My name is Teresa Falls and I am a mother of three adult daughters. I am asking that you oppose adding the amendment to the Minnesota constitution SF37, that would allow access to abortion services for anyone seeking them at any stage of pregnancy.

Since life begins at the moment of conception, I believe that we must do all we can to protect life, whether that be before or after birth. The procedures that are currently being utilized to end the lives of many unborn children are inhumane and do not take in consideration the pain that is caused to the unborn child as well as the trauma that many mothers experience following their abortion.

Please consider that although these procedures may seem benign and offer a quick and easy solution to an unwanted pregnancy, abortion is not the answer. I support additional funding for pregnancy resource centers to assist mothers and their families in their time of need.
