#FreeBritney **Unity** Rally

Wednesday, September 29

1:00 PM Pacific Time

Stanley Mosk Courthouse

(N. Grand Ave.)

The #FreeBritney movement began as a fan-led campaign to raise awareness about and ultimately free Britney Spears from her fraudulent, abusive 13-year conservatorship. However, Britney's case is only one of thousands of abusive conservatorships (also known as guardianships) across the country, exemplifying the failures of a corrupt system. Many cases garner less attention from the media and public. To elevate these stories, Free Britney L.A. has partnered with conservatorship reform activist Angeli Fawcette to present the **#FreeBritney Unity Rally**.

SPEAKERS

Thomas Kelly

As a Tuskegee Airman, James Johnson Kelly was a well-known celebrated war hero who received a Congressional Medal of Honor from former President Bush in 2006. But in 2007, he was placed into a guardianship by a probate court in Texas. His son, Thomas, had no knowledge the guardianship was taking place. Major Kelly died a ward of the state of Texas on December 29, 2018, at 91 years old.

Mary Bush

For years, Mary Bush's mom resided in a care center, where Mary was only allowed to visit once per month for one hour, and was court-ordered to pay for the visit and to be monitored by a Sheriff and an Adult Protective Services supervisor. Mary fought the system for years but her mom was never freed. In June of this year, Mary received word that her mom had passed away.

MARY BUSH SPEAKS ABOUT THE FRAUDULENT GUARDIANSHIP THAT TOOK HER MOTHERS LIFE

<https://www.youtube.com/watch?v=5jLGO6ZBs44>

For years, Mary Bush's mom resided in the care center where Mary was only allowed to visit once per month, for an hour.

Mary fought the system for years, but her mom was never free. Here's her story.

Angelique Fawcette

One moment right before Mary speaks. I just want to, again, thank you so much for all of you actually caring, giving any heart to these stories. Mary Bush, [inaudible 00:00:27], these are my friends and I've always told every time I come out here, everything that you have done has allowed stories like these, people who don't have a name to share their story and to share the evil that has happened to them, with the conservatorship court. So, I love Mary and I'm going to pass this on to you.

Thank you.

Mary Bush

Hi. I'd like to thank all of you for showing up today and thank every advocate who's ever worked on guardianship or conservatorship issues. And I hope we all continue to elevate this issue of fraudulent guardianships and conservatorships. Thank you to the "Britney movement" and to my friend, Angelique Fawcette for your hard work in exposing this disgusting human and civil rights violation. I also would like to ask for help from all Americans to demand oversight and accountability and investigations into these cases. Inalienable rights are non-transferable. That is a constitutional right. The legal community and our legislators have sworn oaths to uphold the constitution and they are not investigated nor are they held accountable for violation of those oaths. I am here today to give a voice to the victims, like my mother Genevieve Bush, who, judge Katherine Platt never gave her a single day in court. In June of 2011, sentenced her to life without parole.

Convicted felons have more rights than this. For the past 12 years of guardianship, she has suffered unfathomable injuries, isolation and neglect, all condoned, participated and promoted by the Chester County, Pennsylvania judges, attorneys and even adult protective services. The head of adult protective services, Denise Getgen, I am trying to hold accountable for the 12 years of never helping my mother. The district attorneys are involved. The attorney general and higher courts refused to address this issue. My mother Genevieve Bush, after 12 years, 6 of which she was unlawfully incarcerated into a system of parasitically attached nursing homes and doctors, died alone this June 16th. The same pattern in practice of all victims and fraudulent guardianship's experience.

Courts are holding hearings without a jury, where unqualified experts make fraudulent diagnoses, then target and defame the legitimate chosen protector. Then isolate, medicate, neglect the victim, all the while, while emptying the estates. Then after disposing of the victim, they finish it off in probate. My mother Genevieve Bush needs a criminal investigation into her case. If anybody's watching that can do that, please contact me, I'm in West Chester,

Pennsylvania. The background is that her sons, Joseph and Michael Bush abused their power of attorney when my father had a stroke, they stole \$1.5 million from her. And then in 2007, she came back and she sued them.

But then they used the guardianship system in 2009, suing her for guardianship to gain back the power and the money. In 2009, the attorney, who opposed her in 2007, Alexander John Chotkowski filed for a fraudulent guardianship, filing papers that weren't true in the orphans court. He has profited to this day from 2007. In June of 2011, judge Katherine Platt, without any due process, forced my mother into a guardianship, never once meeting her, never even seeing her face. In 2012, Judge Platt had me marshaled to the recorder's office and signed away our home. In 2013, she then evicted me and our pets. Then Genevieve Bush's son moved in and within months he digitally penetrated her, on multiple occasions. The Chester County District Attorney told the Pennsylvania state police to stand down and don't investigate it. In 2015, my mother was punched in her home and then an attorney walked into her home, Nancy Pine and APS supervisor, Doug Bernard.

And they took my mother from her home with a court order signed by mom's own attorney, Mark Tunnell. She was put in Pocopson home and forced into a reclined geri chair with the intention to cripple her. A for-profit guardian named Carol J Hershey was then applied. She has no state license. She's a business owner who had a contract with APS, which is a conflict. Carol Hershey was assigned guardian, she began the false pretense billing and isolated my mom and started focusing and targeting me because I was advocating for the protection of my mother. The retaliation became swift. I was in the Park lane nursing home where my mom was incarcerated and I was calling the health department for her injuries, her neglect. And because I did that, I called the police for an investigation, but the police turned on me and beat me up in the parking lot.

I ended up in the hospital. My mom suffered broken bones. We were both threatened that they would make sure we never see each other again. And in 2018, mom suffered a spiral fracture of her leg, without any medical help for over two weeks. She was denied all this time to see her cardiologist, her urologist, her orthopedic doctor. She was denied physical therapy. In January 2016, I got her out via 911 to the hospital. But I was also attacked for doing that and targeted. All during this stuff, the DA's office in Chester County has told the police to stand down. The courthouse even went so far as using my email and my identity. We traced the IP address back to the courthouse. Judge Platt is in violation of superior court orders that said that my brother, Michael Bush could never be a guardian. And just recently judge Bret Bender, after my mom died from all this in June of this year, had her secretly buried. Her body was just dumped in a grave, no funeral, no family, nothing. She was dumped like trash.

Crowd.....

You can do it [crowd cheering] DA Deb Ryan should go to jail.

End conservatorship abuse. Yes.

Mary continued.....

For me, fighting for my mom, I lost over half a million dollars to attorneys. So I decided enough. I'm going pro se, I'm going to learn the law and I'm coming after them. I currently have a federal case against the cop who beat me up. I have a case against the people who stole our home. I have a case in the Pennsylvania Supreme court and I'm going to try to do the probate thing that they're trying to do now, too.

[Crowd yelling]

Go Get them!!!! , You got this!!!!, you got this!!!! My hero!!!!

Mary continued....

The way they sell our homes is they sell to home flippers and ours went to Cameron Adams. Just a week before my mom died, my mom died on the 16th. On the 17th, they were filing in the court to get the money from the sale of the property.

I had to watch Cameron Adams tell me "I'm going to take all your belongings out of the house and I'm going to piss on them". So he admitted that and then he started dumping everything out of our house. There's no exception in the crimes code, but under these fraudulent guardianships and conservatorships, it goes on and on and on. They stand down. So, anybody who's interested, put your case on Judicial-pedia, because we're trying to form a place where everybody can put their stuff and we need to investigate, incarcerate and end probate.

[Crowd cheering].

Mary continued

Last thing I want to say is I saw my mom last in January 2020, and I gave her a hug. That's the last time I ever saw her alive. And every time I saw my mom, I would say "Make it last". It has to last forever now. I love you, mom.

[Crowd cheering].

"For Genevieve"
