6. S.F. 834 (Morrison) PFAS in certain products prohibition
7. Adjournment

****Note: Due to the related subject matter of the bills being heard today, along with the high volume of testifiers that have signed up, the plan is to take up testimony first, and then take action on the individual bills. We will reserve the first half of the hearing for testimony, and the second half for action on the bills. So, testifiers should be prepared to address their points on all the bills in their initial testimony.*
