28.5 Subd. 2. **Craft cultivation priority.** (a) The board shall prioritize issuance of
28.6 microbusiness licenses with an endorsement to cultivate cannabis and craft cultivator licenses.

28.7 (b) Unless the board determines that issuance of bulk cultivator licenses is necessary to
28.8 assure a sufficient supply of cannabis and cannabis products, the board shall not issue a
28.9 bulk cultivator license before July 1, 2026.

28.10 Subd. 3. **Application score; license priority.** (a) The board shall award points to each
28.11 completed application in the following categories:

28.13 (2) status as a veteran applicant;

28.14 (3) security and record keeping;

28.15 (4) employee training plan;

28.16 (5) business plan and financial situation;

28.21 (b) The board may award additional points to an application if the license holder would
28.22 expand service to an underrepresented market including but not limited to participation in
28.23 the medical cannabis program.

28.24 (c) The board shall establish policies and guidelines, which shall be made available to
28.25 the public, regarding the number of points available in each category and the basis for
28.26 awarding those points. Status as a social equity applicant must account for at least 20 percent
28.27 of the total available points.

28.28 (d) Consistent with the goals identified in subdivision 1, the commissioner shall issue
28.29 licenses in each license category, giving priority to applicants who receive the highest score
28.30 under paragraphs (a) and (b). If there are insufficient licenses available for entities that

29.1 receive identical scores, the commissioner shall utilize a lottery to randomly select license
29.2 recipients from among those entities.

29.3 Subd. 4. **Licenses prohibited in certain areas.** The board shall not issue a license to
29.4 an applicant if the premises where the business will operate is located within 1,000 feet of
29.5 a school, day care, nursing home, union headquarters, or house of worship, or the Capitol
29.6 or Capitol grounds.

29.7 Sec. 15. **[342.17] INSPECTION; LICENSE VIOLATIONS; PENALTIES.**

29.8 Subdivision 1. **Authority to inspect.** In order to carry out the purposes of this chapter,
29.9 the board, upon presenting appropriate credentials to the owner, operator, or agent in charge,
29.10 is authorized to enter without delay and at reasonable times any cannabis business; and to

29.14 employer, owner, operator, agent, or employee.

29.15 Subd. 2. **Powers of board.** In making inspections and investigations under this chapter
29.16 the board shall have the power to administer oaths, certify as to official acts, take and cause
29.17 to be taken depositions of witnesses, issue subpoenas, and compel the attendance of witnesses
29.18 and production of papers, books, documents, records, and testimony. In case of failure of
29.19 any person to comply with any subpoena lawfully issued, or on the refusal of any witness
29.20 to produce evidence or to testify to any matter regarding which the person may be lawfully
29.21 interrogated, the district court shall, upon application of the board, compel obedience
29.22 proceedings for contempt, as in the case of disobedience of the requirements of a subpoena
29.23 issued by the court or a refusal to testify therein.

29.24 Subd. 3. **Delegation of powers and duties.** (a) The board may enter into an agreement
29.25 with any community health board, or county or city that has an established delegation

29.27 and enforcement duties authorized under this chapter.

29.28 (b) A community health board may authorize a city or county within its jurisdiction to
29.29 conduct all or part of the licensing, inspection, reporting, and enforcement duties authorized
29.30 under this chapter. An agreement to delegate duties to a county or city must be approved
29.31 by the board.

29.32 (c) Agreements authorized under this subdivision must:

29.33 (1) be in writing and signed by the delegating authority and the designated agent;

30.1 (2) list criteria the delegating authority will use to determine if the designated agent's
30.2 performance meets appropriate standards and is sufficient to replace performance by the
30.3 delegating authority; and

30.4 (3) specify minimum staff requirements and qualifications, set procedures for the
30.5 assessment of costs, and provide for termination procedures if the delegating authority finds
30.6 that the designated agent fails to comply with the agreement.

30.7 (d) A designated agent must not perform licensing, inspection, or enforcement duties
30.8 under the agreement in territory outside its jurisdiction unless approved by the governing
30.9 body for that territory through a separate agreement.

30.10 (e) The scope of agreements established under this subdivision is limited to duties and
30.11 responsibilities agreed upon by the parties. The agreement may provide for automatic
30.12 renewal and for notice of intent to terminate by either party.

30.13 (f) During the life of the agreement, the delegating authority shall not perform duties
30.14 that the designated agent is required to perform under the agreement, except inspections
30.15 necessary to determine compliance with the agreement and this section or as agreed to by
30.16 the parties.

30.17 (g) The delegating authority shall consult with, advise, and assist a designated agent in
30.18 the performance of its duties under the agreement.

30.19 (h) This subdivision does not alter the responsibility of the delegating authority for the
30.20 performance of duties specified in law and does not alter the terms of any other agreement
30.21 entered into by the designated agent.

30.22 Subd. 4. **Aiding of inspection.** Subject to rules issued by the board, a representative of
30.23 a cannabis business shall be given an opportunity to accompany the board during the physical
30.24 inspection of any cannabis business for the purpose of aiding such inspection.

30.25 Subd. 5. **Complaints and reports; priority of inspection.** (a) The board may conduct
30.26 inspections of any licensed business at any time to assure compliance with the ownership
30.27 and operation requirements of this chapter.

30.28 (b) Any person may report a suspected violation of a safety or health standard. If upon
30.29 receipt of such notification the board determines that there are reasonable grounds to believe
30.30 that such violation or danger exists, the board shall make a special inspection as soon as
30.31 practicable to determine if such danger or violation exists.

31.1 (c) The board shall prioritize inspections of cannabis businesses where there are
31.2 reasonable grounds to believe that a violation poses imminent danger to the public or
31.3 customers.

31.4 (d) The board shall promptly inspect cannabis businesses that are the subject of complaint
31.5 by a local unit of government.

31.6 **Subd. 6. Violations; administrative orders and penalties.** (a) The board may issue an
31.7 administrative order to any licensed business who the board determines has committed a
31.8 violation of this chapter or rules adopted pursuant to this chapter. The administrative order
31.9 may require the business to correct the violation or to cease and desist from committing the
31.10 violation. The order must state the deficiencies that constitute the violation and the time by
31.11 which the violation must be corrected. If the business believes that the information in the
31.12 administrative order is in error, the person may ask the board to consider the parts of the
31.13 order that are alleged to be in error. The request must be in writing, delivered to the board
31.14 by certified mail within seven days after receipt of the order, and provide documentation
31.15 to support the allegation of error. The board must respond to a request for reconsideration
31.16 within 15 days after receiving the request. A request for reconsideration does not stay the
31.17 correction order unless the board issues a supplemental order granting additional time. The
31.18 board's disposition of a request for reconsideration is final.

31.19 (b) For each violation of this chapter or rules adopted pursuant to this chapter, the board
31.20 may issue to each business a monetary penalty of up to \$10,000, an amount that deprives
31.21 the business of any economic advantage gained by the violation, or both.

31.22 (c) An administrative penalty may be recovered in a civil action in the name of the state
31.23 brought in the district court of the county where the violation is alleged to have occurred
31.24 or the district court where the board has an office.

31.25 (d) In addition to penalties listed in this subdivision, a person or business who violates
31.26 the provisions of this chapter is subject to any applicable criminal penalty.

31.27 **Subd. 7. Nonpublic data.** (a) The following data collected, created, or maintained by

32.5 (b) Minutes, application data on license holders except nondesignated addresses, orders

32.7 action contained in the record of the disciplinary action are classified as public, pursuant to
32.8 section 13.02, subdivision 15. If there is a public hearing concerning the disciplinary action,
32.9 the entire record concerning the disciplinary proceeding is public data pursuant to section
32.10 13.02, subdivision 15. If the license holder and the board agree to resolve a complaint
32.11 without a hearing, the agreement and the specific reasons for the agreement are public data.

32.16 to this chapter. The board shall notify the business in writing, specifying the grounds for
32.17 revocation or nonrenewal and fixing a time of at least 20 days thereafter for a hearing on
32.18 the matter.

32.20 license, the license holder shall be provided with a statement of the complaints made against
32.21 the license holder and a hearing shall be held before the board to determine whether the
32.22 license should be revoked or renewal should be denied. The license holder shall receive

32.30 holder to appear at the hearing, the board shall take action as is deemed advisable and issue
32.31 written findings, which the board shall mail to the license holder. An action of the board
32.32 under this paragraph is subject to judicial review pursuant to chapter 14.

33.1 Subd. 3. **Temporary suspension.** The board may temporarily, without hearing, suspend
33.2 the license and operating privilege of any business licensed under this chapter for a period
33.3 of up to 90 days if continued operation would threaten the health or safety of any person.
33.4 The board may extend the period for an additional 90 days if the board notified the business
33.5 that it intends to revoke or not renew a license and the hearing required under subdivision
33.6 1 has not taken place.

(3) provide explanatory information and assistance to health care practitioners to understand the nature of the therapeutic use of medical cannabis and medical cannabis products within program requirements;

(4) make available to participating health care practitioners a certification form in which a health care practitioner certifies that a patient has a qualifying medical condition and certifies whether a patient, in the health care practitioner's professional opinion, is developmentally or physically disabled and, as a result of the disability, requires assistance in administering medical cannabis or medical cannabis products or in obtaining medical cannabis or medical cannabis products from a cannabis retailer or medical cannabis business; and

(5) supervise the participation of health care practitioners in the registry reporting system, in which health care practitioners report patient treatment and health records information to the office in a manner that ensures stringent security and record keeping requirements and that prevents the unauthorized release of private data on individuals as defined in section 13.02.

Subd. 2. **Duties related to the registry program.** The Office of Medical Cannabis shall:

(1) administer the registry program according to section 342.50;

(2) provide information to patients enrolled in the registry program on the existence of federally approved clinical trials for treatment of the patient's qualifying medical condition

73.1 with medical cannabis or medical cannabis products, as an alternative to enrollment in the
73.2 registry program;

73.3 (3) maintain safety criteria with which patients must comply as a condition of participation
73.4 in the registry program, to prevent patients from undertaking any task under the influence
73.5 of medical cannabis or a medical cannabis product that would constitute negligence or
73.6 professional malpractice;

73.7 (4) review and publicly report existing medical and scientific literature regarding the
73.8 range of recommended dosages for each qualifying medical condition, the range of chemical
73.9 compositions of medical cannabis that will likely be medically beneficial for each qualifying
73.10 medical condition, and any risks of noncannabis drug interactions. This information must
73.11 be updated by December 1 of each year. The office may consult with an independent
73.12 laboratory under contract with the office or other experts in reporting and updating this
73.13 information; and

73.14 (5) annually consult with cannabis businesses about the medical cannabis and medical
73.15 cannabis products cultivated, manufactured, and offered for sale and post on the office's
73.16 website a list of the medical cannabis and medical cannabis products offered for sale by
73.17 each cannabis retailer or medical cannabis business.

73.18 Subd. 3. **Research.** (a) The Office of Medical Cannabis shall conduct or contract with
73.19 a third party to conduct research and studies using data from health records submitted to
73.20 the registry program under section 342.54 and data submitted to the registry program under
73.21 section 342.51, subdivision 4. If the office contracts with a third party for research and
73.22 studies, the third party must provide the office with access to all research and study results.
73.23 The office must submit reports on intermediate or final research results to the legislature
73.24 and major scientific journals. All data used by the office or a third party under this subdivision
73.25 may be used or reported in an aggregated, nonidentifiable form as part of a scientific,
73.26 peer-reviewed publication of research or in the creation of summary data, as defined in
73.27 section 13.02, subdivision 19.

73.28 (b) The Office of Medical Cannabis may submit medical research based on the data
73.29 collected under sections 342.51, subdivision 4, and 342.54, to any federal agency with
73.30 regulatory or enforcement authority over medical cannabis to demonstrate the effectiveness
73.31 of medical cannabis for treating or alleviating the symptoms of a qualifying medical
73.32 condition.

73.33 Subd. 4. **Reports.** The Office of Medical Cannabis shall provide regular updates to the
73.34 task force on medical cannabis therapeutic research and to the chairs and ranking minority

74.1 members of the legislative committees with jurisdiction over health and human services,
74.2 public safety, judiciary, and civil law regarding:

74.3 (1) any changes in federal law or regulatory restrictions regarding the use of medical
74.4 cannabis or hemp; and

74.5 (2) the market demand and supply in this state for products made from hemp that can
74.6 be used for medicinal purposes.

74.7 **Sec. 44. [342.54] DUTIES OF HEALTH CARE PRACTITIONERS; REGISTRY**
74.8 **PROGRAM.**

74.9 **Subdivision 1. Duties prior to a patient's enrollment in the registry program.** Prior
74.10 to a patient's enrollment in the registry program, a health care practitioner shall:

74.11 (1) determine, in the health care practitioner's medical judgment, whether a patient has
74.12 a qualifying medical condition and if so determined, provide the patient with a certification
74.13 of that diagnosis;

74.14 (2) determine whether a patient is developmentally or physically disabled and, as a result
74.15 of that disability, requires assistance in administering medical cannabis or medical cannabis
74.16 products or in obtaining medical cannabis or medical cannabis products from a cannabis
74.17 retailer or medical cannabis business and if so determined, include that determination on
74.18 the patient's certification of diagnosis;

74.19 (3) advise patients, registered designated caregivers, and parents, legal guardians, and
74.20 spouses acting as caregivers of any nonprofit patient support groups or organizations;

74.21 (4) provide to patients explanatory information from the Office of Medical Cannabis,
74.22 including information about the experimental nature of the therapeutic use of medical
74.23 cannabis; the possible risks, benefits, and side effects of the proposed treatment; and the
74.24 application and other materials from the office;

74.25 (5) provide to patients a Tennessean warning as required under section 13.04, subdivision
74.26 2; and

74.27 (6) agree to continue treatment of the patient's qualifying medical condition and to report
74.28 findings to the Office of Medical Cannabis.

74.29 **Subd. 2. Duties upon a patient's enrollment in the registry program.** Upon notification
74.30 from the Office of Medical Cannabis of the patient's enrollment in the registry program a
74.31 health care practitioner shall:

75.1 (1) participate in the patient registry reporting system under the guidance and supervision
75.2 of the Office of Medical Cannabis;

75.3 (2) report to the Office of Medical Cannabis patient health records throughout the patient's
75.4 ongoing treatment in a manner determined by the office and in accordance with subdivision
75.5 4;

75.6 (3) determine on a yearly basis if the patient continues to have a qualifying medical
75.7 condition and, if so, issue the patient a new certification of that diagnosis. The patient
75.8 assessment conducted under this clause may be conducted via telemedicine, as defined in
75.9 section 62A.671, subdivision 9; and

75.10 (4) otherwise comply with requirements established by the board and the Office of
75.11 Medical Cannabis.

75.12 Subd. 3. **Participation not required.** Nothing in this section requires a health care
75.13 practitioner to participate in the registry program.

75.14 Subd. 4. **Data.** Data on patients collected by a health care practitioner and reported to
75.15 the registry program are health records under section 144.291 and are private data on
75.16 individuals under section 13.02, but may be used or reported in an aggregated, nonidentifiable
75.17 form as part of a scientific, peer-reviewed publication of research conducted under section
75.18 342.53 or in the creation of summary data, as defined in section 13.02, subdivision 19.

75.19 Sec. 45. **[342.55] TASK FORCE ON MEDICAL CANNABIS THERAPEUTIC**
75.20 **RESEARCH.**

75.21 Subdivision 1. **Establishment.** (a) A 23-member task force on medical cannabis
75.22 therapeutic research is created to conduct an impact assessment of medical cannabis
75.23 therapeutic research. The task force shall consist of the following members:

75.24 (1) two members of the house of representatives, one selected by the speaker of the
75.25 house and one selected by the minority leader;

75.26 (2) two members of the senate, one selected by the majority leader and one selected by
75.27 the minority leader;

75.28 (3) four members representing patients enrolled in the registry program, including at
75.29 least two parents of patients under age 18;

75.30 (4) four members representing health care providers, including one licensed pharmacist;

75.31 (5) four members representing law enforcement, one from the Minnesota Chiefs of
75.32 Police Association, one from the Minnesota Sheriff's Association, one from the Minnesota

76.1 Police and Peace Officers Association, and one from the Minnesota County Attorneys
76.2 Association;

76.3 (6) four members representing substance use disorder treatment providers; and

76.4 (7) the commissioners of health, human services, and public safety.

76.5 (b) Task force members listed under paragraph (a), clauses (3), (4), (5), and (6), shall
76.6 be appointed by the governor using the appointment process in section 15.0597. Members
76.7 shall serve on the task force at the pleasure of the appointing authority.

76.8 (c) There shall be two cochair of the task force chosen from the members listed under
76.9 paragraph (a). One cochair shall be selected by the speaker of the house and one cochair
76.10 shall be selected by the majority leader of the senate. The authority to convene meetings
76.11 shall alternate between cochairs.

76.12 (d) Members of the task force other than those listed in paragraph (a), clauses (1), (2),
76.13 and (7), shall receive reimbursement for expenses according to section 15.059, subdivision
76.14 6.

76.15 Subd. 2. **Administration.** The board shall provide administrative and technical support
76.16 to the task force.

76.17 Subd. 3. **Impact assessment.** The task force shall hold hearings to evaluate the impact
76.18 of the use of medical cannabis, medical cannabis products, and hemp and Minnesota's
76.19 activities involving medical cannabis, medical cannabis products, and hemp, including but
76.20 not limited to:

76.21 (1) program design and implementation;

76.22 (2) the impact on the health care provider community;

76.23 (3) patient experiences;

76.24 (4) the impact on the incidence of substance use disorders;

76.25 (5) access to and the quality of medical cannabis, medical cannabis products, and hemp;

76.26 (6) the impact on law enforcement and prosecutions;

76.27 (7) public awareness and perception; and

76.28 (8) any unintended consequences.

76.29 Subd. 4. **Reports; recommendations.** By February 15 of each odd-numbered year, the
76.30 cochairs of the task force shall submit a complete impact assessment report to the chairs
76.31 and ranking minority members of the legislative committees with jurisdiction over health

77.1 and human services, public safety, judiciary, and civil law. The task force may make
77.2 recommendations or submit petitions to the legislature or to the board on whether to add or
77.3 remove conditions from the list of qualifying medical conditions.

77.4 Subd. 5. **No expiration.** Notwithstanding section 15.059, subdivision 6, the task force
77.5 on medical cannabis therapeutic research does not expire.

77.6 Sec. 46. **[342.56] LIMITATIONS.**

77.7 Subdivision 1. **Limitations on consumption; locations of consumption.** Nothing in
77.8 sections 342.50 to 342.59 permits any person to engage in, and does not prevent the
77.9 imposition of any civil, criminal, or other penalties for:

77.10 (1) undertaking a task under the influence of medical cannabis or medical cannabis
77.11 products that would constitute negligence or professional malpractice;

77.12 (2) possessing or consuming medical cannabis or medical cannabis products:

77.13 (i) on a school bus or van;

77.14 (ii) in a correctional facility; or

77.15 (iii) on the grounds of a child care facility or family or group family day care program;

77.16 (3) vaporizing medical cannabis or medical cannabis products:

77.17 (i) on any form of public transportation;

77.18 (ii) where the vapor would be inhaled by a nonpatient minor; or

77.19 (iii) in any public place, including any indoor or outdoor area used by or open to the
77.20 general public or a place of employment as defined in section 144.413, subdivision 1b; and

77.21 (4) operating, navigating, or being in actual physical control of a motor vehicle, aircraft,
77.22 train, or motorboat, or working on transportation property, equipment, or facilities while
77.23 under the influence of medical cannabis or a medical cannabis product.

77.24 Subd. 2. **Consumption and possession on school grounds.** An elementary or secondary
77.25 school pupil or a child participating or enrolled in a prekindergarten program is permitted
77.26 to possess medical cannabis and medical cannabis products, have medical cannabis and
77.27 medical cannabis products stored, and self-administer medical cannabis and medical cannabis
77.28 products or have medical cannabis and medical cannabis products administered, on the
77.29 grounds of a prekindergarten program, elementary school, or secondary school if:

77.30 (1) the child or pupil is enrolled as a patient in the registry program;

78.1 (2) the possession, storage, and administration occur in compliance with all applicable
78.2 policies or guidelines adopted by the school board;

78.3 (3) the pupil or the child's or pupil's parent submits to the school, a form developed by
78.4 the board and completed by the child's or pupil's health care practitioner and by a pharmacist
78.5 employed by the cannabis retailer or medical cannabis business that distributes the child's
78.6 or pupil's medical cannabis or medical cannabis products. The form must specify the child's
78.7 or pupil's qualifying medical condition, the dosage of medical cannabis or medical cannabis
78.8 product, the frequency with which the medical cannabis or medical cannabis product must
78.9 be administered, circumstances that warrant administration, and other relevant information;
78.10 and

78.11 (4) the medical cannabis or medical cannabis product is administered or self-administered
78.12 in a manner that does not disrupt the educational environment or expose other children or
78.13 pupils to medical cannabis or medical cannabis products.

78.14 (b) Only a pupil who is age 18 or older is permitted to self-administer medical cannabis
78.15 or medical cannabis products under this subdivision.

78.16 (c) The school board may adopt policies or guidelines establishing reasonable parameters
78.17 for the storage and administration of medical cannabis and medical cannabis products under
78.18 this subdivision, but shall not unreasonably limit a child's or pupil's access to or use of
78.19 medical cannabis or medical cannabis products.

78.20 (d) A school may designate specific locations on school grounds where medical cannabis
78.21 and medical cannabis products may be administered or self-administered.

78.22 Subd. 3. **Health care facilities.** (a) Health care facilities licensed under chapter 144A;
78.23 hospice providers licensed under chapter 144A; boarding care homes or supervised living
78.24 facilities licensed under section 144.50; assisted living facilities; facilities owned, controlled,
78.25 managed, or under common control with hospitals licensed under chapter 144; and other
78.26 health care facilities licensed by the commissioner of health, may adopt reasonable
78.27 restrictions on the use of medical cannabis and medical cannabis products by a patient
78.28 enrolled in the registry program who resides at or is actively receiving treatment or care at
78.29 the facility. The restrictions may include a provision that the facility will not store or maintain
78.30 a patient's supply of medical cannabis or medical cannabis products, that the facility is not
78.31 responsible for providing medical cannabis or medical cannabis products for patients, and
78.32 that medical cannabis and medical cannabis products may be used only in a location specified
78.33 by the facility or provider.

79.1 (b) An employee or agent of a facility or provider listed in this subdivision or a person
79.2 licensed under chapter 144E is not violating this chapter or chapter 152 for possession of
79.3 medical cannabis or medical cannabis products while carrying out employment duties,
79.4 including providing or supervising care to a patient enrolled in the registry program, or
79.5 distribution of medical cannabis or medical cannabis products to a patient enrolled in the
79.6 registry program who resides at or is actively receiving treatment or care at the facility or
79.7 from the provider with which the employee or agent is affiliated. Nothing in this subdivision
79.8 shall require facilities and providers listed in this subdivision to adopt such restrictions, and
79.9 no facility or provider listed in this subdivision shall unreasonably limit a patient's access
79.10 to or use of medical cannabis or medical cannabis products to the extent that such use is
79.11 authorized under sections 342.50 to 342.59.

79.12 **Sec. 47. [342.57] PROTECTIONS FOR REGISTRY PROGRAM PARTICIPANTS.**

79.13 Subdivision 1. **Presumption.** There is a presumption that a patient enrolled in the registry
79.14 program is engaged in the authorized use of medical cannabis and medical cannabis products.
79.15 This presumption may be rebutted by evidence that the patient's use of medical cannabis or
79.16 medical cannabis products was not for the purpose of treating or alleviating the patient's
79.17 qualifying medical condition or symptoms associated with the patient's qualifying medical
79.18 condition.

79.19 Subd. 2. **Criminal and civil protections.** (a) Subject to section 342.56, the following
79.20 are not violations of this chapter or chapter 152:

79.21 (1) use or possession of medical cannabis, medical cannabis products, or medical cannabis
79.22 paraphernalia by a patient enrolled in the registry program;

79.23 (2) possession of medical cannabis, medical cannabis products, or medical cannabis
79.24 paraphernalia by a registered designated caregiver or a parent, legal guardian, or spouse of
79.25 a patient enrolled in the registry program; or

79.26 (3) possession of medical cannabis, medical cannabis products, or medical cannabis
79.27 paraphernalia by any person while carrying out duties required under sections 342.50 to
79.28 342.59.

79.29 (b) Board members, board employees, agents or contractors of the board, and health
79.30 care practitioners participating in the registry program are not subject to any civil penalties
79.31 or disciplinary action by the Board of Medical Practice, the Board of Nursing, or any
79.32 business, occupational, or professional licensing board or entity solely for participating in
79.33 the registry program. A pharmacist licensed under chapter 151 is not subject to any civil

80.1 penalties or disciplinary action by the Board of Pharmacy when acting in accordance with
80.2 sections 342.50 to 342.59. Nothing in this section prohibits a professional licensing board
80.3 from taking action in response to a violation of law.

80.4 (c) Notwithstanding any law to the contrary, a board member, the governor, or an
80.5 employee of a state agency shall not be held civilly or criminally liable for any injury, loss
80.6 of property, personal injury, or death caused by any act or omission while acting within the
80.7 scope of office or employment under sections 342.50 to 342.59.

80.8 (d) Federal, state, and local law enforcement authorities are prohibited from accessing
80.9 the registry except when acting pursuant to a valid search warrant. Notwithstanding section
80.10 13.09, a violation of this paragraph is a gross misdemeanor.

80.11 (e) Notwithstanding any law to the contrary, board members and public employees shall
80.12 not release data or information about an individual contained in any report or document or
80.13 in the registry, and shall not release data or information obtained about a patient enrolled
80.14 in the registry program, except as provided in sections 342.50 to 342.59. Notwithstanding
80.15 section 13.09, a violation of this paragraph is a gross misdemeanor.

80.16 (f) No information contained in a report or document, contained in the registry, or
80.17 obtained from a patient under sections 342.50 to 342.59 may be admitted as evidence in a
80.18 criminal proceeding, unless:

80.19 (1) the information is independently obtained; or

80.20 (2) admission of the information is sought in a criminal proceeding involving a criminal
80.21 violation of sections 342.50 to 342.59.

80.22 (g) An attorney shall not be subject to disciplinary action by the Minnesota Supreme
80.23 Court or professional responsibility board for providing legal assistance to prospective or
80.24 licensed medical cannabis businesses or others for activities that do not violate this chapter
80.25 or chapter 152.

80.26 (h) Possession of a registry verification or an application for enrollment in the registry
80.27 program:

80.28 (1) does not constitute probable cause or reasonable suspicion;

80.29 (2) shall not be used to support a search of the person or property of the person with a
80.30 registry verification or applying to enroll in the registry program; and

80.31 (3) shall not subject the person or the property of the person to inspection by any
80.32 government agency.

81.1 Subd. 3. **School enrollment; rental property.** (a) No school may refuse to enroll a
81.2 patient as a pupil or otherwise penalize a patient solely because the patient is enrolled in
81.3 the registry program, unless failing to do so would violate federal law or regulations or
81.4 cause the school to lose a monetary or licensing-related benefit under federal law or
81.5 regulations.

81.6 (b) No landlord may refuse to lease to a patient or otherwise penalize a patient solely
81.7 because the patient is enrolled in the registry program, unless failing to do so would violate
81.8 federal law or regulations or cause the landlord to lose a monetary or licensing-related
81.9 benefit under federal law or regulations.

81.10 Subd. 4. **Medical care.** For purposes of medical care, including organ transplants, a
81.11 patient's use of medical cannabis or medical cannabis products according to sections 342.50
81.12 to 342.59 is considered the equivalent of the authorized use of a medication used at the
81.13 discretion of a health care practitioner and does disqualify a patient from needed medical
81.14 care.

81.15 Subd. 5. **Employment.** (a) Unless a failure to do so would violate federal or state law
81.16 or regulations or cause an employer to lose a monetary or licensing-related benefit under
81.17 federal law or regulations, an employer may not discriminate against a person in hiring,
81.18 termination, or any term or condition of employment, or otherwise penalize a person, if the
81.19 discrimination is based upon:

81.20 (1) the person's status as a patient enrolled in the registry program; or

81.21 (2) a patient's positive drug test for cannabis components or metabolites, unless the
81.22 patient used, possessed, sold, transported, or was impaired by medical cannabis or a medical
81.23 cannabis product on work premises; during working hours; or while operating an employer's
81.24 machinery, vehicle, or equipment.

81.25 (b) An employee who is a patient and whose employer requires the employee to undergo
81.26 drug testing according to section 181.953 may present the employee's registry verification
81.27 as part of the employee's explanation under section 181.953, subdivision 6.

81.28 Subd. 6. **Custody; visitation; parenting time.** A person shall not be denied custody of
81.29 a minor child or visitation rights or parenting time with a minor child based solely on the
81.30 person's status as a patient enrolled in the registry program. There shall be no presumption
81.31 of neglect or child endangerment for conduct allowed under sections 342.50 to 342.59,
81.32 unless the person's behavior creates an unreasonable danger to the safety of the minor as
81.33 established by clear and convincing evidence.

82.1 Sec. 48. **[342.58] VIOLATION BY HEALTH CARE PRACTITIONER; CRIMINAL**
82.2 **PENALTY.**

82.3 A health care practitioner who knowingly refers patients to a cannabis retailer or medical
82.4 cannabis business or to a designated caregiver, who advertises as a medical cannabis business,
82.5 or who issues certifications while holding a financial interest in a cannabis retailer or medical
82.6 cannabis business is guilty of a misdemeanor and may be sentenced to imprisonment for
82.7 not more than 90 days or to payment of not more than \$1,000, or both.

82.8 Sec. 49. **[342.585] DATA PRACTICES.**

82.9 Subdivision 1. **Data classification.** Patient health records maintained by the board or
82.10 the Office of Medical Cannabis, and government data in patient health records maintained
82.11 by a health care practitioner, are classified as private data on individuals, as defined in
82.12 section 13.02, subdivision 12, or nonpublic data, as defined in section 13.02, subdivision
82.13 9.

82.14 Subd. 2. **Allowable use; prohibited use.** Data specified in subdivision 1 may be used
82.15 to comply with chapter 13, to comply with a request from the legislative auditor or the state
82.16 auditor in the performance of official duties, and for purposes specified in sections 342.50
82.17 to 342.59. Data specified in subdivision 1 and maintained by the board or Office of Medical
82.18 Cannabis shall not be used for any purpose not specified in sections 342.50 to 342.59, and
82.19 shall not be combined or linked in any manner with any other list, dataset, or database.

82.20 Sec. 50. **[342.59] CLINICAL TRIALS.**

82.21 The Office of Medical Cannabis may conduct, or award grants to health care providers
82.22 or research organizations to conduct, clinical trials on the safety and efficacy of using
82.23 medical cannabis and medical cannabis products to treat a specific health condition. A health
82.24 care provider or research organization receiving a grant under this section must provide the
82.25 office with access to all data collected in a clinical trial funded under this section. The board
82.26 may use data from clinical trials conducted or funded under this section as evidence to
82.27 approve additional qualifying medical conditions or additional allowable forms of medical
82.28 cannabis.

82.29 Sec. 51. **[342.60] TESTING.**

82.30 Subdivision 1. **Testing required.** A cannabis business shall not sell or offer for sale
82.31 cannabis or cannabis products to another cannabis business or to a customer or patient, or
82.32 otherwise transfer cannabis or cannabis products to another cannabis business, unless a

representative sample of the batch of cannabis or batch of cannabis product has been tested according to this section and rules adopted under this chapter by a cannabis testing facility licensed under this chapter, and found to meet testing standards established by the board.

Subd. 2. **Procedures and standards established by board.** (a) The board shall by rule establish procedures governing the sampling, handling, testing, storage, and transportation of cannabis and cannabis products tested under this section; the contaminants for which cannabis and cannabis products must be tested; standards for potency and homogeneity testing; and procedures applicable to cannabis businesses and cannabis testing facilities regarding cannabis and cannabis products that fail to meet the standards for allowable levels of contaminants established by the commissioner of health, that fail to meet the potency limits in this chapter, or that do not conform with the content of the cannabinoid profile listed on the label.

(b) All testing required under this section must be performed in a manner that is consistent with general requirements for testing and calibration activities.

Subd. 3. **Standards established by commissioner of health.** The commissioner of health shall by rule establish standards for allowable levels of contaminants in cannabis, cannabis products, and growing media. Contaminants for which the commissioner must establish allowable levels must include but are not limited to residual solvents, foreign material, microbiological contaminants, heavy metals, pesticide residue, mold, and mycotoxins.

Subd. 4. **Testing of samples.** On a schedule determined by the board, every cannabis cultivator, cannabis manufacturer, cannabis microbusiness, or medical cannabis business shall make each batch of cannabis or cannabis product grown or manufactured by the cannabis cultivator, cannabis manufacturer, cannabis microbusiness, or medical cannabis business available to a cannabis testing facility. The cannabis testing facility shall select one or more representative samples from each batch, test the samples for the presence of contaminants, and test the samples for potency and homogeneity and to allow the cannabis or cannabis product to be accurately labeled with its cannabinoid profile. Testing for contaminants must include testing for residual solvents, foreign material, microbiological contaminants, heavy metals, pesticide residue, mold, and mycotoxins, and may include testing for other contaminants. A cannabis testing facility must destroy or return to the cannabis cultivator, cannabis manufacturer, cannabis microbusiness, or medical cannabis business any part of the sample that remains after testing.

84.1 Subd. 5. **Test results.** (a) If a sample meets the applicable testing standards, the cannabis
84.2 testing facility shall issue a certification to the cannabis cultivator, cannabis manufacturer,
84.3 cannabis microbusiness, or medical cannabis business, and the cannabis cultivator, cannabis

This chapter provides the grounds and procedures for expungement of criminal records under section 13.82; 152.18, subdivision 1; 299C.11, where a petition is authorized under section 609A.02, subdivision 3; expungement is automatic under section 609A.05; expungement is considered by a panel under section 609A.06; or other applicable law. The remedy available is limited to a court order sealing the records and prohibiting the disclosure of their existence or their opening except under court order or statutory authority. Nothing in this chapter authorizes the destruction of records or their return to the subject of the records.

EFFECTIVE DATE. This section is effective August 1, 2021.

Sec. 2. Minnesota Statutes 2020, section 609A.03, subdivision 5, is amended to read:

Subd. 5. Nature of remedy; standard. (a) Except as otherwise provided by paragraph (b), expungement of a criminal record under this section is an extraordinary remedy to be granted only upon clear and convincing evidence that it would yield a benefit to the petitioner commensurate with the disadvantages to the public and public safety of:

(1) sealing the record; and

129.1 (2) burdening the court and public authorities to issue, enforce, and monitor an
129.2 expungement order.

129.3 (b) Except as otherwise provided by this paragraph, if the petitioner is petitioning for
129.4 the sealing of a criminal record under section 609A.02, subdivision 3, paragraph (a), clause
129.5 (1) or (2), the court shall grant the petition to seal the record unless the agency or jurisdiction
129.6 whose records would be affected establishes by clear and convincing evidence that the
129.7 interests of the public and public safety outweigh the disadvantages to the petitioner of not
129.8 sealing the record.

129.9 (c) In making a determination under this subdivision, the court shall consider:

129.10 (1) the nature and severity of the underlying crime, the record of which would be sealed;

129.11 (2) the risk, if any, the petitioner poses to individuals or society;

129.12 (3) the length of time since the crime occurred;

129.13 (4) the steps taken by the petitioner toward rehabilitation following the crime;

129.14 (5) aggravating or mitigating factors relating to the underlying crime, including the
129.15 petitioner's level of participation and context and circumstances of the underlying crime;

129.16 (6) the reasons for the expungement, including the petitioner's attempts to obtain
129.17 employment, housing, or other necessities;

129.18 (7) the petitioner's criminal record;

129.19 (8) the petitioner's record of employment and community involvement;

129.20 (9) the recommendations of interested law enforcement, prosecutorial, and corrections
129.21 officials;

129.22 (10) the recommendations of victims or whether victims of the underlying crime were
129.23 minors;

129.24 (11) the amount, if any, of restitution outstanding, past efforts made by the petitioner
129.25 toward payment, and the measures in place to help ensure completion of restitution payment
129.26 after expungement of the record if granted; and

129.27 (12) other factors deemed relevant by the court.

129.28 (d) Notwithstanding section 13.82, 13.87, or any other law to the contrary, if the court
129.29 issues an expungement order it may require that the criminal record be sealed, the existence
129.30 of the record not be revealed, and the record not be opened except as required under
129.31 subdivision 7. Records must not be destroyed or returned to the subject of the record.

130.1 (e) Information relating to a criminal history record of an employee, former employee,
130.2 or tenant that has been expunged before the occurrence of the act giving rise to the civil
130.3 action may not be introduced as evidence in a civil action against a private employer or
130.4 landlord or its employees or agents that is based on the conduct of the employee, former
130.5 employee, or tenant.

130.6 **EFFECTIVE DATE.** This section is effective August 1, 2021.

130.7 Sec. 3. Minnesota Statutes 2020, section 609A.03, subdivision 9, is amended to read:

130.8 Subd. 9. **Stay of order; appeal.** An expungement order issued under this section shall
130.9 be stayed automatically for 60 days after the order is filed and, if the order is appealed,
130.10 during the appeal period. A person or an agency or jurisdiction whose records would be
130.11 affected by the order may appeal the order within 60 days of service of notice of filing of
130.12 the order. An agency or jurisdiction or its officials or employees need not file a cost bond
130.13 or supersedeas bond in order to further stay the proceedings or file an appeal.

133.7 Subd. 3. **Bureau of Criminal Apprehension to identify eligible records.** (a) The
133.8 Bureau of Criminal Apprehension shall identify convictions and sentences where adjudication
133.9 was stayed that qualify for review under subdivision 2, paragraph (a), clause (1).

134.9 Subd. 6. **Review and determination.** (a) The Cannabis Expungement Board shall review
134.10 all available records to determine whether the conviction or stay of adjudication is eligible
134.11 for expungement or resentencing. Expungement under this section is presumed to be in the
134.12 public interest unless there is clear and convincing evidence that expungement or resentencing
134.13 would create a risk to public safety.

134.14 (b) If the Cannabis Expungement Board determines that expungement is in the public
134.15 interest, the board shall determine whether the limitations under section 609A.03, subdivision
134.16 5a, apply.

134.17 (c) If the Cannabis Expungement Board determines that expungement is in the public
134.18 interest, the board shall determine whether the limitations under section 609A.03, subdivision
134.19 7a, paragraph (b), clause (4) or (5), apply.

134.20 (d) If the Cannabis Expungement Board determines that expungement is not in the public
134.21 interest, the board shall determine whether the person is eligible for resentencing to a lesser
134.22 offense.

134.23 (e) In making a determination under this subdivision, the Cannabis Expungement Board
134.24 shall consider:

134.25 (1) the nature and severity of the underlying crime, including but not limited to the total
134.26 amount of marijuana or tetrahydrocannabinols possessed by the person and whether the
134.27 offense involved a dangerous weapon, the intentional infliction of bodily harm on another,
134.28 an attempt to inflict bodily harm on another, or an act committed with the intent to cause
134.29 fear in another of immediate bodily harm or death;

134.30 (2) whether expungement or conviction of a lesser offense would increase the risk, if
134.31 any, the person poses to individuals or society;

134.32 (3) if the person is under sentence, whether expungement or resentencing would result
134.33 in the release of the person and whether release prior to the time the person would be released

135.1 under the sentence currently being served presents a danger to the public and is compatible
135.2 with the welfare of society;

135.3 (4) aggravating or mitigating factors relating to the underlying crime, including the
135.4 person's level of participation and context and circumstances of the underlying crime;

135.5 (5) statements from victims and law enforcement, if any;

135.6 (6) if an expungement or reduction to a nonfelony offense is considered, whether there
135.7 is good cause to restore the person's right to possess firearms and ammunition;

135.8 (7) if an expungement is considered, whether an expunged record of a conviction or stay
135.9 of adjudication may be opened for purposes of a background study under section 245C.08;

135.10 (8) if an expungement is considered, whether an expunged record of a conviction or stay
135.11 of adjudication may be opened for purposes of a background check required under section
135.12 122A.18, subdivision 8; and

135.13 (9) other factors deemed relevant by the Cannabis Expungement Board.

135.14 (f) The affirmative vote of three members is required for action taken at any meeting.

135.15 Subd. 7. **Notice to judicial branch and offenders.** (a) The Cannabis Expungement
135.16 Board shall identify any conviction or stay of adjudication that qualifies for an order of
135.17 expungement or resentencing and notify the judicial branch of:

135.18 (1) the name and date of birth of a person whose conviction or stay of adjudication is
135.19 eligible for an order of expungement or resentencing;

135.20 (2) the case number of the eligible conviction or stay of adjudication;

135.21 (3) whether the person is eligible for expungement;

135.22 (4) if the person is eligible for expungement, whether there is good cause to restore the
135.23 offender's right to possess firearms and ammunition;

135.24 (5) if the person is eligible for expungement, whether the limitations under section
135.25 609A.03, subdivision 7a, clause (4) or (5), apply; and

135.26 (6) if the person is eligible for resentencing, the lesser sentence to be imposed.

135.27 (b) The Cannabis Expungement Board shall make a reasonable and good faith effort to
135.28 notify any person whose conviction or stay of adjudication qualifies for an order of
135.29 expungement that the offense qualifies and notice is being sent to the judicial branch. Notice
135.30 sent pursuant to this paragraph shall inform the person that, following the order of

136.1 expungement, any records of an arrest, conviction, or incarceration should not appear on
136.2 any background check or study.

136.3 Subd. 8. **Data classification.** All data collected, created, received, maintained, or
136.4 disseminated by the Cannabis Expungement Board in which each victim of a crime and
136.5 person whose conviction or stay of adjudication the Cannabis Expungement Board reviews
136.6 is or can be identified as the subject of the data is classified as private data on individuals,
136.7 as defined by section 13.02, subdivision 12.

136.8 Subd. 9. **Order of expungement.** (a) Upon receiving notice that an offense qualifies
136.9 for expungement, the court shall issue an order sealing all records relating to an arrest,
136.10 indictment or information, trial, verdict, or dismissal and discharge for an offense described
136.11 in subdivision 1.

136.12 (b) If the Cannabis Expungement Board determined that there is good cause to restore
136.13 the person's right to possess firearms and ammunition, the court shall issue an order pursuant
136.14 to section 609.165, subdivision 1d.

136.15 (c) If the Cannabis Expungement Board determined that an expunged record of a
136.16 conviction or stay of adjudication may not be opened for purposes of a background study
136.17 under section 245C.08, the court shall direct the order specifically to the commissioner of
136.18 human services.

136.19 (d) If the Cannabis Expungement Board determined that an expunged record of a
136.20 conviction or stay of adjudication may not be opened for purposes of a background check
136.21 required under section 122A.18, subdivision 8, the court shall direct the order specifically
136.22 to the Professional Educator Licensing and Standards Board.

136.23 (e) The court administrator shall send a copy of an expungement order issued under this
136.24 section to each agency and jurisdiction whose records are affected by the terms of the order
136.25 and send a letter to the last known address of the person whose offense has been expunged
136.26 identifying each agency to which the order was sent.

136.27 (f) Data on the person whose offense has been expunged in a letter sent under this
136.28 subdivision are private data on individuals as defined in section 13.02.

136.29 Subd. 10. **Resentencing.** (a) If the Cannabis Expungement Board determined that a
136.30 person is eligible for resentencing to a lesser sentence and the person is currently under
136.31 sentence, the court shall proceed as if the appellate court directed a reduction of the conviction
136.32 to an offense of lesser degree pursuant to rule 28.02, subdivision 12 of the Rules of Criminal
136.33 Procedure.

137.1 (b) If the Cannabis Expungement Board determined that a person is eligible for
137.2 resentencing to a lesser sentence and the person completed or has been discharged from the
137.3 sentence, the court may issue an order amending the conviction to an offense of lesser degree
137.4 without holding a hearing.

137.5 (c) If the Cannabis Expungement Board determined that there is good cause to restore
137.6 the person's right to possess firearms and ammunition, the court shall, as necessary, issue
137.7 an order pursuant to section 609.165, subdivision 1d.

144.3 Subdivision 1. **Use of licensed, accredited, or certified laboratory required.** (a) An
144.4 employer who requests or requires an employee or job applicant to undergo drug or alcohol
144.5 testing or cannabis testing shall use the services of a testing laboratory that meets one of
144.6 the following criteria for drug testing:

144.7 (1) is certified by the National Institute on Drug Abuse as meeting the mandatory
144.8 guidelines published at 53 Federal Register 11970 to 11989, April 11, 1988;

144.20 laboratory that is not certified by the National Institute on Drug Abuse according to
144.21 subdivision 1 shall follow the chain-of-custody procedures prescribed for employers in
144.22 subdivision 5. A testing laboratory shall conduct a confirmatory test on all samples that
144.23 produced a positive test result on an initial screening test. A laboratory shall disclose to the
144.24 employer a written test result report for each sample tested within three working days after
144.25 a negative test result on an initial screening test or, when the initial screening test produced
144.26 a positive test result, within three working days after a confirmatory test. A test report must
144.27 indicate the drugs, alcohol, ~~or drug or alcohol metabolites~~, or cannabis or cannabis
144.28 metabolites tested for and whether the test produced negative or positive test results. A
144.29 laboratory shall retain and properly store for at least six months all samples that produced
144.30 a positive test result.

144.31 Subd. 4. **Prohibitions on employers.** An employer may not conduct drug or alcohol
144.32 testing or cannabis testing of its own employees and job applicants using a testing laboratory
144.33 owned and operated by the employer; except that, one agency of the state may test the

employees of another agency of the state. Except as provided in subdivision 9, an employer may not request or require an employee or job applicant to contribute to, or pay the cost of, drug or alcohol testing or cannabis testing under sections 181.950 to 181.954.

Subd. 5. Employer chain-of-custody procedures. An employer shall establish its own reliable chain-of-custody procedures to ensure proper record keeping, handling, labeling, and identification of the samples to be tested. The procedures must require the following:

(1) possession of a sample must be traceable to the employee from whom the sample is collected, from the time the sample is collected through the time the sample is delivered to the laboratory;

(2) the sample must always be in the possession of, must always be in view of, or must be placed in a secured area by a person authorized to handle the sample;

(3) a sample must be accompanied by a written chain-of-custody record; and

(4) individuals relinquishing or accepting possession of the sample must record the time the possession of the sample was transferred and must sign and date the chain-of-custody record at the time of transfer.

Subd. 6. Rights of employees and job applicants. (a) Before requesting an employee or job applicant to undergo drug or alcohol testing or requesting cannabis testing, an employer shall provide the employee or job applicant with a form, developed by the employer, on which to acknowledge that the employee or job applicant has seen the employer's drug and alcohol testing or cannabis testing policy.

(b) If an employee or job applicant tests positive for drug use or cannabis use, the employee must be given written notice of the right to explain the positive test and the employer may request that the employee or job applicant indicate any over-the-counter or prescription medication that the individual is currently taking or has recently taken and any other information relevant to the reliability of, or explanation for, a positive test result.

(c) Within three working days after notice of a positive test result on a confirmatory test, the employee or job applicant may submit information to the employer, in addition to any information already submitted under paragraph (b), to explain that result, or may request a confirmatory retest of the original sample at the employee's or job applicant's own expense as provided under subdivision 9.

Subd. 7. Notice of test results. Within three working days after receipt of a test result report from the testing laboratory, an employer shall inform in writing an employee or job applicant who has undergone drug or alcohol testing or cannabis testing of (1) a negative

test result on an initial screening test or of a negative or positive test result on a confirmatory test and (2) the right provided in subdivision 8. In the case of a positive test result on a confirmatory test, the employer shall also, at the time of this notice, inform the employee or job applicant in writing of the rights provided in subdivisions 6, paragraph (b), 9, and either subdivision 10 or 11, whichever applies.

Subd. 8. Right to test result report. An employee or job applicant has the right to request and receive from the employer a copy of the test result report on any drug or alcohol test or cannabis test.

Subd. 9. Confirmatory retests. An employee or job applicant may request a confirmatory retest of the original sample at the employee's or job applicant's own expense after notice of a positive test result on a confirmatory test. Within five working days after notice of the confirmatory test result, the employee or job applicant shall notify the employer in writing of the employee's or job applicant's intention to obtain a confirmatory retest. Within three working days after receipt of the notice, the employer shall notify the original testing laboratory that the employee or job applicant has requested the laboratory to conduct the confirmatory retest or transfer the sample to another laboratory licensed under subdivision 1 to conduct the confirmatory retest. The original testing laboratory shall ensure that the chain-of-custody procedures in subdivision 3 are followed during transfer of the sample to the other laboratory. The confirmatory retest must use the same drug or alcohol or cannabis testing threshold detection levels as used in the original confirmatory test. If the confirmatory retest does not confirm the original positive test result, no adverse personnel action based on the original confirmatory test may be taken against the employee or job applicant.

Subd. 10. Limitations on employee discharge, discipline, or discrimination. (a) An employer may not discharge, discipline, discriminate against, or request or require rehabilitation of an employee on the basis of a positive test result from an initial screening test that has not been verified by a confirmatory test.

(b) In addition to the limitation under paragraph (a), an employer may not discharge an employee for whom a positive test result on a confirmatory test was the first such result for the employee on a drug or alcohol test or cannabis test requested by the employer unless the following conditions have been met:

(1) the employer has first given the employee an opportunity to participate in, at the employee's own expense or pursuant to coverage under an employee benefit plan, either a drug ~~or~~ or alcohol, or cannabis counseling or rehabilitation program, whichever is more appropriate, as determined by the employer after consultation with a certified chemical use

147.1 counselor or a physician trained in the diagnosis and treatment of chemical dependency;
147.2 and

147.3 (2) the employee has either refused to participate in the counseling or rehabilitation
147.4 program or has failed to successfully complete the program, as evidenced by withdrawal
147.5 from the program before its completion or by a positive test result on a confirmatory test
147.6 after completion of the program.

147.7 (c) Notwithstanding paragraph (a), an employer may temporarily suspend the tested
147.8 employee or transfer that employee to another position at the same rate of pay pending the
147.9 outcome of the confirmatory test and, if requested, the confirmatory retest, provided the
147.10 employer believes that it is reasonably necessary to protect the health or safety of the
147.11 employee, coemployees, or the public. An employee who has been suspended without pay
147.12 must be reinstated with back pay if the outcome of the confirmatory test or requested
147.13 confirmatory retest is negative.

147.14 (d) An employer may not discharge, discipline, discriminate against, or request or require
147.15 rehabilitation of an employee on the basis of medical history information revealed to the
147.16 employer pursuant to subdivision 6 unless the employee was under an affirmative duty to
147.17 provide the information before, upon, or after hire.

147.18 (e) An employee must be given access to information in the employee's personnel file
147.19 relating to positive test result reports and other information acquired in the drug and alcohol
147.20 testing or cannabis testing process and conclusions drawn from and actions taken based on
147.21 the reports or other acquired information.

147.22 Subd. 10a. **Additional limitations for cannabis.** An employer may discipline, discharge,
147.23 or take other adverse personnel action against an employee for cannabis use, possession,
147.24 impairment, sale, or transfer while an employee is working, on the employer's premises, or
147.25 operating the employer's vehicle, machinery, or equipment as follows:

147.26 (1) if an employee is impaired from cannabis;

147.27 (2) if cannabis testing requested or required pursuant to section 181.951, subdivision 8,
147.28 paragraphs (d) and (e), verifies the presence of cannabis following a confirmatory test;

147.29 (3) as provided in the employer's written work rules for cannabis and cannabis testing,
147.30 provided that the rules are in writing and contained in a written policy that contains the
147.31 minimum information required by section 181.952; or

147.32 (4) as otherwise authorized under state or federal law.

148.1 Subd. 11. **Limitation on withdrawal of job offer.** If a job applicant has received a job
148.2 offer made contingent on the applicant passing drug and alcohol testing, the employer may
148.3 not withdraw the offer based on a positive test result from an initial screening test that has
148.4 not been verified by a confirmatory test.

148.5 Sec. 17. Minnesota Statutes 2020, section 181.954, is amended to read:

148.6 **181.954 PRIVACY, CONFIDENTIALITY, AND PRIVILEGE SAFEGUARDS.**

148.7 Subdivision 1. **Privacy limitations.** A laboratory may only disclose to the employer test
148.8 result data regarding the presence or absence of drugs, alcohol, cannabis, or their metabolites
148.9 in a sample tested.

148.10 Subd. 2. **Confidentiality limitations.** Test result reports and other information acquired
148.11 in the drug or alcohol testing or cannabis testing process are, with respect to private sector
148.12 employees and job applicants, private and confidential information, and, with respect to
148.13 public sector employees and job applicants, private data on individuals as that phrase is
148.14 defined in chapter 13, and may not be disclosed by an employer or laboratory to another
148.15 employer or to a third-party individual, governmental agency, or private organization without
148.16 the written consent of the employee or job applicant tested.

148.17 Subd. 3. **Exceptions to privacy and confidentiality disclosure**
148.18 **limitations.** Notwithstanding subdivisions 1 and 2, evidence of a positive test result on a
148.19 confirmatory test may be: (1) used in an arbitration proceeding pursuant to a collective
148.20 bargaining agreement, an administrative hearing under chapter 43A or other applicable state
148.21 or local law, or a judicial proceeding, provided that information is relevant to the hearing
148.22 or proceeding; (2) disclosed to any federal agency or other unit of the United States
148.23 government as required under federal law, regulation, or order, or in accordance with
148.24 compliance requirements of a federal government contract; and (3) disclosed to a substance
148.25 abuse treatment facility for the purpose of evaluation or treatment of the employee.

148.26 Subd. 4. **Privilege.** Positive test results from an employer drug or alcohol testing or
148.27 cannabis testing program may not be used as evidence in a criminal action against the
148.28 employee or job applicant tested.

148.29 Sec. 18. Minnesota Statutes 2020, section 181.955, is amended to read:

148.30 **181.955 CONSTRUCTION.**

148.31 Subdivision 1. **Freedom to collectively bargain.** Sections 181.950 to 181.954 shall not
148.32 be construed to limit the parties to a collective bargaining agreement from bargaining and

agreeing with respect to a drug and alcohol testing or a cannabis testing policy that meets or exceeds, and does not otherwise conflict with, the minimum standards and requirements for employee protection provided in those sections.

Subd. 2. Employee protections under existing collective bargaining agreements. Sections 181.950 to 181.954 shall not be construed to interfere with or diminish any employee protections relating to drug and alcohol testing or cannabis testing already provided under collective bargaining agreements in effect on the effective date of those sections that exceed the minimum standards and requirements for employee protection provided in those sections.

Subd. 3. Professional athletes. Sections 181.950 to 181.954 shall not be construed to interfere with the operation of a drug and alcohol testing or cannabis testing program if:

(1) the drug and alcohol testing or cannabis testing program is permitted under a contract between the employer and employees; and

(2) the covered employees are employed as professional athletes.

Upon request of the commissioner of labor and industry, the exclusive representative of the employees and the employer shall certify to the commissioner of labor and industry that the drug and alcohol testing or cannabis testing program permitted under the contract should operate without interference from the sections specified in this subdivision. This subdivision must not be construed to create an exemption from controlled substance crimes in chapter 152.

Sec. 19. Minnesota Statutes 2020, section 181.957, subdivision 1, is amended to read:

Subdivision 1. Excluded employees and job applicants. Except as provided under subdivision 2, the employee and job applicant protections provided under sections 181.950 to 181.956 do not apply to employees and job applicants where the specific work performed requires those employees and job applicants to be subject to drug and alcohol testing or cannabis testing pursuant to:

(1) federal regulations that specifically preempt state regulation of drug and alcohol testing or cannabis testing with respect to those employees and job applicants;

(2) federal regulations or requirements necessary to operate federally regulated facilities;

(3) federal contracts where the drug and alcohol testing or cannabis testing is conducted for security, safety, or protection of sensitive or proprietary data; or

(4) state agency rules that adopt federal regulations applicable to the interstate component of a federally regulated industry, and the adoption of those rules is for the purpose of conforming the nonfederally regulated intrastate component of the industry to identical regulation.

Sec. 20. Minnesota Statutes 2020, section 256.01, subdivision 18c, is amended to read:

Subd. 18c. Drug convictions. (b) The commissioner shall determine whether the individuals who are the subject of the data reported under paragraph (a) are receiving public assistance under chapter 256D or 256J, and if ~~the~~ an individual is receiving assistance under chapter 256D or 256J, the commissioner shall instruct the county to proceed under section 256D.024 or 256J.26, whichever is applicable, for this individual.

~~(d) In addition to the routine data transfer under paragraph (a), the state court administrator shall provide a onetime report of the data fields under paragraph (a) for individuals with a felony drug conviction under chapter 152 dated from July 1, 1997, until the date of the data transfer. The commissioner shall perform the tasks identified under paragraph (b) related to this data and shall retain the data according to paragraph (c).~~

Sec. 21. Minnesota Statutes 2020, section 256D.024, subdivision 1, is amended to read:

Subdivision 1. Person convicted of drug offenses. (a) If an applicant or recipient has been convicted of a drug offense after July 1, 1997, except for convictions related to cannabis, marijuana, or tetrahydrocannabinols, the assistance unit is ineligible for benefits under this chapter until five years after the applicant has completed terms of the court-ordered sentence, unless the person is participating in a drug treatment program, has successfully completed a drug treatment program, or has been assessed by the county and determined not to be in need of a drug treatment program. Persons subject to the limitations of this subdivision who become eligible for assistance under this chapter shall be subject to random drug testing as

151.1 a condition of continued eligibility and shall lose eligibility for benefits for five years
151.2 beginning the month following:

151.3 (1) any positive test result for an illegal controlled substance under chapter 152; or

151.4 (2) discharge of sentence after conviction for another drug felony.

151.5 (b) For the purposes of this subdivision, "drug offense" means a conviction that occurred
151.6 after July 1, 1997, of sections 152.021 to 152.025, 152.0261, 152.0262, or 152.096. Drug
151.7 offense also means a conviction in another jurisdiction of the possession, use, or distribution
151.8 of a controlled substance, or conspiracy to commit any of these offenses, if the offense
151.9 occurred after July 1, 1997, and the conviction is ~~a felony offense in that jurisdiction, or in~~
151.10 ~~the case of New Jersey, a high misdemeanor~~ for a violation that would be a felony if
151.11 committed in Minnesota.

151.12 Sec. 22. Minnesota Statutes 2020, section 256J.26, subdivision 1, is amended to read:

151.13 Subdivision 1. **Person convicted of drug offenses.** (a) An individual who has been
151.14 convicted of a felony level drug offense committed during the previous ten years from the
151.15 date of application or recertification, except for convictions related to cannabis, marijuana,
151.16 or tetrahydrocannabinols, is subject to the following:

151.17 (1) Benefits for the entire assistance unit must be paid in vendor form for shelter and
151.18 utilities during any time the applicant is part of the assistance unit.

151.19 (2) The convicted applicant or participant shall be subject to random drug testing as a
151.20 condition of continued eligibility and following any positive test for an illegal controlled
151.21 substance under chapter 152 is subject to the following sanctions:

151.22 (i) for failing a drug test the first time, the residual amount of the participant's grant after
151.23 making vendor payments for shelter and utility costs, if any, must be reduced by an amount
151.24 equal to 30 percent of the MFIP standard of need for an assistance unit of the same size.
151.25 When a sanction under this subdivision is in effect, the job counselor must attempt to meet
151.26 with the person face-to-face. During the face-to-face meeting, the job counselor must explain
151.27 the consequences of a subsequent drug test failure and inform the participant of the right to
151.28 appeal the sanction under section 256J.40. If a face-to-face meeting is not possible, the
151.29 county agency must send the participant a notice of adverse action as provided in section
151.30 256J.31, subdivisions 4 and 5, and must include the information required in the face-to-face
151.31 meeting; or

151.32 (ii) for failing a drug test two times, the participant is permanently disqualified from
151.33 receiving MFIP assistance, both the cash and food portions. The assistance unit's MFIP

152.1 grant must be reduced by the amount which would have otherwise been made available to
152.2 the disqualified participant. Disqualification under this item does not make a participant
152.3 ineligible for the Supplemental Nutrition Assistance Program (SNAP). Before a
152.4 disqualification under this provision is imposed, the job counselor must attempt to meet
152.5 with the participant face-to-face. During the face-to-face meeting, the job counselor must
152.6 identify other resources that may be available to the participant to meet the needs of the
152.7 family and inform the participant of the right to appeal the disqualification under section
152.8 256J.40. If a face-to-face meeting is not possible, the county agency must send the participant
152.9 a notice of adverse action as provided in section 256J.31, subdivisions 4 and 5, and must
152.10 include the information required in the face-to-face meeting.

152.11 (3) A participant who fails a drug test the first time and is under a sanction due to other
152.12 MFIP program requirements is considered to have more than one occurrence of
152.13 noncompliance and is subject to the applicable level of sanction as specified under section
152.14 256J.46, subdivision 1, paragraph (d).

152.15 (b) Applicants requesting only SNAP benefits or participants receiving only SNAP
152.16 benefits, who have been convicted of a drug offense that occurred after July 1, 1997, may,
152.17 if otherwise eligible, receive SNAP benefits if the convicted applicant or participant is
152.18 subject to random drug testing as a condition of continued eligibility. Following a positive
152.19 test for an illegal controlled substance under chapter 152, the applicant is subject to the
152.20 following sanctions:

152.21 (1) for failing a drug test the first time, SNAP benefits shall be reduced by an amount
152.22 equal to 30 percent of the applicable SNAP benefit allotment. When a sanction under this
152.23 clause is in effect, a job counselor must attempt to meet with the person face-to-face. During
152.24 the face-to-face meeting, a job counselor must explain the consequences of a subsequent
152.25 drug test failure and inform the participant of the right to appeal the sanction under section
152.26 256J.40. If a face-to-face meeting is not possible, a county agency must send the participant
152.27 a notice of adverse action as provided in section 256J.31, subdivisions 4 and 5, and must
152.28 include the information required in the face-to-face meeting; and

152.29 (2) for failing a drug test two times, the participant is permanently disqualified from
152.30 receiving SNAP benefits. Before a disqualification under this provision is imposed, a job
152.31 counselor must attempt to meet with the participant face-to-face. During the face-to-face
152.32 meeting, the job counselor must identify other resources that may be available to the
152.33 participant to meet the needs of the family and inform the participant of the right to appeal
152.34 the disqualification under section 256J.40. If a face-to-face meeting is not possible, a county

agency must send the participant a notice of adverse action as provided in section 256J.31, subdivisions 4 and 5, and must include the information required in the face-to-face meeting.

(c) For the purposes of this subdivision, "drug offense" means an offense that occurred during the previous ten years from the date of application or recertification of sections 152.021 to 152.025, 152.0261, 152.0262, 152.096, or 152.137. Drug offense also means a conviction in another jurisdiction of the possession, use, or distribution of a controlled substance, or conspiracy to commit any of these offenses, if the offense occurred during the previous ten years from the date of application or recertification and the conviction is a felony offense in that jurisdiction, or in the case of New Jersey, a high misdemeanor for a violation that would be a felony if committed in Minnesota.

152.25 COMMISSIONER DUTIES.

Subdivision 1. **Medical cannabis manufacturer registration.** (a) The commissioner shall register two in-state manufacturers for the production of all medical cannabis within the state. A registration agreement between the commissioner and a manufacturer is nontransferable. The commissioner shall register new manufacturers or reregister the existing manufacturers by December 1 every two years, using the factors described in this subdivision. The commissioner shall accept applications after December 1, 2014, if one of the manufacturers registered before December 1, 2014, ceases to be registered as a manufacturer. The commissioner's determination that no manufacturer exists to fulfill the duties under sections 152.22 to 152.37 is subject to judicial review in Ramsey County District Court. Data submitted during the application process are private data on individuals or nonpublic data as defined in section 13.02 until the manufacturer is registered under this section. Data on a manufacturer that is registered are public data, unless the data are trade secret or security information under section 13.37.

(1) begin supplying medical cannabis to patients by July 1, 2015; and

(2) comply with all requirements under sections 152.22 to 152.37.

(c) The commissioner shall consider the following factors when determining which manufacturer to register:

- (2) the qualifications of the manufacturer's employees;
- (3) the long-term financial stability of the manufacturer;
- (4) the ability to provide appropriate security measures on the premises of the manufacturer;
- (5) whether the manufacturer has demonstrated an ability to meet the medical cannabis production needs required by sections 152.22 to 152.37; and
- (6) the manufacturer's projection and ongoing assessment of fees on patients with a qualifying medical condition.

(d) If an officer, director, or controlling person of the manufacturer pleads or is found guilty of intentionally diverting medical cannabis to a person other than allowed by law under section 152.33, subdivision 1, the commissioner may decide not to renew the registration of the manufacturer, provided the violation occurred while the person was an officer, director, or controlling person of the manufacturer.

(e) The commissioner shall require each medical cannabis manufacturer to contract with an independent laboratory to test medical cannabis produced by the manufacturer. The commissioner shall approve the laboratory chosen by each manufacturer and require that the laboratory report testing results to the manufacturer in a manner determined by the commissioner.

Subd. 1a. Revocation or nonrenewal of a medical cannabis manufacturer registration. If the commissioner intends to revoke or not renew a registration issued under this section, the commissioner must first notify in writing the manufacturer against whom the action is to be taken and provide the manufacturer with an opportunity to request a hearing under the contested case provisions of chapter 14. If the manufacturer does not request a hearing by notifying the commissioner in writing within 20 days after receipt of the notice of proposed action, the commissioner may proceed with the action without a hearing. For revocations, the registration of a manufacturer is considered revoked on the date specified in the commissioner's written notice of revocation.

Subd. 1b. Temporary suspension proceedings. The commissioner may institute proceedings to temporarily suspend the registration of a medical cannabis manufacturer for a period of up to 90 days by notifying the manufacturer in writing if any action by an employee, agent, officer, director, or controlling person of the manufacturer:

- (1) violates any of the requirements of sections 152.21 to 152.37 or the rules adopted thereunder;
- (2) permits, aids, or abets the commission of any violation of state law at the manufacturer's location for cultivation, harvesting, manufacturing, packaging, and processing or at any site for distribution of medical cannabis;
- (3) performs any act contrary to the welfare of a registered patient or registered designated caregiver; or
- (4) obtains, or attempts to obtain, a registration by fraudulent means or misrepresentation.

Subd. 1c. Notice to patients. Upon the revocation or nonrenewal of a manufacturer's registration under subdivision 1a or implementation of an enforcement action under subdivision 1b that may affect the ability of a registered patient, registered designated caregiver, or a registered patient's parent, legal guardian, or spouse to obtain medical cannabis from the manufacturer subject to the enforcement action, the commissioner shall notify in writing each registered patient and the patient's registered designated caregiver or registered patient's parent, legal guardian, or spouse about the outcome of the proceeding and information regarding alternative registered manufacturers. This notice must be provided two or more business days prior to the effective date of the revocation, nonrenewal, or other enforcement action.

Subd. 2. Range of compounds and dosages; report. The commissioner shall review and publicly report the existing medical and scientific literature regarding the range of recommended dosages for each qualifying condition and the range of chemical compositions of any plant of the genus cannabis that will likely be medically beneficial for each of the qualifying medical conditions. The commissioner shall make this information available to patients with qualifying medical conditions beginning December 1, 2014, and update the information annually. The commissioner may consult with the independent laboratory under contract with the manufacturer or other experts

in reporting the range of recommended dosages for each qualifying medical condition, the range of chemical compositions that will likely be medically beneficial, and any risks of noncannabis drug interactions. The commissioner shall consult with each manufacturer on an annual basis on medical cannabis offered by the manufacturer. The list of medical cannabis offered by a manufacturer shall be published on the Department of Health website.

Subd. 3. **Deadlines.** The commissioner shall adopt rules necessary for the manufacturer to begin distribution of medical cannabis to patients under the registry program by July 1, 2015, and have notice of proposed rules published in the State Register prior to January 1, 2015.

Subd. 4. **Reports.** (a) The commissioner shall provide regular updates to the task force on medical cannabis therapeutic research and to the chairs and ranking minority members of the legislative committees with jurisdiction over health and human services, public safety, judiciary, and civil law regarding: (1) any changes in federal law or regulatory restrictions regarding the use of medical cannabis or hemp; and (2) the market demand and supply in this state for products made from hemp that can be used for medicinal purposes.

(b) The commissioner may submit medical research based on the data collected under sections 152.22 to 152.37 to any federal agency with regulatory or enforcement authority over medical cannabis to demonstrate the effectiveness of medical cannabis for treating a qualifying medical condition.

152.26 RULEMAKING.

The commissioner may adopt rules to implement sections 152.22 to 152.37. Rules for which notice is published in the State Register before January 1, 2015, may be adopted using the process in section 14.389.

152.261 RULES; ADVERSE INCIDENTS.

(a) The commissioner of health shall adopt rules to establish requirements for reporting incidents when individuals who are not authorized to possess medical cannabis under sections 152.22 to 152.37 are found in possession of medical cannabis. The rules must identify professionals required to report, the information they are required to report, and actions the reporter must take to secure the medical cannabis.

(b) The commissioner of health shall adopt rules to establish requirements for law enforcement officials and health care professionals to report incidents involving an overdose of medical cannabis to the commissioner of health.

(c) Rules must include the method by which the commissioner will collect and tabulate reports of unauthorized possession and overdose.

152.27 PATIENT REGISTRY PROGRAM ESTABLISHED.

Subdivision 1. **Patient registry program; establishment.** (a) The commissioner shall establish a patient registry program to evaluate data on patient demographics, effective treatment options, clinical outcomes, and quality-of-life outcomes for the purpose of reporting on the benefits, risks, and outcomes regarding patients with a qualifying medical condition engaged in the therapeutic use of medical cannabis.

(b) The establishment of the registry program shall not be construed or interpreted to condone or promote the illicit recreational use of marijuana.

Subd. 2. **Commissioner duties.** (a) The commissioner shall:

(1) give notice of the program to health care practitioners in the state who are eligible to serve as health care practitioners and explain the purposes and requirements of the program;

(2) allow each health care practitioner who meets or agrees to meet the program's requirements and who requests to participate, to be included in the registry program to collect data for the patient registry;

(3) provide explanatory information and assistance to each health care practitioner in understanding the nature of therapeutic use of medical cannabis within program requirements;

(4) create and provide a certification to be used by a health care practitioner for the practitioner to certify whether a patient has been diagnosed with a qualifying medical condition and include in the certification an option for the practitioner to certify whether the patient, in the health care practitioner's medical opinion, is developmentally or physically disabled and, as a result of that

APPENDIX
Repealed Minnesota Statutes: H0600-3

disability, the patient requires assistance in administering medical cannabis or obtaining medical cannabis from a distribution facility;

(5) supervise the participation of the health care practitioner in conducting patient treatment and health records reporting in a manner that ensures stringent security and record-keeping requirements and that prevents the unauthorized release of private data on individuals as defined by section 13.02;

(6) develop safety criteria for patients with a qualifying medical condition as a requirement of the patient's participation in the program, to prevent the patient from undertaking any task under the influence of medical cannabis that would constitute negligence or professional malpractice on the part of the patient; and

(7) conduct research and studies based on data from health records submitted to the registry program and submit reports on intermediate or final research results to the legislature and major scientific journals. The commissioner may contract with a third party to complete the requirements of this clause. Any reports submitted must comply with section 152.28, subdivision 2.

(b) The commissioner may add a delivery method under section 152.22, subdivision 6, or add or modify a qualifying medical condition under section 152.22, subdivision 14, upon a petition from a member of the public or the task force on medical cannabis therapeutic research or as directed by law. The commissioner shall evaluate all petitions to add a qualifying medical condition or modify an existing qualifying medical condition submitted by the task force on medical cannabis therapeutic research or as directed by law and shall make the addition or modification if the commissioner determines the addition or modification is warranted based on the best available evidence and research. If the commissioner wishes to add a delivery method under section 152.22, subdivision 6, or a qualifying medical condition under section 152.22, subdivision 14, the commissioner must notify the chairs and ranking minority members of the legislative policy committees having jurisdiction over health and public safety of the addition and the reasons for its addition, including any written comments received by the commissioner from the public and any guidance received from the task force on medical cannabis research, by January 15 of the year in which the commissioner wishes to make the change. The change shall be effective on August 1 of that year, unless the legislature by law provides otherwise.

Subd. 3. Patient application. (a) The commissioner shall develop a patient application for enrollment into the registry program. The application shall be available to the patient and given to health care practitioners in the state who are eligible to serve as health care practitioners. The application must include:

(1) the name, mailing address, and date of birth of the patient;

(2) the name, mailing address, and telephone number of the patient's health care practitioner;

(3) the name, mailing address, and date of birth of the patient's designated caregiver, if any, or the patient's parent, legal guardian, or spouse if the parent, legal guardian, or spouse will be acting as a caregiver;

(4) a copy of the certification from the patient's health care practitioner that is dated within 90 days prior to submitting the application which certifies that the patient has been diagnosed with a qualifying medical condition and, if applicable, that, in the health care practitioner's medical opinion, the patient is developmentally or physically disabled and, as a result of that disability, the patient requires assistance in administering medical cannabis or obtaining medical cannabis from a distribution facility; and

(5) all other signed affidavits and enrollment forms required by the commissioner under sections 152.22 to 152.37, including, but not limited to, the disclosure form required under paragraph (c).

(b) The commissioner shall require a patient to resubmit a copy of the certification from the patient's health care practitioner on a yearly basis and shall require that the recertification be dated within 90 days of submission.

(c) The commissioner shall develop a disclosure form and require, as a condition of enrollment, all patients to sign a copy of the disclosure. The disclosure must include:

(1) a statement that, notwithstanding any law to the contrary, the commissioner, or an employee of any state agency, may not be held civilly or criminally liable for any injury, loss of property, personal injury, or death caused by any act or omission while acting within the scope of office or employment under sections 152.22 to 152.37; and

APPENDIX
Repealed Minnesota Statutes: H0600-3

(2) the patient's acknowledgment that enrollment in the patient registry program is conditional on the patient's agreement to meet all of the requirements of sections 152.22 to 152.37.

Subd. 4. **Registered designated caregiver.** (a) The commissioner shall register a designated caregiver for a patient if the patient's health care practitioner has certified that the patient, in the health care practitioner's medical opinion, is developmentally or physically disabled and, as a result of that disability, the patient requires assistance in administering medical cannabis or obtaining medical cannabis from a distribution facility and the caregiver has agreed, in writing, to be the patient's designated caregiver. As a condition of registration as a designated caregiver, the commissioner shall require the person to:

(1) be at least 18 years of age;

(2) agree to only possess the patient's medical cannabis for purposes of assisting the patient; and

(3) agree that if the application is approved, the person will not be a registered designated caregiver for more than one patient, unless the patients reside in the same residence.

(b) The commissioner shall conduct a criminal background check on the designated caregiver prior to registration to ensure that the person does not have a conviction for a disqualifying felony offense. Any cost of the background check shall be paid by the person seeking registration as a designated caregiver. A designated caregiver must have the criminal background check renewed every two years.

(c) Nothing in sections 152.22 to 152.37 shall be construed to prevent a person registered as a designated caregiver from also being enrolled in the registry program as a patient and possessing and using medical cannabis as a patient.

Subd. 5. **Parents, legal guardians, and spouses.** A parent, legal guardian, or spouse of a patient may act as the caregiver to the patient without having to register as a designated caregiver. The parent, legal guardian, or spouse shall follow all of the requirements of parents, legal guardians, and spouses listed in sections 152.22 to 152.37. Nothing in sections 152.22 to 152.37 limits any legal authority a parent, legal guardian, or spouse may have for the patient under any other law.

Subd. 6. **Patient enrollment.** (a) After receipt of a patient's application, application fees, and signed disclosure, the commissioner shall enroll the patient in the registry program and issue the patient and patient's registered designated caregiver or parent, legal guardian, or spouse, if applicable, a registry verification. The commissioner shall approve or deny a patient's application for participation in the registry program within 30 days after the commissioner receives the patient's application and application fee. The commissioner may approve applications up to 60 days after the receipt of a patient's application and application fees until January 1, 2016. A patient's enrollment in the registry program shall only be denied if the patient:

(1) does not have certification from a health care practitioner that the patient has been diagnosed with a qualifying medical condition;

(2) has not signed and returned the disclosure form required under subdivision 3, paragraph (c), to the commissioner;

(3) does not provide the information required;

(4) has previously been removed from the registry program for violations of section 152.30 or 152.33; or

(5) provides false information.

(b) The commissioner shall give written notice to a patient of the reason for denying enrollment in the registry program.

(c) Denial of enrollment into the registry program is considered a final decision of the commissioner and is subject to judicial review under the Administrative Procedure Act pursuant to chapter 14.

(d) A patient's enrollment in the registry program may only be revoked upon the death of the patient or if a patient violates a requirement under section 152.30 or 152.33.

(e) The commissioner shall develop a registry verification to provide to the patient, the health care practitioner identified in the patient's application, and to the manufacturer. The registry verification shall include:

- (1) the patient's name and date of birth;
- (2) the patient registry number assigned to the patient; and
- (3) the name and date of birth of the patient's registered designated caregiver, if any, or the name of the patient's parent, legal guardian, or spouse if the parent, legal guardian, or spouse will be acting as a caregiver.

Subd. 7. **Notice requirements.** Patients and registered designated caregivers shall notify the commissioner of any address or name change within 30 days of the change having occurred. A patient or registered designated caregiver is subject to a \$100 fine for failure to notify the commissioner of the change.

152.28 HEALTH CARE PRACTITIONER DUTIES.

Subdivision 1. **Health care practitioner duties.** (a) Prior to a patient's enrollment in the registry program, a health care practitioner shall:

(1) determine, in the health care practitioner's medical judgment, whether a patient suffers from a qualifying medical condition, and, if so determined, provide the patient with a certification of that diagnosis;

(2) determine whether a patient is developmentally or physically disabled and, as a result of that disability, the patient requires assistance in administering medical cannabis or obtaining medical cannabis from a distribution facility, and, if so determined, include that determination on the patient's certification of diagnosis;

(3) advise patients, registered designated caregivers, and parents, legal guardians, or spouses who are acting as caregivers of the existence of any nonprofit patient support groups or organizations;

(4) provide explanatory information from the commissioner to patients with qualifying medical conditions, including disclosure to all patients about the experimental nature of therapeutic use of medical cannabis; the possible risks, benefits, and side effects of the proposed treatment; the application and other materials from the commissioner; and provide patients with the Tennessee warning as required by section 13.04, subdivision 2; and

(5) agree to continue treatment of the patient's qualifying medical condition and report medical findings to the commissioner.

(b) Upon notification from the commissioner of the patient's enrollment in the registry program, the health care practitioner shall:

(1) participate in the patient registry reporting system under the guidance and supervision of the commissioner;

(2) report health records of the patient throughout the ongoing treatment of the patient to the commissioner in a manner determined by the commissioner and in accordance with subdivision 2;

(3) determine, on a yearly basis, if the patient continues to suffer from a qualifying medical condition and, if so, issue the patient a new certification of that diagnosis; and

(4) otherwise comply with all requirements developed by the commissioner.

(c) A health care practitioner may conduct a patient assessment to issue a recertification as required under paragraph (b), clause (3), via telemedicine as defined under section 62A.671, subdivision 9.

(d) Nothing in this section requires a health care practitioner to participate in the registry program.

Subd. 2. **Data.** Data collected on patients by a health care practitioner and reported to the patient registry are health records under section 144.291, and are private data on individuals under section 13.02, but may be used or reported in an aggregated, nonidentifiable form as part of a scientific, peer-reviewed publication of research conducted under section 152.25 or in the creation of summary data, as defined in section 13.02, subdivision 19.

Subd. 3. **Advertising restrictions.** (a) A health care practitioner shall not publish or cause to be published any advertisement that:

(1) contains false or misleading statements about medical cannabis or about the medical cannabis registry program;

(2) uses colloquial terms to refer to medical cannabis, such as pot, weed, or grass;

APPENDIX
Repealed Minnesota Statutes: H0600-3

(3) states or implies the health care practitioner is endorsed by the Department of Health or by the medical cannabis registry program;

(4) includes images of cannabis in its plant or leaf form or of cannabis-smoking paraphernalia; or

(5) contains medical symbols that could reasonably be confused with symbols of established medical associations or groups.

(b) A health care practitioner found by the commissioner to have violated this subdivision is prohibited from certifying that patients have a qualifying medical condition for purposes of patient participation in the registry program. The commissioner's decision that a health care practitioner has violated this subdivision is a final decision of the commissioner and is not subject to the contested case procedures in chapter 14.

152.29 MANUFACTURER OF MEDICAL CANNABIS DUTIES.

Subdivision 1. **Manufacturer; requirements.** (a) A manufacturer may operate eight distribution facilities, which may include the manufacturer's single location for cultivation, harvesting, manufacturing, packaging, and processing but is not required to include that location. The commissioner shall designate the geographical service areas to be served by each manufacturer based on geographical need throughout the state to improve patient access. A manufacturer shall not have more than two distribution facilities in each geographical service area assigned to the manufacturer by the commissioner. A manufacturer shall operate only one location where all cultivation, harvesting, manufacturing, packaging, and processing of medical cannabis shall be conducted. This location may be one of the manufacturer's distribution facility sites. The additional distribution facilities may dispense medical cannabis and medical cannabis products but may not contain any medical cannabis in a form other than those forms allowed under section 152.22, subdivision 6, and the manufacturer shall not conduct any cultivation, harvesting, manufacturing, packaging, or processing at the other distribution facility sites. Any distribution facility operated by the manufacturer is subject to all of the requirements applying to the manufacturer under sections 152.22 to 152.37, including, but not limited to, security and distribution requirements.

(b) A manufacturer may acquire hemp grown in this state from a hemp grower. A manufacturer may manufacture or process hemp into an allowable form of medical cannabis under section 152.22, subdivision 6. Hemp acquired by a manufacturer under this paragraph is subject to the same quality control program, security and testing requirements, and other requirements that apply to medical cannabis under sections 152.22 to 152.37 and Minnesota Rules, chapter 4770.

(c) A medical cannabis manufacturer shall contract with a laboratory approved by the commissioner, subject to any additional requirements set by the commissioner, for purposes of testing medical cannabis manufactured or hemp acquired by the medical cannabis manufacturer as to content, contamination, and consistency to verify the medical cannabis meets the requirements of section 152.22, subdivision 6. The cost of laboratory testing shall be paid by the manufacturer.

(d) The operating documents of a manufacturer must include:

(1) procedures for the oversight of the manufacturer and procedures to ensure accurate record keeping;

(2) procedures for the implementation of appropriate security measures to deter and prevent the theft of medical cannabis and unauthorized entrance into areas containing medical cannabis; and

(3) procedures for the delivery and transportation of hemp between hemp growers and manufacturers.

(e) A manufacturer shall implement security requirements, including requirements for the delivery and transportation of hemp, protection of each location by a fully operational security alarm system, facility access controls, perimeter intrusion detection systems, and a personnel identification system.

(f) A manufacturer shall not share office space with, refer patients to a health care practitioner, or have any financial relationship with a health care practitioner.

(g) A manufacturer shall not permit any person to consume medical cannabis on the property of the manufacturer.

(h) A manufacturer is subject to reasonable inspection by the commissioner.

APPENDIX
Repealed Minnesota Statutes: H0600-3

(i) For purposes of sections 152.22 to 152.37, a medical cannabis manufacturer is not subject to the Board of Pharmacy licensure or regulatory requirements under chapter 151.

(j) A medical cannabis manufacturer may not employ any person who is under 21 years of age or who has been convicted of a disqualifying felony offense. An employee of a medical cannabis manufacturer must submit a completed criminal history records check consent form, a full set of classifiable fingerprints, and the required fees for submission to the Bureau of Criminal Apprehension before an employee may begin working with the manufacturer. The bureau must conduct a Minnesota criminal history records check and the superintendent is authorized to exchange the fingerprints with the Federal Bureau of Investigation to obtain the applicant's national criminal history record information. The bureau shall return the results of the Minnesota and federal criminal history records checks to the commissioner.

(k) A manufacturer may not operate in any location, whether for distribution or cultivation, harvesting, manufacturing, packaging, or processing, within 1,000 feet of a public or private school existing before the date of the manufacturer's registration with the commissioner.

(l) A manufacturer shall comply with reasonable restrictions set by the commissioner relating to signage, marketing, display, and advertising of medical cannabis.

(m) Before a manufacturer acquires hemp from a hemp grower, the manufacturer must verify that the hemp grower has a valid license issued by the commissioner of agriculture under chapter 18K.

(n) Until a state-centralized, seed-to-sale system is implemented that can track a specific medical cannabis plant from cultivation through testing and point of sale, the commissioner shall conduct at least one unannounced inspection per year of each manufacturer that includes inspection of:

- (1) business operations;
- (2) physical locations of the manufacturer's manufacturing facility and distribution facilities;
- (3) financial information and inventory documentation, including laboratory testing results; and
- (4) physical and electronic security alarm systems.

Subd. 2. Manufacturer; production. (a) A manufacturer of medical cannabis shall provide a reliable and ongoing supply of all medical cannabis needed for the registry program through cultivation by the manufacturer and through the purchase of hemp from hemp growers.

(b) All cultivation, harvesting, manufacturing, packaging, and processing of medical cannabis must take place in an enclosed, locked facility at a physical address provided to the commissioner during the registration process.

(c) A manufacturer must process and prepare any medical cannabis plant material or hemp plant material into a form allowable under section 152.22, subdivision 6, prior to distribution of any medical cannabis.

Subd. 3. Manufacturer; distribution. (a) A manufacturer shall require that employees licensed as pharmacists pursuant to chapter 151 be the only employees to give final approval for the distribution of medical cannabis to a patient. A manufacturer may transport medical cannabis or medical cannabis products that have been cultivated, harvested, manufactured, packaged, and processed by that manufacturer to another registered manufacturer for the other manufacturer to distribute.

(b) A manufacturer may distribute medical cannabis products, whether or not the products have been manufactured by that manufacturer.

(c) Prior to distribution of any medical cannabis, the manufacturer shall:

(1) verify that the manufacturer has received the registry verification from the commissioner for that individual patient;

(2) verify that the person requesting the distribution of medical cannabis is the patient, the patient's registered designated caregiver, or the patient's parent, legal guardian, or spouse listed in the registry verification using the procedures described in section 152.11, subdivision 2d;

(3) assign a tracking number to any medical cannabis distributed from the manufacturer;

(4) ensure that any employee of the manufacturer licensed as a pharmacist pursuant to chapter 151 has consulted with the patient to determine the proper dosage for the individual patient after

APPENDIX
Repealed Minnesota Statutes: H0600-3

reviewing the ranges of chemical compositions of the medical cannabis and the ranges of proper dosages reported by the commissioner. For purposes of this clause, a consultation may be conducted remotely using a videoconference, so long as the employee providing the consultation is able to confirm the identity of the patient, the consultation occurs while the patient is at a distribution facility, and the consultation adheres to patient privacy requirements that apply to health care services delivered through telemedicine;

(5) properly package medical cannabis in compliance with the United States Poison Prevention Packing Act regarding child-resistant packaging and exemptions for packaging for elderly patients, and label distributed medical cannabis with a list of all active ingredients and individually identifying information, including:

- (i) the patient's name and date of birth;
- (ii) the name and date of birth of the patient's registered designated caregiver or, if listed on the registry verification, the name of the patient's parent or legal guardian, if applicable;
- (iii) the patient's registry identification number;
- (iv) the chemical composition of the medical cannabis; and
- (v) the dosage; and

(6) ensure that the medical cannabis distributed contains a maximum of a 90-day supply of the dosage determined for that patient.

(d) A manufacturer shall require any employee of the manufacturer who is transporting medical cannabis or medical cannabis products to a distribution facility or to another registered manufacturer to carry identification showing that the person is an employee of the manufacturer.

Subd. 3a. Transportation of medical cannabis; staffing. (a) A medical cannabis manufacturer may staff a transport motor vehicle with only one employee if the medical cannabis manufacturer is transporting medical cannabis to either a certified laboratory for the purpose of testing or a facility for the purpose of disposal. If the medical cannabis manufacturer is transporting medical cannabis for any other purpose or destination, the transport motor vehicle must be staffed with a minimum of two employees as required by rules adopted by the commissioner.

(b) Notwithstanding paragraph (a), a medical cannabis manufacturer that is only transporting hemp for any purpose may staff the transport motor vehicle with only one employee.

Subd. 4. Report. Each manufacturer shall report to the commissioner on a monthly basis the following information on each individual patient for the month prior to the report:

- (1) the amount and dosages of medical cannabis distributed;
- (2) the chemical composition of the medical cannabis; and
- (3) the tracking number assigned to any medical cannabis distributed.

152.30 PATIENT DUTIES.

(a) A patient shall apply to the commissioner for enrollment in the registry program by submitting an application as required in section 152.27 and an annual registration fee as determined under section 152.35.

(b) As a condition of continued enrollment, patients shall agree to:

- (1) continue to receive regularly scheduled treatment for their qualifying medical condition from their health care practitioner; and
- (2) report changes in their qualifying medical condition to their health care practitioner.

(c) A patient shall only receive medical cannabis from a registered manufacturer but is not required to receive medical cannabis products from only a registered manufacturer.

152.31 DATA PRACTICES.

(a) Government data in patient files maintained by the commissioner and the health care practitioner, and data submitted to or by a medical cannabis manufacturer, are private data on individuals, as defined in section 13.02, subdivision 12, or nonpublic data, as defined in section 13.02, subdivision 9, but may be used for purposes of complying with chapter 13 and complying with a request from the legislative auditor or the state auditor in the performance of official duties.

APPENDIX
Repealed Minnesota Statutes: H0600-3

The provisions of section 13.05, subdivision 11, apply to a registration agreement entered between the commissioner and a medical cannabis manufacturer under section 152.25.

(b) Not public data maintained by the commissioner may not be used for any purpose not provided for in sections 152.22 to 152.37, and may not be combined or linked in any manner with any other list, dataset, or database.

(c) The commissioner may execute data sharing arrangements with the commissioner of agriculture to verify licensing, inspection, and compliance information related to hemp growers under chapter 18K.

152.32 PROTECTIONS FOR REGISTRY PROGRAM PARTICIPATION.

Subdivision 1. **Presumption.** (a) There is a presumption that a patient enrolled in the registry program under sections 152.22 to 152.37 is engaged in the authorized use of medical cannabis.

(b) The presumption may be rebutted by evidence that conduct related to use of medical cannabis was not for the purpose of treating or alleviating the patient's qualifying medical condition or symptoms associated with the patient's qualifying medical condition.

Subd. 2. **Criminal and civil protections.** (a) Subject to section 152.23, the following are not violations under this chapter:

(1) use or possession of medical cannabis or medical cannabis products by a patient enrolled in the registry program, or possession by a registered designated caregiver or the parent, legal guardian, or spouse of a patient if the parent, legal guardian, or spouse is listed on the registry verification;

(2) possession, dosage determination, or sale of medical cannabis or medical cannabis products by a medical cannabis manufacturer, employees of a manufacturer, a laboratory conducting testing on medical cannabis, or employees of the laboratory; and

(3) possession of medical cannabis or medical cannabis products by any person while carrying out the duties required under sections 152.22 to 152.37.

(b) Medical cannabis obtained and distributed pursuant to sections 152.22 to 152.37 and associated property is not subject to forfeiture under sections 609.531 to 609.5316.

(c) The commissioner, the commissioner's staff, the commissioner's agents or contractors, and any health care practitioner are not subject to any civil or disciplinary penalties by the Board of Medical Practice, the Board of Nursing, or by any business, occupational, or professional licensing board or entity, solely for the participation in the registry program under sections 152.22 to 152.37. A pharmacist licensed under chapter 151 is not subject to any civil or disciplinary penalties by the Board of Pharmacy when acting in accordance with the provisions of sections 152.22 to 152.37. Nothing in this section affects a professional licensing board from taking action in response to violations of any other section of law.

(d) Notwithstanding any law to the contrary, the commissioner, the governor of Minnesota, or an employee of any state agency may not be held civilly or criminally liable for any injury, loss of property, personal injury, or death caused by any act or omission while acting within the scope of office or employment under sections 152.22 to 152.37.

(e) Federal, state, and local law enforcement authorities are prohibited from accessing the patient registry under sections 152.22 to 152.37 except when acting pursuant to a valid search warrant.

(f) Notwithstanding any law to the contrary, neither the commissioner nor a public employee may release data or information about an individual contained in any report, document, or registry created under sections 152.22 to 152.37 or any information obtained about a patient participating in the program, except as provided in sections 152.22 to 152.37.

(g) No information contained in a report, document, or registry or obtained from a patient under sections 152.22 to 152.37 may be admitted as evidence in a criminal proceeding unless independently obtained or in connection with a proceeding involving a violation of sections 152.22 to 152.37.

(h) Notwithstanding section 13.09, any person who violates paragraph (e) or (f) is guilty of a gross misdemeanor.

(i) An attorney may not be subject to disciplinary action by the Minnesota Supreme Court or professional responsibility board for providing legal assistance to prospective or registered

APPENDIX
Repealed Minnesota Statutes: H0600-3

manufacturers or others related to activity that is no longer subject to criminal penalties under state law pursuant to sections 152.22 to 152.37.

(j) Possession of a registry verification or application for enrollment in the program by a person entitled to possess or apply for enrollment in the registry program does not constitute probable cause or reasonable suspicion, nor shall it be used to support a search of the person or property of the person possessing or applying for the registry verification, or otherwise subject the person or property of the person to inspection by any governmental agency.

Subd. 3. Discrimination prohibited. (a) No school or landlord may refuse to enroll or lease to and may not otherwise penalize a person solely for the person's status as a patient enrolled in the registry program under sections 152.22 to 152.37, unless failing to do so would violate federal law or regulations or cause the school or landlord to lose a monetary or licensing-related benefit under federal law or regulations.

(b) For the purposes of medical care, including organ transplants, a registry program enrollee's use of medical cannabis under sections 152.22 to 152.37 is considered the equivalent of the authorized use of any other medication used at the discretion of a physician or advanced practice registered nurse and does not constitute the use of an illicit substance or otherwise disqualify a patient from needed medical care.

(c) Unless a failure to do so would violate federal law or regulations or cause an employer to lose a monetary or licensing-related benefit under federal law or regulations, an employer may not discriminate against a person in hiring, termination, or any term or condition of employment, or otherwise penalize a person, if the discrimination is based upon either of the following:

(1) the person's status as a patient enrolled in the registry program under sections 152.22 to 152.37; or

(2) a patient's positive drug test for cannabis components or metabolites, unless the patient used, possessed, or was impaired by medical cannabis on the premises of the place of employment or during the hours of employment.

(d) An employee who is required to undergo employer drug testing pursuant to section 181.953 may present verification of enrollment in the patient registry as part of the employee's explanation under section 181.953, subdivision 6.

(e) A person shall not be denied custody of a minor child or visitation rights or parenting time with a minor child solely based on the person's status as a patient enrolled in the registry program under sections 152.22 to 152.37. There shall be no presumption of neglect or child endangerment for conduct allowed under sections 152.22 to 152.37, unless the person's behavior is such that it creates an unreasonable danger to the safety of the minor as established by clear and convincing evidence.

152.33 VIOLATIONS.

Subdivision 1. Intentional diversion; criminal penalty.
