S.F. No. 3032 – Authorizes online process for county land sales

Author: Senator David J. Tomassoni

Prepared by: Joan White, Senate Counsel (651/296-3814)

Date: March 18, 2022

SF 3032 amends chapter 373, the chapter of law related to the power, duties, and privileges of counties, by authorizing an online process for county land sales. The bill modifies the requirements related to the sale, lease, or conveyance of property owned by the county. Current law requires the county to advertise for bids and proposals in the official newspaper. This bill also requires the county to advertise on the county's website and allows bids to be solicited and accepted by the online auction process authorized under the municipal contracting law in chapter 471.
