

S.F. No. 868 – Medication Repository Program

Author: Senator Alice Mann

Prepared by: Alexis C. Stangl, Director (651/296-4397)

Date: March 6, 2023

Section 1 [Medication repository program] renames the prescription drug repository program as the medication repository program. Requires the contract between the Board of Pharmacy and a central repository to include: 1) a requirement that the board transfer to the central repository any money appropriated to the board for the purpose of the program; 2) reporting on performance measures; and 3) a requirement to annually audit the central repository's expenditures. Allows a central repository to seek grants and funds from non-state sources.

Section 2 [Appropriations; medication repository program] provides a blank appropriation from the general fund to the Board of Pharmacy to transfer to the central repository to administer the medication repository program.
