If a person has service in more than one public pension plan, all years or portions of years of covered service shall be included in computing the cumulative maximum of 40 years of covered service. For any period of time during which a person simultaneously has a year or a fraction of a year of covered service in more than

one public pension plan, the years of covered service in each applicable public pension plan shall be included in computing the cumulative maximum of 40 years of covered service unless the simultaneous covered service is the result of two part time employments, in which case each applicable public pension plan shall split each year of covered service on a pro rata basis. If the simultaneous covered service is the result of primary and principal pension plan coverage and supplemental pension plan coverage based on the same employment and contributed to by the same public employer, then a year of service credited in each shall be considered together as a single year of covered service in computing the cumulative maximum.

Subd. 3. [EXCEPTION TO MAXIMUM.] For any person who, as of the effective date of this section, has covered service in a public pension plan in excess of a cumulative total of 40 years, the provisions of subdivision 2 shall apply to any additional years of covered service occurring after the effective date of this section.

The study and report shall consist of an examination of the salary histories of a random sampling of persons from the various departments, divisions and agencies of state government who have retired in the period January 1, 1975 to December 31, 1977, contrasting variations in the compensation paid during the final five years of service with the compensation paid during the preceding ten years of employment. The examination shall attempt to isolate the effect of any overtime compensation and other extraordinary payments. The persons utilized in the random sample shall not be identified in the report or any materials for public release. The Minnesota state retirement system shall furnish information requested by the commissioner of personnel in connection with this study.*

Sec. 13. *Minnesota Statutes 1976, Section 356.34, as amended by Laws 1977, Chapter 429, Section 49, is repealed.*

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 1191, report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and that H. F. No. 1191 be amended as follows:

Strike everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.71] [CITATION.] *Sections 1 to 15 may be cited as the Minnesota tax increment financing act.*

Sec. 2. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.72] *Subdivision 1. [DEFINITIONS.] For the purposes of sections 1 to 15, the terms defined in this section shall have the meanings given them.*

Subd. 2. [AUTHORITY.] "Authority" means a housing and redevelopment authority created pursuant to chapter 462; a port authority created pursuant to chapter 458; a redevelopment agency as defined by chapter 474; a rural development finance authority established pursuant to chapter 362A; or a municipality which has formed or is administering a development district created pursuant to chapter 472A or any special law, which undertakes a

project pursuant to chapter 474 or which exercises the powers of a port authority pursuant to any general or special law.

Subd. 3. [BONDS.] "Bonds" means any bonds, including but not limited to refunding bonds, notes, interim certificates, debentures, or other obligations issued by an authority under sections 11 to 13 after the effective date of this act.

Subd. 4. [MUNICIPALITY.] "Municipality" means any statutory or home rule charter city, and, with respect to a project undertaken pursuant to chapter 474, "municipality" has the meaning given in chapter 474. In the case of a rural development finance authority established pursuant to chapter 362A, "municipality" means a county.

Subd. 5. [GOVERNING BODY.] "Governing body" means the duly elected council or board of a municipality.

Subd. 6. [ORIGINAL ASSESSED VALUE.] "Original assessed value" means the assessed value of all taxable real property within a tax increment district as most recently determined as of the date of request by the authority for certification by the county auditor pursuant to section 7, subdivision 1. The value of property which is exempt from taxation at the time of the request shall be zero.

Subd. 7. [CAPTURED ASSESSED VALUE.] "Captured assessed value" means any amount by which the current assessed value of a tax increment district exceeds the original assessed value.

Subd. 8. [TAX INCREMENT PROJECT.] "Tax increment project" is a redevelopment project as defined in subdivision 10; an economic development project as defined in subdivision 12, or a housing project as defined in subdivision 11 which is located within a tax increment district.

Subd. 9. [PUBLIC IMPROVEMENT DISTRICT.] "Public improvement district" means an area in which there exist substandard conditions of land or structures, unsafe and unsanitary housing and buildings and structures used or intended to be used for living, commercial, industrial or other purposes or any combination of those uses which, by reason of sociological and technological changes, dilapidation, obsolescence, overcrowding and faulty arrangement or design of building and improvements, lack of public facilities, ventilation, light and sanitary facilities, excessive land coverage, deleterious land use, or obsolete layout, or any combination of these and other factors which inflict blight upon the economic value of large areas, impair the value of private investments, threaten the source of public revenues while decentralizing communities to areas improperly planned and not related to public facilities, and require many persons of low income to occupy unsafe, unsanitary, and overcrowded dwellings.

Subd. 10. [REDEVELOPMENT PROJECT.] "Redevelopment project" means a project which is located in a public improvement district within which:

(i) The city council finds by resolution that one of the following conditions, reasonably distributed throughout the project area, exists:

(a) More than 50 percent of the buildings, not including out-buildings, are structurally substandard to a degree requiring substantial renovation or clearance. "Structurally substandard" shall mean containing defects in structural elements or a combination of deficiencies in essential utilities and facilities, light and ventilation, fire protection including adequate egress, layout and condition of interior partitions, or similar factors, which defects or deficiencies are of sufficient total significance to justify substantial renovation or clearance; or

(b) 20 percent of the buildings are structurally substandard as defined in clause (a) and an additional 30 percent of the buildings are found to require substantial renovation or clearance in order to remove such existing conditions as: inadequate street layout, incompatible uses or land use relationships, overcrowding of buildings on the land, excessive dwelling unit density, obsolete buildings not suitable for improvement or conversion, or other identified hazards to the health, safety and general well being of the community; or

(c) parcels of land not predominantly occupied by buildings, streets, utilities or other improvements, but only when 80 percent of the total acreage of the vacant parcels has a fair market value upon inclusion in the project which, when added to the estimated cost of preparing the parcel for use exceeds its anticipated fair market value after completion of the site preparation; or

(ii) The project is located entirely within an area in which the total market value of taxable real property in the area has declined, or increased less than one percent in the three years immediately preceding approval of the project.

Subd. 11. [HOUSING PROJECT.] "Housing project" means a project, or that part of a project, intended for occupancy primarily by persons or families of low and moderate income, as defined in chapter 462A, Title II of the National Housing Act of 1934, the National Housing Act of 1959, the United States Housing Act of 1937, as amended, Title V of the Housing Act of 1949, as amended, or the regulations promulgated under any of those acts. Residential construction which does not provide housing intended for occupancy primarily by persons or families of low and moderate income may be included in redevelopment or economic development projects.

Subd. 12. [ECONOMIC DEVELOPMENT PROJECT.] "Economic development project" means any project not meeting the requirements found in the definition of "redevelopment project" or "housing project".

Subd. 13. [ADMINISTRATIVE EXPENSES.] "Administrative expenses" means all expenditures of an authority other than amounts paid for the purchase of land or amounts paid to contractors or others providing materials and services, including architectural and engineering services directly connected with the physical development of the real property in the project, relocation benefits

paid to persons residing or businesses located in the project area, or amounts used to pay interest on, fund a reserve for, or sell at a discount bonds issued pursuant to sections 1 to 15.

Subd. 14. [TAX INCREMENT DISTRICT.] *“Tax increment district” means a geographic area from which tax increments are derived to finance one or more tax increment projects. A tax increment district may include noncontiguous parcels.*

Sec. 3. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.73] [ESTABLISHMENT OF PUBLIC IMPROVEMENT DISTRICT.] *Subdivision 1. [FINDINGS.] The governing body of a municipality may by resolution designate an area within its boundaries to be a public improvement district if it finds that blighting conditions, as described in section 1, subdivision 9, exist throughout the area. Detailed, specific written findings of those conditions shall be made and adopted.*

Subd. 2. [PLAN FOR PUBLIC IMPROVEMENT DISTRICT PROGRAM; CONTENTS.] *When designating an area to be a public improvement district, the governing body shall propose a plan for the area. The public improvement district plan shall contain a detailed statement of the objectives of the municipality for improvement of the public improvement district. The plan shall include a description of proposed public facilities and open space to be created and the proposed use of the property within the district. It shall contain estimates of the following: cost of any private and public projects; sources of revenue to finance these costs including estimates of tax increments for any tax increment projects; amount of bonded indebtedness to be incurred; and the duration of any tax increment projects.*

Subd. 3. [OPPORTUNITY FOR PRIVATE ENTERPRISE.] *The plan for the public improvement district shall afford maximum opportunity for participation by private enterprise.*

Subd. 4. [PUBLIC HEARING.] *Before approving a public improvement district plan, the governing body shall hold a public hearing on the plan. Notice of the hearing shall be published in a newspaper of general circulation in the municipality at least once not less than ten days nor more than 30 days prior to the date of hearing. The authority shall make the plan available to the public at least 15 days prior to the date of the public hearing.*

Subd. 5. [PLANNING AGENCY APPROVAL.] *The governing body of the municipality shall furnish the planning agency or commission of the municipality with a copy of the public improvement district plan. No plan may be adopted by the municipality until the planning agency or commission has reviewed the tax increment financing plan and commented as to its conformance with the general plan for the development of the municipality or 60 days have passed from the date of submission of the plan to the agency or commission.*

Sec. 4. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.74] [INTERVAL BEFORE REDEVELOPMENT ACTIVITY.] *Planning and preliminary procedures relating to the development of a tax increment financing plan pursuant to section 5 may be carried on during the time when the procedure described in section 3 is being conducted; provided that no tax increment financing project may be approved within a public improvement district until at least 90 days have passed from the date of final approval of a public improvement plan by the governing body of a municipality pursuant to section 3.*

Sec. 5. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.75] [APPROVAL OF USE OF TAX INCREMENT FINANCING.] *Subdivision 1. [APPROVAL BY GOVERNING BODY.] No county auditor shall certify the value of a tax increment district until the tax increment financing plan proposed for that district has been approved by the governing body of the municipality in which the project is proposed to be located. If an authority which proposes to establish a tax increment project and the governing body of the municipality are not the same, the authority shall apply to the governing body of the municipality in which the project would be located and shall obtain the approval of its tax increment financing plan by the governing body before the authority may use tax increment financing.*

Subd. 2. [TAX INCREMENT FINANCING PLAN.] In the application, the authority shall furnish the governing body with its plan for the use of tax increment financing. The tax increment financing plan submitted to the governing body for its approval shall include findings made by the authority that the use of tax increment financing in the proposed tax increment district is necessary because of the lack of private investment activity in the area. If the project is proposed to be located in a public improvement district, the plan shall include a finding that the tax increment financing plan conforms to the public improvement district plan of the municipality. The specific factual bases for these findings shall be set forth. The plan shall also contain the following information: a statement by the authority of the objectives of the project; the development program for the project; estimates of the following: cost of the project, including administrative expenses; amount of bonded indebtedness to be incurred; sources of revenue to finance project costs; the original assessed value of property in the project; and the projected captured assessed value of the project at the time of its completion. If the authority proposes to use only a portion of the captured assessed value of a district for tax increment financing purposes, the plan shall state what portion is proposed to be used.

Subd. 3. [PUBLIC HEARING.] Before approving a tax increment financing plan the governing body shall hold a public hearing on the plan. Notice of the hearing shall be published in a newspaper of general circulation in the municipality at least twice no less than ten days nor more than 30 days prior to the date of the hearing. The authority shall make the plan available to the public at least 30 days prior to the date of the public hearing.

Subd. 4. [NOTICE TO LOCAL BOARDS; STATE PLANNING AGENCY.] *At least thirty days prior to the date of the public hearing held pursuant to subdivision 3, the school board and board of county commissioners of the school district and county within which the tax increment project is proposed to be located, the state planning agency, and, if the proposed project is located in the metropolitan area defined in section 473.121, subdivision 2, the metropolitan council, shall be furnished with copies of the tax increment financing plan. A representative of the state planning agency may comment and a representative of each other board and agency receiving the plan shall comment on the plan at the public hearing. Absence of comment shall not prevent approval of a plan nor invalidate bonds issued to finance its execution.*

Subd. 5. [APPROVAL BY GOVERNING BODY.] *No bonds shall be issued to finance a tax increment project unless the authority has concluded an agreement or agreements with one or more developers which provide for the execution of the project plan covering in the case of a housing or economic development project, 85 percent or in the case of a redevelopment project, 75 percent of the area of the proposed project and which provide recourse for the authority against the developer should the execution of the project plan fail because of the default of the developer. A copy of the agreement shall be submitted to and approved by the governing body. No plan shall be approved unless the governing body finds that the proposed project will not contribute to urban sprawl. Any proposal to use tax increment financing in relation to any previously unincorporated real property annexed by the municipality pursuant to chapter 414 within three years prior to the date of the application shall be deemed to contribute to urban sprawl. If the authority and the governing body of the municipality are not the same, the governing body shall within 90 days after submission of the application or resubmission as provided herein, give written notice to the authority of its decision with respect to the tax increment financing plan. If approval is not given within 90 days the application shall be deemed to have been rejected. A plan which has not been approved by the governing body when submitted to it may be again submitted to it with such modifications as are necessary to meet its objections.*

Subd. 6. [MODIFICATION OF PLAN.] *Any tax increment financing plan may be modified by an authority. Any enlargement of geographic area, increase in amount of bonded indebtedness to be incurred, increase in the portion of the captured assessed value to be retained by the authority or use of revenues derived from any district in the municipality, if not included in the original tax increment financing plan, shall be approved by the governing body of the municipality upon notice and after public hearing as are required pursuant to the provisions of subdivision 3.*

The original assessed value of any taxable real property added to a tax increment project pursuant to this subdivision shall be the assessed value of that real property as most recently determined prior to the modification of the financing plan which added the property.

If property which is added to a project pursuant to this subdivision is exempt from taxation at the time of its addition to the project, the value of the parcel shall be added to the base at zero.

Subd. 7. [ELIMINATION OF TAX-EXEMPT PROPERTY.] *If, at any time after certification of the original assessed value of a tax increment district pursuant to section 7, a parcel located within the district is acquired by an owner who pays gross earnings tax in lieu of property tax, so that the parcel becomes exempt from property taxation, an authority may eliminate that parcel from the district. Upon application of the authority, the county auditor shall reduce the original assessed value of the district by the amount of the value of that parcel at the time of certification of the district.*

Sec. 6. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.76] [LIMITATION ON INCREMENTS.] *If, after five years from the date of certification of the value of the tax increment district pursuant to section 7, no demolition, rehabilitation or renovation of property or other site preparation, including improvement of a street adjacent to a parcel in the district but not installation of utility service property has been commenced on a parcel located within a project by the authority or by the owner of the property in accordance with the tax increment financing plan, no additional tax increments may be taken from that parcel, and the original assessed value of that parcel shall be excluded from the certified value of the tax increment district. If the authority subsequently commences demolition, rehabilitation or renovation or other site preparation on that parcel in accordance with the tax increment financing plan, the authority shall certify to the county auditor that the activity has commenced, and the parcel may be added into the tax increment district. The county auditor shall certify the most recently assessed value of that parcel and add it to the original assessed value of the tax increment district.*

Sec. 7. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.77.] [COMPUTATION OF TAX INCREMENT.] *Subdivision 1. [ORIGINAL ASSESSED VALUE.] After a tax increment financing plan has been approved by the governing body the auditor of the county in which the district is situated shall, upon request of the authority, certify the original assessed value of the tax increment district as described in the tax increment financing plan. The county auditor shall have the power to specify the form and content of the request for certification of the authority and any modification thereof pursuant to section 5, subdivision 6.*

Subd. 2. [RELATIONSHIP OF CERTAIN DISTRICTS TO CHAPTER 473F.] *For purposes of the computations required by this section for any tax increment district, the original assessed value shall not include any portion thereof which is subject to the area wide tax imposed by section 473F.08, subdivision 6, in the levy and assessment of taxes in the year the project is certified or*

thereafter. For purposes of the computations required by this section for tax increment districts created for the purpose of financing economic development or redevelopment, the current assessed value shall not include the portion thereof which is subject to the area wide tax imposed by section 473F.08, subdivision 6, but shall not otherwise be reduced by the amount of the contribution of the municipality to the area wide tax base pursuant to section 473F.08, subdivision 2 (a). As provided in chapter 473F, that portion of the valuation of property in a tax increment district which is residential property shall be exempt from the requirements of chapter 473F. This subdivision shall apply to taxes payable in 1979 and thereafter for all development districts created pursuant to Minnesota Statutes, Chapter 472A, or any special law, whether approved before or after the effective date of sections 1 to 15.

Subd. 3. [CAPTURED ASSESSED VALUE.] The county auditor shall certify the amount of the captured assessed value to the authority each year. If the plan provides that all the captured assessed value is necessary to finance or otherwise make permissible expenditures under section 9, subdivision 3, the authority may retain the full captured assessed value. If the plan provides that only a portion of the captured assessed value is necessary to finance or otherwise make those expenditures, only that portion should be set aside and the remainder shall be distributed among the affected taxing districts by the county auditor.

Subd. 4. [TAX INCREMENTS.] (a) In each subsequent year, the county auditor shall compute assessed valuation, mill rates and tax increments according to the following method:

(1) If the authority retains the full captured assessed value, the county auditor shall include no more than the original assessed value in the tax increment district for purposes of determining assessed value for local mill rates. The county auditor shall compute the mill rates of all taxes levied by the state, the county, the municipality or town, the school district and every other taxing district in which the project is located in whole or in part on that assessed value. The county auditor shall extend all mill rates against the current assessed value, including the captured assessed value. In each year for which the current assessed value exceeds the original assessed value, the county treasurer shall remit to the authority that proportion of all taxes paid that year on real property in the district which the captured assessed value bears to the total current assessed value. The amount so remitted each year is referred to in this section as the tax increment for that year.

(2) If the authority retains only a portion of the captured assessed value for its use and returns the remaining portion to the tax rolls of all affected taxing districts, the county auditor shall include the original assessed value and that portion of the captured assessed value which is shared with all the affected taxing districts in determining the assessed value for computing mill rates. He shall compute the mill rates of all taxes levied by the state, county, municipality, school district, and every other taxing

district in which the project is located in whole or in part on that assessed value. He shall extend all mill rates against the total current assessed value including that portion of the captured assessed value which the authority is retaining for its use only. In each year for which the current assessed value exceeds the original assessed value, the county treasurer shall remit to the authority that proportion of all taxes paid on real property in the district that the retained captured assessed value bears to the total current assessed value in the district. The amount so remitted each year is referred to as the tax increment.

(b) In any year in which the current assessed value of the tax increment district is less than the original assessed value, the county auditor shall compute and extend taxes against the current assessed value. Taxes shall be distributed from the affected property to each of the taxing jurisdictions as determined by the current levy and there shall be no tax increment.

Sec. 8. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.78] [LIMITATION ON TAX INCREMENT DISTRICTS.] *Subdivision 1. [PERCENTAGE OF VALUE.] No tax increment districts may be certified in a municipality by the county auditor if the sum of (1) the total captured assessed value of taxable real property in all tax increment projects or districts within the municipality, plus (2) the estimated captured assessed valuation of the proposed project at completion of construction as stated in the tax increment financing plan, plus (3) the unrealized estimated captured assessed valuation of all other previously approved tax increment projects or districts at completion of construction according to the tax increment financing plan, or in the case of projects or districts which were approved prior to the effective date of sections 1 to 15, pursuant to law which did not at the time of approval require adoption of a tax increment financing plan, the unrealized estimated captured assessed valuation, upon completion of all improvements which have been approved by the authority within the project or district at the time when the new project is proposed, exceeds the percent of the total assessed value of taxable real property in the municipality, as most recently determined by the county auditor specified herein: if the total assessed value is \$750,000,000 or more, seven percent; if the total assessed value is more than \$199,999,999, and less than \$750,000,000, seven and one half percent; if more than \$24,999,999 but less than \$200,000,000, ten percent; if more than \$7,499,999 but less than \$25,000,000, twelve percent; and if less than \$7,500,000, fifteen percent.*

Subd. 2. [DURATION OF TAX INCREMENT DISTRICTS.] Any pledge of revenues, including tax increments, to the payment of bonds and interest thereon may be discharged and the tax increment district may be terminated if sufficient funds have been irrevocably deposited in the debt service fund or other escrow account held in trust for all outstanding bonds to provide for the payment

of the bonds at maturity or date of redemption and interest thereon to such maturity or redemption date, provided that for bonds issued pursuant to sections 11 or 12 the full faith and credit and any taxing powers of the municipality or authority, as the case may be, shall continue to be pledged to the payment of the bonds until the principal of and interest on the bonds has been paid in full.

Sec. 9. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.79] [TAX INCREMENT PROCEEDS.] *Subdivision 1. [ACCOUNTS.] The proceeds of tax increments received with respect to any project shall be segregated by the authority receiving them in a special account or accounts on its official books and records or otherwise established by resolution of the authority to be held by a trustee for the benefit of holders of the bonds.*

Subd. 2. [EXCESS INCREMENTS.] In any year in which the tax increments exceed the amount necessary to pay the costs authorized by the tax increment financing plan, including the amount necessary to cancel any tax levy as provided in section 475.61, subdivision 3, the authority shall use the excess amount to prepay any outstanding bonds or discharge the pledge of tax increments therefor or shall return the money to the municipality, county and school district in which the tax increment district is located in direct proportion to their respective mill rates.

Subd. 3. [LIMITATION ON USE OF TAX INCREMENTS.] Except in the case of a tax increment project or district for which certification was requested prior to the effective date of sections 1 to 15 pursuant to a law which did not at that date require adoption of a tax increment financing plan, revenues derived from tax increments subsequent to the effective date of sections 1 to 15 shall be used only to pay off bonds or to make any other expenditure authorized by the general or special law under which the authority was created or operates, and only as authorized in the tax increment financing plan.

Subd. 4. [LIMITATION ON ADMINISTRATIVE EXPENSES.] Tax increments shall not be used to pay any administrative expenses which exceed five percent of the total cost of a project which is subject to the provisions of sections 1 to 15.

Subd. 5. [LIMITATION ON DURATION OF INCREMENTS.] Tax increments may be taken from parcels comprising a redevelopment project or a housing project for a period lasting no more than 25 years from the approval of the plan pursuant to section 5, and from parcels comprising an economic development project for a period lasting no more than ten years after receipt of the first increments or twelve years from the approval of the plan pursuant to section 5, whichever is sooner.

Sec. 10. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.80] [RESTRICTION ON FUTURE BOND ISSUES.]

Notwithstanding the provisions of any other law to the contrary, after the effective date of this act, no bonds for payments of which tax increments are pledged shall be issued in connection with any tax increment project or district other than as authorized by sections 11 to 13. The proceeds of any bonds authorized hereby shall be used only in accordance with section 9, subdivision 3, as if the proceeds were tax increments.

Sec. 11. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.81] [MUNICIPAL GENERAL OBLIGATION BONDS.]
Subdivision 1. [ISSUANCE.] A municipality may authorize general obligation bonds to finance any expenditure which the municipality or any other authority the jurisdiction of which is wholly or partially within that municipality is permitted to make pursuant to section 9, subdivision 3. The bonds shall be issued, sold and secured in the same manner and subject only to the same conditions as those provided in chapter 475, for bonds financing improvement costs reimbursable from special assessments.

Subd. 2. [PLEDGE.] Any pledge of tax increments, assessments or other revenues for the payment of the principal of and interest on general obligation bonds issued under this section, except when the authority and the municipality are the same, shall be made by written agreement by and between the authority and the municipality and filed with the county auditor. When the authority and the municipality are the same, the municipality may by covenant pledge tax increments, assessments or other revenues for the payment of the principal of and interest on general obligation bonds issued under this section. The resolution containing the covenant shall be filed with the county auditor. When tax increments, assessments and other revenues are pledged, the estimated collections of the tax increments, assessments and other revenues so pledged may be deducted from the taxes otherwise required to be levied before the issuance of the bonds under section 475.61, subdivision 1, or may be certified annually to reduce or cancel the initial tax levies in accordance with section 475.61, subdivision 1 or 3. The pledge of any revenues, including tax increments, to the payment of bonds and interest may be discharged if sufficient funds have been irrevocably deposited in escrow to provide for payment when due of the bonds and interest. The full faith and credit and taxing powers of the municipality shall continue to be pledged to the payment of any general obligation bonds until the principal of and interest on the bonds have been paid in full.

Sec. 12. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.82] [AUTHORITY GENERAL OBLIGATION BONDS.]
When the authority and the municipality are not the same, an authority may, by resolution, authorize, issue and sell its general obligation bonds to finance any expenditure which that authority is authorized to make by section 9, subdivision 3. The full faith and credit and taxing power of the authority shall be and are hereby

pledged to the payment of the bonds and interest thereon. Any revenues, including tax increments and assessments, derived from a tax increment district, may be pledged to the payment of the bonds and interest thereon. The bonds of the authority shall be authorized by its resolution, shall mature as determined by resolution of the authority in accordance with sections 1 to 15. The bonds may be issued in one or more series and shall bear the date or dates, bear interest at the rate or rates, be in the denomination or denominations, be in the form, either coupon or registered, carry the conversion or registration privileges, have the rank or priority, be executed in the manner, be payable in medium of payment at the place or places, and be subject to the terms of redemption, with or without premium, as the resolution, its trust indenture or mortgage may provide. The bonds may be sold at public or private sale at the price or prices as the authority by resolution shall determine. Notwithstanding any provision of law to the contrary, the bonds shall be fully negotiable. In any suit, action, or proceedings involving the validity or enforceability of any such bonds of the authority or the security therefor, any such bond reciting in substance that it has been issued by the authority to aid in financing a project shall be deemed to have been issued for that purpose, and the project shall be conclusively deemed to have been planned, located, and carried out in accordance with the purposes and provisions of sections 1 to 15.

Subd. 2. [LIABILITY ON BONDS.] Neither the governing body of the authority nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds of the authority, as the bonds shall state on their face, shall not be a debt of any municipality, the state or any political subdivision thereof, and neither the municipality nor the state or any political subdivision thereof shall be liable thereon, nor in any event shall the bonds be payable out of any funds or properties other than those of the authority and any tax increments and revenues of a tax increment district pledged therefor.

Sec. 13. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.83] [REVENUE BONDS.] *Subdivision 1. [ISSUANCE.] An authority may, by resolution, authorize, issue and sell revenue bonds payable solely from all or a portion of revenues, including but not limited to tax increment revenues and assessments, derived from a tax increment district located wholly or partially within the municipality to finance any expenditure which that authority is authorized to make by section 9, subdivision 3, and may pledge the revenues to the payment of the bonds and the interest thereon. The bonds shall mature as determined by resolution of the authority in accordance with the provisions of sections 1 to 15 and may be issued in one or more series and shall bear the date or dates, bear interest at the rate or rates, be in the denomination or denominations, be in the form, either coupon or registered, carry the conversion or registration privileges, have the rank or priority, be executed in the manner, be payable in medium of payment at the place or places, and be subject to the terms of redemption, with or*

without premium, as the resolution, its trust indenture or mortgage may provide. The bonds may be sold at public or private sale at the price or prices as the authority by resolution shall determine. Notwithstanding any provision of law to the contrary, the bonds shall be fully negotiable. In any suit, action, or proceedings involving the validity or enforceability of any such bonds of the authority or the security therefor, any such bond reciting in substance that it has been issued by the authority to aid in financing a project shall be deemed to have been issued for that purpose, and the project shall be deemed to have been planned, located, and carried out in accordance with the purposes and provisions of sections 1 to 15.

Subd. 2. [LIABILITY ON BONDS.] Neither the governing body of the authority nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds may be further secured by a pledge and mortgage of all or any portion of the project in aid of which the bonds are issued and the convenants the authority deems by the resolution to be necessary and proper to secure payment of the bonds. The bonds, as they shall state on their face, shall not be payable from nor charged upon any funds other than the revenues and property pledged or mortgaged to the payment thereof, nor shall the authority issuing the same be subject to any liability thereon or have the powers to obligate itself to pay or to pay the bonds from funds other than the revenues and properties pledged and mortgaged and no holder of the bonds shall ever have the right to compel any exercise of any taxing power of the issuing authority or any other public body, other than as is permitted or required under sections 1 to 16 and pledged therefor hereunder, to pay the principal of or interest on the bonds, nor to enforce payment thereof against any property of the authority or other public body other than that expressly pledged or mortgaged for the payment thereof.

Sec. 14. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

[273.84] [ANNUAL DISCLOSURE.] *For all tax increment districts, whether created prior or subsequent to the effective date of this act, on or before July 1 each year, the authority shall submit to the county board, the school board, the state planning agency and, if the authority is other than the governing body, the governing body of the municipality a report on the status of the district. The report shall include the following information: the amount and the source of revenue in the account, the amount and purpose of expenditures from the account, the amount of principal and interest on any outstanding bonded indebtedness, the original assessed value of the district, the captured assessed value retained by the authority, the captured assessed value shared with other taxing districts, the tax increments received and any additional information necessary to demonstrate compliance with any applicable tax increment financing plan. An annual statement showing the tax increments received and expended in that year, the original assessed value, captured assessed value, amount of outstanding bonded indebtedness, and any additional information the authority deems*

necessary shall be published in a newspaper of general circulation in the municipality.

Sec. 15. Minnesota Statutes 1976, Chapter 273, is amended by adding a section to read:

(a) *As otherwise provided in sections 1 to 15;*

(b) *As an authority may elect to proceed with an existing redevelopment project, industrial development district, project or development district under the provisions of sections 1 to 15; or*

(c) *That any geographic area added to an existing redevelopment project, industrial development district, project or development district as a result of boundary expansion subsequent to the effective date of sections 1 to 15 shall be added in accordance with and be subject to the terms and conditions of sections 1 to 15.*

Sec. 16. Minnesota Statutes 1976, Section 458.192, Subdivision 11, is amended to read:

Subd. 11. Upon or after the creation of an industrial development district under section 458.191 *which is not subject to the provisions of sections 1 to 15*, the auditor of the county in which it is situated shall upon request of the port authority certify the then most recently determined assessed valuation of all or so much of the taxable real property within the district as is identified by legal description in the request, other than that portion of the valuation which is contributed to an area-wide tax base under chapter 473F. The auditor shall certify to the authority in each year thereafter the amounts and percentages of subsequent increases or decreases in such valuation other than that portion of such increases or decreases which is contributed to an area-wide tax base under chapter 473F. The auditor shall compute the mill rates of taxes against such original valuation but shall extend such rates also against any incremental value and remit the resulting tax increment to the port authority in the same manner as that provided for the computation and remittance of tax increments under section 462.585, subdivisions 2 and 3. The port authority shall segregate tax increments received with respect to any such property district in a special account on its official books and records. Such tax increments shall be remitted to the port authority until the cost of redevelopment of the marginal land within the district, including

interest thereon, has been fully reimbursed from the tax increments. When such full reimbursement has been made, it shall be reported by the port authority to the county auditor, who shall thereafter include the entire assessed valuation of the property in the assessed valuations upon which tax mill rates are computed and extended and taxes are remitted to all taxing districts. Any part or all of such tax, if so directed by the city council, shall be pledged and appropriated for the payment of any general obligation bonds of the port authority. Increases in the value of such property, subsequent to certification of the base for computing the tax increment therefrom, shall not be included in the assessed valuation of any taxing district for the purpose of computing any debt or levy limitation or the amount of any state or federal aid to the taxing district, so long as the tax increment therefrom is segregated under the provisions of this section. *The provisions of this subdivision shall not apply with respect to any project, certification of which is requested subsequent to the effective date of the tax increment financing act.*

Sec. 17. Minnesota Statutes 1976, Section 462.545, Subdivision 5, is amended to read:

Subd. 5. [SPECIAL BENEFIT TAX FUND.] In the event the authority shall issue bonds or other obligations to finance a redevelopment project, the authority may, in its discretion, with the consent of the governing body obtained at the time of the approval of the redevelopment plan as required in section 462.521, notify the county treasurer to set aside in a special fund, for the retirement of such bonds and interest thereon, all or part of the real estate tax revenues derived from the real property in the redevelopment area which is in excess of the tax revenue derived therefrom in the tax year immediately preceding the acquisition of such property by the authority, and it shall be the duty of the county treasurer so to do. Such setting aside of funds shall continue until the bonds or other obligations have been retired. *The provisions of this subdivision shall not apply with respect to any property which the governing body has not by resolution designated for inclusion in a project prior to the effective date of this act.*

Sec. 18. Minnesota Statutes 1976, Section 462.585, Subdivision 1, is amended to read:

462.585 [AGREEMENTS RESPECTING TAX INCREMENTS AND EQUIVALENTS; PLEDGE FOR BONDS.] Subdivision 1. [GENERAL.] In connection with any project of an authority located wholly or partly within the corporate limits of any municipality or other state public body, such body may agree with the authority with respect to the payment by the authority of such sums in lieu of taxes for any year or period of years in accordance with the provisions of section 462.575, but for no longer period than the period of tax exemption provided for under that section. In any case where property owned by the authority in a redevelopment project area is leased or otherwise made available by the authority to a private individual, firm, or corporation which previously owned the same or other

property within the area, not for development in connection with the project but for temporary use pending relocation of such former owner's residence or business, the authority may agree to payment of sums in lieu of taxes for any year or period of such temporary use, not exceeding the amount of the annual rentals or other payments it receives for such use, but during such use the property and the authority shall be exempt from all taxes and special assessments as provided in section 462.575, and the provisions of section 272.01, subdivision 2 and of section 273.19 shall not apply to such property or to such use thereof. In connection with any redevelopment project, an authority may make further agreements respecting taxes as provided below *in the case of projects which are not subject to the provisions of sections 1 to 15. The provisions of subdivisions 2 and 3 shall not apply with respect to any project, certification of which is requested subsequent to the effective date of the tax increment financing act.*

Sec. 19. Minnesota Statutes 1976, Section 462.585, Subdivision 4, is amended to read:

Subd. 4. [TAX INCREMENT FINANCING.] The authority may pledge and appropriate any part or all of the tax increments received for any redevelopment project, and any part or all of the revenues received from lands in the project area while owned by the authority, for the payment of the principal of and interest on bonds issued in aid of the project pursuant to sections 462.-551, 462.581, or chapter 474, by the authority or by the governing body of the municipality or other state public body within whose corporate limits the project area is situated. Any such pledge for the payment of bonds issued by the governing body shall be made by written agreement executed on behalf of the authority and the governing body and filed with the county auditor. The estimated collections of the tax increments and any other revenues so pledged may be deducted from the taxes otherwise required to be levied before the issuance of the bonds under section 475.61, subdivision 1, or the collections thereof may be certified annually to reduce or cancel the initial tax levies in accordance with section 475.61, subdivision 3. When such an agreement is made and filed, the bonds may be issued by the governing body in the same manner and subject only to the same conditions as those provided in chapter 475 for bonds financing improvement costs reimbursable from special assessments. *Bond shall not be issued nor tax increments or other revenues pledged pursuant to this subdivision subsequent to the effective date of the tax increment financing act.*

The Honorable Martin O. Sabo

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 1861, report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments, and that H. F. No. 1861 be amended as follows:

Delete everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 1976, Section 3A.01, is amended by adding a subdivision to read:

Subd. 7. [AVERAGE MONTHLY SALARY.] With regard to any member of the legislature whose service terminates prior to the beginning of the 1981 legislative session, "average monthly salary" means final monthly salary during the member's final term of office as a member of the legislature; and with regard to any member of the legislature whose service terminates after the beginning of the 1981 legislative session, "average monthly salary" means the average of the member's highest five successive years of salary received as a member of the legislature after the beginning of the 1981 legislative session, or all salary after the beginning of the 1981 legislative session if less than five years.

Sec. 2. Minnesota Statutes 1976, Section 3A.01, is amended by adding a subdivision to read:

Subd. 8. [NORMAL RETIREMENT AGE.] "Normal retirement age" means the age of 60 years with regard to any member of the legislature whose service terminates prior to the beginning of the 1981 legislative session, and the age of 62 years with regard to any member of the legislature whose service terminates after the beginning of the 1981 session.

Sec. 3. Minnesota Statutes, 1977 Supplement, Section 3A.02, Subdivision 1, is amended to read:

3A.02 [RETIREMENT ALLOWANCE.] Subdivision 1. [QUALIFICATIONS.] Any former legislator:

(1) Who has served at least eight *six full* years, *without regard to the application of section 3A.10, subdivision 2*, or who has served during all or part of four regular sessions as such member of the legislature, which service need not be continuous, but must have been after January 1, 1965 except as hereinafter provided; and

(2) Who attains the *normal retirement age of 60* years ; and

(3) Who has retired as a member of the legislature; and

(4) Who has made all contributions provided for in sections 3A.01 to 3A.10, or who has made payments in lieu of all contributions provided for in sections 3A.01 to 3A.10 as provided for in subdivision 2; shall be entitled upon written application to the director to receive a retirement allowance monthly of 40 percent in an amount equal to five percent per year of service, not to exceed eight years of service, of that member's final average monthly salary during the final term of office as a member of the legislature beginning with the first day of the

month of receipt of such application and for the remainder of his life, provided he is not serving as a member of the legislature or as a constitutional officer or commissioner.

In addition to the amount provided above, the retired member who meets the qualifications of clauses (1), (2), (3) and (4) shall receive for every year of service over eight years a monthly allowance which equals two and one-half percent of the average monthly salary determined pursuant to clause (4).

Notwithstanding clause (4), a member shall receive two and one-half percent of the average monthly salary determined pursuant to clause (4) for each year of service served after the beginning of the 1979 legislative session. *Any member who has served during all or part of four regular sessions shall be deemed to have served eight years as a member of the legislature.*

The retirement allowance shall cease with the last payment which had accrued to the retired legislator during his lifetime except that the surviving spouse, if any, shall be entitled to the retirement allowance for the calendar month in which the retired legislator died.

Effective for service rendered after the beginning of the 1981 legislative session, no member may accrue credit for more than 20 years service, nor shall member contributions thereafter be required for more than 20 years service.

For the purposes of this chapter the term salary shall not be deemed to include any additional payments provided by law for legislative leadership positions.

This subdivision is applicable to members of the legislature who terminate service after January 1, 1973, and to any widow or dependent child of any such member. Clauses (1) and (2) shall also be applicable to any former legislator who applies for a deferred annuity after June 5, 1975. Any former legislator who was in office on or after January 1, 1965, who had at least eight years of service but less than ten years of service as a member of the legislature, and who took a refund of his contributions, may upon application to the director repay to the director for credit to his account all refundments taken plus interest thereon at six percent per annum compounded annually. Upon repayment of the refundment, he shall then be entitled when otherwise qualified to a retirement allowance pursuant to subdivision 1, provided however that the retirement allowance shall be based on his salary at the time of his termination of service as a member of the legislature.

Sec. 4. Minnesota Statutes 1976, Section 3A.02, is amended by adding a subdivision to read:

Subd. 1b. [REDUCED RETIREMENT ALLOWANCE.] Upon separation from service after the beginning of the 1981 legislative session, a former member of the legislature who has attained the age of at least 60 years and who is otherwise qualified in accordance with subdivision 1 is entitled upon making written application on forms supplied by the director to a retirement allowance in an amount equal to the retirement allowance specified in subdivision

1 reduced by one half of one percent for each month that the former member of the legislature is under age 62.

Sec. 5. Minnesota Statutes 1976, Section 3A.02, Subdivision 2, is amended to read:

Subd. 2. [PAYMENT FOR PAST SERVICE.] Any member of the legislature who is a member on July 1, 1965 or thereafter, may, notwithstanding the provisions of subdivision 1, clause (1), receive credit for service rendered as a member of the legislature prior to July 1, 1965, and the pension based thereon provided that he pays to the director for credit to his account an amount equal to ~~eight~~ *nine* percent of all salary received by him for all periods of service rendered by him as a member of the legislature, even if such periods are not continuous and exceed ten years in duration. Such payment may be made at any time after the commencement of any regular session of the legislature of which he is a member.

Sec. 6. Minnesota Statutes 1976, Section 3A.02, Subdivision 4, is amended to read:

Subd. 4. [DEFERRED ANNUITIES AUGMENTATION.] The deferred annuity of any former legislator shall be augmented as provided herein. The required reserves applicable to the deferred annuity, determined as of the date the benefit begins to accrue using an appropriate mortality table and an interest assumption of five percent, shall be augmented by ~~interest at the rate of five percent per annum compounded annually~~ *interest at the rate of five percent per annum compounded annually from the date of first of the month following termination of service, or July 1, 1973, whichever is later, to the first day of the month in which the annuity begins to accrue, at the rate of five percent per annum compounded annually until January 1, 1981, and thereafter at the rate of three percent per annum compounded annually.*

Sec. 7. Minnesota Statutes 1976, Section 3A.03, Subdivision 1, is amended to read:

3A.03 [CONTRIBUTIONS.] Subdivision 1. [PERCENTAGE.] Every member of the legislature shall contribute ~~eight~~ *nine* percent of his total salary, by payroll deduction, to be paid into the state treasury and deposited in the general fund. It shall be the duty of the director to record the periodic contributions of each member of the legislature and credit such contribution to the member's account.

Sec. 8. Minnesota Statutes, 1977 Supplement, Section 3A.04, Subdivision 1, is amended to read:

3A.04 [SURVIVOR BENEFIT.] Subdivision 1. [SURVIVING SPOUSE.] Upon the death of a member of the legislature while serving as such member after June 30, 1973, or upon the death of a former member of the legislature with at least ~~eight~~ *nine* number of years of service as required by section 3A.02, subdivision 1, clause (1), the surviving spouse shall be paid a survivor benefit in the amount of one-half of the retirement allowance of the member of the legislature computed as though the member were at least *normal retirement age 60* on the date of his death

and based upon his allowable service or eight years whichever is greater. The augmentation provided in section 3A.02, subdivision 4, if applicable, shall be applied to the month of death. Upon the death of a former legislator receiving a retirement allowance, the surviving spouse shall be entitled to one-half of the amount of the allowance being paid to the legislator. Such benefit shall be paid during the lifetime of the surviving spouse, but shall cease and terminate upon the remarriage of the surviving spouse.

Sec. 9. Minnesota Statutes, 1977 Supplement, Section 3A.04, Subdivision 2, is amended to read:

Subd. 2. [DEPENDENT CHILDREN.] Upon the death of a member of the legislature while serving as such member after June 30, 1973, or upon the death of a former member of the legislature with at least eight *the number* of years of service as required by section 3A.02, subdivision 1, clause (1), each dependent child of such member shall be paid a survivor benefit in the following amount: First dependent child, a monthly allowance which equals 25 percent of the monthly retirement allowance of the member of the legislature computed as though the member were at least *normal retirement* age 60 on the date of his death and based upon his allowable service or eight years whichever is greater; for each additional dependent child, a monthly allowance which equals 12½ percent of the monthly retirement allowance of the member computed as in the case of the first child; but the total amount paid to the surviving spouse and dependent children shall not exceed in any one month 100 percent of the monthly retirement allowance of the member computed as in the case of the first child. The augmentation provided in section 3A.02, subdivision 4, if applicable, shall be applied to the month of death. Upon the death of a former legislator receiving a retirement allowance, the surviving dependent child shall be entitled to the applicable percentage of the amount of the allowance being paid to the former legislator. The payments for dependent children shall be made to the surviving spouse or the guardian of the estate of the dependent children, if there is one. A posthumous child qualifies as a dependent child for benefits provided herein from the date of its birth.

Sec. 10. Minnesota Statutes 1976, Section 352.72, Subdivision 2, is amended to read:

Subd. 2. [COMPUTATION OF DEFERRED ANNUITY.] The deferred annuity, if any, accruing under subdivision 1, or section 352.22, subdivision 3, shall be computed in the manner provided in section 352.22, subdivision 3, and acts amendatory thereof, on the basis of allowable service prior to termination of state service and augmented as provided herein. The required reserves applicable to a deferred annuity or to an annuity for which a former employee was eligible but had not applied or to any deferred segment of an annuity shall be determined as of the date the benefit begins to accrue and augmented by interest compounded annually from the first day of the month following the

month in which the employee ceased to be a state employee, or July 1, 1971, whichever is later, to the first day of the month in which the annuity begins to accrue. The rates of interest used for this purpose shall be five percent compounded annually *until January 1, 1981, and thereafter three percent compounded annually*. If a person has more than one period of uninterrupted service, the required reserves related to each period shall be augmented by interest pursuant to this subdivision. The sum of the augmented required reserves so determined shall be the present value of the annuity. Uninterrupted service for the purpose of this subdivision shall mean periods of covered employment during which the employee has not been separated from state service for more than two years. If a person repays a refundment, the service restored by such repayment shall be considered as continuous with the next period of service for which the employee has credit with this system. The formula percentages used for each period of uninterrupted service shall be those as would be applicable to a new employee. The mortality table and interest assumption used to compute such annuity shall be those in effect at the time the employee files application for annuity. This section shall not reduce the annuity otherwise payable under this chapter.

Sec. 11. Minnesota Statutes 1976, Section 352B.30, Subdivision 2, is amended to read:

Subd. 2. [COMPUTATION OF DEFERRED ANNUITY.] Deferred annuities shall be computed in the manner provided by this chapter and acts amendatory thereof, on the basis of allowable service prior to termination of service and augmented as provided herein. The required reserves applicable to a deferred annuity shall be augmented by interest compounded annually from the first day of the month following the month in which the member terminated service, or July 1, 1971, whichever is later, to the first day of the month in which the annuity begins to accrue. The rates of interest used for this purpose shall be five percent per annum compounded annually *until January 1, 1981, and thereafter three percent per annum compounded annually*. The mortality table and interest assumption used to compute such annuity shall be those in effect at the time the member files application for annuity.

Sec. 12. Minnesota Statutes 1976, Section 352C.01, is amended to read:

352C.01 [LEGISLATIVE FINDING AND INTENT.] The legislature finds that service to Minnesota in the capacity of a constitutional officer or commissioner as defined in ~~sections 352C.01 to 352C.09~~ *section 13 of this act* constitutes a unique contribution to the state and that such service is dissimilar to any other public employment. The legislature further finds that service as a constitutional officer or commissioner for a period of ~~ten~~ *eight* years or longer deprives the individual so serving of normal opportunities to establish retirement benefits in his usual vocational pursuit and justifies adoption of special retirement provisions. The provisions of ~~sections 352C.01 to 352C.09~~ *this chap-*

ter are intended by the legislature to reflect the unique nature of service as a constitutional officer or commissioner and to have due regard for the unusual disruption of normal retirement planning that such service entails.

Sec. 13. Minnesota Statutes 1976, Chapter 352C, is amended by adding a section to read:

Any disabled person who becomes age 55 after June 30, 1973, shall have his annuity computed in accordance with the law in effect on July 1, 1973 upon attainment of age 55. Prior to reaching age 55, a disabled person may select an optional annuity pursuant to section 353.30, subdivision 3.

Sec. 39. Minnesota Statutes 1976, Section 353.657, Subdivision 1, is amended to read:

353.657 [SURVIVOR BENEFITS.] Subdivision 1. In the event any member of the police and fire fund shall die from any cause, the association shall grant survivor benefits to any dependent surviving spouse who was residing with him at the time of his death and who was married to him for a period of at least one year, and to a dependent child or children, unmarried and under the age of 18 years. The spouse and child or children shall be

entitled to monthly benefits as provided in the following subdivisions.

Sec. 40. Minnesota Statutes 1976, Section 353.71, Subdivision 2, is amended to read:

Subd. 2. [DEFERRED ANNUITY COMPUTATION; AUGMENTATION.] The deferred annuity, if any, accruing under subdivision 1, or sections 353.34, subdivision 3, and 353.68, subdivision 4, shall be computed in the manner provided in said sections, on the basis of allowable service prior to termination of public service and augmented as provided herein. The required reserves applicable to a deferred annuity, or to an annuity for which a former member was eligible but had not applied, or to any deferred segment of an annuity shall be determined as of the date the annuity begins to accrue and shall be augmented by interest at the rate of five percent per annum compounded annually from the first day of the month following the month in which the former member ceased to be a public employee, or July 1, 1971, whichever is later, to the first day of the month in which the annuity begins to accrue, *at the rate of five percent per annum compounded annually until January 1, 1981, and thereafter at the rate of three percent per annum compounded annually*. If a person has more than one period of uninterrupted service, the required reserves related to each period shall be augmented by interest pursuant to this subdivision. The sum of the augmented required reserves so determined shall be the present value of the annuity. Uninterrupted service for the purpose of this subdivision shall mean periods of covered employment during which the employee has not been separated from public service for more than two years. If a person repays a refund, the service restored thereby shall be considered as continuous with the next period of service for which the employee has credit with this association. The formula percentages used for each period of uninterrupted service shall be those as would be applicable to a new employee. This section shall not reduce the annuity otherwise payable under this chapter. This subdivision shall apply to deferred annuitants of record on July 1, 1971 and to employees who thereafter become deferred annuitants; it shall also apply from July 1, 1971 to former members who make application for an annuity after July 1, 1973.

Sec. 41. Minnesota Statutes, 1977 Supplement, Section 354.41, Subdivision 6, is amended to read:

Subd. 6. Any such former member who elects membership in the fund as authorized by subdivision 4 shall be eligible to make payment for service which was rendered prior to July 1, 1975 in any of the organizations enumerated in subdivision 4, provided the organization makes satisfactory certification of such service as prescribed in section 354.05, subdivision 28. This payment shall be limited to the most recent five years of allowable service credit and shall include all required employee and employer contributions as provided in section 354.42, subdivisions 2, 3 and 5 *at the rates in effect when the service was rendered*. Interest shall be paid on both the employee and employer contributions at the rate of six percent per annum compounded annually from the end of the

fiscal year during which such service was rendered to the date of payment. *The employer may pay the required employer contributions as provided in section 354.42, subdivisions 3 and 5, plus interest at the specified rate.* The payment described herein must be made in one lump sum prior to July 1, 1980 or prior to retirement, whichever is earlier. *No allowable or formula service with respect to such payment shall be credited to the employee's account until payment is received by the executive director.*

Sec. 42. Minnesota Statutes 1976, Section 354.41, is amended by adding a subdivision to read:

Subd. 8. Any member who has been employed by an organization designated in subdivision 4 may receive up to five years of allowable service credit in the fund by making payment for such service under the conditions prescribed by subdivision 6.

Sec. 43. Minnesota Statutes 1976, Section 354.55, Subdivision 11, is amended to read:

Subd. 11. Any person covered under section 354.44, subdivisions 6 and 7, who ceases or has ceased to render teaching service may leave his accumulated deductions in the fund for the purpose of receiving a deferred annuity at retirement. Eligibility for such an annuity shall be determined by the provisions of section 354.44, subdivision 1, or section 354.60.

The amount of the deferred retirement annuity shall be determined by section 354.44, subdivisions 6 and 7, and augmented as provided herein. The required reserves related to that portion of the annuity which had accrued at the time the member ceased to render teaching service shall be augmented by interest compounded annually from the first day of the month following the month during which the member ceased to render teaching service to the effective date of retirement. There shall be no augmentation if this period is less than three months. The rates of interest used for this purpose shall be five percent commencing July 1, 1971, until January 1, 1981, and three percent thereafter. If a person has more than one period of uninterrupted service, the required reserves related to each period shall be augmented by interest pursuant to this subdivision. The sum of the augmented required reserves so determined shall be the basis for purchasing the deferred annuity. If a person does not render teaching service in any one or more consecutive fiscal years and then resumes teaching service, the formula percentages used from date of resumption will be those applicable to new members. The mortality table and interest assumption contained therein used to compute such annuity will be determined by the law in effect at the time of the member's retirement. A period of uninterrupted service for the purposes of Laws 1971, Chapter 87 shall mean a period of covered teaching service during which the member has not been separated from such service for more than one fiscal year.

The provisions of this subdivision shall not apply to variable account accumulations as defined in section 354.05, subdivision 23.

In no case shall the annuity payable herein be less than the amount of annuity payable pursuant to section 354.44, subdivisions 6 and 7.

The requirements and provisions for retirement prior to age 65 contained in section 354.44, subdivision 6, clause (2) shall also apply to an employee fulfilling such requirements with a combination of service as provided in section 354.60.

Sec. 44. Minnesota Statutes 1976, Section 356.32, Subdivision 1, is amended to read:

356.32 [PROPORTIONATE RETIREMENT ANNUITY.] Subdivision 1. Notwithstanding any provision to the contrary of the laws governing any of the retirement funds enumerated in subdivision 2, any person who is employed in a position covered by any such fund, who has credit for at least three years but less than ten years of allowable service in such fund or a combination of such funds, and who is required to terminate service at age 65 or earlier pursuant to a mandatory retirement statute or a uniformly applied mandatory retirement policy established by the employer, shall be entitled upon application to a proportionate retirement annuity from each such fund in which he has allowable service credit, based upon his allowable service credit at the time of mandatory retirement; provided, however, that nothing in this section shall prevent the actuarial reduction of an annuity for which application is made prior to normal retirement age.

Sec. 45. Minnesota Statutes 1976, Section 422A.16, Subdivision 10, is amended to read:

Subd. 10. All deferred allowances granted under this section shall be calculated as of the date of separation and shall be increased by the interest assumption rate provided for in chapter 356 until January 1, 1981, and thereafter by the interest rate of three percent per year compounded annually.

Sec. 46. [REPEALER.] *Minnesota Statutes 1976, Sections 352C.02; 352C.03; 352C.05; 352C.06; and 352C.08; and Minnesota Statutes, 1977 Supplement, Section 353.32, Subdivision 7, are repealed.*

Sec. 47. *Sections 1, 2, 3, 4, 6, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 21, 22, 27, 28, 40, 43, and 45 shall be effective the day following final enactment. Sections 23, 24, 25, 26, 32, 33, 34, 35, 36, 37, 38, 39, 41, 42, 44 and 46 shall be effective July 1, 1978. Sections 5, 7 and 20 shall be effective January 1, 1979. Sections 29, 30, and 31 shall be effective April 1, 1979. Any person who was a member pursuant to section 353.01, subdivision 16, clause (3) prior to the election authorized by section 27 and was a basic member shall remain a basic member notwithstanding the provisions of section 353.017, subdivision 1 to the contrary.*

The reduced augmentation rates shall apply to persons who are already on deferred status as of December 31, 1980, as well as to persons who terminate public service thereafter, but shall have no effect on rates of augmentation for periods of deferral prior to December 31, 1980. The augmentation rate added to the elective

state officers plan shall apply to persons who are already on deferred status as of the day prior to the effective date of section 15, as well as to persons who terminate public service thereafter."

March 23, 1978

The Honorable Martin O. Sabo
Speaker of the House of Representatives

The Honorable Edward J. Gearty
President of the Senate

We, the undersigned conferees for H. F. No. 2098, report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and H. F. No. 2098 be amended as follows:

Strike everything after the enacting clause and insert:

[145.9215] [FAMILY PLANNING GRANTS.] *Subdivision 1. The commissioner of health may make special grants to cities, counties, groups of cities or counties, or nonprofit corporations to provide pre-pregnancy family planning services.*

Subd. 2. The commissioner shall not make special grants pursuant to this section to any nonprofit corporation which performs abortions. No state funds shall be used under contract from a grantee to any nonprofit corporation which performs abortions. This provision shall not apply to hospitals licensed pursuant to sections 144.50 to 144.56, or health maintenance organizations certified pursuant to chapter 62D.

Subd. 3. No funds provided by grants made pursuant to this section shall be used to support any family planning services for any unemancipated minor in any elementary or secondary school building.

Subd. 4. Except as provided in sections 144.341 and 144.342, any person employed to provide family planning services who is paid in whole or in part from funds provided under this section who advises an abortion or sterilization to any unemancipated minor shall, following such a recommendation, so notify the parent or guardian of the reasons for such an action.

Subd. 5. The commissioner of health shall promulgate rules for approval of plans and budgets of prospective grant recipients, for the submission of annual financial and statistical reports, and the maintenance of statements of source and application of funds by grant recipients. The commissioner of health may not require that any home rule charter or statutory city or county apply for

or receive grants under this subdivision as a condition for the receipt of any state or federal funds unrelated to family planning services.

Subd. 6. The request of any person for family planning services or his or her refusal to accept any service shall in no way affect the right of the person to receive public assistance, public health services, or any other public service. Nothing in this section shall abridge the right of the individual to make decisions concerning family planning, nor shall any individual be required to state his or her reason for refusing any offer of family planning services.

Any employee of the agencies engaged in the administration of the provisions of this section may refuse to accept the duty of offering family planning services to the extent that the duty is contrary to his personal beliefs. A refusal shall not be grounds for dismissal, suspension, demotion, or any other discrimination in employment. The directors or supervisors of the agencies shall reassign the duties of employees in order to carry out the provisions of this section.

All information gathered by any agency, entity, or individual conducting programs in family planning is private data on individuals within the meaning of section 15.162, subdivision 5a.

Subd. 7. A grant recipient shall inform any person requesting counselling on family planning methods or procedures of:

(1) Any methods or procedures which may be followed, including identification of any which are experimental or any which may pose a health hazard to the person;

(2) A description of any attendant discomforts or risks which might reasonably be expected;

(3) A fair explanation of the likely results, should a method fail;

(4) A description of any benefits which might reasonably be expected of any method;

(5) A disclosure of appropriate alternative methods or procedures;

(6) An offer to answer any inquiries concerning methods of procedures; and

(7) An instruction that the person is free either to decline commencement of any method or procedure or to withdraw consent to a method or procedure at any reasonable time.

Subd. 8. Any person who receives compensation for services under any program receiving financial assistance under this section, who coerces or endeavors to coerce any person to undergo an abortion or sterilization procedure by threatening the person with the loss of or disqualification for the receipt of any benefit or service under a program receiving state or federal financial assistance shall be guilty of a misdemeanor.

Sec. 2. [APPROPRIATION.] *The sum of \$1,300,000 is appropriated from the general fund to the commissioner of health for the biennium ending June 30, 1979, for the purposes of this act. The legislative complement for the department of health is increased by two positions.*

Sec. 3. *This act is effective on the day following final enactment.*"

Further, amend the title as follows:

MOTIONS AND RESOLUTIONS

Mr. Coleman introduced—

Senate Resolution No. 31: A senate resolution relating to conduct of Senate business during the interim between sessions.

BE IT RESOLVED, by the Senate of the state of Minnesota:

The powers, duties and procedures set forth in this resolution apply during the interim between the adjournment of the 70th Legislature, 1978 session and the convening of the 71st Legislature, 1979 session.

The Committee on Rules and Administration may, from time to time, assign to the various committees and subcommittees of the Senate, in the interim, matters brought to its attention by any member of the Senate for study and investigation. The standing committees and subcommittees may study and investigate all subjects that come within their usual jurisdiction, as provided by Minnesota Statutes, Section 3.921. A committee shall carry on its work by subcommittee or by committee action as the committee from time to time determines. Any study undertaken by any of the standing committees, or any subcommittee thereof, shall be coordinated to the greatest extent possible with other standing committees or subcommittees of the Senate and House of Representatives, and may, if the committee or subcommittee so determines, be carried on jointly with another committee or subcommittee of the Senate or House of Representatives.

The Subcommittee on Committees of the Committee on Rules and Administration shall appoint persons as necessary to fill any vacancies that may occur in committees, commissions, and other bodies whose members are to be appointed by the Senate authorized by rule, statute, resolution, or otherwise. The Subcommittee on Committees may appoint members of the Senate to assist in the work of any committee.

The Committee on Rules and Administration shall establish positions, set compensation, appoint employees and authorize expense reimbursement as it deems proper to carry out the work of the Senate.

The Committee on Rules and Administration may authorize members of the Senate and personnel employed by the Senate to travel and to attend courses of instruction or conferences for the purpose of improving and making more efficient Senate operation and may reimburse such persons for the costs thereof out of monies appropriated to the Senate for the standing committees.

All members of activated standing committees or subcommittees of the Senate, and staff, shall be reimbursed for all expenses actually and necessarily incurred in the performance of their duties between the adjournment sine die of the 70th legislature and the convening of the 71st legislature in the manner provided by law. Payment shall be made by the Secretary of the Senate out of monies appropriated to the Senate for the standing committees. The Committee on Rules and Administration shall determine the amount and manner for reimbursement for living and other expenses of each member of the Senate incurred in the performance of his duties when the legislature is not in regular session.

The Secretary of the Senate shall continue to perform his duties between the adjournment sine die of the 70th legislature and the convening of the 71st legislature. During the interim, but not including time which may be spent in any special session, the Secretary of the Senate shall be paid for services rendered the Senate at the rate established for that position for the 1978 regular session, unless otherwise directed by the Committee on Rules and Administration, plus travel and subsistence expense incurred incidental to his Senate duties, including salary and travel expense incurred in attending meetings of the American Society of Legislative Clerks and Secretaries sponsored by the National Conference of State Legislatures.

Should a vacancy occur in the position of Secretary of the Senate, by resignation or other causes, the Committee on Rules and Administration shall appoint an acting Secretary of the Senate who shall serve in such capacity during the remainder of the interval between the adjournment sine die of the 70th legislature and the convening of the 71st legislature under the provisions herein specified.

The Secretary of the Senate is authorized to employ after the close of the session such employees as may be necessary to finish the business of the Senate at the salaries paid such employees

under the rules of the Senate for the 1978 regular session. He is authorized to employ the necessary employees to prepare for the 1979 session at the salaries in effect at that time.

The Secretary of the Senate shall classify as "permanent" for purposes of Minnesota Statutes, Sections 3.095 and 43.43 those Senate employees heretofore or hereafter certified as "permanent" by the Committee on Rules and Administration.

The Secretary of the Senate, as authorized and directed by the Committee on Rules and Administration, shall furnish each member of the Senate with postage and supplies, and may reimburse each member for long distance telephone calls and answering services not to exceed \$45 per month, upon proper verification of the expenses incurred, and for such other expenses as may be authorized from time to time by the Committee on Rules and Administration.

The Secretary of the Senate shall correct and approve the Journal of the Senate for those days that have not been corrected and approved by the Senate, and shall correct printing errors found in the Journal of the Senate for the 70th Legislature. He may include in the Senate Journal proceedings of the last day, appointments by the Subcommittee on Committees to interim commissions created by legislative action, permanent commissions or committees established by statute, standing committees, official communications and other matters of record received on or after adjournment sine die.

The Secretary of the Senate may pay election and litigation costs as authorized by the Committee on Rules and Administration.

The Secretary of the Senate, with the approval of the Committee on Rules and Administration, shall secure bids and enter into contracts for the printing of the daily Senate journals, bills, general orders, special orders, calendars, resolutions, printing and binding of the permanent Senate Journal, shall secure bids and enter into contracts for remodeling, improvement and furnishing of Senate office space, conference rooms and the Senate Chamber, and shall purchase all supplies, equipment and other goods and services necessary to carry out the work of the Senate. Any contracts in excess of \$5,000 shall be signed by the Chairman of the Committee on Rules and Administration and another member designated by the Committee on Rules and Administration.

The Secretary of the Senate shall draw warrants from the legislative expense fund in payment of the accounts herein referred to.

All Senate records, including committee books, are subject to the direction of the Committee on Rules and Administration.

The Senate Chamber, retiring room, committee rooms, all conference rooms, storage rooms, Secretary of the Senate's office, Rules and Administration office, and any and all other space assigned to the Senate shall be reserved for use by the Senate and

its standing committees only and shall not be released or used for any other purpose except upon authorization of the Secretary of the Senate with the approval of the Committee on Rules and Administration, or the Chairman thereof.

The Custodian of the Capitol shall continue to provide parking space through the Secretary of the Senate for members and staff of the Minnesota State Senate on Aurora Avenue and other areas as may be required for the period between the close of the 1978 regular session and the convening of the 1979 regular session. The Secretary of the Senate is authorized to deduct from the check of any legislator or legislative employee a sum adequate to cover the exercise of the parking privilege herein defined in conformity with the practice of the department of administration.

WHEREAS, Mike arrived in the United States as an immigrant in 1921 bearing the scars of mistreatment in the slave camp and possessing little other than a keen mind and a sincere desire to succeed in his new homeland; and

WHEREAS, Mike subsequently became an American citizen in 1926, and was graduated from the University of Pennsylvania in 1931; and

WHEREAS, Mike has served as Secretary of the Minnesota Public Employees Retirement Association since May 1, 1938; and

WHEREAS, the experiences of Mike's youth, viewed in contrast with the opportunities of his adult life as an American citizen has instilled in Mike an appreciation of America and the American way of life which has not, and indeed probably cannot, be matched in any native born American; and

WHEREAS, Law Day was established by an act of Congress in 1961 as an annual observance on May 1st; and

WHEREAS, citizens today enjoy more rights, greater access to our courts and more ways and means of equitably resolving disputes than ever before; and

WHEREAS, as citizens of this state and nation, it is proper that we reflect on our great heritage and participate in bar association sponsored community programs in recognition of the special day set aside by the Congress of the United States; and

WHEREAS, in order to rededicate ourselves to the principles of the democratic form of government; to emphasize that ours is a government of laws and not of men; and to further the philosophy that "the welfare of the people shall be the supreme law"; now, therefore,

BE IT RESOLVED, by the House of Representatives of the State of Minnesota, the Senate concurring therein, that the Governor of Minnesota is requested to designate and dedicate May 1st of each year as Law Day U.S.A.; and

BE IT FURTHER RESOLVED, that it is not the purpose of this resolution to declare another holiday, but only to designate a day for rededication by the citizens of Minnesota to the principles of democracy, a respect for the law that is so vital to the democratic way of life, and to the support of our state and federal courts of law which uphold and safeguard individual rights and liberties.
