prescribe all rules and regulations not inconsistent with the provisions of Laws 1971, Chapter 853 *this chapter*, necessary and advisable for the proper and efficient administration of Laws 1971, Chapter 853 *this chapter*. The collection of ~~this the~~ motor vehicle excise ~~tax~~ taxes imposed by *this chapter* shall be carried out by the motor vehicle registrar who shall act as the agent of the commissioner and who shall be subject to all rules and regulations not inconsistent with the provisions of Laws 1971, Chapter 853, *this chapter* that may be prescribed by the commissioner. The provisions of Laws 1971, Chapter 853 *this chapter*, shall not be construed as preventing the collection of motor vehicle excise taxes by the commissioner of revenue in the course of any audit carried on by the commissioner of revenue.

Sec. 21. Minnesota Statutes 1976, Section 297B.12, is amended to read:

297B.12 [CONFIDENTIAL NATURE OF INFORMATION.] It shall be unlawful for the motor vehicle registrar, deputy registrars or any other public official or employee to divulge or otherwise make known in any manner any particulars disclosed in any purchaser's certificate or any information concerning affairs of any person making such certificate acquired from his records, officers or employees except in connection with the proceeding involving taxes due under Laws 1971, Chapter 853 *this chapter*. Nothing herein contained should be construed to prohibit the publishing of statistics so classified as not to disclose the identity of particular purchasers' certificates and the contents thereof. Any person violating the provisions of this section shall be guilty of a gross misdemeanor.

Sec. 22. Minnesota Statutes 1976, Chapter 297B, is amended by adding a section to read:

[297B.20] [TITLE.] Sections 22 and 23 may be cited as the "energy conservation transportation excise tax act".

If the amount of tax imposed by the other state is the same or more than the amount of tax imposed by this section, then no tax shall be due under this section. "Sec. 23. Minnesota Statutes 1976, Section 474.01, Subdivision 4, is amended to read:

Subd. 4. Other factors necessitating such action are the increasing concentration of population in urban and metropolitan areas; the consequent increase in the amount and cost of governmental services required in these areas; *the energy crisis and energy cost escalation, and their contribution to inflation, unemployment, rising interest rates, balance of payments deficits and increased welfare payments to cover rising fuel costs and the increased costs of fuel-intensive necessities*; and the need for more intensive development and use of land to provide an adequate tax base to finance these costs. The effect of these factors is intensified by the necessity of withdrawing land for public use for highways, parks and open space reserves, schools and playgrounds, and other public enterprises needed to sustain proper living conditions, communications, and mobility in an increasingly urban society.

Sec. 24. Minnesota Statutes 1976, Section 474.02, is amended by adding a subdivision to read:

Subd. 1c. The term "project" as used in sections 474.01 to 474.13 also means the activities of any revenue-producing enterprise in-

volving the construction, fabrication, sale or leasing of equipment or products to be used in generating, transmitting or distributing solar, wind, geothermal or other alternative energy source for use by any person or any residential, commercial, industrial or governmental entity in heating, cooling or otherwise providing energy for a facility owned or operated by that person or entity.

Sec. 25. Minnesota Statutes 1976, Section 474.02, is amended by adding a subdivision to read:

Subd. 9. "Alternative energy" means any energy source which does not depend upon nuclear fuel or non-renewable fossil fuel, or which makes available another energy source which currently is wasted and which includes, but is not limited to, cogeneration or district heating.

Sec. 26. Minnesota Statutes 1976, Section 474.03, is amended to read:

474.03 [POWERS.] Any municipality or redevelopment agency, in addition to the powers prescribed elsewhere by the laws of this state, shall have the power to:

(1) Acquire, construct, and hold any lands, buildings, easements, water and air rights, improvements to lands and buildings, and capital equipment to be located permanently or used exclusively on a designated site and solid waste disposal and pollution control equipment, *and alternative energy equipment and inventory*, regardless of where located, which are deemed necessary in connection with a project to be situated within the state, whether wholly or partially within or without the municipality or redevelopment agency, and construct, reconstruct, improve, better, and extend such project;

(2) Issue revenue bonds, in anticipation of the collection of revenues of such project, to finance, in whole or in part, the cost of the acquisition, construction, reconstruction, improvement, betterment, or extension thereof *and, in the case of an alternative energy project, in addition to the other powers granted by this chapter, to finance the acquisition and leasing or sale of equipment and products to others* ;

(3) Enter into a revenue agreement with any person, firm, or public or private corporation or federal or state governmental subdivision or agency in such manner that payments required thereby to be made by the contracting party shall be fixed, and revised from time to time as necessary, so as to produce income and revenue sufficient to provide for the prompt payment of principal of and interest on all bonds issued hereunder when due, and the revenue agreement shall also provide that the contracting party shall be required to pay all expenses of the operation and maintenance of the project including, but without limitation, adequate insurance thereon and insurance against all liability for injury to persons or property arising from the operation thereof, and all taxes and special assessments levied upon or with respect to the project and payable during the term of the revenue agreement, during which term a tax shall be imposed and collected pursuant to the pro-

visions of section 272.01, subdivision 2, for the privilege of using and possessing the project, in the same amount and to the same extent as though the contracting party were the owner of all real and personal property comprising the project;

(4) Pledge and assign to the holders of such bonds or a trustee therefor all or any part of the revenues of one or more projects and define and segregate such revenues or provide for the payment thereof to a trustee, whether or not such trustee is in possession of the project under a mortgage or otherwise;

(5) Mortgage or otherwise encumber such projects in favor of the municipality or redevelopment agency, the holders of such bonds, or a trustee therefor, provided that in creating any such mortgages or encumbrances a municipality or redevelopment agency shall not have the power to obligate itself except with respect to the project;

(6) Make all contracts, execute all instruments, and do all things necessary or convenient in the exercise of the powers herein granted, or in the performance of its covenants or duties, or in order to secure the payment of its bonds; including, but without limitation, a contract entered into prior to the construction of the project authorizing the contracting party, subject to such terms and conditions as the municipality or redevelopment agency shall find necessary or desirable and proper, to provide for the construction, acquisition, and installation of the buildings, improvements, and equipment to be included in the project by any means available to the contracting party and in the manner determined by the contracting party and without advertisement for bids as may be required for the construction or acquisition of other municipal facilities;

(7) Enter into and perform such contracts and agreements with other municipalities, political subdivisions, and state agencies, authorities, and institutions as the respective governing bodies of the same may deem proper and feasible for or concerning the planning, construction, lease, purchase, mortgaging or other acquisition, and the financing of a project, and the maintenance thereof, including an agreement whereby one municipality issues its revenue bonds in behalf of one or more other municipalities, which contracts and agreements may establish a board, commission, or such other body as may be deemed proper for the supervision and general management of the facilities of the project; provided, no municipality or redevelopment agency shall enter into or perform any contract or agreement with any school district under which the municipality or redevelopment agency issues its revenue bonds or otherwise provides for the construction of school facilities and the school leases or otherwise acquires these facilities;

(8) Accept from any authorized agency of the federal government loans or grants for the planning, construction, acquisition, leasing, purchase, or other provision of any project, and enter into agreements with such agency respecting such loans or grants;

(9) Sell and convey all properties acquired in connection with such projects, including without limitation the sale and conveyance thereof subject to such mortgage as herein provided, and the sale and conveyance thereof under an option granted to the lessee of the project, for such price, and at such time as the governing body of the municipality or redevelopment agency may determine, provided, however, that no sale or conveyance of such properties shall ever be made in such manner as to impair the rights or interests of the holder, or holders, of any bonds issued under the authority of this chapter;

(10) Issue revenue bonds to refund, in whole or in part, bonds previously issued by such municipality or redevelopment agency under authority of this chapter;

(11) If so provided in the revenue agreement, terminate the agreement and re-enter or repossess the project upon the default of the contracting party, and operate, lease, or sell the project in such manner as may be authorized or required by the provisions of the revenue agreement or of the resolution or indenture securing the bonds issued for the project; any revenue agreement which includes provision for a conveyance of real estate to the contracting party may be terminated in accordance with the revenue agreement, notwithstanding that such revenue agent may constitute an equitable mortgage provided that no municipality or redevelopment agency shall have power otherwise to operate any project referred to in this chapter as a business or in any manner whatsoever, and nothing herein authorizes any municipality or redevelopment agency to expend any funds on any project herein described, other than the revenues of such projects, or the proceeds of revenue bonds and notes issued hereunder, or other funds granted to the municipality or redevelopment agency for the purposes herein contemplated, except as may be otherwise permitted by law and except to enforce any right or remedy under any revenue agreement or related agreement for the benefit of the bondholders or for the protection of any security given in connection with a revenue agreement, provided that the public cost of redevelopment of land paid by a city or its redevelopment agency shall not be deemed part of the cost of any project situated on such land;

(12) Invest or deposit, or authorize a trustee to invest or deposit, any money on hand in funds or accounts established in connection with a project or payment of bonds issued therefor, to the extent they are not presently needed for the purposes for which such funds or accounts were created, in accordance with section 471.56, as amended; and

(13) Waive or require the furnishing of a contractors payment and performance bond of the kind described in section 574.26 and if such bond shall be required, then the provisions of chapter 514 relating to liens for labor and materials, shall not be applicable in respect of any work done or labor or materials supplied for the project, and if such bond be waived

then the said provisions of chapter 514 shall apply in respect of work done or labor or materials supplied for the project.

Sec. 27. Minnesota Statutes 1976, Chapter 474.04, is amended to read:

474.04 [AUTHORIZATION OF PROJECTS AND BONDS.] The acquisition, construction, reconstruction, improvement, betterment, or extension of any project, the execution of any revenue agreement or mortgage pertaining thereto, and the issuance of bonds in anticipation of the collection of the revenues of such project to provide funds to pay for the cost thereof, may be authorized by an ordinance or resolution of the governing body adopted at a regular or duly called special meeting thereof by the affirmative vote of a majority of its members, *provided, however, that such vote may not be taken unless at least 30 days before the vote, the governing body first publishes notice in print not smaller than eight (8) point type of the proposed action in a newspaper having general circulation in the area of the governing body by stating the general nature and the estimated cost of the project and the date the vote is to be taken.* No election shall be required to authorize the use of any of the powers conferred by this chapter. March 14, 1978

The Honorable Martin O. Sabo
Speaker of the House of Representatives

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 85 report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and that H. F. No. 85, be amended as follows:

Strike everything after the enacting clause and insert:

“Section 1. [15.0595] [APPOINTMENTS TO MULTI-MEMBER AGENCIES.] Subdivision 1. [DEFINITIONS.] As used in this section, the following terms shall have the meanings given them.

(a) “Agency” means (1) a state board, commission, council, committee, authority, task force or other similar multi-member agency created by statute and having statewide jurisdiction; and (2) the metropolitan council, metropolitan transit commission, metropolitan airports commission, metropolitan parks and open space commission, metropolitan sports facilities commission, met-

ropolitan waste control commission, capitol area architectural and planning board, and any agency with a regional jurisdiction created in this state pursuant to an interstate compact.

(b) "Vacancy" or "vacant agency position" means (1) a vacancy in an existing agency, or (2) a new, unfilled agency position; provided that "agency" shall not mean (1) a vacant position on an agency composed exclusively of persons employed by a political subdivision or another agency, or (2) a vacancy to be filled by a person required to have a specific title or position.

(c) "Secretary" means the secretary of state.

Subd. 2. [COLLECTION OF DATA.] The chairman of an existing agency, or the appointing authority for the members of a newly created agency, shall provide the secretary, on forms prepared and distributed by the secretary, with the following data pertaining to that agency:

(a) The name of the agency, its mailing address, and telephone number;

(b) The legal authority for the creation of the agency and the name of the person appointing agency members;

(c) The powers and duties of the agency;

(d) The number of authorized members, together with any prescribed restrictions on eligibility such as employment experience or geographical representation;

(e) The dates of commencement and expiration of the membership terms and the expiration date of the agency, if any;

(f) The compensation of members, and appropriations or other funds available to the agency;

(g) The regular meeting schedule, if any, and approximate number of hours per month of meetings or other activities required of members;

(h) The roster of current members, including mailing addresses and telephone numbers; and

(i) A breakdown of the membership showing distribution by county and legislative district, and, only if the member has voluntarily supplied the information, the sex, political party preference or lack thereof, race and national origin of the members.

Subd. 3. [PUBLICATION OF AGENCY DATA.] The secretary of state shall provide for periodic updating of the required data and shall annually arrange for the publication in the state register of the compiled data from all agencies on or about November 15 of each year. Beginning in 1979, the compilation may be published together with the agency descriptions required by section 15.0412, subdivision 2. Copies of the compilation shall be delivered to the governor and the legislature. Copies of the compilation shall be made available by the secretary to any interested person at cost, and copies shall be available for viewing by interested persons and for sale. The chairman of an agency who does not submit data

required by this section or section 15.0412, subdivision 2, or who does not notify the secretary of a vacancy in his agency, shall not be eligible for a per diem or expenses in connection with agency service until December 1 of the following year.

Subd. 4. [NOTICE OF VACANCIES.] The chairman of an agency, in respect to vacancies in existing agencies, or the appointing authority, in respect to newly created agency positions, shall notify the secretary of a vacancy within 15 days after the occurrence of the vacancy. Every 15 days the secretary shall prepare a list of all vacancies in state agencies, together with a list of the vacancies scheduled to occur within the next 45 days as a result of the expiration of membership terms or the creation of new agency positions. This listing shall be published in the next available issue of the state register, and one copy of the listing shall be made available at the office of the secretary to any interested person. The secretary shall distribute by mail copies of the listings to requesting persons. The listing for all vacancies scheduled to occur in the month of January shall be published in the state register together with the compilation of agency data required to be published pursuant to subdivision 3.

Subd. 5. [NOMINATIONS FOR VACANCIES.] Any person may nominate himself to be appointed to an agency vacancy by completing an application on a form prepared and distributed by the secretary. Any person or group of persons may, on a similar application form, nominate another person to be appointed to a vacancy so long as the person so nominated consents in writing on the application form to the nomination. The application form shall specify the nominee's name, mailing address, telephone number, preferred agency position sought, a statement that the nominee satisfies any legally prescribed qualifications, and any other information the nominating person feels would be helpful to the appointing authority. The application form shall permit the nominating person at his discretion to indicate the nominee's sex, political party preference or lack thereof, race and national origin. If a person submits an application at the behest of or upon the suggestion of an appointing authority, the person shall so indicate on the application form. The secretary shall, upon 15 days after publication of a vacancy in the state register or upon 15 days prior to a scheduled vacancy, whichever date occurs first, submit copies of all applications received for a position to the appointing authority charged with filling the vacancy. If no applications have been received by the secretary for the vacant position by the date he is required to submit copies to the appointing authority, he shall so inform the appointing authority. Applications received by the secretary shall be deemed to have expired one year after receipt of the application or upon appointment and, if required, advice and consent by the senate to a vacancy, whichever occurs first. An application for a particular agency position shall be deemed to be an application for all vacancies in that agency occurring prior to the expiration of the application.

Subd. 6. [APPOINTMENTS.] In making an appointment to a vacant agency position, the appointing authority shall consider applications for positions in that agency supplied by the secretary.

No appointing authority may appoint someone to a vacant agency position until (1) ten days after receipt of the applications for positions in that agency from the secretary or (2) receipt of notice from the secretary that no applications have been received for vacant positions in that agency. The appointing authority shall issue a public announcement and inform the secretary of the name of the person the appointing authority intends to appoint to fill the agency vacancy at least five days before the date of appointment. If the appointing authority intends to appoint a person other than one for whom an application was submitted pursuant to this section, the appointing authority shall complete an application form on behalf of the appointee and submit it to the secretary. If the appointment requires the advice and consent of the senate, the secretary shall, prior to consideration by the senate of the appointment, supply the president of the senate with a copy of the application, together with a copy of any documents which the appointee is required by virtue of his appointment to submit to the ethical practices board. With respect to the ethical practices board, the secretary shall also submit a copy of the application and documents to the speaker of the house of representatives prior to consideration of the appointment by the house of representatives.

Subd. 7. [REPORT.] Together with the compilation required in subdivision 3, the secretary shall annually deliver to the governor and the legislature a report containing the following information:

(a) Vacancies occurring in the preceding year;

(b) The number of vacancies occurring as a result of scheduled ends of terms, unscheduled vacancies and the creation of new positions;

(c) Breakdowns by county, legislative district and, if known, the sex, political party preference or lack thereof, race and national origin, for members whose agency membership terminated during the year and appointees to the vacant positions; and

(d) The number of vacancies filled from applications submitted by (1) the appointing authorities for the positions filled, (2) nominating persons and self-nominees who submitted applications at the behest of or upon the suggestion of appointing authorities, and (3) all others.

Sec. 2. [TRANSFER.] If the commissioner of administration with the approval of the governor determines that the administration of the open appointment process provided for in this act more properly belongs in another agency of the state, he may, on or after July 1, 1981, transfer this function to that agency by reorganization order.

Sec. 3. [APPROPRIATION.] There is appropriated from the general fund to the secretary of state for the period ending June 30, 1979, the sum of \$5,000 for the administration of this act.

Sec. 4. [EFFECTIVE DATE.] This act is effective the day after final enactment in respect to all vacancies occurring after July 1, 1978."

Further, delete the title and insert:

“A bill for an act relating to governmental agencies; providing for an open appointment process; requiring reports from appointing authorities and the secretary of state; providing for publication of agency vacancies; appropriating money.”

We request adoption of this report and repassage of the bill.

The Honorable Martin O. Sabo
Speaker of the House of Representatives

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 2192, report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and that H. F. No. 2192, be amended as follows:

Strike everything after the enacting clause and insert:

“Section 1. [222.55] [RAIL USER LOAN GUARANTEE PROGRAM; PURPOSE.] *In order to aid rail users in obtaining credit for participation in contracts for rail line rehabilitation, there is established a rail user loan guarantee program to provide state money in guarantee of loans made according to the provisions of sections 1 to 8.*

Sec. 2. [222.56] [DEFINITIONS.] *Subdivision 1. For purposes of sections 1 to 8 the terms defined in this section have the meanings given.*

Subd. 2. “Commissioner” means the commissioner of transportation.

Subd. 3. “Account” means the rail user loan guarantee account created by section 3.

Subd. 4. “Lender” means any state or federally chartered bank, or in the case of revenue bonds issued under chapter 362A or 474, the municipality, county or rural development financing authority.

Subd. 5. “Loan” means a loan or advance of credit to a rail user for participation in contracts for rail line rehabilitation.

Subd. 6. “Personal guarantee” means a personal or corporate obligation to pay the loan.

Subd. 7. “Rail user” has the meaning given that term in section 222.48, subdivision 6.

Sec. 3. [222.57] [RAIL USER LOAN GUARANTEE ACCOUNT.] *There is created a rail user loan guarantee account in the special revenue fund in the state treasury, which shall be used by the commissioner for carrying out the provisions of sections 1 to 8 with respect to loans insured under section 4.*

Sec. 4. [222.58] [INSURANCE OF LOANS.] *Subdivision 1. [AUTHORIZATION.] The commissioner is authorized, upon application by the lender, to insure any eligible loan as provided in this section and, under such terms as the commissioner may prescribe by rule, to make commitments for insuring such loans prior to the date of their execution or disbursement.*

Subd. 2. [ELIGIBILITY REQUIREMENTS.] A loan is eligible for insurance under this section under the following conditions:

(a) The loan shall be in an original principal amount, bear an interest rate, contain complete amortization provisions, and have a maturity satisfactory under such terms as the commissioner may prescribe by rule.

(b) The proceeds of the loan shall be used solely for participation in contracts for capital investment loans for rail line rehabilitation.

(c) The loan agreement shall contain such terms and provisions with respect to any other matters as the commissioner may, in his discretion, prescribe.

(d) The borrower provides a personal guarantee and collateral for the loan which is acceptable to the commissioner as sufficient security to protect the interests of the state.

Subd. 3. [PRESUMPTIVE VALIDITY.] Any contract of insurance executed by the commissioner under this section shall be conclusive evidence of the eligibility of the loan for insurance, and the validity of any such contract of insurance properly executed and in the hands of any approved lender shall not be contestable, except for fraud or misrepresentation on the part of the lender.

Subd. 4. [PROCEDURES UPON DEFAULT.] Except as provided in subdivision 5, the provisions of this subdivision shall apply upon default. Within 90 days of a default on a loan, the lender shall send notice to the borrower stating that the commissioner must be notified if the default continues for another 90 days, and the consequences of that default. The lender shall send a copy of the notice to the commissioner. The lender and the borrower may agree to take any steps reasonable to assure the fulfillment of the loan obligation.

After 180 days from the initial default, if the borrower has not made arrangements to meet his obligation, the lender shall file a claim with the commissioner, identifying the loan and the nature of the default. Upon the lender's assignment, transfer, and delivery to the commissioner, within 210 days of the initial default, all rights and interest arising under the loan and any other security interests securing the loan, the commissioner shall pay to the lender from the account an amount equal to the outstanding unpaid principal indebtedness at the time of default less ten percent, plus interest at six percent per annum from the date of default. The failure of the borrower to make any payment under or as provided by any loan insured under this section shall be considered a default under the loan.

Subd. 5. [PROCEDURES UPON DEFAULT; REVENUE BOND PROJECTS.] If the loan money is obtained by the lender through the issuance of revenue bonds under chapter 362A or 474 the provisions of this subdivision shall apply upon default. If the borrower fails to make any payment under or as provided by the loan agreement and remains in default for a period of 15 days, the

trustee designated by the lender shall send a notice of the default to the commissioner and to the borrower. After 90 days from the initial default if the borrower remains in default under the loan agreement, the trustee shall file a claim with the commissioner, identifying the loan and the nature of the default. Within ten days of the assignment, transfer, and delivery to the commissioner of all the lender's rights and interests arising under the loan and any other security interests securing the loan, the commissioner shall pay to the trustee from the account an amount equal to the outstanding unpaid principal indebtedness at the time of the default less ten percent, plus interest at six percent per annum from the date of default.

Subd. 6. [REPORT TO LEGISLATURE.] On or before January 1 of each year the commissioner shall submit a report to the legislature, as provided in section 3.195, concerning the actions of the commissioner under this section.

Sec. 5. [222.59] [INVESTMENT OF FUNDS.] Money in the account not needed for the current operations of the commissioner related to insurance under section 4 may be deposited with the state board of investment. The board of investment may invest this money as provided for investment of moneys in the state treasury by section 11.10. All interest and profits accruing from investment of the account's money shall be credited to and be a part of the account, and any loss incurred in the principal of the investments of the account shall be borne by the account.

Sec. 6. [222.60] [MAXIMUM AMOUNT OF INSURANCE WHICH MAY BE ISSUED.] Subdivision 1. The commissioner shall not at any time issue insurance under section 4 aggregating in excess of an amount equal to the current balance contained in the account multiplied by ten.

Subd. 2. Any insurance properly issued under the provisions of subdivision 1 and otherwise in compliance with the requirements of sections 1 to 8 shall be valid if the current balance contained in the account subsequently falls below the amount specified in subdivision 1.

Sec. 7. [222.61] [TEMPORARY RULEMAKING AUTHORITY.] The commissioner may exercise temporary rulemaking authority as provided in section 15.0412, subdivision 5, to implement the provisions of sections 1 to 8. The commissioner shall solicit information and opinions from outside his department as provided in section 15.0412, subdivision 6, before adopting these rules. Notwithstanding the provisions of section 15.0412, subdivision 5, rules adopted pursuant to this section shall be effective until permanent rules are adopted pursuant to chapter 15 or until October 1, 1979, whichever occurs first.

Sec. 8. [222.62] [COOPERATION OF OTHER STATE AGENCIES.] Upon the request of the commissioner, the commissioner of economic development, the commissioner of banks, and the commissioner of securities shall provide technical assistance and shall otherwise cooperate in carrying out the provisions of sections 1 to 8.

Sec. 9. Minnesota Statutes 1976, Section 222.50 is amended by adding a subdivision to read:

Subd. 6. The commissioner may approve grants from the rail service improvement account for payment of the local share of the cost of any rail line project under the rail service continuation program established by the Railroad Revitalization and Regulatory Reform Act of 1976, Public Law 94-210, Section 803, provided that the amount of any grant shall not exceed the amount of state tax revenue attributable to the project rail line during the last year of operation of the line preceding the year in which the grant is approved.

Sec. 10. Minnesota Statutes 1976, Section 362A.01, Subdivision 2, is amended to read:

Subd. 2. The purposes of a rural development financing authority shall be:

(a) to acquire, construct, improve and equip projects comprising real and personal property within or outside the state, used or useful for processing products of agriculture, including but not limited to assembling, fabricating, manufacturing, mixing, storing, warehousing, distributing, selling or any one or more or all of these processes. (b) to investigate, improve and develop methods of constructing, operating and financing such projects;

(c) to provide for the operation and maintenance of each project under an operating or lease agreement with a person, firm, or corporation considered qualified by experience and financial resources to assure that to the limit of its design and capacity it will make facilities for efficient and economical processing of agricultural products available throughout the term of the agreement to all producers contracting therefor;

(d) to promote agricultural, industrial and scientific research in cooperation with state institutions of higher learning and profit or nonprofit private corporations, associations or foundations;

(e) to assist in promoting new job opportunities through the development of natural resources and the agricultural industry by cooperating with private companies and with agencies of the federal and state governments and with agencies and political subdivisions of other states and of foreign nations to engage in the processing of agricultural products;

(f) to enter into contracts with or to employ financial, management, and production consultants, and scientific and economic specialists to develop and assist in promoting the purposes of the authority and to assist in operating, maintaining, constructing and financing authority projects; and

(g) to employ a financial management company to assist in organizing, initiating, developing and operating projects for the authority under such terms and conditions as may be agreed upon

between the authority and the company and to include any fee charged or to be charged by the company in the total capital costs of each project to be financed ; and

(h) to provide financial or other assistance to rail users as defined in section 222.48, subdivision 6, for the purpose of making capital investment loans for rail line rehabilitation.

Sec. 11. Minnesota Statutes 1976, Section 474.02, Subdivision 2, is amended to read:

Subd. 2. "Municipality" means any city and any town described in section 368.01 and any county where the project is located outside the boundaries of a city or a town described in section 368.01. In all cases in which a project involves telephonic communications conducted by or to be conducted by a telephone company, *or financial or other assistance to rail users as defined in section 222.48, subdivision 6, for the purpose of making capital investment loans for rail line rehabilitation,* "municipality" also means any county.

Sec. 12. [APPROPRIATIONS.] *Subdivision 1. The commissioner of transportation may transfer an amount not to exceed \$500,000 from the unencumbered balance in the rail service improvement account to the rail user loan guarantee account to be used solely for insurance of loans as provided in sections 1 to 8. Any amount so transferred is appropriated for the purposes of sections 1 to 8. None of the funds so appropriated shall cancel but shall be available until expended.*

Subd. 2. The commissioner of transportation may establish one additional unclassified position for administration of the rail user loan guarantee program. An amount not to exceed \$25,000 is appropriated from the trunk highway fund to establish the position provided by this subdivision and an identical amount is appropriated from the rail service improvement account for transfer by the commissioner of finance to the trunk highway fund to reimburse the trunk highway fund for the amount appropriated for that position. The appropriations and the position provided by this subdivision are contingent upon approval of the governor after consultation with the legislative advisory commission pursuant to section 3.30, and if approved, are available until June 30, 1979.

Sec. 13. [EFFECTIVE DATE.] *This act is effective the day following final enactment."*

Sec. 2. Minnesota Statutes 1976, Section 169.91, Subdivision 3, is amended to read:

Subd. 3. [NOTICE TO APPEAR.] When a person is arrested for any violation of this chapter or any other law relating to motor vehicles, their registration or the operation thereof, or the use of the highways, the arresting officer shall prepare, ~~in quadruplicate,~~ a written notice to appear in court. This place must be before a magistrate within the county in which the offense charged is alleged to have been committed who has jurisdiction and is nearest or most accessible with reference to the place of arrest.

In order to secure release, if the arrested person is eligible for release, without being taken into custody and immediately taken before a magistrate, as provided in this section, and acts amendatory thereof, the arrested person must give his written promise so to appear in court by signing, ~~in quadruplicate,~~ the written notice prepared by the arresting officer. The officer shall retain the original of the notice and deliver the copy thereof marked "SUMMONS" to the person arrested. Thereupon, the officer shall release the person arrested from custody.

Sec. 3. Minnesota Statutes 1976, Section 169.91, is amended by adding a subdivision to read:

(a) When a reciprocal agreement is in effect, a law enforcement officer observing a violation of this chapter or any other traffic regulation by a resident of a party jurisdiction shall issue an appropriate citation and shall not, subject to the provisions of clause (b) of this subdivision, require the nonresident to post bond or collateral to secure appearance for trial but shall accept the nonresident's personal recognizance, except the nonresident has the right upon request to post bond or collateral in a manner provided by law and in that case the provisions of this subdivision do not apply.

(b) A nonresident shall not be entitled to be released on his personal recognizance if immediate appearance before a magistrate is required by subdivision 1 of this section or the offense is:

- (1) One which, upon conviction, would result in the revocation of a person's drivers license under the laws of this state; or*
- (2) A violation of a highway weight limitation; or*
- (3) A violation of a law governing transportation of hazardous materials; or*

A written promise to appear in court may be complied with by an appearance by counsel.

Subd. 2. When a nonresident is released upon his written promise to appear and he has not appeared in court or complied with

other orders of the court regarding the appearance of proceedings, the court shall notify the commissioner of public safety of the non-appearance upon a form provided by the commissioner.

Subd. 3. Upon receipt of notice from the court that the non-resident did not appear in court following release from custody upon his written promise to appear, the commissioner of public safety shall forward a copy of the report to the driver licensing authority of the state, district, territory, possession or province of residence of the person.

Subd. 4. (a) Upon receiving a report from the driver licensing authority of a state, district, territory or possession of the United States or a province of a foreign country which has an agreement in effect with this state pursuant to section 169.91 that a resident of this state or a person licensed as a driver in this state did not appear in court following written promise to appear in the party jurisdiction, the commissioner of public safety shall notify the driver that his license will be suspended unless the commissioner receives notice within 30 days that the driver has appeared in the appropriate court of the other jurisdiction. If the commissioner does not receive notice of the appearance of the Minnesota resident in the appropriate court within 30 days of the date of the commissioner's notice to the driver, the commissioner may suspend the person's drivers license.

(b) The order of suspension shall indicate the reason for the order and shall notify the person that his license shall remain suspended until he has furnished evidence satisfactory to the commissioner that he has complied with any order entered by the court.

(c) Suspension shall be ordered under this subdivision only when the report from the other jurisdiction clearly identifies the person arrested; describes the violation, specifying the section of the traffic law, ordinance, rule or regulation violated; indicates the location and date of the offense; and describes the vehicle involved and its registration number.

(1) Has committed an offense for which mandatory revocation of license is required upon conviction; or

(2) Has been convicted by a court of competent jurisdiction for violation of a provision of the highway traffic regulation act or an ordinance regulating traffic and where it appears from department records that the violation for which he was convicted contributed in causing an accident resulting in the death or personal injury of another, or serious property damage; or

(3) Is an habitually reckless or negligent driver of a motor vehicle; or

(4) Is an habitual violator of the traffic laws; or

(5) Is incompetent to drive a motor vehicle as determined and adjudged in a judicial proceeding; or

(8) Has committed a violation of section 171.22, clause (4) ; or

(9) *Has failed to appear in court as provided in section 169.92, subdivision 4 .*

Provided, however, that any action taken by the commissioner under subparagraphs (2) and (5) shall conform to the recommendation of the court when made in connection with the prosecution of the licensee.

Upon suspending the license of any person, as hereinbefore in this section authorized, the department shall immediately notify the licensee, in writing, by depositing in the United States post office a notice addressed to the licensee at his last known address, with postage prepaid thereon, and the licensee's written request shall afford him an opportunity for a hearing within not to exceed 20 days after receipt of such request in the county wherein the licensee resides, unless the department and the licensee agree that such hearing may be held in some other county. Upon such hearing the commissioner, or his duly authorized agent, may administer oaths and issue subpoenas for the attendance of witnesses and the production of relevant books and papers, and may require a reexamination of the licensee. Upon such hearing the department shall either rescind its order of suspension or, good cause appearing therefor, may extend the suspension of such license or revoke such license. CONFERENCE COMMITTEE REPORT ON H. F. NO. 1091

A bill for an act relating to waters; permitting the establishment of rural water user districts.

March 20, 1978

The Honorable Martin O. Sabo
Speaker of the House of Representatives

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 1091, report that

we have agreed upon the items in dispute and recommend as follows:

Strike everything after the enacting clause and insert:

"Section 1. [POLICY STATEMENT.] Conservation of the state's water resources is a state function, and the public interest, welfare, convenience, and necessity require the creation of water user districts and the construction of systems of works, in the manner provided, for the conservation, storage, distribution, and use of water. The construction of systems of works by districts, as provided, is hereby declared to be in all respects for the welfare and benefit of the people of Minnesota.

Sec. 2. [DEFINITIONS.] Subdivision 1. For the purposes of this act the following terms have the definitions given in this section.

Subd. 2. "Water user district" or "district" means a district organized under this act, either as originally organized or as reorganized, altered, or extended.

Subd. 3. "Board" means the board of directors of a district organized under this act.

Subd. 4. "Works" and "system" include all lands, property, rights, rights of way, easements, and related franchises deemed necessary or convenient for their operation, all water rights acquired or exercised by the board in connection with works, all means of conserving, controlling, and distributing water, including, but not limited to outlets, treatment plants, pumps, lift stations, service connections, mains, valves, hydrants, wells, reservoirs, tanks and other appurtenances of public water systems. A work or system may be used for domestic, commercial, industrial and stock watering purposes only and shall not be used for irrigation purposes.

Subd. 5. "Project" means any one of the works defined, or any combination of works which are physically connected or jointly managed and operated as a single unit.

Subd. 6. "City" means any home rule charter, statutory or other city, however organized.

Subd. 7. "Court" means district court in the judicial district where the largest number of petitioners resides.

Sec. 3. [WATER USER DISTRICT; ORGANIZATION.] A water user district may be created and organized as provided in this act, and may sue and be sued in its corporate name. The procedure provided by this act is alternative to that provided by other law. A district may not be organized in Anoka, Carver, Dakota, Hennepin, Ramsey, Scott or Washington counties.

Sec. 4. [PETITION FOR ORGANIZATION.] A water user district may be organized under the provisions of this act after filing in the court a petition in compliance with the requirements set forth, and the approval of the petition by the court. The petition shall state that it is the intent and purpose of the petitioners

to create a district under the provisions of this act, subject to approval by the court. The petition shall contain:

- (1) The name of the proposed district;
- (2) The object and purpose of the system proposed to be constructed or acquired, together with a general description of the nature, location, and method of operation of the proposed works;
- (3) A description of the land constituting the proposed district and its boundaries, and the names of any cities or towns included partly or wholly within the boundaries;
- (4) The location of the principal place of business of the proposed district;
- (5) A statement that the proposed district shall not have the power to levy taxes or assessments;
- (6) The number of members of the board of directors of the proposed district, which shall be not less than five nor more than 13, a statement as to whether the directors shall be elected at large or shall be apportioned to election divisions, the names and addresses of the members who shall serve until their successors are elected and qualified as provided in this act, and if election divisions are provided for, the respective divisions which the directors are to represent. The persons named in the petition as directors shall be owners of land within the district. If election divisions are provided for, they shall be owners of land within the divisions they are to represent.

Sec. 5. [LANDS INCLUDED.] The lands proposed to be included within the district need not consist of contiguous parcels. A district may to the extent authorized by resolution of the governing body of the city consist of land within the limits of a city and may consist of land within the limits of any town or county, located outside the metropolitan area, as defined by section 473.-121, subdivision 2.

Sec. 6. [ORGANIZATION OF DISTRICT WITHIN TERRITORIAL BOUNDARIES OF ANOTHER DISTRICT.] A district may to the extent authorized by the existing district be organized within, or partly within, the territorial boundaries of another district organized under this or other law, so long as the works or systems, their operation, the exercise of powers and the assumptions of duties and responsibilities, of one district, do not nullify, conflict with, or materially affect those of another pre-existing district. A new district may not be organized within the boundaries of a pre-existing district if the pre-existing district disapproved within 30 days after mailing of notice pursuant to section 13.

Sec. 7. [DIRECTORS; ELECTION.] Directors may be elected either at large, or from election divisions. If the petition states that the directors shall be elected from election divisions, the petition shall describe the boundaries of the divisions, which may be drawn either with or without regard to the limits of any city or town included within the district boundaries. So far as practicable, each district shall include the same number of parties to contracts with the district for purchase of water.

Sec. 8. [GROUPING OF DIRECTORS ELECTED AT LARGE; TERM OF OFFICE.] Directors shall be elected within 60 days after the petition is approved by the court and filed with the secretary of state. The directors named in the petition shall hold office until the election. So far as possible, an equal number of those elected shall serve one, two and three years.

Sec. 9. [112A.10] [PETITION; SIGNATURES.] The petition must be signed by 50 percent of the landowners, except the holders of easements for electric or telephone transmission and distribution lines, within the area outside the limits of any city constituting the proposed district. If the proposed district includes any area within a city, the petition must be accompanied by a resolution of the governing body of the city requesting a specific area within the city be included within the proposed district. On each petition, set opposite the signature of each petitioner, shall be stated his or her name and post office address and the location of land of which he or she is the owner.

Sec. 10. [INSTRUMENTS CONSTITUTING PETITION.] The petition may contain any number of separate instruments, and to each sheet for petitioners' signatures shall be attached a full and correct copy of the petition. Sec. 11. [MAPS, PLANS AND ESTIMATES.] The petition shall be accompanied by the resolutions required by section 5, maps showing the location of land within the proposed district and the proposed system of works, and by other maps, plans, and estimates as necessary to describe fully the proposed system.

Sec. 12. [EXAMINATION OF PETITION.] Upon receipt of the petition, the court shall determine whether it complies with the requirements of this act and dismiss the petition if the requirements are not complied with. The petitioners may present a new petition covering the same matter, or the same petition with additional signatures if additional signatures are necessary.

Sec. 13. [PUBLICATION OF PETITION.] Subdivision 1. The petition and a map of the proposed district shall be published in each county in which lands within the proposed district lie, in a newspaper of general circulation published in the county, once each week for at least two successive weeks before the time the petition is filed with the court together with a list of names of the petitioners within the county and their addresses.

Subd. 2. Prior to being filed with the court, the petition and a map of the proposed district shall be sent by certified mail to each city with a population of 20,000 or less if the proposed district comes within one half mile of the city's boundary, each city with a population of greater than 20,000 if the proposed district comes within one mile of the city's boundary and to each existing district organized under section 1 to 37 or Minnesota Statutes, Chapter 116A if the new district boundary comes within one mile of an existing system's boundary.

Sec. 14. [PROTEST AGAINST ORGANIZATION.] Any owner of land within the proposed district may file with the court a protest against the qualifications of any signer of the petition, and the court shall consider and determine the validity of protests.

Sec. 15. [INVESTIGATION OF PROPOSED DISTRICT AND WORKS.] If the court determines that the petitioners have complied with the requirements of this act, it shall make an immediate investigation of the proposed district and of its proposed works, systems, or plans and of the engineering and economic feasibility of the project. The court, in its discretion, may make an estimate of the cost of the investigation and require the petitioners to defray part or all of the estimated cost before proceeding with the investigation.

Sec. 16. [FEASIBILITY; RECORDING; ESTABLISHMENT.] The court, within 90 days from the receipt of the petition, or within 90 days from the time funds are available to defray the cost of the investigation, shall declare that the proposed project is or is not feasible, will conform to public health and conform to public convenience and welfare. If the project is not feasible, the court shall dismiss the petition. If the court deems the project feasible and conforming to public convenience and welfare, it shall immediately execute a certificate setting forth a copy of the petition declaring that the petition is approved, and file it in the office of the secretary of state and a copy of it, certified by the secretary of state, in the office of the county auditor of each county in which any of the lands in the district are located. Thereupon, the district, under its designated name, shall be a body politic and corporate under the provisions of this act and a public corporation of the state.

Sec. 17. [DIRECTORS; QUALIFICATION; MEETING.] Upon the filing of the certificate in the office of the secretary of state and a certified copy in the office of each county auditor, the members of the board of directors named in the petition shall immediately qualify and assume the duties of their office. Failure or refusal to qualify within a period of 15 days thereafter shall

be deemed to create a vacancy which shall be filled as provided by this act. The first meeting of the board of directors shall be called by the director first named in the petition.

Sec. 18. [ADDITIONAL TERRITORY.] The procedure for extending a water user district by including additional territory shall be as provided by sections 19 to 22.

Sec. 19. [PETITION TO INCLUDE ADDITIONAL TERRITORY.] A water user district may be extended by including additional territory by filing with the court a petition signed by at least 50 percent of the landowners except the holders of easements for electric or telephone transmission and distribution lines, in any area outside the limits of a city to be included, a copy of a resolution of the governing body of a city requesting a specific area within the city be included within the expanded district, and a resolution of the board of directors of the district approving the expansion of the district, upon compliance with the requirements hereinafter set forth. The petition shall contain a description of the lands to be included.

Sec. 20. [MAPS; PLANS; ESTIMATES.] The petition shall be accompanied by maps showing the location of the lands to be included, the proposed system of works and other plans and estimates as necessary to fully describe the project.

Sec. 21. [PUBLICATION; PROTESTS.] Subdivision 1. The petition shall be published in each county in which the lands to be included lie, in a newspaper of general circulation published in the county, once each week for at least two successive weeks before the time the petition is filed with the court together with the list of names of the petitioners and their addresses and land owned. Any owner of land within the area to be included, who did not sign the petition may file a written protest with the court as provided in section 14.

Subd. 2. Prior to being filed with the court, a map of the proposed district shall be sent by certified mail to each city with a population of 20,000 or less if the proposed district comes within one half mile of the city's boundary, each city with a population greater than 20,000 if the proposed district comes within one mile of the city's boundary and to each existing district organized under sections 1 to 37 or Minnesota Statutes, Chapter 116A if the new proposed district boundary comes within two miles of the existing system's boundary.

Sec. 22. [APPROVAL OF EXTENSION.] Upon receipt of the petition the court shall act upon the petition in the same manner as required upon an original petition to create a district, as set forth in sections 12 to 17.

Upon the approval of the petition and project, and the issuance and filing of the certificate of approval in the office of the secretary of state and filing a copy in the office of the county auditor of each county in which any lands in which the district is located, the included areas shall be part of the district.

Sec. 23. [MEMBERS; ELECTION; TERMS.] After the election of the board of directors members of the board to succeed those elected in the initial election provided for in section 8, respectively, and to fill unexpired terms, shall be nominated and elected and shall take office in the following manner. One year from the date of the initial election an election shall be held to elect directors to succeed those whose terms are about to expire. The term of each director thus elected shall commence two weeks after his or her election and continue for three years and until his or her successor is elected and qualified. Election of directors shall be conducted as provided by section 24.

Sec. 24. [ELECTIONS; PLACE.] Subdivision 1. The board of directors of the district shall fix the hour and place, within the boundaries of the district, of each election and shall preside. If the district is divided into election divisions, the board in its discretion may fix a place of election within each election division, and the directors who represent that division shall preside.

Subd. 2. Every person or corporation which is a party to a contract with the district for the purchase of water to be furnished by the district, may cast one vote at each election for each director to be elected. In case election divisions are provided for, each person or corporation entitled to vote by reason of being a party to a contract shall select the division in which he or it shall vote, which selection shall be made under rules established by the board of directors.

Subd. 3. The board shall at least 20 days prior to the date of election, mail to each person or corporation entitled to vote, at his or its last known place of residence or business, a notice stating the time, place, and purpose of the election or, in the alternative, publish in each county in which lands within the district lie, in a newspaper of general circulation in the county, once each week for at least two successive weeks before the time of election, a notice that the election will be held giving the purpose, time and place.

Subd. 4. At the hour and place of the election, the presiding directors shall call the roll of those entitled to vote, and the number of votes to which each is entitled. They shall make a record of the qualified voters present and prescribe the manner of casting ballots and canvassing votes. If election divisions are provided for, but the election is held at one place within the district instead of being held in each division, the board shall call the roll for each division and conduct the election for each division separately. All costs incident to the election of directors shall be paid by the district.

Subd. 5. The candidate for director required to fill an existing vacancy or to succeed an outgoing director who receives the highest number of votes cast shall be declared elected.

Sec. 25. [DIRECTORS.] Subdivision 1. No person shall be qualified to hold office as a member of the board of directors of

any district unless he or she is a party to a contract to purchase water from the district.

Subd. 2. Vacancies on the board by reason of death, disability, failure to hold land in the district, or in the election division if election divisions are provided for, or otherwise shall be filled by the board of directors. The members elected to fill vacancies shall serve until members to fill out the remainder of the terms may be elected at the next succeeding district election.

Subd. 3. Members of the board of directors shall be paid their actual expenses while engaged in performing the duties of their office or otherwise engaged upon the business of the district. In addition they shall receive as compensation for services at rates determined by qualified voters at an annual meeting.

Sec. 26. [OFFICERS.] Subdivision 1. The board of directors shall elect the officers of the district who shall be a president, a vice president, a secretary and a treasurer. The board shall appoint an executive committee and other officers, agents, and employees as necessary to transact the business of the district. The president, vice president and treasurer shall be elected from the membership of the board of directors.

Subd. 2. The treasurer shall furnish and maintain a corporate surety bond in an amount sufficient to cover all moneys coming into his possession or control, which shall be satisfactory in form and with sureties approved by the board. The bond, as approved, shall be filed with the secretary of state, and copies filed with the auditors of counties within the district and the premium upon the bond paid by the district.

Sec. 27. [BOARD OF DIRECTORS.] Subdivision 1. The corporate powers of the district shall be exercised by the board of directors of the district.

Subd. 2. The board of directors may adopt rules and regulations or bylaws, consistent with this act, for the conduct of the business and affairs of the district. The board of directors shall cause to be kept accurate minutes of their meetings and accurate records and books of account, conforming to approved methods of book-keeping, clearly setting out and reflecting the entire operation, management, and business of the district. The books and records shall be kept at the principal place of business of the district and at reasonable business hours always open to public inspection.

Sec. 28. [POWERS.] Subdivision 1. The district shall have all the usual powers of a public corporation, and may acquire by purchase, gift, or other lawful means and hold real or personal property reasonably necessary for the conduct of its business, or lease property for its proper purposes, and sell, lease, or otherwise dispose of property when not needed.

Subd. 2. The district may own, construct, reconstruct, improve, purchase, lease, receive by gift, or otherwise acquire, hold, extend, manage, use, or operate any works, as defined in this act, and any and every kind of property, personal or real, necessary, useful, or

incident to their acquisition, extension, management, use, and operation, and may sell, mortgage, alienate, or otherwise dispose of works under the terms and conditions provided in this act.

Subd. 3. A district may enter into any contract, lease, agreement, or arrangement with a state, county, city, town, district, governmental or public corporation or association, or with a person, firm, or corporation, public or private, or with the government of the United States, or with any officer, department, bureau, or agency thereof, or with any corporation organized under federal law to exercise the powers set forth in this section, or for the sale, leasing, or otherwise furnishing or establishing of water rights, water supply, conveyance and distribution of water, water service, or water storage, for domestic, industrial, municipal, or stock watering purposes, or for the financing or payment of the cost and expenses incident to the construction, acquisition, or operation of works, or incident to any obligation or liability entered into or incurred by the district.

Subd. 4. A district may exercise any of the powers enumerated in this section either within or beyond or partly within and partly beyond the boundaries of the district and of the state, unless prohibited by the law of the area or state concerned or of the United States of America.

Subd. 5. A district may appropriate the waters of the state in the same manner as other persons under the laws of this state. A district shall not, in the exercise of the powers conferred by this act, interfere with, injure, or otherwise damage or affect existing water rights, other than through the purchase of the rights or through condemnation proceedings. No district, corporation, association, or individual holding a water right for lands located either within or outside the boundaries of a district shall be in any way affected by the operations of the district other than by reason of a contract voluntarily entered into by the organization or individual with the district, or by reason of the exercise by the district of the power of eminent domain.

Subd. 6. A district may exercise the power of eminent domain pursuant to Minnesota Statutes, Chapter 117, after declaring by resolution the necessity for and purpose of the taking of property and the extent of the taking.

Subd. 7. The district shall have no power of taxation, or of levying assessments for special benefits. No governmental authority shall have power to levy or collect taxes or assessments for the purpose of paying, in whole or in part, any indebtedness or obligation of or incurred by the district or upon which the district may be or become in any manner liable. Nor shall any privately owned property within or outside a district, or the owner thereof, nor any city, town, county, or other political subdivision or public or private corporation or association or its property, be directly or indirectly liable for any district indebtedness or obligation beyond the liability to perform an express contract between the owner or public or private organization and the district.

Subd. 8. No person, city, town, county, or other governmental subdivision, or other public or private corporation or association shall be liable for the payment of any rent or charge for water storage, water supply, or for any of the costs of operation of a district, unless a contract has been entered into between the person or public or private organization and the district furnishing water storage or water supply. All capital and operating expenses shall be borne by the users in proportion to their use of water supplied by the district.

Subd. 9. A district organized under this act may exercise any power conferred by this act to obtain grants or loans or both from any federal agency pursuant to acts of congress, and may accept from private owners or other sources, gifts, deeds or instruments of trust or title relating to land, water rights and any other form of property.

Subd. 10. A district may purchase and acquire lands, water rights, rights of way, and real and personal properties of every nature in cooperation with the United States under conditions as may to the board seem advisable, and to convey them under the conditions, terms and restrictions approved by the directors and the federal government or any of its agencies and to pay the purchase price and any and all construction costs or other necessary expenses and costs in connection with any works contemplated by this act either from its own funds or cooperatively with the federal government.

Subd. 11. A district shall not, in the exercise of the powers conferred by this act, provide service to actual or potential residential, commercial, industrial or publicly-owned land uses within one half mile of the limits of a city of up to 20,000 persons without approval by the city council. Approval shall not be required prior to serving class 3b lands as defined in 273.13.

Subd. 12. A district shall not, in the exercise of the powers conferred by this act, provide service to actual or potential residential, commercial, industrial or publicly-owned land uses within one mile of the limits of a city of more than 20,000 persons without approval by the city council. Approval shall not be required prior to serving class 3b lands as defined in 273.13.

Sec. 29. [CONTRACTS.] Subdivision 1. Before a district shall enter into a contract for the construction, alteration, extension, or improvement of works, or any part or section thereof, or a building for the use of the district, or for the purchase of materials, machinery, or apparatus, the district shall cause estimates of the cost to be made by a competent engineer or engineers, and if the estimated cost exceeds \$10,000 no contract shall be entered into for a price, cost or consideration exceeding the estimate nor without advertising for sealed bids.

Subd. 2. Prior to advertisement, plans and specifications for the proposed construction work or materials shall be prepared and filed at the principal office or place of business of the district. The advertisement shall designate the nature of construction

work proposed to be done or materials proposed to be purchased. The board shall supervise bid lettings by water user districts.

Sec. 30. [DEBT.] The district may borrow money and incur indebtedness by issuing its obligations or entering into contracts for any lawful corporate purpose; provided that all such obligations and contracts, whether express or implied, shall be payable solely:

(1) From revenues, income, receipts and profits derived by the district from its operation and management of systems;

(2) From the proceeds of warrants, notes, revenue bonds, debentures, or other evidences of indebtedness issued and sold by the district which are payable solely from such revenues, income, receipts and profits; or

(3) From federal or state grant gifts or other moneys received by the district which are available therefor.

The district may by resolution pledge any such source to the payment of such obligations and contracts and the interest coming due thereon. Any resolution may specify the particular revenues that are pledged and the terms and conditions to be performed by the district and the rights of the holders of district obligations, and may provide for priorities of liens in any revenues as between the holders of district obligations issued at different times or under different resolutions. The district may provide for the refunding of any district obligation through the issuance of other district obligations, entitled to rights and priorities similar in all respects to those held by the obligations that are refunded. All such obligations and refunding obligations shall be issued in accordance with the provisions of Minnesota Statutes, Chapter 475, except that such obligations may be sold by negotiation.

Sec. 31. [SERVICE CHARGES.] Subdivision 1. The directors of the district are authorized to agree with the holders of district obligations as to the maximum or minimum amounts which the district shall charge and collect for water sold by the district.

Subd. 2. The directors of the district are authorized to fix and establish the prices, rates and charges at which any and all services, products, resources and facilities made available under the provisions of this act shall be sold and disposed of; to enter into any and all contracts and agreements, and to do any and all things which in its judgment are necessary, convenient or expedient for the accomplishment of any and all the purposes and objectives of this act, under the general regulations and upon the terms, limitations and conditions it shall prescribe; and the directors shall enter into contracts and fix and establish prices, rates and charges so as to provide at all times funds which will be sufficient to pay all costs of operation and maintenance of any and all of the works and systems authorized by this act, together with necessary repairs thereto, and which will provide at all times sufficient funds to meet and pay the

principal and interest of all obligations and other evidences of indebtedness of the district when due. Nothing in this act shall authorize any change, alteration or revision of rates, prices or charges established by any contract entered into under authority of this act except as provided by the contract.

Subd. 3. Every contract made by the board for the sale, conveyance and distribution of water, use of water, water storage, or other service, or for the sale of any property or facilities, shall provide that in the event of any failure or default in the payment of any moneys specified in the contract to be paid to the board, the board may, upon notice as shall be prescribed in the contract, terminate the contract and all obligations thereunder. The act of the board in ceasing on a default to furnish or deliver water, use of water, or water storage, under a contract shall not deprive the board of, or limit any remedy provided by the contract or by law for the recovery of money due or which may become due under the contract.

Sec. 32. [DISBURSEMENTS; FISCAL YEAR; AUDITS.] Subdivision 1. Money of the district shall be paid only upon approval of the board of directors and by warrant or other instrument in writing signed by the president and by the treasurer of the district. In case of the death, absence or other disqualification of the president, the vice president shall sign warrants or other instruments.

Subd. 2. The fiscal year of the district shall coincide with the calendar year. The board of directors, at the close of each year's business, shall cause an audit of the books, records and financial affairs of the district to be made by an experienced public accountant, copies of a written report of which audit, certified to by the auditors, shall be placed and kept on file at the principal place of business of the district and shall be filed with the secretary of state.

Sec. 33. [WORKS; OWNERSHIP; SALE.] Subdivision 1. No water supply works, owned by the district shall be sold, alienated, or mortgaged by the district, except under the circumstances described by this section.

Subd. 2. If in the judgment of the board of directors it is for the best interest of the district to sell any portion of the district works not needed for the performance of any outstanding contract, and not mortgaged or pledged as provided for in subdivision 3, the board shall pass a resolution to that effect. The board shall call a special election at which the question of selling the portion of the works shall be submitted to the electors of the district qualified to vote for district directors. The board shall mail to each qualified elector, at his last known place of residence or place of business, a notice stating the time, place and purpose of the election, and so far as practicable shall conduct the election in all other respects as provided in section 24. If a majority of all qualified electors of the district vote "yes", the board may sell the portion of the works.

Subd. 3. If, in order to borrow money from the federal government or from any of its agencies, or from the state, it is necessary

that the district mortgage or otherwise pledged any or all of its property to secure the payment of loans made to it, the district may mortgage or pledge property and assets for the purpose. Nothing in this section shall prevent the district from assigning, pledging, or otherwise legally committing its revenues, incomes, receipts, or profits to secure the payment of indebtedness to the federal government or any agency thereof, or the state. The state shall never pledge its credit or funds, or any part thereof, for the payment or settlement of any indebtedness or obligation whatsoever of any district created under the provisions of this act. Nothing in this act authorizes any agency of the state to make loans to a district, unless the agency is otherwise authorized by law.

Sec. 34. [FORECLOSURE.] If any district created under this act shall execute and deliver a mortgage or trust deed to secure the payment of any moneys borrowed by it for the purposes herein authorized, it may be provided in the mortgage or trust deed that it may be foreclosed upon default and a receiver may be appointed with the authority provided in the mortgage or trust deed.

Sec. 35. [DISSOLUTION.] Subdivision 1. Any district may be dissolved by authorization of a majority vote of the electors, qualified to vote for district directors, voting thereon at a special election called by the board of directors for that purpose, notice of which shall be mailed to each qualified elector at least 20 days prior to the date of the election and the procedure for which shall conform as nearly as may be to the procedure provided in section 24, for the election of directors. The district shall discharge its obligations before dissolution. The board may liquidate noncash assets prior to dissolution.

Subd. 2. Dissolution shall be completed upon resolution of the board of directors canvassing the vote and declaring that a majority of the qualified electors voting thereon have voted in favor of dissolution. A verified copy of the resolution shall be filed in the office of the secretary of state and with the auditors of counties within the district.

Subd. 3. In case of dissolution all applications for appropriation of water shall be canceled and all rights of the district in applications shall end.

Sec. 36. [112A.37] [APPEALS.] Any party aggrieved by a final order issued pursuant to section 12 of this act which approves or dismisses a petition or which refuses or establishes a project or a district, may appeal therefrom to the supreme court in the manner provided in civil actions. The appeal shall be made and perfected within 30 days after the filing of the order. The notice of appeal shall be served on the clerk of district court and the members of the district's board of directors.

Sec. 37. [ORGANIZATION OF LINCOLN PIPESTONE DISTRICT.] The Lincoln Pipestone rural water district shall be organized under the provisions of this act instead of chapter 116A if a formal request signed by 50 percent of those who signed the original petition required by chapter 116A is presented to the court.

Sec. 38. This act is effective the day following final enactment."

(4) Interest on indebtedness incurred or continued to purchase or carry securities the income from which is exempt from tax under this chapter, to the extent deductible in determining federal adjusted gross income;

(5) Amounts received as reimbursement for an expense of sickness or injury which was deducted in a prior taxable year to the extent that the deduction for such reimbursed expenditure resulted in a tax benefit;

(6) The amount of any federal income tax overpayment for any previous taxable year, received as refund or credited to another taxable year's income tax liability, proportionate to the percentage of federal income tax that was claimed as a deduction in determining Minnesota income tax for such previous taxable year.

The overpayment refund or credit, determined with respect to a husband and wife on a joint federal income tax return for a previous taxable year, shall be reported on joint or separate Minnesota income tax returns. In the case of separate Minnesota returns, the overpayment shall be reported by each spouse proportionately according to the relative amounts of federal income tax claimed as a deduction on his or her separate Minnesota income tax return for such previous taxable year;

(7) In the case of a change of residence from Minnesota to another state or nation, the amount of moving expenses which exceed total reimbursements and which were therefore deducted in arriving at federal adjusted gross income;

~~(14)~~ (14) The amount of any excluded gain realized by a trust on the sale or exchange of property as defined in section 641(c)(1).

(2) The portion of any gain, from the sale or other disposition of property having a higher adjusted basis for Minnesota income tax purposes than for federal income tax purposes, that does not exceed such difference in basis; but if such gain is considered a long-term capital gain for federal income tax purposes, the modification shall be limited to fifty per centum of such portion of the gain. This modification shall not be applicable if the difference in basis is due to disallowance of depreciation pursuant to section 290.101.

(3) Interest or dividend income on securities to the extent exempt from income tax under the laws of this state authorizing the issuance of such securities but includible in gross income for federal income tax purposes;

(4) Losses, not otherwise reducing federal adjusted gross income assignable to Minnesota, arising from events or transactions which are assignable to Minnesota under the provisions of sections 290.17 to 290.20, including any capital loss or net operating loss carry-forwards or carrybacks resulting from such losses;

(5) If included in federal adjusted gross income, the amount of any credit received, whether received as a refund or credit to another taxable year's income tax liability, pursuant to chapter 290A, and the amount of any overpayment of income tax to Minnesota, or any other state, for any previous taxable year, whether such amount is received as a refund or credited to another taxable year's income tax liability;

(6) The amount of any pension or benefit which is excluded from gross income under the provisions of section 290.08, subdivision 6; and

(7) *The amount of compensation for personal services in the armed forces of the United States or the United Nations which is excluded from gross income under the provisions of section 290.65;*

~~(7)~~ (8) In the case of property acquired on or after January 1, 1973, the amount of any credit to the taxpayer's federal tax liability under section 38 of the Internal Revenue Code of 1954, as amended through December 31, 1976, but only to the extent that the credit is connected with or allocable against the production or receipt of income included in the measure of the tax imposed by this chapter; and

~~(10)~~ (9) The amount of any distribution from a qualified pension or profit sharing plan included in federal adjusted gross income in the year of receipt to the extent of any contribution not previously allowed as a deduction by reason of a change in federal law which was not adopted by Minnesota law for a taxable year beginning in 1974 or later.

(c) Modifications affecting shareholders of electing small business corporations under section 1372 of the Internal Revenue Code of 1954, or section 290.972 of this chapter.

(1) Shareholders in a small business corporation, which has elected to be so taxed under the Internal Revenue Code of 1954, but has not made an election under section 290.972 of this chapter, shall deduct from federal adjusted gross income the amount of any imputed income from such corporation and shall add to federal adjusted gross income the amount of any loss claimed as a result of such stock ownership. Also there shall be added to federal adjusted gross income the amount of any distributions in cash or property made by said corporation to its shareholders during the taxable year.

(2) In cases where the small business corporation has made an election under section 1372 of the Internal Revenue Code of 1954, but has not elected under section 290.972 of this chapter and said corporation is liquidated or the individual shareholder disposes of his stock and there is no capital loss reflected in federal adjusted gross income because of the fact that corporate losses have exhausted the shareholders basis for federal purposes, such shareholders shall be entitled, nevertheless, to a capital loss commensurate to their Minnesota basis for the stock.

(3) In cases where the election under section 1372 of the

Internal Revenue Code of 1954 antedates the election under section 290.972 of this chapter and at the close of the taxable year immediately preceding the effective election under section 290.972 the corporation has a reserve of undistributed taxable income previously taxed to shareholders under the provisions of the Internal Revenue Code of 1954, in the event and to the extent that such reserve is distributed to shareholders such distribution shall be taxed as a dividend for purposes of this act.

Items of gross income includible within these definitions shall be deemed such regardless of the form in which received. Items of gross income shall be included in gross income of the taxable year in which received by a taxpayer unless properly to be accounted for as of a different taxable year under methods of accounting permitted by section 290.07, except that (1) amounts transferred from a reserve or other account, if in effect transfers to surplus, shall, to the extent that such amounts were accumulated through deductions from gross income or entered into the computation of taxable net income during any taxable year, be treated as gross income for the year in which the transfer occurs, but only to the extent that such amounts resulted in a reduction of the tax imposed by this act, and (2) amounts received as refunds on account of taxes deducted from gross income during any taxable year shall be treated as gross income for the year in which actually received, but only to the extent that such amounts resulted in a reduction of the tax imposed by this act.

(d) Modification in computing taxable income of the estate of a decedent. Amounts allowable under section 291.07, subdivision 1 (2) in computing Minnesota inheritance tax liability shall not be allowed as a deduction in computing the taxable income of the estate unless there is filed within the time and in the manner and form prescribed by the commissioner a statement that the amounts have not been allowed as a deduction under section 291.07 and a waiver of the right to have such amounts allowed at any time as deductions under section 291.07. The provisions of this paragraph shall not apply with respect to deductions allowed under section 290.077 (relating to income in respect of decedents). In the event that the election made for federal tax purposes under section 642(g) of the Internal Revenue Code of 1954 differs from the election made under this paragraph appropriate modification of the estate's federal taxable income shall be made to implement the election made under this paragraph in accordance with regulations prescribed by the commissioner.

Sec. 2. Minnesota Statutes 1976, Section 290.65, is amended by adding a subdivision to read:

(10) The amount of any distribution from a qualified pension or profit sharing plan included in federal adjusted gross income in the year of receipt to the extent of any contribution not previously allowed as a deduction by reason of a change in federal law which was not adopted by Minnesota law for a taxable year beginning in 1974 or later.

(11) *The first \$2,000 of compensation for personal services in the Minnesota National guard or the reserve armed forces of the United States.*

(c) Modifications affecting shareholders of electing small business corporations under section 1372 of the Internal Revenue Code of 1954, or section 290.972 of this chapter.

(1) Shareholders in a small business corporation, which has elected to be so taxed under the Internal Revenue Code of 1954, but has not made an election under section 290.972 of this chapter, shall deduct from federal adjusted gross income the amount of any imputed income from such corporation and shall add to federal adjusted gross income the amount of any loss claimed as a result of such stock ownership. Also there shall be added to federal adjusted gross income the amount of any distributions in cash or property made by said corporation to its shareholders during the taxable year.

(2) In cases where the small business corporation has made an election under section 1372 of the Internal Revenue Code of 1954, but has not elected under section 290.972 of this chapter and said corporation is liquidated or the individual shareholder disposes of his stock and there is no capital loss reflected in federal adjusted gross income because of the fact that corporate losses have exhausted the shareholders basis for federal purposes, such shareholders shall be entitled, nevertheless, to a capital loss commensurate to their Minnesota basis for the stock.

(3) In cases where the election under section 1372 of the Internal Revenue Code of 1954 antedates the election under section 290.972 of this chapter and at the close of the taxable year immediately preceding the effective election under section 290.972 the corporation has a reserve of undistributed taxable income previously taxed to shareholders under the provisions of the Internal Revenue Code of 1954, in the event and to the extent that such reserve is distributed to shareholders such distribution shall be taxed as a dividend for purposes of this act.

Items of gross income includible within these definitions shall be deemed such regardless of the form in which received. Items of gross income shall be included in gross income of the taxable year in which received by a taxpayer unless properly to be accounted for as of a different taxable year under methods of accounting permitted by section 290.07, except that (1) amounts transferred from a reserve or other account, if in effect transfers to surplus, shall, to the extent that such amounts were accumulated through deductions from gross income or entered into the computation of taxable net income during any taxable year, be treated as gross income for the year in which the transfer occurs, but only to the extent that such amounts resulted in a reduction of the tax imposed by this act, and (2) amounts received as refunds on account of taxes deducted from gross income during any taxable year shall be treated as gross income for the year in which actually received, but only to the extent that such amounts resulted in a reduction of the tax imposed by this act.

(d) Modification in computing taxable income of the estate of a decedent. Amounts allowable under section 291.07, subdivision 1(2) in computing Minnesota inheritance tax liability shall not be allowed as a deduction in computing the taxable income of the estate unless there is filed within the time and in the manner and form prescribed by the commissioner a statement that the amounts have not been allowed as a deduction under section 291.07 and a waiver of the right to have such amounts allowed at any time as deductions under section 291.07. The provisions of this paragraph shall not apply with respect to deductions allowed under section 290.077 (relating to income in respect of decedents). In the event that the election made for federal tax purposes under section 642(g) of the Internal Revenue Code of 1954 differs from the election made under this paragraph appropriate modification of the estate's federal taxable income shall be made to implement the election made under this paragraph in accordance with regulations prescribed by the commissioner.

Sec. 2. The adjutant general shall study and evaluate alternative methods of promoting enlistment and reenlistment in the Minnesota national guard. Based upon this study, he shall report his findings and make appropriate recommendations to the governor and the legislature no later than January 1, 1979.

Sec. 3. [EFFECTIVE DATE.] This act is effective for taxable years beginning after December 31, 1977."

March 16, 1978

The Honorable Edward J. Gearty
President of the Senate

The Honorable Martin O. Sabo
Speaker of the House of Representatives

We, the undersigned conferees for S. F. No. 65, report that we have agreed upon the items in dispute and recommend as follows:

That the House recede from its amendments and that S. F. No. 65 be amended as follows:

Strike everything after the enacting clause and insert:

“ARTICLE I

Section 1. [DEFINITIONS.] *Subdivision 1. For purposes of sections 1 to 11, the following terms shall have the meanings given them.*

Subd. 2. “Inmate” means any person who is convicted of a felony, is committed to the custody of the commissioner of corrections and is confined in a state correctional institution or released from a state correctional institution pursuant to sections 5, 7 or 12.

Subd. 3. “Commissioner” means the commissioner of corrections or his designee.

Subd. 4. “Correctional institution” means any state institution under the operational authority of the commissioner of corrections.

Subd. 5. “Good time” means the period of time by which an inmate’s term of imprisonment is reduced pursuant to section 4.

Subd. 6. “Commission” means the Minnesota sentencing guidelines commission established pursuant to section 9.

Subd. 7. “Supervised release” means the release of an inmate pursuant to section 5.

Subd. 8. “Term of imprisonment” is a period of time equal to the period of time to which the inmate is committed to the custody of the commissioner of corrections following a conviction for a felony.

Sec. 2. [MUTUAL AGREEMENT PROGRAMS.] *Subdivision 1. Within seven days after the commissioner assumes custody of an inmate, he shall inform the inmate of the availability and scope of mutual agreement programs and of the fact that participation by the inmate is optional and has no effect on the length of his sentence. If the inmate decides to enter into a mutual agreement program, the commissioner shall draft one for the inmate within 90 days after receiving a request to do so from the inmate. The mutual agreement program shall be drafted after a classification study of the inmate has been made by the commissioner. In drafting a mutual agreement program, the commissioner shall also refer to the presentence investigation which has been made of the inmate. The agreement shall provide the following:*

(a) *A program of vocational or educational training with specific chronological and achievement objectives, including completion of specified educational and vocational programs;*

(b) *Frequent and regular evaluation of the inmate by the commissioner; and*

(c) *A consideration of any educational qualifications or skills of the inmate when specifying certain types of work expectations.*

The participation of inmates in the mutual agreement program shall be limited by the appropriations made for that purpose.

Subd. 2. The inmate may decline to enter into the agreement drafted by the commissioner. Failure to enter into an agreement shall not affect the earning of good time by an inmate, nor shall violation of the terms of the agreement constitute a disciplinary offense which may result in the loss of good time.

Sec. 3. [VOLUNTARY PROGRAMS.] *The commissioner shall provide appropriate mental health programs and vocational and educational programs with employment-related goals for inmates who desire to voluntarily participate in such programs. The selection, design and implementation of programs under this section shall be the sole responsibility of the commissioner, acting within the limitations imposed on him by the funds appropriated for such programs.*

No action challenging the level of expenditures for programs authorized under this section, nor any action challenging the selection, design or implementation of these programs, may be maintained by an inmate in any court in this state.

Sec. 4. [GOOD TIME.] *Subdivision 1. An inmate's term of imprisonment shall be reduced in duration by one day for each two days during which the inmate violates none of the disciplinary offense rules promulgated by the commissioner. The reduction shall accrue to the period of supervised release to be served by the inmate.*

If an inmate violates a disciplinary offense rule promulgated by the commissioner, good time earned prior to the violation may not be taken away, but the inmate may be required to serve an appro-

prorate portion of his term of imprisonment after the violation without earning good time.

Subd. 2. By May 1, 1980, the commissioner shall promulgate rules specifying disciplinary offenses which may result in the loss of good time and the amount of good time which may be lost as a result of each disciplinary offense. In no case shall an individual disciplinary offense result in the loss of more than 90 days of good time. The loss of good time shall be considered to be a disciplinary sanction imposed upon an inmate, and the procedure for the loss of good time and the rights of the inmate in the procedure shall be those in effect for the imposition of other disciplinary sanctions at each state correctional institution.

Subd. 3. The provisions of this section do not apply to an inmate serving a mandatory life sentence.

Sec. 5. [SUPERVISED RELEASE TERM.] *Subdivision 1. Except as provided in subdivisions 4 and 5, every inmate shall serve a supervised release term upon completion of his term of imprisonment as reduced by any good time earned by the inmate. The supervised release term shall be equal to the period of good time the inmate has earned, and shall not exceed the length of time remaining in the inmate's sentence.*

Subd. 2. The Minnesota corrections board shall promulgate rules for the placement and supervision of inmates serving a supervised release term. The rule shall also provide standards and procedures for the revocation of supervised release, and shall specify the period of revocation for each violation of supervised release. Procedures for the revocation of supervised release shall provide due process of law for the inmate.

Subd. 3. If an inmate violates the conditions of his supervised release imposed by the Minnesota corrections board, the board may:

(1) Continue the inmate's supervised release term, with or without modifying or enlarging the conditions imposed on the inmate; or

(2) Revoke the inmate's supervised release and reimprison him for the appropriate period of time.

The period of time for which a supervised release may be revoked may not exceed the period of time remaining in the inmate's sentence.

Subd. 4. An inmate serving a mandatory life sentence shall not be given supervised release under this section unless he has served a minimum term of imprisonment of 17 years.

Subd. 5. The Minnesota corrections board may, under rules promulgated by it, give supervised release to an inmate serving a mandatory life sentence after he has served the minimum term of imprisonment specified in subdivision 4.

Sec. 6. [EXTRAORDINARY DISCHARGE.] *The Minnesota corrections board may give extraordinary discharge to an inmate*

for reasons of serious health problems, senility, advanced age or other extraordinary circumstances. The board shall promulgate rules specifying the circumstances under which extraordinary discharge may be approved by the board and the appropriate procedures for approving the same. No extraordinary discharge shall be effective unless also approved by the Minnesota board of pardons.

Sec. 7. [FURLOUGHS.] *Subdivision 1. If consistent with the public interest, the commissioner may, under rules prescribed by him, furlough any inmate in his custody to any point within the state for up to five days. A furlough may be granted to assist the inmate with family needs, personal health needs, or his reintegration into society. No inmate may receive more than three furloughs under this section within any 12 month period.*

Subd. 2. Notwithstanding the provisions of subdivision 1, if the commissioner determines that the inmate requires health care not available at the state correctional institution, he may grant the inmate the furloughs necessary to provide appropriate noninstitutional or extra-institutional health care.

Sec. 8. [MINNESOTA CORRECTIONS BOARD; COMMISSIONER.] *Subdivision 1. Effective May 1, 1980, the Minnesota corrections board shall have only those powers and duties vested in and imposed upon it in sections 1 to 16 with relation to persons sentenced for crimes committed on or after May 1, 1980.*

The Minnesota corrections board shall retain all powers and duties presently vested in and imposed upon it with relation to persons sentenced for crimes committed on or before April 30, 1980.

The Minnesota corrections board shall take into consideration, but not be bound by, the sentence terms embodied in the sentencing guidelines promulgated by the Minnesota sentencing guidelines commission and the penal philosophy embodied in sections 1 to 16 in its deliberations relative to parole, probation, release, or other disposition of inmates who commit the crimes giving rise to their sentences on or before April 30, 1980.

Subd. 2. Nothing in sections 1 to 16 shall be deemed to limit the powers and duties otherwise provided by law to the commissioner of corrections with regard to the management of correctional institutions or the disposition of inmates unless those powers and duties are inconsistent with the provisions of sections 1 to 16, in which case those powers and duties shall be superseded by sections 1 to 16.

Sec. 9. [MINNESOTA SENTENCING GUIDELINES COMMISSION.] *Subdivision 1. There is hereby established the Minnesota sentencing guidelines commission which shall be comprised of nine members.*

Subd. 2. The sentencing guidelines commission shall consist of the following:

- (1) *The chief justice of the supreme court or his designee;*

(2) *Two district court judges appointed by the chief justice of the supreme court;*

(3) *One public defender appointed by the governor upon recommendation of the state public defender;*

(4) *One county attorney appointed by the governor upon recommendation of the board of governors of the county attorneys council;*

(5) *The commissioner of corrections or his designee;*

(6) *The chairman of the Minnesota corrections board or his designee; and*

(7) *Two public members appointed by the governor.*

One of the members shall be designated by the governor as chairman of the commission.

Subd. 3. Each appointed member shall be appointed for four years and shall continue to serve during that time as long as he occupies the position which made him eligible for the appointment. Each member shall continue in office until his successor is duly appointed. Members shall be eligible for reappointment, and appointment may be made to fill an unexpired term. The members of the commission shall elect any additional officers necessary for the efficient discharge of their duties.

Subd. 4. Each member of the commission shall be reimbursed for all reasonable expenses actually paid or incurred by him in the performance of his official duties in the same manner as other employees of the state. The public members of the commission shall be compensated at the rate of \$50 for each day or part thereof spent on commission activities.

Subd. 5. The commission shall, on or before January 1, 1980, promulgate sentencing guidelines for the district court. The guidelines shall be based on reasonable offense and offender characteristics. The guidelines promulgated by the commission shall be advisory to the district court and shall establish:

(1) *The circumstances under which imprisonment of an offender is proper; and*

(2) *A presumptive, fixed sentence for offenders for whom imprisonment is proper, based on each appropriate combination of reasonable offense and offender characteristics. The guidelines may provide for an increase or decrease of up to 15 percent in the presumptive, fixed sentence.*

The sentencing guidelines promulgated by the commission may also establish appropriate sanctions for offenders for whom imprisonment is not proper. Any guidelines promulgated by the commission establishing sanctions for offenders for whom imprisonment is not proper shall make specific reference to noninstitutional sanctions, including but not limited to the following: payment of fines, day fines, restitution, community work orders, work release pro-

grams in local facilities, community based residential and nonresidential programs, incarceration in a local correctional facility, and probation and the conditions thereof.

In establishing the sentencing guidelines, the commission shall take into substantial consideration current sentencing and release practices and correctional resources, including but not limited to the capacities of local and state correctional facilities.

The provisions of sections 15.0411 to 15.052 do not apply to the promulgation of the sentencing guidelines.

Subd. 6. The commission, in addition to establishing sentencing guidelines, shall serve as a clearing house and information center for the collection, preparation, analysis and dissemination of information on state and local sentencing practices, and shall conduct ongoing research regarding sentencing guidelines, use of imprisonment and alternatives to imprisonment, plea bargaining, and other matters relating to the improvement of the criminal justice system. The commission shall from time to time make recommendations to the legislature regarding changes in the criminal code, criminal procedures, and other aspects of sentencing.

Subd. 7. The commission shall study the impact of the sentencing guidelines promulgated by the commission after their implementation. The commission shall also, after implementation of the guidelines, review the powers and duties of the Minnesota corrections board and make recommendations to the legislature on the appropriate role, if any, of the board under the guidelines.

Subd. 8. The commissioner of corrections shall provide adequate office space and administrative services for the commission, and the commission shall reimburse the commissioner for the space and services provided. The commission may also utilize, with their consent, the services, equipment, personnel, information and resources of other state agencies; and may accept voluntary and uncompensated services, contract with individuals, public and private agencies, and request information, reports and data from any agency of the state, or any of its political subdivisions, to the extent authorized by law.

Subd. 9. When any person, corporation, the United States government, or any other entity offers funds to the sentencing guidelines commission to carry out its purposes and duties, the commission may accept the offer by majority vote and upon acceptance the chairman shall receive the funds subject to the terms of the offer, but no money shall be accepted or received as a loan nor shall any indebtedness be incurred except in the manner and under the limitations otherwise provided by law.

Subd. 10. The commission may select and employ a research director who shall perform the duties the commission directs, including the hiring of any clerical help and other employees as the commission shall approve. The research director and other staff shall be in the unclassified service of the state and their salary shall be established by the commission. They shall be reimbursed for the expenses necessarily incurred in the performance of their official duties in the same manner as other state employees.

Subd. 11. The commission shall meet as necessary for the purpose of modifying and improving the guidelines.

Subd. 12. The guidelines shall be submitted to the legislature on January 1, 1980, and shall be effective May 1, 1980, unless the legislature provides otherwise.

Sec. 10. [SENTENCING HEARING; DEVIATION FROM GUIDELINES.] Subdivision 1. [SENTENCING HEARING.] *Whenever a person is convicted of a felony, the court, upon motion of either the defendant or the state, shall hold a sentencing hearing. The hearing shall be scheduled so that the parties have adequate time to prepare and present arguments regarding the issue of sentencing. The parties may submit written arguments to the court prior to the date of the hearing and may make oral arguments before the court at the sentencing hearing. Prior to the hearing, the court shall transmit to the defendant or his attorney and the prosecuting attorney copies of the presentence investigation report.*

At the conclusion of the sentencing hearing or within 20 days thereafter, the court shall issue written findings of fact and conclusions of law regarding the issues submitted by the parties, and shall enter an appropriate order.

Subd. 2. [DEVIATION FROM GUIDELINES.] *Whether or not a sentencing hearing is requested pursuant to subdivision 1, the district court shall make written findings of fact as to the reasons for departure from the sentencing guidelines in each case in which the court imposes or stays a sentence that deviates from the sentencing guidelines applicable to the case.*

Sec. 11. [APPELLATE REVIEW OF SENTENCE.] *An appeal to the supreme court may be taken by the defendant or the state from any sentence imposed or stayed by the district court according to the rules of criminal procedure for the district court of Minnesota. A dismissal of an appeal brought under this section shall not prejudice an appeal brought under any other section or rule.*

When an appeal taken under this section is filed, the clerk of the district court shall certify to the supreme court the transcript of the proceedings and any files or records relating to the defendant, the offense, and the sentence imposed or stayed, that the supreme court by rule or order may require.

On an appeal pursuant to this section, the supreme court may review the sentence imposed or stayed to determine whether the sentence is inconsistent with statutory requirements, unreasonable, inappropriate, excessive, unjustifiably disparate, or not warranted by the findings of fact issued by the district court. This review shall be in addition to all other powers of review presently existing. The supreme court may dismiss or affirm the appeal, vacate or set aside the sentence imposed or stayed and direct entry of an appropriate sentence or order further proceedings to be had as the supreme court may direct.

This section shall not be construed to confer or enlarge any right of a defendant to be released pending an appeal.

Sec. 12. Minnesota Statutes 1976, Section 241.26, Subdivision 1, is amended to read:

241.26 [PRIVATE EMPLOYMENT OF INMATES OF STATE CORRECTIONAL INSTITUTIONS IN COMMUNITY.] Subdivision 1. [BOARD.] The corrections board upon recommendation of the commissioner of corrections may conditionally release selected inmates of state correctional institutions who are subject to their control, who have been convicted of a gross misdemeanor or a felony, and who are eligible and being considered for parole under section 243.05, to work at paid employment, seek employment, or to participate in vocational training programs in any community or area of the state, provided that (a) representatives of local union central bodies or similar labor union organizations are consulted; and (b) such paid employment will not result in the displacement of employed workers. *When consistent with the public interest and the public safety, the board may, with the recommendation of the commissioner, conditionally release an inmate to work at paid employment, seek employment, or participate in a vocational training or educational program, if the inmate has served at least one half of his term of imprisonment as reduced by good time earned by the inmate.* Such Release under this subdivision constitutes an extension of the limits of confinement and each inmate so released shall be confined in the institution from which released or in some other suitable place of confinement designated by the commissioner of corrections during such time as such inmate the hours he is not employed, seeking employment, or engaged in a vocational training or educational program, or, if employed, seeking employment, or engaged in a vocational training or educational program, between the times hours of such activity. A reasonable allowance for travel time and meals shall be permitted.

- (3) To an indeterminate term of imprisonment which shall be deemed to be for the maximum term authorized by law; or
- (4) (3) To both imprisonment for a fixed term of years and payment of a fine; or
- (5) (4) To payment of a fine without imprisonment or to imprisonment for a fixed term of years if the fine is not paid.

Sec. 14. Minnesota Statutes 1976, Section 609.145, Subdivision 1, is amended to read:

609.145 [CREDIT FOR PRIOR IMPRISONMENT.] Subdivi-

sion 1. When a person has been imprisoned pursuant to a conviction which is set aside and is thereafter convicted of a crime growing out of the same act or omission, the maximum period of imprisonment to which he may be is sentenced is reduced by the period of the prior imprisonment and the time earned thereby in diminution of sentence. If sentence is for less than this maximum, the prior imprisonment and time earned in diminution of sentence shall be credited toward the sentence unless the court otherwise directs.

Sec. 15. Minnesota Statutes 1976, Section 609.165, Subdivision 2, is amended to read:

Subd. 2. The discharge may be:

(1) By order of the court following stay of sentence or stay of execution of sentence; or

March 20, 1978

The Honorable Martin O. Sabo
Speaker of the House of Representatives

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 2124, report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and that H. F. No. 2124 be amended as follows:

Strike everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 1976, Section 241.021, Subdivision 1, is amended to read:

241.021 [LICENSING AND SUPERVISION OF INSTITUTIONS AND FACILITIES.] Subdivision 1. [SUPERVISION OVER CORRECTIONAL INSTITUTIONS; ADVISORY TASK FORCE.] (1) The commissioner of corrections shall inspect *and license* all correctional facilities throughout the state, whether public or private, established and operated for the detention and confinement of persons detained or confined therein according to law except to the extent that they are inspected or licensed by other state regulating agencies. He shall promulgate, by January 1, 1977, pursuant to chapter 15, rules establishing minimum standards for these facilities with respect to their management, operation, physical condition, and the security, safety, health, treatment and discipline of persons detained or confined therein. *Commencing September 1, 1980, no individual, corporation, partnership, voluntary association or other private organization legally responsible for the operation of a correctional facility may operate the facility unless licensed by the commissioner of corrections. The commissioner may provide by rule for provisional licenses which authorize the operation of a correctional facility on a temporary basis where the operator is temporarily unable to comply with all of the requirements for a license.* Notwithstanding the provisions of sections 15.0412 and 15.0413, these rules *setting standards for group homes established under the direction of the juvenile courts* shall not take effect until June 15, 1977. *To assist in the development of standards for jails and lockups the commissioner shall pursuant to section 15.059, subdivision 6, appoint a citizens advisory task force of nine persons, including five persons who have been elected to the office of county sheriff and four persons who have been elected to the office of county board of commissioners September 1, 1979.* The commissioner shall have access to the buildings, grounds, books, records, staff and to persons detained or confined in these facilities. He may require the officers in charge

of these facilities to furnish all information and statistics he deems necessary, upon forms furnished by him.

(2) Any state agency which regulates, inspects, or licenses certain aspects of correctional facilities shall, insofar as is possible, ensure that the minimum standards it requires are substantially the same as those required by other state agencies which regulate, inspect, or license the same aspects of similar types of correctional facilities, although at different correctional facilities.

(3) Nothing in this section shall be construed to limit the commissioner of corrections' authority to promulgate rules establishing standards of eligibility for counties to receive funds under sections 401.01 to 401.16, or to require counties to comply with operating standards the commissioner establishes as a condition precedent for counties to receive that funding.

(4) When the commissioner finds that any facility described in clause (1) of this subdivision, except foster care facilities for delinquent children and youth as provided in subdivision 2, does not conform to the minimum standards established by law or by the commissioner, he shall promptly notify the chief executive officer and the governing board of the facility of the deficiencies and order that they be remedied within a reasonable period of time. The commissioner may by written order restrict the use of any facility which does not substantially conform to minimum standards to prohibit the detention of any person therein for more than 72 hours at one time. *When, after due notice and hearing, the commissioner finds that any facility described in this subdivision, except county jails and lockups as provided in sections 641.26, 642.10, and 642.11, does not conform to minimum standards, or is not making satisfactory progress toward substantial compliance therewith, he may issue his order revoking the license of that facility. After revocation of its license, that facility shall not be used until its license is renewed.* When the commissioner is satisfied that satisfactory progress towards substantial compliance with minimum standard is being made, he may, at the request of the appropriate officials of the affected facility supported by a written schedule for compliance, grant an extension of time for a period not to exceed one year.

(5) *As used in this subdivision, "correctional facility" means any facility, including a group home, having a residential component, the primary purpose of which is to serve persons placed therein by a court, court services department, parole authority, or other correctional agency having dispositional power over persons charged with, convicted or adjudicated to be guilty or delinquent.*

Sec. 2. Minnesota Statutes 1976, Section 260.185, Subdivision 1, is amended to read:

260.185 [DISPOSITIONS; DELINQUENT CHILD.] Subdivision 1. If the court finds that the child is delinquent, it shall enter an order making any of the following dispositions of the case which are deemed necessary to the rehabilitation of the child:

(a) Counsel the child or his parents, guardian, or custodian;

(b) Place the child under the supervision of a probation officer or other suitable person in his own home under conditions prescribed by the court including reasonable rules for his conduct and the conduct of his parents, guardian, or custodian, designed for the physical, mental, and moral well-being and behavior of the child, or with the consent of the commissioner of corrections, in a group foster care facility which is under the management and supervision of said commissioner;

(c) Subject to the supervision of the court, transfer legal custody of the child to one of the following:

(1) A child placing agency; or

(2) The county welfare board; or

(3) A reputable individual of good moral character. *No person may receive custody of two or more unrelated children unless he is licensed as a residential facility pursuant to sections 245.781 to 245.813 ; or*

(4) Except for children found to be delinquent as defined in section 260.015, subdivision 5, clauses (c) and (d), unless the child has previously appeared before a juvenile court on the same charge, and in the judgment of the court, community resources have been exhausted, a county home school, if the county maintains a home school or enters into an agreement with a county home school; or

(5) A county probation officer for placement in a group foster home established under the direction of the juvenile court in accordance with standards established by the commissioner of corrections and licensed pursuant to section 241.021 ;

(d) Except for children found to be delinquent as defined in section 260.015, subdivision 5, clauses (c) and (d), unless the child has previously appeared before a juvenile court on the same charge, and in the judgment of the court, community resources have been exhausted, transfer legal custody by commitment to the commissioner of corrections;

(e) If the child is found to have violated a state or local law or ordinance which has resulted in damage to the property of another, the court may order the child to make reasonable restitution for such damage;

(f) If the child is in need of special treatment and care for his physical or mental health, the court may order the child's parent, guardian, or custodian to provide it. If the parent, guardian, or custodian fails to provide this treatment or care, the court may order it provided.

year, based on formal requests by or on behalf of nonsectarian nonpublic school pupils in a nonsectarian nonpublic school, the local districts or intermediary service areas shall purchase or otherwise acquire instructional materials and loan or provide them for use by children enrolled in that nonsectarian nonpublic school. The loan or provision of the instructional materials shall be subject to rules promulgated by the state board of education.

In the case of consumable or nonreusable instructional materials, the title and possession may be surrendered to the nonsectarian nonpublic school pupil for whom they are provided; in the case of nonconsumable or reusable instructional materials the title to same shall remain in the servicing school district or intermediary service area, and possession or custody may be granted or charged to administrators of the nonsectarian nonpublic school attended by the nonsectarian nonpublic school pupil or pupils to whom the instructional materials were loaned.

The cost per pupil of the instructional materials provided for in this subdivision for each school year shall not exceed the statewide average expenditure per pupil by the Minnesota public elementary and secondary schools for instructional materials as computed and established by the department of education by March 1 of the preceding school year from the most recent public school year data then available. The commissioner shall allot to the school districts or intermediary service areas the total cost for each school year of providing or loaning the instructional materials for the pupils in each nonsectarian nonpublic school which shall not exceed the product of the statewide average expenditure per pupil multiplied by the number of nonsectarian nonpublic school pupils who make requests pursuant to this subdivision and who are enrolled as of September 15 of the current school year.

Subd. 4. The educational aids to nonsectarian nonpublic school pupils provided for by this section shall be supplementary to the educational aids and services provided to nonpublic school pupils pursuant to sections 123.931 to 123.937.

Subd. 5. During each school year the commissioner shall make such payments to school districts or intermediary service areas as are needed to meet contractual obligations incurred for the provision of benefits to nonsectarian nonpublic school students pursuant to this section.

Subd. 6. Each year, a school district or intermediary service area may claim and receive from the department of education an additional sum for the actual cost of administration of this section, which shall not exceed an amount equal to five percent of the district's or area's allocation for that year pursuant to this section.

(b) Foundation aid for shared time pupils shall equal the amount which would accrue if shared time pupil units, counted pursuant to section 124.17, subdivision 1, clauses (1) and (2), were added to the district's total pupil units used in determining its foundation aid. (c) Foundation aid for shared time pupils shall be paid to the district of the pupil's residence. If a pupil attends shared time classes in another district, the resident district shall pay to the district of attendance an amount of tuition equal to the ratio in clause (a) times the amount of tuition which would be charged and paid for a nonresident public school pupil in a similar circumstance. The district of residence shall not be obligated for tuition except by previous agreement.

(d) Notwithstanding the provisions of clause (c), the resident district of a shared time pupil attending shared time classes in another district may grant the district of attendance, upon its request, permission to claim the pupil as a resident for state aid purposes. In this case, state aid shall be paid to the district of attendance and, upon agreement, the district of attendance may bill the resident district for any unreimbursed education costs, including unreimbursed transportation costs.

(e) Minutes of enrollment in a public school during which a nonpublic school pupil receives services pursuant to section 123.935 shall not be used in the computation of shared time foundation aid pursuant to this subdivision.

The Honorable Edward J. Gearty
President of the Senate

The Honorable Martin O. Sabo
Speaker of the House of Representatives

We, the undersigned conferees for S. F. No. 1864, report that we have agreed upon the items in dispute and recommend as follows:

That the House recede from its amendments and S. F. No. 1864 be amended as follows:

Strike everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 1976, Section 43.13, Subdivision 1, is amended to read:

43.13 [EXAMINATIONS.] Subdivision 1. [FAIR TESTS; RECORDS.] All examinations for positions in the classified service shall relate to those matters which will fairly test the capacity and fitness of the persons examined to efficiently discharge the duties of the office or employment position sought by them. Each applicant in an oral examination shall be rated individually by each examiner who shall sign his rating of the applicant. The average of the examiners, examiners' separate ratings, if more than one examiner conducts the oral examinations, is the applicant's oral examination rating. The appointing authority may pay reasonable travel expenses actually incurred to applicants invited for oral examinations for those positions where unusual difficulty in recruiting qualified applicants is being encountered.

Sec. 2. Minnesota Statutes 1976, Section 43.13, is amended by adding a subdivision to read:

Subd. 4. [FREQUENCY OF TESTING.] The commissioner shall devise and publicize a schedule of testing for all classes in the classified service designed to insure that examinations will be given at a frequency commensurate with the occurrence of vacancies in positions in each class and reflective of the need of appointing authorities to fill vacant positions rapidly. Procedures for the incorporation of scores into one eligible list if more than one examination is given for a class in one year and necessary restrictions on the ability of an applicant to take repeated examinations for the same class shall be adopted as rules.

Sec. 3. [TRANSITION PROVISION.] *The commissioner may promulgate temporary rules in order to implement section 2 as soon as possible.*

Sec. 4. Minnesota Statutes 1976, Section 43.14, Subdivision 1, is amended to read:

43.14 [EXAMINATION REFUSED; APPEAL; BOND.] Subdivision 1. [REASONS FOR REFUSAL.] The commissioner may refuse to examine an applicant, or after examination may refuse to certify an eligible, who is found to lack any of the preliminary requirements established for the examination for the position or employment for which he applies; or who is physically so disabled as to be rendered unfit for the proper performance of the duties of the position to which he seeks appointment; or who is addicted to habit-forming drugs or is an habitual user of intoxicating liquors to excess; or who has been guilty of any crime involving moral turpitude or of infamous or notoriously disgraceful conduct; or who has been dismissed from the public service for delinquency or misconduct; or and shall refuse to certify an eligible who has made a false statement of any material fact; or who, directly or indirectly, shall give, render or pay, or promise to give, render or pay, any money,

service, or other valuable thing to any person for, or on account of, or in connection with, his test, appointment, or proposed appointment; or who practiced, or attempted to practice, any deception or fraud in his application, in his certificate, in his examination, or in securing his eligibility or appointment; or who refuses to furnish testimony as required in section 43.07.

Sec. 5. Minnesota Statutes 1976, Chapter 43, is amended by adding a section to read:

[43.162] [VALIDITY OF APPLICATIONS.] *No person shall be appointed to a position in the civil service until the appointing authority has made reasonable effort to verify any information contained in the prospective employee's job application which relates to the ability of the person to perform the job. The commissioner shall establish procedures, which shall not be promulgated as rules, for use by an appointing authority in performing this verification function. Notice of the verification responsibilities of the appointing authority shall be conspicuously printed on all state employment application forms.*

Sec. 6. Minnesota Statutes 1976, Section 43.18, is amended to read:

43.18 [VACANCIES.] Subdivision 1. [NOTICE.] *Appointing officers authorities shall give written notice to the commissioner of personnel of their intention to establish new positions and of the existence of any vacancy to be filled in any office or employment in the classified service, and, within a reasonable time after the receipt of this notice, the commissioner shall certify, from the list of eligibles, appropriate for the grade and class in which the position is classified, names in the manner as provided in this section.*

Subd. 2. [PROMOTIONS.] *In the case of positions to be filled by examinations other than open competitive examinations, the commissioner shall certify, from the list of eligibles, appropriate for the grade and class in which the position is classified, the first three names on such list together with any additional names of persons having an examination rating within three points of the person on the list with the highest examination rating and with any additional names of persons having the same score as the last name certified in accordance with the above, except as provided in sections 43.23 and 43.19, subdivision 1.*

Subd. 3. [ORIGINAL ENTRY.] *In the case of positions to be filled by open competitive examination, the commissioner shall certify the first ten names on the list together with any additional names of persons having the same score as the tenth name so certified. Appointments from the list shall only be made from the first ten available eligibles names so certified. The commissioner shall promulgate rules so that a determination of unavailability by an appointing authority will be based on a statement of unavailability from the eligible or lack of response by the eligible to notification by certified mail of the open position. Before requesting a recertification based on unavailability or rejection of an eligible, the appointing authority shall demonstrate the unavail-*

ability of an eligible or shall provide reasons for requesting the removal of an eligible's name from the certification.

Subd. 4. [APPOINTMENT; PROBATION.] The appointing officer *authority* shall appoint on probation, with sole reference to merit and fitness, one of the said candidates, whose name is certified in the manner above set forth, to fill such vacancy, except as provided in section 43.23. Seniority in length of service shall also be one of the factors in an appointment in the manner as provided by personnel rule. The provisions of this section shall not apply when the office or employment *situation* is among those listed in section 43.20, for which competitive examinations are not required.

Sec. 7. Minnesota Statutes 1976, Section 43.19, Subdivision 1, is amended to read:

43.19 [VACANCIES; PROMOTIONS; DISMISSALS.] Subdivision 1. [VACANCIES FILLED BY PROMOTION.] (1) Vacancies in positions shall be filled, so far as practicable, by promotion from among persons holding positions in the classified service, and, subject to such exceptions as the commissioner may provide, from the lower class or group within the particular classification, and in accordance with section 43.18 and personnel rules. Except as provided in clause (2), promotions shall be based upon merit and fitness, to be ascertained by competitive examinations in which the employee's efficiency, character, and job-related conduct shall all constitute a factor. For positions defined by personnel rule as "non-managerial" seniority shall also constitute a factor.

(2) The commissioner may authorize the appointing authority of any state office or department *agency* to promote any employee in that office or department *agency* to a position of *in* a higher grade or class requiring peculiar and exceptional qualifications of an administrative, scientific, professional, or expert character, following a non-competitive examination, which shall be practical and shall involve only the duties of the position.

(3) The commissioner shall give the non-competitive examinations provided for in clause (2) upon request of any appointing authority, in accordance with personnel rules.

Sec. 8. Minnesota Statutes 1976, Section 43.20, Subdivision 2, is amended to read:

Subd. 2. When *the commissioner determines* there are urgent reasons for filling a vacancy in any position in the classified service and the commissioner is unable to certify from *any a complete and* appropriate eligible list for the vacancy, the commissioner may, *upon the request of the appointing authority*, issue a provisional permit or certify a suitable person to fill such vacancy provisionally only until a selection and appointment can be made after competitive examination; *but . When requesting a provisional appointment, an appointing authority shall certify to the commissioner that he has determined that all persons on an incomplete appropriate list are unsuitable or unavailable for appointment.*

Before granting a provisional permit to a person, the commissioner shall review the qualifications of the prospective employee and shall make a preliminary determination that the person would be qualified for the position on a permanent basis or is qualified in all respects except for completion of a licensure requirement. No person shall receive more than one provisional appointment nor serve more than six months in any 12 month period as a provisional appointee, except, where in individual cases the commissioner grants an exception for the good of the service. If the position is opened for competitive examination after the appointment of a provisional employee, no person shall be denied certification to an eligible list for the position solely because he did not serve in the position in a provisional capacity. If a provisional appointment is made after a determination of the unavailability or unsuitability of all persons on the incomplete list, the commissioner may at the request of the appointing authority designate the provisional appointee as a probationary appointee if the employee has performed satisfactorily for at least 60 days in the provisional capacity and has received a passing score on an appropriate examination. A person receiving a probationary appointment after serving as a provisional appointee, shall be required to complete the same probationary period as other appointees to similar permanent positions.

Sec. 9. Minnesota Statutes 1976, Section 43.20, Subdivision 3, is amended to read:

Subd. 3. In case of an emergency, an appointment may be made without regard to the provisions of this chapter, but in no case shall it continue longer than ten working days, and in no case shall successive emergency appointments be made; this provision shall apply to both persons and positions; and no person shall receive more than three emergency appointments in any one or different positions within ~~one year~~ any 12 month period .

Sec. 10. Minnesota Statutes 1976, Section 43.20, Subdivision 5, is amended to read:

Subd. 5. Where the services to be rendered by an appointee are for a temporary period not to exceed an accumulation of six months in any 12 month period , the commissioner shall certify from an eligible list for the temporary service any person he deems qualified; the acceptance or refusal by an eligible of a temporary appointment shall not affect his standing on the register for permanent employment, nor shall the period of temporary service be counted as a part of the probationary period in case of subsequent appointment to a permanent position. ~~No person shall receive more than one temporary appointment within one year.~~ No temporary appointment shall exceed an accumulation of six months except to fill a vacancy created by an approved leave of absence not to exceed one year or where the commissioner grants an extension of temporary appointment to the maximum of one year in the best interests of the state.

Sec. 11. Minnesota Statutes 1976, Section 43.20, is amended by adding a subdivision to read:

Subd. 7. Where the position to be filled is of a routine, service nature involving unskilled tasks, the performance of which cannot be directly related to qualifications beyond a minimum competency level, the commissioner may authorize the administration of a basic qualifying selection process designed to ascertain which candidates could perform the tasks of the job in a satisfactory manner. Any candidate found so qualified may be certified and appointed to such a position.

Sec. 12. Minnesota Statutes 1976, Section 43.24, Subdivision 1, is amended to read:

43.24 [REMOVAL.] Subdivision 1. [WRITTEN STATEMENT.] No permanent employee in the classified service, under the provisions of this chapter or the rules made pursuant thereto, shall be removed, discharged, suspended without pay for more than 30 days, or reduced in pay or position, except for just cause, which shall not be religious or political, or because of the employee's race, sex, disability or age, subject however to the mandatory retirement ages specified by law. In case of any disciplinary action, as enumerated in this section, the employee shall, before the action is taken, be furnished with a statement, in writing, setting forth the reasons for the disciplinary action, be permitted five days time to reply thereto, in writing, or upon his request, to appear personally and reply to the head of the department. A copy of the statement and the employee's reply, if any, shall be filed with the commissioner prior to the effective date thereof. *Any permanent employee in the classified service who is removed, discharged, suspended without pay, or reduced in pay or position, shall be notified no later than the effective date of the action of his right to appeal the action to the board.*

Sec. 13. Minnesota Statutes 1976, Section 43.32, Subdivision 11, is amended to read:

Subd. 11. [REVIEW OF TRAINING PLANS.] The head of each department shall be responsible, with the advice and counsel of the commissioner, for planning, budgeting and conducting training programs within the scope of the overall training plan. He shall submit his training plans and budgets for each year of the biennium to the commissioner for review and comment prior to the implementation of any program, but in any case no later than six weeks after the budget appropriations are approved.

For purposes of training, the commissioner may accept funds from any source and may be reimbursed by the various departments for reasonable program cost. *Moneys transferred to the commissioner pursuant to this subdivision are appropriated to the commissioner to perform training functions as provided herein.*

Sec. 14. Minnesota Statutes 1976, Section 43.327, Subdivision 1, is amended to read:

43.327 [TRAVEL AND RELOCATION EXPENSES.] Subdivision 1. [COMMISSIONER TO MAKE RULES ON RELOCATION.] The commissioner shall make personnel rules relating to the expenses of moving state officers and employees, their

families and household goods to new stations, subsistence, realtor fees, and such other expenses as may be incident to assignment to such stations.

Sec. 15. Minnesota Statutes 1976, Section 43.327, Subdivision 2, is amended to read:

Subd. 2. [COMMISSIONER TO MAKE RULES ON TRAVEL.] The commissioner shall make personnel rules relating to travel of state officers and employees on state business and expenses incurred thereon. *When unusual difficulty in recruiting qualified applicants is being encountered the commissioner may authorize the appointing authority to pay travel expenses incurred by applicants invited for oral examinations or for employment interviews in the same manner and amounts authorized by personnel rules for state employees.*

Sec. 16. Minnesota Statutes 1976, Section 43.491, is amended by adding a subdivision to read:

Subd. 5. Notwithstanding the restrictions contained in section 43.44, subdivision 2, a retired state employee who is eligible for, applies for and receives an annuity under a state retirement program shall be eligible to continue to participate at his own expense in the hospital benefits coverage and medical benefits coverage provided for other state employees by sections 43.42 to 43.50. The retired employee may also, at his own expense, continue hospital benefits coverage and medical benefits coverage for his dependents who meet the general dependent eligibility requirements for those coverages. The coverage shall be coordinated with relevant health insurance benefits provided through the federally-sponsored medicare program. Within 30 days after the effective date of this section or within 30 days after the effective date of his retirement, whichever day is later, the employee shall notify the commissioner or his designee of his intention to continue the coverage. The commissioner shall establish forms and procedures for exercise of the option provided by this section and for payment of necessary premiums.

[SELECTION OF CLASSES.]** *Notwithstanding the provisions of Minnesota Statutes, Section 43.18 or any other law to the contrary, the commissioner of personnel shall designate job classes in the state classified civil service to be filled according to the reliability-based band width certification procedure specified in this section. The commissioner shall designate classes covering a broad spectrum of types of employment and shall designate classes which include positions under the jurisdiction of the greatest possible number of state agencies.*

Subd. 2. [DEFINITION.] *As used in this section, reliability-based band width certification shall mean a process for the preparation of a list of certified eligibles for filling vacant positions within a job class, based upon the statistical reliability of the examination. The list shall be composed of those persons who received a passing score and whose scores fell within that top range of scores which the reliability determination reveals to be sub-*

stantially indistinguishable. In no event shall a list of certified eligibles prepared under the band width certification procedure contain less than ten names unless fewer than ten persons received passing scores, in which case all persons who received passing scores shall be placed on the list. Names of certified eligibles on a list prepared under this section shall be placed in random order and shall not be ranked when delivered to an appointing authority. This section shall not be deemed to be inconsistent with other laws which would expand the size of an eligible list beyond the size provided for in this section.

Subd. 3. [PROCEDURES.] *The commissioner shall establish uniform procedures for the implementation of this section. The procedures shall be adopted as temporary rules and, notwithstanding the limitations of Minnesota Statutes, Section 15.0412, shall be effective for the duration of the band width certification program unless superseded, repealed or amended by temporary or other rule. When a list of certified eligibles prepared pursuant to this section is supplied to an appointing authority, the list shall be accompanied by an explanation of the program and a copy or summary of applicable rules.*

Subd. 4. [MONITORING; REPORT.] *No later than January 1, 1980, the commissioner shall provide the governor and the legislature with a report giving the procedures, results, costs and evaluations of the program and the substance of comments received from affected persons. In the report he shall recommend whether to continue the program and what changes may be necessary. Periodically throughout the duration of the program he shall advise the governmental operations committees of the senate and the house of representatives and the legislative audit commission on the progress of the program and his evaluation to date.*

Sec. 18. Certifications of eligibles in force on May 1, 1978, shall remain effective pursuant to law in effect on the day prior to the effective date of this act."*

We request adoption of this report and repassage of the bill.

March 22, 1978

The Honorable Edward J. Gearty
President of the Senate

The Honorable Martin O. Sabo
Speaker of the House of Representatives

We, the undersigned conferees for S. F. No. 1943, report that we have agreed upon the items in dispute and recommend as follows:

That the House recede from its amendments and S. F. No. 1943 be amended as follows:

Strike everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 1976, Section 88.01, is amended by adding a subdivision to read:

Subd. 23. [OPEN FIRE.] "Open fire" means a fire burning in matter, whether concentrated or dispersed, which is not contained within a fully enclosed firebox, structure or vehicle and from which the products of combustion are emitted directly to the open atmosphere without passing through a stack, duct or chimney.

Sec. 2. Minnesota Statutes 1976, Section 88.10, is amended to read:

88.10 [FIGHTING FOREST FIRES, AUTHORITY OF STATE FOREST OFFICERS.] Subdivision 1. Under the direction of the commissioner, forest officers are charged with preventing and extinguishing forest fires in their respective districts and the performance of such other duties as may be required by him. They may arrest without warrant any person found violating any provisions of sections 88.03 to ~~88.21~~ 88.22, take him before a court of competent jurisdiction in the county charging the person so arrested, and the person so charged shall be arraigned and given a hearing on the complaint. The forest officers shall not be liable in civil action for trespass committed in the discharge of their duties. All authorized state forest officers, including rangers, guards, township fire wardens, smoke chasers, fire foremen or individuals legally employed as fire fighters, may in the performance of their duties of fire fighting go onto the property of any person, company, or corporation and in so doing may set backfires, dig or plow trenches, cut timber for clearing fire lines, dig water holes, remove fence wires to provide access to the fire or carry on all other customary activities necessary for the fighting of forest, prairie or brush fires without incurring a liability to anyone, except for damages arising out of wilful or gross negligence.

Subd. 2. Any forest officer may serve any warrant for the arrest of any person violating any provision of sections 88.03 to ~~88.21~~ 88.22 and for that purpose all forest officers are hereby vested with the same powers as constables or other similar officers of the courts issuing such warrants.

Sec. 3. Minnesota Statutes 1976, Section 88.16, is amended to read:

88.16 [STARTING FIRES; CAMPFIRES; INCINERATORS; BURNING BAN.] Subdivision 1. *Except as provided in subdivision 2, it shall be unlawful, when the ground is not snow-covered, in any place where there are standing or growing native coniferous trees, or in areas of ground from which native natural coniferous trees have been cut, or where there are slashings of such trees, or native brush, timber, slashings thereof, or excavated stumps, or where there is peat or peat roots excavated or growing, to start or have any open fire, or any back fire, without the written permission of the commissioner, or other authorized forest officer.*

Subd. 2. No permit is required for the following open fires:

(a) A cooking or warming fire contained in a fireplace, fire-ring, charcoal grill, portable gas or liquid fueled camp stove or other similar container or device designed for the purpose of cooking or heating, or if the area within a radius of five feet of the fire is reasonably clear of all combustible material.

(b) The burning of grass, leaves, rubbish, garbage, branches, and similar combustible material in an approved incinerator. An approved incinerator shall be constructed of fire resistant material, have a capacity of at least three bushels, be maintained with a minimum burning capacity of at least two bushels, and have a cover which is closed when in use and openings in the top or sides of one inch maximum diameter. No combustible material shall be nearer than three feet to the burner or incinerator when in use.

Subd. 2 3 . The occupant of any premises upon which any unauthorized fire is burning in the vicinity of forest lands, whether the fire was started by him or otherwise, shall promptly report the fire to the commissioner, or to the nearest forest officer or fire warden. Failure to make this report shall be deemed a violation of sections 88.03 to 88.21 88.22 and the occupant of the premises shall be deemed prima facie guilty of negligence if the unreported fire spreads from the premises to the damage, loss, or injury of the state or any person.

Sec. 4. Minnesota Statutes 1976, Section 88.17, is amended to read:

88.17 [PERMISSION TO START FIRES; PROSECUTION FOR UNLAWFULLY STARTING FIRES.] Subdivision 1. Permission to set fire to any grass, stubble, peat, brush, raking of leaves, rubbish, garbage, branches, slashings or woods for the purpose of cleanup, clearing and improving land or preventing other fire shall be given whenever the same may be safely burned, upon such reasonable conditions and restrictions as the commissioner may prescribe, to prevent same from spreading and getting beyond control. This permission shall be in the form of a written permit signed by a regular forest officer or some other suitable person to be designated by him, as town fire warden, these permits to be on forms furnished by the commissioner. The commissioner, or any of his authorized assistants, may at his discretion in cases of extreme danger refuse, revoke,

or postpone the use of permits to burn when such act is clearly necessary for the safety of life and property. Any person setting any fire or burning anything under such permit shall keep the permit on his person while so engaged and produce and exhibit the permit to any forest officer, when requested to do so. No permit is required for the burning of grass, leaves, rubbish, garbage, branches and similar combustible material under the following conditions: (1) The material shall be burned within an incinerator or burner constructed of fire resistant material having a capacity of not less than three bushels and maintained with a minimum burning capacity of not less than two bushels, a cover which is closed when in use, and maximum openings in the top or sides no greater than one inch in diameter; and (2) No combustible material shall be nearer than three feet to the burner or incinerator when it is in use.

Subd. 2. In any prosecution under sections 88.03 to 88.21 88.22 for unlawfully starting or setting or having or permitting the continuation or spread of any fire or back-fire, proof upon the part of the prosecution that such fire or back-fire originated upon, or was permitted to burn upon, or that it spread from, lands or premises occupied by the person charged with the offense, and that this person had knowledge of the fire and made no effort to put it out, shall be prima facie evidence that he is guilty. The burden of proof as to any matter in refutation of this prima facie guilt, or in extenuation or excuse, shall be and rest upon the person so appearing prima facie to be guilty.

Sec. 5. Minnesota Statutes 1976, Section 88.22, is amended to read:

88.22 [FOREST FIRE PREVENTION; CLOSING FOREST ROADS AND TRAILS; PROHIBITING OPEN FIRES AND SMOKING; REGULATING PRIVATE AND PUBLIC DUMPING AREAS; PENALTIES.] *Subdivision 1.* When the commissioner of natural resources shall determine that conditions conducive to forest fire hazards exist in the forest areas of the state and that the presence of persons in the forest areas tends to aggravate forest fire hazards, render forest trails impassable by driving thereon during wet seasons and hampers the effective enforcement of state timber trespass and game laws, he may by written order, close any road or trail leading into any land used for any conservation purposes, to all modes of travel except that considered essential such as residents traveling to and from their homes or in other cases to be determined by the authorized forest officers assigned to guard the area. The commissioner may also, upon such determination, by written order, ~~prohibit the building of all campfires except by permit issued by an authorized officer~~ *suspend the issuance of permits for open fires, revoke or suspend the operation of a permit previously issued and, to the extent he deems necessary, prohibit the building of all or some kinds of open fires in all or any part of a forest area regardless of whether a permit is otherwise required*; and the commissioner also may, by written order, prohibit smoking except at places of habitation or automobiles or other enclosed vehicles properly equipped with an efficient ash tray.

Subd. 2. The commissioner may close any public or private dumping area, by posting such area as closed to dumping, whenever he deems it necessary for the prevention of forest fires. Thereafter no person shall deposit refuse of any kind within or adjacent to such closed area, or along the road leading thereto.

The commissioner shall establish such minimum standards governing public and private dumping areas as he deems necessary for the prevention of forest fires.

Subd. 3. Any violations of this section shall constitute a misdemeanor.

Sec. 6. Minnesota Statutes 1976, Section 88.73, is amended to read:

88.73 [ADMINISTRATION; DELEGATED POWERS AND DUTIES.] The director is hereby empowered and directed to administer and enforce sections 88.03 to ~~88.21~~ 88.22 ; and, to that end, he may make and enforce all necessary or convenient rules and regulations not inconsistent with the provisions and purposes of these sections. In every case the powers delegated to, and the duties imposed upon, the director, and other state or municipal representatives by sections 88.03 to ~~88.21~~ 88.22 shall be exercised and performed in good faith, without undue oppression, and in a manner as reasonable as the exigencies of the situation will permit.

Nothing in sections 88.03 to ~~88.21~~ 88.22 shall be construed as abrogating the laws specifically governing state parks or other public parks, or state or municipal forests. The provisions of all such laws and of sections 88.03 to ~~88.21~~ 88.22 shall be harmonized and both given effect wherever possible.

Nothing in sections 88.03 to ~~88.21~~ 88.22 shall be construed as restricting the state, or any political subdivision thereof, in the exercise of any power, right, or privilege which may be conferred by separate enactment of the legislature under authority of the so-called forest fire prevention amendment to the State Constitution, approved by vote of the electors of this state at the general election held in November, 1924.

Sec. 7. Minnesota Statutes 1976, Section 88.75, Subdivision 1, is amended to read:

88.75 [VIOLATIONS; PENALTIES.] Subdivision 1. Any person who violates any of the provisions of sections 88.03 to ~~88.21~~ 88.22 for which no specific penalty is therein prescribed shall be guilty of a misdemeanor and be punished accordingly.

Failure by any person to comply with any provision or requirement of sections 88.03 to ~~88.21~~ 88.22 to which such person is subject shall be deemed a violation thereof.

Any person who violates any provisions of sections 88.03 to ~~88.21~~ 88.22 , in addition to any penalties therein prescribed, or hereinbefore in this section prescribed, for such violation, shall also be liable in full damages to any and every person suffering loss or injury by reason of such violation, including

liability to the state, and any of its political subdivisions, for all expenses incurred in fighting or preventing the spread of, or extinguishing, any fire caused by, or resulting from, any violation of these sections. When a fire set by any person spreads to and damages or destroys property belonging to another, the person setting the fire shall be prima facie guilty of negligence in setting and allowing the same to spread.

At any time the state, or any political subdivision thereof, either of its own motion, or at the suggestion or request of the director, may bring an action in any court of competent jurisdiction to restrain, enjoin, or otherwise prohibit any violation of sections 88.03 to ~~88.21~~ 88.22 , whether therein described as a crime or not, and likewise to restrain, enjoin, or prohibit any person from proceeding further in, with, or at any timber cutting or other operations without complying with the provisions of those sections, or the requirements of the director pursuant thereto; and the court may grant such relief, or any other appropriate relief, whenever it shall appear that the same may prevent loss of life or property by fire, or may otherwise aid in accomplishing the purposes of sections 88.03 to ~~88.21~~ 88.22 .

Sec. 8. Minnesota Statutes 1976, Section 88.76, is amended to read:

88.76 [REWARDS.] Upon conviction of any person for violating any of the provisions of sections 88.03 to ~~88.21~~ 88.22 , the director, at his discretion, may pay, from any money placed at his disposal under those sections, a reward of not more than \$25 to the person or persons giving the information leading to such conviction.

Sec. 9. Minnesota Statutes 1976, Section 88.77, is amended to read:

88.77 [DISPOSAL OF FINES AND PENALTIES.] Except as otherwise expressly provided in sections 88.03 to ~~88.21~~ 88.22 , all moneys received as penalties for violations of the provisions of those sections, less the cost of collection, shall be paid into the treasury of the county in which the penalties for these violations were imposed; provided, that fines collected for violations of those sections, where prosecutions are instituted upon the complaint of town or city officers duly appointed by the director as fire wardens, shall be paid into the treasury of the town or city where the offense was committed.

Sec. 10. Minnesota Statutes 1976, Section 88.78, is amended to read:

88.78 [APPEALS.] No appeal shall be allowed from a judgment in any court of a justice of the peace, or a municipal court, or other similar court, to the district court in any prosecution under sections 88.03 to ~~88.21~~ 88.22 , unless the person appealing shall, within the time prescribed by law, enter into a recognizance, with sufficient sureties, or deposit cash bail in twice the amount of the fine and costs, to be approved by the justice, conditioned to appear before the district court on the first day of the next

general term thereof to be held in and for the same county, and abide the judgment of the court therein.

The justice or judge may examine the proposed sureties under oath and, in such case, shall make and keep a record of their answers in respect to the kinds and amount of their property not exempt from execution, and he shall furnish a copy of the same to the director.

When an arrest shall have been made for violation of any of the provisions of sections 88.03 to ~~88.21~~ 88.22, or when information of such violation shall have been lodged with him, the county attorney of the county in which the offense was committed shall prosecute the accused with diligence and energy.

Sec. 11. [EFFECTIVE DATE.] *This act is effective the day following its final enactment.*"

That the House recede from its amendments and that S. F. No. 1106 be further amended as follows:

Strike everything after the enacting clause and insert:

“Section 1. [PURPOSES; OBJECTIVES.] It is the goal of sections 1 to 6 to assemble the information necessary to identify, evaluate, and select among alternative policies, programs, technologies, institutional arrangements, and proposals designed to further the following purposes:

(a) Reduction in the volumes of solid and hazardous wastes generated and control of toxic substances produced and used in the state;

(b) Separation and recovery or pretreatment of solid and hazardous wastes at their point of generation;

(c) Recovery of materials and energy from solid and hazardous wastes;

(d) Coordination of decisions on the production of energy from solid and hazardous wastes with decisions on the production of energy from coal and from other recoverable residual materials such as sewage sludge and agricultural and timber residues; and

(e) Reduction in needless dependence on land disposal of solid and hazardous wastes.

The research under sections 1 to 6 shall be directed to help:

(i) Identify the most important unrealized potentials for accomplishing these purposes;

(ii) Identify the most important constraints or barriers which

are preventing the fuller realization of these potentials and which are amenable to government manipulation;

(iii) Identify, evaluate, and make recommendations on the costs, benefits, and priority of alternative government actions in the state to overcome the constraints and more fully realize the potentials and thereby to further the purposes.

Sec. 2. [GENERAL PROVISIONS.] Subdivision 1. [STATE PLANNING AGENCY; ADMINISTRATION; RELATED RESEARCH.] The director of the state planning agency shall be responsible for the preparation of the research design and coordinated work program under subdivision 3 and for research studies and reports undertaken by the agency or by interagency agreement pursuant thereto. The planning agency may contract with the pollution control agency or other appropriate state agencies for the performance of parts of the studies assigned by section 4, subdivision 3, and section 5, subdivision 2, subject to the approval of the joint legislative committee as provided in subdivision 2 of this section. The planning agency shall summarize, and if and where possible evaluate, laws, programs, and practices in other states relating to solid and hazardous waste and toxic substances. The agency, in cooperation with other units and agencies of government, shall identify available federal funding for research contemplated by sections 1 to 6. The agency shall evaluate the law and government procedures, practices, and responsibilities for planning, locating, reviewing, and regulating solid and hazardous waste disposal and processing facilities and sites and for ensuring public education and involvement and assessing community attitudes in such matters. The agency shall assess local and regional solid and hazardous waste plans and the relationship and coordination of such plans with the goals expressed in section 1 and shall study and recommend means of coordinating federal, state, and local laws and regulations, programs, program administration, and funding relating to solid and hazardous waste and toxic substances.

Subd. 2. [JOINT LEGISLATIVE COMMITTEE.] A joint legislative committee on solid and hazardous waste shall be established by April 15, 1978, and shall go out of existence by June 1, 1979, unless extended by legislative action.

The committee shall be composed of seven members of the house of representatives appointed by the speaker and seven members of the senate appointed by the majority leader. The committee shall elect a chairman from among its members.

The committee shall assist and advise the director of the planning agency and the other agencies responsible for research under sections 1 to 6 in designing the research program and projects, review the research in progress and the reports, and encourage and facilitate contribution and participation by interested individuals and organizations in the state. The committee shall have authority to approve the research design and work program and any reassignment by the planning agency of parts of studies assigned by section 4, subdivision 3, and section 5,

subdivision 2. The joint science and technology staff of the legislature shall serve as staff to the committee.

Subd. 3. [WORK PROGRAM.] By June 15, 1978 the planning agency shall submit a coordinated research design and work program for projects under sections 1 to 6 for review by the joint committee. The research design and work program shall be prepared after consultation with the responsible agencies, the joint science and technology staff of the legislature, and the committee. The research design and work program shall be based upon and shall proceed from preliminary research studies by the joint science and technology staff, particularly studies relating to decision models for resource recovery facilities. The work program shall include provisions for review by the committee of work in progress and agency reports.

By March 1, 1979, the planning agency shall present a report to the legislature on the results of research undertaken pursuant to sections 1 to 6. The report of the planning agency to the legislature shall include the research reports of the planning agency and the other agencies; a general assessment and evaluation of the research program; and recommendations on the continuation and extension of the planning, research, and analysis contemplated by sections 1 to 6. The reports may also recommend strategies; priorities; policies; changes in government structures, responsibilities, and procedures; program development; or other legislative actions related to the research contemplated by sections 1 to 6.

Sec. 4. [NONHAZARDOUS SOLID WASTE RESEARCH PROJECTS.] Subdivision 1. [ENERGY AGENCY.] The planning agency shall contract with the energy agency to perform research studies directed to:

(a) Produce recommendations for relating decisions in the metropolitan area on resource recovery facilities to decisions on coal conversion, co-generation, and district heating;

(b) Develop a model or method for relating decisions in the state on resource recovery facilities, the production of energy from sewage sludge and agricultural and timber residues, coal conversion, co-generation, and district heating; determine the availability of data necessary to apply the model in standard metropolitan statistical areas of the state; and, if possible, test the model.

Subd. 2. [POLLUTION CONTROL AGENCY.] The planning agency shall contract with the pollution control agency to perform research studies directed to:

(a) Develop a profile of solid waste generation and disposal in the state in sufficient detail and reliability at least to identify the boundaries of existing waste sheds of sufficient volume and density to support resource recovery facilities;

(b) Assess the feasibility and effects of alternative methods for recovering and recycling resources from solid waste, including alternative separation and collection systems, coordinated marketing, transportation cost, satellite facilities and transfer stations, refuse derived fuel, ecofuel, small resource recovery facilities, and the use of sewage sludge as a fertilizer;

(c) Identify land disposal sites of municipal solid waste which may threaten to contaminate groundwater or surface water and develop recommendations for a program to establish priorities for and estimates of the costs of the restoration of such sites or the abatement of such threats.

Subd. 3. [PLANNING AGENCY.] The planning agency shall perform research studies directed to:

(a) Develop and test a model or method for evaluating proposals for resource recovery facilities and alternatives thereto, incorporating at least the following factors: (i) identification, analysis, and control of markets for any products recovered from waste; (ii) identification and control of the waste necessary for economic operation; (iii) identification of risks, reduction of risks, and explicit assignment of risks, financial responsibility, and liability; (iv) facility location and capacity; (v) alternative technologies; (vi) environmental impact; (vii) capital and operating costs; (viii) financing alternatives and alternative allocations of costs among users and the general public; (ix) legal and institutional requirements; (x) effects on collection and disposal practices and costs;

(b) Produce recommendations on the nature and purposes of any state program of encouragement or assistance to resource recovery facilities;

(c) Produce recommendations for encouraging or requiring state and local government and regional agencies to reduce the amount of solid waste they generate and, wherever markets exist or may be developed, to separate and recover more recyclable waste at the point of generation;

(d) Produce recommendations for encouraging or requiring specific changes in the materials procurement practices and policies of state and local government and regional agencies which will serve to (i) ensure consideration of recyclability and (ii) develop and ensure government markets in the state for products made of recovered waste materials;

(e) Produce recommendations for further research on markets and the development of markets for recovered materials;

(f) Produce recommendations for encouraging or requiring methods to reduce the volumes of solid waste generated, by encouraging reuse of products, reductions in material and energy used in products, and increases in product lifetimes;

(g) Examine whether a conflict exists between the goals of source reduction and resource recovery.

Sec. 5. [HAZARDOUS WASTES RESEARCH PROJECTS.]
Subdivision 1. [POLLUTION CONTROL AGENCY.] The planning agency shall contract with the pollution control agency to perform research studies directed to:

(a) Assess access to and cost of disposal and treatment processes at hazardous waste facilities located within and outside the state;

65A.01 [MINNESOTA STANDARD FIRE INSURANCE POLICY.] Subdivision 1. [DESIGNATION AND SCOPE.] The printed form of a policy of fire insurance, as set forth in subdivision 3 and section 2 of this act, shall be known and designated as the "Minnesota Standard Fire Insurance Policy" to be used in the state of Minnesota. No policy or contract of fire insurance shall be made, issued or delivered by any insurer including reciprocals or inter-insurance exchanges or any agent or representative thereof, on any property in this state, unless it shall provide the specified coverage and conform as to all provisions, stipulations, and conditions, with such form of policy, except as provided in section 65A.-06. Any policy or contract otherwise subject to the provisions of this subdivision and, subdivision 3 and section 2 of this act which includes either on an unspecified basis as to coverage or for a single premium, coverage against the peril of fire and coverage against other perils may be issued without incorporating the exact language of the Minnesota Standard Fire Insurance Policy, provided: Such policy or contract shall, with respect to the peril of fire, afford the insured all the rights and benefits of the Minnesota Standard Fire Insurance Policy and such additional benefits as the policy provides; the provisions in relation to mortgagee interests and obligations in said Minnesota Standard Fire Insurance Policy shall be incorporated therein without change; such policy or contract is complete as to its terms of coverage; and, the commissioner is satisfied that such policy or contract complies with the provisions hereof.

(a) *Nonpayment of premium;*

(b) *Misrepresentation or fraud made by or with the knowledge of the insured in obtaining the policy or in pursuing a claim thereunder;*

(e) Nonpayment of dues to an association or organization, other than an insurance association or organization, where payment of dues is a prerequisite to obtaining or continuing the insurance. Provided, however, that this limitation on cancellation shall not apply to additional coverages in a divisible policy, other than a policy of fire and extended coverage insurance. If this company cancels the additional coverages, it may issue a new, separate fire policy at a premium calculated on a pro rata basis for the remaining period of the original policy.

(2) The provisions of clause (1) (e) shall not be included in the language of the policy or endorsement unless the payment of dues to an association or organization, other than an insurance association or organization, is a prerequisite to obtaining or continuing the insurance.

Sec. 3. Minnesota Statutes 1976, Section 65A.01, is amended by adding a subdivision to read:

Subd. 6. When policies covered by section 65A.01 are subject to limitations or cancellation as provided in section 2 of this act, the notice of cancellation shall include a statement of the reason for cancellation in a sufficiently clear and specific form so that an insured of reasonable intelligence will be able to identify the basis for the company's cancellation without making further inquiry."

Speaker of the House of Representatives

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 1744, report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and that H. F. No. 1744 be amended as follows:

Strike everything after the enacting clause and insert:

“Section 1. [DEFINITIONS.] The following terms have the definitions given them for the purposes of sections 1 to 8:

(a) “Wheelchair securement device” or “securement device” means an apparatus installed in a motor vehicle for the purpose of securing an occupied wheelchair into a location in the vehicle and preventing movement of that wheelchair while the vehicle is in motion.

(b) "Operator" means any person, firm, partnership, corporation, service club, public or private agency, city, town or county. The provisions of this act shall not apply to any school bus as defined in Minnesota Statutes, Section 169.01, Subdivision 6, which is subject to regular school bus inspections pursuant to Minnesota Statutes, Section 169.451.

(c) "Transportation service" means the transportation by motor vehicle of any sick, injured, invalid, incapacitated, or handicapped individual while occupying a wheelchair, which transportation is offered or provided by any operator to the public or to its employees or in connection with any other service offered by the operator including schooling or nursing home, convalescent or child care services.

Sec. 2. [WHEELCHAIR SECUREMENT DEVICES.] Subdivision 1. Any vehicle used by an operator to provide transportation service shall be equipped with wheelchair securement devices which are approved by the commissioner of public safety as meeting the specifications of this subdivision. A wheelchair securement device shall prevent any forward, backward or lateral movement of an occupied wheelchair when the device is engaged and the vehicle is in motion, accelerating or braking, and shall attach to the frame of the wheelchair without damaging it. Wheelchair securement devices installed in any vehicle shall be maintained in working order.

Subd. 2. A vehicle used to provide transportation service shall carry only as many persons seated in wheelchairs as the number of securement devices approved by the commissioner of public safety as meeting the specifications of subdivision 1 with which the vehicle is equipped, and each occupied wheelchair shall be secured by such a securement device before the vehicle is set in motion.

Sec. 3. [ADDITIONAL SAFETY REQUIREMENTS.] Subdivision 1. Any vehicle used to provide transportation service shall be equipped with seat belts which are approved by the commissioner of public safety. The seat belts required by this subdivision shall be adequate to secure the occupant of a wheelchair who is being transported by the vehicle. These seat belts shall be used only to secure the person and shall not be used to secure the wheelchair. The seat belts shall meet all other applicable state and federal requirements for safety.

Subd. 2. When transportation service is provided to an individual in an electrically powered wheelchair, the main power switch of the wheelchair shall be placed in the "off" position at all times while the vehicle is in motion.

Sec. 4. [INSPECTION.] Subdivision 1. No person shall drive and no operator shall knowingly permit or cause a vehicle to be used for transportation service unless there is displayed thereon a certificate issued upon inspection by the commissioner of public safety as provided in this section.

Subd. 2. Inspection shall be made by personnel in the department of public safety assigned to the highway patrol. An operator

of transportation services shall submit a vehicle for inspection after the installation of a wheelchair securement device in the vehicle and before using the vehicle for transportation service, but not later than one month after the date of installation. Evidence of the date of installation shall be provided by the operator at the inspection.

Subd. 3. The inspection shall be made to determine that the vehicle complies with the provisions of section 2, subdivision 1 and section 3, subdivision 1; that the securement device is in working order; and that the securement device is not in need of obvious repair. The inspection may include testing the use of a securement device while the vehicle is in motion.

Subd. 4. A certificate furnished by the commissioner shall be issued upon completion of inspection if the vehicle complies with the requirements set forth in subdivision 3. The certificate shall be affixed to the lower left corner of the windshield. It shall note compliance with this section, record the number of wheel chairs which may be simultaneously carried in the vehicle, and note the month and year in which the next inspection is required.

Subd. 5. Subsequent inspections shall be made annually. If additional securement devices are installed in a vehicle already equipped with a securement device, inspection is required as specified in subdivision 2.

Sec. 5. No agency of the state, political subdivision or other public agency shall grant or approve any financial assistance to any operator for the purchase or operation of any vehicle used for transportation service or grant any permit or license otherwise required by law for operation of that service unless the operator of the transportation service complies with the provisions of sections 1 to 4.

Sec. 6. [EVIDENCE.] Proof of the installation or failure to install wheelchair securement devices, or proof of faulty installation of wheelchair securement devices, or proof of the maintenance or failure to properly maintain wheelchair securement devices, or proof of the use or failure to use wheelchair securement devices is admissible in evidence in any litigation involving personal injuries or property damage arising out of the use or operation of a vehicle providing transportation service. For the purposes of this section "wheelchair securement device" means such a device approved by the commissioner of public safety.

Sec. 7. [PENALTY.] For each failure to comply with any requirement of sections 2, 3 or 4 an operator is guilty of a misdemeanor.

Sec. 8. [RULES; APPROVAL OF DEVICES.] The commissioner of public safety shall, no later than July 1, 1979, adopt rules containing standards for wheelchair securement devices that meet the requirements of section 2, subdivision 1, and section 3, subdivision 1, and shall approve or disapprove of securement devices that meet those standards.

Sec. 9. [SCHOOL BUSES; AMENDMENT OF RULES.] Upon adoption of rules by the commissioner of public safety pursuant to section 8, the state board of education shall amend its rules relating to the transportation of handicapped students to ensure that the amended rules carry out the intent of this act.

Sec. 10. [EFFECTIVE DATE.] This act is effective the day following final enactment."

Further, delete the title and insert:

"A bill for an act relating to mobility disabled persons; requiring installation and use of wheelchair securement devices in vehicles used for transporting wheelchair users; providing for inspection of wheelchair securement devices; requiring other safety measures in vehicles used for transporting wheelchair users; directing the commissioner of public safety to adopt rules and to approve devices required by the act; directing the state board of education to amend its rules for handicapped transportation; authorizing the admissibility of certain evidence in litigation; providing penalties."

We request adoption of this report and repassage of the bill.

Before January 1, 1978 1979, the commissioner of administration, in consultation with the director and the appropriate standing committees of the legislature, shall promulgate minimum energy efficiency standards for existing residential buildings residences. The costs computed under this section shall include reasonable inflation and interest factors.

By February 15, 1978, the director shall make recommendations to the legislature on methods to obtain compliance with the standards set forth in this subdivision.

The commissioner shall encourage the certification of existing groups of trained municipal personnel and individuals from public service organizations. Effective August 1, 1979, each certified evaluator shall, on request of the owner, inspect any residence and report the degree to which it complies with applicable energy disclosure requirements. The inspections shall be made within 30 days of the request.

Subd. 7. [DISCLOSURE REPORT.] Effective October 1, 1979, no owner or agent shall sell by conveyance or contract for conveyance a residence constructed before January, 1976, without providing to the buyer, prior to the time of sale, a copy of an energy disclosure report for the residence unless the buyer has been provided a copy of the form used in making an energy disclosure report and has declared in writing that he waives his right to a report. If the residence has been evaluated subsequent to the effective date of this section, no new evaluation shall be required for five years after the date of the evaluation, if a copy of the last evaluation has been delivered to the prospective buyer. The provisions of this subdivision shall not apply to the sale or conveyance of any residence to a public body or by a sheriff, constable, marshal or other public or court officer in the performance of his official duties as such, or to trustees in bankruptcy or any other person or persons acting under the direction or authority of any court, state or federal, in selling a residence, except as to a public sale ordered by a probate court, in which case this subdivision shall apply.

Subd. 8. Before January 1, 1978, the commissioner of administration, in consultation with the director, shall by rule amend the standards concerning heat loss, illumination, and climate control promulgated pursuant to section 116H.12, subdivision 4, to require that electrical service to individual dwelling units in buildings containing two or more units be separately metered, with individual metering readily accessible to the individual occupants. The standards authorized by this subdivision shall only apply to buildings constructed after the effective date of the amended standards. Buildings intended for occupancy primarily by persons who are 62 years of age or older or handicapped, or which contain

a majority of units not equipped with complete kitchen facilities, shall be exempt from the provisions of this subdivision.

Sec. 4. [HOME INSULATION; CONSUMER PROTECTION; DEFINITIONS.] *Subdivision 1. For the purposes of sections 4 to 9, the following terms shall have the meanings here given them.*

Subd. 2. "Advertisement" means any written or verbal statement, illustration or depiction which appears in the mass media, in brochures, leaflets, or circulars, outdoor advertising, retail displays, or on vehicles, which is designed to cause the sale of or interest in the purchase of insulation.

Subd. 3. "Energy agency" means the Minnesota energy agency as provided in chapter 116H.

Subd. 4. "Industry members" means producers and suppliers of materials from which insulation is made who promote the sale or distribution of insulation; manufacturers of insulation; jobbers, wholesalers and retailers of insulation; contractors and applicators who sell and install residential insulation; and those engaged in the marketing of insulation who are, or who purport to act as, agents of manufacturers or suppliers of insulation.

Subd. 5. "Insulation" means any material or assembly of materials used primarily to provide resistance to heat flow in building structures, including but not limited to mineral fibrous, mineral cellular, organic fibrous, organic cellular or reflective materials, whether in loose fill, flexible, semi-rigid or rigid form.

Subd. 6. "Laboratory qualified to test thermal insulation" means an approved laboratory classified by the energy agency in consultation with industry members as passing an appropriate examination of ability to perform tests and continuing inspection or follow-up service according to specifications for manufacture and installation, also referred to as "testing laboratory".

Subd. 7. "Presenting a clear and present danger" means known to cause physical damage to structure or health hazards to occupants through continuing direct contact or release of hazardous substances as defined in section 24.33.

Subd. 8. "R value" means the measure of resistance to heat flow through a material or the reciprocal of the heat flow through a material expressed in British thermal units per hour per square foot per degree Fahrenheit at 75 degrees Fahrenheit mean temperature.

Subd. 9. "Specifications for manufacture and installation" means those specifications in section 5.

Sec. 5. [SPECIFICATIONS FOR THE MANUFACTURE, LABELING, AND INSTALLATION OF INSULATION.] *Subdivision 1. Within nine months of the effective date of this act, the energy agency shall promulgate rules pursuant to chapter 15 regarding quality, information, and product safety specifications for the manufacture, labeling, installation, and thermographing of insulation. The specifications and any amendments to them shall*

conform as far as is practical to federal standards or other standards generally accepted and in use throughout the United States. Such standards, with modifications as may be deemed necessary, may be adopted by reference. The specifications as promulgated and any amendments shall be based on the application of scientific principles, approved tests, and professional judgment. Upon the effective date of this act, the energy agency may issue temporary rules pursuant to section 15.0412, subdivision 5, for the purposes of this section.

Subd. 2. In addition to the specifications promulgated pursuant to subdivision 1 of this section, no insulation presenting a clear and present danger by the nature of its composition at the time of installation shall be used or offered for sale in Minnesota.

Subd. 3. The manufacturer's written instructions describing the proper methods of application of the insulation and required or recommended safety measures shall be provided to each intermediate and ultimate consumer of all insulation sold for use in Minnesota within ten days of when the insulation is sold.

Sec. 6. [TESTING OF INSULATION.] *Subdivision 1. The director of the energy agency shall promulgate rules concerning qualifications of testing laboratories and the nature of continuing inspection and follow-up services for this section.*

Subd. 2. Effective December 1, 1979, all insulation used or offered for sale in Minnesota shall be subject to a continuing inspection and follow-up service by an approved laboratory qualified to test thermal insulation.

Subd. 3. Upon the adoption of specifications under section 5, subdivision 1, all insulation used or offered for sale in Minnesota shall be tested in accordance with testing procedures required under those specifications by a laboratory qualified to test thermal insulation.

Subd. 4. The director of the energy agency shall purchase from time to time unopened insulation packages which shall be sent to an approved testing laboratory to test for compliance with the specifications established under section 5, subdivision 1.

Sec. 7. [UNFAIR AND DECEPTIVE ADVERTISING PRACTICES.] *Subdivision 1. It shall be considered an unfair and deceptive practice to violate any of the provisions of this section.*

Subd. 2. No advertisement for insulation to be used or offered for sale in Minnesota shall state that a percentage of fuel costs or a certain dollar amount of fuel costs will be saved unless the statement is accompanied by the following or substantially similar disclaimer in letters the same size as the claim of savings: "Stated savings are estimates only. Actual savings may vary depending on type of home, weather conditions, occupant lifestyle, energy prices and other factors."

Subd. 3. No advertisement for insulation to be used or offered for sale in Minnesota shall contain any claim which is false or

misleading, or for which there exists no reasonable substantiation at the time the claim is made. Prohibited claims include, but are not limited to, the following: does not burn, noncombustible, self-extinguishing, nonpoisonous, non-irritating, vermin-proof, rodent-proof, resists mildewing, will not shrink, will not crack, permanent, no deterioration, complete coverage, fills all voids, never needs replacing, will not settle. This prohibition shall not apply if the claim is substantiated by tests identified in the specifications established under section 5, subdivision 1, or by appropriate testing procedures of the American Society for Testing and Materials where no test required under section 5, subdivision 1, applies. Such tests shall be made by a laboratory qualified to test thermal insulation. When tests are not designed to duplicate actual conditions, substantiated claims must so state.

Subd. 4. No representation about the thermal resistance value of insulation shall be made unless the R value is given and has been determined by the tests required in the specification established under section 5, subdivision 1, or by appropriate testing procedures of the American Society for Testing and Materials where no test required under section 5, subdivision 1, applies. Such tests shall be made by an approved laboratory qualified to test thermal insulation.

Sec. 8. [MARKING, LABELING, AND CONSUMER INFORMATION.] Subdivision 1. *The outside of all containers and wrappings of insulation used or offered for sale in Minnesota shall have the following information printed legibly thereon in bold type not less than 1/8 inch high:*

(a) Type (pneumatic or blown, pouring, batt, roll, blanket, board, cellular, or reflective);

(b) R value (to the nearest tenth) per inch at the recommended installation density;

(c) Required thickness in inches to obtain four or more commonly used R values and the corresponding coverage areas in square feet of the insulation in the container or wrapping;

(d) Expiration date and expected shelf life of all resins, catalysts, and foaming agents for all foam insulations, whether in powder, diluted or partially diluted state, or canister, drum, container, or package. For purposes of this section, "foam insulation" means products having an organic base or composed of vinyl or plastic material or both, which are manufactured or installed using a process involving a foaming agent, a resin, a catalyst and an air compressor, including but not limited to urea-formaldehyde, other urea-based foams, urethane foam, polyurethane foam, polystyrene foam, and isocyanurate foam.

(e) Name and address of the manufacturer of the insulation;

(f) A notation of those current specifications of the United States General Services Administration, the United States Department of Energy, the United States Department of Housing and Urban Development, the United States Consumer Product Safety

Commission, the Federal Trade Commission and the energy agency with which the insulation complies;

(g) The net weight of the contents of the bag, package, or container.

Subd. 2. Where insulation is used or offered for sale without the manufacturer's container, the information required in subdivision 1 shall be provided in a separate printed statement to the intermediate and ultimate consumers.

Sec. 9. [ENFORCEMENT; PENALTIES.] *Subdivision 1. Violation of section 5, subdivision 2, or section 6, subdivision 2 or 3, shall constitute a misdemeanor, provided that the sole liability for such violation on insulation sold under the manufacturer's brand or trademark shall be the manufacturer's, and that an industry member who is not a manufacturer shall be liable under this subdivision only if he has actual knowledge or knowledge fairly implied on the basis of the objective circumstances that the insulation presents a clear and present danger or has not been subject to the required testing procedures.*

Subd. 2. Violation of section 5, subdivision 3, section 7, or section 8 shall constitute a misdemeanor.

Subd. 3. The provisions of section 7 may be enforced by the attorney general pursuant to section 325.907. The attorney general may recover costs and disbursements, including costs of investigation and reasonable attorney's fees. In addition to the remedies otherwise provided by law, any person injured by a violation of sections 5, 7, or 8 may bring a civil action and recover damages together with costs of investigation and reasonable attorney's fees, and receive other equitable relief as determined by the court. The court may as appropriate enter a consent judgment or decree without the finding of illegality.

Subd. 4. Remedies taken under this section shall not exclude other civil or criminal actions under Minnesota Statutes.

Sec. 10. Minnesota Statutes 1976, Section 273.11, Subdivision 1, is amended to read:

273.11 [VALUATION OF PROPERTY.] *Subdivision 1. Except as provided in subdivision subdivisions 2 and 6 or section 273.17, subdivision 1, all property shall be valued at its market value. In estimating and determining such value, the assessor shall not adopt a lower or different standard of value because the same is to serve as a basis of taxation, nor shall he adopt as a criterion of value the price for which such property would sell at auction or at a forced sale, or in the aggregate with all the property in the town or district; but he shall value each article or description of property by itself, and at such sum or price as he believes the same to be fairly worth in money. In assessing any tract or lot of real property, the value of the land, exclusive of structures and improvements, shall be determined, and also the value of all structures and improvements thereon, and the aggregate value of the property, including all structures and improvements, excluding the value of crops growing upon cultivated land. In valuing real prop-*

erty upon which there is a mine or quarry, it shall be valued at such price as such property, including the mine or quarry, would sell for a fair, voluntary sale, for cash. In valuing real property which is vacant, the fact that such property is platted shall not be taken into account. An individual lot of such platted property shall not be assessed in excess of the assessment of the land as if it were unplatted until the lot is improved with a permanent improvement all or a portion of which is located upon the lot, or for a period of three years after final approval of said plat whichever is shorter. When a lot is sold or construction begun, the assessed value of that lot or any single contiguous lot fronting on the same street shall be eligible for reassessment. All property, or the use thereof, which is taxable under sections 272.01, subdivision 2, or 273.19, shall be valued at the market value of such property and not at the value of a leasehold estate in such property, or at some lesser value than its market value.

Sec. 11. Minnesota Statutes 1976, Section 273.11, is amended by adding a subdivision to read:

Subd. 6. [EXEMPTION FROM VALUATION INCREASE DUE TO ENERGY SYSTEM.] For purposes of property taxation, the market value of real and personal property installed prior to January 1, 1984, which is a solar, wind, or agriculturally derived methane gas system used as a heating, cooling, or electric power source of a building or structure shall be excluded from the market value of that building or structure if the property is not used to provide energy for sale.

Sec. 12. Minnesota Statutes 1976, Section 394.25, Subdivision 2, is amended to read:

Subd. 2. Zoning ordinances establishing districts within which the use of land or the use of water or the surface of water pursuant to section 378.32 for agriculture, forestry, recreation, residence, industry, trade, soil conservation, water supply conservation, surface water drainage and removal, conservation of shorelands, as defined in section 105.485, and additional uses of land and of the surface of water pursuant to section 378.32, may be by official controls encouraged, regulated, or prohibited and for such purpose the board may divide the county into districts of such number, shape, and area as may be deemed best suited to carry out the comprehensive plan. Official controls may also be applied to wetlands preservation, open space, parks, sewage disposal, protection of ground water, protection of flood plains as defined in section 104.02, protection of wild, scenic or recreational rivers as defined in section 104.33, protection of slope, soils, unconsolidated materials or bedrock from potentially damaging development, preservation of forests, woodlands and essential wildlife habitat, reclamation of non-metallic mining lands; *protection and encouragement of access to direct sunlight for solar energy systems as defined in section 116H.02, subdivision 11; and the preservation of agricultural lands.*

Sec. 13. Minnesota Statutes 1976, Section 394.27, Subdivision 7, is amended to read:

Subd. 7. The board of adjustment shall have the exclusive power to order the issuance of variances from the terms of any official control including restrictions placed on nonconformities. Variances shall only be permitted when they are in harmony with the general purposes and intent of the official control in cases when there are practical difficulties or particular hardship in the way of carrying out the strict letter of any official control, and when the terms of the variance are consistent with the comprehensive plan. "Hardship" as used in connection with the granting of a variance means the property in question cannot be put to a reasonable use if used under the conditions allowed by the official controls; the plight of the landowner is due to circumstances unique to his property not created by the landowner; and the variance, if granted, will not alter the essential character of the locality. Economic considerations alone shall not constitute a hardship if a reasonable use for the property exists under the terms of the ordinance. No variance may be granted that would allow any use that is prohibited in the zoning district in which the subject property is located. The board of adjustment may impose conditions in the granting of variances to insure compliance and to protect adjacent properties and the public interest. *The board of adjustment may consider the inability to use solar energy systems a "hardship" in the granting of variances.*

Sec. 14. Minnesota Statutes 1976, Section 462.357, Subdivision 1, is amended to read:

462.357 [PROCEDURE FOR PLAN EFFECTUATION; ZONING.] Subdivision 1. [AUTHORITY FOR ZONING.] For the purpose of promoting the public health, safety, morals and general welfare, a municipality may by ordinance regulate the location, height, bulk, number of stories, size of buildings and other structures, the percentage of lot which may be occupied, the size of yards and other open spaces, the density and distribution of population, the uses of buildings and structures for trade, industry, residence, recreation, public activities, or other purposes, and the uses of land for trade, industry, residence, recreation, agriculture, forestry, soil conservation, water supply conservation, conservation of shorelands, as defined in section 105.485, *access to direct sunlight for solar energy systems as defined in section 116H.02*, flood control or other purposes, and may establish standards and procedures regulating such uses. The regulations may divide the municipality into districts or zones of suitable numbers, shape and area. The regulations shall be uniform for each class or kind of buildings, structures or land and for each class or kind of use throughout such district, but the regulations in one district may differ from those in other districts. The ordinance embodying these regulations shall be known as the zoning ordinance and shall consist of text and maps. A city may by ordinance extend the application of its zoning regulations to unincorporated territory located within two miles of its limits in any direction, but not in a county or town which has adapted zoning regulations; provided that where two or more noncontiguous municipalities have boundaries less than four miles apart, each is authorized to control the zoning of land on its side of a line

equidistant between the two noncontiguous municipalities unless a town or county in the affected area has adopted zoning regulations. Any city may thereafter enforce such regulations in the area to the same extent as if such property were situated within its corporate limits, until the county or town board adopts a comprehensive zoning regulation which includes the area.

Sec. 15. Minnesota Statutes 1976, Section 462.357, Subdivision 6, is amended to read:

Subd. 6. [APPEALS AND ADJUSTMENTS.] Appeals to the board of appeals and adjustments may be taken by any affected person upon compliance with any reasonable conditions imposed by the zoning ordinance. The board of appeals and adjustments has the following powers with respect to the zoning ordinance:

(1) To hear and decide appeals where it is alleged that there is an error in any order, requirement, decision, or determination made by an administrative officer in the enforcement of the zoning ordinance.

(2) To hear requests for variances from the literal provisions of the ordinance in instances where their strict enforcement would cause undue hardship because of circumstances unique to the individual property under consideration, and to grant such variances only when it is demonstrated that such actions will be in keeping with the spirit and intent of the ordinance. *Undue hardship includes, but is not limited to, inadequate access to direct sunlight for solar energy systems.* The board of appeals and adjustments or the governing body as the case may be, may not permit as a variance any use that is not permitted under the ordinance for property in the zone where the affected person's land is located. The board or governing body as the case may be, may permit as a variance the temporary use of a one family dwelling as a two family dwelling. The board or governing body as the case may be may impose conditions in the granting of variances to insure compliance and to protect adjacent properties.

Sec. 16. Minnesota Statutes 1976, Section 462.358, Subdivision 2, is amended to read:

Subd. 2. [TERMS OF REGULATIONS.] Subdivision regulations shall require that a proposed subdivision plat shall be in conformity with the official map if such exist. In establishing requirements for the location and width of streets, the municipality shall take into consideration anticipated traffic needs and the prospective character of the development and make any reasonable requirements therefor. As a condition to the approval of any subdivision plat of lands to which the regulations apply, subdivision regulations may prescribe requirements concerning the extent and manner in which streets shall be graded and improved, and electric and gas distribution lines or piping, water, sewer, or other facilities shall be installed. The regulations may provide, or authorize the governing body or other platting authority to provide, that, in lieu of the completion of such work

before the final approval of the plat, the governing body or platting authority may accept or require a contract secured by a cash deposit, certified check, or a bond in an amount and with surety and conditions satisfactory to it, to assure the municipality that such improvements and utilities will be actually constructed and installed according to the specifications approved by the governing body or platting authority as expressed in the contract; and the municipality may enforce such contracts by appropriate legal and equitable remedies. The subdivision regulations may require that in appropriate plots of subdivisions to be developed for residential, commercial, industrial or other uses, or as a planned development which includes residential, commercial and industrial uses, or any combination thereof, that a reasonable portion of each proposed subdivision be dedicated to the public for public use as parks, playgrounds, public open space, or storm water holding areas or ponds, or that the subdivider contribute an equivalent amount in cash based on the fair market value of the undeveloped land, as defined by the regulations, provided that cash payments received under such regulations shall be placed in a special fund by the municipality and used only for the acquisition of land for parks, playgrounds, public open space and storm water holding areas or ponds, development of existing park and playground sites, public open space and storm water holding areas or ponds, and debt retirement in connection with land previously acquired for such public purposes. The subdivision regulations, in setting forth the reasonable portion of each proposed subdivision to be dedicated to the public for public use as provided above, may take into consideration the open space, park, recreational or common areas and facilities which the subdivider has provided for the exclusive use of the residents of the subdivision.

A municipality may, through subdivision regulations, prohibit or restrict development for purposes of soil and water conservation. Such soil and water conservation regulations may call for site development plans with provisions for the control of drainage, erosion, and siltation.

A municipality may, for purposes of protecting and assuring access to direct sunlight for solar energy systems, prohibit, restrict or control development through subdivision regulations. The regulations may call for subdivision development plans containing restrictive covenants, height restrictions, side yard and setback requirements, or other permissible forms of land use controls.

Sec. 17. Minnesota Statutes 1976, Section 462.358, Subdivision 6, is amended to read:

Subd. 6. [VARIANCES.] Subdivision regulations may provide for a procedure for varying the regulations as they apply to specific properties where an unusual hardship on the land exists, but variances may be granted only upon the specific grounds set forth in the regulations. *Unusual hardship includes, but is not limited to, inadequate access to direct sunlight for solar energy systems.*

Sec. 18. Minnesota Statutes 1976, Section 462.39, Subdivision 3, is amended to read:

Subd. 3. [PLANNING.] The commission shall prepare and adopt, after appropriate study and such public hearings as may be necessary, a comprehensive development plan for the region. The plan shall consist of a compilation of policy statements, goals, standards, programs, and maps prescribing guides for an orderly and economic development, public and private, of the region. The comprehensive development plan shall recognize and encompass physical, social, or economic needs of the region, and those future developments which will have an impact on the entire region including but not limited to such matters as land use, parks and open space land needs, *access to direct sunlight for solar energy systems*, the necessity for and location of airports, highways, transit facilities, public hospitals, libraries, schools, public and private, housing, and other public buildings. In preparing the development plan the commission shall use to the maximum extent feasible the resources studies and data available from other planning agencies within the region, including counties, municipalities, special districts, and subregional planning agencies, and it shall utilize the resources of the state planning agency to the same purpose. No development plan or portion thereof for the region shall be adopted by the commission until it has been submitted to the state planning agency for review and comment and a period of 60 days has elapsed after such submission. When a development plan has been adopted, the commission shall distribute it to all local government units within the region.

Sec. 19. Minnesota Statutes 1976, Section 473.05, Subdivision 1, is amended to read:

473.05 [PLANS.] Subdivision 1. The commission shall make plans for the physical, social, and economic development of its metropolitan area with the general purpose of guiding and accomplishing a coordinated and harmonious development of the area and of public facilities, improvements, and utilities which do not begin and terminate within the boundaries of any single governmental unit or which do not relate exclusively to the development of any single governmental unit. Such plans may include, among other things, suggestions as to highways and other transportation facilities, parks and recreational facilities, *methods for protection and assuring access to direct sunlight for solar energy systems*, drainage and water supply facilities, public buildings, utilities and services, as well as suggested standards for the subdivision of land and for control over the construction, height, bulk, location and use of buildings and premises. The commission may adopt by resolution of a majority of its full membership any such plan or portion of any plan as its official recommendation for the development of the area.

Sec. 20. Minnesota Statutes 1976, Section 473.859, Subdivision 2, is amended to read:

Subd. 2. [LAND USE PLAN.] A land use plan shall designate the existing and proposed location, intensity and extent of use of

land and water for agricultural, residential, commercial, industrial and other public and private purposes, or any combination of such purposes. A land use plan shall contain a protection element, as appropriate, for historic sites and the matters listed in section 473.204 , and an element for protection and development of access to direct sunlight for solar energy systems . A land use plan shall also include a housing element containing standards, plans and programs for providing adequate housing opportunities to meet existing and projected local and regional housing needs, including but not limited to the use of official controls and land use planning to promote the availability of land for the development of low and moderate income housing.

Sec. 21. Subdivision 1. "Solar easement" means a right, whether or not stated in the form of a restriction, easement, covenant, or condition, in any deed, will, or other instrument executed by or on behalf of any owner of land or solar skyspace for the purpose of ensuring adequate exposure of a solar energy system as defined in section 116H.02, Subdivision 11, to solar energy.

Subd. 2. Any property owner may grant a solar easement in the same manner and with the same effect as a conveyance of an interest in real property. The easements shall be created in writing and shall be filed, duly recorded, and indexed in the office of the recorder of the county in which the easement is granted. No duly recorded solar easement shall be unenforceable on account of lack of privity of estate or privity of contract; such easements shall run with the land or lands benefited and burdened and shall constitute a perpetual easement, except that a solar easement may terminate upon the conditions stated therein or pursuant to the provisions of section 500.20.

Subd. 3. Any deed, will, or other instrument that creates a solar easement shall include, but the contents are not limited to:

(a) a description of the real property subject to the solar easement and a description of the real property benefiting from the solar easement;

(b) a description of the vertical and horizontal angles, expressed in degrees and measured from the site of the solar energy system, at which the solar easement extends over the real property subject to the solar easement, or any other description which defines the three dimensional space, or the place and times of day in which an obstruction to direct sunlight is prohibited or limited;

(c) any terms or conditions under which the solar easement is granted or may be terminated;

(d) any provisions for compensation of the owner of the real property benefiting from the solar easement in the event of interference with the enjoyment of the solar easement, or compensation of the owner of the real property subject to the solar easement for maintaining the solar easement;

(e) any other provisions necessary or desirable to execute the instrument.

Subd. 4. A solar easement may be enforced by injunction or proceedings in equity or other civil action.

Subd. 5. Any depreciation caused by any solar easement which is imposed upon designated property, but not any appreciation caused by any solar easement which benefits designated property, shall be included in the valuation of the property for property tax purposes.

Sec. 22. Notwithstanding the provisions of section 16.851, the date by which the state building code must be enforced within all municipalities in the state is January 1, 1979, except that those portions of the state building code relating to the grading of lumber shall not be effective until January 1, 1980.

Sec. 23. [APPROPRIATIONS.] Subdivision 1. For the year ending June 30, 1979, the sum of \$26,000 is appropriated from the general fund to the energy agency for the purposes of sections 5 and 6.

Subd. 2. For the year ending June 30, 1979, the sum of \$18,000 is appropriated from the general fund to the department of administration for the purposes of section 3.

Subd. 3. The sum of \$80,000 of the funds appropriated pursuant to Laws 1976, Chapter 254, Section 16, Clause (e), is cancelled. For the fiscal years 1978 and 1979, the sum of \$80,000 is appropriated from the general fund to the director of the housing finance agency for the purpose of studying and reporting to the legislature by January 15, 1979, on existing loan programs for the rehabilitation of low and moderate income rental housing for energy conservation purposes. In particular, the study shall focus on the financial impact of rehabilitation and energy conservation programs on tenants. The director shall also include in the report to the legislature his recommendations for additional legislation for energy conservation programs for low and moderate income rental housing, and for methods of protecting tenants from unreasonable costs as a result of such programs. The spending limit on general administrative cost of housing finance agency programs for fiscal years 1978 and 1979 shall be increased by the amount of the funds appropriated by this subdivision.

Sec. 24. [EFFECTIVE DATE.] This act shall be effective the day after enactment. Section 11 shall be effective for assessments made for taxes levied in 1978 and payable in 1979 and thereafter."

Further, strike the title and insert:

Such estimate shall list the taxing districts entitled to participate in the distribution of such tax, and the amount of the estimated tax which would be distributable to each such district in the next ensuing calendar year on the basis of the last percentage distribution certified by the commissioner of revenue. If there be no such prior certification, the taxpayer shall set forth its estimate of the proper distribution of such tax under the law, which estimate may be corrected by the commissioner if he deems it improper, notice of such correction being given by him to the taxpayer and the public officers receiving such estimate. The officers with whom such report is so filed shall use the amount so indicated as being distributable to each taxing district in computing the permissible tax levy of such county, city or school district in the year in which such estimate is made, and payable in the next ensuing calendar year, except that in 1978 and 1979 two cents per taxable ton, and in 1980 and thereafter, one cent per taxable ton of the amount distributed under clause (4)(c) shall not be deducted in calculating the permissible levy. In any calendar year in which a general property tax levy subject to sections 275.125 or 275.50 to 275.59 has been made, if the taxes distributable to any such county, city or school district are greater than the amount estimated to be paid to any such county, city or school district in such year, the excess of such distribution shall be held in a special fund

by the county, city or school district and shall not be expended until the succeeding calendar year, and shall be included in computing the permissible levies under sections 275.125 or 275.50 to 275.59, of such county, city or school district payable in such year. If the amounts distributable to any such county, city or school district, after final determination by the commissioner of revenue under this section are less than the amounts indicated by such estimates, such county, city or school district may issue certificates of indebtedness in the amount of the shortage, and may include in its next tax levy, in excess of the limitations of sections 275.125 or 275.50 to 275.59 an amount sufficient to pay such certificates of indebtedness and interest thereon, or, if no certificates were issued, an amount equal to such shortage.

There is hereby annually appropriated to such taxing districts as are stated herein, to the taconite property tax relief account and to the taconite municipal aid account in the apportionment fund in the state treasury, to the department of revenue, to the iron range resources and rehabilitation board, to the taconite environmental protection fund, and to the northeast Minnesota economic protection fund, from any fund or account in the state treasury to which the money was credited, an amount sufficient to make the payment or transfer. The state and the department are further instructed to take all applicable appeals available to them. This waiver of immunity is not an admission of liability on the part of the state or its departments. In any such action, the state or its departments may interpose any legal or equitable defense except the defenses of sovereign immunity and the statute of limitations.*

A bill for an act relating to state-leased buildings and sites for state meetings; concerning the handicapped; requiring state-leased buildings and sites for state meetings to be accessible to the handicapped; amending Minnesota Statutes 1976, Section 471.467, by adding subdivisions.

March 21, 1978

The Honorable Martin O. Sabo
Speaker of the House of Representatives

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 1736, report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and that H. F. No. 1736 be amended as follows:

Strike everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 1976, Section 16.84, is amended by adding subdivisions to read:

Subd. 7. "Public building" means any building and the grounds appurtenant thereto, the cost of which is paid for by the state of Minnesota or any governmental subdivision thereof, or any agency of the state or of any governmental subdivision, or school district.

Subd. 8. "Physically handicapped" means sight disabilities, hearing disabilities, disabilities of incoordination, disabilities of aging, and any other disability that significantly reduces mobility, flexibility, coordination, or perceptiveness.

Subd. 9. "Remodeling" means deliberate reconstruction of an existing public building in whole or in part in order to bring it up to date in conformity with present uses of the structure and to which other rules on the upgrading of health and safety provisions are applicable.

Sec. 2. Minnesota Statutes, 1977 Supplement, Section 16.85, is amended to read:

16.85. [GENERAL POWERS OF COMMISSIONER, STATE BUILDING CODE.] Subdivision 1. Subject to the provisions of sections 16.83 to 16.867, the commissioner shall by rule establish a code of standards for the construction, reconstruction, alteration, and repair of state-owned buildings, governing matters of structural materials, design and construction, fire protection, health, sanitation, and safety. *The code shall also provide for making public buildings constructed or remodeled after July 1, 1963, accessible to and usable by physically handicapped persons; provided that this shall not require the remodeling of public buildings solely to provide accessibility and usability to the physically handicapped when remodeling would not otherwise be undertaken.* The commissioner may amend the code from time to time as provided in sections 16.83 to 16.867. The code and any amendment thereof shall conform insofar as practicable to model building codes generally accepted and in use throughout the United States. In the preparation of the code consideration shall be given to the existing state-wide specialty codes presently in use in the state of Minnesota. Such model codes with modifications as may be deemed necessary and state-wide specialty codes may be adopted by reference. The code so promulgated and any amendments thereof shall be based on the application of scientific principles, approved tests, and professional judgment; and to the extent that it is practical so to do the code shall be promulgated in terms of desired results instead of the means of achieving such results, avoiding wherever possible the incorporation of specifications of particular methods of mate-

rials. To that end the code shall encourage the use of new methods and new materials. *Except as otherwise provided in sections 16.83 to 16.867, the commissioner shall administer and enforce the provisions of those sections.*

The code shall require that any parking ramp or other parking facility constructed in accordance with the code include an appropriate number of spaces suitable for the parking of motor vehicles having a capacity of seven to 16 persons and which are principally used to provide prearranged commuter transportation of employees to or from their place of employment or to or from a transit stop authorized by a local transit authority.

The code shall require that all dwellings, lodging houses, apartment houses, and hotels as defined in section 299F.362 comply with the provisions of section 299F.362.

Subd. 1a. Construction or remodeling shall not be commenced on any public building owned by the state of Minnesota until the plans and specifications of the public building have been approved by the commissioner. In the case of any other public building the plans and specifications thereof shall be submitted to the commissioner for review, and within 30 days after his receipt thereof he shall notify the submitting authority of his recommendations if any.

Subd. 1b. No agency of the state may lease space for agency operations in a non-state owned building, unless the building satisfies the requirements of the state building code for accessibility by the physically handicapped, or is eligible to display the state symbol of accessibility. This limitation shall apply in respect to leases of thirty days or more for space of at least 1,000 square feet commencing on or after July 1, 1980.

Subd. 1c. After July 1, 1979, meetings or conferences attended by the public and sponsored by a state agency in non-publicly owned buildings shall be held in buildings that either meet the state building code requirements relating to accessibility for the physically handicapped or are eligible to display the state symbol for accessibility.

Subd. 1d. The commissioner of administration may grant an exemption from the requirements of subdivisions 1b and 1c if reasonable efforts were made to secure facilities which complied with the requirements of subdivision 1b and if the selected facilities are the best available for access for handicapped persons.

Sec. 3. [TEMPORARY PROVISION.] *Persons, appropriations and materials in respect to those functions in the office of state fire marshal transferred by this act shall be transferred by the commissioners of administration and finance, as appropriate, from the state fire marshal to the commissioner of administration.*

Sec. 4. [REPEALER.] *Minnesota Statutes 1976, Sections 299F.41, 299F.42, 299F.43, 299F.44 and 299F.45 are repealed.*

Sec. 5. [EFFECTIVE DATE.] *This act is effective July 1, 1978."*

Further, amend the title by striking it in its entirety and inserting:

"A bill for an act relating to publicly-owned buildings; providing for access and usability by physically handicapped persons; requiring leased space and state agency meetings to be accessible; transferring enforcement from the state fire marshal to the commissioner of administration; amending Minnesota Statutes 1976, Section 16.84 by adding subdivisions; and Minnesota Statutes, 1977 Supplement, Section 16.85; repealing Minnesota Statutes 1976, Sections 299F.41, 299F.42, 299F.43, 299F.44 and 299F.45."

We request adoption of this report and repassage of the bill.

House Conferees: (Signed) Thomas R. Berkelman, Glen H. Anderson, Douglas W. Carlson

Senate Conferees: (Signed) Robert M. Benedict, John C. Chenoweth, John Bernhagen

Subd. 6. [HEARING.] *The A hearing under this section shall be before a municipal or county judge ; learned in the law , in the county where the alleged offense occurred, unless there is agreement that the hearing may be held in some other county. The hearing shall be recorded and proceed as in a criminal matter, without the right of trial by jury, and its scope shall cover the issues of whether the peace officer had reasonable and probable grounds to believe the person was driving or operating a motor vehicle while under the influence of an alcoholic beverage; whether the person was lawfully placed under arrest, if applicable; whether he refused to permit the test, and if he refused whether he had reasonable grounds for refusing to permit the test; and whether at the time of request for the test the peace officer informed the said person that his right to drive might be revoked or denied if he refused to permit the test and of his right to have additional tests made by a person of his own choosing. The municipal court shall order either that the revocation or denial be rescinded or sustained and refer such order to the commissioner of public safety for his further action. The hearing shall be to the court and may be conducted at the same time and in the same manner as hearings upon pre-trial motions in the criminal prosecution under section 169.121, if any. The hearing shall be recorded. The commissioner of public safety may appear through his own attorney or, by agreement with the jurisdiction involved, through the prosecuting authority for that jurisdiction.*

The scope of the hearing shall cover the issues of: (1) whether the peace officer had reasonable and probable grounds to believe the person was driving, operating, or in physical control of a motor vehicle while under the influence of alcohol or a controlled substance, and whether the person was lawfully placed under arrest for violation of section 169.121, or the person was involved in a motor vehicle accident or collision resulting in property damage, personal injury or death, or the person refused to take a screening test provided for by section 169.121, subdivision 6, or the screening test was administered and recorded an alcohol concentration of 0.10 or more; and (2) whether at the time of the request for the test the peace officer informed the person of his rights and the consequences of taking or refusing the test as required by subdivision 2; and (3) either (a) whether the person refused to permit the test, or (b) whether a test was taken and the test results indicated an alcohol concentration of 0.10 or more, and whether the testing method used was valid and reliable, and whether the test results were accurately evaluated.

It shall be an affirmative defense for the person to prove that his refusal to permit the test was based upon reasonable grounds.

The court shall order either that the revocation be rescinded or sustained and forward the order to the commissioner of public safety. If the revocation is sustained, the court shall also forward the person's driver's license to the commissioner of public safety for his further action if the license is not already in the commissioner's possession.

Subd. 7. [REVIEW BY DISTRICT COURT.] *If the revocation or denial is sustained, the person whose license or permit to drive, or nonresident operating privilege has been revoked or denied, may within 20 days after notice of the determination by the commissioner of public safety file a petition for a hearing of the matter in the district court in the county where the hearing pursuant to subdivision 6 was held unless there is agreement that the hearing may be held in some other county. The petition shall be filed with the clerk of the said court together with proof of service of a copy thereof on the commissioner of public safety. It shall be the duty of the court to set the matter for hearing on a day certain with reasonable notice thereof to the parties. Subd. 8. [NOTICE OF ACTION TO OTHER STATES.] *When it has been finally determined that a nonresident's privilege to operate a motor vehicle in this state has been revoked or denied, the commissioner of public safety shall give information in writing of the action taken to the official in charge of traffic control or public safety of the state of the person's residence and of any state in which he has a license.*

Subd. 9. [LIMITED LICENSE.] *In any case in which a license has been revoked under this section, the commissioner may issue a limited license to the driver. The commissioner in issuing a limited license may impose the conditions and limitations which in his judgment are necessary to the interests of the public safety and welfare, including re-examination of the driver's qualifications, attendance at a driver improvement clinic, or attendance at counseling sessions. The license may be limited to the operation of particular vehicles and to particular classes and time of operation. The limited license issued by the commissioner shall clearly indicate the limitations imposed and the driver operating under a limited license shall have the license in his possession at all times when operating as a driver. In determining whether to issue a limited license, the commissioner shall consider the number and the seriousness or prior convictions and the entire driving record of the driver.*

Subd. 10. [TERMINATION OF REVOCATION PERIOD.] *If the commissioner receives notice of the driver's attendance at a driver improvement clinic, attendance at counseling sessions, or participation in treatment for an alcohol problem the commissioner may, 30 days prior to the time the revocation period would otherwise expire, terminate the revocation period. The commissioner shall not terminate the revocation period under this sub-*

We, the undersigned conferees for H. F. No. 338, report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and that H. F. No. 338 be amended as follows:

Strike everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 1976, Section 541.05, is amended to read:

541.05 [VARIOUS CASES, SIX YEARS.] *Subdivision 1.* Except where the uniform commercial code otherwise prescribes, the following actions shall be commenced within six years:

(1) Upon a contract or other obligation, express or implied, as to which no other limitation is expressly prescribed;

(2) Upon a liability created by statute, other than those arising upon a penalty of forfeiture or where a shorter period is provided by section 541.07;

(3) For a trespass upon real estate;

(4) For taking, detaining, or injuring personal property, including actions for the specific recovery thereof;

(5) For criminal conversation, or for any other injury to the person or rights of another, not arising on contract, and not hereinafter enumerated;

(6) For relief on the ground of fraud, in which case the cause of action shall not be deemed to have accrued until the discovery by the aggrieved party of the facts constituting the fraud;

(7) To enforce a trust or compel a trustee to account, where he has neglected to discharge the trust, or claims to have fully performed it, or has repudiated the trust relation;

(8) Against sureties upon the official bond of any public officer, whether of the state or of any county, town, school district, or a municipality therein; in which case the limitation shall not begin to run until the term of such officer for which the bond was given shall have expired;

(9) For damages caused by a dam, used for commercial purposes.

Subd. 2. Unless otherwise provided by law, any action based on the strict liability of the defendant and arising from the manufacture, sale, use or consumption of a product shall be commenced within four years.

Sec. 2. Minnesota Statutes 1976, Section 541.07, is amended to read:

541.07 [TWO YEAR LIMITATIONS.] Except where the uniform commercial code otherwise prescribes, the following actions shall be commenced within two years:

(1) For libel, slander, assault, battery, false imprisonment, or other tort, resulting in personal injury, and all actions against physicians, surgeons, dentists, hospitals, sanatoriums, for malpractice, error, mistake or failure to cure, whether based on contract or tort; provided a counter-claim may be pleaded as a defense to any action for services brought by a physician, surgeon, dentist, hospital or sanatorium, after the limitations herein described notwithstanding it is barred by the provisions of this chapter, if it was the property of the party pleading it at the time it became barred and was not barred at the time the claim sued on originated, but no judgment thereof except for costs can be rendered in favor of the party so pleading it;

(2) Upon a statute for a penalty or forfeiture;

(3) For damages caused by a dam, other than a dam used for commercial purposes; but as against one holding under the pre-emption or homestead laws, such limitations shall not begin to run until a patent has been issued for the land so damaged;

(4) Against a master for breach of an indenture of apprenticeship; the limitation, in such case, to run from the expiration of the term of service;

(5) For the recovery of wages or overtime or damages, fees or penalties accruing under any federal or state law respecting the payment of wages or overtime or damages, fees or penalties. (The term "wages" as used herein shall mean all remuneration for services or employment, including commissions and bonuses and the cash value of all remuneration in any medium other than cash, where the relationship of master and servant exists and the term "damages," as used herein, shall mean single, double, or treble damages, accorded by any statutory cause of action whatsoever and whether or not the relationship of master and servant exists);

(6) For damages caused by the establishment of a street or highway grade or a change in the originally established grade;

(7) For sales or use taxes imposed by the laws of any other state ;

(8) *Against the person who applies the pesticide for injury or damage to property resulting from the application, but not the manufacture or sale, of a pesticide .*

Sec. 3. Minnesota Statutes 1976, Chapter 544, is amended by adding a section to read:

[544.23] [AD DAMNUM: LIMITATION.] *In a pleading in a civil action which sets forth an unliquidated claim for relief, whether an original claim, cross-claim, or third-party claim, if a recovery of money is demanded in an amount less than \$50,000, the amount shall be stated. If a recovery of money in an amount greater than \$50,000 is demanded, the pleading shall state merely that recovery of reasonable damages in an amount greater than \$50,000 is sought.*

This section may be superseded by an amendment to the rules of civil procedure adopted after July 31, 1978.

Sec. 4. Minnesota Statutes 1976, Chapter 549, is amended by adding a section to read:

[549.20] [PUNITIVE DAMAGES.] *Subdivision 1. Punitive damages shall be allowed in civil actions only upon clear and convincing evidence that the acts of the defendant show a willful indifference to the rights or safety of others.*

Subd. 2. Punitive damages can properly be awarded against a master or principal because of an act done by an agent only if:

(a) the principal authorized the doing and the manner of the act, or

(b) *the agent was unfit and the principal was reckless in employing him, or*

(c) *the agent was employed in a managerial capacity and was acting in the scope of employment, or*

(d) *the principal or a managerial agent of the principal ratified or approved the act.*

Subd. 3. Any award of punitive damages shall be measured by those factors which justly bear upon the purpose of punitive damages, including the seriousness of hazard to the public arising from the defendant's misconduct, the profitability of the misconduct to the defendant, the duration of the misconduct and any concealment of it, the degree of the defendant's awareness of the hazard and of its excessiveness, the attitude and conduct of the defendant upon discovery of the misconduct, the number and level of employees involved in causing or concealing the misconduct, the financial condition of the defendant, and the total effect of other punishment likely to be imposed upon the defendant as a result of the misconduct, including compensatory and punitive damage awards to the plaintiff and other similarly situated persons, and the severity of any criminal penalty to which the defendant may be subject.

Sec. 5. Minnesota Statutes 1976, Chapter 549, is amended by adding a section to read:

[549.21] [REIMBURSEMENT FOR CERTAIN COSTS IN CIVIL ACTIONS.] *Upon motion of a party prevailing as to an issue, the court in its discretion may award to that party costs, disbursements, reasonable attorney fees and witness fees relating to the issue if the party or attorney against whom costs, disbursements, reasonable attorney and witness fees are charged acted in bad faith as to that issue. To qualify for an award under this section, a party shall give timely notice of intent to claim an award, which notice shall in any event be given prior to the resolution of the issue. An award under this section shall be without prejudice and as an alternative to any claim for sanctions that may be asserted under the rules of civil procedure.*

Sec. 6. Minnesota Statutes 1976, Section 604.01, Subdivision 1, is amended to read:

604.01 [COMPARATIVE FAULT; EFFECT.] Subdivision 1. [SCOPE OF APPLICATION.] *Contributory negligence fault shall not bar recovery in an action by any person or his legal representative to recover damages for negligence fault resulting in death or in injury to person or property, if such negligence the contributory fault was not as great as greater than the negligence of the person fault of the person against whom recovery is sought, but any damages allowed shall be diminished in the proportion to the amount of negligence fault attributable to the person recovering. The court may, and when requested by either any party shall, direct the jury to find separate special verdicts determining the amount of damages and the percentage of negligence fault attribu-*

table to each party; and the court shall then reduce the amount of such damages in proportion to the amount of negligence fault attributable to the person recovering. When there are two or more persons who are jointly liable, contributions to awards shall be in proportion to the percentage of negligence attributable to each, provided, however, that each shall remain jointly and severally liable for the whole award.

Sec. 7. Minnesota Statutes 1976, Section 604.01, is amended by adding a subdivision to read:

Subd. 1a. "Fault" includes acts or omissions that are in any measure negligent or reckless toward the person or property of the actor or others, or that subject a person to strict tort liability. The term also includes breach of warranty, unreasonable assumption of risk not constituting an express consent, misuse of a product and unreasonable failure to avoid an injury or to mitigate damages. Legal requirements of causal relation apply both to fault as the basis for liability and to contributory fault.

Sec. 8. Minnesota Statutes 1976, Chapter 604, is amended by adding a section to read:

[604.02] [APPORTIONMENT OF DAMAGES.] *Subdivision 1. When two or more persons are jointly liable, contributions to awards shall be in proportion to the percentage of fault attributable to each, except that each is jointly and severally liable for the whole award.*

Subd. 2. Upon motion made not later than one year after judgment is entered, the court shall determine whether all or part of a party's equitable share of the obligation is uncollectible from that party and shall reallocate any uncollectible amount among the other parties, including a claimant at fault, according to their respective percentages of fault. A party whose liability is reallocated is nonetheless subject to contribution and to any continuing liability to the claimant on the judgment.

Subd. 3. In the case of a claim arising from the manufacture, sale, use or consumption of a product, an amount uncollectible from any person in the chain of manufacture and distribution shall be reallocated among all other persons in the chain of manufacture and distribution but not among the claimant or others at fault who are not in the chain of manufacture or distribution of the product. Provided, however, that a person whose fault is less than that of a claimant is liable to the claimant only for that portion of the judgment which represents the percentage of fault attributable to him.

Sec. 9. Minnesota Statutes 1976, Chapter 604, is amended by adding a section to read:

[604.03] [USEFUL LIFE OF PRODUCT.] *Subdivision 1. In any action for the recovery of damages for personal injury, death or property damage arising out of the manufacture, sale, use or consumption of a product, it is a defense to a claim against a*

designer, manufacturer, distributor or seller of the product or a part thereof, that the injury was sustained following the expiration of the ordinary useful life of the product.

Subd. 2. The useful life of a product is not necessarily the life inherent in the product, but is the period during which with reasonable safety the product should be useful to the user. This period shall be determined by reference to the experience of users of similar products, taking into account present conditions and past developments, including but not limited to (1) wear and tear or deterioration from natural causes, (2) the progress of the art, economic changes, inventions and developments within the industry, (3) the climatic and other local conditions peculiar to the user, (4) the policy of the user and similar users as to repairs, renewals and replacements, (5) the useful life as stated by the designer, manufacturer, distributor, or seller of the product in brochures or pamphlets furnished with the product or in a notice attached to the product, and (6) any modification of the product by the user.

Sec. 10. Minnesota Statutes 1976, Chapter 604, is amended by adding a section to read:

[604.04] [NOTICE OF POSSIBLE CLAIM REQUIRED.]

Subdivision 1. The attorney for a person who intends to claim damage for or on account of personal injury, death or property damage arising out of the manufacture, sale, use or consumption of a product shall cause to be presented a notice of possible claim stating the time, place and circumstances of events giving rise to the claim and an estimate of compensation or other relief to be sought. This notice shall be given within six months of the date of entering into an attorney-client relation with the claimant in regard to the claim. Notice shall be given to all persons against whom the claim is likely to be made. Any person in the chain of manufacture and distribution shall promptly furnish to the claimant's attorney the names and addresses of all persons he knows to be in the chain of manufacture and distribution if requested to do so by the attorney at the time the notice is given. Failure to furnish this information shall subject the person to the liability provided for in subdivision 3.

Actual notice of sufficient facts to reasonably put a person against whom the claim is to be made or his insurer on notice of a possible claim satisfies the notice requirements of this section. Failure to state an estimate of the amount of compensation or other relief demanded does not invalidate the notice, but the claimant shall furnish full information regarding the nature and extent of the injuries and damages within 15 days after demand by a person to whom the notice was given or by his insurer.

Subd. 2. A claimant who delays entering into an attorney-client relation with the purpose of delaying unreasonably the notice required by subdivision 1 is subject to liability as provided in subdivision 3.

Subd. 3. Any person injured by the failure of a claimant or his attorney or of a person in the chain of manufacture and distribu-

tion to comply with the requirements of this section may recover damages, costs and reasonable attorney fees from a person who violated this section, but failure to give notice does not affect the validity of a claim against a party who did not receive notice.

Sec. 11. [EFFECTIVE DATE.] Sections 1, 2, 4, 5, 6, 7, 8, 9 and 10 are effective April 15, 1978, and apply to all causes of action arising on or after that date.

Section 3 is effective August 1, 1978."

Further, strike the title and insert:

"A bill for an act relating to civil actions; limiting ad damnum clauses; establishing rules for punitive damages; authorizing costs and attorney fees to be awarded when one party acts in bad faith; modifying rules of comparative fault, contribution, and joint liability; codifying a useful life defense; requiring notice of possible claims; establishing a statute of limitations for certain strict liability actions and for actions based on the application of pesticides; amending Minnesota Statutes 1976, Sections 541.05; 541.07; 604.01, Subdivision 1, and by adding a subdivision; and Chapters 544, by adding a section; 549, by adding sections; and 604, by adding sections."

We request adoption of this report and repassage of the bill.

An examiner of titles shall have full power to administer oaths and examine witnesses concerning any matter involved in his investigation of titles. The court may refer the case, or any part thereof, to one of the examiners, as referee, to hear the parties and their evidence, and make report thereon to the court. Any report of an examiner shall have the same weight as that of a referee appointed by the district court. The Honorable Martin O. Sabo
Speaker of the House of Representatives

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 2093, report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and that H. F. No. 2093 be amended as follows:

Strike everything after the enacting clause and insert:

“Section 1. [UNIVERSITY OF MINNESOTA PEACE OFFICERS; PENSION AND RETIREMENT COVERAGE.] Subdivision 1. [TRANSFER OF PENSION COVERAGE FOR EXISTING EMPLOYEES.] Notwithstanding any provisions of law to the contrary, as of July 1, 1978, all active peace officers employed by the university of Minnesota at any campus or facility of the university shall cease to be members of the university of Minnesota police department retirement plan and fund and shall cease to have any accrual of service credit, rights, or benefits under that plan. From and after July 1, 1978, any active peace officer shall be a member of the public employees police and fire fund, shall be considered a police officer for purposes of chapter 353 if otherwise meeting the requirements of section 353.64, and shall have any past service as a peace officer with the university of Minnesota credited as allowable service by the public employees police and fire fund for purposes of section 353.01, subdivision 16.

Subd. 2. [PENSION COVERAGE FOR NEW PEACE OFFICERS.] All persons first employed by the university of Minne-

sota at any campus or facility of the university and appointed by the board of regents as peace officers after July 1, 1978, shall be members of the public employees police and fire fund and shall be considered police officers for purposes of section 356.64, subdivisions 1 and 2.

Subd. 3. [TRANSFER OF EXISTING RECIPIENTS OF PENSION AND OTHER RETIREMENT BENEFITS.] As of July 1, 1978, the accrued liability for all retirement annuities, disability benefits, survivorship annuities and survivor of deceased active employee benefits paid or payable by the university of Minnesota police department retirement plan and fund shall be transferred to the public employees police and fire fund and shall no longer be the liability of the university of Minnesota police department retirement plan and fund. The required reserves for retirement annuities in effect as of June 30, 1978, including future automatic survivor benefits for survivors of deceased former retirement annuitants attributable to those annuities, and the required reserves for benefits of survivor of deceased former retirement annuitants in effect as of June 30, 1978 shall be determined using a five percent interest assumption and the applicable public employees police and fire fund mortality table and shall be transferred by the public employees police and fire fund to the Minnesota adjustable fixed benefit fund on the effective date of this section but shall be considered transferred as of June 30, 1978. The annuity or benefit amount on the effective date of this section shall be considered the "originally determined benefit" for purposes of further adjustments pursuant to section 11.25. If an adjustment from the Minnesota adjustable fixed benefit fund pursuant to section 11.25 is payable as of January 1, 1979, any annuitant or benefit recipient receiving an annuity or benefit from the Minnesota adjustable fixed benefit fund pursuant to this section shall be entitled to receive the adjustment if the annuitant or recipient began receiving the annuity or benefit from the university of Minnesota police department retirement plan and fund on or before June 30, 1977. If an adjustment from the Minnesota adjustable fixed benefit fund pursuant to section 11.25 is payable as of January 1, 1979, the required reserves for the increase determined using a five percent interest assumption and the applicable public employees police and fire fund mortality table shall be transferred by the public employees police and fire fund to the Minnesota adjustable fixed benefit fund on January 1, 1979. For persons receiving benefits as survivors of deceased former retirement annuitants, the benefit shall be considered as having commenced on the date on which the retirement annuitant began receiving the retirement annuity.

Sec. 2. [TERMINATION OF PLAN AND FUND.] Subdivision 1. [TRANSFER OF ASSETS.] Prior to August 1, 1978 the board of regents of the university of Minnesota shall transfer the entire cash value of the assets of the university of Minnesota police department retirement plan and fund to the public employees police and fire fund. The assets shall also include all accounts receivable, if any, irrespective of source. Any accounts payable on July 1, 1978 shall also be transferred to the public employees

police and fire fund. The public employees police and fire fund shall be the successor in interest to all claims for and against the university of Minnesota police department retirement plan and fund or the board of regents of the university of Minnesota with respect to the plan and fund, except any claim against the plan and fund or any person connected with the plan and fund in a fiduciary capacity, based on any act or acts by that person which were not done in good faith and which constituted a breach of his obligation as a fiduciary. As a successor in interest, the public employees police and fire fund may assert any applicable defense in any judicial proceeding which the university of Minnesota police department retirement plan and fund or the board of regents of the university of Minnesota would otherwise have been entitled to assert.

Subd. 2. [TRANSFER OF RECORDS.] Prior to August 1, 1978, the board of regents of the university of Minnesota shall transfer to the public employees police and fire fund original copies of all records and documents relating to the university of Minnesota police department retirement plan and fund and any of its members which are in the possession of the university, and shall provide from time to time whatever additional relevant information the board of trustees of the public employees retirement association may request.

Subd. 3. [TERMINATION OF THE FUND.] Upon the transfer of the assets, liabilities and records of the university of Minnesota police department retirement plan and fund to the public employees police and fire fund, the university of Minnesota police department retirement plan and fund shall terminate and shall cease to exist as a legal entity.

Sec. 3. [ADDITIONAL EMPLOYER OBLIGATION TO AMORTIZE UNFUNDED ACCRUED LIABILITIES.] In order to amortize the additional unfunded accrued liability incurred by the public employees police and fire fund as a result of the consolidation of the university of Minnesota police department plan and fund, and to place the university of Minnesota on an equivalent basis with the other public employing units having employees covered by the public employees police and fire fund, the university of Minnesota shall make an annual contribution to the public employees police and fire fund in addition to the employer contribution specified in section 353.65, subdivision 3. The additional contribution shall be a level annual dollar amount of \$82,904, payable at the beginning of each fiscal year, commencing July 1, 1978 and payable for a period of ten years; provided however that upon request of the board of regents of the university of Minnesota, the board of trustees of the public employees retirement association may specify an alternative procedure of periodic payments.

Sec. 4. [GENERAL ADMINISTRATION.] The provisions of chapter 353 shall govern in all instances where not inconsistent with the provisions of this act.

Sec. 5. [FUTURE ACTUARIAL VALUATIONS.] Notwith-

standing Minnesota Statutes 1976, Section 356.215, the administration of the university of Minnesota police department retirement plan and fund shall not be required to have an actuarial valuation made as of July 1, 1978. The executive director of the public employees retirement association shall include the transferred membership, liabilities and assets of the university of Minnesota police department retirement plan and fund in the valuation of the public employees retirement association as of June 30, 1978.

Sec. 6. This act is effective July 1, 1978."

Further, amend the title by deleting lines 7 through 13 and inserting "assets and records."

Subd. 15. If no district is divided by virtue of the proceedings, all of the assets, real and personal, of the districts involved and all legally valid and enforceable claims and contract obligations of the districts pass to the new district, *except as provided in section 122.532.* If a district is divided by virtue of the proceedings, upon receipt of the order of the commissioner, the auditor of the county containing the greatest land area of the new district shall present a copy of the plat and supporting statement and orders issued in the proceedings to the commissioner, together with such information as is available to him concerning the assets and liabilities not secured by bonds of each district, any part of which is included in the newly created district. Thereafter within 30 days the commissioner shall issue his order providing for a division of the assets and liabilities of the districts involved and apportioning and divid-

ing these assets and liabilities according to such terms as he may deem just and equitable. In making this division of assets and liabilities, the commissioner may consider the amount of bonded debt to be assumed by property in each area under the provisions of this section. If the order of consolidation transfers any real estate interest to the new district or to another district, the order apportioning assets and liabilities may impose a dollar claim on the district receiving the real estate in favor of any other district involved in an amount not exceeding the reasonable value of the real estate interest involved, which claim shall be paid in the manner provided by law for the enforcement of judgments.

Sec. 24. Minnesota Statutes 1976, Section 122.23, Subdivision 16, is amended to read:

Subd. 16. As of the effective date of the consolidation, the bonded debt of all component districts shall be paid according to the plan for consolidation proposed in the approved plat, pursuant to the provisions of subdivision 16a or 16b, as applicable.

Subd. 16a. If the plan for consolidation so provides, the bonded debt of all component districts shall be paid according to levies previously made for that debt under chapter 475. In this case, the obligation of the taxable property in the component districts with reference to the payment of such bonded debt is not affected by the consolidation.

Subd. 16b. If the plan for consolidation so provides or makes no provision for the disposition of bonded debt, all the taxable property in the newly created district is taxable for the payment of any bonded debt theretofore incurred by any component district in the proportion which the assessed valuation of that part of a pre-existing district which is included in the newly created district bears to the assessed valuation of the entire pre-existing district as of the time of the consolidation. This apportionment shall be made by the county auditor and shall be incorporated as an annex to the order of the county board commissioner dividing the assets and liabilities of the component parts. This subdivision shall not relieve any property from any tax liability for payment of any bonded obligation but taxable property in the newly created district becomes primarily liable for the payment of bonded debts to the extent of the proportion stated.

Subd. 16c. The board of the newly created district, when constituted as provided in subdivision 17, may provide for an election of that district on the issuance of bonds, and may issue and sell bonds authorized at such an election, or bonds authorized at an election previously held in any pre-existing district wholly included within the newly created district, or bonds for a purpose for which an election is not required by law. Such actions may be taken at any time after the date of the county auditor's order issued under subdivision 13, and before or after the date upon which the consolidation becomes effective for other purposes, and taxes for the payment of any such bonds shall be levied upon all taxable property in the newly created district; except that no bonds shall be delivered to purchasers until 30 days after the date

of the county auditor's order. If within this period a notice of appeal from the county auditor's order to the district court is filed in accordance with section 127.25, no bonds shall be delivered by the newly created district to purchasers until and unless the county auditor's order is affirmed by final order of the district court in such special proceeding, and a period of 30 days from the service of such final order expires without an appeal to the supreme court being commenced or, if an appeal is taken, the order is affirmed by the supreme court; except that if all of the territory of one and only one independent district maintaining a secondary school is included in the newly created district, and if the assessed valuation of taxable property in such territory comprises 90 percent or more of the assessed valuation of all taxable property in the newly created district, the board may issue, sell, and deliver any bonds voted by the pre-existing independent district and any bonds voted or otherwise authorized by the newly created district, notwithstanding the pendency of any such appeal, and such bonds shall be paid by the levy of taxes upon the property within the territory of the pre-existing independent district and within such other areas, if any, as may be finally determined to be properly included within the newly created district. In any election held in the newly created district as authorized in the preceding sentence, all qualified electors residing within the area of that district as defined in the county auditor's order shall be entitled to vote, but the votes cast by residents of former districts or portions of former districts included in such area, other than the independent district maintaining the secondary school, shall be received and counted separately; and the bonds shall not be issued and sold unless authorized by a majority of the votes cast thereon by electors of the independent district maintaining the secondary school, and also by a majority of the votes cast thereon by electors residing within the entire area of the newly created district.

Sec. 25. Minnesota Statutes 1976, Section 122.23, Subdivision 18, is amended to read:

(a) If no board is provided for under the foregoing provision, upon receipt of the assigned identification number, the county auditor shall determine a date, not less than 20 nor more than 60 days from the date of the receipt by him of the assigned identification number, upon which date shall be held a special election in the district for the purpose of electing a board of six members for terms as follows: two until the July following the next annual election *1 one year after the effective date of the consolidation*, two until the expiration of one year from said July 1, and two until the expiration of two years from said July 1, to hold office until a successor is elected and qualifies according to provisions of law governing the election of board members in independent districts. *If the resolution or petition for consolidation pursuant to subdivision 2 proposed that the board of the newly created district consists of seven members, then seven members shall be elected at this election for the terms provided in this clause except that three members shall hold office until the expiration of two years from said July 1. If the resolution or petition for*

consolidation pursuant to subdivision 2 proposed the establishment of separate election districts, these members shall be elected from separate election districts according to the provisions of that resolution or petition and of section 123.32.

(b) The county auditor shall give ten days' posted notice of election in the area in which the election is to be held and also if there be a newspaper published in the proposed new district, one weeks' published notice shall be given. The notice shall specify the time, place and purpose of the election.

(c) The county may pay the election judges not to exceed \$1 per hour for their services.

(d) Any person desiring to be a candidate for a school election shall file an application with the county auditor to have his name placed on the ballot for such office, specifying the term for which the application is made. The application shall be filed not less than 12 days before the election.

(e) The county auditor shall prepare, at the expense of the county, necessary ballots for the election of officers, placing thereon the names of the proposed candidates for each office. The ballots shall be marked and signed as official ballots and shall be used exclusively at the election. The county auditor shall determine the number of voting precincts and the boundaries of each. He shall determine the location of polling places and the hours the polls shall be open. He shall appoint three election judges for each polling place who shall act as clerks of election. Election judges shall certify ballots and results to the county auditor for tabulation and canvass.

(f) Upon canvass and tabulation by the county auditor he shall issue a certificate of election to the candidate for each office who received the largest number of votes cast for the office. He shall deliver such certificate to the person entitled thereto by registered mail, and each person so certified shall file an acceptance and oath of office with the county auditor within 30 days of the date of mailing of the certificate. A person who fails to qualify prior to the time specified shall be deemed to have refused to serve, but such filing may be made at any time before action to fill vacancy has been taken.

(g) The board of each district included in the new enlarged district shall continue to maintain school therein until July 1 next following, but the effective date of the consolidation. Such boards shall have power and authority only to make such contracts and , to do such things as are necessary to maintain properly the schools for the period they may be in session prior to said first day of July that date, and to certify to the county auditor according to levy limitations applicable to the component districts the taxes collectible in the calendar year when the consolidation becomes effective.

(h) It shall be the immediate duty of the newly elected board of the new enlarged district, when the members thereof have qualified and the board has been organized, to plan for the main-

tenance of the school or schools of the new district for the next school year and , to enter into the necessary *negotiations and contracts for the employment of personnel, purchase of equipment and supplies, and other acquisition and betterment purposes and , when authorized by the voters to issue bonds under the provisions of chapter 475; and on said July 1 the effective date of the consolidation to assume the full duties of the care, management and control of the new enlarged district. The board of the new enlarged district shall give due consideration to the feasibility of maintaining such existing attendance centers and of establishing such other attendance centers, especially in rural areas, as will afford equitable and efficient school administration and assure the convenience and welfare of the pupils residing in the enlarged district. The obligations of the new board to teachers employed by component districts shall be governed by the provisions of section 122.532.*

Sec. 26. Minnesota Statutes 1976, Chapter 122, is amended by adding a section to read:

As of the effective date of the involuntary dissolution of a district and its attachment to one or more existing districts pursuant to sections 122.32, or 122.41 to 122.52, the authorization for any referendum levy previously approved by the voters of the dissolved district in that district pursuant to section 275.125, subdivision 2a, clause (4), or its predecessor or successor provision, is cancelled. The authorization for any referendum levy previously approved by the voters of a district to which all or part of the dissolved district is attached, shall not be affected by the attachment and shall apply to the entire area of the district as enlarged by the attachment.*

Subd. 2. As of the effective date of a consolidation pursuant to section 122.23 or the voluntary dissolution of a district and its attachment to one or more existing districts pursuant to section 123.22, the authorization for all referendum levies previously approved by the voters of all affected districts for those districts pursuant to section 275.125, subdivision 2a, clause (4), or its predecessor or successor provision, is cancelled. However, if all of the territory of any independent district is included in the newly created district, and if the adjusted assessed valuation of taxable property in that territory comprises 90 percent or more of the adjusted assessed valuation of all taxable property in a newly created or enlarged district, the board of the newly created or enlarged district may levy the increased amount previously approved by a referendum in the pre-existing independent district upon all taxable property in the newly created or enlarged district. Any new referendum levy shall be certified only after approval is granted by the voters of the entire newly created or enlarged district in an election pursuant to section 275.125, subdivision 2a, clause (4), or its successor referendum provision.

Subd. 3. (1) In the year when any consolidation of districts or dissolution of a district and its attachment to one or more existing districts pursuant to chapter 122 becomes effective, any newly

created or enlarged district may levy an amount per pupil unit which is equal to the sum of the products of the amounts per pupil unit levied pursuant to section 275.125, subdivision 6 or 7, in each component district in the previous year times the number of pupil units from that component district who are enrolled in the newly created or enlarged district in the year of the levy, divided by the total number of pupil units in the newly created or enlarged district in the year of the levy.

(2) In each year thereafter, the newly created or enlarged district may levy the same amount per pupil unit as allowed by clause (1).

(3) The provisions of section 275.125, subdivision 6 or 7, shall not apply to any district affected by the provisions of this subdivision.

(4) For purposes of computing allowable levies under this subdivision, pupil units shall include only those units identified in section 124.17, subdivision 1, clauses (1), (2), (6) and (7).

The amount of statutory operating debt attributable to that taxable property and to the newly created or enlarged district in which it is located, and the amount of a pre-existing district's appropriated fund balance reserve account for purposes of reducing statutory operating debt attributable to the newly created or enlarged district, shall be apportioned according to the proportion which the adjusted assessed valuation of that part of the pre-existing district bears to the total adjusted assessed valuation of the entire pre-existing district at the time of the consolidation or dissolution and attachment. This apportionment shall be made by the county auditor and shall be incorporated as an annex to the order of the commissioner dividing the assets and liabilities of the component districts. As used in this section, "statutory operating debt" shall have the meaning given it in section 121.914.

Subd. 2. *As of the effective date of any consolidation or the dissolution of any district and its attachment to one or more existing districts, each teacher employed by an affected district shall be assigned to the newly created or enlarged district in which is located the building where that teacher was primarily employed prior to the consolidation or dissolution and attachment.*

Subd. 3. *The organization certified as the exclusive bargaining representative for the teachers in the particular pre-existing district which employed the largest proportion of the teachers who are assigned to a new employing district according to subdivision 2 shall be certified as the exclusive bargaining representative for the teachers assigned to that new employing district, until that organization is decertified or another organization is certified in its place pursuant to sections 179.61 to 179.77. If no new contract has been executed as of the effective date of the consolidation or dissolution and attachment, the terms and conditions of employment of teachers assigned to the new employing district shall be temporarily governed by the contract executed by that exclusive bargaining representative and that particular pre-existing district, until a new contract is executed between the newly elected board or the board of the district to which a dissolved district is attached and the exclusive bargaining representative. For purposes of negotiation of a new contract with the board of the new employing district and the certification of an exclusive bargaining representative for purposes of that negotiation, the teachers assigned to that district shall be considered an appropriate unit of employees of that district as of the date the county board orders its interlocutory order of dissolution and attachment to be final and effective or as of the date the commissioner assigns an identification number to a new district created by consolidation. If there is not sufficient foundation program aid remaining to be paid for the school year in which the violation occurred, the reduction shall be from the other special aids payable to the district for that year in the order in which special state aids are listed in this code. If the violation is for performance of a contract for transportation, which has been disapproved, the primary reduction shall be from transportation aid. If there is not a sufficient amount of special state aids remaining payable to the district for the school year in which the violation occurred to permit the full amount of reduction required, that part of the required reduction not taken from that school year's aids will be taken from the special state aids payable to the district for the next school year, and the reduction will be made from the various aids payable for the next year in the order above specified.

Sec. 40. Minnesota Statutes, 1977 Supplement, Section 124.17, Subdivision 1, is amended to read:

124.17 [DEFINITION OF PUPIL UNITS.] Subdivision 1. Pupil units for each resident pupil in average daily membership shall be counted as follows:

(1) In an elementary school ; :

(a) *For handicapped pre-kindergarten pupils, as defined in section 120.03, enrolled in programs approved by the commissioner, one-half pupil unit;*

(b) For kindergarten and for handicapped pre-kindergarten pupils as defined in section 120.03, and enrolled in one-half day sessions throughout the school year or the equivalent thereof, approved by the commissioner of education, one-half pupil unit ; and

(c) For other elementary pupils, one pupil unit.

(2) In secondary schools, one and four-tenths pupil units. Pupils enrolled in the seventh and eighth grades of any school shall be counted as secondary pupils.

(4) To meet the problems of educational overburden caused by broken homes, poverty and low income, each pupil in clauses (1) and (2) from families receiving aid to families with dependent children or its successor program who is enrolled in the school district on October 1 shall be counted as an additional five-tenths pupil unit. By March 1 of each year the department of public welfare shall certify to the department of education, and to each school district to the extent the information pertains to it, that information concerning children from families with dependent children who were enrolled in the school district on the preceding October 1 which is necessary to calculate pupil units. Additional aids to a district for such pupils may be distributed on a delayed basis until the department of education publicly certifies that the information needed for paying such aids is available on such a timely basis that such aids may be paid concurrently with other foundation aids.

(5) In every district where the number of pupils from families receiving aid to families with dependent children or its successor program exceeds five percent of the total actual pupil units in the district for the same year, as computed in clauses (1) and (2), each such pupil shall be counted as an additional one-tenth of a pupil unit for each percent of concentration over five percent of such pupils in the district. The percent of concentration shall be rounded down to the nearest whole percent for purposes of this clause, provided that in districts where the percent of concentration is less than six, no additional pupil units shall be counted under this clause for pupils from families receiving aid to dependent children or its successor program and provided further that no such pupil shall be counted as more than one and one-tenth additional pupil units pursuant to clauses (4) and (5). Such weighting shall be in addition to the weighting provided in clauses (1), (2), (3), and (4). School districts are encouraged to allocate a major portion of the aids that they receive on account of clauses (4) and (5) to primary grade programs and services, particularly to programs and services that involve participation of parents. Each district receiving aids on account of both clauses (4) and (5) shall establish and maintain accounts separate from all other district accounts for the receipt and disbursement of all such aids received.

(6) Where the total pupil units of a district are used as a multiplier in determining foundation aids and spending and levy limitations and where the actual number of pupil units has

decreased from the prior year, the number of pupil units shall equal the greater of (a) the average quotient obtained when the sum of the numbers of actual pupil units in the district for the two prior years and the current year and one quarter of the number of actual pupil units in the district for the third prior year, is divided by 3.25 or (b) the number of actual pupil units for the current year increased by .6 times the difference between the actual pupil units for the prior year and the current year. Only pupil units as computed in clauses (1) and (2) shall be included for purposes of computations made pursuant to this clause.

(7) In districts maintaining classified secondary schools where the actual number of pupil units has increased from the prior year by two percent or more, the additional pupil units over the prior year, as computed in clauses (1) and (2), shall be multiplied times one-tenth for each percent of increase over the prior year and a number of pupil units equal to the product shall be added to the other units for the district. The percent of increase shall be rounded up to the next whole percent for purposes of this clause, provided that in districts where the percent of increase is less than two, no additional pupil units shall be added to the other units for the district and provided further that the number of pupil units of increase over the prior year shall under no circumstances be multiplied by more than five-tenths.

(8) Only pupil units in clauses (1) and (2) shall be used in computing adjusted maintenance cost per pupil unit.

Sec. 41. Minnesota Statutes, 1977 Supplement, Section 124.17, Subdivision 2, is amended to read:

Subd. 2. Membership for pupils in grades kindergarten through twelve and for handicapped pre-kindergarten pupils shall mean the number of pupils on the current roll of the school, counted from the date of entry until withdrawal. The date of withdrawal shall mean the day the pupil permanently leaves the school or the date it is officially known that the pupil has left or has been legally excused; provided that any pupil, regardless of age, who has been absent from school without a legally justifiable excuse for 15 consecutive school days without receiving instruction in the home or hospital shall be dropped from the roll and classified as withdrawn. Nothing in Extra Session Laws 1971, Chapter 31, this section shall be construed as waiving the compulsory attendance provisions cited in section 120.10. Average daily membership shall equal the sum for all pupils of the number of days of the school year each pupil is enrolled in the district's schools divided by the number of days said schools are in session. For districts operating 12 months schools, days schools are in session shall mean the number of session days required by section 124.10, subdivision 1.

Sec. 42. Minnesota Statutes 1976, Section 124.17, is amended by adding a subdivision to read:

Subd. 2c. Notwithstanding the provisions of subdivision 2, in any case where school is in session but pupils are prevented from attending for more than 15 consecutive days because of epidemic,

calamity, weather, fuel shortage, or other justifiable cause, the state board, upon application, may allow the district to continue to count these pupils in average daily membership. A lawful employees' strike is not a justifiable cause for purposes of this subdivision.

Sec. 43. Minnesota Statutes 1976, Section 124.17, Subdivision 3, is amended to read:

Subd. 3. In computing pupil units for a prior year, the number of pupil units shall be adjusted to reflect any change for the current year in relative weightings by grade level or category of special assistance and , any change in measurement from average daily attendance to average daily membership *and any change in school district boundaries* , but not for the addition for the first time in the current year of a specified category of special assistance as provided in subdivision 1, clause (4).

Sec. 44. Minnesota Statutes, 1977 Supplement, Section 124.19, Subdivision 1, is amended to read:

The normal school year when school is in session shall be not less than 175 days , or their equivalent *in a district operating a flexible school year program* . A district which holds school for that period and is otherwise qualified is entitled to special state aid as by law provided. If school is held a less period such special state aid shall be reduced by the ratio that the difference between 175 days and the number of days school is held bears to 175 days, multiplied by 60 percent of the product of the district's foundation aid formula allowance times its pupil units for that year; but districts maintaining less than the required minimum number of days of school in session do not lose special state aid if the circumstances causing such loss of school time below the required minimum number of days were beyond the control of the board and provided proper evidence has been submitted and a good faith attempt made to make up time lost on account of these circumstances. Days devoted to teachers' institutes or other meetings authorized or called by the commissioner may not be included as part of the required minimum number of days of school in session. Effective the 1977-1978 school year, not more than five days may be devoted to parent-teacher conferences or teachers' workshops as part of the required minimum number of days school is in session.

The provision in this section for payment of aid for summer classes at a proportionate rate to foundation aid for the preceding school year shall apply to summer classes in 1973 and subsequent years.

Subd. 2. [ABATEMENTS.] Whenever by virtue of chapter 278, sections 270.07, 375.192, or otherwise, the assessed valuation of any school district for any taxable year is changed after the taxes for that year have been spread by the county auditor and whenever the mill rate as determined by the county auditor based upon the original assessed valuation is applied upon such changed valuations, the county auditor shall, prior to February 1 of each year, beginning in 1979, certify to the commissioner of education the amount of any resulting net revenue loss that accrued to the school district during the preceding year. Failing to successfully negotiate such a plan by the beginning date of a new master contract, the provisions of subdivision 6b shall apply. The provisions of section 179.72 shall not apply for the purposes of this subdivision.

Sec. 76. Minnesota Statutes 1976, Section 125.12, Subdivision 6b, is amended to read:

Subd. 6b. [UNREQUESTED LEAVE OF ABSENCE.] The school board may place on unrequested leave of absence, without pay or fringe benefits, as many teachers as may be necessary because of discontinuance of position, lack of pupils, financial limitations, or merger of classes caused by consolidation of districts. The unrequested leave shall be effective at the close of the school year. In placing teachers on unrequested leave, the board shall be governed by the following provisions:

(a) The board may place probationary teachers on unrequested leave first in the inverse order of their employment. No teacher who has acquired continuing contract rights shall be placed on

unrequested leave of absence while probationary teachers are retained in positions for which the teacher who has acquired continuing contract rights is certified;

(b) Teachers who have acquired continuing contract rights shall be placed on unrequested leave of absence in fields in which they are certified in the inverse order in which they were employed by the school district. In the case of merger of classes caused by consolidation of districts or in the case of equal seniority, the order in which teachers who have acquired continuing contract rights shall be placed on unrequested leave of absence in fields in which they are certified shall be negotiable;

(c) Notwithstanding clauses (a) and (b), if either the placing of a probationary teacher on unrequested leave before a teacher who has acquired continuing rights or the placing of a teacher who has acquired continuing contract rights on unrequested leave before another teacher who has acquired continuing contract rights but who has greater seniority would place the district in violation of its affirmative action program, the district may retain the probationary teacher or the teacher with less seniority;

(d) Teachers placed on unrequested leave of absence shall be reinstated to the positions from which they have been given leaves of absence or, if not available, to other available positions in the school district in fields in which they are certified. Reinstatement shall be in the inverse order of placement on leave of absence. The order of reinstatement of teachers who have equal seniority and who are placed on unrequested leave in the same school year shall be negotiable;

(e) Teachers, other than probationary teachers, terminated under Minnesota Statutes 1971, Section 125.12, Subdivision 6, Clause (e), in the 1973-74 school year shall be reinstated to the positions from which they have been terminated or, if not available, to other available positions in the school district in fields in which they are certified. Reinstatement shall be in the order of seniority. (a) the product of the district's foundation aid formula allowance under section 124.212 for the school year in which the levy is certified times the number of pupil units computed for that district under sections 124.17 for the school year in which the levy is certified; plus

(b) the district's estimated aid entitlement pursuant to section 124.20 for the summer school which begins in the school year in which the levy is certified; plus

(c) that district's entitlement, for the year in which the levy is certified, for transportation aid pursuant to section 124.222, special education aid pursuant to section 124.32, secondary vocational aid pursuant to section 124.573 and secondary vocational aid for handicapped children pursuant to section 124.574.

(2) If a district levies the full 107 percent of its entitlement under clause (1) for a school year and that amount is less than the amount to which the district would actually have been entitled under sections 124.20, 124.212, 124.222, 124.32, 124.573 and 124.574, for the year to which the levy is attributable, the district may adjust its levies in the succeeding years to make up this difference. The amount by which the district is allowed to adjust its levies in the succeeding years pursuant to this clause shall be recorded as a receivable in the school year to which the aids are attributable.

(3) If a district levies pursuant to clause (1) for a school year and the amount levied is greater than the amount to which the district would actually have been entitled under sections 124.20, 124.212, 124.222, 124.32, 124.573 and 124.574, for the year to which the levy is attributable, the district shall reduce its levies in the succeeding years by the amount of this difference.

(4) However, if the amount of the difference in clause (2), when calculated as an addition to the original levy for that year, would have exceeded the amount raised by the millage limitation in section 275.125, subdivision 2a, clause (1) or (2) for that year, the state shall pay the amount to which the district is entitled under sections 124.20, 124.212, 124.222, 124.32, 124.573 and 124.574, for that school year, which exceeds the amount raised by that millage limitation.

(5) If the district is unable to levy the full 107 percent of its entitlement for a school year because of the millage limitation in section 275.125, subdivision 2a, clause (1) or (2), the state shall pay the amount under sections 124.20, 124.212, 124.222, 124.32, 124.573 or 124.574 to which the district is entitled for that school year which exceeds the amount raised by that millage limitation.

(6) Prior to the certification of levies, the commissioner of education shall notify an applicable district that it is subject to the levy limitation of this subdivision and of its estimated entitlements pursuant to sections 124.20, 124.212, 124.222, 124.32, 124.573 and 124.574. The commissioner shall decide that a district is subject to this levy limitation if it appears reasonably certain that the maximum levy allowed that district pursuant to section 275.125, subdivision 2a, clause (1) or (2) will exceed the district's foundation aid formula allowance times the number of pupil units computed for that district under section 124.17 for that corresponding year. If, upon the order of the commissioner, the district levies pursuant to this subdivision but the maximum levy allowed that district pursuant to section 275.125, subdivision 2a, clause (1) or (2) would not actually have exceeded the district's foundation aid formula allowance times the number of pupil units computed for that district under section 124.17 for that corresponding year, the district shall reduce its levy for the next year by the amount by which the levy certified pursuant to this subdivision exceeded the amount the district could have levied under subdivision 2a, clause (1) or (2). Also in that case, the district shall receive all aids from the state pursuant to sections 124.20, 124.212, 124.222, 124.32, 124.573 and 124.574 to which it would otherwise have been entitled if its permitted levy had not been computed pursuant to this subdivision.

(7) Any district which is required to compute its permitted levy under this subdivision shall not be eligible to receive aid under sections 124.20, 124.212, 124.222, 124.32, 124.573 and 124.574 for the corresponding year except as authorized by this subdivision.

(8) Nothing within the provisions of this subdivision shall be construed to affect any other levy under section 275.125, including levies made pursuant to section 275.125, subdivision 2a, clause (4), to which a district is otherwise entitled.

(9) A levy made by a district pursuant to the provisions of this subdivision shall be construed to be the levy made by that district pursuant to subdivision 2a, clause (1) and (2), of this section, for purposes of statutory cross-reference.

Sec. 105. Minnesota Statutes, 1977 Supplement, Section 275.125, Subdivision 4, is amended to read:

Subd. 4. A school district may levy the amounts necessary to make payments for bonds issued and for interest thereon, including the bonds and interest thereon, issued as authorized by section 275.125, subdivision 3, clause (7) (C), as it read in Minnesota Statutes 1974; the amounts necessary for repayment of debt service loans and capital loans; the amounts necessary to pay the district's obligations under section 662; the amount authorized for liabilities of dissolved districts pursuant to section 122.45; the amounts necessary to pay the district's obligations under section 268.06, subdivision 25; and the amounts necessary to pay the district's obligations under section 127.05; *the amounts authorized by section 122.531; and the amounts necessary to pay the district's obligations under section 122.533.*

Sec. 106. Minnesota Statutes, 1977 Supplement, Section 275.125, Subdivision 9, is amended to read:

Subd. 9. (1) Districts which receive payments which result in deductions from foundation aid pursuant to section 124.212, subdivision 8a, clause (1), shall reduce the permissible levies authorized by subdivisions 3 to 14 by that portion of the previous year's payment not deducted from foundation aid on account of the payment. The levy reductions shall be made in the proportions that each permissible levy bears to the sum of the permissible levies. Reductions in levies pursuant to this clause, subdivision 10 of this section, and section 273.138, shall be made prior to the reductions in clause (2).

(2) Notwithstanding any other law to the contrary, districts which received payments pursuant to sections 294.21 to 294.28; 298.23 to 298.28; 298.32; 298.34 to 298.39; 298.391 to 298.396; 298.405; 298.51 to 298.67; and any law imposing a tax upon severed mineral values, or under any other law distributing proceeds in lieu of ad valorem tax assessments on copper or nickel properties; shall not include a portion of these aids in their permissible levies pursuant to those sections, but instead shall reduce the permissible levies authorized by this section to be certified in the calendar year in which the deduction from foundation aid is made pursuant to section 124.212, subdivision 8a, by the portion of the previous fiscal year's payment which was not deducted from foundation aid in that calendar year pursuant to section 124.212, subdivision 8a by the greater of the following:

(a) an amount equal to 50 percent of the total dollar amount of the payments received pursuant to those sections in the previous fiscal year; or

(b) an amount equal to the total dollar amount of the payments received pursuant to those sections in the previous fiscal year less the product of the same dollar amount of payments times the ratio of the maximum levy allowed the district under section 275.125, subdivision 2a, to the total levy allowed the district under section 275.125 in the year in which the levy is certified.

(3) No reduction pursuant to this subdivision shall reduce the levy made by the district pursuant to subdivision 2a, clause 1 or 2, to an amount less than the amount raised by a levy of 10 mills times the adjusted assessed valuation of that district for the preceding year as determined by the equalization aid review committee. The amount of any increased levy authorized by referendum pursuant to subdivision 2a, clause (4) shall not be reduced pursuant to this subdivision. The amount of any levy authorized by subdivision 4, to make payments for bonds issued and for interest thereon, shall not be reduced pursuant to this subdivision.

(4) Before computing the reduction pursuant to this subdivision of the capital expenditure levy authorized by section 275.125, subdivision 11a, the commissioner shall ascertain from each affected school district the amount it proposes to levy for capital expenditures pursuant to that subdivision. The reduction of the capital expenditure levy shall be computed on the basis of the amount so ascertained.

(5) Notwithstanding any law to the contrary, any amounts received by districts in any fiscal year after fiscal year 1975 pursuant to sections 294.21 to 294.28; 298.23 to 298.28; 298.34 to 298.39; 298.391 to 298.396; 298.405; 298.51 to 298.67; or any law imposing a tax on severed mineral values, or under any other law distributing proceeds in lieu of ad valorem tax assessments on copper or nickel properties; and not deducted from foundation aid pursuant to section 124.212, subdivision 8a, clause (2), and not applied to reduce levies pursuant to this subdivision shall be paid by the district to the commissioner of finance in the following amounts pursuant to this clause on the designated dates: on or before March 15, 1977, 20 percent of the amounts received in fiscal 1976 and not deducted from foundation aid in August 1976 and not applied to reduce 1976 payable 1977 levies; on or before March 15, 1978, 60 percent of the amounts received in fiscal 1977 and not deducted from foundation aid and not applied to reduce 1977 payable 1978 levies; on or before March 15, 1979 and March 15 of each year thereafter, 100 percent of the amounts received in the preceding fiscal year and not deducted from foundation aid and not applied to reduce levies certified in the preceding October. Any amounts received by districts in any fiscal year after fiscal year 1977 pursuant to the sections specified in this clause shall be paid by the district to the commissioner of finance in the following amounts on the designated dates: on or before March 15, 1979 and March 15 of each year thereafter, 100 percent of the amount required to be subtracted from the previous fiscal year's foundation aid pursuant to section 124.212, subdivision 8a, which is in excess of the foundation aid earned for that fiscal year. The commissioner of finance shall deposit any amounts received pursuant to this clause in the taconite property tax relief fund in the state treasury, established pursuant to section 16A.70 for purposes of paying the taconite homestead credit as provided in section 273.135.

Sec. 107. Minnesota Statutes, 1977 Supplement, Section 275.125, Subdivision 11a, is amended to read:

Subd. 11a. (a) A school district may levy an amount not to exceed the amount equal to \$75 per pupil unit or, in districts where the pupil unit count is increased pursuant to section 124.17, subdivision 1, clause (7), \$80 per pupil unit. For purposes of computing allowable levies under section 275.125, pupil units shall include only those units identified in section 124.17, subdivision 1, clauses (1), (2), (4), (5), (6) and (7). No levy under this subdivision shall exceed 10 mills times the adjusted assessed valuation of the taxable property in the district for the preceding year, notwithstanding the provisions of sections 272.64 and 275.-49.

(b) The proceeds of the tax may be used only to acquire land, to equip and reequip buildings and permanent attached fixtures, and to pay leasing fees for computer systems hardware, computer terminals and telecommunications equipment, and related proprietary software. The proceeds of the tax may also be used for capital improvement and repair of school sites, buildings and permanent attached fixtures, *energy assessments as required pursuant to section 116H.126*, and for the payment of any special assessments levied against the property of the district authorized pursuant to section 435.19 or any other law or charter provision authorizing assessments against publicly owned property; provided that a district may not levy amounts to pay assessments for service charges, including but not limited to those described in section 429.101, whether levied pursuant to that section or pursuant to any other law or home rule provision. The proceeds of the tax may also be used for capital expenditures for the purpose of reducing or eliminating barriers to or increasing access to school facilities by handicapped individuals.

(c) Subject to the commissioner's approval, the tax proceeds may also be used to rent or lease buildings for school purposes and to acquire or construct buildings. The state board shall promulgate rules establishing the criteria to be used by the commissioner in approving and disapproving district applications requesting the use of capital expenditure tax proceeds for the renting or leasing of buildings for school purposes and the acquisition or construction of buildings. The approval criteria for purposes of building acquisition and construction shall include: the appropriateness of the proposal with respect to the district's long term needs; the availability of adequate existing facilities; and the economic feasibility of bonding because of the proposed building's size or cost.

(d) The board shall establish a fund in which the proceeds of this tax shall be accumulated until expended.

(e) The proceeds of the tax shall not be used for custodial or other maintenance services.

Sec. 108. Minnesota Statutes, 1977 Supplement, Section 275.125, Subdivision 13, is amended to read:

Subd. 13. Districts maintaining a post-secondary vocational-technical school shall ~~may~~ levy for post-secondary vocational-technical purposes as follows:

(1) For districts in cities of the first class, one-half mill, exclusive of debt service, times the adjusted assessed valuation of the taxable property of the district for the preceding year as determined by the equalization aid review committee.

(2) For districts formed pursuant to Laws 1967, Chapter 822, as amended, and Laws 1969, Chapters 775 and 1060 as amended, one-half mill, exclusive of debt service, times the adjusted assessed valuation of the taxable property of the district for the preceding year as determined by the equalization aid review committee.

(3) For other districts maintaining post-secondary vocational schools, one mill, exclusive of debt service, times the adjusted assessed valuation of the taxable property of the district for the preceding year as determined by the equalization aid review committee.

Sec. 109. Minnesota Statutes 1976, Section 275.125, Subdivision 15, is amended to read:

Subd. 15. Any district which in any year levies an amount which is greater than the amount allowed by subdivisions 2a to 14, shall lose an amount of state foundation aid equal to one-half of the excess in the levy. However, if any school district levy is found to be excessive as a result of a decision of the tax court of appeals or a redetermination by the equalization aid review committee under section 124.212, subdivisions 11 to 18 or for any other reason, the amount of the excess shall be deducted from the levy certified in the next year for the same purpose; provided that if no levy is certified in the next year for the same purpose or if the amount certified is less than the amount of the excess, the excess shall be deducted from that levy and the levy certified pursuant to subdivision 2a. The amount of aid lost shall be deducted from the aid which would otherwise have been received for the school year which commences in the calendar year during which the excessive levy is being collected. Any foundation aid so withheld shall be withheld in accordance with the procedures specified in section 124.15. If any aid entitlement pursuant to sections 124.212, 124.222 and 124.245 would have been increased in a prior year as a result of a decision of the tax court of appeals or a redetermination by the equalization aid review committee, the amount of the increase shall be added to the current aid entitlement for the same purposes.

Sec. 110. Minnesota Statutes 1976, Section 275.125, Subdivision 16, is amended to read:

Subd. 16. For the purposes of this section, the number of resident pupil units in average daily membership shall be computed in accordance with section 124.17, provided that the district may use an estimated average daily membership for the current school year. Any district which increased its pupil units, exclusive of consolidation, or merger of districts, or change of definition of pupil units by more than five percent from one year to another for two consecutive years may use an estimated pupil unit

count for the next succeeding school year for determining a levy certified in the current year. If as a result of such estimate the levy is different from the amount that could actually have been levied under this section had such levy been based upon the pupil units computed under section 124.17 for that school year, ~~then in that event~~ the authorized levy for the following year shall be adjusted for the difference.

Sec. 111. Minnesota Statutes 1976, Section 275.125, Subdivision 18, is amended to read:

Subd. 18. By November 1 of each year each district shall ~~submit to~~ *notify* the commissioner of education a ~~certificate of the levies certified in~~ compliance with the levy limitations of this section. The commissioner of education shall prescribe the form of this ~~certificate notification~~.

Sec. 112. Minnesota Statutes 1976, Section 275.48 is amended to read:

275.48 [ADDITIONAL TAX LEVIES IN CERTAIN MUNICIPALITIES.] Whenever by virtue of chapter 278, sections 270.07, 375.192, or otherwise, the assessed valuation of any city, township or school district for any taxable year is reduced after the taxes for such year have been spread by the county auditor and whenever the mill rate as determined by the county auditor based upon the original assessed valuation is applied upon such reduced valuations and does not produce the full amount of taxes as actually levied and certified for such taxable year upon the original assessed valuations, such city, township or school district may include in its tax levy made following final determination and notice of such reduction in assessed valuation, an amount equal to the difference between the total amount of taxes actually levied and certified for such taxable year upon the original assessed valuation, not exceeding the maximum amount which could be raised upon such assessed valuation as reduced, within existing mill limitations, if any, and the amount of taxes collected for such taxable year upon such reduced valuations. *The total tax levy authorized for a school district by this section shall be reduced by the total amount of any abatement adjustments received by the district pursuant to section 124.214, subdivision 2, in the same calendar year in which the levy is certified. Prior to September 15 of each year, the commissioner of education shall certify to each county auditor the amount of any abatement adjustments paid in that year to each school district in that county.*

The amount of taxes so included shall be levied separately and shall be levied in addition to all limitations imposed by law; and further shall not result in any penalty in the nature of a reduction in state aid of any kind.

Sec. 113. Minnesota Statutes, 1977 Supplement, Section 298.28, Subdivision 1, is amended to read:

298.28 [DIVISION AND DISTRIBUTION OF PROCEEDS.] Subdivision 1. The proceeds of the taxes collected under section

298.24, except the tax collected under section 298.24, subdivision 2, shall, upon certificate of the commissioner of revenue to the general fund of the state, be paid by the commissioner of revenue as follows:

(1) 2.5 cents per gross ton of merchantable iron ore concentrate, hereinafter referred to as "taxable ton", to the city or town in which the lands from which taconite was mined or quarried were located or within which the concentrate was produced. If the mining, quarrying, and concentration, or different steps in either thereof are carried on in more than one taxing district, the commissioner shall apportion equitably the proceeds of the part of the tax going to cities and towns among such subdivisions upon the basis of attributing 40 percent of the proceeds of the tax to the operation of mining or quarrying the taconite, and the remainder to the concentrating plant and to the processes of concentration, and with respect to each thereof giving due consideration to the relative extent of such operations performed in each such taxing district. His order making such apportionment shall be subject to review by the tax court of appeals at the instance of any of the interested taxing districts, in the same manner as other orders of the commissioner.

(2) 12.5 cents per taxable ton to the taconite municipal aid account in the apportionment fund of the state treasury, to be distributed as provided in section 298.282.

(3) 29 cents per taxable ton to school districts to be distributed as follows:

(a) 6 cents per taxable ton to the school districts in which the lands from which taconite was mined or quarried were located or within which the concentrate was produced. The commissioner shall follow the apportionment formula prescribed in clause (1).

(b) 23 cents per taxable ton, less any amount distributed under part (c), shall be distributed to a group of school districts comprised of those school districts wherein the taconite was mined or quarried or the concentrate produced or in which there is a qualifying municipality as defined by section 273.134 or in which is located property which is entitled to the reduction of tax pursuant to section 273.135, subdivision 2, clause (c). The 23 cents, less any amount distributed under part (c), shall be distributed in direct proportion to school district tax levies as follows: each district shall receive that portion of the total distribution which its permitted levy for the prior year, computed pursuant to section 275.125, comprises of the sum of permitted levies for the prior year for all qualifying districts, computed pursuant to section 275.125. That portion of the amount so distributed to a school district which is not deducted from state aids in section 194.212, subdivision 8a, shall be included in computing the permissible levies under section 275.125. For purposes of distributions pursuant to this part, permitted levies for the prior year computed pursuant to section 275.125 shall not include the amount of any increased levy authorized by referendum pursuant to section 275.125, subdivision 2a, clause (4).

(c) There shall be distributed to any school district the amount which the school district was entitled to receive under section 298.32 in 1975.

(4) 19.5 cents per taxable ton to counties to be distributed as follows:

(a) 15.5 cents per taxable ton shall be distributed to the county in which the taconite is mined or quarried or in which the concentrate is produced, less any amount which is to be distributed pursuant to part (b). The commissioner shall follow the apportionment formula prescribed in clause (1).

(b) If an electric power plant owned by and providing the primary source of power for a taxpayer mining and concentrating taconite is located in a county other than the county in which the mining and the concentrating processes are conducted, one cent per taxable ton of the tax distributed to the counties pursuant to part (a) and imposed on and collected from such taxpayer shall be distributed by the commissioner of revenue to the county in which the power plant is located.

(c) 4 cents per taxable ton shall be paid to the county from which the taconite was mined, quarried or concentrated to be deposited in the county road and bridge fund. If the mining, quarrying and concentrating, or separate steps in any of those processes are carried on in more than one county, the commissioner shall follow the apportionment formula prescribed in clause (1).

(5) (a) 25.75 cents per taxable ton, less any amount required to be distributed under part (b), to the taconite property tax relief account in the apportionment fund in the state treasury, to be distributed as provided in sections 273.134 to 273.136.

(b) If an electric power plant owned by and providing the primary source of power for a taxpayer mining and concentrating taconite is located in a county other than the county in which the mining and the concentrating processes are conducted, .75 cent per taxable ton of the tax imposed and collected from such taxpayer shall be distributed by the commissioner of revenue to the county and school district in which the power plant is located as follows: 25 percent to the county and 75 percent to the school district.

(6) 1 cent per taxable ton to the state.

(7) 3 cents per taxable ton shall be deposited in the state treasury to the credit of the iron range resources and rehabilitation board account in the special revenue fund for the purposes of section 298.22. Of this amount, one cent per taxable ton is to be used to provide environmental development grants to local governments located within any county in region 3 as defined in governor's executive order number 60 issued on June 12, 1970; which does not contain a municipality qualifying pursuant to section 273.134.

(8) the amounts determined under clauses (4)(a), (4)(c), and (5) shall be increased in 1979 and subsequent years in the

same proportion as the increase in the steel mill products index as provided in section 298.24, subdivision 1.

(9) the proceeds of the tax imposed by section 298.24 which remain after the distributions in clauses (1) to (8) and parts (a), (b), (c) and (d) of this clause have been made shall be divided between the taconite environmental protection fund created in section 298.223 and the northeast Minnesota economic protection fund created in section 298.292 as follows: In 1978, 1979, 1980, 1981, and 1982, two-thirds to the taconite environmental protection fund and one-third to the northeast Minnesota economic protection fund; in 1983 and thereafter, one-half to each fund. The proceeds shall be placed in the respective special accounts in the general fund.

(a) In 1978 and each year thereafter, there shall be distributed to each city, town, school district, and county the amount that they received under section 294.26 in calendar year 1977.

(b) In 1978 and each year thereafter, there shall be distributed to the iron range resources and rehabilitation board the amounts it received in 1977 under section 298.22.

(c) In 1978 and each year thereafter, \$50,000 shall be distributed to the department of revenue for auditing and enforcing the production tax imposed by Laws 1977, Chapter 423, Article 10.

(d) In 1978 and 1979, \$150,000 shall be distributed to the department of revenue for the purpose of administering section 298.48. In 1980 and each year thereafter, \$100,000 shall be distributed to the department of revenue. On or before October 10 of each calendar year each producer of taconite or iron sulphides subject to taxation under section 298.24 (hereinafter called "taxpayer") shall file with the commissioner of revenue and with the county auditor of each county in which such taxpayer operates, and with the chief clerical officer of each school district, city or town which is entitled to participate in the distribution of the tax, an estimate of the amount of tax which would be payable by such taxpayer under said law for such calendar year; provided such estimate shall be in an amount not less than the amount due on the mining and production of concentrates up to September 30 of said year plus the amount becoming due because of probable production between September 30 and December 31 of said year, less any credit allowable as hereinafter provided. Such estimate shall list the taxing districts entitled to participate in the distribution of such tax, and the amount of the estimated tax which would be distributable to each such district in the next ensuing calendar year on the basis of the last percentage distribution certified by the commissioner of revenue. If there be no such prior certification, the taxpayer shall set forth its estimate of the proper distribution of such tax under the law, which estimate may be corrected by the commissioner if he deems it improper, notice of such correction being given by him to the taxpayer and the public officers receiving such

estimate. The officers with whom such report is so filed shall use the amount so indicated as being distributable to each taxing district in computing the permissible tax levy of such county, city or school district in the year in which such estimate is made, and payable in the next ensuing calendar year, except that in 1978 and 1979 two cents per taxable ton, and in 1980 and thereafter, one cent per taxable ton of the amount distributed under clause (4) (c) shall not be deducted in calculating the permissible levy. Such taxpayer shall then pay, at the times payments are required to be made pursuant to section 298.27, as the amount of tax payable under section 298.24, the greater of (a) the amount shown by such estimate, or (b) the amount due under said section as finally determined by the commissioner of revenue pursuant to law. If, as a result of the payment of the amount of such estimate, the taxpayer has paid in any calendar year an amount of tax in excess of the amount due in such year under section 298.24, after application of credits for any excess payments made in previous years, all as determined by the commissioner of revenue, the taxpayer shall be given credit for such excess amount against any taxes which, under said section, may become due from the taxpayer in subsequent years. In any calendar year in which a general property tax levy subject to sections 275.125 or 275.50 to 275.59 has been made, if the taxes distributable to any such county, city or school district are greater than the amount estimated to be paid to any such county, city or school district in such year, the excess of such distribution shall be held in a special fund by the county, city or school district and shall not be expended until the succeeding calendar year, and shall be included in computing the permissible levies under sections 275.125 or 275.50 to 275.59, of such county, city or school district payable in such year. If the amounts distributable to any such county, city or school district, after final determination by the commissioner of revenue under this section are less than the amounts indicated by such estimates, such county, city or school district may issue certificates of indebtedness in the amount of the shortage, and may include in its next tax levy, in excess of the limitations of sections 275.125 or 275.50 to 275.59 an amount sufficient to pay such certificates of indebtedness and interest thereon, or, if no certificates were issued, an amount equal to such shortage.

There is hereby annually appropriated to such taxing districts as are stated herein, to the taconite property tax relief account and to the taconite municipal aid account in the apportionment fund in the state treasury, to the department of revenue, to the iron range resources and rehabilitation board, to the taconite environmental protection fund, and to the northeast Minnesota economic protection fund, from any fund or account in the state treasury to which the money was credited, an amount sufficient to make the payment or transfer. The payment of the amount appropriated to such taxing districts shall be made by the commissioner of revenue on or before May 15 annually.

Sec. 114. Minnesota Statutes 1976, Section 298.39, is amended to read:

298.39 [DISTRIBUTION OF PROCEEDS.] The proceeds of the tax collected under section 298.35 shall be distributed by the state treasurer, upon certificate of the commissioner of revenue to the general fund of the state and to the various taxing districts in which the lands from which the semi-taconite was mined or quarried were located in the following proportions: 22 percent thereof to the city or town; 50 percent thereof to the school district; 22 percent thereof to the county; six percent thereof to the state. If the mining and concentration, or different steps in either thereof are carried on in more than one taxing district, the commissioner shall apportion equitably the proceeds of the part of the tax going to cities or towns among such subdivisions, and the part going to school districts among such districts, and the part going to counties among such counties, upon the basis of attributing 40 percent of the proceeds of the tax to the operation of mining or quarrying the semi-taconite, and the remainder to the concentrating plant and to the processes of concentration, and with respect to each thereof giving due consideration to the relative extent of such operations performed in each such taxing district. His order making such apportionment shall be subject to review by the tax court of appeals at the instance of any of the interested taxing districts, in the same manner as other orders of the commissioner. The amount so distributed shall be divided among the various funds of the state, or of the taxing districts in the same proportion as the general ad valorem tax thereof. If in any year the state shall not spread any general ad valorem tax levy against real property, the state's proportion of the tax shall be paid into the general fund. The amount distributed to any city and one-third in 1971 and that portion not deducted from state aids in section 124.212, subdivision 8, thereafter of the amount distributed to any school district under the provisions hereof shall be included in computing the permissible levies of such city or school district under sections section 275.11 or 275.125, but shall not be included in computing mill rate limitations, including cost of living adjustments thereof, so long as the levies do not exceed the limitations provided by said sections section 275.11 or 275.125. On or before October 10 of each calendar year each producer of semi-taconite subject to taxation under section 298.35, hereinafter called "taxpayer," shall file with the commissioner of revenue and with the county auditor of each county in which such taxpayer operates, and with the chief clerical officer of each school district or city which is entitled to participate in the distribution of the tax, an estimate of the amount of tax which would be payable by such taxpayer under said law for such calendar year; provided such estimate shall be in an amount not less than the amount due on the mining and production of concentrates up to September 30 of said year plus the amount becoming due because of probable production between September 30 and December 31 of said year, less any credit allowable as hereinafter provided. Such estimate shall list the taxing districts entitled to participate in the distribution of such tax, and the amount of the estimated tax which would be distributable to each such district in such next ensuing calendar year on the basis of the last percentage distribution certified by the commissioner of revenue. If

there be no such prior certification, the taxpayer shall set forth its estimate of the proper distribution of such tax under the law, which estimate may be corrected by the commissioner if he deems it improper, notice of such correction being given by him to the taxpayer and the public officers receiving such estimate. The officers with whom such report is so filed shall use the amount so indicated as being distributable to each taxing district except in the case of school districts one-third in 1971 and that portion not deducted from state aids in section 124.212, subdivision 8, thereafter of the indicated amount is to be used in computing, pursuant to sections section 275.11 or 275.125, the permissible tax levy of such city or school district in the year in which such estimate is made, and payable in the next ensuing calendar year. Such taxpayer shall then pay, at the times payments are required to be made pursuant to section 298.36, as the amount of tax payable under section 298.35, the greater of (a) the amount shown by such estimate, or (b) the amount due under said section as finally determined by the commissioner of revenue pursuant to law. If, as a result of the payment of the amount of such estimate, the taxpayer has paid in any calendar year an amount of tax in excess of the amount due in such year under section 298.35, after application of credits for any excess payments made in previous years, all as determined by the commissioner of revenue, the taxpayer shall be given credit for such excess amount against any taxes which, under said section, may become due from the taxpayer in subsequent years. In any calendar year in which a general property tax levy subject to sections 275.11 or 275.125 has been made, if the taxes distributable to any such city or school district are greater than the amount estimated to be paid to any such city or school district in such year, the excess of such distribution shall be held in a special fund by the city or school district and shall not be expended until the succeeding calendar year, and shall be included in computing the permissible levies under sections 275.11 or 275.125 of such city or school district payable in such year. If the amounts distributable to any such city or school district, after final determination by the commissioner of revenue under this section are less than the amounts indicated by such estimates, such city or school district may issue certificates of indebtedness in the amount of the shortage, and may include in its next tax levy, in excess of the limitations of sections 275.11 or 275.125 an amount sufficient to pay such certificates of indebtedness and interest thereon, or, if no certificates were issued, an amount equal to such shortage.

There is hereby appropriated to such taxing districts as are stated herein, from any fund or account in the state treasury to which the money was credited, an amount sufficient to make the payment or transfer.

If the agglomerating facility is located in more than one tax district, the commissioner shall apportion equitably the proceeds of the part of the tax going to cities or towns among such subdivisions, and the part going to school districts among such districts, and the part going to counties among such counties, giving due consideration to the relative extent of the facilities located in each such taxing district. His order making such apportionment shall be subject to review by the tax court of appeals at the instance of any of the interested taxing districts, in the same manner as other orders of the commissioner. The amount to be distributed among the several taxing districts of the state shall be divided by such districts among the funds of such districts in the same proportion as the general ad valorem tax thereof. The amount distributed to any city and one-third in 1971 and that portion not deducted from state aids in section 124.212, subdivision 8, thereafter of the amount distributed to any school district under the provisions hereof shall be included in computing the permissible amount of the levies of such city or school district under sections section 275.11 or 275.125, but shall not be included in computing mill rate limitations, including cost of living adjustments thereof, so long as the levies do not exceed the limitations provided by said sections section 275.11 or 275.125.

Subd. 9a. [FEEDLOT POLLUTION CONTROL EQUIPMENT.] A credit of 10 percent of the net cost of pollution control and abatement equipment, including but not limited to, lagoons, concrete storage pits, slurry handling equipment, and other equipment and devices approved by the pollution control agency, purchased, installed and operated within the state by a feedlot operator to prevent pollution of air, land, or water in connection with the operation of a livestock feedlot, poultry lot or other animal lot, may be deducted from the tax due under this chapter in the taxable year in which such equipment is purchased; provided that no deduction shall be taken for any portion of the cost of the same equipment pursuant to subdivision 9. The credit provided for in subdivision 9 shall terminate on December 31, 1976. The credit provided for in this subdivision shall terminate on December 31, 1980, except any amounts that are carried forward to a subsequent year may be taken as a credit in such subsequent years.

If the amount of the credit provided by this subdivision exceeds the taxpayer's liability for taxes pursuant to chapter 290 in the taxable year, *beginning after December 31, 1972*, in which the equipment is purchased, the excess amount may be carried forward to the four taxable years following the year of purchase. The entire amount of the credit not used in the year purchased shall be carried to the earliest of the four taxable years to which the credit may be carried and then to each of the three successive taxable years.

Sec. 2. Minnesota Statutes 1976, Section 290A.03, Subdivision 6, is amended to read:

Subd. 6. The homestead may be owned or rented and may be a part of a multi-dwelling or multi-purpose building and the land on which it is built. A mobile home, as defined in section 168.011, subdivision 8, assessed as personal property may be a dwelling for purposes of this subdivision.

Sec. 3. Minnesota Statutes, 1977 Supplement, Section 298.28, Subdivision 1, is amended to read:

298.28 [DIVISION AND DISTRIBUTION OF PROCEEDS.]

Subdivision 1. The proceeds of the taxes collected under section 298.24, except the tax collected under section 298.24, subdivision 2, shall, upon certificate of the commissioner of revenue to the general fund of the state, be paid by the commissioner of revenue as follows:

(1) 2.5 cents per gross ton of merchantable iron ore concentrate, hereinafter referred to as "taxable ton", to the city or town in which the lands from which taconite was mined or quarried were located or within which the concentrate was produced. If the mining, quarrying, and concentration, or different steps in either thereof are carried on in more than one taxing district, the commissioner shall apportion equitably the proceeds of the part of the tax going to cities and towns among such subdivisions upon the basis of attributing 40 percent of the proceeds of the tax to the operation of mining or quarrying the taconite, and the remainder to the concentrating plant and to the processes of concentration, and with respect to each thereof giving due consideration to the relative extent of such operations performed in each such taxing district. His order making such apportionment shall be subject to review by the tax court of appeals at the instance of any of the interested taxing districts, in the same manner as other orders of the commissioner.

(2) 12.5 cents per taxable ton, *less any amount distributed under clause 8*, to the taconite municipal aid account in the apportionment fund of the state treasury, to be distributed as provided in section 298.282.

(3) 29 cents per taxable ton to school districts to be distributed as follows:

(a) 6 cents per taxable ton to the school districts in which the lands from which taconite was mined or quarried were located or within which the concentrate was produced. The commissioner shall follow the apportionment formula prescribed in clause (1).

(b) 23 cents per taxable ton, *less any amount distributed under part (c)*, shall be distributed to a group of school districts comprised of those school districts wherein the taconite was mined or quarried or the concentrate produced or in which there is a qualifying municipality as defined by section 273.134 or in which is located property which is entitled to the reduction of tax pursuant to section 273.135, subdivision 2, clause (c). The 23 cents, *less any amount distributed under part (c)*, shall be distributed in direct proportion to school district tax levies as follows: each district shall receive that portion of the total distribution which its permitted levy for the prior year, computed pursuant to section 275.125, comprises of the sum of permitted levies for the prior year for all qualifying districts, computed pursuant to section 275.125. That portion of the amount so distributed to a school district which is not deducted from state aids in section 124.212, subdivision 8a, shall be included in computing the permissible levies under section 275.125. For purposes of distributions pursuant to this part, permitted levies for the prior year computed pursuant to section 275.125 shall not include the amount of any increased levy

authorized by referendum pursuant to section 275.125, subdivision 2a, clause (4).

(c) There shall be distributed to any school district the amount which the school district was entitled to receive under section 298.32 in 1975.

(4) 19.5 cents per taxable ton to counties to be distributed as follows:

(a) 15.5 cents per taxable ton shall be distributed to the county in which the taconite is mined or quarried or in which the concentrate is produced, less any amount which is to be distributed pursuant to part (b). The commissioner shall follow the apportionment formula prescribed in clause (1).

(b) If an electric power plant owned by and providing the primary source of power for a taxpayer mining and concentrating taconite is located in a county other than the county in which the mining and the concentrating processes are conducted, one cent per taxable ton of the tax distributed to the counties pursuant to part (a) and imposed on and collected from such taxpayer shall be distributed by the commissioner of revenue to the county in which the power plant is located.

(c) 4 cents per taxable ton shall be paid to the county from which the taconite was mined, quarried or concentrated to be deposited in the county road and bridge fund. If the mining, quarrying and concentrating, or separate steps in any of those processes are carried on in more than one county, the commissioner shall follow the apportionment formula prescribed in clause (1).

(5) (a) 25.75 cents per taxable ton, less any amount required to be distributed under part (b), to the taconite property tax relief account in the apportionment fund in the state treasury, to be distributed as provided in sections 273.134 to 273.136.

(b) If an electric power plant owned by and providing the primary source of power for a taxpayer mining and concentrating taconite is located in a county other than the county in which the mining and the concentrating processes are conducted, .75 cent per taxable ton of the tax imposed and collected from such taxpayer shall be distributed by the commissioner of revenue to the county and school district in which the power plant is located as follows: 25 percent to the county and 75 percent to the school district.

(6) 1 cent per taxable ton to the state.

(7) 3 cents per taxable ton shall be deposited in the state treasury to the credit of the iron range resources and rehabilitation board account in the special revenue fund for the purposes of section 298.22. Of this amount, one cent per taxable ton is to be used to provide environmental development grants to local governments located within any county in region 3 as defined in governor's executive order number 60 issued on June 12, 1970,

which does not contain a municipality qualifying pursuant to section 273.134.

(8) .20 cent per taxable ton shall be paid in 1979 and each year thereafter, to the range association of municipalities and schools, for the purpose of providing an area wide approach to problems which demand coordinated and cooperative actions and which are common to those areas of northeast Minnesota affected by operations involved in mining iron ore and taconite and producing concentrate therefrom, and for the purpose of promoting the general welfare and economic development of the cities, towns and school districts within the iron range area of northeast Minnesota.

~~(8)~~ (9) the amounts determined under clauses (4) (a), (4) (c), and (5) shall be increased in 1979 and subsequent years in the same proportion as the increase in the steel mill products index as provided in section 298.24, subdivision 1.

~~(9)~~ (10) the proceeds of the tax imposed by section 298.24 which remain after the distributions in clauses (1) to ~~(8)~~ (9) and parts (a), (b), (c), and (d) of this clause have been made shall be divided between the taconite environmental protection fund created in section 298.223 and the northeast Minnesota economic protection fund created in section 298.292 as follows: In 1978, 1979, 1980, 1981, and 1982, two-thirds to the taconite environmental protection fund and one-third to the northeast Minnesota economic protection fund; in 1983 and thereafter, one-half to each fund. The proceeds shall be placed in the respective special accounts in the general fund.

(a) In 1978 and each year thereafter, there shall be distributed to each city, town, school district, and county the amount that they received under section 294.26 in calendar year 1977.

(b) In 1978 and each year thereafter, there shall be distributed to the iron range resources and rehabilitation board the amounts it received in 1977 under section 298.22.

(c) In 1978 and each year thereafter, \$50,000 shall be distributed to the department of revenue for auditing and enforcing the production tax imposed by Laws 1977, Chapter 423, Article 10.

(d) In 1978 and 1979, \$150,000 shall be distributed to the department of revenue for the purpose of administering section 298.48. In 1980 and each year thereafter, \$100,000 shall be distributed to the department of revenue. On or before October 10 of each calendar year each producer of taconite or iron sulphides subject to taxation under section 298.24 (hereinafter called "taxpayer") shall file with the commissioner of revenue and with the county auditor of each county in which such taxpayer operates, and with the chief clerical officer of each school district, city or town which is entitled to participate in the distribution of the tax, an estimate of the amount of tax which would be payable by such taxpayer under said law for such calendar year; provided such estimate shall be in an amount not less than the

amount due on the mining and production of concentrates up to September 30 of said year plus the amount becoming due because of probable production between September 30 and December 31 of said year, less any credit allowable as herein-after provided. Such estimate shall list the taxing districts entitled to participate in the distribution of such tax, and the amount of the estimated tax which would be distributable to each such district in the next ensuing calendar year on the basis of the last percentage distribution certified by the commissioner of revenue. If there be no such prior certification, the taxpayer shall set forth its estimate of the proper distribution of such tax under the law, which estimate may be corrected by the commissioner if he deems it improper, notice of such correction being given by him to the taxpayer and the public officers receiving such estimate. The officers with whom such report is so filed shall use the amount so indicated as being distributable to each taxing district in computing the permissible tax levy of such county, city or school district in the year in which such estimate is made, and payable in the next ensuing calendar year, except that in 1978 and 1979 two cents per taxable ton, and in 1980 and thereafter, one cent per taxable ton of the amount distributed under clause (4) (c) shall not be deducted in calculating the permissible levy. Such taxpayer shall then pay, at the times payments are required to be made pursuant to section 298.27, as the amount of tax payable under section 298.24, the greater of (a) the amount shown by such estimate, or (b) the amount due under said section as finally determined by the commissioner of revenue pursuant to law. If, as a result of the payment of the amount of such estimate, the taxpayer has paid in any calendar year an amount of tax in excess of the amount due in such year under section 298.24, after application of credits for any excess payments made in previous years, all as determined by the commissioner of revenue, the taxpayer shall be given credit for such excess amount against any taxes which, under said section, may become due from the taxpayer in subsequent years. In any calendar year in which a general property tax levy subject to sections 275.125 or 275.50 to 275.59 has been made, if the taxes distributable to any such county, city or school district are greater than the amount estimated to be paid to any such county, city or school district in such year, the excess of such distribution shall be held in a special fund by the county, city or school district and shall not be expended until the succeeding calendar year, and shall be included in computing the permissible levies under sections 275.125 or 275.50 to 275.59, of such county, city or school district payable in such year. If the amounts distributable to any such county, city or school district, after final determination by the commissioner of revenue under this section are less than the amounts indicated by such estimates, such county, city or school district may issue certificates of indebtedness in the amount of the shortage, and may include in its next tax levy, in excess of the limitations of sections 275.125 or 275.50 to 275.59 an amount sufficient to pay such certificates of indebtedness and interest thereon, or, if no certificates were issued, an amount equal to such shortage.

There is hereby annually appropriated to such taxing districts as are stated herein, to the taconite property tax relief account and to the taconite municipal aid account in the apportionment fund in the state treasury, to the department of revenue, to the iron range resources and rehabilitation board, to the range association of municipalities and schools, to the taconite environmental protection fund, and to the northeast Minnesota economic protection fund, from any fund or account in the state treasury to which the money was credited, an amount sufficient to make the payment or transfer. The payment of the amount appropriated to such taxing districts shall be made by the commissioner of revenue on or before May 15 annually.

Sec. 4. Minnesota Statutes, 1977 Supplement, Section 298.293, is amended to read:

298.293 [DECLARATION OF EMERGENCY; EXPENDING FUNDS.] The funds provided by section 298.28, subdivision 1, clause (9), relating to the northeast Minnesota economic protection fund shall not be expended prior to (a) a declaration by the governor to the effect that the economic situation of northeast Minnesota requires remedial action by the legislature as a result of a decline in mineral-related activities, and (b) an appropriation of the funds by the legislature. The governor shall recommend to the legislature those measures that he believes will be appropriate in order to accomplish the purpose of his declaration. The funds provided by this fund may be spent only in those areas that are tax relief areas as defined in section 273.134. The funds provided by section 298.28, subdivision 1, clause (9), for this fund shall not be expended for this purpose prior to January 1, 2002. *If during any year the taconite property tax account under sections 273.134 to 273.136 does not contain sufficient funds to pay the property tax relief specified in Laws 1977, Chapter 423, Article X, Section 4, there is appropriated from this fund to the relief account sufficient funds to pay the relief specified in Laws 1977, Chapter 423, Article X, Section 4.*

Sec. 5. [EFFECTIVE DATE.] *Section 1 is effective for taxable years beginning after December 31, 1973. Section 2 is effective for claims based on rent paid in 1979 and subsequent years and property taxes payable in 1980 and subsequent years. Section 3 is effective July 1, 1978. Section 4 is effective for property taxes payable in 1979 and subsequent years.*

March 22, 1978

The Honorable Martin O. Sabo
Speaker of the House of Representatives

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 2137, report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and H. F. No. 2137 be amended as follows:

Strike everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 1976, Section 105.42, Subdivision 2, is amended to read:

Subd. 2. Nothing in this section shall prevent the owner of any dam, reservoir, control structure, or waterway obstruction from instituting repairs which are immediately necessary in case of emergency. However, the owner shall notify the commissioner at once of the emergency and of the emergency repairs being instituted and, as soon as practicable, shall apply for a permit for the emergency repairs and any necessary permanent repairs. Nothing in this section shall apply to routine maintenance, not affecting the safety of the structures.

In case of an emergency where the commissioner declares that repairs or remedial action is immediately necessary to safeguard

life and property, the repairs, *remedial action*, or both, shall be started immediately by the owner.

Sec. 2. Minnesota Statutes 1976, Section 105.482, Subdivision 2, is amended to read:

Subd. 2. [DEFINITION.] For the purposes of this section, the term "local governmental unit" means a county or city any political subdivision of the state, or any two or more of these units subdivisions acting jointly.

Sec. 3. Minnesota Statutes 1976, Section 105.482, is amended by adding a subdivision to read:

Subd. 7. *On the basis of his examinations of dams owned by the state or local governmental units, the commissioner shall report annually to the legislature those state or local governmental dams in need of repair or reconstruction in the order of priority he determines necessary considering danger to life, damage to property and those factors listed in subdivision 4.*

Sec. 4. Minnesota Statutes 1976, Section 105.52, is amended to read:

105.52 [EXAMINATION AND REPAIR OF DAMS AND RESERVOIRS.] Upon complaint or upon his own initiative, the commissioner is authorized to examine any reservoir, dam, control structure, or waterway obstruction. *In so doing the commissioner or his authorized agent shall be granted access at any reasonable time to examine the reservoir, dam, control structure, or waterway obstruction.* If the commissioner determines that additional engineering investigations are necessary in order to determine the safety of the dam, reservoir, control structure, or waterway obstruction and the nature and extent of the necessary repairs or alterations, he shall notify the owner thereof to cause such investigations to be made at the owner's expense and filed with the commissioner for his use in determining the condition of the structures and the need for the repair, alteration or removal thereof. If the commissioner determines that such reservoir, dam, control structure, or waterway obstruction is unsafe or needs repair or alteration, he shall notify the owner thereof to repair, alter, or remove the same as the exigencies of the case may require, and shall issue an order to that effect in the same manner and subject to the same conditions as if the owner had made application for permit for the said repairs, alterations, or removal. The engineering investigations or the work of repair, alteration, or removal shall be commenced and completed within such reasonable time as may be prescribed by the commissioner.

Sec. 5. Minnesota Statutes 1976, Chapter 105, is amended by adding a section to read:

[105.521] [DAM EXAMINATION REPORTS; LIMITATIONS ON TRANSFERS OF DAMS.] *No state department or agency and no county, city, town, or other governmental entity may purchase or accept as a gift any privately owned dam subject to permit requirements until after (1) the commissioner has examined the dam, (2) the commissioner has prepared a report*

of his examination and filed it with the legislature, and (3) the legislature has had an opportunity to consider the report and has not prohibited the purchase or gift during the legislative session in which the report is filed, or, if the report is filed when the legislature is not in session, the legislature has not prohibited the gift or purchase at the next succeeding session.

Sec. 6. Minnesota Statutes 1976, Section 105.53, is amended to read:

We, the undersigned conferees for H. F. No. 1914, report that we have agreed upon the items in dispute and recommend as follows:

The library shall be for the use of the judges of the district and county courts, all county and municipal officials, the members of the bar and the inhabitants of the county.

Sec. 2. [MANAGEMENT.] The management of the library if the fee system authorized by section 1 is adopted shall be as provided in sections 1 to 7 and shall be under a board of three law library trustees, the members of which board shall serve without compensation and shall be appointed by the judges of the district and county courts in the county. The board shall first meet immediately after its appointment and shall hold its annual meeting thereafter on a day to be designated by the judges of the district and county courts in the county as the date of the annual meeting in each year, at which first meeting and at each annual meeting thereafter it shall select from its members a president and a secretary, who shall each hold his office until the following annual meeting. When the board is first appointed there shall be appointed one trustee whose term shall extend until the first annual meeting, one trustee whose term shall extend until the second annual meeting, and one trustee whose term shall extend until the third annual meeting of the board after such appointment. Immediately prior to each annual meeting there shall be appointed a trustee whose term shall commence at the annual meeting and extend until the third annual meeting after the annual meeting he takes his office. Vacancies in office shall be filled for the unexpired term.

Sec. 3. It may

accept on behalf of the county a gift, grant, devise or bequest, or the loan of books or other property for the use or purposes of the library, and carry out the conditions of the donation or loan. It may purchase books or other library facilities upon conditional sales contract, or otherwise, the purchase price therefor to be paid out of the county law library fund. The title to the library and the property thereof, except the books and property as shall be leased or loaned to it, shall vest and be in the county establishing the library. The board of trustees may sell or exchange items of the property of the library which it deems no longer suitable or advantageous for the purposes of the library, upon terms as it may deem best. It shall, before the second Monday of January of each year, file with the county auditor a report containing a detailed statement of the receipts and disbursements for the preceding year and a detailed inventory of the property belonging to the library and the property loaned or leased to it. The county board shall provide suitable rooms in the court house for the use of the library.
