

Trust Fund baby? Yes.

All **849,443** public school students in the state of Minnesota have a trust fund to help pay for their education.

2.5 million total acres of land—that's larger than the states of Rhode Island and Delaware combined.

193 million tons of iron ore mined...

producing enough steel to build **424,000** modern wind turbines.

\$327 million distributed in the past 10 years.

170 water access sites provide free access to 1,568 square miles of Minnesota lakes.

Since **2014** the value of the Permanent School Fund has grown from:

\$1.1 billion in 2014

to **\$1.7 billion** in 2023

Sufficient wood fiber from sustainable timber harvests for **3 billion** notebooks.

**MINNESOTA
SCHOOL TRUST LANDS**

School trust lands are an important and broadly misunderstood category of land ownership. They were established in the Minnesota Constitution to be held in trust for a single and specific purpose: to generate revenue for public schools.

The Office of School Trust Lands (OSTL) develops and advocates for sustainable asset management strategies that optimize long-term revenue for Minnesota's public schools. OSTL has a fiduciary duty to ensure that both current and future beneficiaries receive maximum economic returns from activities on school trust lands.
