The Minnesota Department of Employment and Economic Development is the state's principal economic development agency, with programs promoting business recruitment, expansion and retention, workforce development, international trade and community development.

The department employs all available state government resources to upgrade the skills of Minnesota's workforce, foster economic independence and self-sufficiency, and facilitate an economic environment that produces net new job growth in excess of the national average.

The department consists of four divisions:

# **Business and Community Development**

The Business and Community Development Division provides a variety of financial and technical services to businesses, communities and economic development professionals. This division works with companies to expand in, or relocate to Minnesota, promotes international trade, finances business expansions and improvements in community infrastructure, and assists communities and development organizations with strengthened capacity to undertake development.

# Workforce Partnerships

The Workforce Partnerships Division includes programs and functions where the state works primarily through outside service providers that in turn work directly with businesses and individuals. This division provides training and support services to unemployed and dislocated workers, financial assistance for businesses seeking to upgrade the skills of their workforce, and grants to help ease a critical shortage of workers in the health and human services industry.

# WorkForce Services

The Workforce Services Division delivers workforce development programs including State Services for the Blind, Rehabilitation Services, Workforce Exchange Services, Labor Market Information and Disability Determinations Services. Many of these services are provided through the Minnesota WorkForce Centers located throughout the state.

# Unemployment Insurance

This division provides temporary income to people who have lost their jobs through no fault of their own.
