

To Whom It May Concern,

Please do not vote in favor of the paid family medical leave bill. I am struggling as a provider to maintain income as it is. Medicare cut our reimbursement and expenses are double of what they were just 2 years ago. I am not able to sustain more expenses and small businesses like ours are struggling across the board. There won't be many of us left if expenses continue to climb and we continue to get our wages cut but insurance companies paying us less.

Sincerely,

Dr. Kelly J. Nesvold
