

Hello Senators,

I am Troy Houpe and I am a Black Minneapolis voter. I have seen how negative campaigning during elections discourages me, my friends, and the community from voting. I also don't understand how candidates in the traditional system continue to win with less than 50% of the vote.

I support a simple change that will allow less negative campaigning during elections and a candidate reaching a majority of support encourages more people like me to get involved and vote in elections.

I strongly urge you to support measures that expand RCV statewide and locally in Minnesota.

Thank you,

Troy S. Houpe
