

U.S. HIGHWAY 10

Strategic Congestion Mitigation (SCM)

- Highway operates at E/F levels of service (LOS) during peak rush hours.
- LOS F is the worst rating a highway can receive.
- Traffic volumes on this section of US Hwy 10 are similar to the six-lane section of I-35W just north of US Hwy 10.

Results

Reduce pressure on local roadway networks

PROJECTIONS: Reduction of 2,000 vehicles per day (vpd) on Hanson Blvd

Reduction of 1,400 vpd on Coon Rapids Blvd
