

The Greater MN Business Development Public Infrastructure (BDPI) Grant Program

Providing the public infrastructure necessary for private investment

What is BDPI?

- The BDPI program provides grants to cities in Greater Minnesota of up to 50% of the capital costs for the public infrastructure necessary to expand economic growth, retain or create jobs, or increase the tax base (§ 116J.431).
- Greater Minnesota cities depend on the BDPI program to attract new businesses and create jobs in their communities.

BDPI since 2010:

- 145 BDPI grants to Greater Minnesota cities and counties
- More than 5,000 jobs created and 9,500 retained
- More than \$75 million awarded

“As our state continues on its path to economic recovery from the COVID-19 pandemic, these infrastructure investments are a vital tool for future economic growth.

We urge the Minnesota Legislature to consider options to increase funding capacity for BDPI grants in the future”

--- DEED Commissioner Steve Grove,
International Falls Journal, 7/14/2020

2023 BDPI Proposal:

- \$20 million in General Obligation bonds
 - Senate File _____ House File _____
- Increase base General Fund appropriation to at least \$2.5M per year
 - Senate File _____ House File _____

Support the Greater Minnesota BDPI program and help Greater Minnesota’s economy grow!

How are BDPI grants being used across Greater Minnesota?

Grand Rapids:
\$250,000 for utility expansion to serve industrial park.

Bovey: \$984,548 for streets/utilities for industrial park project.

Virginia: \$200,000 for business development infrastructure.

Bagley:
\$211,600 for new utilities to industrial park.

Two Harbors:
\$241,054 to facilitate a water main relocation.

Perham:
\$1,396,750 to expand existing industrial park.

St. Joseph:
\$1,245,000 for industrial park infrastructure.

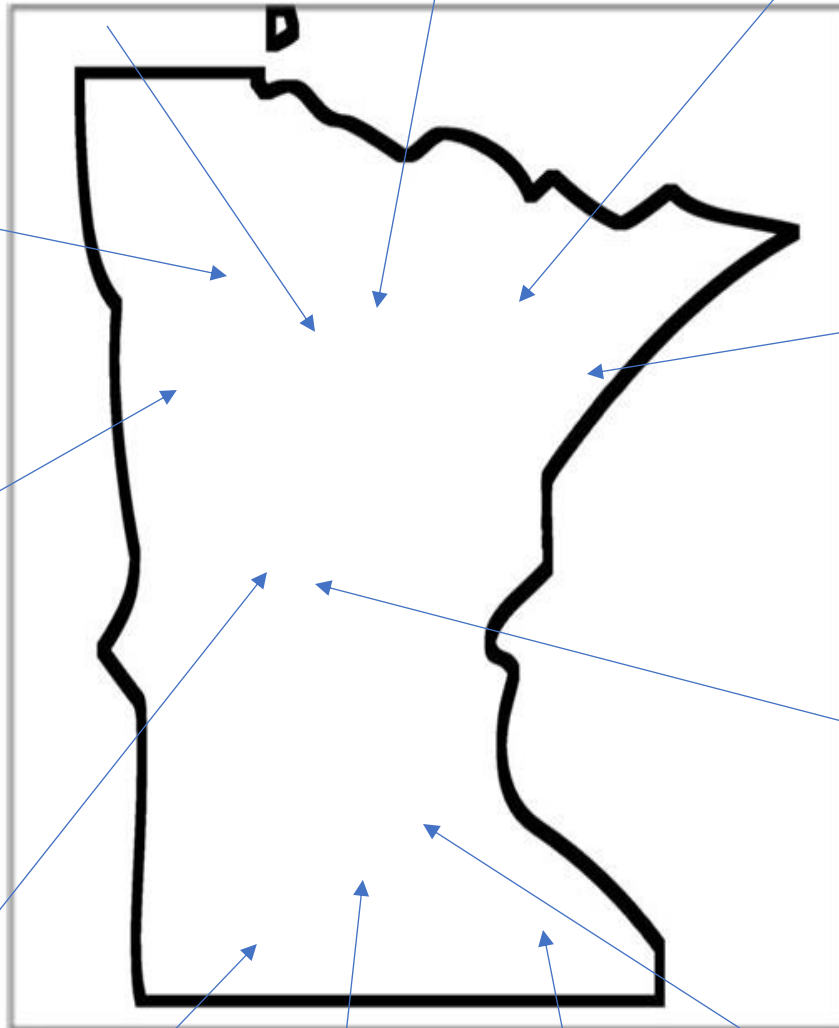

Melrose: \$1M to support turkey plant expansion.

Faribault: \$2M for new water tower/main in business park.

Lakefield: \$219,600 to relocate overhead lines to allow manufacturing plant expansion.

North Mankato:
\$394,209 to extend utilities to industrial park.

Eyota: \$434,727 for infrastructure serving new industrial park.

The BDPI Grant Program Has Helped More Than 70 Greater Minnesota Communities Grow in The Past Ten Years Alone!
