

## S.F. No. 927 – Transporting Petroleum Product Requirements

**Author:** Senator Robert J. Kupec

**Prepared by:** Tim Greenfield, Senate Counsel (651/296-3801)

**Date:** March 7, 2023

---

**Section 1 [Driver requirements]** amends the requirements for transporting petroleum products.

**Paragraph (a)** applies the proposed subdivision to intrastate commerce.

**Paragraph (b)** requires that drivers, who operate a tank truck vehicle with a capacity of less than 3,500 gallons to transport petroleum products, must have a valid commercial driver's license with endorsements for hazardous materials and tank vehicles and be at least 18 years old.

**Paragraph (c)** requires that drivers, who operate a vehicle with an overall aggregate capacity of less than 3,500 gallons used to transport liquefied petroleum gases in nonbulk or bulk packages or in consumer storage tanks, must have a valid commercial driver's license with a hazardous materials endorsement and be at least 18 years old.

**Paragraph (d)** requires drivers transporting liquified petroleum gases to have a tank vehicle endorsement if the aggregate capacity being transported is 1,000 gallons or more and the vehicle has a gross weight of 26,000 pounds.

**Section 2 [Repealer]** repeals the current law governing the age limit of a driver of a motorized tank truck vehicle.
