12 \$2,348,000 the first year and  
13 \$2,348,000 the second year are for the  
14 clean water partnership program. Any  
15 balance remaining in the first year  
16 does not cancel and is available for  
17 the second year. This appropriation  
18 may be used for grants to local units  
19 of government for the purpose of  
20 restoring impaired waters listed under  
21 section 303(d) of the federal Clean  
22 Water Act in accordance with adopted  
23 total maximum daily loads (TMDLs),  
24 including implementation of approved  
25 clean water partnership diagnostic  
26 study work plans that will assist in  
27 restoration of such impaired waters.

28 \$2,324,000 the first year and  
29 \$2,324,000 the second year must be  
30 distributed as grants to delegated  
31 counties to administer the county  
32 feedlot program. Distribution of the  
33 funds must be conducted according to  
34 the following three-part formula:

35 (1) Number of feedlots in the county:  
36 60 percent of the total appropriation  
37 must be distributed according to the  
38 number of feedlots that are required to  
39 be registered in the county. Grants  
40 awarded under this clause must be  
41 matched with a combination of local  
42 cash and in-kind contributions.

43 (2) Minimum program requirements: 25  
44 percent of the total appropriation must  
45 be distributed based on the county (i)  
46 conducting an annual number of  
47 inspections at feedlots that is equal  
48 to or greater than seven percent of the  
49 total number of registered feedlots  
50 that are required to be registered in  
51 the county; and (ii) meeting  
52 noninspection minimum program  
53 requirements as identified in the  
54 county feedlot workplan form. Counties  
55 that do not meet the inspection  
56 requirement must not receive 50 percent  
57 of the eligible funding under this  
58 clause. Counties must receive funding  
59 for noninspection requirements under  
60 this clause according to a scoring

1 system checklist administered by the  
2 department. The commissioner, in  
3 consultation with the Minnesota  
4 Association of County Feedlot Officers  
5 executive team, shall make a final  
6 decision regarding any appeal by a  
7 county regarding the terms and  
8 conditions of this clause.

9 (3) Performance credits: 15 percent of  
10 the total appropriation must be  
11 distributed according to work that has  
12 been done by the counties during the  
13 fiscal year. The amount must be  
14 determined by the number of performance  
15 credits a county accumulates during the  
16 year based on a performance credit  
17 matrix jointly agreed upon by the  
18 commissioner in consultation with the  
19 Minnesota Association of County Feedlot  
20 Officers executive team. To receive an  
21 award under this clause the county must  
22 meet the requirements of clause (2)(i)  
23 and achieve 90 percent of the  
24 requirements according to clause  
25 (2)(ii) of the formula. The rate of  
26 reimbursement per performance credit  
27 item must not exceed \$200.

28 Delegated counties are eligible for a  
29 minimum grant of \$7,500. To receive  
30 the full \$7,500 amount a county must  
31 meet the requirements under clause (2)  
32 of the formula. Nondelegated counties  
33 that apply for delegation shall receive  
34 a grant prorated according to the  
35 number of full quarters remaining in  
36 the program year from the date of  
37 commissioner approval of the  
38 delegation. Funds for awards to any  
39 newly delegated counties must be made  
40 out of the appropriation reserved for  
41 clause (3) of the formula. The  
42 commissioner, in consultation with the  
43 Minnesota Association of County Feedlot  
44 Officers executive team, may decide to  
45 use funds reserved for clause (3) of  
46 the formula in an amount not to exceed  
47 five percent of the total annual  
48 appropriation for initiatives to  
49 enhance existing delegated county  
50 feedlot programs, information and  
51 education, or technical assistance  
52 efforts to reduce feedlot-related  
53 pollution hazards. Any funds remaining  
54 after distribution under clauses (1)  
55 and (2) of the formula must be  
56 transferred to clause (3) of the  
57 formula. Any money remaining after the  
58 first year is available for the second  
59 year.

60 \$335,000 the first year and \$335,000  
61 the second year are for community  
62 technical assistance and education,  
63 including grants and technical  
64 assistance to communities for local and  
65 basinwide water quality protection.

66 \$405,000 the first year and \$405,000  
67 the second year are for individual

1 sewage treatment system (ISTS)  
 2 administration and grants. Of this  
 3 amount, \$86,000 in each year is for  
 4 assistance to local units of government  
 5 through competitive grant programs for  
 6 ISTS program development. Any  
 7 unexpended balance in the first year  
 8 does not cancel but is available in the  
 9 second year.

10 \$480,000 the first year and \$480,000  
 11 the second year are from the  
 12 environmental fund to address the need  
 13 for continued increased activity in the  
 14 areas of new technology review,  
 15 technical assistance for local  
 16 governments, and enforcement under  
 17 Minnesota Statutes, sections 115.55 to  
 18 115.58, and to complete the  
 19 requirements of Laws 2003, chapter 128,  
 20 article 1, sections 164 and 165. Of  
 21 this amount, \$48,000 each year is for  
 22 administration of individual septic  
 23 tank fees, as provided in Minnesota  
 24 Statutes, section 115.551.

25 Notwithstanding Minnesota Statutes,  
 26 section 16A.28, the appropriations  
 27 encumbered under contract on or before  
 28 June 30, 2007, for clean water  
 29 partnership, individual sewage  
 30 treatment systems (ISTS), Minnesota  
 31 River, total maximum daily loads  
 32 (TMDLs), and local and basinwide water  
 33 quality protection grants in this  
 34 subdivision are available until June  
 35 30, 2009.

19 \$2,348,000 the first year and  
 20 \$2,348,000 the second year are for the  
 21 clean water partnership program. Any  
 22 balance remaining in the first year  
 23 does not cancel and is available for  
 24 the second year. This appropriation  
 25 may be used for grants to local units  
 26 of government for the purpose of  
 27 restoring impaired waters listed under  
 28 section 303(d) of the federal Clean  
 29 Water Act in accordance with adopted  
 30 total maximum daily loads (TMDLs),  
 31 including implementation of approved  
 32 clean water partnership diagnostic  
 33 study work plans that will assist in  
 34 restoration of such impaired waters.

35 \$2,324,000 the first year and  
 36 \$2,324,000 the second year must be  
 37 distributed as grants to delegated  
 38 counties to administer the county  
 39 feedlot program. Distribution of the  
 40 funds must be conducted according to  
 41 the following three-part formula:

42 (1) Number of feedlots in the county:  
 43 60 percent of the total appropriation  
 44 must be distributed according to the  
 45 number of feedlots that are required to  
 46 be registered in the county. Grants  
 47 awarded under this clause must be  
 48 matched with a combination of local  
 49 cash and in-kind contributions.

50 (2) Minimum program requirements: 25  
 51 percent of the total appropriation must  
 52 be distributed based on the county (i)  
 53 conducting an annual number of  
 54 inspections at feedlots that is equal  
 55 to or greater than seven percent of the

1 total number of registered feedlots  
2 that are required to be registered in  
3 the county; and (ii) meeting  
4 noninspection minimum program  
5 requirements as identified in the  
6 county feedlot workplan form. Counties  
7 that do not meet the inspection  
8 requirement must not receive 50 percent  
9 of the eligible funding under this  
10 clause. Counties must receive funding  
11 for noninspection requirements under  
12 this clause according to a scoring  
13 system checklist administered by the  
14 department. The commissioner, in  
15 consultation with the Minnesota  
16 Association of County Feedlot Officers  
17 executive team, shall make a final  
18 decision regarding any appeal by a  
19 county regarding the terms and  
20 conditions of this clause.

21 (3) Performance credits: 15 percent of  
22 the total appropriation must be  
23 distributed according to work that has  
24 been done by the counties during the  
25 fiscal year. The amount must be  
26 determined by the number of performance  
27 credits a county accumulates during the  
28 year based on a performance credit  
29 matrix jointly agreed upon by the  
30 commissioner in consultation with the  
31 Minnesota Association of County Feedlot  
32 Officers executive team. To receive an  
33 award under this clause the county must  
34 meet the requirements of clause (2)(i)  
35 and achieve 90 percent of the  
36 requirements according to clause  
37 (2)(ii) of the formula. The rate of  
38 reimbursement per performance credit  
39 item must not exceed \$200.

40 Delegated counties are eligible for a  
41 minimum grant of \$7,500. To receive  
42 the full \$7,500 amount a county must  
43 meet the requirements under clause (2)  
44 of the formula. Nondelegated counties  
45 that apply for delegation shall receive  
46 a grant prorated according to the  
47 number of full quarters remaining in  
48 the program year from the date of  
49 commissioner approval of the  
50 delegation. Funds for awards to any  
51 newly delegated counties must be made  
52 out of the appropriation reserved for  
53 clause (3) of the formula. The  
54 commissioner, in consultation with the  
55 Minnesota Association of County Feedlot  
56 Officers executive team, may decide to  
57 use funds reserved for clause (3) of  
58 the formula in an amount not to exceed  
59 five percent of the total annual  
60 appropriation for initiatives to  
61 enhance existing delegated county  
62 feedlot programs, information and  
63 education, or technical assistance  
64 efforts to reduce feedlot-related  
65 pollution hazards. Any funds remaining  
66 after distribution under clauses (1)  
67 and (2) of the formula must be  
68 transferred to clause (3) of the  
69 formula. Any money remaining after the

1 first year is available for the second  
2 year.

3 \$335,000 the first year and \$335,000  
4 the second year are for community  
5 technical assistance and education,  
6 including grants and technical  
7 assistance to communities for local and  
8 basinwide water quality protection.

9 \$405,000 the first year and \$405,000  
10 the second year are for individual  
11 sewage treatment system (ISTS)  
12 administration and grants. Of this  
13 amount, \$86,000 in each year is for  
14 assistance to local units of government  
15 through competitive grant programs for  
16 ISTS program development. Any  
17 unexpended balance in the first year  
18 does not cancel but is available in the  
19 second year.

20 \$480,000 the first year and \$480,000  
21 the second year are from the  
22 environmental fund to address the need  
23 for continued increased activity in the  
24 areas of new technology review,  
25 technical assistance for local  
26 governments, and enforcement under  
27 Minnesota Statutes, sections 115.55 to  
28 115.58, and to complete the  
29 requirements of Laws 2003, chapter 128,  
30 article 1, sections 164 and 165. Of  
31 this amount, \$48,000 each year is for  
32 administration of individual septic  
33 tank fees, as provided in Minnesota  
34 Statutes, section 115.551.

35 Notwithstanding Minnesota Statutes,  
36 section 16A.28, the appropriations  
37 encumbered under contract on or before  
38 June 30, 2007, for clean water  
39 partnership, individual sewage  
40 treatment systems (ISTS), Minnesota  
41 River, total maximum daily loads  
42 (TMDLs), and local and basinwide water  
43 quality protection grants in this  
44 subdivision are available until June
