

We received the following letter separately from 103 Minnesotans listed below

Members of the Elections Committee,

As your constituent, I support of Minnesota establishing a more robust public finance program to ensure that the voices of every day Minnesotans have their voices heard.

Public funding from small contributions would allow candidates to listen to their constituents instead of just a few wealthy voices. It encourages politicians to seek out numerous non-wealthy supporters who are more reflective of our districts when fundraising, rather than just a few huge contributions. It would broaden the pool of contributors, officeholders, and candidates while also amplifying regular people's views.

With more voters and candidates from diverse backgrounds being involved in the electoral process, public trust in government will grow and Minnesota's democracy will grow stronger.

Please support a robust public financing system for Minnesota. Thank you for your time.

Sincerely,

Bruce Kuehmicel	Caledonia, 55921
