LCPFP Subcommittee on a Balanced Budget Monday, December 14, 2009

<u>Model Examples¹</u> (Revised)

The budget calculator used at the October and November meetings of the LCPFP Subcommittee on a Balanced Budget has been updated to reflect the November forecast and the projected \$1.2 billion budget deficit for FY 2010-11, in addition to the revised structural deficit for FY 2012-13. The updated model was used to generate the following requested examples:

- What percent reduction is needed to resolve 100% of the \$1.2 billion shortfall for FY 2010-11, and the ongoing structural imbalance, with permanent spending reductions?
 - FY 2011 permanent reductions would be **7.6%**.
 - The FY 2012-13 structural deficit narrows from \$5.4 to **\$3.0** billion.
 - Additional reductions of **8.9%** would be needed for FY 2012-13; cumulative reductions of about **15%** to current spending.
- What percent reduction is needed in FY 2010-11 to resolve 75% of the \$1.2 billion shortfall with permanent spending reductions if 25% were resolved with one-time changes; how would the FY 2012-13 planning estimates be affected?
 - FY 2011 permanent reductions would be 5.7%.
 - The FY 2012-13 structural deficit narrows from \$5.4 to **\$3.6** billion.
- What percent reduction is needed in FY 2010-11 to resolve 50% of the \$1.2 billion shortfall with permanent spending reductions if 50% were resolved with one-time changes; how would the FY 2012-13 planning estimates be affected?
 - FY 2011 permanent reductions would be **3.8%**.
 - The FY 2012-13 structural deficit narrows from \$5.4 to **\$4.2** billion.
- What amount of structural deficit remains for FY 2012-13 if the Governor's July-August unallotments are made permanent? This analysis does not address the FY 2010-11 deficit.
 - The FY 2012-13 structural deficit narrows from \$5.4 to **\$3.2** billion.

¹ Model examples not adjusted for federal MOE limitations on the amount of General Fund reductions that can be made, such as for K-12 general education aids, higher education institutions, and health care programs. Also, the model assumes no positive or negative balance carryforwards from FY 2010-11 into FY 2012-13.

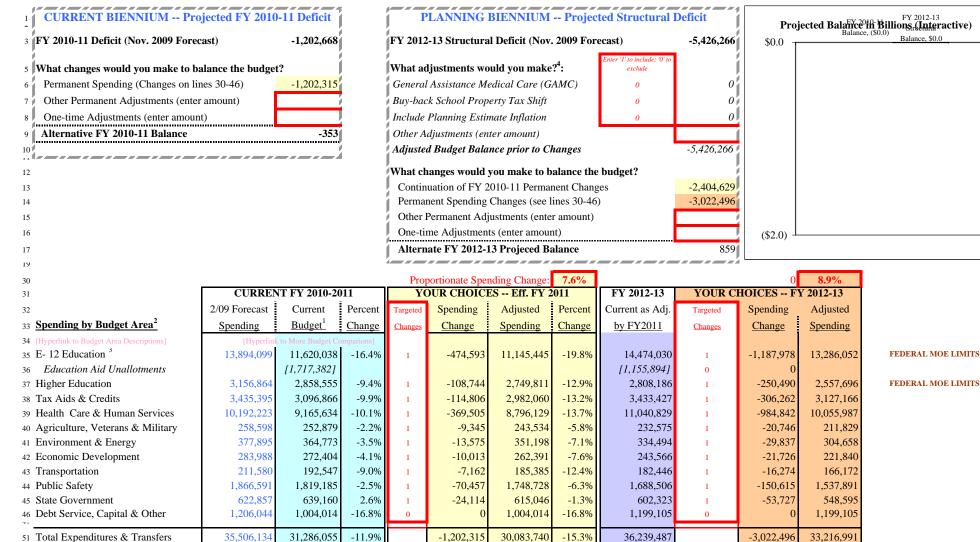

LCPFP Subcommittee on a Balanced Budget Monday, December 14, 2009

Proposed Constitutional Amendment Example (Revised)

The Governor proposed an amendment to the Minnesota Constitution that would limit spending for the current budget to the level of actual revenues for the prior biennium. The following requested example determines what level of budget reductions would be needed for FY 2012-13 if spending were limited to current projections for FY 2010-11 revenues, assuming 100% of the FY 2010-11 deficit is resolved with permanent reductions to FY 2011 spending.

- FY 2012-13 spending would be limited to \$29.986 billion.
- FY 2010-11 spending reductions of \$1.2 billion would carryforward as permanent spending reductions, thereby reducing planned spending for FY 2012-13 from \$38.644 billion to \$36.239 billion.
- FY 2012-13 spending be further decreased by \$6.253 billion, from \$36.239 to \$29.986 billion, beginning in FY2012-13.
- FY 2012-13 spending would decline by **18.5%** relative to the revised planning estimates after FY 2011 cuts, and **23.9%** relative to current planed spending, assuming no reductions to debt service, capital projects, or 'other'.
- The reductions would result in a positive unrestricted General Fund balance of \$3.2 billion, about 10.7 percent of the budget after reductions.

52

Cumulative FY 2012-13 Change: -5,427,125

53 [Hyperlink to Footnotes]

54 (1) Reflects the November 2009 Forecast which captures the budget enacted in May 2009 and the July & August Governor unallotments and executive actions.

55 (2) Budget areas reflect 2009 conference committee structure. Budget categorization may not align with the jurisdiction of House and Senate budget committees.

56 (3) Education aid payment and accounting changes made as part of the Governor's unallotments reduce FY2010-11 spending; FY2012 amounts assume unallotments are paid in FY2012.

57 (4) The Governor vetoed the FY 2011 appropriation for General Assistance Medical Care (GAMC) but the program remains in law; these amounts reflect the EOS estimates for GAMC for

58 FY 2012-13 prior to the Governor's unallotments is not automatically repaid;

59 shifts in the timing of when school districts recognize these revenues have typically been bought back. Inflation is not required to be formally identified in budget documents.

60 (5) After allocation of Fiscal Stabilization for FY 2010-11, the K-12 change is -\$1.771B or -12.7%, the Higher Education change is -\$162.8M or -5.2%;

61 the Health and Human Services change is -\$1.026B or -10.1%, and the Public Safety change is -\$14.7M or -0.8%.

62 (6) Permanent changes made effective FY 2011 assumed to continue into FY 2012-13 at a flat nominal impact per fiscal year.

63 (7) Amounts do not include the Governor's unallotments for FY 2009 made following the November 2008 forecast or the increased FMAP incorporated into the February 2009 forecast.

Matt Massman, Senate Fiscal Staff; Bill Marx, House Fiscal Staff

Dollars in Thousands **50% EXAMPLE**

Assumptions for Carrying FY 2010-11 Unallotments Spending Reductions into FY 2012-13 (Dollars in Millions)

Net Change - Unallotments & Administrative Actions	-2,676
Subtract Revenue Changes	<u>211</u>
Subtotal - Spending Changes Only	-2,466
Subtract Property Tax Revenue Recognition Payment Delay (one-time)	1,170
Subtract Education Aid Payment Delay (one-time)	<u>601</u>
Subtotal - Spending Changes Without Education Payment Delays	-695
Subtract FY 2010 Changes to Reach a One Year Amount LGA, CPA, Market Value Credit DHS Changes Agency Operating Reductions	100 77 <u>12</u>
Net One Year Amount to Carry Forward	-507

Explanation, Rationale:

1. Start with total July 2009 Unallotment & Administrative Actions amount for FY 2010-11, subtract revenue changes (reciprocity, capital equipment and corporate tax refund delays).

2. Subtract the two education payment delays which were one-time spending reductions.

3. In order to reach a one year spending reduction that can be carried forward and applied to each of FY 2012 and FY 2013, subtract FY 2010 unallotments from the FY 2010-11 total.

4. The resulting FY 2011 unallotment amount is \$507 million. Applying this amount to FY 2012 and 2013 results in a very rough estimate of making the FY 2010-11 unallotment permanent. FY 2012 and 2013 DHS amounts are forecasted and will be different than the FY 2011 amounts. The \$507 million also includes some unallotments in DHS that were payment delays. While the number is a rough estimate, it may be the best estimate that can be made until decisions are made as to which unallotments are carried forward into FY 2012 and FY 2013 and cost estimates are made for those items.

5. Repayment of the education aid payment delay currently projected at a cost of \$1,159 billion is backed out of projected FY 2012 spending.

Cumulative FY 2012-13 Change: -8,673,259

53 [Hyperlink to Footnotes]

54 (1) Reflects the November 2009 Forecast which captures the budget enacted in May 2009 and the July & August Governor unallotments and executive actions.

55 (2) Budget areas reflect 2009 conference committee structure. Budget categorization may not align with the jurisdiction of House and Senate budget committees.

56 (3) Education aid payment and accounting changes made as part of the Governor's unallotments reduce FY2010-11 spending; FY2012 amounts assume unallotments are paid in FY2012.

57 (4) The Governor vetoed the FY 2011 appropriation for General Assistance Medical Care (GAMC) but the program remains in law; these amounts reflect the EOS estimates for GAMC for

58 FY 2012-13 prior to the Governor's veto. The financial reporting change for school property tax revenues made as part of the Governor's unallotments is not automatically repaid;

59 shifts in the timing of when school districts recognize these revenues have typically been bought back. Inflation is not required to be formally identified in budget documents.

60 (5) After allocation of Fiscal Stabilization for FY 2010-11, the K-12 change is -\$1.771B or -12.7%, the Higher Education change is -\$162.8M or -5.2%;

61 the Health and Human Services change is -\$1.026B or -10.1%, and the Public Safety change is -\$14.7M or -0.8%.

62 (6) Permanent changes made effective FY 2011 assumed to continue into FY 2012-13 at a flat nominal impact per fiscal year.

63 (7) Amounts do not include the Governor's unallotments for FY 2009 made following the November 2008 forecast or the increased FMAP incorporated into the February 2009 forecast.
