**S.F. No. 1**, as amended by the A-1 delete-everything amendment, appropriates \$1.039 billion for capital improvements to state and local facilities.

Major projects financed by the bill include \$110 million for higher education asset preservation at the University of Minnesota and the Minnesota State Colleges and Universities; \$71 million to expand the Minnesota Correctional Facility at Faribault; \$40 million to replace and rehabilitate local bridges; \$31 million for wastewater infrastructure grants; \$32 million for flood hazard mitigation grants; \$24 million to construct the Minnesota Planetarium; \$23 million for the conservation reserve enhancement program (CREP); \$24 million to construct and renovate middle school and high school facilities on the Red Lake Indian Reservation; \$22 million for a biotechnology research facility for the University of Minnesota and Mayo Clinic; \$20 million for housing for the homeless; and \$22 million for improvements to metropolitan parks.

The appropriations are detailed in a related spreadsheet. This summary will focus only on the language of the bill that goes beyond describing the various projects for which the appropriations are made.

### Section 2. University of Minnesota.

Page 3, subdivision 7, provides that, except for higher education asset preservation and replacement, the appropriations in this section represent

approximately two-thirds of the cost of each project and that the remaining costs must be paid from university sources.

**Page 3, subdivision 8**, requires the Commissioner of Finance to create an account for amounts budgeted for contingencies for projects in this section. Once the projects have been completed or abandoned, any remaining money must be used for higher education asset preservation and replacement.

### **Section 3. Minnesota State Colleges and Universities.**

**Page 5, lines 12 to 15**, require a nonstate match of \$200,000 for improvements at Dakota Technical College.

**Page 8, subdivision 26**, requires that the board of trustees pay one-third of the debt service on projects in this section, except for higher education asset preservation and replacement, with a credit for the amount that they raise in the form of nonstate match.

### **Section 4. Education.**

**Page 9, lines 24 to 37**, require the Commissioner of Education to review the proposed school construction at Independent School District No. 38 - Red Lake, to ensure that the project will be economical and report to the Legislature by January 10, 2005, on any reductions made as a result of that review.

**Page 10, lines 3 to 5**, modify the statutory limits on grants to rehabilitate facilities for early childhood learning and child protection programs from \$200,000 per program and \$500,000 per facility down to \$75,000 per program and \$200,000 per facility.

### **Section 7. Natural Resources.**

**Page 11, line 42 to page 12, line 3**, provide that if a flood hazard mitigation project for which money has been appropriated is not ready to proceed, the Commissioner of Natural Resources may allocate that project's money to the next project on the commissioner's priority list or may allocate up to \$180,000 to the project in Cannon Falls.

**Page 12, lines 4 to 13**, authorize state grants for flood hazard mitigation to be used to pay the local share of project costs for certain projects in the Red River and Minnesota River Valleys, to the extent that the local share exceeds two percent of the median household income in the municipality multiplied by the number of households in the municipality.

**Page 12, lines 14 and 15**, forgive the local match requirement for the Canisteo Mine project.

**Page 12, lines 16 to 18**, increase the state share of flood hazard mitigation grants for Roseau River, Palmville, and Malung from 50 percent to 75 percent.

**Page 12, lines 19 to 27**, grant a five-year extension to a grant to the city of Stillwater for flood hazard mitigation.

**Page 13, lines 47 to 52**, require the Commissioner of Natural Resources to consult with representatives of local units of government, nonprofit organizations, and other interested parties in setting priorities for metro greenways and natural areas.

**Page 14, lines 40 to 45**, require an equal match for \$500,000 appropriated to construct part of the Paul Bunyan Trail in the city of Bemidji.

**Page 15, lines 20 to 23**, require an equal match for grants to counties for reforestation of county-administered lands.

**Page 16, lines 48 to 53**, provide that for purposes of funding metropolitan regional parks Columbia Parkway, Ridgeway Parkway, and Stinson Boulevard in Minneapolis are considered to part of the metropolitan regional recreation open space system.

#### **Section 10. Board of Water and Soil Resources.**

**Page 19, lines 26 to 39**, require that the purchase price paid for wetlands to replace those lost due to public road projects must be the fair market value as determined by the Board of Water and Soil Resources and authorize the Board to enter into agreements with public and private entities to acquire and restore and create wetlands and to acquire existing wetland banking credits.

**Page 20, lines 4 to 7**, require a 25 percent local match for grants to develop flood water retention systems in Area II of the Minnesota River Basin.

#### **Section 13. Administration.**

**Page 21, lines 25 to 29**, provide that the debt service on bonds sold for improvements to state parking facilities will be paid from parking fees.

#### **Section 14. Capitol Area Architectural and Planning Board.**

**Page 21, lines 45 to 53**, require that the appropriation to renovate the interior of the Capitol Building not be spent on any project that affects space under the control of the Senate without the approval of the Secretary of the Senate nor on any project that affects space under

the control of the House of Representatives without the approval of the Chief Clerk of the House.

**Section 17. Veterans Affairs.**

**Page 22, lines 33 to 41,** require that the appropriation for the World War II Veteran's Memorial on the Capitol Mall be the final appropriation for the project and make it contingent on sufficient nonstate money being received and deposited into a segregated account for perpetual maintenance of the memorial. The design is subject to approval by the Capitol Area Architectural and Planning Board.

**Page 37, lines 26 to 30**, require an equal match for the \$150,000 appropriation for a grant to the city of Maplewood to complete restoration of the Bruentrup Farm in Maplewood.

**Section 29** limits the amount of bonds to be issued during the next biennium, including the bonds authorized in this bill so that no more than a certain amount will be needed from the general fund for debt service.

**Section 30** authorizes the sale of bonds to fund the various appropriations in the bill from the bond proceeds fund, the maximum effort school loan fund, and the transportation fund.

**Section 31** updates the limitation on the amount of certificates of indebtedness the State may sell to meet cash flow requirements by conforming to the current federal arbitrage limitations contained in the Code of Federal Regulations, title 26, section 1.148-6(d)(3)(iii)(B). That limitation is five percent of the actual working capital expenditures from the general fund in the preceding fiscal year.

**Section 32** adds a cross-reference to new Minnesota Statutes, section 446A.073, which authorizes the Public Facilities Authority to make grants to municipalities or wastewater treatment projects made necessary by wasteload reductions under total maximum daily load plans. These grants will

be reviewed by the Commissioner of the Pollution Agency using the same procedures as for other wastewater treatment grants.

**Sections 33 to 37** expand the area covered by the Greater Minnesota redevelopment account to include the entire State, as the predecessor redevelopment account did until 2002.

**Section 38** requires that in each grant cycle the Commissioner of Employment and Economic Development make grants so that at least 50 percent of the dollar value of grants for that cycle is for projects located outside of the seven-county metropolitan area.

**Section 39** expands the library access grant program to include improvements in addition to removing architectural barriers to people with disabilities. The maximum amount of a grant to improve accessibility is increased from \$150,00 to \$200,000. The maximum amount of a grant for other renovation or expansion of a library or construction of a new library is set at \$1 million or 50 percent of the approved cost, whichever is less.

**Section 40** authorizes the Board of Trustees of the Minnesota State Colleges and Universities to sell lands the Board has declared to be surplus and to keep the proceeds of the sale for college and university purposes.

**Section 41** creates a rural road safety account in the local road improvement fund to make grants to counties to assist in paying the costs of capital improvement projects on county state-aid highways that are intended primarily to reduce traffic crashes, deaths, injuries, and property damage. One-half the money in the account must be used for projects in the seven-county metro area and the remainder must be used for projects elsewhere.

**Section 42** creates a program of grants by the Public Facilities Authority to municipalities to cover one-half the cost of wastewater treatment projects made necessary by wasteload reductions under total maximum daily load plans required by the federal Clean Air Act. The Pollution Control Agency would calculate the eligible project cost as it does for other wastewater treatment grants. Grants would be made in order of approval by the United States Environmental Protection Agency of a total maximum daily load plan and only after the Public Facilities Authority has determined that the additional financing necessary to complete the project has been committed from other sources.

**Section 43** authorizes two or more counties to enter into a joint powers agreement to construct and operate a regional adult detention facility to serve multiple counties.

**Section 44** postpones until June 30, 2006, cancellation of a \$1 million appropriation made in 2000 for a harbor of refuge at Two Harbors.

**Section 45** requires that the parking facility for the Department of Human Services being constructed in St. Paul at the former Capitol Square site must include at least 14 spaces for employees of the St. Paul Fire Department to lease at rates comparable to those for state employees.

**Section 46** specifies in detail the permitted uses of the \$20 million appropriation made in 2002 to construct a portion of the northwest bus way from downtown Minneapolis to Rogers.

**Section 47** transfers from the Department of Health to the Board of Trustees of the Minnesota State Colleges and Universities a \$775,000 appropriation made in 2003 to construct a community dental clinic at Lake Superior Community College in Duluth and a dental hygiene clinic in Moorhead.

**Section 48** reenacts the shoreland protection program, which expired June 30, 2004, but for which \$500,000 is appropriated by article 1, section 10, subdivision 4, of this bill.

**Section 49** encourages the Board of Regents of the University of Minnesota to expand the parking facilities at the University of Minnesota, Duluth campus through the purchase of land and property from willing sellers.

**Section 50** authorizes the Commissioner of Administration to convey real and personal property at the Willmar Regional Treatment Center to a local unit of government for no consideration.

**Section 51** transfers \$50 million of bonding authority from the Housing Finance Agency to the Higher Education Service Office.

**Section 52** makes the article effective the day following final enactment.

## **Article 2**

### **Adjustment of General Obligation Bond Authorizations**

**Section 1** reduces bond authorizations in prior laws to reflect amounts that have been canceled since the original authorization was made.

15 building for use as a library, or to construct a new library  
16 building.

17 Subd. 3. [APPLICATION FORMS.] The commissioner of  
18 education shall prepare application forms and establish

28 existing buildings used as a library, or to prepare another  
29 existing building for use as a library. Renovation of an  
30 existing building may include an addition to the building if the  
31 additional space is necessary to provide accessibility or if

34 the cost of meeting accessibility requirements in a new building.

35 Subd. 5a. [PROHIBITION ON PORNOGRAPHIC USE OF INTERNET.] A  
36 public library jurisdiction is not eligible for a grant under

9 or to construct a new library building.

10 Subd. 6. [AWARD OF GRANTS.] The commissioner, in  
11 consultation with the state Council on Disability, shall examine  
12 and consider all applications for grants. If a public library  
13 jurisdiction is found not qualified, the commissioner shall  
14 promptly notify it. The commissioner shall prioritize grants on  
15 the following bases: the degree of collaboration with other  
16 public or private agencies, the public library jurisdiction's  
17 tax burden, the long-term feasibility of the project, the  
18 suitability of the project, and the need for the project. If  
19 the total amount of the applications exceeds the amount that is  
20 or can be made available, the commissioner shall award grants  
21 according to the commissioner's judgment and discretion and  
22 based upon a ranking of the projects according to the factors  
23 listed in this subdivision. The commissioner shall promptly  
24 certify to each public library jurisdiction the amount, if any,  
25 of the grant awarded to it.

26 Subd. 7. [PROJECT BUDGET.] A public library jurisdiction  
27 that receives a grant must provide the commissioner with the

11 improvement fund. Money in the account is annually appropriated  
12 to the commissioner of transportation for expenditure as  
13 specified in this subdivision. Money in the account must be  
14 used as grants to counties to assist in paying the costs of  
15 capital improvement projects on county state-aid highways that  
16 are intended primarily to reduce traffic crashes, deaths,  
17 injuries, and property damage.

18 (b) The commissioner shall establish procedures for

3 Code, title 33, section 1313(d).

17 Agency and in an amount based on their most recent cost

19 whichever is less.

20 Subd. 4. [GRANT APPROVAL.] The authority must make a grant  
21 to a municipality, as defined in section 116.182, subdivision 1,  
22 only after:

23 (1) the commissioner of the Minnesota Pollution Control  
24 Agency has certified to the United States Environmental  
25 Protection Agency a total maximum daily load plan for identified  
26 waters of this state that includes a point source wasteload  
27 allocation;

28 (2) the Environmental Protection Agency has approved the  
29 plan;

30 (3) a municipality affected by the plan has estimated the  
31 cost to it of wastewater treatment projects necessary to comply  
32 with the point source wasteload allocation;

33 (4) the Pollution Control Agency has approved the cost  
34 estimate; and

35 (5) the authority has determined that the additional  
36 financing necessary to complete the project has been committed

1 from other sources.

2 Subd. 5. [GRANT DISBURSEMENT.] Disbursement of a grant  
3 must be made for eligible project costs as incurred by the  
4 municipality and in accordance with a project financing  
5 agreement and applicable state and federal laws and rules

13 of money. The lease-purchase  
14 agreements must provide the state with  
15 a unilateral right to purchase the  
16 leased premises at specified times for  
17 specified amounts. The office facility  
18 for the department of human services  
19 must not have more gross square feet of

1       Sec. 34. [116J.039] [BROADBAND INFRASTRUCTURE GRANT  
2 PROGRAM.]

3       Subdivision 1. [DEFINITIONS.] (a) The definitions in this  
4 subdivision apply to this section.

5       (b) "Broadband service" means a service to end-user  
6 customers of video, voice, or data, or any combination of them,  
7 at speeds of at least 256 kilobits per second, and in additional  
8 increments of 256 kilobits per second.

9       (c) "City" means a statutory or home rule charter city  
10 located outside the metropolitan area, as defined in section  
11 473.121, subdivision 2.

12       (d) "Public infrastructure" means publicly owned physical  
13 infrastructure necessary to support broadband development  
14 projects, including, but not limited to, fiber optic cable,  
15 coaxial cable, copper wire, conduit, wireless, and transmission  
16 equipment.

17       Subd. 2. [GRANT PROGRAM ESTABLISHED.] The commissioner of  
18 employment and economic development shall make grants to cities  
19 for up to 80 percent of the capital costs of public  
20 infrastructure necessary for an eligible broadband development  
21 project. The city receiving a grant must provide for the  
22 remainder of the costs of the project, either in cash, in kind,  
23 or from the private sector. In-kind contributions may include  
24 the value of the site, site preparation, and site improvements.  
25 The purpose of the grants is to keep or enhance jobs in the area  
26 by making businesses more competitive through the utilization of  
27 broadband services.

28       Subd. 3. [ELIGIBLE PROJECTS.] Grants must be provided to  
29 cities to support the construction of broadband service  
30 infrastructure. The infrastructure must be capable of  
31 transmitting video, voice and data at speeds of at least 256  
32 kilobits per second. The infrastructure must be used in  
33 partnership with a private service provider.

34       Subd. 4. [APPLICATION.] The commissioner must develop  
35 forms and procedures for soliciting and reviewing applications  
36 for grants under this section. At a minimum, a city must

1 include in its application a resolution of the city council  
2 certifying that the required local match is available and that  
3 the city will not be the managing operator of the  
4 infrastructure. The commissioner must evaluate complete  
5 applications for eligible projects using the following criteria:

6 (1) the project must be an eligible project as defined  
7 under subdivision 3;

8 (2) the applicant has conducted a market analysis to  
9 identify the demand for broadband services;

10 (3) the applicant has provided evidence that the service is  
11 not currently available in their community;

12 (4) the applicant has provided written notice of the  
13 application to incumbent service providers in broadband service  
14 areas adjacent to the proposed new service area with evidence of  
15 the notification included in the application;

16 (5) the applicant has included community efforts that will  
17 be used to maximize broadband utilization by the business,  
18 health care, educational, and governmental sectors of the  
19 applicant community;

20 (6) the applicant has conducted a feasibility study to  
21 demonstrate that the broadband services are economically viable  
22 and self-supporting; and

23 (7) the project will create or maintain full-time jobs.

24 The determination of whether to make a grant for a site is  
25 within the discretion of the commissioner, subject to this  
26 section. The commissioner's decisions must be made not to favor  
27 or preclude any feasible technology. The commissioner's  
28 decisions and application of the priorities are not subject to  
29 judicial review, except for abuse of discretion.

30 Subd. 5. [MAXIMUM GRANT AMOUNT.] A city may receive no  
31 more than a total of \$200,000 in grants made under this section  
32 in two consecutive years for one or more projects.

33 Subd. 6. [CANCELLATION OF GRANT; RETURN OF GRANT  
34 MONEY.] If after three years from the date of the grant, the  
35 commissioner determines that a project has not proceeded in a  
36 timely manner and is unlikely to be completed, the commissioner

1 must cancel the grant and require the grantee to return all  
2 grant money awarded for that project.

3 Subd. 7. [APPROPRIATION.] Grant money returned to the  
4 commissioner is appropriated to the commissioner to make  
5 additional grants under this section.

6 Subd. 8. [PRIORITY.] The commissioner must give a higher  
7 priority to projects that have a local contribution of greater  
8 than 20 percent of the cost of a project.

9 Sec. 35. Minnesota Statutes 2004, section 116J.571, is  
10 amended to read:

11 116J.571 [CREATION OF ACCOUNTS.]

12 Two greater-Minnesota redevelopment accounts are created,  
13 one in the general fund and one in the bond proceeds fund.  
14 Money in the accounts may be used to make grants as provided in  
15 section 116J.575. Money in the bond proceeds fund may only be  
16 used for eligible costs for publicly owned property. Money in  
17 the general fund may be used to pay for the commissioner's costs  
18 in reviewing the applications.

19 Sec. 36. Minnesota Statutes 2004, section 116J.572,  
20 subdivision 2, is amended to read:

21 Subd. 2. [DEVELOPMENT AUTHORITY.] "Development authority"  
22 includes a statutory or home rule charter city, county, housing  
23 and redevelopment authority, economic development authority, or

25 ~~area-as-defined-in-section-473.1217-subdivision-2.~~

26 Sec. 37. Minnesota Statutes 2004, section 116J.573,  
27 subdivision 1, is amended to read:

28 Subdivision 1. [ACCOUNTS.] Criteria for use of the  
29 accounts created in section 116J.571 must be consistent with and  
30 promote the purposes of sections 116J.571 to 116J.575. They  
31 include, but are not limited to:

32 (1) creating and preserving living wage jobs in-greater  
33 Minnesota;

34 (2) creating incentives for communities to include a full  
35 range of housing opportunities;

36 (3) creating incentives for all communities to implement

1 compact, efficient, and mixed-use development; and

2 (4) creating incentives to assist communities in  
3 maintaining a unique sense of place by preserving local,  
4 cultural assets.

5 Sec. 38. Minnesota Statutes 2004, section 116J.573,  
6 subdivision 2, is amended to read:

7 Subd. 2. [PROJECTS.] To be eligible for funding by the  
8 greater-Minnesota redevelopment account, a project must:

9 (1) interrelate redevelopment with other public investments  
10 in transportation, housing, schools, energy, utilities  
11 information infrastructure, and other public services;

12 (2) interrelate affordable housing and employment growth  
13 areas;

14 (3) intensify land use that leads to more compact  
15 redevelopment;

16 (4) involve redevelopment that mixes incomes of residents  
17 in housing, including introducing or reintroducing higher value  
18 housing in lower income areas to achieve a mix of housing  
19 opportunities;

20 (5) involve participation from citizens and the business  
21 community in the planning and development of the proposed  
22 redevelopment plan;

23 (6) encourage public infrastructure investments which  
24 attract private sector redevelopment investment in commercial,  
25 industrial, and residential properties adjacent to public  
26 improvements, and provide project area residents with expanded  
27 opportunities for private sector employment; or

28 (7) be sustainable at the local level and reduce the  
29 probability of future requests for state development,  
30 maintenance, or replacement assistance.

31 Sec. 39. Minnesota Statutes 2004, section 116J.573,  
32 subdivision 5, is amended to read:

33 Subd. 5. [ANNUAL REPORT.] The commissioner shall prepare  
34 and submit to the legislature an annual report on the greater  
35 Minnesota redevelopment account. The report must include  
36 information on the amount of money in the account, the amount

1 distributed, to whom the grants were distributed and for what  
2 purposes, and an evaluation of the effectiveness of the projects  
3 funded in meeting the policies and goals of the program.

4 Sec. 40. Minnesota Statutes 2004, section 116J.575,  
5 subdivision 1, is amended to read:

6 Subdivision 1. [COMMISSIONER DISCRETION.] The commissioner  
7 may make a grant for up to 50 percent of the eligible costs of a  
8 project. The commissioner shall, in each grant cycle, make  
9 grants so that at least 50 percent of the dollar value of grants  
10 for that cycle are for projects located outside of the  
11 seven-county metropolitan area as defined in section 473.121,  
12 subdivision 2. The determination of whether to make a grant for  
13 a site is within the discretion of the commissioner, subject to  
14 this section and sections 116J.571 to 116J.574 and available  
15 unencumbered money in the greater-Minnesota redevelopment  
16 account. The commissioner's decisions and application of the  
17 priorities under this section are not subject to judicial  
18 review, except for abuse of discretion.

19 Sec. 41. Minnesota Statutes 2004, section 134.45, is  
20 amended to read:

21 134.45 [LIBRARY ACCESSIBILITY AND IMPROVEMENT GRANTS.]

22 Subdivision 1. [APPLICATION; DEFINITION.] Public library  
23 jurisdictions may apply to the commissioner of education for  
24 grants ~~to-improve~~ for improvements and accessibility to their  
25 library facilities. For the purposes of this section, "public  
26 library jurisdictions" means regional public library systems,  
27 regional library districts, cities, and counties operating  
28 libraries under chapter 134.

29 Subd. 2. [APPROVAL BY COMMISSIONER.] The commissioner of  
30 education, in consultation with the state Council on Disability,  
31 may approve or disapprove applications under this section. The  
32 grant money must be used ~~only~~ to remove architectural barriers  
33 from a building or site, to renovate or expand an existing  
34 building for use as a library, or to construct a new library  
35 building.

36 Subd. 3. [APPLICATION FORMS.] The commissioner of

1 education shall prepare application forms and establish  
2 application dates.

3 Subd. 4. [MATCH.] A public library jurisdiction applying  
4 for a grant under this section must match the grant with local  
5 funds.

6 Subd. 5. [QUALIFICATION; ACCESSIBILITY GRANTS.] A public  
7 library jurisdiction may apply for a grant in an amount up to  
8 ~~\$150,000~~ \$200,000 or 50 percent of the approved costs of  
9 removing architectural barriers from a building or site,  
10 whichever is less. Grants may be made only for projects in  
11 existing buildings used as a library, or to prepare another  
12 existing building for use as a library. Renovation of an  
13 existing building may include an addition to the building if the  
14 additional space is necessary to provide accessibility or if  
15 relocating public spaces to the ground level provides improved  
16 overall accessibility. Grants must not be used to pay part of  
17 the cost of meeting accessibility requirements in a new building.

18 Subd. 5a. [PROHIBITION ON PORNOGRAPHIC USE OF INTERNET.] A  
19 public library jurisdiction is not eligible for a grant under  
20 this section unless it has adopted a policy to prohibit library  
21 users from using the library's Internet access to view, print,  
22 or distribute material that is obscene within the meaning of  
23 section 617.241.

24 Subd. 5b. [QUALIFICATION; IMPROVEMENT GRANTS.] A public  
25 library jurisdiction may apply for a grant in an amount up to  
26 \$1,000,000 or 50 percent, whichever is less, of the approved  
27 costs of renovating or expanding an existing library building,  
28 or to construct a new library building.

29 Subd. 6. [AWARD OF GRANTS.] The commissioner, in  
30 consultation with the state Council on Disability, shall examine  
31 and consider all applications for grants. If a public library  
32 jurisdiction is found not qualified, the commissioner shall  
33 promptly notify it. The commissioner shall prioritize grants on  
34 the following bases: the degree of collaboration with other  
35 public or private agencies, the public library jurisdiction's  
36 tax burden, the long-term feasibility of the project, the

1 suitability of the project, and the need for the project. If  
2 the total amount of the applications exceeds the amount that is  
3 or can be made available, the commissioner shall award grants  
4 according to the commissioner's judgment and discretion and  
5 based upon a ranking of the projects according to the factors  
6 listed in this subdivision. The commissioner shall promptly  
7 certify to each public library jurisdiction the amount, if any,  
8 of the grant awarded to it.

9 Subd. 7. [PROJECT BUDGET.] A public library jurisdiction  
10 that receives a grant must provide the commissioner with the  
11 project budget and any other information the commissioner  
12 requests.

13 Sec. 42. Minnesota Statutes 2004, section 136F.60, is  
14 amended by adding a subdivision to read:

15 Subd. 5. [DISPOSITION OF SURPLUS PROPERTY.] (a) The board  
16 may declare state lands under its control that are no longer  
17 needed by the Minnesota State Colleges and Universities system  
18 to be surplus and may offer for public sale or otherwise dispose  
19 of the lands in a manner consistent with the procedures set  
20 forth in sections 94.10 to 94.14 for disposition of state lands  
21 by the commissioner of administration.

22 (b) Proceeds from the sale or disposition of land under  
23 this subdivision, after paying all expenses incurred in selling  
24 or disposing of the land and then paying any amounts due under  
25 section 16A.695, are appropriated to the board.

26 Sec. 43. Minnesota Statutes 2004, section 174.52, is  
27 amended by adding a subdivision to read:

28 Subd. 4a. [RURAL ROAD SAFETY ACCOUNT; APPROPRIATION.] (a)  
29 A rural road safety account is established in the local road  
30 improvement fund. Money in the account is annually appropriated  
31 to the commissioner of transportation for expenditure as  
32 specified in this subdivision. Money in the account must be  
33 used as grants to counties to assist in paying the costs of  
34 capital improvement projects on county state-aid highways that  
35 are intended primarily to reduce traffic crashes, deaths,  
36 injuries, and property damage.

1       (b) The commissioner shall establish procedures for  
2 counties to apply for grants from the rural road safety account  
3 and criteria to be used to select projects for funding. The  
4 commissioner shall establish these procedures and criteria in  
5 consultation with representatives appointed by the Association  
6 of Minnesota Counties. Eligibility for project selection must  
7 be based on the ability of each proposed project to reduce the  
8 frequency and severity of crashes.

9       (c) Money in the account must be allocated in each fiscal  
10 year as follows:

11       (1) one-half of money in the account must be used for  
12 projects in the counties of Anoka, Chisago, Carver, Dakota,  
13 Hennepin, Ramsey, Scott, and Washington; and

14       (2) the remainder must be used for projects elsewhere in  
15 the state.

16       Sec. 44. [446A.073] [TOTAL MAXIMUM DAILY LOAD GRANTS.]

17       Subdivision 1. [PROGRAM ESTABLISHED.] The authority must  
18 make grants to municipalities to cover one-half the cost of  
19 wastewater treatment projects made necessary by wasteload  
20 reductions under total maximum daily load plans required by  
21 section 303(d) of the federal Clean Water Act, United States  
22 Code, title 33, section 1313(d).

23       Subd. 2. [GRANT APPLICATION.] Application for a grant must  
24 be made to the authority on forms prescribed by the authority  
25 for the total maximum daily load grant program, with additional  
26 information as required by the authority. In accordance with  
27 section 116.182, the Pollution Control Agency shall:

28       (1) calculate the essential project component percentage,  
29 which must be multiplied by the total project cost to determine  
30 the eligible project cost; and

31       (2) review and certify approved projects to the authority.

32       Subd. 3. [PROJECT PRIORITIES.] When money is appropriated  
33 for grants under this program, the authority shall reserve money  
34 for projects in the order that their total maximum daily load  
35 plan was approved by the United States Environmental Protection  
36 Agency and in an amount based on their most recent cost

1 estimates submitted to the authority or the as-bid costs,  
 2 whichever is less.

3 Subd. 4. [GRANT APPROVAL.] The authority must make a grant  
 4 to a municipality, as defined in section 116.182, subdivision 1,  
 5 only after:

6 (1) the commissioner of the Minnesota Pollution Control  
 7 Agency has certified to the United States Environmental  
 8 Protection Agency a total maximum daily load plan for identified  
 9 waters of this state that includes a point source wasteload  
 10 allocation;

11 (2) the Environmental Protection Agency has approved the  
 12 plan;

13 (3) a municipality affected by the plan has estimated the  
 14 cost to it of wastewater treatment projects necessary to comply  
 15 with the point source wasteload allocation;

16 (4) the Pollution Control Agency has approved the cost  
 17 estimate; and

18 (5) the authority has determined that the additional  
 19 financing necessary to complete the project has been committed  
 20 from other sources.

21 Subd. 5. [GRANT DISBURSEMENT.] Disbursement of a grant  
 22 must be made for eligible project costs as incurred by the  
 23 municipality and in accordance with a project financing  
 24 agreement and applicable state and federal laws and rules  
 25 governing the payments.

26 Sec. 45. [641.015] [REGIONAL ADULT DETENTION FACILITY;  
 27 AUTHORITY OF COUNTIES TO ENTER INTO JOINT POWERS AGREEMENT.]

28 Notwithstanding section 387.11 or any law to the contrary,  
 29 a group of two or more counties may enter into a joint powers  
 30 agreement under section 471.59 to construct and operate a  
 31 regional adult detention facility to serve multiple counties and  
 32 house criminal offenders preconviction or postconviction, or  
 33 both.

34 Sec. 46. Laws 2000, chapter 492, article 1, section 7,  
 35 subdivision 21, is amended to read:

3 access improvements, marina slips,  
4 parking facilities, utilities, a fuel  
5 dock, and an administration building.

6 This appropriation is not available  
7 until the commissioner has determined  
8 that at least \$500,000 has been  
9 committed from federal  
10 sources. Notwithstanding Minnesota  
11 Statutes, section 16A.642, this  
12 appropriation and its corresponding  
13 bond authorization do not cancel until  
14 June 30, 2006.

15 Sec. 47. Laws 2002, chapter 393, section 13, subdivision  
16 7, as amended by Laws 2002, chapter 400, section 13, is amended  
17 to read:
