Subdivision 1. **Drug price information from the commissioner of health and other sources.** (a) The commissioner of health shall provide to the board the information reported to the commissioner by drug manufacturers under section 62J.84, subdivisions 3, 4, and 5. Subd. 2. **Identification of certain prescription drug products.** (a) The board, in consultation with the advisory council, shall identify selected prescription drug products based on the following criteria:

(1) brand name drugs or biologics for which the WAC increases by more than 15 percent or by more than $3,000 during any 12-month period or course of treatment if less than 12 months, after adjusting for changes in the consumer price index (CPI);

(2) brand name drugs or biologics with a WAC of $60,000 or more per calendar year or per course of treatment;

(3) biosimilar drugs that have a WAC that is not at least 20 percent lower than the referenced brand name biologic at the time the biosimilar is introduced; and

(4) generic drugs for which the WAC:

(i) is $100 or more, after adjusting for changes in the CPI, for:

(A) a 30-day supply lasting a patient for 30 consecutive days based on the recommended dosage approved for labeling by the United States Food and Drug Administration (FDA);

(B) a supply lasting a patient for fewer than 30 days based on recommended dosage approved for labeling by the FDA; or

(C) one unit of the drug if the labeling approved by the FDA does not recommend a finite dosage; and

(ii) is increased by 200 percent or more during the immediate preceding 12-month period, as determined by the difference between the resulting WAC and the average of the WAC reported over the preceding 12 months, after adjusting for changes in the CPI.

(b) The board, in consultation with the advisory council and the commissioner of health, may identify prescription drug products not described in paragraph (a) that may impose costs that create significant affordability challenges for the state health care system or for patients, including but not limited to drugs to address public health emergencies.

(c) The board shall make available to the public the names and related price information of the prescription drug products identified under this subdivision, with the exception of information determined by the board to be proprietary under the standards developed by the board under section 62J.91, subdivision 3, and information provided by the commissioner of health classified as not public data under section 13.02, subdivision 8a, or as trade secret information under section 13.37, subdivision 1, paragraph (b), or as trade secret information under the Defend Trade Secrets Act of 2016, United States Code, title 18, section 1836, as amended.

(b) The board shall consider requests by the public for the board to proceed with a cost review of any prescription drug product identified under this section.

(c) If there is no consensus among the members of the board on whether to initiate a cost review of a prescription drug product, any member of the board may request a vote to determine whether to review the cost of the prescription drug product.

Sec. 13. **[62J.91] PRESCRIPTION DRUG PRODUCT REVIEWS.**

Subdivision 1. **General.** Once a decision by the board has been made to proceed with a cost review of a prescription drug product, the board shall conduct the review and make a determination as to whether appropriate utilization of the prescription drug under review, based on utilization that is consistent with the United States Food and Drug Administration (FDA) label or standard medical practice, has led or will lead to affordability challenges for the state health care system or for patients.

Subd. 2. **Review considerations.** In reviewing the cost of a prescription drug product, the board may consider the following factors:

(1) the price at which the prescription drug product has been and will be sold in the state;

(2) manufacturer monetary price concessions, discounts, or rebates, and drug-specific patient assistance;

(3) the price of therapeutic alternatives;

(4) the cost to group purchasers based on patient access consistent with the FDA-labeled indications and standard medical practice;

(5) measures of patient access, including cost-sharing and other metrics;

(6) the extent to which the attorney general or a court has determined that a price increase for a generic or off-patent prescription drug product was excessive under sections 62J.842 and 62J.844;

(7) any information a manufacturer chooses to provide; and

(8) any other factors as determined by the board.

Subd. 3. **Public data; proprietary information.** (a) Any submission made to the board related to a drug cost review must be made available to the public with the exception of information determined by the board to be proprietary and information provided by the commissioner of health classified as not public data under section 13.02, subdivision 8a, or as trade secret information under section 13.37, subdivision 1, paragraph (b), or as trade secret information under the Defend Trade Secrets Act of 2016, United States Code, title 18, section 1836, as amended.

(b) The board shall establish the standards for the information to be considered proprietary under paragraph (a) and section 62J.90, subdivision 2, including standards for heightened consideration of proprietary information for submissions for a cost review of a drug that is not yet approved by the FDA.

(c) Prior to the board establishing the standards under paragraph (b), the public shall be provided notice and the opportunity to submit comments.

(d) The establishment of standards under this subdivision is exempt from the rulemaking requirements under chapter 14, and section 14.386 does not apply.

Sec. 14. **[62J.92] DETERMINATIONS; COMPLIANCE; REMEDIES.**

Subdivision 1. **Upper payment limit.** (a) In the event the board finds that the spending on a prescription drug product reviewed under section 62J.91 creates an affordability challenge for the state health care system or for patients, the board shall establish an upper payment limit after considering:

(1) extraordinary supply costs, if applicable;

(2) the range of prices at which the drug is sold in the United States according to one or more pricing files accessed under section 62J.90, subdivision 1, and the range at which pharmacies are reimbursed in Canada; and

(3) any other relevant pricing and administrative cost information for the drug.

(b) An upper payment limit applies to all purchases of, and payer reimbursements for, a prescription drug that is dispensed or administered to individuals in the state in person, by mail, or by other means, and for which an upper payment limit has been established.

Subd. 2. **Implementation and administration of the upper payment limit.** (a) An upper payment limit may take effect no sooner than 120 days following the date of its public release by the board.

(b) When setting an upper payment limit for a drug subject to the Medicare maximum fair price under United States Code, title 42, section 1191(c), the board shall set the upper payment limit at the Medicare maximum fair price.

(c) Health plan companies and pharmacy benefit managers shall report annually to the board, in the form and manner specified by the board, on how cost savings resulting from the establishment of an upper payment limit have been used by the health plan company or pharmacy benefit manager to benefit enrollees, including but not limited to reducing enrollee cost-sharing.

Subd. 3. **Noncompliance.** (a) The board shall, and other persons may, notify the Office of the Attorney General of a potential failure by an entity subject to an upper payment limit to comply with that limit.

(b) If the Office of the Attorney General finds that an entity was noncompliant with the upper payment limit requirements, the attorney general may pursue remedies consistent with chapter 8 or appropriate criminal charges if there is evidence of intentional profiteering.

(c) An entity who obtains price concessions from a drug manufacturer that result in a lower net cost to the stakeholder than the upper payment limit established by the board is not considered noncompliant.

(d) The Office of the Attorney General may provide guidance to stakeholders concerning activities that could be considered noncompliant.

Subd. 4. **Appeals.** (a) Persons affected by a decision of the board may request an appeal of the board's decision within 30 days of the date of the decision. The board shall hear the appeal and render a decision within 60 days of the hearing.

(b) All appeal decisions are subject to judicial review in accordance with chapter 14.

Sec. 15. **[62J.93] REPORTS.**

Beginning March 1, 2024, and each March 1 thereafter, the board shall submit a report to the governor and legislature on general price trends for prescription drug products and the number of prescription drug products that were subject to the board's cost review and analysis, including the result of any analysis as well as the number and disposition of appeals and judicial reviews.

Sec. 16. **[62J.94] ERISA PLANS AND MEDICARE DRUG PLANS.**

(a) Nothing in sections 62J.85 to 62J.95 shall be construed to require ERISA plans or Medicare Part D plans to comply with decisions of the board. ERISA plans or Medicare Part D plans are free to choose to exceed the upper payment limit established by the board under section 62J.92.

(b) Providers who dispense and administer drugs in the state must bill all payers no more than the upper payment limit without regard to whether an ERISA plan or Medicare Part D plan chooses to reimburse the provider in an amount greater than the upper payment limit established by the board.

(c) For purposes of this section, an ERISA plan or group health plan is an employee welfare benefit plan established by or maintained by an employer or an employee organization, or both, that provides employer sponsored health coverage to employees and the employee's dependents and is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Sec. 17. **[62J.95] SEVERABILITY.**

If any provision of sections 62J.85 to 62J.94 or the application thereof to any person or circumstance is held invalid for any reason in a court of competent jurisdiction, the invalidity does not affect other provisions or any other application of sections 62J.85 to 62J.94 that can be given effect without the invalid provision or application.

Sec. 18. Minnesota Statutes 2022, section 151.071, subdivision 1, is amended to read:
