Testimony to the Senate Elections Committee re SF 2270

Dear Chair Carlson, Ranking Member Senator Koran, and Members of the Committee:

As a Minnesotan who cares passionately about our state and the state of democracy in our nation, I strongly support Ranked Choice Voting.

It is not complicated, it encourages civility, it eliminates expensive run-offs, and most importantly, it will strengthen the vote of each voter!

With RCV our elected representatives will enjoy broader support. Our voices will be better heard at the ballot box.

We are all weary of wringing our hands about negative destructive partisan campaigning and now – there is something we can do about it!

RCV is better for both parties' candidates, in short, for all of us.

Sincerely,

Marilyn Carlson Nelson
