

S.F. No. 450 – Products Containing PFAS Notice Requirement

Author: Senator Heather Gustafson

Prepared by: Ben Stanley, Senate Counsel (651/296-4793)

Date: February 21, 2023

Section 1 [Definitions] defines “commissioner,” “intentionally added PFAS,” “manufacturer,” “perfluoroalkyl and polyfluoroalkyl substances”/“PFAS,” “product,” and “product component.”

A “manufacturer” is defined to include a person that manufactures a product or whose brand name is affixed to the product. If the person that manufactured or assembled the product or whose brand name is affixed to the product does not have a presence in the United States, the term includes the importer or first domestic distributor of the product.

A “product” is defined as an item manufactured, assembled, packaged, or otherwise prepared for sale to consumers, including product components, sold or distributed for personal, residential, commercial, or industrial use. The term does not include used products.

Section 2 [Notice Required] requires a manufacturer of a product for sale in this state that contains intentionally added PFAS to notify the commissioner of the function served by PFAS in the product, the amount of each of PFAS in the product, and other relevant information.

Requires that the required notice be submitted to the commissioner of the Pollution Control Agency (PCA) by April 1, 2025, for products that were sold, offered for sale, or distributed in the state as of the day following final enactment. For all other products, the notice must be submitted no later than 30 days before the initial sale, offer for sale, or distribution of the sale in this state.

Section 3 [Commissioner’s Authority] authorizes the commissioner of the PCA to waive notice requirements where the information is already publicly available. Allows the commissioner to collaborate with other states on the acceptance of notices in a shared system.

Section 4 [Rulemaking] requires the commission of the PCA to adopt rules implementing the bill. These rules may include a fee to be paid by a manufacturer upon submission of a notice required to be submitted under the act.

Effective Date. Section 2 is effective January 1, 2026. The remainder is effective the day following final enactment.
